Credit will be granted for only one of CLST 314 or AMNE 346. Prerequisite: Second-year standing or above.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.

AMNE_V 347-001	AMNE_V	347	001	Classical Comedy	W1	The plays of the Greek and Roman comic dramatists: Aristophanes, Menander, Plautus and Terence, in translation. Credit will be granted for only one of CLST 318 or AMNE 347. Prerequisite: Second-year standing and above.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
AMNE_V 356-001	AMNE_V	356	001	Roman Religion	W2	Roman religions between the ninth century BCE and the fourth century CE, including mystery religions, magic, emperor worship, and early Christianity, with particular attention devoted to the primary sources. Some knowledge of ancient Rome is recommended. Credit will be granted for only one of CLST 334 or AMNE 356.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.	
AMNE_V 361-001	AMNE_V	361	001	The Origins of Judaism	W2	Surveys the history of Jews and Judaism in the Second Temple era, from the destruction of the First Jerusalem Temple (586 B.C.E.) to the beginnings of the rabbinic movement (200 C.E.). Credit will be granted for only one of RELG 330 or AMNE 361.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
AMNE_V 364-001	AMNE_V	364	001	Magic, Prophecy, and Divination in the Biblical World	W2	Textual, contextual, and comparative exploration of the reciprocal relations between gods and people in the Hebrew Bible, Near Eastern ritual texts, and ancient experience. Credit will be granted for only one of RELG 305 or AMNE 364. Equivalency: RELG 305.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
AMNE_V 366-001	AMNE_V	366	001	The Origins of Christianity	W2	The origins of Christianity as reflected in early Christian literature of the first and early second centuries (including the New Testament). Credit will be granted for only one of RELG 317 or AMNE 366.	In Person Learning	Arranged	Arranged	
AMNE_V 369-001	AMNE_V	369	001	Jesus: Between History and Literature	W2	The figure of Jesus, his teachings, and his reception through literary and contextual analysis of the canonical and apocryphal gospels. Recommended: AMNE 264 or previous experience reading the New Testament. Credit will be granted for only one of RELG 414, AMNE 369, or AMNE 463.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
AMNE_V 371-001	AMNE_V	371	001	Ancient Egypt: The Archaeology of the Land of the Pharaohs	W1	The material remains of the ancient Egyptians from monumental tombs and temples to the artifacts of daily life; the development of Egyptian civilization from the rise of the first rulers to its incorporation into the Roman Empire. Credit will be granted for only one of NEST 304, AMNE 371 or ARTH 325. Equivalency: ARTH325	In Person Learning	Arranged	Arranged	
AMNE_V 372-001	AMNE_V	372	001	The Archaeology of Ancient Iraq and Syria: Babylon and Beyond	W1	An overview of the archaeology of the ancient Near East, with special emphasis on the civilizations of Mesopotamia, from the appearance of the first cities (c. 3400 BCE) to the end of the Persian period (c. 330 BCE). AMNE 170 recommended as preparation. Credit will be granted for only one of NEST 319, AMNE 372 or ARTH 319. Equivalency: ARTH319	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.	
AMNE_V 372-002	AMNE_V	372	002	The Archaeology of Ancient Iraq and Syria: Babylon and Beyond	W2	An overview of the archaeology of the ancient Near East, with special emphasis on the civilizations of Mesopotamia, from the appearance of the first cities (c. 3400 BCE) to the end of the Persian period (c. 330 BCE). AMNE 170 recommended as preparation. Credit will be granted for only one of NEST 319, AMNE 372 or ARTH 319. Equivalency: ARTH319	In Person Learning	Arranged	Arranged	
AMNE_V 376-001	AMNE_V	376	001	Greek Art and Architecture	W1	The visual culture of the ancient Greek world in the second and first millennia BCE, especially from c. 1000 to 30 BCE. Credit will be granted for only one of CLST 331, AMNE 376 or ARTH 331. Equivalency: ARTH 331	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
AMNE_V 377-001	AMNE_V	377	001	Roman Art and Architecture	W2	The visual culture of the ancient Roman world from the 8th century BCE to the 4th century CE. Credit will be granted for only one of CLST 332, AMNE 377 or ARTH 332. Equivalency: ARTH 332	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
AMNE_V 377-002	AMNE_V	377	002	Roman Art and Architecture	W2	The visual culture of the ancient Roman world from the 8th century BCE to the 4th century CE. Credit will be granted for only one of CLST 332, AMNE 377 or ARTH 332. Equivalency: ARTH 332	In Person Learning	Arranged	Arranged	
AMNE_V 392-001	AMNE_V	392	001	Introduction to Akkadian	W2	The basic grammar and introduction to the cuneiform writing system of the Akkadian language of the Ancient Near East. Credit will be granted for only one of NEST 315 or AMNE 392.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.	
AMNE_V 394-001	AMNE_V	394	001	Introduction to Aramaic	W2	Basics of Imperial Aramaic grammar and vocabulary, with readings from biblical and other ancient sources from the eastern Mediterranean and Southwest and Central Asia.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.	
AMNE_V 440-A_001	AMNE_V	440	A	A_001	Seminar in Ancient Mediterranean and Near Eastern Literature and Ideas	W2	Selected topics in the literature, ideas, and arts of the ancient Mediterranean, Near East and/or Egypt, with an emphasis on research. A maximum of 12 credits will be granted for AMNE 440 and CLST 402. Students should consult the AMNE Undergraduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
AMNE_V 440-A_002	AMNE_V	440	A	A_002	Seminar in Ancient Mediterranean and Near Eastern Literature and Ideas	W2	Selected topics in the literature, ideas, and arts of the ancient Mediterranean, Near East and/or Egypt, with an emphasis on research. A maximum of 12 credits will be granted for AMNE 440 and CLST 402. Students should consult the AMNE Undergraduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
AMNE_V 441-A_001	AMNE_V	441	A	A_001	Literature of Ancient Egypt or the Ancient Near East	W1	Topics in the main genres and texts of Egyptian and/or Ancient Near Eastern Literature and their modern interpretation. A maximum of 6 credits will be granted for AMNE 441, NEST 401, NEST 505, and AMNE 541. Students should consult the AMNE Undergraduate Advisor before registering.	In Person Learning	Arranged	Arranged
AMNE_V 461-B_001	AMNE_V	461	B	B_001	Seminar in Biblical Studies	W1	Selected topics in biblical and related texts. A maximum of 6 credits will be granted for AMNE 461 or RELG 475. Students should consult the AMNE Undergraduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
AMNE_V 462-C_001	AMNE_V	462	C	C_001	Seminar in Early Judaism	W2	Selected topics in Judaism and Hellenism, the rise of the synagogue, Jewish sects, the development of classical rabbinic literature (e.g., Mishnah, Talmud, Midrash). A maximum of 6 credits will be granted for AMNE 462 or RELG 407. Students should consult the AMNE Undergraduate Advisor before registering.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
AMNE_V 470-A_001	AMNE_V	470	A	A_001	Seminar in Ancient Mediterranean and Near Eastern Archaeology	W1	Selected topics in the art, archaeology and/or architecture of the ancient Mediterranean, Near East and/or Egypt, with an emphasis on research. A maximum of 12 credits will be granted for AMNE 470 and CLST 403. Students should consult the AMNE Undergraduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
AMNE_V 470-B_001	AMNE_V	470	B	B_001	Seminar in Ancient Mediterranean and Near Eastern Archaeology	W2	Selected topics in the art, archaeology and/or architecture of the ancient Mediterranean, Near East and/or Egypt, with an emphasis on research. A maximum of 12 credits will be granted for AMNE 470 and CLST 403. Students should consult the AMNE Undergraduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
AMNE_V 472-001	AMNE_V	472	001	The Archaeology of Ancient Cyprus	W2	An overview of the archaeology of ancient Cyprus from the island's initial colonization in the 10th millennium BCE through the period of its rule as part of the Roman Empire (4th century CE). Credit will be granted for only one of CNRS 410 or AMNE 472.	In Person Learning	Arranged	Arranged	

AMNE_V 499-001	AMNE_V	499		001	Honours Essay	W1-2	Credit will be granted for only one of CNRS 449 or AMNE 499. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
AMNE_V 500-C_001	AMNE_V	500	C	C_001	Pro-Seminar in Ancient Mediterranean Studies: Selected Topics	W1	A maximum of 6 credits will be granted for AMNE 500 or CNRS 500. Students should consult the AMNE Graduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
AMNE_V 527-B_001	AMNE_V	527	B	B_001	Topics in Roman History and Culture	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.
AMNE_V 540-A_001	AMNE_V	540	A	A_001	Topics in Literature, Art and Society	W2	A maximum of 12 credits will be granted for AMNE 540 or CNRS 503. Students should consult the AMNE Graduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
AMNE_V 571-A_001	AMNE_V	571	A	A_001	The Archaeology of Urbanism	W2	Selected topics on the origins, development, and material manifestations of urbanism in the ancient Mediterranean, Near East and/or Egypt. A maximum of 6 credits will be granted for AMNE 571, NEST 506, AMNE 471 or NEST 402. Students should consult the AMNE Graduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.
AMNE_V 572-B_001	AMNE_V	572	B	B_001	Topics in Near Eastern Archaeology	W2	A maximum of 6 credits will be granted for AMNE 572 or NEST 500. Students should consult the AMNE Graduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
AMNE_V 575-C_001	AMNE_V	575	C	C_001	Topics in Greek Archaeology	W1	A maximum of 6 credits will be granted for AMNE 575 or CLST 518. Students should consult with the AMNE Graduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
AMNE_V 590-B_001	AMNE_V	590	B	B_001	Topics in Identity	W2	A maximum of 12 credits will be granted for AMNE 590 or CNRS 505. Students should consult the AMNE Graduate Advisor before registering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
AMNE_V 599-001	AMNE_V	599		001	Master's Thesis	W1	Credit will be granted for only one of CNRS 549 or AMNE 599. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
AMNE_V 599-002	AMNE_V	599		002	Master's Thesis	W2	Credit will be granted for only one of CNRS 549 or AMNE 599. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
AMNE_V 599-003	AMNE_V	599		003	Master's Thesis	W1-2	Credit will be granted for only one of CNRS 549 or AMNE 599. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
AMNE_V 699-001	AMNE_V	699		001	Doctoral Dissertation	W1		In Person Learning	Arranged	Arranged
AMNE_V 699-002	AMNE_V	699		002	Doctoral Dissertation	W2		In Person Learning	Arranged	Arranged
AMNE_V 699-003	AMNE_V	699		003	Doctoral Dissertation	W1-2		In Person Learning	Arranged	Arranged
ANAT_V 392-001	ANAT_V	392		001	Gross Anatomy of the Limbs and Trunk	W1	Lectures and laboratory sessions on the human gross and functional anatomy of the limbs and trunk. The course includes the study of predissected specimens. For credit only in the Department of Physical Therapy.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
ANAT_V 392-L01	ANAT_V	392		L01	Gross Anatomy of the Limbs and Trunk	W1	Lectures and laboratory sessions on the human gross and functional anatomy of the limbs and trunk. The course includes the study of predissected specimens. For credit only in the Department of Physical Therapy.	In Person Learning	Tue Thu	9:30 a.m. - 12:00 p.m.
ANAT_V 448-J_002	ANAT_V	448	J	J_002	Directed Studies in Anatomy	W1-2	Permission of the Head and supervisor required.	In Person Learning	Arranged	Arranged

ANTH_V 210-001	ANTH_V	210		001	Eating Culture	W1	An anthropological exploration of how the collection, cultivation and consumption of food shapes human society and culture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ANTH_V 213-001	ANTH_V	213		001	Sex, Gender, and Culture	W2	An anthropological exploration of how understandings of sex and gender are culturally and historically shaped.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ANTH_V 215-001	ANTH_V	215		001	Japanese Popular Culture	W1	Television shows, dramas, movies, advertising, marketing, manga (Japanese style comics), anime (Japanese animation), theatrical forms, popular literature, popular music, fashion fads, tourism, toys, and sports.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
ANTH_V 217-001	ANTH_V	217		001	Culture and Communication	W2	The study of communication; the relation between communication and its cultural context with emphasis on verbal and non-verbal communication, cross-cultural communication, and cultural differences in the use of oral, literate, and electronic media.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ANTH_V 220-001	ANTH_V	220		001	Contemporary Indigenous Issues in British Columbia	W1	Anthropological perspectives on contemporary Indigenous issues in British Columbia.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ANTH_V 227-001	ANTH_V	227		001	Introduction to Medical Anthropology	W1	An examination of health and illness, in their social and cultural contexts.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.

ANTH_V 242-001	ANTH_V	242		001	Visions of the Sacred: Introduction to the Anthropology of Religion	W2	Comparative, cross-cultural approach to human engagement with the sacred. Examines religions as complex systems that share certain fundamental common features.	In Person Learning	Arranged	Arranged
ANTH_V 300-A_001	ANTH_V	300	A	A_001	Contemporary Anthropological Theory	W1	Contemporary approaches to society and culture in anthropology. Prerequisite: ANTH 200 is recommended.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ANTH_V 300-A_002	ANTH_V	300	A	A_002	Contemporary Anthropological Theory	W2	Contemporary approaches to society and culture in anthropology. Prerequisite: ANTH 200 is recommended.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ANTH_V 303-E_001	ANTH_V	303	E	E_001	Ethnography of Special Areas	W1	A specialized study of ethnographic and theoretical problems in one area. Different culture areas or regions may be selected each term. Consult the Department for this year's offerings.	In Person Learning	Arranged	Arranged
ANTH_V 303-F_001	ANTH_V	303	F	F_001	Ethnography of Special Areas	W2	A specialized study of ethnographic and theoretical problems in one area. Different culture areas or regions may be selected each term. Consult the Department for this year's offerings.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ANTH_V 303-G_001	ANTH_V	303	G	G_001	Ethnography of Special Areas	W2	A specialized study of ethnographic and theoretical problems in one area. Different culture areas or regions may be selected each term. Consult the Department for this year's offerings.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ANTH_V 303-H_001	ANTH_V	303	H	H_001	Ethnography of Special Areas	W2	A specialized study of ethnographic and theoretical problems in one area. Different culture areas or regions may be selected each term. Consult the Department for this year's offerings.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
ANTH_V 303-I_001	ANTH_V	303	I	I_001	Ethnography of Special Areas	W2	A specialized study of ethnographic and theoretical problems in one area. Different culture areas or regions may be selected each term. Consult the Department for this year's offerings.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ANTH_V 303-J_001	ANTH_V	303	J	J_001	Ethnography of Special Areas	W1	A specialized study of ethnographic and theoretical problems in one area. Different culture areas or regions may be selected each term. Consult the Department for this year's offerings.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ANTH_V 304-A_001	ANTH_V	304	A	A_001	Ethnography of the Northwest Coast	W1	Specialized study of ethnographic and theoretical problems of the region.	In Person Learning	Wed	5:00 p.m. - 8:00 p.m.
ANTH_V 307-A_001	ANTH_V	307	A	A_001	Ethnography of Korea	W2	An exploration of ethnographic, topical, and theoretical issues.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ANTH_V 308-A_001	ANTH_V	308	A	A_001	Ethnography of Sub-Saharan Africa	W1	An exploration of ethnographic, topical, and theoretical issues.	In Person Learning	Arranged	Arranged
ANTH_V 317-A_001	ANTH_V	317	A	A_001	Linguistic Anthropology	W1	A survey of the ethnographic uses of language data and the techniques of linguistic analysis.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ANTH_V 329-A_001	ANTH_V	329	A	A_001	Contemporary Indigenous Issues in a Global Perspective	W1	Anthropological perspectives on contemporary issues of public policy, law, and political activity, as they affect Indigenous Peoples in Canada and globally. Prerequisite: ANTH 220 is recommended.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ANTH_V 353-001	ANTH_V	353		001	Ethnography of Latin America	W1	Indigenous peoples of Latin America, emphasizing both pre-Columbian cultural traditions and socioeconomic and cultural changes from the Colonial period to the present.	In Person Learning	Arranged	Arranged
ANTH_V 360-001	ANTH_V	360		001	Introduction to Ecological Anthropology	W1	Analysis of the relations between human societies and the ecological aspects of their environment (including technology, society, and ideology). Previously ANTH 460.	In Person Learning	Arranged	Arranged
ANTH_V 376-001	ANTH_V	376		001	Diasporas and Belonging: Anthropological Perspectives	W1	Examines how multiple generations of migrants find, build, and reimagine what community and belonging are beyond the confines of the nation-state. Centres ethnographies of diasporic identity and personhood. Recommended: at least one 200-level social science course (e.g. ANTH, SOCI, GEOG, POLJ).	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ANTH_V 378-001	ANTH_V	378		001	Anthropology of Media	W2	Analysis of contemporary mass media and of the anthropological use of media (photography, film, digital audio and video, etc.).	Hybrid Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
ANTH_V 400-A_001	ANTH_V	400	A	A_001	History of Anthropology	W1	The development of anthropological theory and practice in institutional contexts.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ANTH_V 400-A_002	ANTH_V	400	A	A_002	History of Anthropology	W2	The development of anthropological theory and practice in institutional contexts.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ANTH_V 404-A_001	ANTH_V	404	A	A_001	Ethnography in Circumpolar North: Comparative Perspectives.	W1	An examination of relationships between indigenous people and nation states in Greenland, Canada, Alaska and Siberia, using ethnographic methods.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ANTH_V 407-001	ANTH_V	407		001	Principles of Field Work	W2	An examination of field work as the basic setting for ethnographic research. Research design; relationships with study participants, field techniques, and data analysis and presentation.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ANTH_V 414-001	ANTH_V	414		001	Anthropology of Globalization	W2	Theories on the global flow of people, commodities, images, and ideas with critical ethnographic attention to the different ways people respond to globalization.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.

ANTH_V 415-A_001	ANTH_V	415	A	A_001	Religion and Society	W1	Comparative study of religious beliefs, practices, and movements; relations between religious, social, and political institutions; religion as a force for stability and change; anthropological/sociological theories of religion.	In Person Learning	Arranged	Arranged
ANTH_V 418-001	ANTH_V	418		001	Anthropological Statistics	W1	Applications of statistical techniques to quantitative and qualitative data in Anthropology.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ANTH_V 421-A_001	ANTH_V	421	A	A_001	The Anthropology of Place and Space	W1	An anthropological understanding of the spatial dimensions of social practice, and the relationships of space to culture, history, and power.	In Person Learning	Arranged	Arranged
ANTH_V 427-001	ANTH_V	427		001	Topics in Medical Anthropology	W1	Anthropological perspectives on health, illness, and disability as represented by classic and contemporary research in selected topics in medical anthropology including disease and human evolution, illness and human ecology, culture and epidemiology, ethnomedical systems, the relationship between folk and biomedicine and the cultural construction and social organization of health care, illness and disability. Specific content will vary from year to year. Consult the Department brochure.	In Person Learning	Arranged	Arranged
ANTH_V 429-001	ANTH_V	429		001	Global Health in Cross-Cultural Contexts	W1	Includes examination of the social and cultural dimensions of specific life-threatening emerging and re-emerging infectious diseases, the political economy of health, cultural interpretations of illness and healing, medical pluralism, therapy management, and the cultural construction of efficacy.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ANTH_V 431-A_001	ANTH_V	431	A	A_001	Museum Practice and Curatorship	W1-2	Management of museum collections and their public presentation, addressing questions of access, collaboration, and cultural property. The public interpretation of anthropological concepts and materials utilizing the programs and facilities of the Museum of Anthropology. Prerequisite: [ANTH341]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ANTH_V 433-A_001	ANTH_V	433	A	A_001	Directed Studies	W1	General reading and/or a research undertaking, with the agreement, and under the supervision, of a Department faculty member selected by the student. No more than six credits of Directed Studies may be taken for credit toward the Major or Honours program.	In Person Learning	Arranged	Arranged
ANTH_V 433-A_002	ANTH_V	433	A	A_002	Directed Studies	W2	General reading and/or a research undertaking, with the agreement, and under the supervision, of a Department faculty member selected by the student. No more than six credits of Directed Studies may be taken for credit toward the Major or Honours program.	In Person Learning	Arranged	Arranged
ANTH_V 433-A_003	ANTH_V	433	A	A_003	Directed Studies	W1-2	General reading and/or a research undertaking, with the agreement, and under the supervision, of a Department faculty member selected by the student. No more than six credits of Directed Studies may be taken for credit toward the Major or Honours program.	In Person Learning	Arranged	Arranged
ANTH_V 437-001	ANTH_V	437		001	Gardens of Culture: The Anthropology of Food Systems	W2	Anthropological approaches to foodways and agricultural sustainability, particularly small-scale producers and communities. Includes ethnographic analysis of food movements, food systems and the socio-economic contexts of food provisioning and food production. Recommended: Third year status.	In Person Learning	Arranged	Arranged
ANTH_V 449-A_001	ANTH_V	449	A	A_001	Honours Tutorial	W1	Will usually require the presentation of at least one research paper.	In Person Learning	Arranged	Arranged
ANTH_V 449-A_002	ANTH_V	449	A	A_002	Honours Tutorial	W2	Will usually require the presentation of at least one research paper.	In Person Learning	Arranged	Arranged
ANTH_V 449-A_003	ANTH_V	449	A	A_003	Honours Tutorial	W1-2	Will usually require the presentation of at least one research paper.	In Person Learning	Arranged	Arranged
ANTH_V 451-A_001	ANTH_V	451	A	A_001	Conservation of Organic Materials	W2	Conservation of organic materials within a museum environment; the nature of materials, mechanisms of deterioration and principles of preventive conservation. Recommended for students intending to work with cultural materials. Prerequisite: Permission of instructor required.	In Person Learning	Mon	1:00 p.m. - 4:00 p.m.
ANTH_V 452-001	ANTH_V	452		001	Conservation of Inorganic Materials	W2	Conservation of inorganic materials within a museum environment; the nature of materials, mechanisms of deterioration and principles of preventive conservation. Recommended for students intending to work with cultural materials. Prerequisite: Permission of instructor is required.	In Person Learning	Arranged	Arranged
ANTH_V 461-001	ANTH_V	461		001	Anthropological Study of Local Ecological Knowledge	W2	Analysis of the concepts of ecological anthropology via the medium of local ecological knowledge. ANTH 360 is recommended as background.	In Person Learning	Thu	5:00 p.m. - 8:00 p.m.
ANTH_V 472-001	ANTH_V	472		001	Anthropological Study of Social Inequality	W2	An anthropological perspective on the historical origins and theoretical explanations of social inequality.	In Person Learning	Arranged	Arranged
ANTH_V 475-001	ANTH_V	475		001	Racial and Sexual Politics of (Im)mobility	W2	Combined anthropological approaches with interdisciplinary theories to understand experiences of mobilities and immobilities shaped by race, gender, sexuality, citizenship and class. Recommended: ANTH 375 or 376, or other upper-level courses focused on migration, gender and sexuality, or social inequality.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ANTH_V 495-A_001	ANTH_V	495	A	A_001	Advanced Studies in Anthropology	W2	An intensive examination of selected topics in Anthropology. Consult the Department for this year's offerings.	In Person Learning	Mon	9:00 a.m. - 12:00 p.m.
ANTH_V 495-D_001	ANTH_V	495	D	D_001	Advanced Studies in Anthropology	W1	An intensive examination of selected topics in Anthropology. Consult the Department for this year's offerings.	In Person Learning	Arranged	Arranged
ANTH_V 495-E_001	ANTH_V	495	E	E_001	Advanced Studies in Anthropology	W2	An intensive examination of selected topics in Anthropology. Consult the Department for this year's offerings.	In Person Learning	Arranged	Arranged
ANTH_V 500-001	ANTH_V	500		001	History of Anthropological Thought	W1-2	Various approaches to anthropology, from classical to contemporary. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 2:00 p.m.

ANTH_V 506-A_001	ANTH_V	506	A	A_001	Current Research in Anthropology	W1-2	The relationship between current theoretical issues and research methods. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	12:30 p.m. - 2:00 p.m.
ANTH_V 512-B_001	ANTH_V	512	B	B_001	Language and Culture	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.
ANTH_V 516-001	ANTH_V	516		001	Qualitative Methods in Anthropology	W1	A discussion of selected methods used to observe, describe, and interpret cultural phenomena and social organization, including participant observation, interviewing, ethnographic semantics, life histories, componential analysis, and photography. Attention will also be given to ethics in anthropological research and writing and to such analytic matters as the nature of description, conceptualization, generalization, and content analysis. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
ANTH_V 516-002	ANTH_V	516		002	Qualitative Methods in Anthropology	W2	A discussion of selected methods used to observe, describe, and interpret cultural phenomena and social organization, including participant observation, interviewing, ethnographic semantics, life histories, componential analysis, and photography. Attention will also be given to ethics in anthropological research and writing and to such analytic matters as the nature of description, conceptualization, generalization, and content analysis. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
ANTH_V 517-001	ANTH_V	517		001	Archaeological Methods	W1	A discussion of selected basic data-gathering methods in their relation to the development of ideas about the archaeological record. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	11:00 a.m. - 2:00 p.m.
ANTH_V 518-A_001	ANTH_V	518	A	A_001	Museum Methods	W2	Analytical approaches to the study of museums and collections. Methods of field collecting, collections research, laboratory procedures, visitor studies, social organization of museum and related cultural industries, exhibit and program evaluation techniques and the ethics of museum research and practice. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
ANTH_V 540-E_001	ANTH_V	540	E	E_001	Advanced Seminar	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 2:00 p.m.
ANTH_V 540-F_001	ANTH_V	540	F	F_001	Advanced Seminar	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ANTH_V 540-G_001	ANTH_V	540	G	G_001	Advanced Seminar	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	9:30 a.m. - 12:30 p.m.
ANTH_V 540-H_001	ANTH_V	540	H	H_001	Advanced Seminar	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
ANTH_V 545-A_001	ANTH_V	545	A	A_001	Graduate Research Seminar	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ANTH_V 545-A_002	ANTH_V	545	A	A_002	Graduate Research Seminar	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ANTH_V 545-A_003	ANTH_V	545	A	A_003	Graduate Research Seminar	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ANTH_V 549-A_001	ANTH_V	549	A	A_001	Master's Thesis	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ANTH_V 549-A_002	ANTH_V	549	A	A_002	Master's Thesis	W2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ANTH_V 549-A_003	ANTH_V	549	A	A_003	Master's Thesis	W1-2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ANTH_V 549-B_001	ANTH_V	549	B	B_001	Master's Thesis	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ANTH_V 549-B_002	ANTH_V	549	B	B_002	Master's Thesis	W2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged

ANTH_V 649-002	ANTH_V	649		002	Doctoral Dissertation	W2		In Person Learning	Arranged	Arranged
ANTH_V 649-003	ANTH_V	649		003	Doctoral Dissertation	W1-2		In Person Learning	Arranged	Arranged

APBI_V 214-002	APBI_V	214	002	Animal Sheltering and Companion Animal Support Services	W2	History, philosophy, and current practices of animal shelters and companion animal support services, with a focus on emerging issues from a One Health/One Welfare perspective. Prerequisite: Second-year standing or higher.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
APBI_V 244-001	APBI_V	244	001	Atmospheric Environments	W1	Physical principles underlying weather and climates. Thermal, moisture and wind climates from the scale of plants and animals to the globe. Daily weather systems and climate change. Credit will be granted for only one of GEOS (or GEOB) 200, GEOS (or GEOB) 204 or APBI 244. Equivalency: GEOS (OR GEOB) 200	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
APBI_V 244-L01	APBI_V	244	L01	Atmospheric Environments	W1	Physical principles underlying weather and climates. Thermal, moisture and wind climates from the scale of plants and animals to the globe. Daily weather systems and climate change. Credit will be granted for only one of GEOS (or GEOB) 200, GEOS (or GEOB) 204 or APBI 244. Equivalency: GEOS (OR GEOB) 200	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
APBI_V 244-L02	APBI_V	244	L02	Atmospheric Environments	W1	Physical principles underlying weather and climates. Thermal, moisture and wind climates from the scale of plants and animals to the globe. Daily weather systems and climate change. Credit will be granted for only one of GEOS (or GEOB) 200, GEOS (or GEOB) 204 or APBI 244. Equivalency: GEOS (OR GEOB) 200	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
APBI_V 244-L03	APBI_V	244	L03	Atmospheric Environments	W1	Physical principles underlying weather and climates. Thermal, moisture and wind climates from the scale of plants and animals to the globe. Daily weather systems and climate change. Credit will be granted for only one of GEOS (or GEOB) 200, GEOS (or GEOB) 204 or APBI 244. Equivalency: GEOS (OR GEOB) 200	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
APBI_V 244-L04	APBI_V	244	L04	Atmospheric Environments	W1	Physical principles underlying weather and climates. Thermal, moisture and wind climates from the scale of plants and animals to the globe. Daily weather systems and climate change. Credit will be granted for only one of GEOS (or GEOB) 200, GEOS (or GEOB) 204 or APBI 244. Equivalency: GEOS (OR GEOB) 200	In Person Learning	Wed	11:00 a.m. - 1:00 p.m.
APBI_V 244-L05	APBI_V	244	L05	Atmospheric Environments	W1	Physical principles underlying weather and climates. Thermal, moisture and wind climates from the scale of plants and animals to the globe. Daily weather systems and climate change. Credit will be granted for only one of GEOS (or GEOB) 200, GEOS (or GEOB) 204 or APBI 244. Equivalency: GEOS (OR GEOB) 200	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
APBI_V 244-L06	APBI_V	244	L06	Atmospheric Environments	W1	Physical principles underlying weather and climates. Thermal, moisture and wind climates from the scale of plants and animals to the globe. Daily weather systems and climate change. Credit will be granted for only one of GEOS (or GEOB) 200, GEOS (or GEOB) 204 or APBI 244. Equivalency: GEOS (OR GEOB) 200	In Person Learning	Tue	3:00 p.m. - 5:00 p.m.
APBI_V 260-001	APBI_V	260	001	Agroecology I: Introduction to principles and techniques	W1	Basic ecological approaches for understanding and managing agricultural production and food systems. Includes hands-on field data collection, data analysis and problem-based discussions.	In Person Learning	Mon Wed	11:00 a.m. - 12:00 p.m.
APBI_V 260-D01	APBI_V	260	D01	Agroecology I: Introduction to principles and techniques	W1	Basic ecological approaches for understanding and managing agricultural production and food systems. Includes hands-on field data collection, data analysis and problem-based discussions.	In Person Learning	Mon	1:00 p.m. - 4:00 p.m.
APBI_V 260-L01	APBI_V	260	L01	Agroecology I: Introduction to principles and techniques	W1	Basic ecological approaches for understanding and managing agricultural production and food systems. Includes hands-on field data collection, data analysis and problem-based discussions.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
APBI_V 265-001	APBI_V	265	001	Sustainable Agriculture and Food Systems	W2	Principles and practices necessary to understand practical concerns of sustainable food systems. Students who already present credit for APBI 260 are not permitted to receive credit for APBI 265. [1-3-0]	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
APBI_V 290-001	APBI_V	290	001	Introductory Topics in Applied Biology	W1	Analysis and interpretation of current issues in applied biology. Topics will vary from year to year.	Hybrid Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
APBI_V 290-002	APBI_V	290	002	Introductory Topics in Applied Biology	W1	Analysis and interpretation of current issues in applied biology. Topics will vary from year to year.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
APBI_V 290-201	APBI_V	290	201	Introductory Topics in Applied Biology	W2	Analysis and interpretation of current issues in applied biology. Topics will vary from year to year.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
APBI_V 311-001	APBI_V	311	001	Comparative Cardiovascular, Respiratory and Osmoregulatory Physiology	W2	Cardiovascular, respiratory and osmoregulatory physiology of vertebrates. Prerequisite: BIOL 204 and one of BIOL 260, BIOL 361. And 3rd year standing. Equivalency: BIOL364	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
APBI_V 312-001	APBI_V	312	001	Reproductive and Digestive Physiology	W1	Reproductive and digestive physiology, and current technologies applied to these systems in domestic and wild animals. Prerequisite: One of BIOL 204, BIOL 260. 3rd year standing.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
APBI_V 313-001	APBI_V	313	001	Experimental Analysis of Animal Behaviour	W1	Case studies will be used to discover how behavioural principles explain complexity in the behaviour of individual animals and contribute to our understanding of animal welfare. Prerequisite: Third-year standing or higher. One of PSYC 100, PSYC 101 or PSYC 102 recommended.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
APBI_V 314-001	APBI_V	314	001	Animals and Society	W1	Contemporary use of animals for food production, companionship, recreation and science; social and ethical issues concerning human impacts on animals; animals in human culture; protection of animals by society and the law. Prerequisite: At least third-year standing in any faculty.	In Person Learning	Arranged	Arranged
APBI_V 314-003	APBI_V	314	003	Animals and Society	W2	Contemporary use of animals for food production, companionship, recreation and science; social and ethical issues concerning human impacts on animals; animals in human culture; protection of animals by society and the law. Prerequisite: At least third-year standing in any faculty.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
APBI_V 315-001	APBI_V	315	001	Animal Welfare and the Ethics of Animal Use	W2	Scientific assessment of animal well-being, ethical concepts applied to animal use, and animal welfare issues arising in agriculture, biomedical research and other areas. Credit will be granted for only one of APBI 315, ANSC 515, or AANB 515. [1-0-3] Prerequisite: At least third-year standing in any faculty.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
APBI_V 316-001	APBI_V	316	001	Equine Biology, Health and Welfare	W2	Anatomy, physiology, reproduction, nutrition of the horse; common disease pathology, prevention and treatments; equine behaviour. [3-0]	In Person Learning	Tue Thu	4:00 p.m. - 5:30 p.m.
APBI_V 317-002	APBI_V	317	002	Welfare and Ethics of using Animals in Science	W2	Historical and current debate, ethical perspectives, governance, and scientific understanding of experiences of animals in research.	Online Learning	Tue Thu	12:30 p.m. - 2:00 p.m.

APBI_V 318-001	APBI_V	318	001	Applied Plant Breeding	W1	Small-scale classical (i.e., non-biotechnological) plant breeding and seed saving. Practical approaches to crop improvement, designing and implementing a simple plant breeding program. Interactions between aquaculture and the environment. Current issues, comparison of systems, species, production methods, environments, and socioeconomics. Prerequisite: One of BIOL 230, APBI 260, APBI 265, CONS 330, ENVR 200, ENVR 300. and third year standing. Or permission of the instructor.	Online Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
APBI_V 319-001	APBI_V	319	001	Aquaculture and the Environment	W1		In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
APBI_V 324-001	APBI_V	324	001	Introduction to Seed Plant Taxonomy	W1	Introduction to seed plant taxonomy emphasizing descriptive morphology and identification. Each student will be required to submit a plant collection. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL324	In Person Learning	Tue Thu	10:00 a.m. - 11:00 a.m.
APBI_V 324-L01	APBI_V	324	L01	Introduction to Seed Plant Taxonomy	W1	Introduction to seed plant taxonomy emphasizing descriptive morphology and identification. Each student will be required to submit a plant collection. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL324	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
APBI_V 324-L02	APBI_V	324	L02	Introduction to Seed Plant Taxonomy	W1	Introduction to seed plant taxonomy emphasizing descriptive morphology and identification. Each student will be required to submit a plant collection. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL324	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
APBI_V 327-001	APBI_V	327	001	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology and life-histories of insects; insect-plant relations. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL327	Hybrid Learning	Tue Thu	8:00 a.m. - 9:00 a.m.
APBI_V 327-L01	APBI_V	327	L01	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology and life-histories of insects; insect-plant relations. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL327	In Person Learning	Thu	9:00 a.m. - 11:00 a.m.
APBI_V 327-L02	APBI_V	327	L02	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology and life-histories of insects; insect-plant relations. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL327	In Person Learning	Thu	9:00 a.m. - 11:00 a.m.
APBI_V 327-L03	APBI_V	327	L03	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology and life-histories of insects; insect-plant relations. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL327	In Person Learning	Thu	1:30 p.m. - 3:30 p.m.
APBI_V 327-L04	APBI_V	327	L04	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology and life-histories of insects; insect-plant relations. [2-3-0] Prerequisite: BIOL 121. Equivalency: BIOL327	In Person Learning	Thu	1:30 p.m. - 3:30 p.m.
APBI_V 328-001	APBI_V	328	001	Weed Science	W1	Importance, identification, dissemination and biology of weeds; preventive, cultural, biological and chemical methods of control. [3-2-0] Equivalency: BIOL317	In Person Learning	Wed Fri	2:00 p.m. - 3:30 p.m.
APBI_V 328-L01	APBI_V	328	L01	Weed Science	W1	Importance, identification, dissemination and biology of weeds; preventive, cultural, biological and chemical methods of control. [3-2-0] Equivalency: BIOL317	In Person Learning	Mon	12:00 p.m. - 1:30 p.m.
APBI_V 328-L02	APBI_V	328	L02	Weed Science	W1	Importance, identification, dissemination and biology of weeds; preventive, cultural, biological and chemical methods of control. [3-2-0] Equivalency: BIOL317	In Person Learning	Mon	1:30 p.m. - 3:00 p.m.
APBI_V 342-001	APBI_V	342	001	Soil Biology	W2	The diversity of soil organisms (bacteria, protozoa, fungi, animals, plants) in natural and managed ecosystems; roles in primary production, nutrient cycling, decomposition and reclamation; interactions between soil organisms; responses to environmental change. [2-3-0] Prerequisite: [BIOL121] Equivalency: FRST310	In Person Learning	Tue Thu	11:00 a.m. - 12:00 p.m.
APBI_V 342-L01	APBI_V	342	L01	Soil Biology	W2	The diversity of soil organisms (bacteria, protozoa, fungi, animals, plants) in natural and managed ecosystems; roles in primary production, nutrient cycling, decomposition and reclamation; interactions between soil organisms; responses to environmental change. [2-3-0] Prerequisite: [BIOL121] Equivalency: FRST310	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
APBI_V 351-101	APBI_V	351	101	Plant Physiology	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. [3-3-0] Prerequisite: BIOL 121 and either(a) CHEM 123 or (b) all of CHEM 111, CHEM 113. CHEM 233 is recommended. Equivalency: BIOL351, FRST311	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
APBI_V 351-L01	APBI_V	351	L01	Plant Physiology	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. [3-3-0] Prerequisite: BIOL 121 and either(a) CHEM 123 or (b) all of CHEM 111, CHEM 113. CHEM 233 is recommended. Equivalency: BIOL351, FRST311	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
APBI_V 351-L02	APBI_V	351	L02	Plant Physiology	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. [3-3-0] Prerequisite: BIOL 121 and either(a) CHEM 123 or (b) all of CHEM 111, CHEM 113. CHEM 233 is recommended. Equivalency: BIOL351, FRST311	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
APBI_V 351-L03	APBI_V	351	L03	Plant Physiology	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. [3-3-0] Prerequisite: BIOL 121 and either(a) CHEM 123 or (b) all of CHEM 111, CHEM 113. CHEM 233 is recommended. Equivalency: BIOL351, FRST311	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
APBI_V 351-L04	APBI_V	351	L04	Plant Physiology	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. [3-3-0] Prerequisite: BIOL 121 and either(a) CHEM 123 or (b) all of CHEM 111, CHEM 113. CHEM 233 is recommended. Equivalency: BIOL351, FRST311	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
APBI_V 360-001	APBI_V	360	001	Agroecology II: Ecology of Agricultural Systems	W2	A variety of ecological processes shape agricultural landscapes. Students will learn the research foundations of applied ecology in agriculture and how to read and critique the scientific literature in this field. Prerequisite: One of BIOL 230, APBI 260, APBI 265.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
APBI_V 361-199	APBI_V	361	199	Key Indicators of Agroecosystem Sustainability	W2	A detailed exploration of biophysical, economic, and social ecosystem sustainability indicators for primary production subsystems. [1-0-3]	Online Learning	Arranged	Arranged
APBI_V 398-001	APBI_V	398	001	Research Methods in Applied Biology	W1	Research methods including research design, scientific critique, writing proposals and reports, and oral presentation. Prerequisite: Third-year standing in the Applied Biology program or permission of the instructor.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.

APBI_V 401-001	APBI_V	401	001	Soil Processes	W1	Understanding environmental factors influencing soil-forming processes and their ecological implications. Credit will be granted for only one of SOIL 501 or APBI 401. Prerequisite: APBI 200.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
APBI_V 402-002	APBI_V	402	002	Sustainable Soil Management	W2	Application of fundamental, unifying, soil science principles in sustainable ecosystem management. Credit will be granted for only one of SOIL 502 or APBI 402. [1-0-3] Prerequisite: APBI 200.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
APBI_V 403-001	APBI_V	403	001	Soil Sampling, Analyses and Data Interpretation	W1	Field and laboratory analytical techniques in the chemical, biological and physical assessment of soils. Credit will be granted for only one of SOIL 503 or APBI 403. [1-3-0] Prerequisite: APBI 200.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
APBI_V 403-L01	APBI_V	403	L01	Soil Sampling, Analyses and Data Interpretation	W1	Field and laboratory analytical techniques in the chemical, biological and physical assessment of soils. Credit will be granted for only one of SOIL 503 or APBI 403. [1-3-0] Prerequisite: APBI 200.	In Person Learning	Thu	1:00 p.m. - 4:00 p.m.
APBI_V 405-002	APBI_V	405	002	Plant-Water Relations for Sustainable Agriculture	W2	Plant water requirements for production and survival, physiological stress thresholds, soil-plant-atmosphere interactions, structure-function relationships, cutting-edge and traditional monitoring tools, precision agriculture, application for sustainable water management. Prerequisite: One of APBI 210, BIOL 210.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
APBI_V 406-001	APBI_V	406	001	Pollination Biology	W1	Fundamental research and topics in pollination biology related to various themes in applied biology including: natural selection, insect cognition, conservation and agriculture. Credit will be granted for only one of PLNT 506 or APBI 406. Prerequisite: One of APBI 260, APBI 265, BIOL 230.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
APBI_V 410-002	APBI_V	410	002	Applied Animal Health and Physiology	W1	Application of physiology and pathology principles to health and disease of domestic animals. [3-0-0] Prerequisite: BIOL 201 and one of APBI 311, CAPS 301.	In Person Learning	Tue Thu	10:00 a.m. - 11:30 a.m.
APBI_V 412-001	APBI_V	412	001	Belowground Ecosystems	W2	Concepts, methods, and applications of belowground ecology with emphasis on biotic interactions in soil; roles that aboveground and belowground communities play in regulating the structure and function of terrestrial ecosystems and their responses to global change. Credit will be granted for only one of FRST 512 or APBI 412 or CONS 412. [3-0-0] Prerequisite: Fourth year standing in a Bachelor of Science Program. Permission is required for registration. Equivalency: CONS 412	In Person Learning	Arranged	Arranged
APBI_V 414-001	APBI_V	414	001	Animals and Global Issues	W1	Research seminar integrating diverse information to address global animal issues including: animal-source foods and human health, environmental impact of livestock production, trade in exotic animals. [3-0-0] Prerequisite: One of APBI 314, APBI 315.	Hybrid Learning	Mon	1:00 p.m. - 4:00 p.m.
APBI_V 415-001	APBI_V	415	001	Applied Animal Behaviour	W2	Application of principles and research methods of animal behaviour to practical problems in the care of farm, companion, wild and research animals, and in animal training, and human-wildlife conflict. [3-0-0]	Hybrid Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
APBI_V 416-001	APBI_V	416	001	Compassionate Conservation	W1	Evaluation of humane treatment of individual animals living in the wild and managed within conservation biology. Assessment of attitudes and viewpoints of the role of animal welfare in conservation biology. Prerequisite: Third-year standing or higher. APBI 315 and BIOL 416 or CONS 330 recommended.	Hybrid Learning	Wed	10:00 a.m. - 1:00 p.m.
APBI_V 419-201	APBI_V	419	201	Fish Health	W2	Management of fish health in aquaculture; common fish pathogens, epidemiology, prevention, and treatment of diseases. Prerequisite: Third year standing or higher. One of APBI 311, BIOL 204 or BIOL 260. APBI 312 and APBI 418 strongly recommended.	Online Learning	Arranged	Arranged
APBI_V 422-001	APBI_V	422	001	Indigenous Food Systems in Canada	W1	Indigenous food systems are a complex, relational web of connections between land, culture, and spirit. Topics include: major elements of Indigenous food systems and present-day food stories from Indigenous communities across the country.. Prerequisite: LFS 350. Or third-year standing or higher.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
APBI_V 423-001	APBI_V	423	001	Ecological Restoration	W2	Perspectives and practices of ecological restoration in diverse ecosystems worldwide. Prerequisite: APBI 200 and one of FRST 201, APBI 260, BIOL 230. Equivalency: UFOR 403	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
APBI_V 426-001	APBI_V	426	001	Plant-Microbe Interactions	W1	Biology and physiology of selected plant-microbe relationships. Impacts of plant-microbe relationships on society. Prerequisite: BIOL 200 and one of BIOC 202, BIOC 203, BIOL 201, BIOL 233, BIOL 234, BIOL 260. Equivalency: BIOL421	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
APBI_V 426-T01	APBI_V	426	T01	Plant-Microbe Interactions	W1	Biology and physiology of selected plant-microbe relationships. Impacts of plant-microbe relationships on society. Prerequisite: BIOL 200 and one of BIOC 202, BIOC 203, BIOL 201, BIOL 233, BIOL 234, BIOL 260. Equivalency: BIOL421	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
APBI_V 427-101	APBI_V	427	101	Insect Ecology	W1	Behavioural, population, and community ecology of insects. Interaction between insects and plants and the application of the principals of insect ecology to biological control of insects and weeds. [3-0] Prerequisite: One of BIOL 205, BIOL 327, APBI 327. Equivalency: BIOL411	In Person Learning	Arranged	Arranged
APBI_V 427-201	APBI_V	427	201	Insect Ecology	W1	Behavioural, population, and community ecology of insects. Interaction between insects and plants and the application of the principals of insect ecology to biological control of insects and weeds. [3-0] Prerequisite: One of BIOL 205, BIOL 327, APBI 327. Equivalency: BIOL411	In Person Learning	Arranged	Arranged
APBI_V 428-201	APBI_V	428	201	Integrated Pest Management	W2	Development and implementation of multi-disciplinary pest management programs in agricultural crops. [3-2] Prerequisite: BIOL 121.	Online Learning	Arranged	Arranged
APBI_V 440-001	APBI_V	440	001	Plant Genomics	W1	Concepts, principles, and recent discoveries in genome structure and comparative genomics in plants with a focus on economically important plants; applications of genomics approaches to questions in plant genetics, evolution, and ecology. [3-0-0] Corequisite: BIOL 335. Equivalency: BIOL440	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
APBI_V 442-001	APBI_V	442	001	Wine Grape and Berry Biology	W1	Grapevine genetics, morphology, and physiology and major biological features of other important berry crops for British Columbia such as blueberry, cranberry, and raspberry. Credit will be granted for only one of APBI 442, APBI 443, or PLNT 542. Prerequisite: All of BIOL 112, BIOL 121 and one of BIOL 200, BIOL 201, APBI 210, BIOL 210.	In Person Learning	Tue Thu	11:30 a.m. - 1:00 p.m.
APBI_V 444-001	APBI_V	444	001	Agroforestry	W1	Ecological, economic and social benefits of incorporating trees into agricultural landscapes. Lectures and groupwork designing agroforestry systems in temperate and tropical contexts. Prerequisite: One of FRST 201, APBI 260. Equivalency: FRST444	In Person Learning	Arranged	Arranged

APBI_V 460-001	APBI_V	460	001	Agroecology III: Synthesis and evaluation	W1	The relationship between biological diversity and sustainability in food producing agroecosystems; emphasis on ecological similarities between natural ecosystems and managed agroecosystems. Prerequisite: APBI 360. or equivalent.	Online Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
APBI_V 463-002	APBI_V	463	002	Insects in Agroecosystems	W2	Insect ecology and evolutionary biology of pests, predators, pollinators and other insect groups in agroecosystems. Application to biodiversity management and sustainable agricultural practices. Prerequisite: One of APBI 327, BIOL 327 and one of BIOL 300, GEOG 374, FRST 231, LFS 252, STAT 200.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.	
APBI_V 465-001	APBI_V	465	001	Capstone in Sustainable Agriculture and Food Systems	W1	Integrates classroom and applied learning at the UBC Farm with design project. [1-3-0] Prerequisite: APBI 365.	In Person Learning	Arranged	Arranged	
APBI_V 490-B_102	APBI_V	490	B	B_102	Advanced Topics in Applied Biology	W1	Analysis and interpretation of current issues in applied biology. Prerequisite: 3rd year standing or higher.	In Person Learning	Arranged	Arranged
APBI_V 490-C_103	APBI_V	490	C	C_103	Advanced Topics in Applied Biology	W1	Analysis and interpretation of current issues in applied biology. Prerequisite: 3rd year standing or higher.	In Person Learning	Arranged	Arranged
APBI_V 490-D_201	APBI_V	490	D	D_201	Advanced Topics in Applied Biology	W2	Analysis and interpretation of current issues in applied biology. Prerequisite: 3rd year standing or higher.	Hybrid Learning	Arranged	Arranged
APBI_V 490-E_202	APBI_V	490	E	E_202	Advanced Topics in Applied Biology	W2	Analysis and interpretation of current issues in applied biology. Prerequisite: 3rd year standing or higher.	In Person Learning	Mon	1:00 p.m. - 4:00 p.m.
APBI_V 490-F_104	APBI_V	490	F	F_104	Advanced Topics in Applied Biology	W1	Analysis and interpretation of current issues in applied biology. Prerequisite: 3rd year standing or higher.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
APBI_V 490-H_106	APBI_V	490	H	H_106	Advanced Topics in Applied Biology	W1	Analysis and interpretation of current issues in applied biology. Prerequisite: 3rd year standing or higher.	In Person Learning	Tue Thu	10:00 a.m. - 11:30 a.m.
APBI_V 496-A_001	APBI_V	496	A	A_001	Applied Animal Biology Practicum	W1	Application of principles and concepts of Applied Animal Biology to experiential learning in the fields of wild, companion, lab, and farm animal welfare and management. Prerequisite: Third-year standing or higher. APBI 314 and/or APBI 315 are recommended. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
APBI_V 496-A_002	APBI_V	496	A	A_002	Applied Animal Biology Practicum	W2	Application of principles and concepts of Applied Animal Biology to experiential learning in the fields of wild, companion, lab, and farm animal welfare and management. Prerequisite: Third-year standing or higher. APBI 314 and/or APBI 315 are recommended. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
APBI_V 496-B_001	APBI_V	496	B	B_001	Applied Animal Biology Practicum	W1	Application of principles and concepts of Applied Animal Biology to experiential learning in the fields of wild, companion, lab, and farm animal welfare and management. Prerequisite: Third-year standing or higher. APBI 314 and/or APBI 315 are recommended. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
APBI_V 496-B_002	APBI_V	496	B	B_002	Applied Animal Biology Practicum	W2	Application of principles and concepts of Applied Animal Biology to experiential learning in the fields of wild, companion, lab, and farm animal welfare and management. Prerequisite: Third-year standing or higher. APBI 314 and/or APBI 315 are recommended. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
APBI_V 497-A_001	APBI_V	497	A	A_001	Directed Studies	W1	Prerequisite: Approval of program advisor.	In Person Learning	Arranged	Arranged
APBI_V 497-A_002	APBI_V	497	A	A_002	Directed Studies	W2	Prerequisite: Approval of program advisor.	In Person Learning	Arranged	Arranged

APPP_V 501-101	APPP_V	501		101	Project Management and Leadership	W2	Leading complex multi-disciplinary projects through management processes; project management frameworks, standards; core management processes of planning, scheduling, estimating, survey of communication, risk, and management issues; case studies in industry-relevant project management. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
APPP_V 502-101	APPP_V	502		101	Sustainability and Leadership	W1	Skills for leading change that influences triple-bottom-line; sustainability, change agency systems thinking; awareness and perspective for engagement and communication; adaptive leadership; change dynamics; cases studies in organizational and social change. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
APPP_V 502-102	APPP_V	502		102	Sustainability and Leadership	W1	Skills for leading change that influences triple-bottom-line; sustainability, change agency systems thinking; awareness and perspective for engagement and communication; adaptive leadership; change dynamics; cases studies in organizational and social change. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
APPP_V 503-101	APPP_V	503		101	Organizational Leadership	W2	Behaviour of people and groups and its application to management and leadership within professional organizations; motivation, group dynamics, and organizational structure; leadership styles and effectiveness; assessing organizational effectiveness. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
APPP_V 503-102	APPP_V	503		102	Organizational Leadership	W2	Behaviour of people and groups and its application to management and leadership within professional organizations; motivation, group dynamics, and organizational structure; leadership styles and effectiveness; assessing organizational effectiveness. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
APPP_V 505-101	APPP_V	505		101	Analytics and Interpretation for Applied Sciences	W2	Relevant measurable metrics of a project; data interpretation techniques; introduction to data visualization; overview of big data and predictive analytics; strategies related to metrics and data, ethical and privacy concerns. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	12:00 p.m. - 1:30 p.m.
APPP_V 506-C_101	APPP_V	506	C	C_101	Capstone Project	W1	A capstone design project designed to give students experience in leading complex multidisciplinary projects relevant to their professional specialization. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APPP_V 506-C_103	APPP_V	506	C	C_103	Capstone Project	W1	A capstone design project designed to give students experience in leading complex multidisciplinary projects relevant to their professional specialization. Collaboratively delivered with the Faculty of Commerce and Business Administration. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 100-101	APSC_V	100		101	Introduction to Engineering I	W1	An introduction to the engineering profession including: roles and responsibilities of the engineer, the engineering disciplines, sustainability, an introduction to the engineering design process, introduction and application of the relevant foundational scientific principles, prototyping, engineering graphics, technical communication, and engineering ethics. This course is not eligible for Credit/D/Fail grading. [2-2-0]	In Person Learning	Mon Fri	8:00 a.m. - 9:00 a.m.
APSC_V 100-102	APSC_V	100		102	Introduction to Engineering I	W1	An introduction to the engineering profession including: roles and responsibilities of the engineer, the engineering disciplines, sustainability, an introduction to the engineering design process, introduction and application of the relevant foundational scientific principles, prototyping, engineering graphics, technical communication, and engineering ethics. This course is not eligible for Credit/D/Fail grading. [2-2-0]	In Person Learning	Mon Fri	9:00 a.m. - 10:00 a.m.
APSC_V 100-103	APSC_V	100		103	Introduction to Engineering I	W1	An introduction to the engineering profession including: roles and responsibilities of the engineer, the engineering disciplines, sustainability, an introduction to the engineering design process, introduction and application of the relevant foundational scientific principles, prototyping, engineering graphics, technical communication, and engineering ethics. This course is not eligible for Credit/D/Fail grading. [2-2-0]	In Person Learning	Mon Fri	3:00 p.m. - 4:00 p.m.
APSC_V 100-104	APSC_V	100		104	Introduction to Engineering I	W1	An introduction to the engineering profession including: roles and responsibilities of the engineer, the engineering disciplines, sustainability, an introduction to the engineering design process, introduction and application of the relevant foundational scientific principles, prototyping, engineering graphics, technical communication, and engineering ethics. This course is not eligible for Credit/D/Fail grading. [2-2-0]	In Person Learning	Mon Fri	4:00 p.m. - 5:00 p.m.
APSC_V 100-9AR	APSC_V	100		9AR	Introduction to Engineering I	W1	An introduction to the engineering profession including: roles and responsibilities of the engineer, the engineering disciplines, sustainability, an introduction to the engineering design process, introduction and application of the relevant foundational scientific principles, prototyping, engineering graphics, technical communication, and engineering ethics. This course is not eligible for Credit/D/Fail grading. [2-2-0]	In Person Learning	Arranged	Arranged

APSC_V 160-L2O	APSC_V	160	L2O	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
APSC_V 160-L2P	APSC_V	160	L2P	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Thu	4:00 p.m. - 6:00 p.m.
APSC_V 160-L2Q	APSC_V	160	L2Q	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
APSC_V 160-L2R	APSC_V	160	L2R	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Mon	4:00 p.m. - 6:00 p.m.
APSC_V 160-L2S	APSC_V	160	L2S	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Fri	12:00 p.m. - 2:00 p.m.
APSC_V 160-L2U	APSC_V	160	L2U	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Mon	12:00 p.m. - 2:00 p.m.
APSC_V 160-L2V	APSC_V	160	L2V	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
APSC_V 160-L2X	APSC_V	160	L2X	Introduction to Computation in Engineering Design	W2	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Tue	10:00 a.m. - 12:00 p.m.
APSC_V 160-LAR	APSC_V	160	LAR	Introduction to Computation in Engineering Design	W1	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Arranged	Arranged
APSC_V 160-VE1	APSC_V	160	VE1	Introduction to Computation in Engineering Design	W1	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Mon Wed Fri	4:00 p.m. - 5:00 p.m.
APSC_V 160-VL1	APSC_V	160	VL1	Introduction to Computation in Engineering Design	W1	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Tue	12:00 p.m. - 2:00 p.m.
APSC_V 160-VL2	APSC_V	160	VL2	Introduction to Computation in Engineering Design	W1	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Tue	10:00 a.m. - 12:00 p.m.
APSC_V 160-VL3	APSC_V	160	VL3	Introduction to Computation in Engineering Design	W1	Analysis and simulation, laboratory data acquisition and processing, measurement interfaces, engineering tools, computer systems organization, programming languages. Credit will only be given for one of: APSC 160, CPSC 301, or EOOSC 211. This course is not eligible for Credit/D/Fail grading. [3-2-0]	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
APSC_V 172-VE1	APSC_V	172	VE1	Engineering Analysis I	W1	Functions, limits, differentiation, applications of derivatives, integration, applications of definite integrals. This course is not eligible for Credit/D/Fail grading. [3-0-1]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
APSC_V 172-VT1	APSC_V	172	VT1	Engineering Analysis I	W1	Functions, limits, differentiation, applications of derivatives, integration, applications of definite integrals. This course is not eligible for Credit/D/Fail grading. [3-0-1]	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.
APSC_V 172-VT2	APSC_V	172	VT2	Engineering Analysis I	W1	Functions, limits, differentiation, applications of derivatives, integration, applications of definite integrals. This course is not eligible for Credit/D/Fail grading. [3-0-1]	In Person Learning	Thu	10:00 a.m. - 11:00 a.m.
APSC_V 173-VE1	APSC_V	173	VE1	Engineering Analysis II	W2	Integrals and transcendental functions, techniques of integration, applications of integration, polar coordinates, infinite sequences and series, vectors and the geometry of space, and partial derivatives. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: APSC 172.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
APSC_V 173-VT1	APSC_V	173	VT1	Engineering Analysis II	W2	Integrals and transcendental functions, techniques of integration, applications of integration, polar coordinates, infinite sequences and series, vectors and the geometry of space, and partial derivatives. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: APSC 172.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
APSC_V 173-VT2	APSC_V	173	VT2	Engineering Analysis II	W2	Integrals and transcendental functions, techniques of integration, applications of integration, polar coordinates, infinite sequences and series, vectors and the geometry of space, and partial derivatives. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: APSC 172.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
APSC_V 176-001	APSC_V	176	001	Engineering Communication	W1-2	Purpose, audience, content, format, and tone are studied, as are team-based report writings and presentations. Community Service Learning projects are integrated into existing assignments. An LPI level 5 is required for registration in this course. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Arranged	Arranged
APSC_V 176-201	APSC_V	176	201	Engineering Communication	W2	Purpose, audience, content, format, and tone are studied, as are team-based report writings and presentations. Community Service Learning projects are integrated into existing assignments. An LPI level 5 is required for registration in this course. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Arranged	Arranged
APSC_V 176-202	APSC_V	176	202	Engineering Communication	W2	Purpose, audience, content, format, and tone are studied, as are team-based report writings and presentations. Community Service Learning projects are integrated into existing assignments. An LPI level 5 is required for registration in this course. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Arranged	Arranged
APSC_V 176-203	APSC_V	176	203	Engineering Communication	W2	Purpose, audience, content, format, and tone are studied, as are team-based report writings and presentations. Community Service Learning projects are integrated into existing assignments. An LPI level 5 is required for registration in this course. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Arranged	Arranged

APSC_V 178-VE1	APSC_V	178	VE1	Electricity, Magnetism, and Waves	W2	Coulomb's law, electric field, Gauss' law, electric potential, conductors, capacitance, electric currents, resistance, DC circuits, magnetic fields and forces, sources of magnetic fields, electromagnetic induction, mechanical waves, electromagnetic waves, light propagation, geometrical optics. This course is not eligible for Credit/D/Fail grading. [4-0-2] Prerequisite: APSC 172. Corequisite: APSC 173.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
APSC_V 178-VT1	APSC_V	178	VT1	Electricity, Magnetism, and Waves	W2	Coulomb's law, electric field, Gauss' law, electric potential, conductors, capacitance, electric currents, resistance, DC circuits, magnetic fields and forces, sources of magnetic fields, electromagnetic induction, mechanical waves, electromagnetic waves, light propagation, geometrical optics. This course is not eligible for Credit/D/Fail grading. [4-0-2] Prerequisite: APSC 172. Corequisite: APSC 173.	In Person Learning	Mon	11:00 a.m. - 1:00 p.m.
APSC_V 178-VT2	APSC_V	178	VT2	Electricity, Magnetism, and Waves	W2	Coulomb's law, electric field, Gauss' law, electric potential, conductors, capacitance, electric currents, resistance, DC circuits, magnetic fields and forces, sources of magnetic fields, electromagnetic induction, mechanical waves, electromagnetic waves, light propagation, geometrical optics. This course is not eligible for Credit/D/Fail grading. [4-0-2] Prerequisite: APSC 172. Corequisite: APSC 173.	In Person Learning	Thu	3:00 p.m. - 5:00 p.m.
APSC_V 182-VE1	APSC_V	182	VE1	Matter and Energy I	W1	Thermometry, states of matter and phase change, ideal and real gases, 1st law of thermodynamics, 2nd law of thermodynamics, liquids, solutions. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
APSC_V 182-VL1	APSC_V	182	VL1	Matter and Energy I	W1	Thermometry, states of matter and phase change, ideal and real gases, 1st law of thermodynamics, 2nd law of thermodynamics, liquids, solutions. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Wed (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 182-VL2	APSC_V	182	VL2	Matter and Energy I	W1	Thermometry, states of matter and phase change, ideal and real gases, 1st law of thermodynamics, 2nd law of thermodynamics, liquids, solutions. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Wed (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 182-VL3	APSC_V	182	VL3	Matter and Energy I	W1	Thermometry, states of matter and phase change, ideal and real gases, 1st law of thermodynamics, 2nd law of thermodynamics, liquids, solutions. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Wed (Alternate weeks)	11:00 a.m. - 1:00 p.m.
APSC_V 182-VT1	APSC_V	182	VT1	Matter and Energy I	W1	Thermometry, states of matter and phase change, ideal and real gases, 1st law of thermodynamics, 2nd law of thermodynamics, liquids, solutions. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
APSC_V 182-VT2	APSC_V	182	VT2	Matter and Energy I	W1	Thermometry, states of matter and phase change, ideal and real gases, 1st law of thermodynamics, 2nd law of thermodynamics, liquids, solutions. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
APSC_V 183-VE1	APSC_V	183	VE1	Matter and Energy II	W2	Atomic structures and bonding, solid crystals, chemical equilibrium, reactions in gas phase and in aqueous solutions, acid-base and redox reactions, kinetics of chemical reactions, thermochemistry, electrochemistry. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Mon Fri	9:00 a.m. - 10:00 a.m.
APSC_V 183-VL1	APSC_V	183	VL1	Matter and Energy II	W2	Atomic structures and bonding, solid crystals, chemical equilibrium, reactions in gas phase and in aqueous solutions, acid-base and redox reactions, kinetics of chemical reactions, thermochemistry, electrochemistry. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Wed (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 183-VL2	APSC_V	183	VL2	Matter and Energy II	W2	Atomic structures and bonding, solid crystals, chemical equilibrium, reactions in gas phase and in aqueous solutions, acid-base and redox reactions, kinetics of chemical reactions, thermochemistry, electrochemistry. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Wed (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 183-VL3	APSC_V	183	VL3	Matter and Energy II	W2	Atomic structures and bonding, solid crystals, chemical equilibrium, reactions in gas phase and in aqueous solutions, acid-base and redox reactions, kinetics of chemical reactions, thermochemistry, electrochemistry. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Wed (Alternate weeks)	11:00 a.m. - 1:00 p.m.
APSC_V 183-VT1	APSC_V	183	VT1	Matter and Energy II	W2	Atomic structures and bonding, solid crystals, chemical equilibrium, reactions in gas phase and in aqueous solutions, acid-base and redox reactions, kinetics of chemical reactions, thermochemistry, electrochemistry. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
APSC_V 183-VT2	APSC_V	183	VT2	Matter and Energy II	W2	Atomic structures and bonding, solid crystals, chemical equilibrium, reactions in gas phase and in aqueous solutions, acid-base and redox reactions, kinetics of chemical reactions, thermochemistry, electrochemistry. This course is not eligible for Credit/D/Fail grading. [2-2*-2*]	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
APSC_V 201-101	APSC_V	201	101	Technical Communication	W1	Written and oral communication in engineering. Report preparation, business correspondence, and oral presentation of technical material. Credit will be granted for only one of BMEG 201, CHBE 201, CIVL 203, CPEN 281, ELEC 281, IGEN 201, MANU 201, MECH 226, MTRL 201, or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
APSC_V 201-109	APSC_V	201	109	Technical Communication	W1	Written and oral communication in engineering. Report preparation, business correspondence, and oral presentation of technical material. Credit will be granted for only one of BMEG 201, CHBE 201, CIVL 203, CPEN 281, ELEC 281, IGEN 201, MANU 201, MECH 226, MTRL 201, or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
APSC_V 201-207	APSC_V	201	207	Technical Communication	W2	Written and oral communication in engineering. Report preparation, business correspondence, and oral presentation of technical material. Credit will be granted for only one of BMEG 201, CHBE 201, CIVL 203, CPEN 281, ELEC 281, IGEN 201, MANU 201, MECH 226, MTRL 201, or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
APSC_V 210-601	APSC_V	210	601	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 110.	In Person Learning	Arranged	Arranged

APSC_V 210-623	APSC_V	210	623	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 110.	In Person Learning	Arranged	Arranged
APSC_V 210-624	APSC_V	210	624	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 110.	In Person Learning	Arranged	Arranged
APSC_V 210-625	APSC_V	210	625	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 110.	In Person Learning	Arranged	Arranged
APSC_V 210-626	APSC_V	210	626	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 110.	In Person Learning	Arranged	Arranged
APSC_V 210-627	APSC_V	210	627	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 110.	In Person Learning	Arranged	Arranged

APSC_V 278-101	APSC_V	278	101	Engineering Materials	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
APSC_V 278-201	APSC_V	278	201	Engineering Materials	W2	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
APSC_V 279-101	APSC_V	279	101	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Thu (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 279-102	APSC_V	279	102	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Thu (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 279-105	APSC_V	279	105	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Fri (Alternate weeks)	9:00 a.m. - 11:00 a.m.
APSC_V 279-106	APSC_V	279	106	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Tue (Alternate weeks)	10:00 a.m. - 12:00 p.m.
APSC_V 279-107	APSC_V	279	107	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Fri (Alternate weeks)	9:00 a.m. - 11:00 a.m.
APSC_V 279-108	APSC_V	279	108	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Tue (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 279-109	APSC_V	279	109	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Tue (Alternate weeks)	8:00 a.m. - 10:00 a.m.
APSC_V 279-110	APSC_V	279	110	Engineering Materials Laboratory	W1	Atomic bonding; crystal structures and imperfections; properties of metals, ceramics, polymers, wood, concrete and fibre composite materials; selection of materials; corrosion; mechanical testing and heat treatment. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: APSC 278 may be taken.	In Person Learning	Wed (Alternate weeks)	8:00 a.m. - 10:00 a.m.

APSC_V 310-622	APSC_V	310	622	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-623	APSC_V	310	623	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-624	APSC_V	310	624	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-625	APSC_V	310	625	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-626	APSC_V	310	626	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-627	APSC_V	310	627	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-JP1	APSC_V	310	JP1	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-JP2	APSC_V	310	JP2	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 310-VIS	APSC_V	310	VIS	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 366-201	APSC_V	366	201	The Art of the Possible: An Introduction to Engineering for Non-Engineers	W2	An introduction to engineering for the non-specialist. A case-studies approach includes examples from sustainability-related technology, consumer products, structures, and energy conversion. [3-0-1]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
APSC_V 367-101	APSC_V	367	101	Humanitarian Engineering: Politics and Practice	W1	An interdisciplinary study of best practice, politics, and ethics associated with technical solutions to humanitarian assistance within Canada and abroad; examines policies used in aid and development contexts with emphasis on the application of engineering. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Restricted to students with a Major, Combined Major, Honours, Honours with, or Minor specialization in Political Science or International Relations, or at least 3rd year standing in any BASC program. Credit will be granted for only one of POLI 371 or APSC 367. Equivalency: POLI 371	In Person Learning	Tue	4:00 p.m. - 7:00 p.m.
APSC_V 377-101	APSC_V	377	101	Nuclear Weapons and Arms Control	W1	The evolution and contemporary significance of nuclear weapons and arms control policy and technology from the perspective of the physical and life sciences and the social sciences and humanities. Recommended pre-requisite: third-year standing in B.A. or B.Sc. programs, or second-year standing in B.A.Sc. program. Credit will be granted for only one of APSC 377 or POLI 377. Equivalency: POLI 377	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
APSC_V 383-101	APSC_V	383	101	Prototyping	W1	Systematic approach and use of tools for prototyping. Using software, electronics, and physical components for practical advancement of initiatives in innovation, product development market identification, and problem solving. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	9:00 a.m. - 10:30 a.m.
APSC_V 402-001	APSC_V	402	001	Living Language: Science and Society	W1	Multi-disciplinary course in which students, individually and in groups, examine, integrate and apply subject-specific knowledge through the lens of language and the framework of the language sciences, with a focus on themes of real-world importance. This course is not eligible for Credit/D/Fail grading. Prerequisite: Fourth-year standing or permission of the instructor. Equivalency: ASTU402, FRST402, LFS 402, LLED402, PHAR402.	Online Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
APSC_V 410-601	APSC_V	410	601	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 410-602	APSC_V	410	602	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 410-603	APSC_V	410	603	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

APSC_V 412-623	APSC_V	412	623	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 412-624	APSC_V	412	624	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 412-625	APSC_V	412	625	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 412-626	APSC_V	412	626	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 412-627	APSC_V	412	627	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 412-JP1	APSC_V	412	JP1	Co-operative Education Work Term	W1	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 412-JP2	APSC_V	412	JP2	Co-operative Education Work Term	W2	Supervised, technical work integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to students meeting the requirements of the Faculty of Applied Science and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
APSC_V 440-201	APSC_V	440	201	Management Fundamentals for Technology-Based Product Marketing and Development	W2	Management topics are presented from the perspective of technology-based industrial practice; project management, marketing and marketing planning, product development and commercialization, introduction to quality management, teamwork and effective individual participation. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Fourth-year standing in Engineering.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
APSC_V 450-101	APSC_V	450	101	Professional Engineering Practice	W1	Legislation affecting the practice of engineering; ethical principles and responsibilities. Management of engineering enterprises; labour relations, safety and environmental legislation. Restricted to engineering undergraduate students in the final year of their program. In Person Learning	Tue	11:00 a.m. - 12:30 p.m.
ARCH_V 505-E_201	ARCH_V	505	E	E_201	Topics in Architectural History II (1900-Present)	W2	History of architecture in the post-1900 time period. Technological, political, social, and economic changes which have influenced architecture and related fields. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
ARCH_V 505-J_201	ARCH_V	505	J	J_201	Topics in Architectural History II (1900-Present)	W2	History of architecture in the post-1900 time period. Technological, political, social, and economic changes which have influenced architecture and related fields. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ARCH_V 511-001	ARCH_V	511		001	Architectural Technology I	W1	Architectural technology, including materials and methods, construction types, and building system integration. Strong emphasis on enclosure performance with focus on smaller buildings and light wood framing construction. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ARCH_V 512-001	ARCH_V	512		001	Structures I	W2	Quantitative and qualitative means for understanding of statics, materials and flow of force through a structure. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ARCH_V 513-001	ARCH_V	513		001	Environmental Systems and Controls I	W1	Building form and fabric considerations to assure appropriate thermal, luminous, sonic, and atmospheric conditions within buildings. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ARCH_V 515-001	ARCH_V	515		001	Design Media I	W1	Foundations of manual and digital skills and concepts employing a variety of subjects, techniques and software. Credit will be granted for only one of ARCH 515, DES 211 or ENDS 320. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ARCH_V 515-002	ARCH_V	515		002	Design Media I	W1	Foundations of manual and digital skills and concepts employing a variety of subjects, techniques and software. Credit will be granted for only one of ARCH 515, DES 211 or ENDS 320. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ARCH_V 517-001	ARCH_V	517		001	Design Media II	W2	Intermediate manual and digital skills and concepts employing a variety of subjects, techniques and software. Credit will be granted for only one of ARCH 517, ARCH 437 or DES 212. This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 515.	In Person Learning	Wed Fri	11:00 a.m. - 12:30 p.m.
ARCH_V 517-002	ARCH_V	517		002	Design Media II	W2	Intermediate manual and digital skills and concepts employing a variety of subjects, techniques and software. Credit will be granted for only one of ARCH 517, ARCH 437 or DES 212. This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 515.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ARCH_V 520-001	ARCH_V	520		001	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-002	ARCH_V	520		002	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-003	ARCH_V	520		003	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-004	ARCH_V	520		004	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-005	ARCH_V	520		005	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.

ARCH_V 520-006	ARCH_V	520	006	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-007	ARCH_V	520	007	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-008	ARCH_V	520	008	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-009	ARCH_V	520	009	Architectural Design Studio III	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-010	ARCH_V	520	010	Architectural Design Studio III	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-011	ARCH_V	520	011	Architectural Design Studio III	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-012	ARCH_V	520	012	Architectural Design Studio III	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-013	ARCH_V	520	013	Architectural Design Studio III	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 520-101	ARCH_V	520	101	Architectural Design Studio III	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 501.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 521-009	ARCH_V	521	009	Architectural Design Studio IV	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ARCH 511, ARCH 512, ARCH 513, ARCH 520. Corequisite: All of ARCH 531, ARCH 533.	In Person Learning	Thu	2:00 p.m. - 6:00 p.m.
ARCH_V 523-001	ARCH_V	523	001	Contemporary Theories in Architecture	W2	Theoretical propositions and their built manifestations. This course is not eligible for Credit/D/Fail grading. Prerequisite: 6 credits of ARCH 504, ARCH 505.	In Person Learning	Fri	9:30 a.m. - 12:30 p.m.
ARCH_V 531-001	ARCH_V	531	001	Architectural Technology II	W2	Analysis and design of advanced assemblies. Integration of multiple building systems within a wide range of construction types, and more complex enclosures in a variety of climatic conditions. Emphasis on technical performance, durability and sustainability. This course is not eligible for Credit/D/Fail grading. Prerequisite: [ARCH511]	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ARCH_V 532-001	ARCH_V	532	001	Architectural Structures II	W1	Complex multi-span and continuous systems: effective material configuration, approximate methods of analysis, selection of appropriate structural systems, earthquake configuration and high rises. This course is not eligible for Credit/D/Fail grading. Prerequisite: [ARCH512]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ARCH_V 533-001	ARCH_V	533	001	Environmental Systems and Controls II	W2	Mechanical and electrical services of buildings and their integration with architectural form and fabric. This course is not eligible for Credit/D/Fail grading. Prerequisite: [ARCH513]	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ARCH_V 540-001	ARCH_V	540	001	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-002	ARCH_V	540	002	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-003	ARCH_V	540	003	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-004	ARCH_V	540	004	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-005	ARCH_V	540	005	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-006	ARCH_V	540	006	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-007	ARCH_V	540	007	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-008	ARCH_V	540	008	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-009	ARCH_V	540	009	Architectural Design Studio V	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.

ARCH_V 540-010	ARCH_V	540		010	Architectural Design Studio V	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-011	ARCH_V	540		011	Architectural Design Studio V	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-012	ARCH_V	540		012	Architectural Design Studio V	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-013	ARCH_V	540		013	Architectural Design Studio V	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 540-101	ARCH_V	540		101	Architectural Design Studio V	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: ARCH 521.	In Person Learning	Tue Fri	1:30 p.m. - 6:00 p.m.
ARCH_V 541-002	ARCH_V	541		002	Professional Practice	W2	Ethical, legal and business context of professional practice, including contracts, project management. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ARCH_V 544-A_101	ARCH_V	544	A	A_101	Seminar in Architecture	W1	An exploration of selected topics in architecture. Enrolment is limited to facilitate discussion. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

ARCH_V 574-201	ARCH_V	574		201	Green Building Contemporary Practice	W2	Enhanced building environmental performance and the integration of green building principles, strategies and technologies. This course is not eligible for Credit/D/Fail grading. Equivalency: HPB501	In Person Learning	Wed	3:00 p.m. - 6:00 p.m.
ARCH_V 575-101	ARCH_V	575		101	Regenerative Development	W1	The relationship between human and natural systems in the context of regenerative design. Provides an understanding of how regenerative approaches differ from green design and how they can offer new insights and directions for design. This course is not eligible for Credit/D/Fail grading. Equivalency: HPB502	In Person Learning	Fri	9:30 a.m. - 12:30 p.m.
ARCH_V 575-102	ARCH_V	575		102	Regenerative Development	W1	The relationship between human and natural systems in the context of regenerative design. Provides an understanding of how regenerative approaches differ from green design and how they can offer new insights and directions for design. This course is not eligible for Credit/D/Fail grading. Equivalency: HPB502	In Person Learning	Arranged	Arranged
ARCH_V 597-F_001	ARCH_V	597	F	F_001	Special Topics	W1	Individual or small group study of special topics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	11:00 a.m. - 12:30 p.m.
ARCH_V 597-F_T01	ARCH_V	597	F	F_T01	Special Topics	W1	Individual or small group study of special topics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 12:30 p.m.
ARCH_V 597-F_T02	ARCH_V	597	F	F_T02	Special Topics	W1	Individual or small group study of special topics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 12:30 p.m.
ARCH_V 597-F_T03	ARCH_V	597	F	F_T03	Special Topics	W1	Individual or small group study of special topics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	11:00 a.m. - 12:30 p.m.
ARCH_V 597-F_T04	ARCH_V	597	F	F_T04	Special Topics	W1	Individual or small group study of special topics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	11:00 a.m. - 12:30 p.m.
ARCH_V 598-001	ARCH_V	598		001	Research Thesis	W1-2	Restricted to M.A.S.A. candidates. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ARCH_V 598-002	ARCH_V	598		002	Research Thesis	W1	Restricted to M.A.S.A. candidates. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ARCH_V 598-003	ARCH_V	598		003	Research Thesis	W2	Restricted to M.A.S.A. candidates. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ARCL_V 103-001	ARCL_V	103		001	Introduction to Archaeology: Past perspectives and Future Promise	W2	A critical introductory overview to the discipline of archaeology, its functions and entanglements, and potential contributions and transformations for the future.	In Person Learning	Tue Thu	10:00 a.m. - 11:00 a.m.
ARCL_V 103-D1A	ARCL_V	103		D1A	Introduction to Archaeology: Past perspectives and Future Promise	W2	A critical introductory overview to the discipline of archaeology, its functions and entanglements, and potential contributions and transformations for the future.	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
ARCL_V 103-D1B	ARCL_V	103		D1B	Introduction to Archaeology: Past perspectives and Future Promise	W2	A critical introductory overview to the discipline of archaeology, its functions and entanglements, and potential contributions and transformations for the future.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
ARCL_V 103-D1C	ARCL_V	103		D1C	Introduction to Archaeology: Past perspectives and Future Promise	W2	A critical introductory overview to the discipline of archaeology, its functions and entanglements, and potential contributions and transformations for the future.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
ARCL_V 103-D1D	ARCL_V	103		D1D	Introduction to Archaeology: Past perspectives and Future Promise	W2	A critical introductory overview to the discipline of archaeology, its functions and entanglements, and potential contributions and transformations for the future.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
ARCL_V 103-D1E	ARCL_V	103		D1E	Introduction to Archaeology: Past perspectives and Future Promise	W2	A critical introductory overview to the discipline of archaeology, its functions and entanglements, and potential contributions and transformations for the future.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
ARCL_V 103-D1F	ARCL_V	103		D1F	Introduction to Archaeology: Past perspectives and Future Promise	W2	A critical introductory overview to the discipline of archaeology, its functions and entanglements, and potential contributions and transformations for the future.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
ARCL_V 140-001	ARCL_V	140		001	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Mon Wed	3:00 p.m. - 4:00 p.m.
ARCL_V 140-D1A	ARCL_V	140		D1A	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
ARCL_V 140-D1B	ARCL_V	140		D1B	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.

ARCL_V 140-D1C	ARCL_V	140	D1C	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
ARCL_V 140-D1D	ARCL_V	140	D1D	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
ARCL_V 140-D1E	ARCL_V	140	D1E	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
ARCL_V 140-D1F	ARCL_V	140	D1F	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
ARCL_V 140-D1G	ARCL_V	140	D1G	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	3:00 p.m. - 4:00 p.m.
ARCL_V 140-D1H	ARCL_V	140	D1H	Bones: The Origins of Humanity	W1	The origin and evolution of the human lineage and the emergence of human biological and cultural traits with emphasis on the fossil record before the Pleistocene.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
ARCL_V 203-001	ARCL_V	203	001	Archaeological Methods	W1	Introduces the methods and principles applied in anthropological archaeology and cultural-historical research.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ARCL_V 228-001	ARCL_V	228	001	Forensic Anthropology	W1	The application of methods from biological anthropology and archaeology to the identification, recovery, and analysis of skeletal remains from crime scenes, mass disasters, and unexplained deaths.	In Person Learning	Mon Wed Fri	4:00 p.m. - 5:00 p.m.
ARCL_V 228-002	ARCL_V	228	002	Forensic Anthropology	W2	The application of methods from biological anthropology and archaeology to the identification, recovery, and analysis of skeletal remains from crime scenes, mass disasters, and unexplained deaths.	In Person Learning	Mon Wed Fri	4:00 p.m. - 5:00 p.m.
ARCL_V 235-001	ARCL_V	235	001	Taming the Wild: Animals, Alcohol and Agriculture	W2	How, when and why humans became dependent on cultivated foods and domestic animals and the methods used to document plant and animal domestication.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ARCL_V 305-001	ARCL_V	305	001	Archaeological Interpretation	W1	Current theoretical developments explored through the practice of archaeology. Examples drawn from a range of times and places focusing on emerging technologies, food production, colonial encounters and culture contact, materiality and symbolic systems, social inequality and complexity, and human-environmental interactions.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ARCL_V 309-001	ARCL_V	309	001	The Archaeology of Collapse and Sustainability	W2	An evaluation of the issues of sustainability and collapse of ecological and social systems through the archaeological study of the past.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ARCL_V 325-A_001	ARCL_V	325	A	A_001	W1	Origin and development of the hominins; the hominin fossil record, and theories relating to hominin evolution. Prerequisite: ARCL 140.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ARCL_V 405-001	ARCL_V	405	001	Archaeological and Anthropological Mapping	W1	Current methods in mapping spatial information in archaeology and related subfields of anthropology.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ARCL_V 419-001	ARCL_V	419	001	The Archaeology of Death	W2	A survey of methods, theory, and case-studies in mortuary archaeology. Prerequisite: ARCL 203.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ARST_V 500-001	ARST_V	500	001	Information Technology and Archives	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.
ARST_V 510-001	ARST_V	510	001	Archival Diplomatics	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
ARST_V 515-001	ARST_V	515	001	Arrangement and Description of Archives	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
ARST_V 516-002	ARST_V	516	002	Management of Current Records	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.

ASIX_V 300-B_011	ASIX_V	300	B	B_011	Topics in Asian Studies Crossings	W1	Transnational, transcultural, or transregional approaches to Asian and/or diasporic Asian literature, history, visual culture, religion, or communities. Topics vary from section to section. Consult Department for current offerings.	In Person Learning	Arranged	Arranged
ASIX_V 300-D_011	ASIX_V	300	D	D_011	Topics in Asian Studies Crossings	W1	Transnational, transcultural, or transregional approaches to Asian and/or diasporic Asian literature, history, visual culture, religion, or communities. Topics vary from section to section. Consult Department for current offerings.	In Person Learning	Fri	10:00 a.m. - 1:00 p.m.
ASIX_V 300-E_011	ASIX_V	300	E	E_011	Topics in Asian Studies Crossings	W1	Transnational, transcultural, or transregional approaches to Asian and/or diasporic Asian literature, history, visual culture, religion, or communities. Topics vary from section to section. Consult Department for current offerings.	In Person Learning	Wed Fri	11:00 a.m. - 12:30 p.m.
ASIX_V 315-021	ASIX_V	315		021	Hong Kong Diaspora in Canada	W2	Various social issues relating to Hong Kong diaspora in Canada, particularly pertaining to their long history of migration to Canada; their cultural developments and experiences; and their challenges and contributions in their new cultural environment. Recommended: Second-year standing or higher	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
ASL_V 100-001	ASL_V	100		001	American Sign Language and Deaf Culture I	W1	An introduction to understanding and producing American Sign Language. Emphasizes core grammar and vocabulary, contextual use, connection between language and Deaf culture. For students new to ASL.	In Person Learning	Mon Wed	1:00 p.m. - 3:00 p.m.
ASL_V 100-002	ASL_V	100		002	American Sign Language and Deaf Culture I	W2	An introduction to understanding and producing American Sign Language. Emphasizes core grammar and vocabulary, contextual use, connection between language and Deaf culture. For students new to ASL.	In Person Learning	Tue Thu	12:00 p.m. - 2:00 p.m.
ASL_V 100-003	ASL_V	100		003	American Sign Language and Deaf Culture I	W1	An introduction to understanding and producing American Sign Language. Emphasizes core grammar and vocabulary, contextual use, connection between language and Deaf culture. For students new to ASL.	In Person Learning	Mon Wed	3:30 p.m. - 5:30 p.m.

ASL_V 101-002	ASL_V	101	002	American Sign Language and Deaf Culture II	W2	Skills in using ASL in a range of social contexts. Training in grammar and vocabulary that builds fluency, and in using the language appropriately for meaningful interactions with members of the Deaf community. For students with basic ASL conversational ability. Prerequisite: ASL 100. or by placement.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
ASTR_V 101-101	ASTR_V	101	101	Introduction to the Solar System	W1	General principles of the celestial sphere, laws of motion and light, optics, and telescopes; current knowledge of the Sun and Solar System. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
ASTR_V 101-L1A	ASTR_V	101	L1A	Introduction to the Solar System	W1	General principles of the celestial sphere, laws of motion and light, optics, and telescopes; current knowledge of the Sun and Solar System. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Tue	12:00 p.m. - 2:00 p.m.
ASTR_V 101-L1B	ASTR_V	101	L1B	Introduction to the Solar System	W1	General principles of the celestial sphere, laws of motion and light, optics, and telescopes; current knowledge of the Sun and Solar System. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Thu	10:00 a.m. - 12:00 p.m.
ASTR_V 101-L1C	ASTR_V	101	L1C	Introduction to the Solar System	W1	General principles of the celestial sphere, laws of motion and light, optics, and telescopes; current knowledge of the Sun and Solar System. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
ASTR_V 101-L1D	ASTR_V	101	L1D	Introduction to the Solar System	W1	General principles of the celestial sphere, laws of motion and light, optics, and telescopes; current knowledge of the Sun and Solar System. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
ASTR_V 101-L1E	ASTR_V	101	L1E	Introduction to the Solar System	W1	General principles of the celestial sphere, laws of motion and light, optics, and telescopes; current knowledge of the Sun and Solar System. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
ASTR_V 101-L1F	ASTR_V	101	L1F	Introduction to the Solar System	W1	General principles of the celestial sphere, laws of motion and light, optics, and telescopes; current knowledge of the Sun and Solar System. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
ASTR_V 102-201	ASTR_V	102	201	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
ASTR_V 102-L2A	ASTR_V	102	L2A	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Tue	12:00 p.m. - 2:00 p.m.
ASTR_V 102-L2B	ASTR_V	102	L2B	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Thu	10:00 a.m. - 12:00 p.m.
ASTR_V 102-L2C	ASTR_V	102	L2C	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
ASTR_V 102-L2D	ASTR_V	102	L2D	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
ASTR_V 102-L2E	ASTR_V	102	L2E	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
ASTR_V 102-L2F	ASTR_V	102	L2F	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
ASTR_V 102-L2G	ASTR_V	102	L2G	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Mon	9:00 a.m. - 11:00 a.m.
ASTR_V 102-L2H	ASTR_V	102	L2H	Introduction to Stars and Galaxies	W2	Modern stellar and extragalactic astronomy. Stars and stellar evolution from protostars to black holes; galaxies and quasars; cosmology. ASTR 200/205 rather than ASTR 102 are recommended for students who intend to pursue studies in Astronomy. [3-2*-0] Prerequisite: One of PHYS 11, PHYS 12, PHYS 100. and Principles of Mathematics 12.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.
ASTR_V 200-101	ASTR_V	200	101	Frontiers of Astrophysics	W1	Stellar masses and evolution. White dwarfs, neutron stars, and black holes. Extrasolar planet formation and detection. Dark matter in the Milky Way and other galaxies. Cosmological observations and principles. [3-0-0] Prerequisite: Either (a) one of PHYS 101, PHYS 106, PHYS 107, PHYS 117, PHYS 131, PHYS 157, PHYS 153 and one of MATH 101, MATH 103, MATH 105, MATH 121; or (b) SCIE 001.	In Person Learning	Mon Fri	12:00 p.m. - 1:00 p.m.
ASTR_V 200-T1A	ASTR_V	200	T1A	Frontiers of Astrophysics	W1	Stellar masses and evolution. White dwarfs, neutron stars, and black holes. Extrasolar planet formation and detection. Dark matter in the Milky Way and other galaxies. Cosmological observations and principles. [3-0-0] Prerequisite: Either (a) one of PHYS 101, PHYS 106, PHYS 107, PHYS 117, PHYS 131, PHYS 157, PHYS 153 and one of MATH 101, MATH 103, MATH 105, MATH 121; or (b) SCIE 001.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
ASTR_V 205-201	ASTR_V	205	201	Stars and Stellar Populations	W2	Measurement of positions, motions, and distances in astronomy. Temperature, masses, and spectra of stars. Hertzsprung-Russell diagram. Quantitative stellar structure and evolution. Chemical composition of stars in different Galactic populations. Globular and open star clusters. [3-0-0] Prerequisite: ASTR 200 and one of PHYS 210, EOSC 211, CPSC 302, CPSC 303.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
ASTR_V 300-101	ASTR_V	300	101	Galaxies	W1	Structure and kinematics of our galaxy. Spiral arms and dynamics of stars in spiral and elliptical galaxies. Galactic formation, evolution, dynamics, and groups. Active galaxies and quasars. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: ASTR 205 and one of PHYS 210, EOSC 211, CPSC 302, CPSC 303. Corequisite: One of MATH 217, MATH 227, MATH 317.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
ASTR_V 310-101	ASTR_V	310	101	Exploring the Universe: The Solar System	W1	A survey of recent discoveries about the planets and other objects in the solar system, without the use of advanced mathematics. The Sun, the existence of planetary systems around other stars, and the search for life. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.

ASTR_V 310-T1A	ASTR_V	310		T1A	Exploring the Universe: The Solar System	W1	A survey of recent discoveries about the planets and other objects in the solar system, without the use of advanced mathematics. The Sun, the existence of planetary systems around other stars, and the search for life. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Mon	11:00 a.m. - 12:00 p.m.
ASTR_V 310-T1B	ASTR_V	310		T1B	Exploring the Universe: The Solar System	W1	A survey of recent discoveries about the planets and other objects in the solar system, without the use of advanced mathematics. The Sun, the existence of planetary systems around other stars, and the search for life. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
ASTR_V 310-T1C	ASTR_V	310		T1C	Exploring the Universe: The Solar System	W1	A survey of recent discoveries about the planets and other objects in the solar system, without the use of advanced mathematics. The Sun, the existence of planetary systems around other stars, and the search for life. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Tue	2:00 p.m. - 3:00 p.m.
ASTR_V 311-201	ASTR_V	311		201	Exploring the Universe: Stars and Galaxies	W2	A survey of recent discoveries in modern astronomy without the use of advanced mathematics. Stars, pulsars, black holes, galaxies, quasars and the origin and evolution of the Universe. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
ASTR_V 311-202	ASTR_V	311		202	Exploring the Universe: Stars and Galaxies	W2	A survey of recent discoveries in modern astronomy without the use of advanced mathematics. Stars, pulsars, black holes, galaxies, quasars and the origin and evolution of the Universe. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Arranged	Arranged
ASTR_V 311-T2A	ASTR_V	311		T2A	Exploring the Universe: Stars and Galaxies	W2	A survey of recent discoveries in modern astronomy without the use of advanced mathematics. Stars, pulsars, black holes, galaxies, quasars and the origin and evolution of the Universe. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Mon	11:00 a.m. - 12:00 p.m.
ASTR_V 311-T2B	ASTR_V	311		T2B	Exploring the Universe: Stars and Galaxies	W2	A survey of recent discoveries in modern astronomy without the use of advanced mathematics. Stars, pulsars, black holes, galaxies, quasars and the origin and evolution of the Universe. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Tue	11:00 a.m. - 12:00 p.m.
ASTR_V 311-T2C	ASTR_V	311		T2C	Exploring the Universe: Stars and Galaxies	W2	A survey of recent discoveries in modern astronomy without the use of advanced mathematics. Stars, pulsars, black holes, galaxies, quasars and the origin and evolution of the Universe. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
ASTR_V 311-T2D	ASTR_V	311		T2D	Exploring the Universe: Stars and Galaxies	W2	A survey of recent discoveries in modern astronomy without the use of advanced mathematics. Stars, pulsars, black holes, galaxies, quasars and the origin and evolution of the Universe. Not open to first year students and not for credit in the Faculties of Science and Applied Science. [3-0-1*]	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
ASTR_V 333-101	ASTR_V	333		101	Exoplanets and Astrobiology	W1	Observations and basic characteristics of extrasolar planets, including their formation, evolution, and potential for supporting life. [3-0-0] Prerequisite: One of PHYS 101, PHYS 102, PHYS 106, PHYS 107, PHYS 108, PHYS 117, PHYS 118, PHYS 131, PHYS 153, PHYS 157, PHYS 158, SCIE 001 and one of MATH 200, MATH 217, MATH 253, STAT 200, STAT 203, STAT 241, BIOL 300, COMM 291, ECON 325, EPSE 482, EPSE 483, FRST 231, GEOG 374, KIN 371, POLI 380, PSYC 217, PSYC 218, PSYC 277, PSYC 278, PSYC 366, SOCI 328.	In Person Learning	Arranged	Arranged
ASTR_V 333-201	ASTR_V	333		201	Exoplanets and Astrobiology	W2	Observations and basic characteristics of extrasolar planets, including their formation, evolution, and potential for supporting life. [3-0-0] Prerequisite: One of PHYS 101, PHYS 102, PHYS 106, PHYS 107, PHYS 108, PHYS 117, PHYS 118, PHYS 131, PHYS 153, PHYS 157, PHYS 158, SCIE 001 and one of MATH 200, MATH 217, MATH 253, STAT 200, STAT 203, STAT 241, BIOL 300, COMM 291, ECON 325, EPSE 482, EPSE 483, FRST 231, GEOG 374, KIN 371, POLI 380, PSYC 217, PSYC 218, PSYC 277, PSYC 278, PSYC 366, SOCI 328.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
ASTR_V 349-001	ASTR_V	349		001	Directed Research Project in Astronomy	W1-2	A research project, undertaken under the direction of a faculty member, culminating in a written report. Requires approval of the course instructor and program advisor in the Department of Physics and Astronomy. [1*-6-0]	In Person Learning	Arranged	Arranged
ASTR_V 403-201	ASTR_V	403		201	Cosmology	W2	Introduction to the study of the Universe as a whole. Foundations of the Hot Big Bang model, the early Universe, nucleosynthesis, the cosmic microwave background, large-scale structure, galaxy formation and quasars. Credit will be granted for only one of ASTR 403 or PHYS 571. [3-0-0] Prerequisite: One of PHYS 200, PHYS 250. ASTR 300 is recommended.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ASTR_V 404-101	ASTR_V	404		101	Astronomical and Astrophysical Measurements	W1	Astronomical instrumentation and techniques for ground and space-based observations. Theory of measurement, imaging, interferometry and spectroscopy of electromagnetic radiation at optical, radio, infrared, and X-ray wavelengths. Astronomical data analysis. [3-0-0] Prerequisite: All of PHYS 210, PHYS 408 and one of PHYS 312, MATH 316.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ASTR_V 405-L2A	ASTR_V	405		L2A	Astronomical Laboratory	W2	Experiments in the use of astronomical instrumentation and data analysis. Use of the 40-cm reflector, spectrograph and electronic detectors. Photometric and spectroscopic analysis of digital data. [0-0-3] Prerequisite: [ASTR404]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ASTR_V 406-101	ASTR_V	406		101	High-Energy Astrophysics	W1	Radiative processes. White dwarfs, neutron stars, and black holes. Accreting systems. Gamma-ray bursts. [3-0-0] Prerequisite: All of PHYS 203, PHYS 301, MATH 215 and ASTR 300.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ASTR_V 407-201	ASTR_V	407		201	Planetary Science	W2	Structure of planetary systems, planetary interiors, planet formation, planetary atmospheres, meteoritics, impact cratering. [3-0-0] Prerequisite: One of PHYS 210, EOSC 211 and one of MATH 217, MATH 227, MATH 317 and one of MATH 316, PHYS 312 and one of ASTR 200, EOSC 212. Corequisite: One of PHYS 206, PHYS 216, PHYS 306, EOSC 352.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
ASTR_V 449-001	ASTR_V	449		001	Honours Thesis in Astronomy	W1-2	A research project in astronomy, undertaken under the direction of a faculty member, culminating in a thesis. [1*-6-0]	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ASTR_V 505-B_201	ASTR_V	505	B	B_201	Galactic Astronomy	W2	The study of the structure, content and evolution of our own and other galaxies, including the study of the physical processes occurring in the interstellar medium and galactic nuclei. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ASTR_V 506-A_101	ASTR_V	506	A	A_101	High-Energy Astrophysics	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ASTR_V 507-A_201	ASTR_V	507	A	A_201	Planetary Sciences	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.

ASTU_V 100-L_L03	ASTU_V	100	L	L_L03	1st Year CAP Seminar	W1-2	CAP seminar focused on writing and reading, including both literature and introduction to academic scholarship. Topics vary each year. Credits count toward both the Faculty of Arts Writing and Research Requirement and the Literature Requirement. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of ASTU 100 or CAP 101.This course is not eligible for Credit/D/Fail grading. Equivalency: CAP 101.	In Person Learning	Arranged	Arranged
ASTU_V 100-L_L04	ASTU_V	100	L	L_L04	1st Year CAP Seminar	W1-2	CAP seminar focused on writing and reading, including both literature and introduction to academic scholarship. Topics vary each year. Credits count toward both the Faculty of Arts Writing and Research Requirement and the Literature Requirement. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of ASTU 100 or CAP 101.This course is not eligible for Credit/D/Fail grading. Equivalency: CAP 101.	In Person Learning	Arranged	Arranged
ASTU_V 100-L_L05	ASTU_V	100	L	L_L05	1st Year CAP Seminar	W2	CAP seminar focused on writing and reading, including both literature and introduction to academic scholarship. Topics vary each year. Credits count toward both the Faculty of Arts Writing and Research Requirement and the Literature Requirement. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of ASTU 100 or CAP 101.This course is not eligible for Credit/D/Fail grading. Equivalency: CAP 101.	In Person Learning	Arranged	Arranged

BAAC_V 550-MUC	BAAC_V	550	MUC	Foundations in Accounting	W1	Same as HCEC 502; credit will not be given for both. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BAAC_V 550-MUCMM	BAAC_V	550	MUCMM	Foundations in Accounting	W1	Same as HCEC 502; credit will not be given for both. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BAAC_V 551-001	BAAC_V	551	001	Foundations in Accounting II	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
BAAC_V 551-002	BAAC_V	551	002	Foundations in Accounting II	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.

BAAC_V 551-301	BAAC_V	551	301	Foundations in Accounting II	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sun	8:30 a.m. - 4:00 p.m.
BAAC_V 551-ER1	BAAC_V	551	ER1	Foundations in Accounting II	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	9:30 a.m. - 12:00 p.m.
BAAC_V 551-MM1	BAAC_V	551	MM1	Foundations in Accounting II	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAAC_V 551-MUC	BAAC_V	551	MUC	Foundations in Accounting II	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
BAAC_V 580-A_001	BAAC_V	580	A_001	Topics in Accounting	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BABS_V 502-BA1	BABS_V	502	BA1	Forecasting and Time Series Prediction	W2	Time series forecasting including common smoothing methods and autocorrelation methods; students will work with publicly available data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BABS_V 502-BA2	BABS_V	502	BA2	Forecasting and Time Series Prediction	W2	Time series forecasting including common smoothing methods and autocorrelation methods; students will work with publicly available data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BABS_V 506-BA1	BABS_V	506	BA1	Analyzing and Modelling Uncertainty	W1	Probability and models that incorporate uncertainty; working with data and extracting information to provide input for predictive and prescriptive analytic models within the Master of Business Analytics program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BABS_V 506-BA2	BABS_V	506	BA2	Analyzing and Modelling Uncertainty	W1	Probability and models that incorporate uncertainty; working with data and extracting information to provide input for predictive and prescriptive analytic models within the Master of Business Analytics program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BABS_V 506-SMB	BABS_V	506	SMB	Analyzing and Modelling Uncertainty	W1	Probability and models that incorporate uncertainty; working with data and extracting information to provide input for predictive and prescriptive analytic models within the Master of Business Analytics program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BABS_V 507-BA1	BABS_V	507	BA1	Descriptive and Predictive Business Analysis	W1	Descriptive data analysis and extraction of useful information; predictive analytics and other clustering techniques; use of appropriate software. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BABS_V 507-BA2	BABS_V	507	BA2	Descriptive and Predictive Business Analysis	W1	Descriptive data analysis and extraction of useful information; predictive analytics and other clustering techniques; use of appropriate software. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BABS_V 507-SMB	BABS_V	507	SMB	Descriptive and Predictive Business Analysis	W1	Descriptive data analysis and extraction of useful information; predictive analytics and other clustering techniques; use of appropriate software. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BABS_V 508-BA1	BABS_V	508	BA1	Advanced Predictive Business Analytics	W2	Application of descriptive analytic skills to predictive analytics; using single/multiple regression, logistic regression and Poisson regression use of Discrete Choice Model. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BABS_V 508-BA2	BABS_V	508	BA2	Advanced Predictive Business Analytics	W2	Application of descriptive analytic skills to predictive analytics; using single/multiple regression, logistic regression and Poisson regression use of Discrete Choice Model. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BABS_V 550-001	BABS_V	550	001	Application of Statistics in Management	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BABS_V 550-002	BABS_V	550	002	Application of Statistics in Management	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BABS_V 550-301	BABS_V	550	301	Application of Statistics in Management	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sat (Alternate weeks)	8:30 a.m. - 4:00 p.m.

This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAIT_V 508-BA2	BAIT_V	508		BA2	Business Analytics Programming	W1	Programming for business analytics; problem definition, software design, program design, and system implementation; development of systems to implement common business applications. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	4:00 p.m. - 6:00 p.m.
BAIT_V 508-MUC	BAIT_V	508		MUC	Business Analytics Programming	W1	Programming for business analytics; problem definition, software design, program design, and system implementation; development of systems to implement common business applications. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
BAIT_V 508-SMB	BAIT_V	508		SMB	Business Analytics Programming	W1	Programming for business analytics; problem definition, software design, program design, and system implementation; development of systems to implement common business applications. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BAIT_V 509-BA1	BAIT_V	509		BA1	Business Applications of Machine Learning	W2	Supervised and unsupervised machine learning algorithms, support vector machines, and ensemble methods for text mining projects. Applications in descriptive and predictive analytics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAIT_V 509-BA2	BAIT_V	509		BA2	Business Applications of Machine Learning	W2	Supervised and unsupervised machine learning algorithms, support vector machines, and ensemble methods for text mining projects. Applications in descriptive and predictive analytics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BAIT_V 510-MM1	BAIT_V	510		MM1	Project Management in Delivering Business Solutions	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAIT_V 515-001	BAIT_V	515		001	AI Commercialization	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAIT_V 515-MUC	BAIT_V	515		MUC	AI Commercialization	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
BAIT_V 518-001	BAIT_V	518		001	Data Visualization	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BAIT_V 518-302	BAIT_V	518		302	Data Visualization	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sun (Alternate weeks)	8:30 a.m. - 4:00 p.m.
BAIT_V 518-BA1	BAIT_V	518		BA1	Data Visualization	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	9:00 a.m. - 5:30 p.m.
BAIT_V 518-BA2	BAIT_V	518		BA2	Data Visualization	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	9:00 a.m. - 5:30 p.m.
BAIT_V 518-SMB	BAIT_V	518		SMB	Data Visualization	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 5:00 p.m.
BAIT_V 580-A_BA1	BAIT_V	580	A	A_BA1	Topics in Information Technology Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAIT_V 580-A_BA2	BAIT_V	580	A	A_BA2	Topics in Information Technology Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BALA_V 503-DD1	BALA_V	503		DD1	Commercial Law	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BALA_V 503-DD2	BALA_V	503		DD2	Commercial Law	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
BALA_V 503-MM1	BALA_V	503		MM1	Commercial Law	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.

BAMA_V 503-MUC	BALA_V	503	MUC	Commercial Law	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BAMA_V 503-001	BAMA_V	503	001	New Product Development	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAMA_V 503-MUC	BAMA_V	503	MUC	New Product Development	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
BAMA_V 504-001	BAMA_V	504	001	Integrated Marketing Communication	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BAMA_V 505-001	BAMA_V	505	001	Business Development	W2	Study of business development as a tool for creating long-term value from clients, markets and relationships. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BAMA_V 505-DD1	BAMA_V	505	DD1	Business Development	W1	Study of business development as a tool for creating long-term value from clients, markets and relationships. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	4:00 p.m. - 6:00 p.m.
BAMA_V 505-DD2	BAMA_V	505	DD2	Business Development	W1	Study of business development as a tool for creating long-term value from clients, markets and relationships. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BAMA_V 505-MM1	BAMA_V	505	MM1	Business Development	W2	Study of business development as a tool for creating long-term value from clients, markets and relationships. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BAMA_V 506-001	BAMA_V	506	001	Consumer Behaviour	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	4:00 p.m. - 6:00 p.m.
BAMA_V 506-823	BAMA_V	506	823	Consumer Behaviour	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAMA_V 506-MUC	BAMA_V	506	MUC	Consumer Behaviour	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	4:00 p.m. - 6:00 p.m.
BAMA_V 508-001	BAMA_V	508	001	Marketing Research	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAMA_V 508-823	BAMA_V	508	823	Marketing Research	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAMA_V 508-MM1	BAMA_V	508	MM1	Marketing Research	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BAMA_V 513-001	BAMA_V	513	001	Digital Marketing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	6:00 p.m. - 9:30 p.m.
BAMA_V 514-001	BAMA_V	514	001	Brand Management	W2	Restricted to students in one of the following programs: M.B.A., J.D./M.B.A., M.B.A./M.A.A.P.S., M.Sc.B., M.M., I.M.B.A.; or a Ph.D. with a BADM specialization. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BAMA_V 514-823	BAMA_V	514	823	Brand Management	W2	Restricted to students in one of the following programs: M.B.A., J.D./M.B.A., M.B.A./M.A.A.P.S., M.Sc.B., M.M., I.M.B.A.; or a Ph.D. with a BADM specialization. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAMA_V 514-MUC	BAMA_V	514	MUC	Brand Management	W2	Restricted to students in one of the following programs: M.B.A., J.D./M.B.A., M.B.A./M.A.A.P.S., M.Sc.B., M.M., I.M.B.A.; or a Ph.D. with a BADM specialization. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BAMA_V 517-BA1	BAMA_V	517	BA1	Data Driven Marketing	W1	Statistical models of customer behaviour and past marketing actions, and applications to determining elements of the marketing mix. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAMA_V 517-BA2	BAMA_V	517	BA2	Data Driven Marketing	W1	Statistical models of customer behaviour and past marketing actions, and applications to determining elements of the marketing mix. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	4:00 p.m. - 6:00 p.m.
BAMA_V 517-MUC	BAMA_V	517	MUC	Data Driven Marketing	W1	Statistical models of customer behaviour and past marketing actions, and applications to determining elements of the marketing mix. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
BAMA_V 519-101	BAMA_V	519	101	Building Brands with Purpose	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
BAMA_V 519-MUC	BAMA_V	519	MUC	Building Brands with Purpose	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	8:00 a.m. - 10:00 a.m.

BAMA_V 520-001	BAMA_V	520	001	Customer Analytics	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BAMA_V 520-BA1	BAMA_V	520	BA1	Customer Analytics	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BAMA_V 520-BA2	BAMA_V	520	BA2	Customer Analytics	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAMA_V 520-MUC	BAMA_V	520	MUC	Customer Analytics	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BAMA_V 550-001	BAMA_V	550	001	Marketing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	4:00 p.m. - 6:00 p.m.
BAMA_V 550-002	BAMA_V	550	002	Marketing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAMA_V 550-301	BAMA_V	550	301	Marketing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sat	8:30 a.m. - 4:00 p.m.
BAMA_V 550-824	BAMA_V	550	824	Marketing	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAMA_V 550-MM1	BAMA_V	550	MM1	Marketing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAMA_V 550-MUC	BAMA_V	550	MUC	Marketing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	4:00 p.m. - 6:00 p.m.
BAMA_V 580-A_BA1	BAMA_V	580	A	A_BA1	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 5:00 p.m.
BAMA_V 580-A_BA2	BAMA_V	580	A	A_BA2	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 5:00 p.m.
BAMA_V 580-B_001	BAMA_V	580	B	B_001	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAMA_V 580-B_MUC	BAMA_V	580	B	B_MUC	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAMA_V 580-C_001	BAMA_V	580	C	C_001	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BAMA_V 580-C_MUC	BAMA_V	580	C	C_MUC	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BAMA_V 580-D_001	BAMA_V	580	D	D_001	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAMS_V 503-BA1	BAMS_V	503	BA1	Simulation Modelling	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	2:00 p.m. - 4:00 p.m.
BAMS_V 503-BA2	BAMS_V	503	BA2	Simulation Modelling	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	10:00 a.m. - 12:00 p.m.
BAMS_V 506-BA1	BAMS_V	506	BA1	Optimal Decision Making I	W1	This course is not eligible for Credit/D/Fail grading. Models and methods in continuous optimization; linear and nonlinear programming; applications to functional business areas and related fields. Students will learn to formulate an optimization model, solve it, interpret results, and derive insight relevant to intended application. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	4:00 p.m. - 6:00 p.m.
BAMS_V 506-BA2	BAMS_V	506	BA2	Optimal Decision Making I	W1	This course is not eligible for Credit/D/Fail grading. Models and methods in continuous optimization; linear and nonlinear programming; applications to functional business areas and related fields. Students will learn to formulate an optimization model, solve it, interpret results, and derive insight relevant to intended application. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BAMS_V 506-MUC	BAMS_V	506	MUC	Optimal Decision Making I	W1	This course is not eligible for Credit/D/Fail grading. Models and methods in continuous optimization; linear and nonlinear programming; applications to functional business areas and related fields. Students will learn to formulate an optimization model, solve it, interpret results, and derive insight relevant to intended application. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
BAMS_V 506-SMB	BAMS_V	506	SMB	Optimal Decision Making I	W1	This course is not eligible for Credit/D/Fail grading. Models and methods in continuous optimization; linear and nonlinear programming; applications to functional business areas and related fields. Students will learn to formulate an optimization model, solve it, interpret results, and derive insight relevant to intended application. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.

BAMS_V 508-BA1	BAMS_V	508	BA1	Optimal Decision Making II	W1	Models and methods in discrete optimization; emphasis on useful modelling methodologies and their applications. Students will learn to formulate an optimization model, solve it, interpret results, and derive insight relevant to intended application. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BAMS_V 508-BA2	BAMS_V	508	BA2	Optimal Decision Making II	W1	Models and methods in discrete optimization; emphasis on useful modelling methodologies and their applications. Students will learn to formulate an optimization model, solve it, interpret results, and derive insight relevant to intended application. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAMS_V 517-BA1	BAMS_V	517	BA1	Decision Analysis Under Uncertainty	W1	Decision making under uncertainty; using decision trees; the value of information; utility and risk preferences; behavioral aspects of decision making under uncertainty. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAMS_V 517-BA2	BAMS_V	517	BA2	Decision Analysis Under Uncertainty	W1	Decision making under uncertainty; using decision trees; the value of information; utility and risk preferences; behavioral aspects of decision making under uncertainty. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BAMS_V 521-BA1	BAMS_V	521	BA1	Analytics Leadership	W2	Non-technical skills and practices for consulting; project management and problem solving for business consulting projects in analytics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	10:00 a.m. - 12:00 p.m.
BAMS_V 521-BA2	BAMS_V	521	BA2	Analytics Leadership	W2	Non-technical skills and practices for consulting; project management and problem solving for business consulting projects in analytics. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	2:00 p.m. - 4:00 p.m.
BAMS_V 523-001	BAMS_V	523	001	Managerial Decisions Modelling and Analytics	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BAPA_V 550-001	BAPA_V	550	001	Managerial Economics I	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BAPA_V 550-002	BAPA_V	550	002	Managerial Economics I	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAPA_V 550-824	BAPA_V	550	824	Managerial Economics I	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BAPA_V 550-MM1	BAPA_V	550	MM1	Managerial Economics I	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
BAPA_V 550-MUC	BAPA_V	550	MUC	Managerial Economics I	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	8:00 a.m. - 10:00 a.m.
BAPA_V 550-SFT	BAPA_V	550	SFT	Managerial Economics I	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BAPA_V 560-300	BAPA_V	560	300	Foundations of Managerial and Business Economics	W2	Framework for analyzing economic and managerial problems, fundamental market forces of supply and demand, and the drivers of firms' production and pricing choices. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sun (Alternate weeks)	8:30 a.m. - 4:00 p.m.
BAPA_V 580-A_001	BAPA_V	580	A	A_001	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	4:00 p.m. - 6:00 p.m.
BASC_V 500-001	BASC_V	500	001	Process Fundamentals	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.
BASC_V 500-301	BASC_V	500	301	Process Fundamentals	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sat (Alternate weeks)	8:30 a.m. - 4:00 p.m.
BASC_V 500-823	BASC_V	500	823	Process Fundamentals	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BASC_V 500-BA1	BASC_V	500	BA1	Process Fundamentals	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BASC_V 500-BA2	BASC_V	500	BA2	Process Fundamentals	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BASC_V 523-001	BASC_V	523	001	Supply Chain Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BASC_V 523-302	BASC_V	523	302	Supply Chain Management	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sat (Alternate weeks)	8:30 a.m. - 4:00 p.m.
BASC_V 523-823	BASC_V	523	823	Supply Chain Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

BASC_V 523-BA1	BASC_V	523	BA1	Supply Chain Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.
BASC_V 523-BA2	BASC_V	523	BA2	Supply Chain Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BASC_V 523-DD1	BASC_V	523	DD1	Supply Chain Management	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
BASC_V 523-DD2	BASC_V	523	DD2	Supply Chain Management	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BASC_V 523-MM1	BASC_V	523	MM1	Supply Chain Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	9:00 a.m. - 12:30 p.m.
BASC_V 523-MUC	BASC_V	523	MUC	Supply Chain Management	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.

BASC_V 550-002	BASC_V	550	002	Operations	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BASC_V 550-101	BASC_V	550	101	Operations	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	5:00 p.m. - 7:00 p.m.
BASC_V 550-300	BASC_V	550	300	Operations	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sat (Alternate weeks)	8:30 a.m. - 4:00 p.m.
BASC_V 550-824	BASC_V	550	824	Operations	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BASC_V 550-DD1	BASC_V	550	DD1	Operations	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BASC_V 550-DD2	BASC_V	550	DD2	Operations	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
BASC_V 550-MM1	BASC_V	550	MM1	Operations	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BASC_V 550-MUC	BASC_V	550	MUC	Operations	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BASM_V 501-001	BASM_V	501	001	Business Strategy	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BASM_V 501-824	BASM_V	501	824	Business Strategy	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BASM_V 502-001	BASM_V	502	001	Corporate Strategy	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BASM_V 502-823	BASM_V	502	823	Corporate Strategy	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BASM_V 502-MUC	BASM_V	502	MUC	Corporate Strategy	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
BASM_V 510-001	BASM_V	510	001	Consulting Simulation	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	5:30 p.m. - 9:00 p.m.

BASM_V 514-301	BASM_V	514	301	Strategy in Organizations	W2	Impact of corporate and organizational design on achieving profitability. Introduces the underlying economics of organizational design, including incentive pay, decentralization, transfer pricing, and complementarities. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Sat (Alternate weeks)	8:30 a.m. - 4:00 p.m.
BASM_V 516-001	BASM_V	516	001	Economics and Strategy of Innovation	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	6:00 p.m. - 9:30 p.m.
BASM_V 516-MUC	BASM_V	516	MUC	Economics and Strategy of Innovation	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	6:00 p.m. - 9:30 p.m.
BASM_V 523-001	BASM_V	523	001	Management Consulting and Corporate Decision Support	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	6:00 p.m. - 9:30 p.m.
BASM_V 523-MUC	BASM_V	523	MUC	Management Consulting and Corporate Decision Support	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	6:00 p.m. - 9:30 p.m.
BASM_V 550-MM1	BASM_V	550	MM1	Strategic Management	W2	Not available to MBA students. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
BAUL_V 500-001	BAUL_V	500	001	Real Estate Markets	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 10:00 a.m.
BAUL_V 501-001	BAUL_V	501	001	Real Estate Investment Analysis	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BEST_V 200-101	BEST_V	200	101	Foundations in Bioproducts and the Bioeconomy	W1	Introduction to the production, use, and attributes of renewable products and energy derived from biobased materials. Sustainability paradigms related to the bioeconomy; potential environmental and socio-political impacts associated with biobased technologies and transitions to sustainable economies. [3-0-0] Prerequisite: CHEM 121.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BEST_V 201-101	BEST_V	201	101	Plants, Carbon, and Environment	W1	Introduction to plant biology, with special emphasis on growth and development, highlighting the biological mechanisms of radiation energy capture, and water and nutrient acquisition in the production of plant biomass. [3-0-0] Prerequisite: One of BIOL 112, BIOL 121.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BEST_V 202-201	BEST_V	202	201	Alternative Energy Systems	W2	Introduction to safe, clean, and sustainable supplies of energy. Economic, social, environmental, and policy issues raised by current systems of energy use and production are examined. [3-0-0]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BEST_V 203-201	BEST_V	203	201	Ecology of Managed Ecosystems	W2	Provides a foundation in managed ecosystems and community ecology. Includes material on forest ecology and agricultural ecosystems as managed environments. [3-2-0] Prerequisite: BEST 201 and one of BIOL 112, BIOL 121.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
BEST_V 203-L1A	BEST_V	203	L1A	Ecology of Managed Ecosystems	W2	Provides a foundation in managed ecosystems and community ecology. Includes material on forest ecology and agricultural ecosystems as managed environments. [3-2-0] Prerequisite: BEST 201 and one of BIOL 112, BIOL 121.	In Person Learning	Fri	9:00 a.m. - 11:00 a.m.
BEST_V 300-101	BEST_V	300	101	Biobased Polymers and Bioproducts	W1	Study of occurrence, synthesis, derivatization, physical properties, processing, and application of major bio-based polymers from biomass. Manufacturing processes and uses of biobased products are examined. [3-0-0] Prerequisite: One of CHEM 203, CHEM 233.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
BEST_V 301-101	BEST_V	301	101	Bioenergy	W1	Interdisciplinary approach to bioenergy. The technology of the systems involved, the social and environmental implications of biomass use for energy systems. [3-0-0] Prerequisite: BEST 202.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BEST_V 302-101	BEST_V	302	101	Laboratory in Bioeconomy Technology (I)	W1	Laboratory modules for bioeconomy technologies; plant breeding, deconstruction, fermentation, and applied biotechnology. [1-3-0] Prerequisite: BEST 200 and BEST 201.	In Person Learning	Thu	2:00 p.m. - 3:00 p.m.
BEST_V 302-102	BEST_V	302	102	Laboratory in Bioeconomy Technology (I)	W1	Laboratory modules for bioeconomy technologies; plant breeding, deconstruction, fermentation, and applied biotechnology. [1-3-0] Prerequisite: BEST 200 and BEST 201.	In Person Learning	Arranged	Arranged
BEST_V 302-L01	BEST_V	302	L01	Laboratory in Bioeconomy Technology (I)	W1	Laboratory modules for bioeconomy technologies; plant breeding, deconstruction, fermentation, and applied biotechnology. [1-3-0] Prerequisite: BEST 200 and BEST 201.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BEST_V 302-L02	BEST_V	302	L02	Laboratory in Bioeconomy Technology (I)	W1	Laboratory modules for bioeconomy technologies; plant breeding, deconstruction, fermentation, and applied biotechnology. [1-3-0] Prerequisite: BEST 200 and BEST 201.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
BEST_V 303-201	BEST_V	303	201	Applied Biotechnology for Bioproducts	W2	Use of microbiology and enzymology for processing and enhancing value of forest and agro-based bioproducts; saccharification of biomass, fermentation, and product upgrading with biocatalysts. [3-0-0] Prerequisite: BEST 300.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
BEST_V 304-201	BEST_V	304	201	Laboratory in Bioeconomy Technology (II)	W2	Laboratory modules for bioeconomy technologies; bioenergy and bioproducts. [1-3-0] Prerequisite: BEST 300 and BEST 302.	In Person Learning	Mon	10:00 a.m. - 11:00 a.m.
BEST_V 304-L1A	BEST_V	304	L1A	Laboratory in Bioeconomy Technology (II)	W2	Laboratory modules for bioeconomy technologies; bioenergy and bioproducts. [1-3-0] Prerequisite: BEST 300 and BEST 302.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
BEST_V 304-L2A	BEST_V	304	L2A	Laboratory in Bioeconomy Technology (II)	W2	Laboratory modules for bioeconomy technologies; bioenergy and bioproducts. [1-3-0] Prerequisite: BEST 300 and BEST 302.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.

BEST_V 308-101	BEST_V	308	101	Land Use Management and Planning	W1	Global overview of land use management and planning, with a focus on principles and practice. [3-0-2] Prerequisite: BEST 203.	In Person Learning	Tue	12:30 p.m. - 2:00 p.m.
BEST_V 308-D1A	BEST_V	308	D1A	Land Use Management and Planning	W1	Global overview of land use management and planning, with a focus on principles and practice. [3-0-2] Prerequisite: BEST 203.	In Person Learning	Arranged	Arranged
BEST_V 308-L01	BEST_V	308	L01	Land Use Management and Planning	W1	Global overview of land use management and planning, with a focus on principles and practice. [3-0-2] Prerequisite: BEST 203.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
BEST_V 310-101	BEST_V	310	101	Co-operative Work Placement I	W1	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 310-201	BEST_V	310	201	Co-operative Work Placement I	W2	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 311-101	BEST_V	311	101	Co-operative Work Placement II	W1	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 311-201	BEST_V	311	201	Co-operative Work Placement II	W2	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 312-101	BEST_V	312	101	Co-operative Work Placement III	W1	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 312-201	BEST_V	312	201	Co-operative Work Placement III	W2	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 400-101	BEST_V	400	101	Biomimicry and Biocomposites	W1	Introduction to principles of self-assembly, hierarchical structures, biocomposites, and unique adaptive structures. [3-0-0] Prerequisite: BEST 300.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BEST_V 401-101	BEST_V	401	101	Carbon and Energy Economics	W1	Understanding key issues for carbon management, protocols for carbon accounting and methodologies for emissions inventories and carbon costing. Economics and business response to climate change are examined. [3-0-0] Prerequisite: One of ECON 101, FRST 101.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BEST_V 402-101	BEST_V	402	101	Industrial Ecology	W1	Concepts in sustainability around technology and material use; relevance of biological ecology to industrial ecology; life cycle analysis: components and applications; and approaches to design. [3-0-2] Prerequisite: BEST 200.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BEST_V 402-D01	BEST_V	402	D01	Industrial Ecology	W1	Concepts in sustainability around technology and material use; relevance of biological ecology to industrial ecology; life cycle analysis: components and applications; and approaches to design. [3-0-2] Prerequisite: BEST 200.	In Person Learning	Wed	1:30 p.m. - 3:30 p.m.
BEST_V 403-201	BEST_V	403	201	Integrated Strategies for Bioproduct Innovation	W2	Project-based course on development of bioeconomy products; demonstration of out-of-box thinking, service learning and teamwork. Restricted to students in the Forest Bioeconomy Sciences and Technology program. [2-3-0] Prerequisite: Fourth year standing in Forest Bioeconomy Sciences and Technology.	In Person Learning	Mon	12:00 p.m. - 2:00 p.m.
BEST_V 403-L1A	BEST_V	403	L1A	Integrated Strategies for Bioproduct Innovation	W2	Project-based course on development of bioeconomy products; demonstration of out-of-box thinking, service learning and teamwork. Restricted to students in the Forest Bioeconomy Sciences and Technology program. [2-3-0] Prerequisite: Fourth year standing in Forest Bioeconomy Sciences and Technology.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
BEST_V 404-101	BEST_V	404	101	Synthetic Biology for Bioproducts and Bioeconomy	W1	Principles of synthetic biology, DesignBuild-Test-Learn (DBTL) cycle for bioproduct development, enzyme engineering, strain engineering for bioproducts, ethical framework, and social implications [3-0-0] Prerequisite: BEST 302 and BEST 303	In Person Learning	Mon Wed	12:00 p.m. - 1:30 p.m.
BEST_V 410-101	BEST_V	410	101	Co-operative Work Placement	W1	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 410-201	BEST_V	410	201	Co-operative Work Placement	W2	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 411-101	BEST_V	411	101	Co-operative Work Placement IV	W1	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 411-201	BEST_V	411	201	Co-operative Work Placement IV	W2	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 412-101	BEST_V	412	101	Co-operative Work Placement V	W1	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BEST_V 412-201	BEST_V	412	201	Co-operative Work Placement V	W2	Approved and supervised work experience with a public or private organization for a minimum of 13 weeks full-time. Final work term assignment required. Restricted to students admitted to the Co-operative Education Program in Forest Bioeconomy Sciences and Technology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOC_V 202-001	BIOC_V	202	001	Introductory Medical Biochemistry	W1	Introduction to proteins and enzymes, carbohydrate metabolism, and glucose homeostasis. The course emphasis is on human biochemistry and it is designed for students going into health science fields. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-0] Prerequisite: One of CHEM 203, CHEM 223, CHEM 233.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.

BIOC_V 202-002	BIOC_V	202	002	Introductory Medical Biochemistry	W2	Introduction to proteins and enzymes, carbohydrate metabolism, and glucose homeostasis. The course emphasis is on human biochemistry and it is designed for students going into health science fields. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-0] Prerequisite: One of CHEM 203, CHEM 223, CHEM 233.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
BIOC_V 202-003	BIOC_V	202	003	Introductory Medical Biochemistry	W2	Introduction to proteins and enzymes, carbohydrate metabolism, and glucose homeostasis. The course emphasis is on human biochemistry and it is designed for students going into health science fields. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-0] Prerequisite: One of CHEM 203, CHEM 223, CHEM 233.	In Person Learning	Tue Thu	8:30 a.m. - 10:00 a.m.
BIOC_V 203-001	BIOC_V	203	001	Fundamentals of Biochemistry	W2	Amino acids and proteins. Enzymes and enzymology. Human metabolic pathways. Structure, function and metabolism of carbohydrates including glycogen storage and gluconeogenesis. Restricted to students in Biochemistry specializations. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 203, CHEM 223. Corequisite: CHEM 213.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOC_V 203-T01	BIOC_V	203	T01	Fundamentals of Biochemistry	W2	Amino acids and proteins. Enzymes and enzymology. Human metabolic pathways. Structure, function and metabolism of carbohydrates including glycogen storage and gluconeogenesis. Restricted to students in Biochemistry specializations. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 203, CHEM 223. Corequisite: CHEM 213.	In Person Learning	Mon	4:00 p.m. - 5:00 p.m.
BIOC_V 203-T02	BIOC_V	203	T02	Fundamentals of Biochemistry	W2	Amino acids and proteins. Enzymes and enzymology. Human metabolic pathways. Structure, function and metabolism of carbohydrates including glycogen storage and gluconeogenesis. Restricted to students in Biochemistry specializations. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 203, CHEM 223. Corequisite: CHEM 213.	In Person Learning	Mon	2:00 p.m. - 3:00 p.m.
BIOC_V 203-T03	BIOC_V	203	T03	Fundamentals of Biochemistry	W2	Amino acids and proteins. Enzymes and enzymology. Human metabolic pathways. Structure, function and metabolism of carbohydrates including glycogen storage and gluconeogenesis. Restricted to students in Biochemistry specializations. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 203, CHEM 223. Corequisite: CHEM 213.	In Person Learning	Tue	9:30 a.m. - 10:30 a.m.
BIOC_V 203-T04	BIOC_V	203	T04	Fundamentals of Biochemistry	W2	Amino acids and proteins. Enzymes and enzymology. Human metabolic pathways. Structure, function and metabolism of carbohydrates including glycogen storage and gluconeogenesis. Restricted to students in Biochemistry specializations. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 203, CHEM 223. Corequisite: CHEM 213.	In Person Learning	Tue	10:30 a.m. - 11:30 a.m.
BIOC_V 203-T05	BIOC_V	203	T05	Fundamentals of Biochemistry	W2	Amino acids and proteins. Enzymes and enzymology. Human metabolic pathways. Structure, function and metabolism of carbohydrates including glycogen storage and gluconeogenesis. Restricted to students in Biochemistry specializations. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 203, CHEM 223. Corequisite: CHEM 213.	In Person Learning	Tue	11:30 a.m. - 12:30 p.m.
BIOC_V 203-T06	BIOC_V	203	T06	Fundamentals of Biochemistry	W2	Amino acids and proteins. Enzymes and enzymology. Human metabolic pathways. Structure, function and metabolism of carbohydrates including glycogen storage and gluconeogenesis. Restricted to students in Biochemistry specializations. Credit will be granted for only one of BIOC 202, BIOC 203 or BIOL 201. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 203, CHEM 223. Corequisite: CHEM 213.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
BIOC_V 301-001	BIOC_V	301	001	Biochemistry Laboratory	W1-2	Techniques by which the chemical and physical properties of fundamental components of the cell are studied. [0-3-1] Corequisite: One of BIOC 302, BIOC 303.	In Person Learning	Tue	12:30 p.m. - 1:30 p.m.
BIOC_V 301-DNU_001	BIOC_V	301	DNU_001	Biochemistry Laboratory	W2	Techniques by which the chemical and physical properties of fundamental components of the cell are studied. [0-3-1] Corequisite: One of BIOC 302, BIOC 303.	In Person Learning	Arranged	Arranged
BIOC_V 301-L01	BIOC_V	301	L01	Biochemistry Laboratory	W1-2	Techniques by which the chemical and physical properties of fundamental components of the cell are studied. [0-3-1] Corequisite: One of BIOC 302, BIOC 303.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOC_V 301-L02	BIOC_V	301	L02	Biochemistry Laboratory	W1-2	Techniques by which the chemical and physical properties of fundamental components of the cell are studied. [0-3-1] Corequisite: One of BIOC 302, BIOC 303.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOC_V 301-L03	BIOC_V	301	L03	Biochemistry Laboratory	W1-2	Techniques by which the chemical and physical properties of fundamental components of the cell are studied. [0-3-1] Corequisite: One of BIOC 302, BIOC 303.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOC_V 301-L04	BIOC_V	301	L04	Biochemistry Laboratory	W1-2	Techniques by which the chemical and physical properties of fundamental components of the cell are studied. [0-3-1] Corequisite: One of BIOC 302, BIOC 303.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOC_V 302-102	BIOC_V	302	102	General Biochemistry	W1-2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOC_V 302-202	BIOC_V	302	202	General Biochemistry	W2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Mon Wed Fri	8:00 a.m. - 9:00 a.m.
BIOC_V 302-T01	BIOC_V	302	T01	General Biochemistry	W1-2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Arranged	Arranged
BIOC_V 302-T02	BIOC_V	302	T02	General Biochemistry	W2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Arranged	Arranged
BIOC_V 302-T12	BIOC_V	302	T12	General Biochemistry	W1-2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Mon	3:00 p.m. - 4:00 p.m.
BIOC_V 302-T14	BIOC_V	302	T14	General Biochemistry	W1-2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.

BIOC_V 302-T53	BIOC_V	302	T53	General Biochemistry	W2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Mon	3:00 p.m. - 4:00 p.m.
BIOC_V 302-T57	BIOC_V	302	T57	General Biochemistry	W2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Tue	10:00 a.m. - 11:00 a.m.
BIOC_V 302-T58	BIOC_V	302	T58	General Biochemistry	W2	Metabolic reactions of lipids, steroids, amino acids and nucleotides; the biochemistry of replication, transcription and translation. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-1] Prerequisite: One of BIOL 201, BIOC 202, BIOC 203 and one of CHEM 203, CHEM 223, CHEM 233. Equivalency: BIOC 303	In Person Learning	Wed	2:30 p.m. - 3:30 p.m.
BIOC_V 303-001	BIOC_V	303	001	Molecular Biochemistry	W1-2	Structure, function and metabolism of lipids, steroids, amino acids and nucleotides; the biochemistry and molecular biology of replication, transcription, translation and gene regulation. For students in Biochemistry and Honours programs in other life sciences. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-0] Prerequisite: One of BIOC 203, BIOC 202, BIOL 201 and either (a) CHEM 213 or (b) CHEM 233.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BIOC_V 303-DNU_001	BIOC_V	303	DNU_001	Molecular Biochemistry	W2	Structure, function and metabolism of lipids, steroids, amino acids and nucleotides; the biochemistry and molecular biology of replication, transcription, translation and gene regulation. For students in Biochemistry and Honours programs in other life sciences. Credit will be granted for only one of BIOC 302 or BIOC 303. [3-0-0] Prerequisite: One of BIOC 203, BIOC 202, BIOL 201 and either (a) CHEM 213 or (b) CHEM 233.	In Person Learning	Arranged	Arranged
BIOC_V 304-001	BIOC_V	304	001	Contemporary Biochemical Research	W2	Exploration of the breadth and importance of biochemical research to present day challenges in medicine and biotechnology. Detailed experimental research case studies of novel biochemical methods used to address pressing and ongoing biochemical issues. [3-0-0] Prerequisite: CHEM 213. Corequisite: BIOC 303.	In Person Learning	Arranged	Arranged
BIOC_V 306-001	BIOC_V	306	001	Quantitative Methods in Biochemistry	W2	Quantitative and computational methods of biological information transfer. Methods; data analysis approaches and theories involved in bioinformatics; computational biology and high-throughput data. [3-0-0] Prerequisites: a) BIOC 203 and a corequisite of BIOC 303 or b) One of BIOC 202 or BIOL 201 with a grade of 76% or higher and a corequisite of BIOC 302.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOC_V 398-610	BIOC_V	398	610	Internship Work Placement I	W1	Approved and supervised technical work experience in an industrial or academic laboratory for three or four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: Completion of academic third year in Biochemistry major or honours program is required.	In Person Learning	Mon	8:00 a.m. - 9:00 a.m.
BIOC_V 398-615	BIOC_V	398	615	Internship Work Placement I	W2	Approved and supervised technical work experience in an industrial or academic laboratory for three or four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: Completion of academic third year in Biochemistry major or honours program is required.	In Person Learning	Mon	7:00 a.m. - 7:30 a.m.
BIOC_V 399-610	BIOC_V	399	610	Internship Work Placement II	W1	Approved and supervised technical work experience in an industrial or academic research setting for four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOC398	In Person Learning	Mon	8:00 a.m. - 9:00 a.m.
BIOC_V 399-615	BIOC_V	399	615	Internship Work Placement II	W2	Approved and supervised technical work experience in an industrial or academic research setting for four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOC398	In Person Learning	Mon	7:00 a.m. - 7:30 a.m.
BIOC_V 402-101	BIOC_V	402	101	Proteins: Structure and Function	W1-2	Structural components of proteins, classification by primary, secondary and tertiary structure, protein chemistry and purification, peptide and protein synthesis by chemical means and three-dimensional structure determination using X-ray diffraction and NMR. [3-0-0] Prerequisite: One of BIOC 302, BIOC 303, BIOT 380. A minimum standing of 65% is recommended in these courses.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOC_V 402-T01	BIOC_V	402	T01	Proteins: Structure and Function	W1-2	Structural components of proteins, classification by primary, secondary and tertiary structure, protein chemistry and purification, peptide and protein synthesis by chemical means and three-dimensional structure determination using X-ray diffraction and NMR. [3-0-0] Prerequisite: One of BIOC 302, BIOC 303, BIOT 380. A minimum standing of 65% is recommended in these courses.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
BIOC_V 402-T02	BIOC_V	402	T02	Proteins: Structure and Function	W1-2	Structural components of proteins, classification by primary, secondary and tertiary structure, protein chemistry and purification, peptide and protein synthesis by chemical means and three-dimensional structure determination using X-ray diffraction and NMR. [3-0-0] Prerequisite: One of BIOC 302, BIOC 303, BIOT 380. A minimum standing of 65% is recommended in these courses.	In Person Learning	Fri	3:00 p.m. - 4:00 p.m.
BIOC_V 402-T03	BIOC_V	402	T03	Proteins: Structure and Function	W1-2	Structural components of proteins, classification by primary, secondary and tertiary structure, protein chemistry and purification, peptide and protein synthesis by chemical means and three-dimensional structure determination using X-ray diffraction and NMR. [3-0-0] Prerequisite: One of BIOC 302, BIOC 303, BIOT 380. A minimum standing of 65% is recommended in these courses.	In Person Learning	Arranged	Arranged
BIOC_V 403-201	BIOC_V	403	201	Enzymology	W2	Kinetic analysis, catalytic mechanisms, transition state stabilization and regulation of activity, strategies for active site characterization and case studies of well-documented enzyme systems. Credit will be granted for only one of BIOC 403, CHEM 413 or CHEM 569. [3-0-0] Prerequisite: BIOC402 A minimum standing of 65% is recommended.	In Person Learning	Arranged	Arranged
BIOC_V 404-001	BIOC_V	404	001	Biochemical Methods	W1-2	Theory and application of classical and emerging technologies in biochemical research. Emphasis on using primary literature and oral presentation skills. Restricted to Honours students in Biochemistry or others with permission of the instructor. [1-0; 2-0]	In Person Learning	Mon Fri	12:00 p.m. - 1:00 p.m.
BIOC_V 404-DNU_001	BIOC_V	404	DNU_001	Biochemical Methods	W2	Theory and application of classical and emerging technologies in biochemical research. Emphasis on using primary literature and oral presentation skills. Restricted to Honours students in Biochemistry or others with permission of the instructor. [1-0; 2-0]	In Person Learning	Arranged	Arranged
BIOC_V 410-101	BIOC_V	410	101	Nucleic Acids-Structure and Function	W1	Chemical, physical and biological properties of nucleic acids and their role in replication, transcription, translation and regulation of expression of genetic material. Credit will be granted for only one of BIOC 410 or BIOC 510. [3-0-0] Prerequisite: Either (a) all of BIOC 303, BIOL 335 or (b) BIOT 380. A minimum standing of 65% is recommended in these courses.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BIOC_V 410-T01	BIOC_V	410	T01	Nucleic Acids-Structure and Function	W1	Chemical, physical and biological properties of nucleic acids and their role in replication, transcription, translation and regulation of expression of genetic material. Credit will be granted for only one of BIOC 410 or BIOC 510. [3-0-0] Prerequisite: Either (a) all of BIOC 303, BIOL 335 or (b) BIOT 380. A minimum standing of 65% is recommended in these courses.	In Person Learning	Fri	3:00 p.m. - 4:00 p.m.

BIOC_V 410-T02	BIOC_V	410	T02	Nucleic Acids-Structure and Function	W1	Chemical, physical and biological properties of nucleic acids and their role in replication, transcription, translation and regulation of expression of genetic material. Credit will be granted for only one of BIOC 410 or BIOC 510. [3-0-0] Prerequisite: Either (a) all of BIOC 303, BIOL 335 or (b) BIOT 380. A minimum standing of 65% is recommended in these courses.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.	
BIOC_V 420-101	BIOC_V	420	101	Advanced Biochemical Techniques	W1	Multi-week experiments in areas of contemporary biochemistry research using classical and modern techniques. Emphasis on experimental design, technique, critical analysis of data, and scientific communication skills. Restricted to Honours students in Biochemistry and others with permission of the instructor. [0-6-0] Corequisite: One of BIOC 404, FSCT 480.	In Person Learning	Tue	8:30 a.m. - 5:30 p.m.	
BIOC_V 420-102	BIOC_V	420	102	Advanced Biochemical Techniques	W1	Multi-week experiments in areas of contemporary biochemistry research using classical and modern techniques. Emphasis on experimental design, technique, critical analysis of data, and scientific communication skills. Restricted to Honours students in Biochemistry and others with permission of the instructor. [0-6-0] Corequisite: One of BIOC 404, FSCT 480.	In Person Learning	Thu	8:30 a.m. - 5:30 p.m.	
BIOC_V 420-103	BIOC_V	420	103	Advanced Biochemical Techniques	W1	Multi-week experiments in areas of contemporary biochemistry research using classical and modern techniques. Emphasis on experimental design, technique, critical analysis of data, and scientific communication skills. Restricted to Honours students in Biochemistry and others with permission of the instructor. [0-6-0] Corequisite: One of BIOC 404, FSCT 480.	In Person Learning	Arranged	Arranged	
BIOC_V 421-201	BIOC_V	421	201	Recombinant DNA Techniques	W2	Multi-week experiments involving contemporary nucleic acid research, cloning and recombinant protein engineering. Emphasis is on experimental design, critical analysis of data and scientific communication skills. Restricted to Major students in Biochemistry. [0-6-0] Prerequisite: All of BIOC 301, BIOC 410.	In Person Learning	Tue	1:00 p.m. - 5:00 p.m.	
BIOC_V 421-202	BIOC_V	421	202	Recombinant DNA Techniques	W2	Multi-week experiments involving contemporary nucleic acid research, cloning and recombinant protein engineering. Emphasis is on experimental design, critical analysis of data and scientific communication skills. Restricted to Major students in Biochemistry. [0-6-0] Prerequisite: All of BIOC 301, BIOC 410.	In Person Learning	Thu	1:00 p.m. - 5:00 p.m.	
BIOC_V 421-203	BIOC_V	421	203	Recombinant DNA Techniques	W2	Multi-week experiments involving contemporary nucleic acid research, cloning and recombinant protein engineering. Emphasis is on experimental design, critical analysis of data and scientific communication skills. Restricted to Major students in Biochemistry. [0-6-0] Prerequisite: All of BIOC 301, BIOC 410.	In Person Learning	Thu	8:30 a.m. - 12:30 p.m.	
BIOC_V 430-A_201	BIOC_V	430	A	A_201	Advanced Topics in Protein Biochemistry	W2	Advanced topics in protein structure and function. [3-0-0] Prerequisites: BIOC 402	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOC_V 440-001	BIOC_V	440	001	Concepts in Molecular Biology	W2	Developing areas of molecular biology, focusing on experimental design and data analysis. Signal transduction, the use of model eukaryotes, and the regulation of gene expression. [3-0-0] Prerequisite: One of BIOC 303, BIOT 380 and all of BIOC 402, BIOC 410.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
BIOC_V 448-A_101	BIOC_V	448	A	A_101	Directed Studies in Biochemistry	W1	A library (3 credits) or a laboratory project with written report (3 or 6 credits) allowing a student to undertake an investigation on a specific topic as agreed upon by the faculty and student. Prerequisite: Permission of the Department Head is required. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 448-A_201	BIOC_V	448	A	A_201	Directed Studies in Biochemistry	W2	A library (3 credits) or a laboratory project with written report (3 or 6 credits) allowing a student to undertake an investigation on a specific topic as agreed upon by the faculty and student. Prerequisite: Permission of the Department Head is required. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 448-B_001	BIOC_V	448	B	B_001	Directed Studies in Biochemistry	W1-2	A library (3 credits) or a laboratory project with written report (3 or 6 credits) allowing a student to undertake an investigation on a specific topic as agreed upon by the faculty and student. Prerequisite: Permission of the Department Head is required. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Sun	9:30 p.m. - 10:00 p.m.
BIOC_V 449-A_101	BIOC_V	449	A	A_101	Honours Thesis	W1	A research problem under the direction of a faculty member. Restricted to Honours students. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 449-B_201	BIOC_V	449	B	B_201	Honours Thesis	W2	A research problem under the direction of a faculty member. Restricted to Honours students. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 449-C_001	BIOC_V	449	C	C_001	Honours Thesis	W1-2	A research problem under the direction of a faculty member. Restricted to Honours students. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 450-001	BIOC_V	450	001	Membrane Biochemistry	W2	Biochemistry of membranes and membrane proteins, membrane fusion, electrical signaling, and the involvement of membrane proteins in disease and drug development. [3-0-0] Prerequisite: One of BIOC 303, BIOT 380 and all of BIOC 402, BIOC 410.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
BIOC_V 460-001	BIOC_V	460	001	Advanced Techniques in Biochemistry	W2	Theoretical basis and practical applications of a selection of advanced techniques currently used in biochemical research. Topics will vary. [3-0-0] Prerequisite: One of BIOC 303, BIOT 380 and all of BIOC 402, BIOC 410.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.	
BIOC_V 470-001	BIOC_V	470	001	Biochemistry & Society: Current Issues	W2	Biochemical basis of select global challenges. Critical evaluation of primary literature to form evidence-based opinions and communicating biochemistry as it relates to several controversial societal issues. [3-0-1] Prerequisite: One of BIOC 302, BIOC 303.	In Person Learning	Mon Fri	3:00 p.m. - 5:00 p.m.	
BIOC_V 498-610	BIOC_V	498	610	Internship Work Placement III	W1	Approved and supervised technical work experience in an industrial or academic research setting for four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOC399	In Person Learning	Arranged	Arranged	
BIOC_V 498-615	BIOC_V	498	615	Internship Work Placement III	W2	Approved and supervised technical work experience in an industrial or academic research setting for four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOC399	In Person Learning	Arranged	Arranged	
BIOC_V 499-610	BIOC_V	499	610	Internship Work Placement IV	W1	Approved and supervised technical work experience in an industrial or academic research setting for four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOC498	In Person Learning	Arranged	Arranged	

BIOC_V 499-615	BIOC_V	499		615	Internship Work Placement IV	W2	Approved and supervised technical work experience in an industrial or academic research setting for four months. Technical report required. Restricted to students admitted to the Internship Program in Biochemistry and Molecular Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOC498	In Person Learning	Arranged	Arranged
BIOC_V 501-A_102	BIOC_V	501	A	A_102	Advanced Biochemistry Laboratory	W1	Practical applications of advanced biochemical techniques. Admission is limited and is by permission of the department head. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 501-C_002	BIOC_V	501	C	C_002	Advanced Biochemistry Laboratory	W1	Practical applications of advanced biochemical techniques. Admission is limited and is by permission of the department head. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 510-001	BIOC_V	510		001	Nucleic Acids: Structure and Function	W1	Structure and function of nucleic acids and their role in replication, transcription, translation and expression of genetic information. Credit will be granted for only one of BIOC 410 or BIOC 510. This course is not eligible for Credit/D/Fail grading. [3-0]	In Person Learning	Arranged	Arranged
BIOC_V 530-001	BIOC_V	530		001	Seminar in Biochemistry	W1-2	Attendance is required of all graduate students in Biochemistry. Normally students will make a presentation once per year on a topic approved by their research advisor or committee or on the results of their research. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
BIOC_V 530-101	BIOC_V	530		101	Seminar in Biochemistry	W1	Attendance is required of all graduate students in Biochemistry. Normally students will make a presentation once per year on a topic approved by their research advisor or committee or on the results of their research. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
BIOC_V 530-201	BIOC_V	530		201	Seminar in Biochemistry	W2	Attendance is required of all graduate students in Biochemistry. Normally students will make a presentation once per year on a topic approved by their research advisor or committee or on the results of their research. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
BIOC_V 548-A_004	BIOC_V	548	A	A_004	Directed Studies	W2	In special cases, with approval of the department head, advanced courses may be arranged for graduate students in attendance. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 548-B_001	BIOC_V	548	B	B_001	Directed Studies	W1-2	In special cases, with approval of the department head, advanced courses may be arranged for graduate students in attendance. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 548-B_101	BIOC_V	548	B	B_101	Directed Studies	W1	In special cases, with approval of the department head, advanced courses may be arranged for graduate students in attendance. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 548-B_202	BIOC_V	548	B	B_202	Directed Studies	W2	In special cases, with approval of the department head, advanced courses may be arranged for graduate students in attendance. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 548-C_002	BIOC_V	548	C	C_002	Directed Studies	W1-2	In special cases, with approval of the department head, advanced courses may be arranged for graduate students in attendance. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 548-D_003	BIOC_V	548	D	D_003	Directed Studies	W1-2	In special cases, with approval of the department head, advanced courses may be arranged for graduate students in attendance. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 548-D_202	BIOC_V	548	D	D_202	Directed Studies	W2	In special cases, with approval of the department head, advanced courses may be arranged for graduate students in attendance. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOC_V 549-001	BIOC_V	549		001	M.Sc. Thesis	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOC_V 549-101	BIOC_V	549		101	M.Sc. Thesis	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOC_V 549-201	BIOC_V	549		201	M.Sc. Thesis	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOC_V 551-001	BIOC_V	551		001	Advanced Topics in Biochemistry and Molecular Biology	W1-2	Discussions based on topics in the current literature. This course is not eligible for Credit/D/Fail grading. [3-0]	In Person Learning	Fri	9:30 a.m. - 11:00 a.m.
BIOC_V 556-001	BIOC_V	556		001	Biochemical Aspects of Cellular Regulation	W1	Mechanisms involved in the responses of cells to adrenergic, steroid and peptide hormones and growth factors. Recent advances in approaches and regulation of the concentration and specific activity of key enzymes, transport systems and structural proteins. Given in alternate years. This course is not eligible for Credit/D/Fail grading. [3-0]	In Person Learning	Arranged	Arranged
BIOC_V 557-001	BIOC_V	557		001	Advanced Topics in Biochemistry	W1	Advances in biochemical approaches. Topics vary. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 11:30 a.m.

BIOC_V 558-001	BIOC_V	558	001	Advanced Topics in Protein Chemistry I	W1	Contemporary theoretical and experimental investigation of protein structure-function relationships. Topics will vary. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.	
BIOC_V 559-001	BIOC_V	559	001	Advanced Topics in Protein Chemistry II	W1	Contemporary theoretical and experimental investigation of protein structure-function relationships. Topics will vary. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.	
BIOC_V 560-B_001	BIOC_V	560	B	B_001	Computational Approaches in Biochemistry	W2	Computational approaches to study protein and nucleic acids. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 11:30 a.m.
BIOC_V 649-001	BIOC_V	649	001	Doctoral Dissertation	W1-2		In Person Learning	Arranged	Arranged	
BIOC_V 649-101	BIOC_V	649	101	Doctoral Dissertation	W1		In Person Learning	Arranged	Arranged

BIOF_V 501-A_001	BIOF_V	501	A	A_001	Special Topics in Bioinformatics	W1	This course is not eligible for Credit/D/Fail grading. Develops the student's ability to exchange ideas in small groups focused on real but simplified problems in bioinformatics. Problems are carefully selected to cover all aspects of Bioinformatics research. Required of students in the Bioinformatics graduate program. Students not registered in the Bioinformatics graduate program must get permission to register in this course. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:00 p.m. - 5:00 p.m.
BIOF_V 520-002	BIOF_V	520	002	Problem-Based Learning In Bioinformatics	W2		In Person Learning	Mon Wed	3:00 p.m. - 5:00 p.m.	
BIOF_V 540-A_201	BIOF_V	540	A	A_201	Statistical Methods for High Dimensional Biology	W2	This course is not eligible for Credit/D/Fail grading. Equivalency: STAT540, GSATS40	In Person Learning	Tue Thu	9:00 a.m. - 10:30 a.m.
BIOF_V 540-A_S2B	BIOF_V	540	A	A_S2B	Statistical Methods for High Dimensional Biology	W2	This course is not eligible for Credit/D/Fail grading. Equivalency: STAT540, GSATS40	In Person Learning	Tue	12:30 p.m. - 1:30 p.m.
BIOF_V 548-A_001	BIOF_V	548	A	A_001	Directed Studies	W1	Advanced study under the direction of a faculty member composed of laboratory sessions and directed readings related to selected areas of bioinformatics. Students must get permission to register in this course. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOF_V 548-A_002	BIOF_V	548	A	A_002	Directed Studies	W2	Advanced study under the direction of a faculty member composed of laboratory sessions and directed readings related to selected areas of bioinformatics. Students must get permission to register in this course. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged

BIOL_V 111-101	BIOL_V	111	101	Introduction to Modern Biology	W1	Concepts fundamental to biological issues, such as the genetic basis of biological variation, evolution, infectious diseases, causes of cancer, population growth, and human effects on ecosystems. Not open to students who have credit for Biology 12 (including AP, IB). [3-0-0]	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.	
BIOL_V 111-201	BIOL_V	111	201	Introduction to Modern Biology	W2	Concepts fundamental to biological issues, such as the genetic basis of biological variation, evolution, infectious diseases, causes of cancer, population growth, and human effects on ecosystems. Not open to students who have credit for Biology 12 (including AP, IB). [3-0-0]	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
BIOL_V 112-101	BIOL_V	112	101	Biology of the Cell	W1	The principles of cellular and molecular biology using bacterial and eukaryotic examples. [3-0-0] Prerequisite: One of CHEM 12, CHEM 100, CHEM 110, CHEM 111 and one of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.	

BIOL_V 112-T76	BIOL_V	112	T76	Biology of the Cell	W2	The principles of cellular and molecular biology using bacterial and eukaryotic examples. [3-0-0] Prerequisite: One of CHEM 12, CHEM 100, CHEM 110, CHEM 111 and one of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Thu	10:00 a.m. - 11:00 a.m.
BIOL_V 112-T77	BIOL_V	112	T77	Biology of the Cell	W2	The principles of cellular and molecular biology using bacterial and eukaryotic examples. [3-0-0] Prerequisite: One of CHEM 12, CHEM 100, CHEM 110, CHEM 111 and one of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 121-121	BIOL_V	121	121	Genetics, Evolution and Ecology	W1	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
BIOL_V 121-122	BIOL_V	121	122	Genetics, Evolution and Ecology	W1	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 121-123	BIOL_V	121	123	Genetics, Evolution and Ecology	W1	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BIOL_V 121-124	BIOL_V	121	124	Genetics, Evolution and Ecology	W1	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BIOL_V 121-125	BIOL_V	121	125	Genetics, Evolution and Ecology	W1	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 121-221	BIOL_V	121	221	Genetics, Evolution and Ecology	W2	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
BIOL_V 121-222	BIOL_V	121	222	Genetics, Evolution and Ecology	W2	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
BIOL_V 121-223	BIOL_V	121	223	Genetics, Evolution and Ecology	W2	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
BIOL_V 121-224	BIOL_V	121	224	Genetics, Evolution and Ecology	W2	Principles of storage and transmission of genetic variation; origin and evolution of species and their ecological interactions. Credit will be granted for only one of BIOL 121 or BIOL 344. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 155-001	BIOL_V	155	001	Human Biology: Physiology and Introductory Anatomy	W1-2	The principles of biology with particular reference to the human body (anatomy and physiology). (physiology and introductory anatomy). Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0; 3-0-0] Prerequisite: One of CHEM 12, CHEM 100, CHEM 110, CHEM 111 and one of BIOL 11, BIOL 12, BIOL 111.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 155-002	BIOL_V	155	002	Human Biology: Physiology and Introductory Anatomy	W1-2	The principles of biology with particular reference to the human body (anatomy and physiology). (physiology and introductory anatomy). In Person Learning	Wed	9:00 a.m. - 10:00 a.m.

BIOL_V 201-T22	BIOL_V	201	T22	Introduction to Biochemistry	W2	Biological molecules, protein structure and enzyme action, energy transfer, central metabolic pathways and their regulation. Examples drawn from plants, animals and microorganisms. (Consult the Credit Exclusion list within the Faculty of Science section of the Calendar.) Credit will be granted for only one of BIOL 201, BIOC 202, or BIOC 203. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 233, CHEM 260.; or BIOL 200 and a corequisite of CHEM 213; or a corequisite of either CHEM 313 or CHEM 330.	In Person Learning	Thu	1:00 p.m. - 2:00 p.m.
BIOL_V 201-T23	BIOL_V	201	T23	Introduction to Biochemistry	W2	Biological molecules, protein structure and enzyme action, energy transfer, central metabolic pathways and their regulation. Examples drawn from plants, animals and microorganisms. (Consult the Credit Exclusion list within the Faculty of Science section of the Calendar.) Credit will be granted for only one of BIOL 201, BIOC 202, or BIOC 203. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 233, CHEM 260.; or BIOL 200 and a corequisite of CHEM 213; or a corequisite of either CHEM 313 or CHEM 330.	In Person Learning	Thu	2:00 p.m. - 3:00 p.m.
BIOL_V 201-T24	BIOL_V	201	T24	Introduction to Biochemistry	W2	Biological molecules, protein structure and enzyme action, energy transfer, central metabolic pathways and their regulation. Examples drawn from plants, animals and microorganisms. (Consult the Credit Exclusion list within the Faculty of Science section of the Calendar.) Credit will be granted for only one of BIOL 201, BIOC 202, or BIOC 203. [3-0-1] Prerequisite: BIOL 200 and one of CHEM 233, CHEM 260.; or BIOL 200 and a corequisite of CHEM 213; or a corequisite of either CHEM 313 or CHEM 330.	In Person Learning	Thu	3:00 p.m. - 4:00 p.m.
BIOL_V 203-101	BIOL_V	203	101	Eukaryotic Microbiology	W1	Introduction to the origin and diversity of protists (protozoa and algae) at both cellular and genomic levels, including the role of endosymbiosis in evolution. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 203-L01	BIOL_V	203	L01	Eukaryotic Microbiology	W1	Introduction to the origin and diversity of protists (protozoa and algae) at both cellular and genomic levels, including the role of endosymbiosis in evolution. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 203-L02	BIOL_V	203	L02	Eukaryotic Microbiology	W1	Introduction to the origin and diversity of protists (protozoa and algae) at both cellular and genomic levels, including the role of endosymbiosis in evolution. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 203-L03	BIOL_V	203	L03	Eukaryotic Microbiology	W1	Introduction to the origin and diversity of protists (protozoa and algae) at both cellular and genomic levels, including the role of endosymbiosis in evolution. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 203-L04	BIOL_V	203	L04	Eukaryotic Microbiology	W1	Introduction to the origin and diversity of protists (protozoa and algae) at both cellular and genomic levels, including the role of endosymbiosis in evolution. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.
BIOL_V 204-201	BIOL_V	204	201	Vertebrate Structure and Function	W2	Introduction to the vertebrate phyla and their evolution; a comparative study of vertebrate structure and function, with dissection of representative forms. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 204-L11	BIOL_V	204	L11	Vertebrate Structure and Function	W2	Introduction to the vertebrate phyla and their evolution; a comparative study of vertebrate structure and function, with dissection of representative forms. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 204-L13	BIOL_V	204	L13	Vertebrate Structure and Function	W2	Introduction to the vertebrate phyla and their evolution; a comparative study of vertebrate structure and function, with dissection of representative forms. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 204-L15	BIOL_V	204	L15	Vertebrate Structure and Function	W2	Introduction to the vertebrate phyla and their evolution; a comparative study of vertebrate structure and function, with dissection of representative forms. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 204-L17	BIOL_V	204	L17	Vertebrate Structure and Function	W2	Introduction to the vertebrate phyla and their evolution; a comparative study of vertebrate structure and function, with dissection of representative forms. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 204-L21	BIOL_V	204	L21	Vertebrate Structure and Function	W2	Introduction to the vertebrate phyla and their evolution; a comparative study of vertebrate structure and function, with dissection of representative forms. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.
BIOL_V 204-L23	BIOL_V	204	L23	Vertebrate Structure and Function	W2	Introduction to the vertebrate phyla and their evolution; a comparative study of vertebrate structure and function, with dissection of representative forms. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
BIOL_V 205-101	BIOL_V	205	101	Comparative Invertebrate Zoology	W1	An introduction to the unity, diversity and evolutionary history of invertebrates. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BIOL_V 205-L11	BIOL_V	205	L11	Comparative Invertebrate Zoology	W1	An introduction to the unity, diversity and evolutionary history of invertebrates. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 205-L13	BIOL_V	205	L13	Comparative Invertebrate Zoology	W1	An introduction to the unity, diversity and evolutionary history of invertebrates. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 205-L15	BIOL_V	205	L15	Comparative Invertebrate Zoology	W1	An introduction to the unity, diversity and evolutionary history of invertebrates. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 205-L17	BIOL_V	205	L17	Comparative Invertebrate Zoology	W1	An introduction to the unity, diversity and evolutionary history of invertebrates. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 205-L21	BIOL_V	205	L21	Comparative Invertebrate Zoology	W1	An introduction to the unity, diversity and evolutionary history of invertebrates. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.

BIOL_V 205-L23	BIOL_V	205	L23	Comparative Invertebrate Zoology	W1	An introduction to the unity, diversity and evolutionary history of invertebrates. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
BIOL_V 209-101	BIOL_V	209	101	Biodiversity of Algae, Fungi and Bryophytes	W1	Diversity, ecology, cell biology and evolutionary origins of multicellular eukaryotes, illustrated through mosses and liverworts; fungi and slime molds; and fresh water and marine algae. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 209-L11	BIOL_V	209	L11	Biodiversity of Algae, Fungi and Bryophytes	W1	Diversity, ecology, cell biology and evolutionary origins of multicellular eukaryotes, illustrated through mosses and liverworts; fungi and slime molds; and fresh water and marine algae. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
BIOL_V 209-L12	BIOL_V	209	L12	Biodiversity of Algae, Fungi and Bryophytes	W1	Diversity, ecology, cell biology and evolutionary origins of multicellular eukaryotes, illustrated through mosses and liverworts; fungi and slime molds; and fresh water and marine algae. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
BIOL_V 209-L13	BIOL_V	209	L13	Biodiversity of Algae, Fungi and Bryophytes	W1	Diversity, ecology, cell biology and evolutionary origins of multicellular eukaryotes, illustrated through mosses and liverworts; fungi and slime molds; and fresh water and marine algae. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 209-L14	BIOL_V	209	L14	Biodiversity of Algae, Fungi and Bryophytes	W1	Diversity, ecology, cell biology and evolutionary origins of multicellular eukaryotes, illustrated through mosses and liverworts; fungi and slime molds; and fresh water and marine algae. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 209-L17	BIOL_V	209	L17	Biodiversity of Algae, Fungi and Bryophytes	W1	Diversity, ecology, cell biology and evolutionary origins of multicellular eukaryotes, illustrated through mosses and liverworts; fungi and slime molds; and fresh water and marine algae. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 209-L18	BIOL_V	209	L18	Biodiversity of Algae, Fungi and Bryophytes	W1	Diversity, ecology, cell biology and evolutionary origins of multicellular eukaryotes, illustrated through mosses and liverworts; fungi and slime molds; and fresh water and marine algae. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. Or 8 transfer credits of first-year biology.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 210-201	BIOL_V	210	201	Vascular Plants	W2	A comparative study of pteridophytes, gymnosperms and angiosperms, integrating form, function and ecology. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. or 8 transfer credits of first-year biology. Equivalency: APBI 210	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 210-L20	BIOL_V	210	L20	Vascular Plants	W2	A comparative study of pteridophytes, gymnosperms and angiosperms, integrating form, function and ecology. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. or 8 transfer credits of first-year biology. Equivalency: APBI 210	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
BIOL_V 210-L21	BIOL_V	210	L21	Vascular Plants	W2	A comparative study of pteridophytes, gymnosperms and angiosperms, integrating form, function and ecology. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. or 8 transfer credits of first-year biology. Equivalency: APBI 210	In Person Learning	Arranged	Arranged
BIOL_V 210-L23	BIOL_V	210	L23	Vascular Plants	W2	A comparative study of pteridophytes, gymnosperms and angiosperms, integrating form, function and ecology. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. or 8 transfer credits of first-year biology. Equivalency: APBI 210	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 210-L27	BIOL_V	210	L27	Vascular Plants	W2	A comparative study of pteridophytes, gymnosperms and angiosperms, integrating form, function and ecology. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. or 8 transfer credits of first-year biology. Equivalency: APBI 210	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 210-L28	BIOL_V	210	L28	Vascular Plants	W2	A comparative study of pteridophytes, gymnosperms and angiosperms, integrating form, function and ecology. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. or 8 transfer credits of first-year biology. Equivalency: APBI 210	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 210-L31	BIOL_V	210	L31	Vascular Plants	W2	A comparative study of pteridophytes, gymnosperms and angiosperms, integrating form, function and ecology. [3-3-0] Prerequisite: One of BIOL 121, SCIE 001. or 8 transfer credits of first-year biology. Equivalency: APBI 210	In Person Learning	Fri	8:00 a.m. - 11:00 a.m.
BIOL_V 230-101	BIOL_V	230	101	Fundamentals of Ecology	W1	Dynamics of plant and animal populations, structure of ecological communities and functioning of ecosystems. Interpretation of research results and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*-0] Prerequisite: One of BIOL 121, SCIE 001 or 8 transfer credits of first-year BIOL.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 230-201	BIOL_V	230	201	Fundamentals of Ecology	W2	Dynamics of plant and animal populations, structure of ecological communities and functioning of ecosystems. Interpretation of research results and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*-0] Prerequisite: One of BIOL 121, SCIE 001 or 8 transfer credits of first-year BIOL.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 230-202	BIOL_V	230	202	Fundamentals of Ecology	W2	Dynamics of plant and animal populations, structure of ecological communities and functioning of ecosystems. Interpretation of research results and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*-0] Prerequisite: One of BIOL 121, SCIE 001 or 8 transfer credits of first-year BIOL.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 230-L01	BIOL_V	230	L01	Fundamentals of Ecology	W1	Dynamics of plant and animal populations, structure of ecological communities and functioning of ecosystems. Interpretation of research results and application to environmental issues. Labs meet once a month. [3-3*-0] Prerequisite: One of BIOL 121, SCIE 001 or 8 transfer credits of first-year BIOL.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.

BIOL_V 301-201	BIOL_V	301	201	Biomathematics	W2	Introduction to uses of mathematics in the biological sciences; experimental design and modelling of biological processes. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . Recommended co-requisites: one of BIOL 300, STAT 200. [3-0-2]	In Person Learning	Arranged	Arranged
BIOL_V 301-T01	BIOL_V	301	T01	Biomathematics	W1	Introduction to uses of mathematics in the biological sciences; experimental design and modelling of biological processes. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . Recommended co-requisites: one of BIOL 300, STAT 200. [3-0-2]	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
BIOL_V 301-T02	BIOL_V	301	T02	Biomathematics	W1	Introduction to uses of mathematics in the biological sciences; experimental design and modelling of biological processes. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . Recommended co-requisites: one of BIOL 300, STAT 200. [3-0-2]	In Person Learning	Tue	2:00 p.m. - 3:00 p.m.
BIOL_V 301-T40	BIOL_V	301	T40	Biomathematics	W2	Introduction to uses of mathematics in the biological sciences; experimental design and modelling of biological processes. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . Recommended co-requisites: one of BIOL 300, STAT 200. [3-0-2]	In Person Learning	Arranged	Arranged
BIOL_V 301-T41	BIOL_V	301	T41	Biomathematics	W2	Introduction to uses of mathematics in the biological sciences; experimental design and modelling of biological processes. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . Recommended co-requisites: one of BIOL 300, STAT 200. [3-0-2]	In Person Learning	Arranged	Arranged
BIOL_V 302-201	BIOL_V	302	201	Biodiversity, Human & Planetary Health	W2	Effects of biodiversity on human health, from human microbiome to ecosystem. Strategies for protecting, restoring and managing for biodiversity, human and planetary health. [3-0-1] Prerequisite: One of BIOL 111, BIOL 121, GEOS 207, SCIE 001 and third-year class standing.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 302-T01	BIOL_V	302	T01	Biodiversity, Human & Planetary Health	W2	Effects of biodiversity on human health, from human microbiome to ecosystem. Strategies for protecting, restoring and managing for biodiversity, human and planetary health. [3-0-1] Prerequisite: One of BIOL 111, BIOL 121, GEOS 207, SCIE 001 and third-year class standing.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
BIOL_V 302-T02	BIOL_V	302	T02	Biodiversity, Human & Planetary Health	W2	Effects of biodiversity on human health, from human microbiome to ecosystem. Strategies for protecting, restoring and managing for biodiversity, human and planetary health. [3-0-1] Prerequisite: One of BIOL 111, BIOL 121, GEOS 207, SCIE 001 and third-year class standing.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
BIOL_V 303-201	BIOL_V	303	201	Green Planet: Biology and History of Plants that Changed Civilizations	W2	Biological, cultural, and societal significance of staple crops selected as foods, medicines or raw materials by different societies, and their pivotal role in the rise and fall of past and present civilizations. [3-0-1] Prerequisite: A minimum of 3rd year standing.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 306-101	BIOL_V	306	101	Advanced Ecology	W1	Ecology of populations, communities and ecosystems. Tests of ecological theory with experiments and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*0] Prerequisite: BIOL 230.	In Person Learning	Mon Wed	11:00 a.m. - 12:00 p.m.
BIOL_V 306-L01	BIOL_V	306	L01	Advanced Ecology	W1	Ecology of populations, communities and ecosystems. Tests of ecological theory with experiments and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*0] Prerequisite: BIOL 230.	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.
BIOL_V 306-L02	BIOL_V	306	L02	Advanced Ecology	W1	Ecology of populations, communities and ecosystems. Tests of ecological theory with experiments and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*0] Prerequisite: BIOL 230.	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.
BIOL_V 306-L03	BIOL_V	306	L03	Advanced Ecology	W1	Ecology of populations, communities and ecosystems. Tests of ecological theory with experiments and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*0] Prerequisite: BIOL 230.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 306-L04	BIOL_V	306	L04	Advanced Ecology	W1	Ecology of populations, communities and ecosystems. Tests of ecological theory with experiments and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*0] Prerequisite: BIOL 230.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 306-L05	BIOL_V	306	L05	Advanced Ecology	W1	Ecology of populations, communities and ecosystems. Tests of ecological theory with experiments and application to environmental issues. Labs meet once a month. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-3*0] Prerequisite: BIOL 230.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 310-201	BIOL_V	310	201	Introduction to Animal Behaviour	W2	Animal behavior from an ecological and evolutionary perspective; the methods used to study behaviour and test its adaptive significance. [3-0-2] Prerequisite: BIOL 121. Third-year standing is required.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 310-L01	BIOL_V	310	L01	Introduction to Animal Behaviour	W2	Animal behavior from an ecological and evolutionary perspective; the methods used to study behaviour and test its adaptive significance. [3-0-2] Prerequisite: BIOL 121. Third-year standing is required.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
BIOL_V 310-L02	BIOL_V	310	L02	Introduction to Animal Behaviour	W2	Animal behavior from an ecological and evolutionary perspective; the methods used to study behaviour and test its adaptive significance. [3-0-2] Prerequisite: BIOL 121. Third-year standing is required.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
BIOL_V 310-L03	BIOL_V	310	L03	Introduction to Animal Behaviour	W2	Animal behavior from an ecological and evolutionary perspective; the methods used to study behaviour and test its adaptive significance. [3-0-2] Prerequisite: BIOL 121. Third-year standing is required.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
BIOL_V 314-201	BIOL_V	314	201	Elements of Biodiversity	W2	The units of biodiversity, from genes to ecosystems, how they are structured in space, and their importance to human well-being and ecosystem health. [3-0-0] Prerequisite: One of APBI 260, BIOL 230, FRST 201, GEOB 207, GEOS 207. Equivalency: CONS 314	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.

BIOL_V 320-201	BIOL_V	320	201	Survey of Algae	W2	A survey of the algae, considering their morphology, life history, classification, and ecology. [3-3-0] Prerequisite: BIOL 121	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 320-L21	BIOL_V	320	L21	Survey of Algae	W2	A survey of the algae, considering their morphology, life history, classification, and ecology. [3-3-0] Prerequisite: BIOL 121	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.
BIOL_V 320-L22	BIOL_V	320	L22	Survey of Algae	W2	A survey of the algae, considering their morphology, life history, classification, and ecology. [3-3-0] Prerequisite: BIOL 121	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.
BIOL_V 320-L23	BIOL_V	320	L23	Survey of Algae	W2	A survey of the algae, considering their morphology, life history, classification, and ecology. [3-3-0] Prerequisite: BIOL 121	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 320-L24	BIOL_V	320	L24	Survey of Algae	W2	A survey of the algae, considering their morphology, life history, classification, and ecology. [3-3-0] Prerequisite: BIOL 121	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 321-201	BIOL_V	321	201	Morphology and Evolution of Bryophytes	W2	A study of evolution, taxonomy and morphology of mosses, liverworts and hornworts with emphasis on living plants in their environment. [2-4-0] Prerequisite: BIOL 121	In Person Learning	Mon Wed	2:00 p.m. - 3:00 p.m.
BIOL_V 321-L01	BIOL_V	321	L01	Morphology and Evolution of Bryophytes	W2	A study of evolution, taxonomy and morphology of mosses, liverworts and hornworts with emphasis on living plants in their environment. [2-4-0] Prerequisite: BIOL 121	In Person Learning	Mon Wed	3:00 p.m. - 5:00 p.m.
BIOL_V 323-101	BIOL_V	323	101	Structure and Reproduction of Fungi	W1	The evolutionary diversity of the fungi as shown by their morphology and reproductive biology. [2-3-0] Prerequisite: BIOL 121	In Person Learning	Mon Wed	1:00 p.m. - 2:00 p.m.
BIOL_V 323-L11	BIOL_V	323	L11	Structure and Reproduction of Fungi	W1	The evolutionary diversity of the fungi as shown by their morphology and reproductive biology. [2-3-0] Prerequisite: BIOL 121	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 323-L12	BIOL_V	323	L12	Structure and Reproduction of Fungi	W1	The evolutionary diversity of the fungi as shown by their morphology and reproductive biology. [2-3-0] Prerequisite: BIOL 121	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 323-T01	BIOL_V	323	T01	Structure and Reproduction of Fungi	W1	The evolutionary diversity of the fungi as shown by their morphology and reproductive biology. [2-3-0] Prerequisite: BIOL 121	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 323-T02	BIOL_V	323	T02	Structure and Reproduction of Fungi	W1	The evolutionary diversity of the fungi as shown by their morphology and reproductive biology. [2-3-0] Prerequisite: BIOL 121	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 324-101	BIOL_V	324	101	Introduction to Seed Plant Taxonomy	W1	Introduction to seed plant taxonomy emphasizing descriptive morphology and identification. Each student will be required to submit a plant collection. [2-3-0] Prerequisite: BIOL 121 Equivalency: APBI 324	In Person Learning	Tue Thu	10:00 a.m. - 11:00 a.m.
BIOL_V 324-L01	BIOL_V	324	L01	Introduction to Seed Plant Taxonomy	W1	Introduction to seed plant taxonomy emphasizing descriptive morphology and identification. Each student will be required to submit a plant collection. [2-3-0] Prerequisite: BIOL 121 Equivalency: APBI 324	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 324-L02	BIOL_V	324	L02	Introduction to Seed Plant Taxonomy	W1	Introduction to seed plant taxonomy emphasizing descriptive morphology and identification. Each student will be required to submit a plant collection. [2-3-0] Prerequisite: BIOL 121 Equivalency: APBI 324	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 325-101	BIOL_V	325	101	Introduction to Animal Mechanics and Locomotion	W1	Comparative aspects of the functional design of skeletal systems and the mechanics of swimming, flying and terrestrial locomotion, with particular reference to the vertebrates. [3-0-0] Prerequisite: BIOL 121	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 326-201	BIOL_V	326	201	Experimental Biology of Invertebrates	W2	Behaviour and ecology of invertebrates as revealed by hands-on experiments in the laboratory and field. Marine emphasis. [1-4-0] Prerequisite: BIOL 205. Corequisite: Either (a) STAT 200 or (b) BIOL 300.	In Person Learning	Mon	12:00 p.m. - 1:00 p.m.
BIOL_V 326-L01	BIOL_V	326	L01	Experimental Biology of Invertebrates	W2	Behaviour and ecology of invertebrates as revealed by hands-on experiments in the laboratory and field. Marine emphasis. [1-4-0] Prerequisite: BIOL 205. Corequisite: Either (a) STAT 200 or (b) BIOL 300.	In Person Learning	Mon	1:00 p.m. - 5:00 p.m.
BIOL_V 327-101	BIOL_V	327	101	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology, life-histories and insect-plant relations. Prerequisite: One of BIOL 121, SCIE 001. Equivalency: APB I327	In Person Learning	Tue Thu	8:00 a.m. - 9:00 a.m.
BIOL_V 327-L11	BIOL_V	327	L11	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology, life-histories and insect-plant relations. Prerequisite: One of BIOL 121, SCIE 001. Equivalency: APB I327	In Person Learning	Thu	9:00 a.m. - 11:00 a.m.
BIOL_V 327-L12	BIOL_V	327	L12	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology, life-histories and insect-plant relations. Prerequisite: One of BIOL 121, SCIE 001. Equivalency: APB I327	In Person Learning	Thu	9:00 a.m. - 11:00 a.m.
BIOL_V 327-L13	BIOL_V	327	L13	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology, life-histories and insect-plant relations. Prerequisite: One of BIOL 121, SCIE 001. Equivalency: APB I327	In Person Learning	Thu	1:30 p.m. - 3:30 p.m.
BIOL_V 327-L14	BIOL_V	327	L14	Introduction to Entomology	W1	A survey of the structure, classification and biology of insects; ecology, life-histories and insect-plant relations. Prerequisite: One of BIOL 121, SCIE 001. Equivalency: APB I327	In Person Learning	Thu	1:30 p.m. - 3:30 p.m.

BIOL_V 328-201	BIOL_V	328	201	Ecology and Evolution of Parasites	W2	Morphology, life histories, ecology and evolution of parasites (and infectious agents more broadly) infecting humans and animals. [2-3-0] Prerequisite: BIOL 121	In Person Learning	Wed Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 328-L01	BIOL_V	328	L01	Ecology and Evolution of Parasites	W2	Morphology, life histories, ecology and evolution of parasites (and infectious agents more broadly) infecting humans and animals. [2-3-0] Prerequisite: BIOL 121	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 329-101	BIOL_V	329	101	Cell Receptor Signaling, Communication and Regulation	W1	How cells react to external signals, and how these responses are regulated. Experimental approaches and common themes will be examined using a variety of cell receptors as models. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: BIOL 200.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 329-201	BIOL_V	329	201	Cell Receptor Signaling, Communication and Regulation	W2	How cells react to external signals, and how these responses are regulated. Experimental approaches and common themes will be examined using a variety of cell receptors as models. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: BIOL 200.	In Person Learning	Arranged	Arranged
BIOL_V 329-2W1	BIOL_V	329	2W1	Cell Receptor Signaling, Communication and Regulation	W2	How cells react to external signals, and how these responses are regulated. Experimental approaches and common themes will be examined using a variety of cell receptors as models. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: BIOL 200.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 331-101	BIOL_V	331	101	Developmental Biology	W1	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 331-201	BIOL_V	331	201	Developmental Biology	W2	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 331-L01	BIOL_V	331	L01	Developmental Biology	W2	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 331-L02	BIOL_V	331	L02	Developmental Biology	W2	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 331-L03	BIOL_V	331	L03	Developmental Biology	W2	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 331-L21	BIOL_V	331	L21	Developmental Biology	W1	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 331-L23	BIOL_V	331	L23	Developmental Biology	W1	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 331-L25	BIOL_V	331	L25	Developmental Biology	W1	Animal development and its underlying causal principles; introductory embryology. [3-5-0] Prerequisite: Either (a) BIOL 201 or (b) all of BIOL 200, BIOL 260 and one of BIOL 233, BIOL 234.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 332-201	BIOL_V	332	201	Protistology	W2	Cell biology, ecology, and evolution of protists; origins of multicellularity; the role of protists in micropaleontology, parasitology, and oceanography. [3-3-0] Prerequisite: BIOL 200	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 332-L01	BIOL_V	332	L01	Protistology	W2	Cell biology, ecology, and evolution of protists; origins of multicellularity; the role of protists in micropaleontology, parasitology, and oceanography. [3-3-0] Prerequisite: BIOL 200	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 335-201	BIOL_V	335	201	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
BIOL_V 335-202	BIOL_V	335	202	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 335-T51	BIOL_V	335	T51	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
BIOL_V 335-T52	BIOL_V	335	T52	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
BIOL_V 335-T53	BIOL_V	335	T53	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
BIOL_V 335-T54	BIOL_V	335	T54	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
BIOL_V 335-T55	BIOL_V	335	T55	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
BIOL_V 335-T56	BIOL_V	335	T56	Molecular Genetics	W2	Isolation and identification of genes, analysis of gene structure; gene expression and its regulation in prokaryotes and in eukaryotes; developmental genetics. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234, MICB 322, FRST 302.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.

BIOL_V 336-T12	BIOL_V	336	T12	Fundamentals of Evolutionary Biology	W2	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed	3:00 p.m. - 4:00 p.m.
BIOL_V 336-T13	BIOL_V	336	T13	Fundamentals of Evolutionary Biology	W2	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Thu	9:00 a.m. - 10:00 a.m.
BIOL_V 336-T14	BIOL_V	336	T14	Fundamentals of Evolutionary Biology	W2	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Thu	10:00 a.m. - 11:00 a.m.
BIOL_V 336-T40	BIOL_V	336	T40	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
BIOL_V 336-T41	BIOL_V	336	T41	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Tue	2:00 p.m. - 3:00 p.m.
BIOL_V 336-T42	BIOL_V	336	T42	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
BIOL_V 336-T43	BIOL_V	336	T43	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Tue	2:00 p.m. - 3:00 p.m.
BIOL_V 336-T44	BIOL_V	336	T44	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Tue	2:00 p.m. - 3:00 p.m.
BIOL_V 336-T45	BIOL_V	336	T45	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed	10:00 a.m. - 11:00 a.m.
BIOL_V 336-T46	BIOL_V	336	T46	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed	10:00 a.m. - 11:00 a.m.
BIOL_V 336-T47	BIOL_V	336	T47	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
BIOL_V 336-T48	BIOL_V	336	T48	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
BIOL_V 336-T49	BIOL_V	336	T49	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed	3:00 p.m. - 4:00 p.m.
BIOL_V 336-T50	BIOL_V	336	T50	Fundamentals of Evolutionary Biology	W1	Natural selection; population genetics, quantitative genetics and systematics; classical and molecular approaches to the study of evolution. [3-0-2] Prerequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
BIOL_V 337-201	BIOL_V	337	201	Introductory Genetics Laboratory	W2	A laboratory course demonstrating the fundamental principles of inheritance: Mendel's Laws, sex-linkage, mapping, mutagenesis, chromosome structure, developmental biology, biochemical and population genetics. [1-4-0] Prerequisite: BIOL 200. Corequisite: One of BIOL 233, BIOL 234.	In Person Learning	Tue Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 337-202	BIOL_V	337	202	Introductory Genetics Laboratory	W2	A laboratory course demonstrating the fundamental principles of inheritance: Mendel's Laws, sex-linkage, mapping, mutagenesis, chromosome structure, developmental biology, biochemical and population genetics. [1-4-0] Prerequisite: BIOL 200. Corequisite: One of BIOL 233, BIOL 234.	In Person Learning	Wed Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 338-101	BIOL_V	338	101	Introduction to Genomics	W1	An introduction to genome biology and applications of genomics. [3-0-1.5] Prerequisite: One of BIOL 234, BIOL 233, FRST 302.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 338-T01	BIOL_V	338	T01	Introduction to Genomics	W1	An introduction to genome biology and applications of genomics. [3-0-1.5] Prerequisite: One of BIOL 234, BIOL 233, FRST 302.	In Person Learning	Wed	11:00 a.m. - 12:30 p.m.
BIOL_V 338-T02	BIOL_V	338	T02	Introduction to Genomics	W1	An introduction to genome biology and applications of genomics. [3-0-1.5] Prerequisite: One of BIOL 234, BIOL 233, FRST 302.	In Person Learning	Wed	12:30 p.m. - 2:00 p.m.
BIOL_V 338-T03	BIOL_V	338	T03	Introduction to Genomics	W1	An introduction to genome biology and applications of genomics. [3-0-1.5] Prerequisite: One of BIOL 234, BIOL 233, FRST 302.	In Person Learning	Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 338-T04	BIOL_V	338	T04	Introduction to Genomics	W1	An introduction to genome biology and applications of genomics. [3-0-1.5] Prerequisite: One of BIOL 234, BIOL 233, FRST 302.	In Person Learning	Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 340-201	BIOL_V	340	201	Introductory Cell Biology Laboratory	W2	Designing and conducting cell biology experiments using unicellular eukaryotes or prokaryotes with emphasis on techniques in microscopy and cell biology. [1-6-0] Prerequisite: BIOL 200 and at least 3rd-year standing in Science and one of (a) BIOL 180 (or BIOL 140), or (b) SCIE 001, or (c) 3rd-year standing in Combined Honours Biophysics.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
BIOL_V 340-L01	BIOL_V	340	L01	Introductory Cell Biology Laboratory	W2	Designing and conducting cell biology experiments using unicellular eukaryotes or prokaryotes with emphasis on techniques in microscopy and cell biology. [1-6-0] Prerequisite: BIOL 200 and at least 3rd-year standing in Science and one of (a) BIOL 180 (or BIOL 140), or (b) SCIE 001, or (c) 3rd-year standing in Combined Honours Biophysics.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.

BIOL_V 344-101	BIOL_V	344	101	Human Heredity and Evolution	W1	Relates genetic and evolutionary concepts to humans. Primarily for upper-level students in the Faculty of Arts. Credit will be granted for only one of BIOL 121 or BIOL 344. Not open to students in the Life Sciences. [3-0-2]	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
BIOL_V 344-T50	BIOL_V	344	T50	Human Heredity and Evolution	W1	Relates genetic and evolutionary concepts to humans. Primarily for upper-level students in the Faculty of Arts. Credit will be granted for only one of BIOL 121 or BIOL 344. Not open to students in the Life Sciences. [3-0-2]	In Person Learning	Mon	3:00 p.m. - 5:00 p.m.
BIOL_V 344-T52	BIOL_V	344	T52	Human Heredity and Evolution	W1	Relates genetic and evolutionary concepts to humans. Primarily for upper-level students in the Faculty of Arts. Credit will be granted for only one of BIOL 121 or BIOL 344. Not open to students in the Life Sciences. [3-0-2]	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
BIOL_V 345-201	BIOL_V	345	201	Human Ecology	W2	Basics of ecology are introduced, focussing on observations of the natural world. Assignments, including a group project, consider connections between research, awareness and practical uses of ecology. Not for credit in the Life Sciences. [3-0-2]	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 346-201	BIOL_V	346	201	Microbes and Society	W2	An elementary course in molecular biology primarily for Arts students. The historical development of recent discoveries in molecular biology with emphasis on bacteria and viruses and their interaction with humans. (Consult the Credit Exclusion list within the Faculty of Science section of the Calendar.) Not for credit in Life Sciences. [3-0-0]	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 347-101	BIOL_V	347	101	Principles and Methodology in Biological Research	W1	Contemporary research in the Botany and Zoology Departments; history and methodology of scientific discovery; seminars on current problems. Restricted to Honours students in Biology. Not to be taken concurrently with BIOL 449. [2-3-0]	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 348-201	BIOL_V	348	201	Biology of Cannabis	W2	Biological aspects of cannabis, including structure and function, photosynthesis, plant growth, specialized metabolites, neuroscience and the human endocannabinoid system, and applications for human use in medicine, consumer products and textiles. [3-0-0] Prerequisite: A minimum of 3rd year standing.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 350-101	BIOL_V	350	101	Darwinian Medicine	W1	Using the Darwinian theory of natural selection to explore explanations of infectious diseases, allergies, cancer, mental illness, and other human diseases. Please consult the Faculty of Science Credit Exclusion Lists: <a href="http://www.vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">www.vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [2-0-2] Prerequisite: Third-year standing. Equivalency: ISCI 350	In Person Learning	Arranged	Arranged
BIOL_V 350-201	BIOL_V	350	201	Darwinian Medicine	W2	Using the Darwinian theory of natural selection to explore explanations of infectious diseases, allergies, cancer, mental illness, and other human diseases. Please consult the Faculty of Science Credit Exclusion Lists: <a href="http://www.vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">www.vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [2-0-2] Prerequisite: Third-year standing. Equivalency: ISCI 350	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
BIOL_V 351-101	BIOL_V	351	101	Plant Physiology I	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. Restricted to Majors and Honours students in Biology. [3-3-0] Prerequisite: Either (a) BIOL 121 and one of CHEM 123, CHEM 130; or (b) SCIE 001. CHEM 233 is recommended. Equivalency: APBI351, FRST311	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 351-L10	BIOL_V	351	L10	Plant Physiology I	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. Restricted to Majors and Honours students in Biology. [3-3-0] Prerequisite: Either (a) BIOL 121 and one of CHEM 123, CHEM 130; or (b) SCIE 001. CHEM 233 is recommended. Equivalency: APBI351, FRST311	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 351-L11	BIOL_V	351	L11	Plant Physiology I	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. Restricted to Majors and Honours students in Biology. [3-3-0] Prerequisite: Either (a) BIOL 121 and one of CHEM 123, CHEM 130; or (b) SCIE 001. CHEM 233 is recommended. Equivalency: APBI351, FRST311	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 351-L12	BIOL_V	351	L12	Plant Physiology I	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. Restricted to Majors and Honours students in Biology. [3-3-0] Prerequisite: Either (a) BIOL 121 and one of CHEM 123, CHEM 130; or (b) SCIE 001. CHEM 233 is recommended. Equivalency: APBI351, FRST311	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 351-L13	BIOL_V	351	L13	Plant Physiology I	W1	Mechanisms and regulation of functional processes contributing to the assimilation, transport and utilization of water, mineral nutrients and carbon by plants. Restricted to Majors and Honours students in Biology. [3-3-0] Prerequisite: Either (a) BIOL 121 and one of CHEM 123, CHEM 130; or (b) SCIE 001. CHEM 233 is recommended. Equivalency: APBI351, FRST311	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 352-201	BIOL_V	352	201	Plant Physiology II: Plant Development	W2	Introduction to the processes involved in growth and development: cell division, tissue culture, meristems, differentiation, and the action of major growth regulators, and photomorphogenesis. Emphasis on experimental approaches. [2-3-1] Prerequisite: Either (a) BIOL 200 and one of BIOL 233, BIOL 234; or (b) FRST 302. CHEM 233 is recommended.	In Person Learning	Mon Wed	10:00 a.m. - 11:00 a.m.
BIOL_V 352-L21	BIOL_V	352	L21	Plant Physiology II: Plant Development	W2	Introduction to the processes involved in growth and development: cell division, tissue culture, meristems, differentiation, and the action of major growth regulators, and photomorphogenesis. Emphasis on experimental approaches. [2-3-1] Prerequisite: Either (a) BIOL 200 and one of BIOL 233, BIOL 234; or (b) FRST 302. CHEM 233 is recommended.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 352-L22	BIOL_V	352	L22	Plant Physiology II: Plant Development	W2	Introduction to the processes involved in growth and development: cell division, tissue culture, meristems, differentiation, and the action of major growth regulators, and photomorphogenesis. Emphasis on experimental approaches. [2-3-1] Prerequisite: Either (a) BIOL 200 and one of BIOL 233, BIOL 234; or (b) FRST 302. CHEM 233 is recommended.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 352-L23	BIOL_V	352	L23	Plant Physiology II: Plant Development	W2	Introduction to the processes involved in growth and development: cell division, tissue culture, meristems, differentiation, and the action of major growth regulators, and photomorphogenesis. Emphasis on experimental approaches. [2-3-1] Prerequisite: Either (a) BIOL 200 and one of BIOL 233, BIOL 234; or (b) FRST 302. CHEM 233 is recommended.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 352-L24	BIOL_V	352	L24	Plant Physiology II: Plant Development	W2	Introduction to the processes involved in growth and development: cell division, tissue culture, meristems, differentiation, and the action of major growth regulators, and photomorphogenesis. Emphasis on experimental approaches. [2-3-1] Prerequisite: Either (a) BIOL 200 and one of BIOL 233, BIOL 234; or (b) FRST 302. CHEM 233 is recommended.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.

BIOL_V 352-T21	BIOL_V	352	T21	Plant Physiology II: Plant Development	W2	Introduction to the processes involved in growth and development: cell division, tissue culture, meristems, differentiation, and the action of major growth regulators, and photomorphogenesis. Emphasis on experimental approaches. [2-3-1] Prerequisite: Either (a) BIOL 200 and one of BIOL 233, BIOL 234; or (b) FRST 302, CHEM 233 is recommended.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
BIOL_V 362-201	BIOL_V	362	201	Cellular Dynamics	W2	The cytoskeleton, cell dynamics, and regulation of cellular activities. Preference will be given to Majors or Honours students in Biology and Combined Honours Biophysics. [3-0-0] Prerequisite: BIOL 200 and one of APBI 312, APBI 351, BIOL 260, BIOL 351, BIOL 352, BIOL 361, FRST 311.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 363-101	BIOL_V	363	101	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
BIOL_V 363-201	BIOL_V	363	201	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
BIOL_V 363-L01	BIOL_V	363	L01	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Tue	1:00 p.m. - 4:00 p.m.
BIOL_V 363-L02	BIOL_V	363	L02	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
BIOL_V 363-L03	BIOL_V	363	L03	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Thu	1:00 p.m. - 4:00 p.m.
BIOL_V 363-L04	BIOL_V	363	L04	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Fri	1:00 p.m. - 4:00 p.m.
BIOL_V 363-L11	BIOL_V	363	L11	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Tue	1:00 p.m. - 4:00 p.m.
BIOL_V 363-L12	BIOL_V	363	L12	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
BIOL_V 363-L13	BIOL_V	363	L13	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Thu	1:00 p.m. - 4:00 p.m.
BIOL_V 363-L14	BIOL_V	363	L14	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Fri	1:00 p.m. - 4:00 p.m.
BIOL_V 363-T01	BIOL_V	363	T01	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
BIOL_V 363-T02	BIOL_V	363	T02	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
BIOL_V 363-T03	BIOL_V	363	T03	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Thu	4:00 p.m. - 5:00 p.m.
BIOL_V 363-T04	BIOL_V	363	T04	Laboratory in Animal Physiology	W1	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
BIOL_V 363-T11	BIOL_V	363	T11	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
BIOL_V 363-T12	BIOL_V	363	T12	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
BIOL_V 363-T13	BIOL_V	363	T13	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Thu	4:00 p.m. - 5:00 p.m.
BIOL_V 363-T14	BIOL_V	363	T14	Laboratory in Animal Physiology	W2	Experimental studies in animal physiology. Restricted to Majors and Honours students in Biology, Nutritional Sciences and Combined Honours Biophysics. Recommended co-requisites: one of BIOL 361, BIOL 370, BIOL 371. [1-3-1] Prerequisite: BIOL 204.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
BIOL_V 364-201	BIOL_V	364	201	Comparative Cardiovascular, Respiratory and Osmoregulatory Physiology	W2	Cardiovascular, respiratory, and osmoregulatory physiology. Preference will be given to students who are in Biology, Nutritional Sciences, and Combined Honours Biophysics. [3-0-0] Prerequisite: BIOL 204 and one of BIOL 260, BIOL 361. Equivalency: APBI 311	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 370-101	BIOL_V	370	101	Principles of Muscle Physiology and Energetics	W1	Introduction to the structure and function of the muscular system, metabolism and energetics from a comparative perspective across vertebrates and invertebrates. [3-0-0] Prerequisite: BIOL 260 and one of BIOL 200, BIOL 201, BIOC 202, BIOC 203.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.

BIOL_V 371-101	BIOL_V	371	101	Principles of Neurobiology I	W1	Introduction to the structure and function of the nervous system, excitable membranes, and synaptic signalling using representative vertebrate and invertebrate species. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0] Prerequisite: BIOL 200 and one of BIOL 260, NSCI 200, PSYC 270, PSYC 271, PSYC 304, CAPS 301.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 371-201	BIOL_V	371	201	Principles of Neurobiology I	W2	Introduction to the structure and function of the nervous system, excitable membranes, and synaptic signalling using representative vertebrate and invertebrate species. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0] Prerequisite: BIOL 200 and one of BIOL 260, NSCI 200, PSYC 270, PSYC 271, PSYC 304, CAPS 301.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 372-101	BIOL_V	372	101	Principles of Neurobiology II	W1	Examination of the neural systems underlying sensation, action, and complex behaviours using representative vertebrate and invertebrate species. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0] Prerequisite: BIOL 371.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 372-201	BIOL_V	372	201	Principles of Neurobiology II	W2	Examination of the neural systems underlying sensation, action, and complex behaviours using representative vertebrate and invertebrate species. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0] Prerequisite: BIOL 371.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BIOL_V 398-510	BIOL_V	398	510	Co-operative Work Placement I	W1	Work experience in an industrial setting, taken during Winter Session (Term 2) of third year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOL_V 398-610	BIOL_V	398	610	Co-operative Work Placement I	W2	Work experience in an industrial setting, taken during Winter Session (Term 2) of third year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOL_V 399-510	BIOL_V	399	510	Co-operative Work Placement II	W1	Work experience in an industrial research setting, taken during Summer Session (Terms 1 and 2) following third year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: [BIOL398]	In Person Learning	Arranged	Arranged
BIOL_V 399-610	BIOL_V	399	610	Co-operative Work Placement II	W2	Work experience in an industrial research setting, taken during Summer Session (Terms 1 and 2) following third year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: [BIOL398]	In Person Learning	Arranged	Arranged
BIOL_V 402-101	BIOL_V	402	101	Aquatic Ecology	W1	Theoretical and applied limnology; ecology of inland water organisms in relation to physical, chemical and biological factors. One weekend field trip required. [2-4-0] Prerequisite: BIOL 230 and one of BIOL 300, STAT 200.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 402-L01	BIOL_V	402	L01	Aquatic Ecology	W1	Theoretical and applied limnology; ecology of inland water organisms in relation to physical, chemical and biological factors. One weekend field trip required. [2-4-0] Prerequisite: BIOL 230 and one of BIOL 300, STAT 200.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
BIOL_V 403-201	BIOL_V	403	201	Microbial Ecology	W2	Theoretical and applied ecology of microbes. Focus on microbial symbionts of animals, plants and seaweeds. Research project development through critical analysis of microbial ecological literature and computational analysis of ecological data. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: One of BIOL 121, SCIE 001, BIOL 230 and one of BIOL 300, FRST 231, STAT 200. Fourth-year standing.	In Person Learning	Mon Wed	11:00 a.m. - 12:00 p.m.
BIOL_V 403-L01	BIOL_V	403	L01	Microbial Ecology	W2	Theoretical and applied ecology of microbes. Focus on microbial symbionts of animals, plants and seaweeds. Research project development through critical analysis of microbial ecological literature and computational analysis of ecological data. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: One of BIOL 121, SCIE 001, BIOL 230 and one of BIOL 300, FRST 231, STAT 200. Fourth-year standing.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 404-201	BIOL_V	404	201	Ecological Methodology	W2	Design, execution, and analysis of ecological surveys and experiments. Practical field methods for estimating population metrics and describing community structure. Computer techniques for the statistical analysis of ecological data. [2-4-0] Prerequisite: BIOL 230 and one of BIOL 300, STAT 200.	In Person Learning	Mon Wed	1:00 p.m. - 2:00 p.m.
BIOL_V 404-L01	BIOL_V	404	L01	Ecological Methodology	W2	Design, execution, and analysis of ecological surveys and experiments. Practical field methods for estimating population metrics and describing community structure. Computer techniques for the statistical analysis of ecological data. [2-4-0] Prerequisite: BIOL 230 and one of BIOL 300, STAT 200.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 404-L02	BIOL_V	404	L02	Ecological Methodology	W2	Design, execution, and analysis of ecological surveys and experiments. Practical field methods for estimating population metrics and describing community structure. Computer techniques for the statistical analysis of ecological data. [2-4-0] Prerequisite: BIOL 230 and one of BIOL 300, STAT 200.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 406-201	BIOL_V	406	201	Plant Ecology I	W2	Plant community ecology including a consideration of the major approaches to sampling, analyzing and interpreting vegetation patterns. Instruction given in field work and computer analysis of field data. [3-3-0] Prerequisite: BIOL 230. BIOL 324 is recommended.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 406-L01	BIOL_V	406	L01	Plant Ecology I	W2	Plant community ecology including a consideration of the major approaches to sampling, analyzing and interpreting vegetation patterns. Instruction given in field work and computer analysis of field data. [3-3-0] Prerequisite: BIOL 230. BIOL 324 is recommended.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
BIOL_V 406-L02	BIOL_V	406	L02	Plant Ecology I	W2	Plant community ecology including a consideration of the major approaches to sampling, analyzing and interpreting vegetation patterns. Instruction given in field work and computer analysis of field data. [3-3-0] Prerequisite: BIOL 230. BIOL 324 is recommended.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
BIOL_V 411-101	BIOL_V	411	101	Insect Ecology	W1	Behavioural, population and community ecology of insects. Interactions between insects and plants and the application of the principles of insect ecology to biological control of insects and weeds. [3-0-0] Prerequisite: One of BIOL 205, BIOL 327, APBI 327. Equivalency: APBI 427	In Person Learning	Arranged	Arranged
BIOL_V 411-201	BIOL_V	411	201	Insect Ecology	W1	Behavioural, population and community ecology of insects. Interactions between insects and plants and the application of the principles of insect ecology to biological control of insects and weeds. [3-0-0] Prerequisite: One of BIOL 205, BIOL 327, APBI 327. Equivalency: APBI 427	In Person Learning	Arranged	Arranged
BIOL_V 412-201	BIOL_V	412	201	Phytogeography	W2	Description and interpretation of present and past floristic vegetational patterns; integration of evolutionary, ecological, and phytogeographical concepts. Terrestrial and aquatic plants are considered. Restricted to students of third and fourth years. [3-0-0] Prerequisite: BIOL 121	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.

BIOL_V 415-101	BIOL_V	415	101	Evolutionary Processes in Plants	W1	Experimental and comparative analysis of evolutionary processes, speciation, and phylogenetic patterns in plants. [2-0-0] Prerequisite: BIOL 336.	In Person Learning	Tue Thu	10:00 a.m. - 11:00 a.m.
BIOL_V 415-T01	BIOL_V	415	T01	Evolutionary Processes in Plants	W1	Experimental and comparative analysis of evolutionary processes, speciation, and phylogenetic patterns in plants. [2-0-0] Prerequisite: BIOL 336.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
BIOL_V 416-201	BIOL_V	416	201	Principles of Conservation Biology	W2	Ecological basis of conserving biological diversity and ecosystem services; application of ecological theory to global and local conservation problems in the context of economic, legal, political, and social perspectives. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [2-0-2] Prerequisite: One of BIOL 230, FRST 201.	In Person Learning	Mon Wed	9:00 a.m. - 10:00 a.m.
BIOL_V 416-202	BIOL_V	416	202	Principles of Conservation Biology	W2	Ecological basis of conserving biological diversity and ecosystem services; application of ecological theory to global and local conservation problems in the context of economic, legal, political, and social perspectives. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [2-0-2] Prerequisite: One of BIOL 230, FRST 201.	In Person Learning	Arranged	Arranged
BIOL_V 416-T01	BIOL_V	416	T01	Principles of Conservation Biology	W2	Ecological basis of conserving biological diversity and ecosystem services; application of ecological theory to global and local conservation problems in the context of economic, legal, political, and social perspectives. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [2-0-2] Prerequisite: One of BIOL 230, FRST 201.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 416-T02	BIOL_V	416	T02	Principles of Conservation Biology	W2	Ecological basis of conserving biological diversity and ecosystem services; application of ecological theory to global and local conservation problems in the context of economic, legal, political, and social perspectives. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [2-0-2] Prerequisite: One of BIOL 230, FRST 201.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BIOL_V 417-101	BIOL_V	417	101	Phylogenetic Biology	W1	Biodiversity from an evolutionary perspective. The evolutionary (phylogenetic) tree of genetic descent that links all organisms: its reconstruction, interpretation, and implications for fields from ecology to molecular biology. [2-0-2] Prerequisite: BIOL 200 and one of BIOL 233, BIOL 234. BIOL 336 is recommended.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 417-L01	BIOL_V	417	L01	Phylogenetic Biology	W1	Biodiversity from an evolutionary perspective. The evolutionary (phylogenetic) tree of genetic descent that links all organisms: its reconstruction, interpretation, and implications for fields from ecology to molecular biology. [2-0-2] Prerequisite: BIOL 200 and one of BIOL 233, BIOL 234. BIOL 336 is recommended.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 418-101	BIOL_V	418	101	Evolutionary Ecology	W1	Ecological adaptation and evolutionary processes in contemporary populations; natural selection, variation, optimization, foraging theory, coevolution, arms races; life history theory, evolution of sex, sexual selection, evolution in managed populations. [2-2-0] Prerequisite: BIOL 336 and BIOL 230.	In Person Learning	Arranged	Arranged
BIOL_V 418-T01	BIOL_V	418	T01	Evolutionary Ecology	W1	Ecological adaptation and evolutionary processes in contemporary populations; natural selection, variation, optimization, foraging theory, coevolution, arms races; life history theory, evolution of sex, sexual selection, evolution in managed populations. [2-2-0] Prerequisite: BIOL 336 and BIOL 230.	In Person Learning	Arranged	Arranged
BIOL_V 420-201	BIOL_V	420	201	Ocean Conservation and Sustainability	W2	An interdisciplinary conservation course with a solutions-oriented approach to marine issues, drawing from natural sciences, social sciences, business, law, and communication. This course is not eligible for Credit/D/Fail grading. [2-0-3] Prerequisite: Fourth-year standing.	In Person Learning	Tue Thu	10:00 a.m. - 11:00 a.m.
BIOL_V 420-T01	BIOL_V	420	T01	Ocean Conservation and Sustainability	W2	An interdisciplinary conservation course with a solutions-oriented approach to marine issues, drawing from natural sciences, social sciences, business, law, and communication. This course is not eligible for Credit/D/Fail grading. [2-0-3] Prerequisite: Fourth-year standing.	In Person Learning	Thu	11:00 a.m. - 2:00 p.m.
BIOL_V 421-101	BIOL_V	421	101	Plant-Microbe Interactions	W1	Biology and physiology of selected plant-microbe relationships. Impacts of plant-microbe relationships on society. [3-0-2] Prerequisite: BIOL 200 and one of BIOC 202, BIOC 203, BIOL 201, BIOL 233, BIOL 234, BIOL 260. Equivalency: APBI 426	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BIOL_V 421-T01	BIOL_V	421	T01	Plant-Microbe Interactions	W1	Biology and physiology of selected plant-microbe relationships. Impacts of plant-microbe relationships on society. [3-0-2] Prerequisite: BIOL 200 and one of BIOC 202, BIOC 203, BIOL 201, BIOL 233, BIOL 234, BIOL 260. Equivalency: APBI 426	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
BIOL_V 424-201	BIOL_V	424	201	Tropical Ecology and Conservation	W2	Ecology, function, history and conservation of tropical systems. Focus on ecological and evolutionary principles using tropical landscapes as a geographic template. Assessment of factors that make tropical systems vulnerable to degradation. Research project development using analysis of tropical ecology literature. [2-0-2] Prerequisite: BIOL 121 and one of BIOL 230, FRST 201, GEOS 207, GEOB 207.	In Person Learning	Mon Wed	11:00 a.m. - 12:00 p.m.
BIOL_V 424-L01	BIOL_V	424	L01	Tropical Ecology and Conservation	W2	Ecology, function, history and conservation of tropical systems. Focus on ecological and evolutionary principles using tropical landscapes as a geographic template. Assessment of factors that make tropical systems vulnerable to degradation. Research project development using analysis of tropical ecology literature. [2-0-2] Prerequisite: BIOL 121 and one of BIOL 230, FRST 201, GEOS 207, GEOB 207.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 427-101	BIOL_V	427	101	Ornithology and Herpetology	W1	Ecology, evolution, behavior, and conservation of birds, amphibians, and reptiles. Laboratories and field projects will focus on identification, systematics, and natural history, with particular attention to species from British Columbia. [2-3-0] Prerequisite: BIOL 121.	In Person Learning	Mon Wed	9:00 a.m. - 10:00 a.m.
BIOL_V 427-L01	BIOL_V	427	L01	Ornithology and Herpetology	W1	Ecology, evolution, behavior, and conservation of birds, amphibians, and reptiles. Laboratories and field projects will focus on identification, systematics, and natural history, with particular attention to species from British Columbia. [2-3-0] Prerequisite: BIOL 121.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 427-L02	BIOL_V	427	L02	Ornithology and Herpetology	W1	Ecology, evolution, behavior, and conservation of birds, amphibians, and reptiles. Laboratories and field projects will focus on identification, systematics, and natural history, with particular attention to species from British Columbia. [2-3-0] Prerequisite: BIOL 121.	In Person Learning	Tue	3:00 p.m. - 6:00 p.m.
BIOL_V 428-101	BIOL_V	428	101	Evolutionary Morphology of Marine Invertebrates	W1	Comparative analysis of marine invertebrate morphology from a macroevolutionary perspective. Origin and evolution of reoccurring adaptations in meiofaunal, benthic, pelagic, and deep-sea invertebrates, including their larval stages. [3-0-0] Prerequisite: BIOL 205 And third-year standing.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.

BIOL_V 430-201	BIOL_V	430	201	Genome Evolution	W2	Integration of molecular genetics and genomics with evolutionary biology. Emphasis on the evolutionary dynamics of genomes and the evolutionary implications of recent discoveries in molecular genetics and genomics. [3-0-0] Prerequisite: One of BIOL 335, BIOL 336, BIOL 338.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 430-202	BIOL_V	430	202	Genome Evolution	W2	Integration of molecular genetics and genomics with evolutionary biology. Emphasis on the evolutionary dynamics of genomes and the evolutionary implications of recent discoveries in molecular genetics and genomics. [3-0-0] Prerequisite: One of BIOL 335, BIOL 336, BIOL 338.	In Person Learning	Arranged	Arranged
BIOL_V 431-101	BIOL_V	431	101	Evolutionary Cell Biology	W1	Ultrastructure, biogenesis, and evolution of eukaryotic cells and cell organelles, including their macromolecular basis. [3-0-0] Prerequisite: BIOL200 And fourth-year standing.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 432-201	BIOL_V	432	201	Research Strategies and Techniques in Cell Biology	W2	Major physiological mechanisms that define eukaryotic cells, explored through student visits to UBC research laboratories and discussion of recent scientific literature, with emphasis on the techniques and strategies that enable researchers to test hypotheses and advance new concepts. [3-0-0] Prerequisite: BIOL 200 and one of BIOL 233, BIOL 234. And fourth-year standing.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 433-201	BIOL_V	433	201	Plant Genetics	W2	Emphasis on molecular aspects. Systems and techniques for genetic analysis in plants; isolation and regulation of plant genes; genetic dissection of plant-specific processes; transposable elements; gene transfer in plants; cytoplasmic inheritance; genetic engineering. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0] Prerequisite: BIOL 335	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 434-201	BIOL_V	434	201	Population Genetics	W2	Theoretical and experimental aspects of population and quantitative genetics. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-2] Prerequisite: BIOL 336 and either (a) BIOL 200 and one of BIOL 233, BIOL 234; or (b) FRST 302.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 436-101	BIOL_V	436	101	Integrated Functional Genomics	W1	Global transcript, protein, and metabolite profiling technologies and their integration; applications focus on plant functions and plant interactions with pathogens and pests. [3-0-0] Prerequisite: One of BIOL 335, BIOL 338. Equivalency: FMH 436	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 437-101	BIOL_V	437	101	Laboratory in Animal Cell Molecular Biology	W1	The use of recombinant DNA techniques to explore problems in animal developmental biology. [2-4-0] Prerequisite: All of BIOL 331, BIOL 335 and one of BIOL 201, BIOL 202, BIOL 203.	In Person Learning	Thu	10:00 a.m. - 4:00 p.m.
BIOL_V 438-201	BIOL_V	438	201	Zoological Physics	W2	Animal systems viewed from a physicist's perspective. Topics include sensory systems, energy budgets, locomotion, internal flows, physical advantages of grouping. [3-0-0] Prerequisite: One of PHYS 101, PHYS 106, PHYS 107, PHYS 117, PHYS 131, PHYS 157, SCIE 001. BIOL 325 is recommended. Equivalency: PHYS 438	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BIOL_V 439-201	BIOL_V	439	201	Advanced Microscopy Techniques	W2	Microscopy techniques used in biological research. Principles, applications and hands-on training of optical and electron microscopy. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . This course is not eligible for Credit/D/Fail grading. [2-4-0] Prerequisite: BIOL 200. Corequisite: One of BIOL 448, BIOL 449. and Fourth year standing.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
BIOL_V 439-101	BIOL_V	439	101	Advanced Microscopy Techniques	W2	Microscopy techniques used in biological research. Principles, applications and hands-on training of optical and electron microscopy. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . This course is not eligible for Credit/D/Fail grading. [2-4-0] Prerequisite: BIOL 200. Corequisite: One of BIOL 448, BIOL 449. and Fourth year standing.	In Person Learning	Thu	12:30 p.m. - 4:30 p.m.
BIOL_V 440-101	BIOL_V	440	101	Plant Genomics	W1	Concepts, principles, applications, and recent discoveries in genome structure, genetics, and comparative genomics in plants with a focus on economically important plants. [3-0-0] Corequisite: One of BIOL 335, BIOL 338. Equivalency: APBI 440	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
BIOL_V 441-101	BIOL_V	441	101	Advanced Topics in Cell Biology	W1	Analysis of cellular organelles and the intracellular traffic between them, concentrating on mammalian cell systems. [3-0-0] Prerequisite: One of BIOL 340, BIOL 341 and one of BIOL 361, BIOL 362, BIOL 370, BIOL 371.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 445-201	BIOL_V	445	201	Darwin's Fishes	W2	A series of computer-assisted lectures using ichthyology and the work of Charles Darwin to illustrate basic principles of biology, and their practical implementation, i.e., how biologists select research programs, generate and test hypotheses, and present their case to peers and the public. [2-0-2] Prerequisite: Third-year standing in Science is required.	In Person Learning	Wed	9:00 a.m. - 11:00 a.m.
BIOL_V 445-T01	BIOL_V	445	T01	Darwin's Fishes	W2	A series of computer-assisted lectures using ichthyology and the work of Charles Darwin to illustrate basic principles of biology, and their practical implementation, i.e., how biologists select research programs, generate and test hypotheses, and present their case to peers and the public. [2-0-2] Prerequisite: Third-year standing in Science is required.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
BIOL_V 447-101	BIOL_V	447	101	Principles and Methodology in Biological Research	W1	Seminars, debates, workshops and tutorials designed to produce competence in specific areas of Biology. Restricted to Honours students in Biology. [2-3-0] Corequisite: BIOL 449	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 448-A_101	BIOL_V	448	A_101	Directed Studies in Biology	W1	A course designed to allow students to undertake an investigation on a specific topic as agreed upon by the faculty member and the student. Permission of the supervisor required. No more than six credits of BIOL 448 may be taken with the same supervisor. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOL_V 448-A_201	BIOL_V	448	A_201	Directed Studies in Biology	W2	A course designed to allow students to undertake an investigation on a specific topic as agreed upon by the faculty member and the student. Permission of the supervisor required. No more than six credits of BIOL 448 may be taken with the same supervisor. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOL_V 448-B_101	BIOL_V	448	B_101	Directed Studies in Biology	W1	A course designed to allow students to undertake an investigation on a specific topic as agreed upon by the faculty member and the student. Permission of the supervisor required. No more than six credits of BIOL 448 may be taken with the same supervisor. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged

BIOL_V 448-B_201	BIOL_V	448	B	B_201	Directed Studies in Biology	W2	A course designed to allow students to undertake an investigation on a specific topic as agreed upon by the faculty member and the student. Permission of the supervisor required. No more than six credits of BIOL 448 may be taken with the same supervisor. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOL_V 448-D_006	BIOL_V	448	D	D_006	Directed Studies in Biology	W1-2	A course designed to allow students to undertake an investigation on a specific topic as agreed upon by the faculty member and the student. Permission of the supervisor required. No more than six credits of BIOL 448 may be taken with the same supervisor. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOL_V 448-D_106	BIOL_V	448	D	D_106	Directed Studies in Biology	W1	A course designed to allow students to undertake an investigation on a specific topic as agreed upon by the faculty member and the student. Permission of the supervisor required. No more than six credits of BIOL 448 may be taken with the same supervisor. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOL_V 448-D_206	BIOL_V	448	D	D_206	Directed Studies in Biology	W2	A course designed to allow students to undertake an investigation on a specific topic as agreed upon by the faculty member and the student. Permission of the supervisor required. No more than six credits of BIOL 448 may be taken with the same supervisor. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOL_V 449-001	BIOL_V	449		001	Directed Biological Research	W1-2	A course designed to allow students to undertake a research project in selected fields. Open only to Honours students in Biology, with permission of the supervisor. Presentation of a thesis and an oral examination are required. Corequisite: BIOL 447	In Person Learning	Arranged	Arranged
BIOL_V 450-201	BIOL_V	450		201	Molecular Adaptation of Animals to the Environment	W2	Physiological, biochemical, and molecular strategies of adaptation of animals to environmental challenges. The evolution of genetic and biochemical systems, and their impact on animal structure and function. [3-0-0] Prerequisite: One of APBI 311, BIOL 361, BIOL 362, BIOL 364, BIOL 370, BIOL 371 and one of BIOL 201, BIOC 202, BIOC 203. BIOL 457 is recommended.	In Person Learning	Arranged	Arranged
BIOL_V 451-201	BIOL_V	451		201	Comparative Neurobiology	W2	Advanced investigations of the evolution of animal nervous systems, integrating studies of diverse species to understand fundamental neurobiology. [3-0-0] Prerequisite: One of BIOL 371, BIOL 372, CAPS 301, PSYC 304, PSYC 367, PSYC 370.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BIOL_V 453-101	BIOL_V	453		101	Insect Physiology	W1	Physiological adaptations used by insects, including adaptations used to survive in extreme environments. Homeostatic mechanisms, neurophysiology, and experimental techniques. [3-3-0] Prerequisite: One of BIOL 204, BIOL 205, BIOL 327, APBI 327 and one of BIOL 361, BIOL 364, BIOL 370, BIOL 371, APBI 311. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 453-L01	BIOL_V	453		L01	Insect Physiology	W1	Physiological adaptations used by insects, including adaptations used to survive in extreme environments. Homeostatic mechanisms, neurophysiology, and experimental techniques. [3-3-0] Prerequisite: One of BIOL 204, BIOL 205, BIOL 327, APBI 327 and one of BIOL 361, BIOL 364, BIOL 370, BIOL 371, APBI 311. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
BIOL_V 454-201	BIOL_V	454		201	Comparative Animal Physiology	W2	Selected topics in physiology emphasizing comparisons between diverse phylogenetic groups of animals. [3-0-0] Prerequisite: One of APBI 311, BIOL 362, BIOL 364.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 457-101	BIOL_V	457		101	Comparative Environmental Physiology	W1	A survey of physiological adaptations of animals to different environments. [3-0-0] Prerequisite: One of APBI 311, BIOL 364.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 458-101	BIOL_V	458		101	Developmental Neurobiology	W1	Cellular, molecular and physiological aspects of nervous system development with applications to understanding adult nervous system function and neurological disorders. [3-0-0]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 458-201	BIOL_V	458		201	Developmental Neurobiology	W2	Cellular, molecular and physiological aspects of nervous system development with applications to understanding adult nervous system function and neurological disorders. [3-0-0]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 459-201	BIOL_V	459		201	Neurobiology of Sensory and Motor Systems	W2	Analysis of the mechanisms of sensory processing and motor orchestration using vertebrate and invertebrate model systems. Neural circuit structure, specialization, information coding, integration, and behaviour. [3-0-0] Prerequisite: One of BIOL 372, CAPS 301, PSYC 304, PSYC 367, PSYC 370.	In Person Learning	Wed Fri	1:00 p.m. - 2:30 p.m.
BIOL_V 460-101	BIOL_V	460		101	Neurobiology of Vision	W1	Advanced investigation of animal vision; critical analysis of recent literature and research project development in visual neurobiology. [3-0-0] Prerequisite: One of BIOL 372, CAPS 301, PSYC 304, PSYC 367, PSYC 370.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
BIOL_V 462-201	BIOL_V	462		201	Ecological Plant Biochemistry	W2	The structure, biosynthesis, distribution and biological function of secondary plant metabolites. [3-0-0] Prerequisite: BIOL 200, BIOL 201, BIOL 209 or BIOL 210 is recommended. Equivalency: FRST 413	In Person Learning	Wed	8:00 a.m. - 11:00 a.m.
BIOL_V 463-101	BIOL_V	463		101	Gene Regulation in Development	W1	Control of gene expression in development; the genetic and physiological basis of epigenetic determination; inductive interactions. [3-0-0] Prerequisite: Either (a) BIOL 335 and one of BIOL 201, BIOC 202, BIOC 203; or (b) BIOT 380.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BIOL_V 464-201	BIOL_V	464		201	Animal Developmental Genetics	W2	Role of genes in embryonic development. Emphasis on tissue specific expression patterns and the role of genetic networks in establishing cell types. [3-0-0] Prerequisite: BIOL 463	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BIOL_V 465-101	BIOL_V	465		101	Diversity and Evolution of Fishes	W1	Introduction to fish diversity, with a focus on their phylogenetic interrelationships and the evolutionary, ecological, and biogeographic processes involved in generating patterns of fish biodiversity. [2-3-0] Prerequisite: BIOL 204	In Person Learning	Tue Thu	11:00 a.m. - 12:00 p.m.
BIOL_V 465-L01	BIOL_V	465		L01	Diversity and Evolution of Fishes	W1	Introduction to fish diversity, with a focus on their phylogenetic interrelationships and the evolutionary, ecological, and biogeographic processes involved in generating patterns of fish biodiversity. [2-3-0] Prerequisite: BIOL 204	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.

BIOL_V 465-L02	BIOL_V	465		L02	Diversity and Evolution of Fishes	W1	Introduction to fish diversity, with a focus on their phylogenetic interrelationships and the evolutionary, ecological, and biogeographic processes involved in generating patterns of fish biodiversity. [2-3-0] Prerequisite: BIOL 204	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BIOL_V 488-A_201	BIOL_V	488	A	A_201	Topics in Biology	W2	Selected topics in a specific area within Biology. May be taken more than once for credit with permission of the Department. Prerequisite: Third-year standing in a Life Science specialization.	In Person Learning	Mon Wed	2:00 p.m. - 3:00 p.m.
BIOL_V 488-B_101	BIOL_V	488	B	B_101	Topics in Biology	W1	Selected topics in a specific area within Biology. May be taken more than once for credit with permission of the Department. Prerequisite: Third-year standing in a Life Science specialization.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 498-510	BIOL_V	498		510	Co-operative Work Placement III	W2	Work experience in an industrial research setting, taken during the Summer Session (Terms 1 and 2) following fourth year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOL_V 498-610	BIOL_V	498		610	Co-operative Work Placement III	W1	Work experience in an industrial research setting, taken during the Summer Session (Terms 1 and 2) following fourth year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOL_V 499-510	BIOL_V	499		510	Co-operative Work Placement IV	W2	Work experience in an industrial research setting, taken during the Winter Session (Terms 1 and 2) following fourth year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOL 399, BIOL 498	In Person Learning	Arranged	Arranged
BIOL_V 499-610	BIOL_V	499		610	Co-operative Work Placement IV	W1	Work experience in an industrial research setting, taken during the Winter Session (Terms 1 and 2) following fourth year. Restricted to students admitted to the Co-operative Education Program in Biology. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOL 399, BIOL 498	In Person Learning	Arranged	Arranged
BIOL_V 501-201	BIOL_V	501		201	Quantitative Methods in Ecology and Evolution	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOL 300 or equivalent and graduate student standing.	In Person Learning	Tue Thu	1:00 p.m. - 3:00 p.m.
BIOL_V 503-201	BIOL_V	503		201	Microbial Ecology	W2	Theoretical and applied ecology of microbes. Focus on microbial symbionts of animals, plants and seaweeds. Critical analysis of microbial ecological literature and computational analysis of ecological data. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . This course is not eligible for Credit/D/Fail grading. [2-3-0]	In Person Learning	Mon Wed	11:00 a.m. - 12:00 p.m.
BIOL_V 503-L01	BIOL_V	503		L01	Microbial Ecology	W2	Theoretical and applied ecology of microbes. Focus on microbial symbionts of animals, plants and seaweeds. Critical analysis of microbial ecological literature and computational analysis of ecological data. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . This course is not eligible for Credit/D/Fail grading. [2-3-0]	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
BIOL_V 509-201	BIOL_V	509		201	Population and Quantitative Genetics	W2	Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
BIOL_V 525-D_101	BIOL_V	525	D	D_101	Topics in Systematics and Evolution	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Thu Fri	10:00 a.m. - 4:00 p.m.
BIOL_V 530-101	BIOL_V	530		101	The Biology of the Cell	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
BIOL_V 533-201	BIOL_V	533		201	Plant Genetics	W2	Emphasis on molecular aspects. Systems and techniques for genetic analysis in plants; isolation and regulation of plant genes; genetic dissection of plant-specific processes; transposable elements; gene transfer in plants; cytoplasmic inheritance; genetic engineering. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: BIOL 335.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BIOL_V 535-101	BIOL_V	535		101	Teaching and Learning in the Life Sciences	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BIOL_V 537-101	BIOL_V	537		101	Topics in Biotechnology	W1	Research reviews, class discussions, and presentations about current research in the diverse areas of biotechnology. Topics include the research interests of members of the UBC Biotechnology Laboratory. This course is not eligible for Credit/D/Fail grading. [1.5-0]	In Person Learning	Wed	3:00 p.m. - 6:00 p.m.
BIOL_V 539-201	BIOL_V	539		201	Advanced Microscopy Techniques	W2	Microscopy techniques used in biological research. Principles, applications and hands-on training of optical and electron microscopy. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> This course is not eligible for Credit/D/Fail grading. [2-4-0]	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
BIOL_V 539-L01	BIOL_V	539		L01	Advanced Microscopy Techniques	W2	Microscopy techniques used in biological research. Principles, applications and hands-on training of optical and electron microscopy. Please consult the Faculty of Science Credit Exclusion Lists: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> This course is not eligible for Credit/D/Fail grading. [2-4-0]	In Person Learning	Thu	12:30 p.m. - 4:30 p.m.
BIOL_V 548-B_101	BIOL_V	548	B	B_101	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
BIOL_V 548-E_101	BIOL_V	548	E	E_101	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Tue	1:00 p.m. - 2:30 p.m.

BIOL_V 548-S_201	BIOL_V	548	S	S_201	Advanced Topics in Biology	W2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Mon	1:30 p.m. - 3:00 p.m.
BIOL_V 548-S_202	BIOL_V	548	S	S_202	Advanced Topics in Biology	W2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Wed	1:30 p.m. - 3:00 p.m.
BIOL_V 548-T_101	BIOL_V	548	T	T_101	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Tue	8:00 a.m. - 9:30 a.m.
BIOL_V 548-T_102	BIOL_V	548	T	T_102	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Thu	8:00 a.m. - 9:30 a.m.
BIOL_V 548-U_101	BIOL_V	548	U	U_101	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Tue	10:00 a.m. - 11:30 a.m.
BIOL_V 548-U_102	BIOL_V	548	U	U_102	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Thu	10:00 a.m. - 11:30 a.m.
BIOL_V 548-V_101	BIOL_V	548	V	V_101	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Tue	10:00 a.m. - 11:30 a.m.
BIOL_V 548-V_102	BIOL_V	548	V	V_102	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Thu	10:00 a.m. - 11:30 a.m.
BIOL_V 548-W_101	BIOL_V	548	W	W_101	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Tue	8:00 a.m. - 9:30 a.m.
BIOL_V 548-W_102	BIOL_V	548	W	W_102	Advanced Topics in Biology	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	Online Learning	Thu	8:00 a.m. - 9:30 a.m.
BIOT_V 280-001	BIOT_V	280		001	Introductory Biotechnology	W1-2	Block registration for the biotechnology, microbiology, physiology, communication for biotechnology, organic chemistry, information technology, plant anatomy, plant physiology and cell biology courses taken in the Joint BCIT/UBC Degree in Biotechnology. Credit limited to students in the Joint Degree Program.	In Person Learning	Arranged	Arranged
BIOT_V 380-001	BIOT_V	380		001	Advanced Biotechnology	W1-2	Block registration for the microbiology, molecular genetics, biochemistry, management and regulatory affairs, process systems, analytical chemistry and communication courses taken in the BCIT/UBC Joint Degree in Biotechnology. Credit limited to students in the Joint Degree Program.	In Person Learning	Arranged	Arranged
BMEG_V 101-201	BMEG_V	101		201	Introduction to Biomedical Engineering	W2	Foundational material spanning the four streams of the BMEG undergraduate program. Topics include: sensors and instrumentation; biosignals; physiological modeling; biomechanics; biomaterials; cellular engineering; regenerative medicine; and engineering design in these contexts. [3-0-2*] Prerequisite: APSC 100. Corequisite: BMEG 102.	In Person Learning	Mon Wed Fri	8:00 a.m. - 9:00 a.m.
BMEG_V 101-9AR	BMEG_V	101		9AR	Introduction to Biomedical Engineering	W2	Foundational material spanning the four streams of the BMEG undergraduate program. Topics include: sensors and instrumentation; biosignals; physiological modeling; biomechanics; biomaterials; cellular engineering; regenerative medicine; and engineering design in these contexts. [3-0-2*] Prerequisite: APSC 100. Corequisite: BMEG 102.	In Person Learning	Arranged	Arranged
BMEG_V 101-T2A	BMEG_V	101		T2A	Introduction to Biomedical Engineering	W2	Foundational material spanning the four streams of the BMEG undergraduate program. Topics include: sensors and instrumentation; biosignals; physiological modeling; biomechanics; biomaterials; cellular engineering; regenerative medicine; and engineering design in these contexts. [3-0-2*] Prerequisite: APSC 100. Corequisite: BMEG 102.	In Person Learning	Wed (Alternate weeks)	5:00 p.m. - 7:00 p.m.
BMEG_V 101-T2B	BMEG_V	101		T2B	Introduction to Biomedical Engineering	W2	Foundational material spanning the four streams of the BMEG undergraduate program. Topics include: sensors and instrumentation; biosignals; physiological modeling; biomechanics; biomaterials; cellular engineering; regenerative medicine; and engineering design in these contexts. [3-0-2*] Prerequisite: APSC 100. Corequisite: BMEG 102.	In Person Learning	Wed (Alternate weeks)	5:00 p.m. - 7:00 p.m.
BMEG_V 102-201	BMEG_V	102		201	Biomedical Engineering Lab	W2	Rapid prototyping of mechanical, electrical and electromechanical systems. Building parts with state of the art software and 3-D printing. Use of laboratory equipment and instrumentation. Credit will only be granted for one of BMEG 102 and BMEG 200. This course is not eligible for Credit/D/Fail grading. [1-2-0] Prerequisite: One of PHYS 12, PHYS 100 Corequisite: BMEG 101.	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
BMEG_V 102-9AR	BMEG_V	102		9AR	Biomedical Engineering Lab	W2	Rapid prototyping of mechanical, electrical and electromechanical systems. Building parts with state of the art software and 3-D printing. Use of laboratory equipment and instrumentation. Credit will only be granted for one of BMEG 102 and BMEG 200. This course is not eligible for Credit/D/Fail grading. [1-2-0] Prerequisite: One of PHYS 12, PHYS 100 Corequisite: BMEG 101.	In Person Learning	Arranged	Arranged
BMEG_V 102-L2A	BMEG_V	102		L2A	Biomedical Engineering Lab	W2	Rapid prototyping of mechanical, electrical and electromechanical systems. Building parts with state of the art software and 3-D printing. Use of laboratory equipment and instrumentation. Credit will only be granted for one of BMEG 102 and BMEG 200. This course is not eligible for Credit/D/Fail grading. [1-2-0] Prerequisite: One of PHYS 12, PHYS 100 Corequisite: BMEG 101.	In Person Learning	Tue	10:00 a.m. - 12:00 p.m.
BMEG_V 102-L2B	BMEG_V	102		L2B	Biomedical Engineering Lab	W2	Rapid prototyping of mechanical, electrical and electromechanical systems. Building parts with state of the art software and 3-D printing. Use of laboratory equipment and instrumentation. Credit will only be granted for one of BMEG 102 and BMEG 200. This course is not eligible for Credit/D/Fail grading. [1-2-0] Prerequisite: One of PHYS 12, PHYS 100 Corequisite: BMEG 101.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.

BMEG_V 102-L2C	BMEG_V	102	L2C	Biomedical Engineering Lab	W2	Rapid prototyping of mechanical, electrical and electromechanical systems. Building parts with state of the art software and 3-D printing. Use of laboratory equipment and instrumentation. Credit will only be granted for one of BMEG 102 and BMEG 200. This course is not eligible for Credit/D/Fail grading. [1-2-0] Prerequisite: One of PHYS 12, PHYS 100 Corequisite: BMEG 101.	In Person Learning	Tue	4:30 p.m. - 6:30 p.m.
BMEG_V 201-201	BMEG_V	201	201	Technical Communication for Biomedical Engineers	W2	Report preparation, business correspondence, and oral presentation in biomedical engineering specific cases and projects. Credit will be granted for only one of BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BMEG_V 201-202	BMEG_V	201	202	Technical Communication for Biomedical Engineers	W2	Report preparation, business correspondence, and oral presentation in biomedical engineering specific cases and projects. Credit will be granted for only one of BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
BMEG_V 201-203	BMEG_V	201	203	Technical Communication for Biomedical Engineers	W2	Report preparation, business correspondence, and oral presentation in biomedical engineering specific cases and projects. Credit will be granted for only one of BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
BMEG_V 210-101	BMEG_V	210	101	Thermodynamics in Biomedical Engineering	W1	Work, heat and energy; material and energy balances; the first law and second law of thermodynamics; entropy and process reversibility; availability (energy) analysis; Hess's Law; thermodynamic properties of fluids; and applications to biomedical systems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: PHYS 157. CHEM 123 is recommended	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BMEG_V 210-T1A	BMEG_V	210	T1A	Thermodynamics in Biomedical Engineering	W1	Work, heat and energy; material and energy balances; the first law and second law of thermodynamics; entropy and process reversibility; availability (energy) analysis; Hess's Law; thermodynamic properties of fluids; and applications to biomedical systems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: PHYS 157. CHEM 123 is recommended	In Person Learning	Tue	5:00 p.m. - 7:00 p.m.
BMEG_V 220-201	BMEG_V	220	201	Circuits and Electromagnetics with Application to Biomedical Engineering	W2	Electromagnetic phenomena in the body; bioinstrumentation; electrostatic and electromagnetic fields, forces, capacitance and inductance; bio-effects of electromagnetic fields; and modelling electrical components of physiological and biomedical systems. This course is not eligible for Credit/D/Fail grading. [4-0-2*] Prerequisite: All of PHYS 158, MATH 253, MATH 256. Corequisite: MATH 264.	In Person Learning	Tue Thu Fri	2:00 p.m. - 3:00 p.m.
BMEG_V 220-T2A	BMEG_V	220	T2A	Circuits and Electromagnetics with Application to Biomedical Engineering	W2	Electromagnetic phenomena in the body; bioinstrumentation; electrostatic and electromagnetic fields, forces, capacitance and inductance; bio-effects of electromagnetic fields; and modelling electrical components of physiological and biomedical systems. This course is not eligible for Credit/D/Fail grading. [4-0-2*] Prerequisite: All of PHYS 158, MATH 253, MATH 256. Corequisite: MATH 264.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 4:00 p.m.
BMEG_V 230-101	BMEG_V	230	101	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. Techniques of solid mechanics and two dimensional rigid body dynamics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: Either (a) all of BMEG 101, PHYS 170 or (b) all of APSC 101, BMEG 200, PHYS 170.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.
BMEG_V 230-L1A	BMEG_V	230	L1A	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. Techniques of solid mechanics and two dimensional rigid body dynamics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: Either (a) all of BMEG 101, PHYS 170 or (b) all of APSC 101, BMEG 200, PHYS 170.	In Person Learning	Tue (Alternate weeks)	3:00 p.m. - 5:00 p.m.
BMEG_V 230-L1B	BMEG_V	230	L1B	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. Techniques of solid mechanics and two dimensional rigid body dynamics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: Either (a) all of BMEG 101, PHYS 170 or (b) all of APSC 101, BMEG 200, PHYS 170.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 4:00 p.m.
BMEG_V 230-L1C	BMEG_V	230	L1C	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. Techniques of solid mechanics and two dimensional rigid body dynamics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: Either (a) all of BMEG 101, PHYS 170 or (b) all of APSC 101, BMEG 200, PHYS 170.	In Person Learning	Thu (Alternate weeks)	11:00 a.m. - 1:00 p.m.
BMEG_V 230-L1D	BMEG_V	230	L1D	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. Techniques of solid mechanics and two dimensional rigid body dynamics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: Either (a) all of BMEG 101, PHYS 170 or (b) all of APSC 101, BMEG 200, PHYS 170.	In Person Learning	Tue (Alternate weeks)	1:00 p.m. - 3:00 p.m.
BMEG_V 230-L1E	BMEG_V	230	L1E	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. Techniques of solid mechanics and two dimensional rigid body dynamics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: Either (a) all of BMEG 101, PHYS 170 or (b) all of APSC 101, BMEG 200, PHYS 170.	In Person Learning	Thu (Alternate weeks)	4:30 p.m. - 6:30 p.m.
BMEG_V 230-T1A	BMEG_V	230	T1A	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. Techniques of solid mechanics and two dimensional rigid body dynamics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: Either (a) all of BMEG 101, PHYS 170 or (b) all of APSC 101, BMEG 200, PHYS 170.	In Person Learning	Tue (Alternate weeks)	3:00 p.m. - 5:00 p.m.

BMEG_V 230-T1B	BMEG_V	230	T1B	Biomechanics I	W1	Integrating the study of two dimensional movement of animals and humans with the study of the manner in which forces on biomechanical structures such as bones, ligaments, tendons, muscles and joints cause motion. BMEG_V 245-L1C	BMEG_V	245	L1C	The Fundamental Units of Life: From Cells To Systems	W1	The structure and function of cells and how they are organized to generate tissues and organ systems [3-3*-0] Prerequisite: One of CHEM 12, CHEM 100. BIOL 12 strongly recommended	In Person Learning	Wed (Alternate weeks)	4:00 p.m. - 7:00 p.m.
BMEG_V 245-L1D	BMEG_V	245	L1D	The Fundamental Units of Life: From Cells To Systems	W1	The structure and function of cells and how they are organized to generate tissues and organ systems [3-3*-0] Prerequisite: One of CHEM 12, CHEM 100. BIOL 12 strongly recommended	In Person Learning	Wed (Alternate weeks)	4:00 p.m. - 7:00 p.m.
BMEG_V 250-201	BMEG_V	250	201	Cellular Physiology and Biophysics	W2	Cellular structure and mechanisms of membrane transport, signal transduction, muscle mechanochemistry and neurotransmission. Structure and hierarchical organization up to the level of tissues. Light and electron microscopy. This course is not eligible for Credit/D/Fail grading. [3-1-0] Prerequisite: All of BMEG 245, MATH 256.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BMEG_V 250-L2A	BMEG_V	250	L2A	Cellular Physiology and Biophysics	W2	Cellular structure and mechanisms of membrane transport, signal transduction, muscle mechanochemistry and neurotransmission. Structure and hierarchical organization up to the level of tissues. Light and electron microscopy. This course is not eligible for Credit/D/Fail grading. [3-1-0] Prerequisite: All of BMEG 245, MATH 256.	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
BMEG_V 257-201	BMEG_V	257	201	Biomedical Engineering Design I	W2	Engineering design process for biomedical technologies. Practical skills in engineering design, computer aided design, electronic circuits, programming, and rapid prototyping in the context of biomedical technologies. Introduction to broader ethical and sustainability considerations for biomedical technology design. This course is not eligible for Credit/D/Fail grading. [2-4-0] Prerequisite: Either (a) all of BMEG 101, BMEG 102 or (b) all of APSC 101, BMEG 200, PHYS 159.	In Person Learning	Tue Thu	8:00 a.m. - 9:00 a.m.
BMEG_V 257-S2A	BMEG_V	257	S2A	Biomedical Engineering Design I	W2	Engineering design process for biomedical technologies. Practical skills in engineering design, computer aided design, electronic circuits, programming, and rapid prototyping in the context of biomedical technologies. Introduction to broader ethical and sustainability considerations for biomedical technology design. This course is not eligible for Credit/D/Fail grading. [2-4-0] Prerequisite: Either (a) all of BMEG 101, BMEG 102 or (b) all of APSC 101, BMEG 200, PHYS 159.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.
BMEG_V 310-101	BMEG_V	310	101	Introduction to Bioinformatics	W1	Principles behind the methods of bioinformatics. The use of bioinformatics databases and tools for solving problems in genomics, proteomics, structural biology and evolutionary biology. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: BMEG 245 and one of CPEN 221, CPEN 223.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BMEG_V 310-T1A	BMEG_V	310	T1A	Introduction to Bioinformatics	W1	Principles behind the methods of bioinformatics. The use of bioinformatics databases and tools for solving problems in genomics, proteomics, structural biology and evolutionary biology. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: BMEG 245 and one of CPEN 221, CPEN 223.	In Person Learning	Mon	9:00 a.m. - 11:00 a.m.
BMEG_V 320-201	BMEG_V	320	201	Bioengineering Feedback Systems and Controls	W2	Modelling, analysis and simulation of dynamic systems; system modelling by state space; linearization; feedback, stability and sensitivity; control system design. Examples from biological systems, assistive systems and biomedical equipment. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: Either (a) BMEG 220 or (b) all of ELEC 221, ELEC 201, ELEC 202.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
BMEG_V 320-T2A	BMEG_V	320	T2A	Bioengineering Feedback Systems and Controls	W2	Modelling, analysis and simulation of dynamic systems; system modelling by state space; linearization; feedback, stability and sensitivity; control system design. Examples from biological systems, assistive systems and biomedical equipment. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: Either (a) BMEG 220 or (b) all of ELEC 221, ELEC 201, ELEC 202.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.

BMEG_V 321-201	BMEG_V	321	201	Biomedical Instrumentation	W2	Fundamental working principles of medical instruments used for measurements of nervous, respiratory and circulatory systems with focus on biopotential signals. Other topics include medical imaging, as well as minimally invasive and robotic surgery. Credit will only be granted for one of BMEG 321, ELEC 371. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: Either (a) MATH 256 or (b) all of MATH 265, MATH 267; and either (a) BMEG 220 or (b) one of ELEC 211, PHYS 301 and one of ELEC 201, ELEC 204.	In Person Learning	Mon Fri	9:00 a.m. - 10:00 a.m.
BMEG_V 321-L2A	BMEG_V	321	L2A	Biomedical Instrumentation	W2	Fundamental working principles of medical instruments used for measurements of nervous, respiratory and circulatory systems with focus on biopotential signals. Other topics include medical imaging, as well as minimally invasive and robotic surgery. Credit will only be granted for one of BMEG 321, ELEC 371. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: Either (a) MATH 256 or (b) all of MATH 265, MATH 267; and either (a) BMEG 220 or (b) one of ELEC 211, PHYS 301 and one of ELEC 201, ELEC 204.	In Person Learning	Tue	11:30 a.m. - 2:30 p.m.
BMEG_V 321-L2B	BMEG_V	321	L2B	Biomedical Instrumentation	W2	Fundamental working principles of medical instruments used for measurements of nervous, respiratory and circulatory systems with focus on biopotential signals. Other topics include medical imaging, as well as minimally invasive and robotic surgery. Credit will only be granted for one of BMEG 321, ELEC 371. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: Either (a) MATH 256 or (b) all of MATH 265, MATH 267; and either (a) BMEG 220 or (b) one of ELEC 211, PHYS 301 and one of ELEC 201, ELEC 204.	In Person Learning	Thu	1:00 p.m. - 4:00 p.m.
BMEG_V 321-L2C	BMEG_V	321	L2C	Biomedical Instrumentation	W2	Fundamental working principles of medical instruments used for measurements of nervous, respiratory and circulatory systems with focus on biopotential signals. Other topics include medical imaging, as well as minimally invasive and robotic surgery. Credit will only be granted for one of BMEG 321, ELEC 371. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: Either (a) MATH 256 or (b) all of MATH 265, MATH 267; and either (a) BMEG 220 or (b) one of ELEC 211, PHYS 301 and one of ELEC 201, ELEC 204.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BMEG_V 321-L2D	BMEG_V	321	L2D	Biomedical Instrumentation	W2	Fundamental working principles of medical instruments used for measurements of nervous, respiratory and circulatory systems with focus on biopotential signals. Other topics include medical imaging, as well as minimally invasive and robotic surgery. Credit will only be granted for one of BMEG 321, ELEC 371. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: Either (a) MATH 256 or (b) all of MATH 265, MATH 267; and either (a) BMEG 220 or (b) one of ELEC 211, PHYS 301 and one of ELEC 201, ELEC 204.	In Person Learning	Mon	4:00 p.m. - 7:00 p.m.
BMEG_V 321-L2E	BMEG_V	321	L2E	Biomedical Instrumentation	W2	Fundamental working principles of medical instruments used for measurements of nervous, respiratory and circulatory systems with focus on biopotential signals. Other topics include medical imaging, as well as minimally invasive and robotic surgery. Credit will only be granted for one of BMEG 321, ELEC 371. This course is not eligible for Credit/D/Fail grading. [2-3-0] Prerequisite: Either (a) MATH 256 or (b) all of MATH 265, MATH 267; and either (a) BMEG 220 or (b) one of ELEC 211, PHYS 301 and one of ELEC 201, ELEC 204.	In Person Learning	Fri	10:00 a.m. - 1:00 p.m.
BMEG_V 330-201	BMEG_V	330	201	Biomechanics II	W2	Principles and common elements of sports-, orthopaedic-, injury- and cellular length-biomechanics. Improving sports performance and preventing overuse injuries through sports biomechanics, designing orthopaedic implants through orthopaedic biomechanics, preventing injuries through injury biomechanics and identifying and filtering cancerous blood cells through cellular biomechanics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: BMEG 230.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BMEG_V 330-T2A	BMEG_V	330	T2A	Biomechanics II	W2	Principles and common elements of sports-, orthopaedic-, injury- and cellular length-biomechanics. Improving sports performance and preventing overuse injuries through sports biomechanics, designing orthopaedic implants through orthopaedic biomechanics, preventing injuries through injury biomechanics and identifying and filtering cancerous blood cells through cellular biomechanics. Students who have received credit for MECH 435 cannot also receive credit for BMEG 230 or BMEG 330. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: BMEG 230.	In Person Learning	Mon (Alternate weeks)	10:00 a.m. - 12:00 p.m.
BMEG_V 350-201	BMEG_V	350	201	Human Structure/Function from Cells to Systems	W2	Human anatomy, histology and physiology with examples from biomedical engineering. Anatomical compartmentation and function regulation; homeostatic control systems, sensors and effectors; intercellular communication strategies; and cellular and organ function assessment. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: All of BMEG 245, BMEG 250.	In Person Learning	Tue	10:00 a.m. - 11:00 a.m.
BMEG_V 350-L2A	BMEG_V	350	L2A	Human Structure/Function from Cells to Systems	W2	Human anatomy, histology and physiology with examples from biomedical engineering. Anatomical compartmentation and function regulation; homeostatic control systems, sensors and effectors; intercellular communication strategies; and cellular and organ function assessment. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: All of BMEG 245, BMEG 250.	In Person Learning	Wed (Alternate weeks)	10:00 a.m. - 12:00 p.m.
BMEG_V 357-201	BMEG_V	357	201	Biomedical Engineering Design II	W2	Creating innovations in biomedical technologies. Supervised design process for clinical clients, involving the building, testing, and verification of prototypes with potential users. This course is not eligible for Credit/D/Fail grading. [3*-3*-0] Prerequisite: BMEG 257.	In Person Learning	Tue	3:30 p.m. - 5:00 p.m.
BMEG_V 357-S2A	BMEG_V	357	S2A	Biomedical Engineering Design II	W2	Creating innovations in biomedical technologies. Supervised design process for clinical clients, involving the building, testing, and verification of prototypes with potential users. This course is not eligible for Credit/D/Fail grading. [3*-3*-0] Prerequisite: BMEG 257.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 5:00 p.m.
BMEG_V 357-S2B	BMEG_V	357	S2B	Biomedical Engineering Design II	W2	Creating innovations in biomedical technologies. Supervised design process for clinical clients, involving the building, testing, and verification of prototypes with potential users. This course is not eligible for Credit/D/Fail grading. [3*-3*-0] Prerequisite: BMEG 257.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 5:00 p.m.
BMEG_V 371-101	BMEG_V	371	101	Transport Phenomena within Cells and Tissues	W1	Fluid flow and mass transport analysis within healthy and diseased cells and tissues using mathematics. Drug delivery and tissue engineering. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: One of MATH 253, MATH 217 and either (a) MATH 256 or (b) all of MATH 255, MATH 257. Equivalency: CHBE 470	In Person Learning	Mon Wed Fri	4:00 p.m. - 5:00 p.m.
BMEG_V 371-T1A	BMEG_V	371	T1A	Transport Phenomena within Cells and Tissues	W1	Fluid flow and mass transport analysis within healthy and diseased cells and tissues using mathematics. Drug delivery and tissue engineering. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: One of MATH 253, MATH 217 and either (a) MATH 256 or (b) all of MATH 255, MATH 257. Equivalency: CHBE 470	In Person Learning	Tue (Alternate weeks)	9:00 a.m. - 11:00 a.m.
BMEG_V 371-T1B	BMEG_V	371	T1B	Transport Phenomena within Cells and Tissues	W1	Fluid flow and mass transport analysis within healthy and diseased cells and tissues using mathematics. Drug delivery and tissue engineering. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: One of MATH 253, MATH 217 and either (a) MATH 256 or (b) all of MATH 255, MATH 257. Equivalency: CHBE 470	In Person Learning	Wed (Alternate weeks)	9:00 a.m. - 11:00 a.m.

BMEG_V 372-101	BMEG_V	372	101	Biomedical Materials and Drug Delivery	W1	Biomaterials science/engineering applied to design and synthesis of drug delivery systems. Biomaterial types, synthesis and testing; the use of biomaterials; biological response; biocompatibility and degradation; drug delivery systems; nanocarriers; modification of polymers; liposomes and micelles; nucleic acid, transdermal and oral delivery. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of BMEG 250, CHEM 123.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
BMEG_V 372-T1A	BMEG_V	372	T1A	Biomedical Materials and Drug Delivery	W1	Biomaterials science/engineering applied to design and synthesis of drug delivery systems. Biomaterial types, synthesis and testing; the use of biomaterials; biological response; biocompatibility and degradation; drug delivery systems; nanocarriers; modification of polymers; liposomes and micelles; nucleic acid, transdermal and oral delivery. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of BMEG 250, CHEM 123.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
BMEG_V 373-101	BMEG_V	373	101	Microfluidics	W1	Advantages and disadvantages of miniaturization of complex fluid flow processes. Manipulating liquid flow; electrophoretic velocity and mobility; serial dilution; capillary electrophoresis; integrated microfluidic platforms; and blood and the motility of bacteria. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CHBE 251.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BMEG_V 374-201	BMEG_V	374	201	Cellular Bioengineering: Laboratory & Design	W2	Fundamental genetic, molecular, and tissue engineering techniques. Design of experiments and tools related to these essential cellular bioengineering techniques. This course is not eligible for Credit/D/Fail grading. [1-3-1] Prerequisite: BMEG 245.	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
BMEG_V 374-L2A	BMEG_V	374	L2A	Cellular Bioengineering: Laboratory & Design	W2	Fundamental genetic, molecular, and tissue engineering techniques. Design of experiments and tools related to these essential cellular bioengineering techniques. This course is not eligible for Credit/D/Fail grading. [1-3-1] Prerequisite: BMEG 245.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
BMEG_V 374-L2B	BMEG_V	374	L2B	Cellular Bioengineering: Laboratory & Design	W2	Fundamental genetic, molecular, and tissue engineering techniques. Design of experiments and tools related to these essential cellular bioengineering techniques. This course is not eligible for Credit/D/Fail grading. [1-3-1] Prerequisite: BMEG 245.	In Person Learning	Mon	4:00 p.m. - 7:00 p.m.
BMEG_V 374-T2A	BMEG_V	374	T2A	Cellular Bioengineering: Laboratory & Design	W2	Fundamental genetic, molecular, and tissue engineering techniques. Design of experiments and tools related to these essential cellular bioengineering techniques. This course is not eligible for Credit/D/Fail grading. [1-3-1] Prerequisite: BMEG 245.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
BMEG_V 400-J_201	BMEG_V	400	J	J_201	W2	Lectures or projects on specialized topics in Biomedical Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BMEG_V 400-K_201	BMEG_V	400	K	K_201	W2	Lectures or projects on specialized topics in Biomedical Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BMEG_V 400-L_201	BMEG_V	400	L	L_201	W2	Lectures or projects on specialized topics in Biomedical Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
BMEG_V 400-Q_201	BMEG_V	400	Q	Q_201	W2	Lectures or projects on specialized topics in Biomedical Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 11:00 a.m.
BMEG_V 401-201	BMEG_V	401	201	Economics of Healthcare Solutions	W2	Canadian and USA engineering economics in BME and healthcare systems. Economic equivalence, cost estimation, risk assessment, regulatory frameworks, economic optimization, intangible factors, ethics, sustainability, financial tools, commercialization and regulator regimes. [3-0-0]	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
BMEG_V 401-202	BMEG_V	401	202	Economics of Healthcare Solutions	W2	Canadian and USA engineering economics in BME and healthcare systems. Economic equivalence, cost estimation, risk assessment, regulatory frameworks, economic optimization, intangible factors, ethics, sustainability, financial tools, commercialization and regulator regimes. [3-0-0]	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
BMEG_V 402-101	BMEG_V	402	101	Impact of Biomedical Engineering on Society, Sustainability and Environmental Stewardship	W1	Impact of biomedical engineering on health, safety, and political, cultural, economical and environmental implications of biomedical engineering design. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
BMEG_V 402-201	BMEG_V	402	201	Impact of Biomedical Engineering on Society, Sustainability and Environmental Stewardship	W2	Impact of biomedical engineering on health, safety, and political, cultural, economical and environmental implications of biomedical engineering design. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 410-101	BMEG_V	410	101	Biomedical Equipment, Physiology, and Anatomy	W1	Principles and operation of biomedical equipment for cardiovascular system, respiratory system, renal dialysis, endoscopy, surgery, and imaging. Functional relationships of biomedical equipment to physiology and anatomy of major body systems. Credit will be granted for only one of BMEG 410 or BMEG 510. [3-0-2*]	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
BMEG_V 410-T1A	BMEG_V	410	T1A	Biomedical Equipment, Physiology, and Anatomy	W1	Principles and operation of biomedical equipment for cardiovascular system, respiratory system, renal dialysis, endoscopy, surgery, and imaging. Functional relationships of biomedical equipment to physiology and anatomy of major body systems. Credit will be granted for only one of BMEG 410 or BMEG 510. [3-0-2*]	In Person Learning	Thu	5:00 p.m. - 7:00 p.m.
BMEG_V 420-101	BMEG_V	420	101	Medical Imaging	W1	Physical principles of ultrasound, magnetic resonance, computed tomography, X-ray projection imaging and molecular imaging in medical imaging for diagnostics, therapeutics and interventions. [3-0-0] Prerequisite: One of BMEG 220, BMEG 250 and one of BMEG 321, ELEC 371. Equivalency: ELEC 471	In Person Learning	Tue Thu	9:00 a.m. - 10:30 a.m.
BMEG_V 421-101	BMEG_V	421	101	Linear Systems in Optics	W1	Linear system theory and Fourier Optics, applications in optics including wave propagation and image quality assessment. Credit will be granted for only one of BMEG 421 or BMEG 521. This course is not eligible for Credit/D/Fail grading. Prerequisite: ELEC 221.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BMEG_V 422-201	BMEG_V	422	201	Modern Biomedical Optical Imaging	W2	Advanced multimodal optical imaging concepts, fundamental optics, optical OCT theories, advanced modern OCT technologies, and OCT application in clinical medicine and biomedical engineering. Credit will be granted for only one of BMEG 422 or BMEG 522. This course is not eligible for Credit/D/Fail grading. Prerequisite: BMEG 421.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BMEG_V 423-101	BMEG_V	423	101	Clinical Informatics	W1	Fundamental concepts in clinical information systems, decision support, and mobile health. Application of information engineering to health care, including the management and use of patient health and well-being information. Credit will be granted for only one of BMEG 423 or BMEG 523. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.

BMEG_V 424-201	BMEG_V	424	201	Genome Informatics	W2	Principles and best practices in analyzing genomics data. Genome architecture, mappability, repeat elements, ChIP-seq, open chromatin, histone modifications, single cell technologies, genome wide association studies, statistical analyses, computational analysis, data processing. Credit will be granted for only one of BMEG 424 or BMEG 524. This course is not eligible for Credit/D/Fail grading. Prerequisite: BMEG 310. or equivalent.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BMEG_V 425-201	BMEG_V	425	201	Biomedical Robotics	W2	Biomedical robotics, mathematical fundamentals of kinematics, dynamics and control of robots by human operators, and applications of biomedical robotics. This course is not eligible for Credit/D/Fail grading. Prerequisite: MATH 152 and one of BMEG 320, ELEC 221.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
BMEG_V 455-101	BMEG_V	455	101	Professionalism and Ethics in Biomedical Engineering	W1	Ethical, equity, and diversity issues and professionalism in Biomedical Engineering practice and design. Case studies and design projects will be used to expand on the foundation of biomedical engineering design, applying real-world ethical dilemmas including professional, medical, and research ethics. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
BMEG_V 456-101	BMEG_V	456	101	Clinical and Industrial Biomedical Engineering	W1	Principles of clinical practice, Canadian healthcare system, medical approach to diagnosis, ethics and regulations for clinical trials, medical technology management, medical device development and standards, biostatistics. Credit will be granted for only one of BMEG 257, BMEG 456, BMEG 556. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon	4:00 p.m. - 7:00 p.m.
BMEG_V 457-001	BMEG_V	457	001	Biomedical Engineering Design Project	W1-2	Capstone design and development of a practical biomedical device or system. Projects provided by local industry and engineering research laboratories. [1-3-1; 1-3-1] Prerequisite: All of BMEG 350, BMEG 357.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
BMEG_V 457-S0A	BMEG_V	457	S0A	Biomedical Engineering Design Project	W1-2	Capstone design and development of a practical biomedical device or system. Projects provided by local industry and engineering research laboratories. [1-3-1; 1-3-1] Prerequisite: All of BMEG 350, BMEG 357.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
BMEG_V 470-201	BMEG_V	470	201	Cellular Responses to Forces and Biomaterials	W2	Mechanical forces and biomaterials regulating cellular functions critical to tissue development, regeneration and repair. [3-0-0] Prerequisite: All of BMEG 245, BMEG 250, BMEG 350.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BMEG_V 474-201	BMEG_V	474	201	Stem Cells and Regenerative Medicine	W2	Biology and applications of stem cells in regenerative medicine. Modelling human biology and disease in vitro and in vivo. Regulatory and commercialization pathways for regenerative medicine innovations. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of BMEG 245, BMEG 250, BMEG 350.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
BMEG_V 490-A 201	BMEG_V	490	A	A 201	W2	Introduction to Academic Research	In Person Learning	Tue	8:30 a.m. - 10:00 a.m.
BMEG_V 490-B 001	BMEG_V	490	B	B 001	W1-2	Introduction to Academic Research	In Person Learning	Arranged	Arranged
BMEG_V 495-201	BMEG_V	495	201	Biomaterials	W2	Engineered materials in medical applications with an emphasis on material properties, functionality, design, and material response in the biological environment. Credit will be granted for only one of MTRL 495 or BMEG 495. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: APSC 278.	In Person Learning	Wed Fri	1:00 p.m. - 2:00 p.m.
BMEG_V 495-T2A	BMEG_V	495	T2A	Biomaterials	W2	Engineered materials in medical applications with an emphasis on material properties, functionality, design, and material response in the biological environment. Credit will be granted for only one of MTRL 495 or BMEG 495. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: APSC 278.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
BMEG_V 500-101	BMEG_V	500	101	Orientation to Clinical Environment	W1	Operation of biomedical and clinical engineering facilities at hospitals. Daily activities of healthcare workers. Patients experience. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	8:00 a.m. - 10:00 a.m.
BMEG_V 500-T1A	BMEG_V	500	T1A	Orientation to Clinical Environment	W1	Operation of biomedical and clinical engineering facilities at hospitals. Daily activities of healthcare workers. Patients experience. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	8:00 a.m. - 10:00 a.m.
BMEG_V 501-001	BMEG_V	501	001	Interdisciplinary Team Project in Medical Technology Innovation	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	8:00 a.m. - 10:00 a.m.
BMEG_V 510-101	BMEG_V	510	101	Anatomy and Physiology with Applications to Biomedical Devices	W1	Anatomical structures and physiological principles of major body systems. Functional connections to operation of diagnostic and therapeutic equipment. Exploration of recent advances. Credit will be granted for only one of BMEG 410 or BMEG 510. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
BMEG_V 510-T1A	BMEG_V	510	T1A	Anatomy and Physiology with Applications to Biomedical Devices	W1	Anatomical structures and physiological principles of major body systems. Functional connections to operation of diagnostic and therapeutic equipment. Exploration of recent advances. Credit will be granted for only one of BMEG 410 or BMEG 510. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	5:00 p.m. - 7:00 p.m.
BMEG_V 511-201	BMEG_V	511	201	Fundamentals of Applied Pathophysiology in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	5:30 p.m. - 8:30 p.m.
BMEG_V 521-101	BMEG_V	521	101	Linear Systems in Optics	W1	Linear system theory and Fourier Optics, applications in optics including wave propagation and image quality assessment. Credit will be granted for only one of BMEG 421 or BMEG 521. ELEC 221 recommended. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BMEG_V 522-201	BMEG_V	522	201	Modern Biomedical Optical Imaging	W2	Advanced multimodal optical imaging concepts, fundamental optics, optical OCT theories, advanced modern OCT technologies, and OCT application in clinical medicine and biomedical engineering. Credit will be granted for only one of BMEG 422 or BMEG 522. BMEG 421 or courses with MATLAB recommended. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BMEG_V 523-101	BMEG_V	523	101	Clinical Informatics	W1	Fundamental concepts in clinical information systems, decision support, and mobile health. Application of information engineering to health care, including the management and use of patient health and well-being information. Credit will be granted for only one of BMEG 423 or BMEG 523.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.

BMEG_V 523-T1A	BMEG_V	523		T1A	Clinical Informatics	W1	Fundamental concepts in clinical information systems, decision support, and mobile health. Application of information engineering to health care, including the management and use of patient health and well-being information. Credit will be granted for only one of BMEG 423 or BMEG 523.	In Person Learning	Tue	6:30 p.m. - 7:30 p.m.
BMEG_V 524-201	BMEG_V	524		201	Genome Informatics	W2	Principles and best practices in analyzing genomics data. Genome architecture, mappability, repeat elements, ChIP-seq, open chromatin, histone modifications, single cell technologies, genome wide association studies, statistical analyses, computational analysis, data processing. Credit will be granted for only one of BMEG 424 or BMEG 524. BMEG 310 or equivalent recommended.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
BMEG_V 550-201	BMEG_V	550		201	Biomedical Engineering Technology	W2	This course is not eligible for Credit/D/Fail grading. [3-3*-0]	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
BMEG_V 554-A_101	BMEG_V	554	A	A_101	Directed Studies in Biomedical Engineering	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 554-A_201	BMEG_V	554	A	A_201	Directed Studies in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 554-B_001	BMEG_V	554	B	B_001	Directed Studies in Biomedical Engineering	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 554-B_101	BMEG_V	554	B	B_101	Directed Studies in Biomedical Engineering	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 554-B_201	BMEG_V	554	B	B_201	Directed Studies in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 554-C_101	BMEG_V	554	C	C_101	Directed Studies in Biomedical Engineering	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 554-C_201	BMEG_V	554	C	C_201	Directed Studies in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 556-101	BMEG_V	556		101	Clinical and Industrial Biomedical Engineering	W1	Principles of professional engineering practice, the Canadian healthcare system, medical approach to diagnosis, principles and management of common medical devices, ethics and regulations for clinical trials, codes and regulations of medical devices, applications of biomedical engineering. Credit will be granted for only one of BMEG 456 or BMEG 556. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	4:00 p.m. - 7:00 p.m.
BMEG_V 556-T1A	BMEG_V	556		T1A	Clinical and Industrial Biomedical Engineering	W1	Principles of professional engineering practice, the Canadian healthcare system, medical approach to diagnosis, principles and management of common medical devices, ethics and regulations for clinical trials, codes and regulations of medical devices, applications of biomedical engineering. Credit will be granted for only one of BMEG 456 or BMEG 556. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	7:00 p.m. - 8:00 p.m.
BMEG_V 557-101	BMEG_V	557		101	Statistical Methods for Evaluating Medical Technologies	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
BMEG_V 580-101	BMEG_V	580		101	Biomedical Engineering Topics at the Interface of Medicine and Engineering	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:30 a.m. - 10:00 a.m.
BMEG_V 581-201	BMEG_V	581		201	Professional and Academic Development	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
BMEG_V 591-F_201	BMEG_V	591	F	F_201	Topics in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BMEG_V 591-J_201	BMEG_V	591	J	J_201	Topics in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
BMEG_V 591-K_201	BMEG_V	591	K	K_201	Topics in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BMEG_V 591-L_201	BMEG_V	591	L	L_201	Topics in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
BMEG_V 591-N_101	BMEG_V	591	N	N_101	Topics in Biomedical Engineering	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	4:00 p.m. - 7:30 p.m.
BMEG_V 591-Q_201	BMEG_V	591	Q	Q_201	Topics in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 11:00 a.m.
BMEG_V 591-T_201	BMEG_V	591	T	T_201	Topics in Biomedical Engineering	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	4:00 p.m. - 7:30 p.m.

BMEG_V 597-001	BMEG_V	597	001	Master of Engineering Project	W1-2	Supervised industrial, clinical, or research project for students registered in Biomedical Engineering program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
BMEG_V 597-101	BMEG_V	597	101	Master of Engineering Project	W1	Supervised industrial, clinical, or research project for students registered in Biomedical Engineering program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
BMEG_V 597-201	BMEG_V	597	201	Master of Engineering Project	W2	Supervised industrial, clinical, or research project for students registered in Biomedical Engineering program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
BMEG_V 598-001	BMEG_V	598	001	Biomedical Engineering Seminar	W1-2	Presentation and discussion of current topics in biomedical engineering research and development. A required course for all graduate students in Biomedical Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.	
BMEG_V 598-101	BMEG_V	598	101	Biomedical Engineering Seminar	W1	Presentation and discussion of current topics in biomedical engineering research and development. A required course for all graduate students in Biomedical Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.	
BMEG_V 598-201	BMEG_V	598	201	Biomedical Engineering Seminar	W2	Presentation and discussion of current topics in biomedical engineering research and development. A required course for all graduate students in Biomedical Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.

This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 293-101	BUSI_V	293	101	Introductory Financial Accounting	W1	Introduction to the construction and interpretation of financial reports prepared primarily for external use. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	6:30 p.m. - 9:30 p.m.

BUSI_V 293-102	BUSI_V	293	102	Introductory Financial Accounting	W1	Introduction to the construction and interpretation of financial reports prepared primarily for external use. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon Wed	12:00 p.m. - 1:30 p.m.
BUSI_V 293-201	BUSI_V	293	201	Introductory Financial Accounting	W2	Introduction to the construction and interpretation of financial reports prepared primarily for external use. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	6:30 p.m. - 9:30 p.m.
BUSI_V 293-202	BUSI_V	293	202	Introductory Financial Accounting	W2	Introduction to the construction and interpretation of financial reports prepared primarily for external use. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu	12:00 p.m. - 1:30 p.m.
BUSI_V 294-101	BUSI_V	294	101	Introductory Management Accounting	W1	Introduction to the development and use of accounting information for management planning and control, and the development of cost information for financial reports. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 294-102	BUSI_V	294	102	Introductory Management Accounting	W1	Introduction to the development and use of accounting information for management planning and control, and the development of cost information for financial reports. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Thu	6:30 p.m. - 9:30 p.m.
BUSI_V 294-201	BUSI_V	294	201	Introductory Management Accounting	W2	Introduction to the development and use of accounting information for management planning and control, and the development of cost information for financial reports. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Mon	6:30 p.m. - 9:30 p.m.
BUSI_V 294-202	BUSI_V	294	202	Introductory Management Accounting	W2	Introduction to the development and use of accounting information for management planning and control, and the development of cost information for financial reports. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 295-101	BUSI_V	295	101	Business Economics	W1	Introduction to microeconomics and macroeconomics principles with applications to accounting and business decision making. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BUSI_V 295-102	BUSI_V	295	102	Business Economics	W1	Introduction to microeconomics and macroeconomics principles with applications to accounting and business decision making. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 295-103	BUSI_V	295	103	Business Economics	W1	Introduction to microeconomics and macroeconomics principles with applications to accounting and business decision making. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 295-201	BUSI_V	295	201	Business Economics	W2	Introduction to microeconomics and macroeconomics principles with applications to accounting and business decision making. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BUSI_V 295-202	BUSI_V	295	202	Business Economics	W2	Introduction to microeconomics and macroeconomics principles with applications to accounting and business decision making. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 295-203	BUSI_V	295	203	Business Economics	W2	Introduction to microeconomics and macroeconomics principles with applications to accounting and business decision making. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon	3:00 p.m. - 6:00 p.m.
BUSI_V 300-001	BUSI_V	300	001	Urban and Real Estate Economics	W1	Comprehensive treatment of urban and real estate economics; introduction to study of cities and real estate market; analytical microeconomic principles. Prerequisite: BUSI100,BUSI101	Online Learning	Arranged	Arranged
BUSI_V 300-002	BUSI_V	300	002	Urban and Real Estate Economics	W2	Comprehensive treatment of urban and real estate economics; introduction to study of cities and real estate market; analytical microeconomic principles. Prerequisite: BUSI100,BUSI101	Online Learning	Arranged	Arranged
BUSI_V 329-103	BUSI_V	329	103	Principles of Organizational Behaviour	W1	An introductory examination of work organizations and the behaviour of individuals within them. Phenomena to be studied include organizational structure, environments, group processes, motivation and leadership. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
BUSI_V 329-202	BUSI_V	329	202	Principles of Organizational Behaviour	W2	An introductory examination of work organizations and the behaviour of individuals within them. Phenomena to be studied include organizational structure, environments, group processes, motivation and leadership. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 6:30 p.m.
BUSI_V 330-001	BUSI_V	330	001	Foundations of Real Estate Appraisal	W1	Introduction to concepts and techniques for appraising the value of real estate. Recommended pre-requisite: BUSI 121.	Online Learning	Arranged	Arranged
BUSI_V 330-002	BUSI_V	330	002	Foundations of Real Estate Appraisal	W2	Introduction to concepts and techniques for appraising the value of real estate. Recommended pre-requisite: BUSI 121.	Online Learning	Arranged	Arranged
BUSI_V 330-01T	BUSI_V	330	01T	Foundations of Real Estate Appraisal	W1	Introduction to concepts and techniques for appraising the value of real estate. Recommended pre-requisite: BUSI 121.	In Person Learning	Arranged	Arranged
BUSI_V 330-02T	BUSI_V	330	02T	Foundations of Real Estate Appraisal	W1-2	Introduction to concepts and techniques for appraising the value of real estate. Recommended pre-requisite: BUSI 121.	In Person Learning	Arranged	Arranged
BUSI_V 331-001	BUSI_V	331	001	Real Estate Investment Analysis and Advanced Income Appraisal	W1	Valuation techniques for income real estate, including income method of appraisal, tax consequences of real property ownership, and portfolio analysis methodology. Prerequisite: All of BUSI 121, BUSI 330.	Online Learning	Arranged	Arranged
BUSI_V 331-002	BUSI_V	331	002	Real Estate Investment Analysis and Advanced Income Appraisal	W2	Valuation techniques for income real estate, including income method of appraisal, tax consequences of real property ownership, and portfolio analysis methodology. Prerequisite: All of BUSI 121, BUSI 330.	Online Learning	Arranged	Arranged

BUSI_V 335-101	BUSI_V	335	101	Information Systems	W1	Introduction to information technology related to business use: design, implementation, and application of information systems. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	6:30 p.m. - 9:30 p.m.
BUSI_V 335-102	BUSI_V	335	102	Information Systems	W1	Introduction to information technology related to business use: design, implementation, and application of information systems. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 335-201	BUSI_V	335	201	Information Systems	W2	Introduction to information technology related to business use: design, implementation, and application of information systems. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 335-202	BUSI_V	335	202	Information Systems	W2	Introduction to information technology related to business use: design, implementation, and application of information systems. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon	6:30 p.m. - 9:30 p.m.
BUSI_V 344-001	BUSI_V	344	001	Statistical and Computer Applications in Valuation	W1	Explores creative, practical uses of statistical and computer applications in determining and analyzing real estate value. Through case studies and hands-on computer work, students will learn the fundamentals of exploratory data analysis and appraisal valuation modelling.	Online Learning	Arranged	Arranged
BUSI_V 344-002	BUSI_V	344	002	Statistical and Computer Applications in Valuation	W2	Explores creative, practical uses of statistical and computer applications in determining and analyzing real estate value. Through case studies and hands-on computer work, students will learn the fundamentals of exploratory data analysis and appraisal valuation modelling.	Online Learning	Arranged	Arranged
BUSI_V 352-001	BUSI_V	352	001	Case Studies in Residential Valuation	W1	Examines common issues that affect the practice of residential real estate valuation. Credit will be granted for only one of BUSI 352 or both BUSI 442 and BUSI 452. Prerequisite: BUSI 330. BUSI 121, BUSI 344 recommended.	Online Learning	Arranged	Arranged
BUSI_V 352-002	BUSI_V	352	002	Case Studies in Residential Valuation	W2	Examines common issues that affect the practice of residential real estate valuation. Credit will be granted for only one of BUSI 352 or both BUSI 442 and BUSI 452. Prerequisite: BUSI 330. BUSI 121, BUSI 344 recommended.	Online Learning	Arranged	Arranged
BUSI_V 353-101	BUSI_V	353	101	Intermediate Financial Accounting I	W1	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 353-102	BUSI_V	353	102	Intermediate Financial Accounting I	W1	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Mon	6:30 p.m. - 9:30 p.m.
BUSI_V 353-201	BUSI_V	353	201	Intermediate Financial Accounting I	W2	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 353-202	BUSI_V	353	202	Intermediate Financial Accounting I	W2	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Thu	6:30 p.m. - 9:30 p.m.
BUSI_V 354-101	BUSI_V	354	101	Cost Accounting	W1	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 294, BUSI 370.	In Person Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 354-102	BUSI_V	354	102	Cost Accounting	W1	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 294, BUSI 370.	Hybrid Learning	Tue Thu	12:00 p.m. - 1:30 p.m.
BUSI_V 354-201	BUSI_V	354	201	Cost Accounting	W2	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 294, BUSI 370.	In Person Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 354-202	BUSI_V	354	202	Cost Accounting	W2	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 294, BUSI 370.	Hybrid Learning	Mon Wed	12:00 p.m. - 1:30 p.m.
BUSI_V 355-101	BUSI_V	355	101	Introduction to Income Tax	W1	A study of income tax from the standpoint of the individual and business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Thu	6:00 p.m. - 9:00 p.m.
BUSI_V 355-102	BUSI_V	355	102	Introduction to Income Tax	W1	A study of income tax from the standpoint of the individual and business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 355-201	BUSI_V	355	201	Introduction to Income Tax	W2	A study of income tax from the standpoint of the individual and business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Mon	6:30 p.m. - 9:30 p.m.
BUSI_V 355-202	BUSI_V	355	202	Introduction to Income Tax	W2	A study of income tax from the standpoint of the individual and business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 370-101	BUSI_V	370	101	Business Finance	W1	An introduction to the basic principles of financial valuation and an examination of corporate enterprise decisions including working capital management; capital budgeting; capital structures and dividend policy. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Mon	6:30 p.m. - 9:30 p.m.
BUSI_V 370-102	BUSI_V	370	102	Business Finance	W1	An introduction to the basic principles of financial valuation and an examination of corporate enterprise decisions including working capital management; capital budgeting; capital structures and dividend policy. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 370-201	BUSI_V	370	201	Business Finance	W2	An introduction to the basic principles of financial valuation and an examination of corporate enterprise decisions including working capital management; capital budgeting; capital structures and dividend policy. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	In Person Learning	Thu	6:30 p.m. - 9:30 p.m.

BUSI_V 370-202	BUSI_V	370	202	Business Finance	W2	An introduction to the basic principles of financial valuation and an examination of corporate enterprise decisions including working capital management; capital budgeting; capital structures and dividend policy. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI293 or equivalent.	Hybrid Learning	Tue	6:30 p.m. - 9:30 p.m.	
BUSI_V 393-101	BUSI_V	393	101	Introduction to Business Law	W1	Introduction to the law of contracts, with particular reference to contracts for sale of goods and related law of personal property, principles of agency, partnership, and company law. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	6:30 p.m. - 9:30 p.m.	
BUSI_V 393-102	BUSI_V	393	102	Introduction to Business Law	W1	Introduction to the law of contracts, with particular reference to contracts for sale of goods and related law of personal property, principles of agency, partnership, and company law. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Thu	6:30 p.m. - 9:30 p.m.	
BUSI_V 393-201	BUSI_V	393	201	Introduction to Business Law	W2	Introduction to the law of contracts, with particular reference to contracts for sale of goods and related law of personal property, principles of agency, partnership, and company law. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	6:30 p.m. - 9:30 p.m.	
BUSI_V 393-202	BUSI_V	393	202	Introduction to Business Law	W2	Introduction to the law of contracts, with particular reference to contracts for sale of goods and related law of personal property, principles of agency, partnership, and company law. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Thu	6:30 p.m. - 9:30 p.m.	
BUSI_V 398-001	BUSI_V	398	001	Residential Property Guided Case Study	W1	The residential property appraisal process, focusing both on valuation techniques as well as general research and report writing skills.	Online Learning	Arranged	Arranged	
BUSI_V 398-002	BUSI_V	398	002	Residential Property Guided Case Study	W2	The residential property appraisal process, focusing both on valuation techniques as well as general research and report writing skills.	Online Learning	Arranged	Arranged	
BUSI_V 400-001	BUSI_V	400	001	Residential Property Analysis	W1	Underlying theory and techniques used in design, construction, and inspection of residential properties.	Online Learning	Arranged	Arranged	
BUSI_V 400-002	BUSI_V	400	002	Residential Property Analysis	W2	Underlying theory and techniques used in design, construction, and inspection of residential properties.	Online Learning	Arranged	Arranged	
BUSI_V 401-001	BUSI_V	401	001	Commercial Property Analysis	W1	Underlying theory and techniques used in the design and construction of commercial properties.	Online Learning	Arranged	Arranged	
BUSI_V 401-002	BUSI_V	401	002	Commercial Property Analysis	W2	Underlying theory and techniques used in the design and construction of commercial properties.	Online Learning	Arranged	Arranged	
BUSI_V 414-101	BUSI_V	414	101	Data Visualization and Business Analytics	W1	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 335.	In Person Learning	Mon	6:30 p.m. - 9:30 p.m.	
BUSI_V 414-102	BUSI_V	414	102	Data Visualization and Business Analytics	W1	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 335.	Hybrid Learning	Wed	3:00 p.m. - 6:00 p.m.	
BUSI_V 414-201	BUSI_V	414	201	Data Visualization and Business Analytics	W2	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 335.	In Person Learning	Tue	3:00 p.m. - 6:00 p.m.	
BUSI_V 414-202	BUSI_V	414	202	Data Visualization and Business Analytics	W2	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 335.	Hybrid Learning	Thu	6:30 p.m. - 9:30 p.m.	
BUSI_V 420-A_003	BUSI_V	420	A	A_003	W1	Integrated Business Leadership	Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
BUSI_V 433-001	BUSI_V	433	001	Real Estate Business	W1	General business skills for real estate practitioners.	Online Learning	Arranged	Arranged	
BUSI_V 433-002	BUSI_V	433	002	Real Estate Business	W2	General business skills for real estate practitioners.	Online Learning	Arranged	Arranged	
BUSI_V 441-001	BUSI_V	441	001	Real Estate Management I	W1	Examines the day-to-day issues which affect the practice of property management. Prerequisite: BUSI 330. BUSI 331 recommended.	Online Learning	Arranged	Arranged	
BUSI_V 441-002	BUSI_V	441	002	Real Estate Management I	W2	Examines the day-to-day issues which affect the practice of property management. Prerequisite: BUSI 330. BUSI 331 recommended.	Online Learning	Arranged	Arranged	
BUSI_V 442-001	BUSI_V	442	001	Case Studies in Appraisal I	W1	Examines the day-to-day issues that affect the practice of real estate appraisal. Prerequisite: All of BUSI 121, BUSI 330, BUSI 331.	Online Learning	Arranged	Arranged	
BUSI_V 442-002	BUSI_V	442	002	Case Studies in Appraisal I	W2	Examines the day-to-day issues that affect the practice of real estate appraisal. Prerequisite: All of BUSI 121, BUSI 330, BUSI 331.	Online Learning	Arranged	Arranged	

BUSI_V 443-001	BUSI_V	443	001	Assessment Administration	W1	Introduces the practice of real property assessment, including the nature of the techniques used, the required duties of assessors, and how an assessment office is administrated. Recommended pre-requisite: BUSI 330	Online Learning	Arranged	Arranged
BUSI_V 443-002	BUSI_V	443	002	Assessment Administration	W2	Introduces the practice of real property assessment, including the nature of the techniques used, the required duties of assessors, and how an assessment office is administrated. Recommended pre-requisite: BUSI 330	Online Learning	Arranged	Arranged
BUSI_V 444-001	BUSI_V	444	001	Computer Aided Mass Property Assessment	W1	This course develops and applies the major techniques for valuing real property. Recommended pre-requisites: all of BUSI 121, BUSI 330, BUSI 443.	Online Learning	Arranged	Arranged
BUSI_V 444-002	BUSI_V	444	002	Computer Aided Mass Property Assessment	W2	This course develops and applies the major techniques for valuing real property. Recommended pre-requisites: all of BUSI 121, BUSI 330, BUSI 443.	Online Learning	Arranged	Arranged
BUSI_V 445-001	BUSI_V	445	001	Real Estate Development I	W1	Real estate development process from the project idea to the cursory feasibility stage. Steps in development planning, including analysis, design and evaluation. Evaluating development potential, land acquisition, and site planning. Prerequisite: All of BUSI 330, BUSI 331.	Online Learning	Arranged	Arranged
BUSI_V 445-002	BUSI_V	445	002	Real Estate Development I	W2	Real estate development process from the project idea to the cursory feasibility stage. Steps in development planning, including analysis, design and evaluation. Evaluating development potential, land acquisition, and site planning. Prerequisite: All of BUSI 330, BUSI 331.	Online Learning	Arranged	Arranged
BUSI_V 446-001	BUSI_V	446	001	Real Estate Development II	W1	Analysis of real estate development process with an examination of economic feasibility studies, approval processes, project financing, construction, project management, and marketing phases. Prerequisite: BUSI445	Online Learning	Arranged	Arranged
BUSI_V 446-002	BUSI_V	446	002	Real Estate Development II	W2	Analysis of real estate development process with an examination of economic feasibility studies, approval processes, project financing, construction, project management, and marketing phases. Prerequisite: BUSI445	Online Learning	Arranged	Arranged
BUSI_V 450-101	BUSI_V	450	101	Intermediate Financial Accounting II	W1	A continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 370. Corequisite: BUSI353	In Person Learning	Wed	6:30 p.m. - 9:30 p.m.
BUSI_V 450-102	BUSI_V	450	102	Intermediate Financial Accounting II	W1	A continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 370. Corequisite: BUSI353	Hybrid Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 450-201	BUSI_V	450	201	Intermediate Financial Accounting II	W2	A continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 370. Corequisite: BUSI353	In Person Learning	Thu	6:30 p.m. - 9:30 p.m.
BUSI_V 450-202	BUSI_V	450	202	Intermediate Financial Accounting II	W2	A continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 370. Corequisite: BUSI353	Hybrid Learning	Mon	6:30 p.m. - 9:30 p.m.
BUSI_V 451-001	BUSI_V	451	001	Real Estate Management II	W1	Continuation of BUSI 441.	Online Learning	Arranged	Arranged
BUSI_V 451-002	BUSI_V	451	002	Real Estate Management II	W2	Continuation of BUSI 441.	Online Learning	Arranged	Arranged
BUSI_V 452-001	BUSI_V	452	001	Case Studies in Appraisal II	W1	Continuation of BUSI 442 This course is not eligible for Credit/D/Fail grading.	Online Learning	Arranged	Arranged
BUSI_V 452-002	BUSI_V	452	002	Case Studies in Appraisal II	W2	Continuation of BUSI 442 This course is not eligible for Credit/D/Fail grading.	Online Learning	Arranged	Arranged
BUSI_V 453-101	BUSI_V	453	101	Advanced Financial Accounting	W1	An examination of advanced financial accounting topics. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI450 Corequisite: BUSI450	In Person Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 453-102	BUSI_V	453	102	Advanced Financial Accounting	W1	An examination of advanced financial accounting topics. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI450 Corequisite: BUSI450	Hybrid Learning	Thu	6:30 p.m. - 9:30 p.m.
BUSI_V 453-201	BUSI_V	453	201	Advanced Financial Accounting	W2	An examination of advanced financial accounting topics. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI450 Corequisite: BUSI450	In Person Learning	Thu	6:30 p.m. - 9:30 p.m.
BUSI_V 453-202	BUSI_V	453	202	Advanced Financial Accounting	W2	An examination of advanced financial accounting topics. This course is not eligible for Credit/D/Fail grading. Prerequisite: BUSI450 Corequisite: BUSI450	Hybrid Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 455-101	BUSI_V	455	101	Principles of Auditing	W1	Principles of internal control; audit evidence; sampling and testing; audit reports; standards and responsibilities of the external audit. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 353, BUSI 450.	In Person Learning	Thu	6:30 p.m. - 9:30 p.m.
BUSI_V 455-102	BUSI_V	455	102	Principles of Auditing	W1	Principles of internal control; audit evidence; sampling and testing; audit reports; standards and responsibilities of the external audit. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 353, BUSI 450.	Hybrid Learning	Tue	6:30 p.m. - 9:30 p.m.
BUSI_V 455-201	BUSI_V	455	201	Principles of Auditing	W2	Principles of internal control; audit evidence; sampling and testing; audit reports; standards and responsibilities of the external audit. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 353, BUSI 450.	In Person Learning	Mon	6:30 p.m. - 9:30 p.m.

BUSI_V 455-202	BUSI_V	455	202	Principles of Auditing	W2	Principles of internal control; audit evidence; sampling and testing; audit reports; standards and responsibilities of the external audit. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 353, BUSI 450.	Hybrid Learning	Wed	6:30 p.m. - 9:30 p.m.	
BUSI_V 460-001	BUSI_V	460	001	Critical Analysis and Forecasting in Real Estate	W1	Delves into two quantitative decision-making methodologies--decision analysis and forecasting--and explores them using a problem-solving framework. Prerequisite: BUSI 121. BUSI 331 and BUSI 444 are also recommended.	Online Learning	Arranged	Arranged	
BUSI_V 460-002	BUSI_V	460	002	Critical Analysis and Forecasting in Real Estate	W2	Delves into two quantitative decision-making methodologies--decision analysis and forecasting--and explores them using a problem-solving framework. Prerequisite: BUSI 121. BUSI 331 and BUSI 444 are also recommended.	Online Learning	Arranged	Arranged	
BUSI_V 465-101	BUSI_V	465	101	Marketing Management	W1	Basic considerations affecting the domestic and international marketing of goods and services. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 295.	In Person Learning	Arranged	Arranged	
BUSI_V 465-102	BUSI_V	465	102	Marketing Management	W1	Basic considerations affecting the domestic and international marketing of goods and services. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 295.	In Person Learning	Mon	6:00 p.m. - 9:00 p.m.	
BUSI_V 465-203	BUSI_V	465	203	Marketing Management	W2	Basic considerations affecting the domestic and international marketing of goods and services. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 293, BUSI 295.	In Person Learning	Mon	6:00 p.m. - 9:00 p.m.	
BUSI_V 485-102	BUSI_V	485	102	Taxes and Decision Making	W1	Analysis of business and financial decisions in the presence of taxes. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
BUSI_V 493-101	BUSI_V	493	101	Strategic Management in Business	W1	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 293, BUSI 294, BUSI 295, BUSI 335, BUSI 353, BUSI 370, BUSI 393, BUSI 450.	In Person Learning	Wed	6:30 p.m. - 9:30 p.m.	
BUSI_V 493-102	BUSI_V	493	102	Strategic Management in Business	W1	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 293, BUSI 294, BUSI 295, BUSI 335, BUSI 353, BUSI 370, BUSI 393, BUSI 450.	Hybrid Learning	Mon	6:30 p.m. - 9:30 p.m.	
BUSI_V 493-201	BUSI_V	493	201	Strategic Management in Business	W2	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 293, BUSI 294, BUSI 295, BUSI 335, BUSI 353, BUSI 370, BUSI 393, BUSI 450.	In Person Learning	Wed	6:30 p.m. - 9:30 p.m.	
BUSI_V 493-202	BUSI_V	493	202	Strategic Management in Business	W2	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of BUSI 291, BUSI 293, BUSI 294, BUSI 295, BUSI 335, BUSI 353, BUSI 370, BUSI 393, BUSI 450.	Hybrid Learning	Thu	6:30 p.m. - 9:30 p.m.	
BUSI_V 497-001	BUSI_V	497	001	Guided Case Study in Agricultural Real Estate	W1-2	An agriculturally-focused version of BUSI 499. Prerequisite: All of BUSI 330, BUSI 331, BUSI 442, BUSI 452.	Online Learning	Arranged	Arranged	
BUSI_V 497-002	BUSI_V	497	002	Guided Case Study in Agricultural Real Estate	W1-2	An agriculturally-focused version of BUSI 499. Prerequisite: All of BUSI 330, BUSI 331, BUSI 442, BUSI 452.	Online Learning	Arranged	Arranged	
BUSI_V 499-A_001	BUSI_V	499	A	A_001	Income Property Guided Case Study	W1-2	The income property appraisal process, focusing both on valuation techniques as well as general research and report writing skills. Prerequisite: All of BUSI 330, BUSI 331, BUSI 442, BUSI 452.	Online Learning	Arranged	Arranged
BUSI_V 499-A_002	BUSI_V	499	A	A_002	Income Property Guided Case Study	W2	The income property appraisal process, focusing both on valuation techniques as well as general research and report writing skills. Prerequisite: All of BUSI 330, BUSI 331, BUSI 442, BUSI 452.	Online Learning	Arranged	Arranged
CAP_V 100-E01	CAP_V	100	E01	Introduction to Writing and Research in the Social Sciences and the Humanities	W1	Analysis of and practice in academic research and writing in the social sciences and the humanities. Restricted to students in the Coordinated Arts Program. Credits count toward the Writing Component of the Faculty of Arts Writing and Research Requirement. Credit will be granted for only one of CAP 100 or ASTU 101. Equivalency: ASTU 101.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
CAP_V 100-E02	CAP_V	100	E02	Introduction to Writing and Research in the Social Sciences and the Humanities	W1	Analysis of and practice in academic research and writing in the social sciences and the humanities. Restricted to students in the Coordinated Arts Program. Credits count toward the Writing Component of the Faculty of Arts Writing and Research Requirement. Credit will be granted for only one of CAP 100 or ASTU 101. Equivalency: ASTU 101.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
CAP_V 100-E03	CAP_V	100	E03	Introduction to Writing and Research in the Social Sciences and the Humanities	W1	Analysis of and practice in academic research and writing in the social sciences and the humanities. Restricted to students in the Coordinated Arts Program. Credits count toward the Writing Component of the Faculty of Arts Writing and Research Requirement. Credit will be granted for only one of CAP 100 or ASTU 101. Equivalency: ASTU 101.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
CAP_V 100-E04	CAP_V	100	E04	Introduction to Writing and Research in the Social Sciences and the Humanities	W1	Analysis of and practice in academic research and writing in the social sciences and the humanities. Restricted to students in the Coordinated Arts Program. Credits count toward the Writing Component of the Faculty of Arts Writing and Research Requirement. Credit will be granted for only one of CAP 100 or ASTU 101. Equivalency: ASTU 101.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.	

CAP_V 101-E01	CAP_V	101	E01	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAP_V 101-E02	CAP_V	101	E02	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAP_V 101-E03	CAP_V	101	E03	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CAP_V 101-E04	CAP_V	101	E04	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CAP_V 101-I01	CAP_V	101	I01	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAP_V 101-I02	CAP_V	101	I02	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CAP_V 101-I03	CAP_V	101	I03	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CAP_V 101-I04	CAP_V	101	I04	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CAP_V 101-I05	CAP_V	101	I05	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CAP_V 101-L01	CAP_V	101	L01	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAP_V 101-L02	CAP_V	101	L02	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CAP_V 101-L03	CAP_V	101	L03	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CAP_V 101-L04	CAP_V	101	L04	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CAP_V 101-M01	CAP_V	101	M01	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAP_V 101-M02	CAP_V	101	M02	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CAP_V 101-M03	CAP_V	101	M03	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CAP_V 101-M04	CAP_V	101	M04	Introduction to Reading and Research in Literary, Cultural, and Media Studies	W2	Applications of research and writing skills in the context of literary, cultural, and media analysis. Topics integrate CAP stream themes and vary each year. Restricted to students in the Coordinated Arts Program. Credit will be granted for only one of CAP 101 or ASTU 100. Equivalency: ASTU 100	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CAPS_V 205-001	CAPS_V	205	001	Fundamentals of Physiology in Human Health and Disease I	W1	The principles of physiological regulation of neuromuscular, cardiovascular and blood systems in the human body with practical applications in health and disease. Credit will only be granted for one of CAPS 301 or CAPS 205. [3-0-0] Prerequisite: All of BIOL 112, CHEM 123, MATH 101. and 100-level PHYS beyond PHYS 100.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAPS_V 206-001	CAPS_V	206	001	Fundamentals of Physiology in Human Health and Disease II	W2	The principles of physiological regulation of respiratory, renal, gastrointestinal, endocrine and reproductive systems in the human body with practical applications in health and disease. Credit will only be granted for one of CAPS 301 or CAPS 206. [3-0-0] Prerequisite: All of BIOL 112, CHEM 123, MATH 101. and 100-level PHYS beyond PHYS 100.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAPS_V 210-001	CAPS_V	210	001	Human Health Literacy	W1	An on-line course teaching students to research and understand relevant health diagnoses. Not for students with Biology 12, Anatomy and Physiology 12, or enrolled in the Faculties of Science, Land and Food Systems, Pharmaceutical Sciences, Applied Science or School of Kinesiology. [3-0-0] Organ systems function with particular reference to mammalian and human physiology. See credit exclusion list: <a href="https://vancover.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancover.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . Credit will only be granted for one of CAPS 301 or CAPS 205. Credit will only be granted for one of CAPS 301 or CAPS 206. [3-0-0;3-0-0] Prerequisite: Either (a) SCIE 001 or (b) all of BIOL 112, BIOL 121 and one of MATH 101, MATH 103, MATH 105, MATH 121 and one of PHYS 100, PHYS 101, PHYS 107, PHYS 117, PHYS 131 and one of CHEM 203, CHEM 233, CHEM 260.	In Person Learning	Sun	7:30 p.m. - 8:30 p.m.
CAPS_V 301-01D	CAPS_V	301	01D	Human Physiology	W1-2	Techniques and principles of human physiology. This course must be taken in conjunction with CAPS 301. Restricted to Cellular, Anatomical and Physiological Sciences and Pharmacology students. [1-4-0] Corequisite: One of CAPS 305, CAPS 301.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CAPS_V 303-001	CAPS_V	303	001	Laboratory in Human Physiology	W1-2	Techniques and principles of human physiology. This course must be taken in conjunction with CAPS 301. Restricted to Cellular, Anatomical and Physiological Sciences and Pharmacology students. [1-4-0] Corequisite: One of CAPS 305, CAPS 301.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.

CAPS_V 390-001	CAPS_V	390	001	Introduction to Microscopic Human Anatomy	W1	Organ system development, structure and function at the microscopic level. [3-0-0] Prerequisite: One of BIOL 121, SCIE 001. BIOL 200 is recommended.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
CAPS_V 391-001	CAPS_V	391	001	Introduction to Gross Human Anatomy	W2	Structure and function of body regions at the macroscopic level. [3-0-0] Prerequisite: One of BIOL 121, SCIE 001, KIN 190, KIN 191.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
CAPS_V 398-001	CAPS_V	398	001	Cooperative Work Placement	W1	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full-time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: All of CAPS 205, CAPS 303 and one of CAPS 206, CAPS 301.	In Person Learning	Arranged	Arranged	
CAPS_V 398-002	CAPS_V	398	002	Cooperative Work Placement	W2	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full-time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: All of CAPS 205, CAPS 303 and one of CAPS 206, CAPS 301.	In Person Learning	Arranged	Arranged	
CAPS_V 399-001	CAPS_V	399	001	Cooperative Work Placement II	W1	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full-time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: CAPS 398.	In Person Learning	Arranged	Arranged	
CAPS_V 399-002	CAPS_V	399	002	Cooperative Work Placement II	W2	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full-time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: CAPS 398.	In Person Learning	Arranged	Arranged	
CAPS_V 421-001	CAPS_V	421	001	Cell Biology and Human Disease	W1	Outlines major discoveries and current advancements that are revolutionizing our understanding of subcellular structures and function in health and disease, such as cancer. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Either (a) all of CAPS 306, CAPS 310 or (b) one of CAPS 301, NSCI 300.	In Person Learning	Mon Wed	2:00 p.m. - 4:00 p.m.	
CAPS_V 422-001	CAPS_V	422	001	Mammalian Cardiovascular and Respiratory Physiology	W1	The control and integration of cardio-pulmonary function in mammals. Intended for Honours students in Cellular, Anatomical and Physiological Sciences or other life sciences. [3-0-0] Prerequisite: A cumulative average of 75% over at least 90 credits attempted in the first three years of a student's program and a minimum mark of 75% in CAPS 301 or PHYL 301 or its equivalent. Permission of the course director is also required.	In Person Learning	Tue Thu	8:00 a.m. - 10:00 a.m.	
CAPS_V 423-001	CAPS_V	423	001	Human Renal and Gastrointestinal Physiology	W1	Control of human renal and gastrointestinal systems. Role in homeostasis in health and disease. Intended for students in Cellular, Anatomical and Physiological Sciences or other life sciences. [3-0-0] Prerequisite: Either (a) all of CAPS 305, CAPS 306 or (b) CAPS 301.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.	
CAPS_V 424-001	CAPS_V	424	001	Mammalian Endocrinology	W2	Hormonal control of homeostatic, metabolic and reproductive function. Intended for Honours students in Cellular, Anatomical and Physiological Sciences or other life sciences. [3-0-0] Prerequisite: A cumulative average of 75% over at least 90 credits attempted in the first three years of a student's program and a minimum mark of 75% in CAPS 301 or PHYL 301. Permission of the course director is also required.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.	
CAPS_V 426-001	CAPS_V	426	001	Nervous System Function in Human Health and Disease	W2	An integrated study of the theory and experimental findings of neuronal synaptic plasticity, including underlying molecular mechanisms and their role in cellular systems, cognitive biology and disease. [3-0-0] Prerequisite: One of CAPS 305, CAPS 301, NSCI 300.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.	
CAPS_V 431-001	CAPS_V	431	001	Advanced Laboratory in the Physiology of Human Health and Disease	W2	Techniques relevant to human genetics and physiology in the assessment of human health and disease. This course is restricted to CAPS students. [1-4-0] Prerequisite: CAPS 303.	In Person Learning	Fri	10:00 a.m. - 5:00 p.m.	
CAPS_V 448-A_001	CAPS_V	448	A	A_001	Directed Studies in Physiology	W1		In Person Learning	Arranged	Arranged
CAPS_V 448-B_002	CAPS_V	448	B	B_002	Directed Studies in Physiology	W2		In Person Learning	Arranged	Arranged
CAPS_V 448-C_003	CAPS_V	448	C	C_003	Directed Studies in Physiology	W1-2		In Person Learning	Sun	5:30 p.m. - 6:30 p.m.
CAPS_V 449-001	CAPS_V	449	001	Graduating Essay	W1-2	Written report and presentation on an independent investigation approved by the department head.	In Person Learning	Sun	8:30 p.m. - 9:00 p.m.	
CAPS_V 498-001	CAPS_V	498	001	Cooperative Work Placement III	W1	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: CAPS 399.	In Person Learning	Arranged	Arranged	
CAPS_V 498-002	CAPS_V	498	002	Cooperative Work Placement III	W2	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: CAPS 399.	In Person Learning	Arranged	Arranged	
CAPS_V 499-001	CAPS_V	499	001	Cooperative Work Placement IV	W1	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: CAPS 498.	In Person Learning	Arranged	Arranged	
CAPS_V 499-002	CAPS_V	499	002	Cooperative Work Placement IV	W2	Approved and supervised relevant work experience in an industrial, academic, or government setting for a minimum of 13 weeks full time. Work term report required. Restricted to students admitted to the Co-op Option in Cellular, Anatomical and Physiological Sciences (B.Sc.). This course is not eligible for Credit/D/Fail grading. Prerequisite: CAPS 498.	In Person Learning	Arranged	Arranged	

CCFI_V 501-62A	CCFI_V	501	62A	Living Inquiry in Learning Communities	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CCFI_V 699-050	CCFI_V	699	050	Doctoral Dissertation	W1-2		In Person Learning	Arranged	Arranged	
CCFI_V 699-051	CCFI_V	699	051	Doctoral Dissertation	W1		In Person Learning	Arranged	Arranged	
CCFI_V 699-052	CCFI_V	699	052	Doctoral Dissertation	W2		In Person Learning	Arranged	Arranged	
CCST_V 500-001	CCST_V	500	001	Seminar in Interdisciplinary Frameworks in Museum and Curatorial Studies	W1	Theoretical and historical foundations of visual representations and expressive culture. It explores the history of museums and galleries, and changes in the meaning of art and material culture as debates about cultural property intensify. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.	
CCST_V 501-001	CCST_V	501	001	Seminar in Contemporary Contextual Issues for Museums and Curatorial Practice	W2	An examination of broad social and political issues that confront curators and museum professionals who construct representations in museums, art galleries and other sites of public display. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.	
CCST_V 503-001	CCST_V	503	001	Graduate Practicum and Major Paper in Curatorial Studies	W1-2	Practical on-site teamwork to produce exhibitions or other public displays in a museum, gallery, or alternative situation, offering opportunities for comparison, collaboration, and interdisciplinarity. Students concurrently produce a major paper from the ideas and research which generate the exhibition. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.	
CCST_V 503-002	CCST_V	503	002	Graduate Practicum and Major Paper in Curatorial Studies	W1	Practical on-site teamwork to produce exhibitions or other public displays in a museum, gallery, or alternative situation, offering opportunities for comparison, collaboration, and interdisciplinarity. Students concurrently produce a major paper from the ideas and research which generate the exhibition. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CDST_V 250-A_011	CDST_V	250	A	A_011	Introduction to Canada	W1	Approaches to the study of Canada from an interdisciplinary perspective, including cultural, political, historical, and economic dimensions.	In Person Learning	Tue	5:00 p.m. - 6:00 p.m.
CDST_V 250-A_D11	CDST_V	250	A	A_D11	Introduction to Canada	W1	Approaches to the study of Canada from an interdisciplinary perspective, including cultural, political, historical, and economic dimensions.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CDST_V 250-A_D12	CDST_V	250	A	A_D12	Introduction to Canada	W1	Approaches to the study of Canada from an interdisciplinary perspective, including cultural, political, historical, and economic dimensions.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CDST_V 250-A_D13	CDST_V	250	A	A_D13	Introduction to Canada	W1	Approaches to the study of Canada from an interdisciplinary perspective, including cultural, political, historical, and economic dimensions.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CDST_V 250-A_D14	CDST_V	250	A	A_D14	Introduction to Canada	W1	Approaches to the study of Canada from an interdisciplinary perspective, including cultural, political, historical, and economic dimensions.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CDST_V 350-B_101	CDST_V	350	B	B_101	Canadian Studies	W1	An interdisciplinary introduction to Canadian studies. Required of all Canadian Studies Majors.	In Person Learning	Thu	11:00 a.m. - 12:30 p.m.
CDST_V 350-B_102	CDST_V	350	B	B_102	Canadian Studies	W1	An interdisciplinary introduction to Canadian studies. Required of all Canadian Studies Majors.	In Person Learning	Thu	3:00 p.m. - 6:00 p.m.
CDST_V 450-B_201	CDST_V	450	B	B_201	Senior Seminar in Canadian Studies	W2	The Canadian experience from a variety of disciplinary perspectives. Offered by the McLean Chair in Canadian Studies. Required of all Canadian Studies Majors.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.
CEEN_V 501-201	CEEN_V	501	201	Energy System Fundamentals	W2	Thermodynamic analysis of energy conversion processes, power cycles and refrigeration cycles. Energy analysis of conventional energy systems. Thermal conversion technologies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
CEEN_V 523-201	CEEN_V	523	201	Energy and the Environment	W2	Energy/environment/society interactions; development of energy resources; energy demand and its determinants; policy dimension of energy and climate change; impacts on ecosystems; life cycle analysis; impact assessment and other tools for quantitative and qualitative evaluation of alternative energy sources. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
CEEN_V 525-101	CEEN_V	525	101	Energy Policy	W1	Energy policy process and governance. Sustainable energy as a social and political challenge, formal government structures and process, actors in the policy, policy analysis, policy instrument, and energy planning and approval processes, including environmental assessment. Introduction to demand-side energy policy. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.	
CEEN_V 525-T01	CEEN_V	525	T01	Energy Policy	W1	Energy policy process and governance. Sustainable energy as a social and political challenge, formal government structures and process, actors in the policy, policy analysis, policy instrument, and energy planning and approval processes, including environmental assessment. Introduction to demand-side energy policy. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 3:00 p.m.	
CEEN_V 550-101	CEEN_V	550	101	Energy Efficiency and Conservation	W1	Engineering concepts of demand side management (DSM), energy auditing, analysis of buildings and industrial equipment, measurement & verification, and system data analysis. Energy efficient technologies for green buildings and industrial processes. Behavior and energy use. DSM policy concepts. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.	

CEEN_V 550-T01	CEEN_V	550	T01	Energy Efficiency and Conservation	W1	Engineering concepts of demand side management (DSM), energy auditing, analysis of buildings and industrial equipment, measurement & verification, and system data analysis. Energy efficient technologies for green buildings and industrial processes. Behavior and energy use. DSM policy concepts. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
CELL_V 501-001	CELL_V	501	001	Cell and Developmental Biology Research Literature	W2	Development of written communication and critical thinking skills. This course is not eligible for Credit/D/Fail grading. Prerequisite: BIOL 530.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.
CELL_V 502-001	CELL_V	502	001	Current Topics in Developmental Biology	W1	Cellular and molecular mechanisms of development from the earliest stages of axis formation to organogenesis. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Thu	3:00 p.m. - 5:00 p.m.
CELL_V 503-001	CELL_V	503	001	Current Topics in Cellular Communication	W2	Cellular communication within tissues by direct contact and by modulating and responding to the microenvironment. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	4:00 p.m. - 6:30 p.m.
CELL_V 504-001	CELL_V	504	001	Current Topics in Cytoskeleton and Cell Motility	W2	Structure and function of the cytoskeleton, and its involvement in various forms of cell and intracellular motility. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:30 p.m.
CELL_V 505-001	CELL_V	505	001	Current Topics in Intracellular Trafficking	W2	Organization of membranes and organelles within cells and how molecules are targeted to intracellular sites. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	12:30 p.m. - 4:00 p.m.
CELL_V 506-001	CELL_V	506	001	Fluorescence Microscopy	W2	Principles and applications in biological research. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.
CELL_V 507-001	CELL_V	507	001	Special Techniques and Protocols in Cell and Developmental Biology	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 3:00 p.m.
CELL_V 508-001	CELL_V	508	001	Molecular Genetic Analysis	W2	Methodologies and resources for genetic analysis of cellular function. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CELL_V 509-001	CELL_V	509	001	Cell Systems Biology	W2	The integration of basic cellular processes to produce a functioning cell. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	1:30 p.m. - 4:30 p.m.
CELL_V 549-001	CELL_V	549	001	M.Sc. Thesis	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CELL_V 549-002	CELL_V	549	002	M.Sc. Thesis	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CELL_V 549-003	CELL_V	549	003	M.Sc. Thesis	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CELL_V 649-001	CELL_V	649	001	Doctoral Dissertation	W1		In Person Learning	Arranged	Arranged
CELL_V 649-002	CELL_V	649	002	Doctoral Dissertation	W2		In Person Learning	Arranged	Arranged
CELL_V 649-003	CELL_V	649	003	Doctoral Dissertation	W1-2		In Person Learning	Arranged	Arranged
CENS_V 104-101	CENS_V	104	101	Canadian Monuments to Central and Eastern European History	W1	Structural monuments and sites dedicated to the history of an immigration from Central and Eastern Europe in Canada and their influence on Canadian cultures of remembrance.	Multi-access Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CENS_V 201-101	CENS_V	201	101	Contrasts and Conflicts: The Cultures of Central, Eastern and Northern Europe (in English)	W1	An introduction to the cultural history of the peoples of Central, Eastern and Northern Europe as reflected in their literature, art and music.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
CENS_V 201-102	CENS_V	201	102	Contrasts and Conflicts: The Cultures of Central, Eastern and Northern Europe (in English)	W1	An introduction to the cultural history of the peoples of Central, Eastern and Northern Europe as reflected in their literature, art and music.	In Person Learning	Arranged	Arranged
CENS_V 201-201	CENS_V	201	201	Contrasts and Conflicts: The Cultures of Central, Eastern and Northern Europe (in English)	W2	An introduction to the cultural history of the peoples of Central, Eastern and Northern Europe as reflected in their literature, art and music.	Multi-access Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CENS_V 202-101	CENS_V	202	101	Great Works of Literature from Central, Eastern and Northern Europe (in English).	W1	Major works of Central, Eastern and Northern European literature from the eighteenth century to the present in their European context.	Online Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CENS_V 202-102	CENS_V	202	102	Great Works of Literature from Central, Eastern and Northern Europe (in English).	W1	Major works of Central, Eastern and Northern European literature from the eighteenth century to the present in their European context.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.

CENS_V 202-103	CENS_V	202	103	Great Works of Literature from Central, Eastern and Northern Europe (in English).	W1	Major works of Central, Eastern and Northern European literature from the eighteenth century to the present in their European context.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CENS_V 202-104	CENS_V	202	104	Great Works of Literature from Central, Eastern and Northern Europe (in English).	W1	Major works of Central, Eastern and Northern European literature from the eighteenth century to the present in their European context.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CENS_V 202-201	CENS_V	202	201	Great Works of Literature from Central, Eastern and Northern Europe (in English).	W2	Major works of Central, Eastern and Northern European literature from the eighteenth century to the present in their European context.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
CENS_V 202-202	CENS_V	202	202	Great Works of Literature from Central, Eastern and Northern Europe (in English).	W2	Major works of Central, Eastern and Northern European literature from the eighteenth century to the present in their European context.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
CENS_V 203-101	CENS_V	203	101	Arctic Art and Activism	W1	Examination of contemporary political and social conflicts in the arctic and circumpolar north, focusing on ways Indigenous people have used art, performance and activism as a tool for resistance and decolonization.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CENS_V 303-101	CENS_V	303	101	Representations of the Holocaust: Ghetto	W1	The Nazi Ghetto in film and literature from Central, Eastern, and Northern European Countries.	Online Learning	Arranged	Arranged
CENS_V 304-101	CENS_V	304	101	Representations of the Holocaust: Auschwitz	W1	Concentration camps in art, film and literature from Central, Eastern and Northern European countries.	Online Learning	Arranged	Arranged
CENS_V 307-101	CENS_V	307	101	Witches: Myth and Reality	W1	Examination of the cultural, social, and historical construction of the witch in central and northern Europe with comparisons to recent history, current events, and popular culture.	In Person Learning	Thu	11:00 a.m. - 12:30 p.m.
CENS_V 307-201	CENS_V	307	201	Witches: Myth and Reality	W2	Examination of the cultural, social, and historical construction of the witch in central and northern Europe with comparisons to recent history, current events, and popular culture.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CENS_V 307-D01	CENS_V	307	D01	Witches: Myth and Reality	W1	Examination of the cultural, social, and historical construction of the witch in central and northern Europe with comparisons to recent history, current events, and popular culture.	In Person Learning	Arranged	Arranged
CENS_V 307-D02	CENS_V	307	D02	Witches: Myth and Reality	W2	Examination of the cultural, social, and historical construction of the witch in central and northern Europe with comparisons to recent history, current events, and popular culture.	In Person Learning	Arranged	Arranged
CENS_V 308-101	CENS_V	308	101	Comics and Graphic Novels in Central, Eastern and Northern Europe	W1	Political, cultural and social themes in European comics and graphic media.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
CENS_V 315-201	CENS_V	315	201	Becoming Multilingual: Experience, Aesthetics, Community	W2	Practice, theory, history, aesthetics, and poetics of the multilingual experience in its diverse contexts in Central, Eastern, and Northern Europe.	In Person Learning	Arranged	Arranged
CENS_V 404-101	CENS_V	404	101	Gender and Nation: Women's State in Modern Central, Eastern and Northern European Literatures and Cultures	W1	Cultural and social discourses of gender in literary works written in Central, Eastern and Northern Europe roughly between 1850 - 1930.	Multi-access Learning	Tue	5:00 p.m. - 8:00 p.m.
CHBE_V 201-101	CHBE_V	201	101	Integrated Technical Communication	W1	Written and oral communication in chemical and biological engineering: business correspondence, laboratory reports, technical description, and poster presentations. Restricted to students in second year of the Chemical and Biological Engineering programs. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150. Corequisite: CHBE 220.	In Person Learning	Fri	1:00 p.m. - 2:30 p.m.
CHBE_V 201-102	CHBE_V	201	102	Integrated Technical Communication	W1	Written and oral communication in chemical and biological engineering: business correspondence, laboratory reports, technical description, and poster presentations. Restricted to students in second year of the Chemical and Biological Engineering programs. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150. Corequisite: CHBE 220.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 201-103	CHBE_V	201	103	Integrated Technical Communication	W1	Written and oral communication in chemical and biological engineering: business correspondence, laboratory reports, technical description, and poster presentations. Restricted to students in second year of the Chemical and Biological Engineering programs. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150. Corequisite: CHBE 220.	In Person Learning	Fri	2:30 p.m. - 4:00 p.m.
CHBE_V 220-101	CHBE_V	220	101	Founding Principles in Chemical and Biological Engineering I	W1	Introduction to Chemical and Biological Engineering profession and the physical sciences that form the founding principles of the discipline. Recommended Corequisite: CHBE 201. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of CHEM 154, MATH 101.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
CHBE_V 220-T1A	CHBE_V	220	T1A	Founding Principles in Chemical and Biological Engineering I	W1	Introduction to Chemical and Biological Engineering profession and the physical sciences that form the founding principles of the discipline. Recommended Corequisite: CHBE 201. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of CHEM 154, MATH 101.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
CHBE_V 221-201	CHBE_V	221	201	Founding Principles in Chemical and Biological Engineering II	W2	Introduction to Chemical and Biological Engineering profession with emphasis on the biological sciences that form the founding principles of the discipline. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CHBE 220.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 221-T2A	CHBE_V	221	T2A	Founding Principles in Chemical and Biological Engineering II	W2	Introduction to Chemical and Biological Engineering profession with emphasis on the biological sciences that form the founding principles of the discipline. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CHBE 220.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.

CHBE_V 230-201	CHBE_V	230	201	Computational Methods	W2	Mathematical formulation of chemical and biological engineering problems; standard techniques of numerical analysis and their application to chemical, environmental and biotechnological systems; program development; use of commercial numerical analysis software. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: APSC 160. Corequisite: MATH 256.	In Person Learning	Tue	3:30 p.m. - 5:30 p.m.
CHBE_V 230-T2A	CHBE_V	230	T2A	Computational Methods	W2	Mathematical formulation of chemical and biological engineering problems; standard techniques of numerical analysis and their application to chemical, environmental and biotechnological systems; program development; use of commercial numerical analysis software. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: APSC 160. Corequisite: MATH 256.	In Person Learning	Thu	3:30 p.m. - 5:30 p.m.
CHBE_V 241-101	CHBE_V	241	101	Material and Energy Balances	W1	Introduction to Chemical and Biological Engineering; units; stoichiometry; phase equilibria; material balances; energy balances. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of CHEM 154, MATH 152.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHBE_V 241-T1A	CHBE_V	241	T1A	Material and Energy Balances	W1	Introduction to Chemical and Biological Engineering; units; stoichiometry; phase equilibria; material balances; energy balances. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of CHEM 154, MATH 152.	In Person Learning	Thu	1:00 p.m. - 2:00 p.m.
CHBE_V 241-T1B	CHBE_V	241	T1B	Material and Energy Balances	W1	Introduction to Chemical and Biological Engineering; units; stoichiometry; phase equilibria; material balances; energy balances. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of CHEM 154, MATH 152.	In Person Learning	Thu	1:00 p.m. - 2:00 p.m.
CHBE_V 241-T1C	CHBE_V	241	T1C	Material and Energy Balances	W1	Introduction to Chemical and Biological Engineering; units; stoichiometry; phase equilibria; material balances; energy balances. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of CHEM 154, MATH 152.	In Person Learning	Thu	1:00 p.m. - 2:00 p.m.
CHBE_V 241-T1D	CHBE_V	241	T1D	Material and Energy Balances	W1	Introduction to Chemical and Biological Engineering; units; stoichiometry; phase equilibria; material balances; energy balances. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of CHEM 154, MATH 152.	In Person Learning	Thu	1:00 p.m. - 2:00 p.m.
CHBE_V 244-201	CHBE_V	244	201	Chemical and Biological Engineering Thermodynamics I	W2	Energy and the first law; second law of thermodynamics; entropy; availability (energy) analysis; thermodynamic properties of fluids, application to power generation, refrigeration, and liquefaction, as well as biological, environmental, and electrochemical systems. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: CHBE 241.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CHBE_V 244-T2A	CHBE_V	244	T2A	Chemical and Biological Engineering Thermodynamics I	W2	Energy and the first law; second law of thermodynamics; entropy; availability (energy) analysis; thermodynamic properties of fluids, application to power generation, refrigeration, and liquefaction, as well as biological, environmental, and electrochemical systems. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: CHBE 241.	In Person Learning	Thu (Alternate weeks)	12:00 p.m. - 2:00 p.m.
CHBE_V 251-201	CHBE_V	251	201	Transport Phenomena I	W2	Fluid Mechanics. Momentum-transfer in fluids in laminar and turbulent flow; microscopic and macroscopic material; momentum and energy balances; rheology; dimensional analysis; flow in conduits; pumps; fluid metering. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: [PHYS170] Corequisite: One of MATH 255, MATH 256.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHBE_V 251-T2A	CHBE_V	251	T2A	Transport Phenomena I	W2	Fluid Mechanics. Momentum-transfer in fluids in laminar and turbulent flow; microscopic and macroscopic material; momentum and energy balances; rheology; dimensional analysis; flow in conduits; pumps; fluid metering. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: [PHYS170] Corequisite: One of MATH 255, MATH 256.	In Person Learning	Thu (Alternate weeks)	12:00 p.m. - 2:00 p.m.
CHBE_V 263-101	CHBE_V	263	101	Introduction to Chemical and Biological Engineering Laboratory Practice	W1	Introduction to Chemical and Biological Engineering laboratory practice with topics in physical, inorganic and organic chemistry. This course is not eligible for Credit/D/Fail grading. [0-2-0] Corequisite: All of CHBE 220, CHBE 241, CHEM 250, CHEM 260.	In Person Learning	Mon	4:00 p.m. - 6:00 p.m.
CHBE_V 263-102	CHBE_V	263	102	Introduction to Chemical and Biological Engineering Laboratory Practice	W1	Introduction to Chemical and Biological Engineering laboratory practice with topics in physical, inorganic and organic chemistry. This course is not eligible for Credit/D/Fail grading. [0-2-0] Corequisite: All of CHBE 220, CHBE 241, CHEM 250, CHEM 260.	In Person Learning	Mon	4:00 p.m. - 6:00 p.m.
CHBE_V 263-103	CHBE_V	263	103	Introduction to Chemical and Biological Engineering Laboratory Practice	W1	Introduction to Chemical and Biological Engineering laboratory practice with topics in physical, inorganic and organic chemistry. This course is not eligible for Credit/D/Fail grading. [0-2-0] Corequisite: All of CHBE 220, CHBE 241, CHEM 250, CHEM 260.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
CHBE_V 263-104	CHBE_V	263	104	Introduction to Chemical and Biological Engineering Laboratory Practice	W1	Introduction to Chemical and Biological Engineering laboratory practice with topics in physical, inorganic and organic chemistry. This course is not eligible for Credit/D/Fail grading. [0-2-0] Corequisite: All of CHBE 220, CHBE 241, CHEM 250, CHEM 260.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
CHBE_V 264-201	CHBE_V	264	201	Chemical and Biological Engineering Laboratory	W2	Laboratory experiment in 2nd year Chemical and Biological Engineering This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: CHBE 263. Corequisite: All of CHBE 244, CHBE 251.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
CHBE_V 264-L2A	CHBE_V	264	L2A	Chemical and Biological Engineering Laboratory	W2	Laboratory experiment in 2nd year Chemical and Biological Engineering This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: CHBE 263. Corequisite: All of CHBE 244, CHBE 251.	In Person Learning	Mon	2:00 p.m. - 6:00 p.m.
CHBE_V 264-L2B	CHBE_V	264	L2B	Chemical and Biological Engineering Laboratory	W2	Laboratory experiment in 2nd year Chemical and Biological Engineering This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: CHBE 263. Corequisite: All of CHBE 244, CHBE 251.	In Person Learning	Wed	2:00 p.m. - 6:00 p.m.
CHBE_V 344-101	CHBE_V	344	101	Introduction to Unit Operations	W1	Foundational concepts and design equations for basic unit operations such as: comminution, screening, filtration, centrifugal separations, evaporation and crystallization. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: Either (a) all of CHBE 241, CHBE 244 or (b) CIVL 215. Or third-year standing in ENVE. Not for credit for CHBE students.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CHBE_V 344-T1A	CHBE_V	344	T1A	Introduction to Unit Operations	W1	Foundational concepts and design equations for basic unit operations such as: comminution, screening, filtration, centrifugal separations, evaporation and crystallization. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: Either (a) all of CHBE 241, CHBE 244 or (b) CIVL 215. Or third-year standing in ENVE. Not for credit for CHBE students.	In Person Learning	Thu	2:00 p.m. - 3:00 p.m.

CHBE_V 345-201	CHBE_V	345	201	Unit Operations	W2	Stage-wise mass transfer operations; extraction and absorption; single and stage-wise binary and multi-component distillation; principles and equipment design for continuous contact mass transfer operations including absorption, binary distillation and others such as extraction, drying, and humidification. This course is not eligible for Credit/D/Fail grading. [4-0-2*] Prerequisite: All of CHBE 346, CHBE 352.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHBE_V 345-T2A	CHBE_V	345	T2A	Unit Operations	W2	Stage-wise mass transfer operations; extraction and absorption; single and stage-wise binary and multi-component distillation; principles and equipment design for continuous contact mass transfer operations including absorption, binary distillation and others such as extraction, drying, and humidification. This course is not eligible for Credit/D/Fail grading. [4-0-2*] Prerequisite: All of CHBE 346, CHBE 352.	In Person Learning	Mon (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 346-101	CHBE_V	346	101	Chemical and Biological Engineering Thermodynamics II	W1	Volumetric and thermodynamic properties of fluids; equations of state; heat effects; ideal and non-ideal mixtures; fugacities and activity coefficients; vapor-liquid and liquid-liquid phase equilibrium; solubility of gases and solids in liquids; chemical reaction equilibrium; equilibrium partitioning of pollutants. Recommended prerequisite: MATH 256. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: All of CHBE 220, CHBE 241, CHBE 244, MATH 253.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHBE_V 346-T1A	CHBE_V	346	T1A	Chemical and Biological Engineering Thermodynamics II	W1	Volumetric and thermodynamic properties of fluids; equations of state; heat effects; ideal and non-ideal mixtures; fugacities and activity coefficients; vapor-liquid and liquid-liquid phase equilibrium; solubility of gases and solids in liquids; chemical reaction equilibrium; equilibrium partitioning of pollutants. Recommended prerequisite: MATH 256. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: All of CHBE 220, CHBE 241, CHBE 244, MATH 253.	In Person Learning	Mon (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 352-101	CHBE_V	352	101	Transport Phenomena II	W1	Heat and mass transfer; conduction and molecular diffusion; convective transfer; analogies among heat, mass and momentum transfer; heat exchanger design; mass transfer coefficients; interphase mass transfer. This course is not eligible for Credit/D/Fail grading. [4-0-2*] Prerequisite: One of CHBE 251, CIVL 215, MECH 280 and MATH 256. or third-year standing in ENVE.	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
CHBE_V 352-T1A	CHBE_V	352	T1A	Transport Phenomena II	W1	Heat and mass transfer; conduction and molecular diffusion; convective transfer; analogies among heat, mass and momentum transfer; heat exchanger design; mass transfer coefficients; interphase mass transfer. This course is not eligible for Credit/D/Fail grading. [4-0-2*] Prerequisite: One of CHBE 251, CIVL 215, MECH 280 and MATH 256. or third-year standing in ENVE.	In Person Learning	Mon (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 355-201	CHBE_V	355	201	Kinetics and Reactor Design	W2	Kinetics of homogeneous chemical and biological reactions, isothermal ideal reactor design, analysis of non-ideal reactors using residence time distribution and mixing models. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of CHBE 230, CHBE 346, CHBE 352.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHBE_V 355-T2A	CHBE_V	355	T2A	Kinetics and Reactor Design	W2	Kinetics of homogeneous chemical and biological reactions, isothermal ideal reactor design, analysis of non-ideal reactors using residence time distribution and mixing models. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of CHBE 230, CHBE 346, CHBE 352.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
CHBE_V 356-201	CHBE_V	356	201	Process Dynamics and Control	W2	Introduction to modelling of chemical processes; transient response analysis; design of feedback control systems; stability analysis; frequency response analysis; process control applications; instrumentation; advanced control techniques; distributed control systems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: MATH255, MATH256	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHBE_V 356-L2A	CHBE_V	356	L2A	Process Dynamics and Control	W2	Introduction to modelling of chemical processes; transient response analysis; design of feedback control systems; stability analysis; frequency response analysis; process control applications; instrumentation; advanced control techniques; distributed control systems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: MATH255, MATH256	In Person Learning	Thu	1:30 p.m. - 3:30 p.m.
CHBE_V 362-101	CHBE_V	362	101	Process Engineering Laboratory	W1	Experiments to illustrate and use material presented in 200 and 300-level CHBE courses. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 251, CHBE 264. Corequisite: CHBE 352.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
CHBE_V 362-L1A	CHBE_V	362	L1A	Process Engineering Laboratory	W1	Experiments to illustrate and use material presented in 200 and 300-level CHBE courses. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 251, CHBE 264. Corequisite: CHBE 352.	In Person Learning	Tue	2:00 p.m. - 6:00 p.m.
CHBE_V 362-L1B	CHBE_V	362	L1B	Process Engineering Laboratory	W1	Experiments to illustrate and use material presented in 200 and 300-level CHBE courses. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 251, CHBE 264. Corequisite: CHBE 352.	In Person Learning	Fri	2:00 p.m. - 6:00 p.m.
CHBE_V 364-101	CHBE_V	364	101	Environmental Engineering Laboratory	W1	Laboratory experiments to illustrate key concepts and measurement techniques in environmental engineering as used by engineers. This course is not eligible for Credit/D/Fail grading. [1-4-0] Corequisite: One of CHBE 373, CIVL 406.	In Person Learning	Wed	10:00 a.m. - 11:00 a.m.
CHBE_V 364-L1A	CHBE_V	364	L1A	Environmental Engineering Laboratory	W1	Laboratory experiments to illustrate key concepts and measurement techniques in environmental engineering as used by engineers. This course is not eligible for Credit/D/Fail grading. [1-4-0] Corequisite: One of CHBE 373, CIVL 406.	In Person Learning	Mon	8:00 a.m. - 12:00 p.m.
CHBE_V 365-201	CHBE_V	365	201	Biological Engineering Laboratory	W2	Laboratory experiments to illustrate key concepts and measurement techniques in biotechnology as used by engineers. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 264, CHBE 221. Corequisite: CHBE 381.	In Person Learning	Mon	10:00 a.m. - 11:00 a.m.
CHBE_V 365-L2A	CHBE_V	365	L2A	Biological Engineering Laboratory	W2	Laboratory experiments to illustrate key concepts and measurement techniques in biotechnology as used by engineers. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 264, CHBE 221. Corequisite: CHBE 381.	In Person Learning	Tue	1:00 p.m. - 5:00 p.m.
CHBE_V 366-201	CHBE_V	366	201	Chemical Engineering Laboratory	W2	Experiments to illustrate and use material presented in 300-level Chemical Engineering program courses. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 251, CHBE 264.	In Person Learning	Mon	10:00 a.m. - 11:00 a.m.
CHBE_V 366-L2A	CHBE_V	366	L2A	Chemical Engineering Laboratory	W2	Experiments to illustrate and use material presented in 300-level Chemical Engineering program courses. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 251, CHBE 264.	In Person Learning	Tue	1:00 p.m. - 5:00 p.m.
CHBE_V 366-L2B	CHBE_V	366	L2B	Chemical Engineering Laboratory	W2	Experiments to illustrate and use material presented in 300-level Chemical Engineering program courses. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [1-4-0] Prerequisite: All of CHBE 201, CHBE 230, CHBE 241, CHBE 251, CHBE 264.	In Person Learning	Fri	1:00 p.m. - 5:00 p.m.

CHBE_V 370-101	CHBE_V	370	101	Fundamentals of Sustainable Engineering	W1	Introduction to sustainable practice for Chemical and Biological Engineers. Pollution prevention, cleaner production, green chemistry and engineering, and sustainable design; environmental impact assessment including life-cycle assessment, total cost analysis and environmental systems analysis; applications in chemical and biological process industries. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: All of CHBE 241, CHBE 244, or third-year standing in ENVE.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 370-T1A	CHBE_V	370	T1A	Fundamentals of Sustainable Engineering	W1	Introduction to sustainable practice for Chemical and Biological Engineers. Pollution prevention, cleaner production, green chemistry and engineering, and sustainable design; environmental impact assessment including life-cycle assessment, total cost analysis and environmental systems analysis; applications in chemical and biological process industries. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: All of CHBE 241, CHBE 244, or third-year standing in ENVE.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 373-101	CHBE_V	373	101	Water and Wastewater Technology and Engineering	W1	Legal, environmental and physicochemical aspects of industrial water pollution and its abatement will be surveyed; techniques for design of wastewater treatment processes currently used in industry; case studies from chemical and process industries will be considered in detail. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of CHBE 251, CIVL 215, MECH 280, MTRL 263. or third-year standing in ENVE.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
CHBE_V 373-T1A	CHBE_V	373	T1A	Water and Wastewater Technology and Engineering	W1	Legal, environmental and physicochemical aspects of industrial water pollution and its abatement will be surveyed; techniques for design of wastewater treatment processes currently used in industry; case studies from chemical and process industries will be considered in detail. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of CHBE 251, CIVL 215, MECH 280, MTRL 263. or third-year standing in ENVE.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
CHBE_V 376-201	CHBE_V	376	201	Computer Flowsheeting and Unit Operation Design	W2	Theory and practice of computer flowsheeting in chemical plant design; hands-on use of modern process simulators, prediction of thermodynamic properties of fluids; behaviour of single and multiphase systems. Design of unit operations. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CHBE241 Corequisite: All of CHBE 345, CHBE 355 for students enrolled in CHBE or third-year standing in BASc.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 376-T2A	CHBE_V	376	T2A	Computer Flowsheeting and Unit Operation Design	W2	Theory and practice of computer flowsheeting in chemical plant design; hands-on use of modern process simulators, prediction of thermodynamic properties of fluids; behaviour of single and multiphase systems. Design of unit operations. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CHBE241 Corequisite: All of CHBE 345, CHBE 355 for students enrolled in CHBE or third-year standing in BASc.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
CHBE_V 381-201	CHBE_V	381	201	Biological Engineering and Bio-Manufacturing I	W2	Biological process engineering in the fields of biotechnology and biomedical engineering; enzymatic and cellular kinetics; cell culture, bioreactor mass transport and process development; bioreactor design and operation. Credit will be granted for only one of CHBE 381, CHBE 560. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: One of CHBE 221, BMEG 245 and one of MATH 101, MATH 103, MATH 105. and third-year standing.	In Person Learning	Fri	10:00 a.m. - 11:30 a.m.
CHBE_V 381-T2A	CHBE_V	381	T2A	Biological Engineering and Bio-Manufacturing I	W2	Biological process engineering in the fields of biotechnology and biomedical engineering; enzymatic and cellular kinetics; cell culture, bioreactor mass transport and process development; bioreactor design and operation. Credit will be granted for only one of CHBE 381, CHBE 560. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: One of CHBE 221, BMEG 245 and one of MATH 101, MATH 103, MATH 105. and third-year standing.	In Person Learning	Mon (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 402-201	CHBE_V	402	201	Biomass Fractionation Technology	W2	Process and unit operations in the conversion of wood chips to pulp and green bio-products. Biorefinery concepts and emerging technologies for the production of biomaterials, biochemicals and bioenergy. Credit will be granted for only one of CHBE 402, CHBE 502 or GBPR 502. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CHBE_V 410-101	CHBE_V	410	101	Systems Biology and Metabolic Engineering	W1	Foundational concepts, experimentation methodologies, research horizons, and industrial applications of microbial cell engineering. Topics of note include genome-scale modeling, genome editing, biological circuits, protein engineering and the design-build-test-learn (DBTL) workflow. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisites: One of CHBE 381, CHBE 419 or BMEG 374 or Graduate student in CHBE or SBME.	In Person Learning	Mon Tue Fri	11:00 a.m. - 12:00 p.m.
CHBE_V 419-201	CHBE_V	419	201	Industrial Biotechnology Laboratory	W2	Modern bioreactor technology, upstream and downstream processing of biotechnology products. Restricted to students in the Joint Degree in Biotechnology. [1-4-0]	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
CHBE_V 419-L2A	CHBE_V	419	L2A	Industrial Biotechnology Laboratory	W2	Modern bioreactor technology, upstream and downstream processing of biotechnology products. Restricted to students in the Joint Degree in Biotechnology. [1-4-0]	In Person Learning	Wed	1:00 p.m. - 5:00 p.m.
CHBE_V 451-201	CHBE_V	451	201	Engineering Thermodynamics and Statistical Mechanics	W2	Classical thermodynamic relations from a molecular perspective. Pressure-volume-temperature relations; chemical equilibria by Gibbs' method; vapor-liquid equilibria; thermodynamic calculations based on macroscopic and statistical methods; nonequilibrium processes; molecular simulations. Credit will be granted for only one of CHBE 451, CHBE 551. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: One of CHBE 346, MTRL 350, MECH 327.	In Person Learning	Arranged	Arranged
CHBE_V 451-T2A	CHBE_V	451	T2A	Engineering Thermodynamics and Statistical Mechanics	W2	Classical thermodynamic relations from a molecular perspective. Pressure-volume-temperature relations; chemical equilibria by Gibbs' method; vapor-liquid equilibria; thermodynamic calculations based on macroscopic and statistical methods; nonequilibrium processes; molecular simulations. Credit will be granted for only one of CHBE 451, CHBE 551. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: One of CHBE 346, MTRL 350, MECH 327.	In Person Learning	Arranged	Arranged
CHBE_V 453-001	CHBE_V	453	001	Biological Process and Product Design	W1-2	8-month project-based course, integrating chemical and biological engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major biological processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376, CHBE 381. Corequisite: All of CHBE 459, CHBE 481.	In Person Learning	Tue	12:30 p.m. - 2:00 p.m.
CHBE_V 453-DNU_001	CHBE_V	453	DNU_001	Biological Process and Product Design	W2	8-month project-based course, integrating chemical and biological engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major biological processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376, CHBE 381. Corequisite: All of CHBE 459, CHBE 481.	In Person Learning	Arranged	Arranged
CHBE_V 453-TOA	CHBE_V	453	TOA	Biological Process and Product Design	W1-2	8-month project-based course, integrating chemical and biological engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major biological processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376, CHBE 381. Corequisite: All of CHBE 459, CHBE 481.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.

CHBE_V 453-T1A	CHBE_V	453	T1A	Biological Process and Product Design	W1-2	8-month project-based course, integrating chemical and biological engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major biological processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376, CHBE 381. Corequisite: All of CHBE 459, CHBE 481.	In Person Learning	Arranged	Arranged
CHBE_V 453-T2A	CHBE_V	453	T2A	Biological Process and Product Design	W2	8-month project-based course, integrating chemical and biological engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major biological processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376, CHBE 381. Corequisite: All of CHBE 459, CHBE 481.	In Person Learning	Arranged	Arranged
CHBE_V 454-001	CHBE_V	454	001	Chemical Process and Product Design	W1-2	8-month project-based course, integrating chemical engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major chemical processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376. Corequisite: All of CHBE 459, CHBE 471.	In Person Learning	Tue	12:30 p.m. - 2:00 p.m.
CHBE_V 454-DNU_001	CHBE_V	454	DNU_001	Chemical Process and Product Design	W2	8-month project-based course, integrating chemical engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major chemical processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376. Corequisite: All of CHBE 459, CHBE 471.	In Person Learning	Arranged	Arranged
CHBE_V 454-TOA	CHBE_V	454	TOA	Chemical Process and Product Design	W1-2	8-month project-based course, integrating chemical engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major chemical processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376. Corequisite: All of CHBE 459, CHBE 471.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CHBE_V 454-T1A	CHBE_V	454	T1A	Chemical Process and Product Design	W1-2	8-month project-based course, integrating chemical engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major chemical processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376. Corequisite: All of CHBE 459, CHBE 471.	In Person Learning	Arranged	Arranged
CHBE_V 454-T2A	CHBE_V	454	T2A	Chemical Process and Product Design	W2	8-month project-based course, integrating chemical engineering concepts with economics, life cycle analysis and health and safety considerations in the design of major chemical processes. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: All of CHBE 241, CHBE 345, CHBE 356, CHBE 376. Corequisite: All of CHBE 459, CHBE 471.	In Person Learning	Arranged	Arranged
CHBE_V 456-101	CHBE_V	456	101	Heterogenous Catalysis and Advanced Reactor Design	W1	Definition of heterogeneous catalysis; properties of catalysts; kinetics of catalytic reactions; ideal heterogeneous reactors; non-isothermal reactor design; mass and heat transfer effects in heterogeneous reactors; examples of industrial reactors. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: All of CHBE 230, CHBE 352, CHBE 355.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHBE_V 456-T1A	CHBE_V	456	T1A	Heterogenous Catalysis and Advanced Reactor Design	W1	Definition of heterogeneous catalysis; properties of catalysts; kinetics of catalytic reactions; ideal heterogeneous reactors; non-isothermal reactor design; mass and heat transfer effects in heterogeneous reactors; examples of industrial reactors. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: All of CHBE 230, CHBE 352, CHBE 355.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 457-101	CHBE_V	457	101	Process Synthesis	W1	Strategy for the conceptual design of industrial chemical and biological processes; rules of thumb for chemical engineers, simulation to assist process synthesis, reactor-separator network synthesis, introduction to product design and molecular structure design, efficiency and sustainability in the chemical industry. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: CHBE241, CHBE346, CHBE376, CHBE344	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 457-T1A	CHBE_V	457	T1A	Process Synthesis	W1	Strategy for the conceptual design of industrial chemical and biological processes; rules of thumb for chemical engineers, simulation to assist process synthesis, reactor-separator network synthesis, introduction to product design and molecular structure design, efficiency and sustainability in the chemical industry. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: CHBE241, CHBE346, CHBE376, CHBE344	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
CHBE_V 459-201	CHBE_V	459	201	Chemical and Biological Engineering Economics	W2	Estimation of capital and operating costs; interest calculations; taxes; economic comparison of alternatives; economic optimization. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Third-year standing in BASc or BSc.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 464-001	CHBE_V	464	001	Chemical and Biological Engineering Laboratory	W1-2	Experiments in unit operations relating to process, environmental and biological engineering. Experiments are designed to provide experience in instrumentation and control. Field trips may be required. This course is not eligible for Credit/D/Fail grading. [0-6-0; 0-6-0] Prerequisite: All of CHBE 345, CHBE 355, CHBE 356, CHBE 362 and one of CHBE 365, CHBE 366.	In Person Learning	Thu	12:30 p.m. - 6:30 p.m.
CHBE_V 471-101	CHBE_V	471	101	Chemical Process Engineering	W1	Selection and design of major equipment used in chemical process plants, including heat exchangers, separators, reactors. Recommended pre-requisite: CHBE 376. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of CHBE 345, CHBE 352, CHBE 355.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 471-T1A	CHBE_V	471	T1A	Chemical Process Engineering	W1	Selection and design of major equipment used in chemical process plants, including heat exchangers, separators, reactors. Recommended pre-requisite: CHBE 376. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of CHBE 345, CHBE 352, CHBE 355.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
CHBE_V 472-201	CHBE_V	472	201	Technologies for Human and Environmental Health	W2	Fundamentals of cutting-edge bioanalysis technologies with an emphasis on applications in health and the environment. Concepts and calculations involving: separations, mass transfer, reaction kinetics, mixing, electrochemistry, and others. Analysis tools employed include: limits of detection, sensitivity, specificity, and other measures. Credit will be granted for only one of CHBE 472 or CHBE 572. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Fourth year standing in BASc or BSc.	In Person Learning	Tue	4:00 p.m. - 7:00 p.m.
CHBE_V 473-201	CHBE_V	473	201	Environmental Engineering and Sustainability Leadership	W2	Topics may include: Life cycle assessment, circular economy, system dynamics modelling, design thinking, systems thinking, traditional ecological knowledge, adaptive and evolutionary leadership, and relationality. Credit will be granted for only one of CHBE 473 or CHBE 573. Prerequisite: CHBE 370. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	6:00 p.m. - 7:30 p.m.
CHBE_V 474-101	CHBE_V	474	101	Process Control Engineering	W1	Frequency response analysis; advanced control techniques; multivariable control systems; mathematical tools for computer control systems; design of computer control systems; engineering design of industrial control applications; plant wide control concepts; distributed control systems concepts. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: CHBE356, CHBE376	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.

CHBE_V 474-T1A	CHBE_V	474	T1A	Process Control Engineering	W1	Frequency response analysis; advanced control techniques; multivariable control systems; mathematical tools for computer control systems; design of computer control systems; engineering design of industrial control applications; plant wide control concepts; distributed control systems concepts. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: CHBE356, CHBE376	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.
CHBE_V 476-101	CHBE_V	476	101	Advanced Process Engineering and Simulation	W1	Mathematical modelling of chemical plants and processes; computer simulation; introduction to numerical optimization techniques. Recommended Prerequisite: All of CHBE 345, CHBE 376. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: Fourth-year standing in BASc.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
CHBE_V 476-T1A	CHBE_V	476	T1A	Advanced Process Engineering and Simulation	W1	Mathematical modelling of chemical plants and processes; computer simulation; introduction to numerical optimization techniques. Recommended Prerequisite: All of CHBE 345, CHBE 376. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: Fourth-year standing in BASc.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
CHBE_V 477-201	CHBE_V	477	201	Fuel Cell and Electrochemical Engineering	W2	Stoichiometry, thermodynamics and kinetics of electrode reactions; conductivity and mass transport in electrolytes; material, energy and voltage balances; design of electrosynthesis, electrorecovery of metals, and energy generation of batteries and fuel cells. Credit will be granted for only one of CHBE 477, CHBE 577. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of CHBE 220, CHBE 241, CHBE 346 for students enrolled in CHBE or fourth-year standing in BASc.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHBE_V 478-201	CHBE_V	478	201	Polymer Science and Processing	W2	Introduction to polymer and biopolymer chemistry, properties, processing and technological applications. Recommended Prerequisite: One of CHEM 260, CHBE 251 or equivalent. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Fourth-year standing in BASc or BSc.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHBE_V 481-101	CHBE_V	481	101	Biological Engineering and Bio-Manufacturing II	W1	Bioprocess flowsheeting; production-scale fermenter design; product recovery and purification; bioseparations; chromatography; viral inactivation and removal; process validation. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CHBE381	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 481-T1A	CHBE_V	481	T1A	Biological Engineering and Bio-Manufacturing II	W1	Bioprocess flowsheeting; production-scale fermenter design; product recovery and purification; bioseparations; chromatography; viral inactivation and removal; process validation. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CHBE381	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
CHBE_V 482-201	CHBE_V	482	201	Energy Systems Modelling, Simulation and Optimization	W2	Synthesis, design and simulation of separation and reaction systems. Steady state and dynamic simulation. Application to energy systems optimization. This course is not eligible for Credit/D/Fail grading. [3-1-0] Prerequisite: All of CHBE 345, CHBE 355, CHBE 376. Or fourth-year standing in BASc. or BSc.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
CHBE_V 482-T2A	CHBE_V	482	T2A	Energy Systems Modelling, Simulation and Optimization	W2	Synthesis, design and simulation of separation and reaction systems. Steady state and dynamic simulation. Application to energy systems optimization. This course is not eligible for Credit/D/Fail grading. [3-1-0] Prerequisite: All of CHBE 345, CHBE 355, CHBE 376. Or fourth-year standing in BASc. or BSc.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
CHBE_V 483-101	CHBE_V	483	101	Energy Engineering for Climate Change and Sustainability	W1	Supply and use of conventional and alternative fuels and energy. Design and operation of unit operations for processing of fossil fuels, biomass, and other energy sources. Environmental considerations of energy use. that address climate change and sustainability (water usage, environmental footprint, resource use, etc.). Credit will be granted for only one of CHBE 483, CHBE 583. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Third-year standing in BASc or BSc.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHBE_V 485-101	CHBE_V	485	101	Air Pollution Prevention and Air Quality Engineering	W1	Fate of air-born chemicals and the associated impacts of air pollutants on health, visibility, smog formation, ozone depletion and global warming; air quality and emission standards; atmospheric dispersion of air pollutants; prevention and control technologies for particulates, SOx, NOx, VOCs, and CO2. Credit will be granted for only one of CHBE 485, CHBE 475 or CHBE 585. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: Third-year standing in BASc. or BSc.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHBE_V 485-T1A	CHBE_V	485	T1A	Air Pollution Prevention and Air Quality Engineering	W1	Fate of air-born chemicals and the associated impacts of air pollutants on health, visibility, smog formation, ozone depletion and global warming; air quality and emission standards; atmospheric dispersion of air pollutants; prevention and control technologies for particulates, SOx, NOx, VOCs, and CO2. Credit will be granted for only one of CHBE 485, CHBE 475 or CHBE 585. This course is not eligible for Credit/D/Fail grading. [3-0-2*] Prerequisite: Third-year standing in BASc. or BSc.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 486-201	CHBE_V	486	201	Waste Mitigation and Processing for Resource Recovery	W2	How chemical and biological waste impact the environment. Physico-chemical, thermal, and biological methods for minimizing, isolating and sustainably treating solid waste and wastewater, including conversion to bioproducts/ industrial products, energy and clean water. Recommended Prerequisite: All of CHBE 241, CHBE 244, CHBE 370. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Third-year standing in BASc. or BSc.	In Person Learning	Mon Wed	4:30 p.m. - 6:00 p.m.
CHBE_V 487-202	CHBE_V	487	202	Interfacial Phenomena	W2	Outline of the physics and chemistry of interfaces; discussion of the part played by surface effects in technical processes. Credit will be granted for only one of CHBE 357, CHBE 487, CHBE 587, FNH 419 or FOOD 519. Recommended Prerequisite: One of CHBE 241, FNH 300. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Fourth-year standing in BASc.	In Person Learning	Arranged	Arranged
CHBE_V 488-201	CHBE_V	488	201	Carbon Capture, Conversion and Sequestration Technologies	W2	Examination of carbon capture technologies, and CO2 conversion and sequestration options. Technical foundations on carbon cycle, thermodynamics, transport, absorption, adsorption, sequestration, mineralization and conversion. Analysis of cases in the context of technology, policy and regulatory framework. Credit will be granted for only one of CHBE 488 or CHBE 588. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: One of CHBE 244, MTRL 252 and one of CHBE 251, CIVL 215, MTRL 263.	In Person Learning	Mon	3:00 p.m. - 4:30 p.m.
CHBE_V 488-T2A	CHBE_V	488	T2A	Carbon Capture, Conversion and Sequestration Technologies	W2	Examination of carbon capture technologies, and CO2 conversion and sequestration options. Technical foundations on carbon cycle, thermodynamics, transport, absorption, adsorption, sequestration, mineralization and conversion. Analysis of cases in the context of technology, policy and regulatory framework. Credit will be granted for only one of CHBE 488 or CHBE 588. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: One of CHBE 244, MTRL 252 and one of CHBE 251, CIVL 215, MTRL 263.	In Person Learning	Tue	4:30 p.m. - 6:00 p.m.
CHBE_V 491-101	CHBE_V	491	101	Thesis Proposal	W1	Literature searching, planning, equipment design, experimental design for an individual research project leading to a written proposal and oral presentation. This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: All of CHBE 362, CHBE 366.	In Person Learning	Wed	8:00 a.m. - 9:00 a.m.
CHBE_V 492-201	CHBE_V	492	201	Thesis	W2	Research project under the direction of a staff member. This course is not eligible for Credit/D/Fail grading. [0-8-0] Prerequisite: [CHBE491]	In Person Learning	Wed	8:00 a.m. - 9:00 a.m.

CHBE_V 493-101	CHBE_V	493		101	Thesis Proposal-Environmental Topic	W1	Literature search, planning, equipment design for an individual research project leading to a written proposal and oral presentation. Topic to be chosen from a selection of environmental topics offered by the department. This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: [CHBE362, CHBE364]	In Person Learning	Wed	8:00 a.m. - 9:00 a.m.
CHBE_V 494-201	CHBE_V	494		201	Thesis-Environmental Topic	W2	Environmental engineering research topic. This course is not eligible for Credit/D/Fail grading. [0-8-0] Prerequisite: [CHBE493]	In Person Learning	Wed	8:00 a.m. - 9:00 a.m.
CHBE_V 495-101	CHBE_V	495		101	Thesis Proposal-Biotechnology Topic	W1	Literature search, planning, equipment design for an individual research project leading to a written proposal and oral presentation. Topic to be chosen from a selection of biotechnology topics offered by the department. This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: [CHBE362, CHBE365]	In Person Learning	Wed	8:00 a.m. - 9:00 a.m.
CHBE_V 496-201	CHBE_V	496		201	Thesis Biotechnology Topic	W2	Biotechnological engineering research topic. This course is not eligible for Credit/D/Fail grading. [0-8-0] Prerequisite: [CHBE495]	In Person Learning	Wed	8:00 a.m. - 9:00 a.m.
CHBE_V 497-A_001	CHBE_V	497	A	A_001	Topics in Chemical and Biological Engineering.	W1-2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	12:30 p.m. - 2:00 p.m.
CHBE_V 497-C_101	CHBE_V	497	C	C_101	Topics in Chemical and Biological Engineering.	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Fri	11:00 a.m. - 12:00 p.m.
CHBE_V 497-DNU_A_001	CHBE_V	497	A	DNU_A_001	Topics in Chemical and Biological Engineering.	W2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 502-201	CHBE_V	502		201	Biomass Fractionation Chemistry	W2	Extraction of soluble compounds and macromolecules. Chemical and technical processes in production of pulp. Bleaching. Fiber production from woody and herbaceous biomass. Production of reactive intermediates. Credit will be granted for only one of CHBE 402, CHBE 502 or GBPR 502.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CHBE_V 505-101	CHBE_V	505		101	Introduction to Chemical Engineering for Non-Chemical Engineers	W1	This course is not eligible for Credit/D/Fail grading. Prerequisite: Supervisor and instructor approval required.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHBE_V 505-201	CHBE_V	505		201	Introduction to Chemical Engineering for Non-Chemical Engineers	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: Supervisor and instructor approval required.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHBE_V 549-001	CHBE_V	549		001	Master's Thesis for M.Sc.	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 549-101	CHBE_V	549		101	Master's Thesis for M.Sc.	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 549-201	CHBE_V	549		201	Master's Thesis for M.Sc.	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 550-A_101	CHBE_V	550	A	A_101	Advanced Reactor Design	W1	Topics vary from year to year, and may include kinetics of fluid-solid reactions of single particles, packed, moving, fluidized and transported bed reactors; rotary kilns; gas-liquid reaction kinetics and reactor design; reactor design for gas-liquid-solid and non-catalytic processes. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:30 a.m. - 12:00 p.m.
CHBE_V 551-201	CHBE_V	551		201	Engineering Thermodynamics and Statistical Mechanics	W2	Classical thermodynamic relations from a molecular perspective. Pressure-volume- temperature relations; chemical equilibria by Gibbs' method; vapor-liquid equilibria; thermodynamic calculations based on macroscopic and statistical methods; nonequilibrium processes; molecular simulations. Credit will be granted for only one of CHBE 451 or CHBE 551. [3-0-2*]	In Person Learning	Mon Wed	10:00 a.m. - 11:30 a.m.
CHBE_V 552-201	CHBE_V	552		201	Optimization Methods	W2	Basic concepts of optimization and structure of mathematical models. Gradient methods. Direct search methods. Gauss-Newton method for parameter optimization in models described by ordinary and partial differential equations. Constrained optimization. Statistical inferences. Design of experiments. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	11:30 a.m. - 1:00 p.m.
CHBE_V 553-A_101	CHBE_V	553	A	A_101	Mathematical Operations in Chemical Engineering	W1	Topics vary from year to year. Amongst these will be dimensional analysis and model theory; treatment and interpretation of chemical engineering data; formulation and solution of differential and finite difference equations; graphical, numerical and statistical methods. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHBE_V 553-A_201	CHBE_V	553	A	A_201	Mathematical Operations in Chemical Engineering	W2	Topics vary from year to year. Amongst these will be dimensional analysis and model theory; treatment and interpretation of chemical engineering data; formulation and solution of differential and finite difference equations; graphical, numerical and statistical methods. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHBE_V 554-101	CHBE_V	554		101	Momentum, Heat and Mass Transfer	W1	Prediction of velocity, temperature, and concentration profiles for flowing fluids; unifying concepts and analogies in momentum, heat, and mass transport; streamline flow and turbulence, molecular and eddy conduction and diffusion, boundary layers, smooth and rough conduits and other boundaries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:00 a.m. - 10:30 a.m.
CHBE_V 554-201	CHBE_V	554		201	Momentum, Heat and Mass Transfer	W2	Prediction of velocity, temperature, and concentration profiles for flowing fluids; unifying concepts and analogies in momentum, heat, and mass transport; streamline flow and turbulence, molecular and eddy conduction and diffusion, boundary layers, smooth and rough conduits and other boundaries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 554-A_201	CHBE_V	554	A	A_201	Momentum, Heat and Mass Transfer	W2	Prediction of velocity, temperature, and concentration profiles for flowing fluids; unifying concepts and analogies in momentum, heat, and mass transport; streamline flow and turbulence, molecular and eddy conduction and diffusion, boundary layers, smooth and rough conduits and other boundaries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

CHBE_V 559-C_101	CHBE_V	559	C	C_101	Topics in Chemical Engineering	W1	A discussion of some aspects of modern Chemical Engineering. Subject matter varies each year. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 559-J_101	CHBE_V	559	J	J_101	Topics in Chemical Engineering	W1	A discussion of some aspects of modern Chemical Engineering. Subject matter varies each year. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHBE_V 560-201	CHBE_V	560		201	Biological Engineering and Bio-Manufacturing	W2	Biological process engineering in the fields of biotechnology and biomedical engineering; enzymatic and cellular kinetics; cell culture, bioreactor mass transport and process development; bioreactor design and operation. Critical analysis of recent biological engineering research articles. Credit will be granted for only one of CHBE 381 or CHBE 560. This course is not eligible for Credit/D/Fail grading. [3-0-2]	In Person Learning	Fri	10:00 a.m. - 11:30 a.m.
CHBE_V 560-T2A	CHBE_V	560		T2A	Biological Engineering and Bio-Manufacturing	W2	Biological process engineering in the fields of biotechnology and biomedical engineering; enzymatic and cellular kinetics; cell culture, bioreactor mass transport and process development; bioreactor design and operation. Critical analysis of recent biological engineering research articles. Credit will be granted for only one of CHBE 381 or CHBE 560. This course is not eligible for Credit/D/Fail grading. [3-0-2]	In Person Learning	Mon (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 563-201	CHBE_V	563		201	Applied Heterogeneous Catalysis	W2	Techniques for characterizing catalysts and their surfaces. Commercial methods of preparing catalysts. Chemistry of catalytic reactions and the impact of catalyst properties, mechanisms and kinetics on reactor engineering. Applications of catalytic oxidations, hydrogenations, C-C bond formation and cracking. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHBE_V 564-201	CHBE_V	564		201	Industrial Biotechnology Laboratory	W2	Modern bioreactor technology, upstream and downstream processing of biotechnology products. Credit will be granted for only one of CHBE 564 or CHBE 419. This course is not eligible for Credit/D/Fail grading. [1-4-0]	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
CHBE_V 564-L2A	CHBE_V	564		L2A	Industrial Biotechnology Laboratory	W2	Modern bioreactor technology, upstream and downstream processing of biotechnology products. Credit will be granted for only one of CHBE 564 or CHBE 419. This course is not eligible for Credit/D/Fail grading. [1-4-0]	In Person Learning	Wed	1:00 p.m. - 5:00 p.m.
CHBE_V 565-101	CHBE_V	565		101	Advanced Process Control	W1	Discrete-time chemical system modelling; model-based predictive control; predictive controller design; analysis of design parameters; controller stability; robustness and performance analysis; selected topics from current developments in the literature. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:00 a.m. - 10:30 a.m.
CHBE_V 572-201	CHBE_V	572		201	Technologies for Human and Environmental Health	W2	Fundamentals of cutting-edge bioanalysis technologies with an emphasis on applications in health and the environment. Concepts and calculations involving: separations, mass transfer, reaction kinetics, mixing, electrochemistry, and others. Analysis tools employed include: limits of detection, sensitivity, specificity, and other measures. Credit will be granted for only one of CHBE 472 or CHBE 572. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	4:00 p.m. - 7:00 p.m.
CHBE_V 573-201	CHBE_V	573		201	Environmental Engineering and Sustainability Leadership	W2	Topics may include: Life cycle assessment, circular economy, system dynamics modelling, design thinking, systems thinking, traditional ecological knowledge, adaptive and evolutionary leadership, and relationality. Credit will be granted for only one of CHBE 473 or CHBE 573. [3-0-0]	In Person Learning	Mon	3:00 p.m. - 4:30 p.m.
CHBE_V 577-201	CHBE_V	577		201	Electrochemical Science, Engineering and Technology	W2	Electrochemical interfaces; electrode reactions; thermodynamics; kinetics and transport processes in electrochemical systems; experimental techniques. Electrochemical reactors and processes; modelling, design and economics. Electrochemical technologies; electrosynthesis, batteries and fuel cells. Electro-metallurgy; electrowinning and refining of metals, corrosion, leaching and cementation. Credit will be granted for only one of CHBE 477 or CHBE 577. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHBE_V 583-101	CHBE_V	583		101	Energy Engineering for Climate Change and Sustainability	W1	Supply and use of conventional and alternative fuels and energy. Design and operation of unit operations for processing of fossil fuels, biomass, and other energy sources. Environmental considerations of energy use that address climate change and sustainability (water usage, environmental footprint, resource use, etc.). Credit will be granted for only one of CHBE 483 or CHBE 583. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHBE_V 585-101	CHBE_V	585		101	Air Pollution Prevention and Air Quality Engineering	W1	Fate of air-born chemicals and the associated impacts of air pollutants on health, visibility, smog formation, ozone depletion and global warming; air quality and emission standards; atmospheric dispersion of air pollutants; prevention and control technologies for particulates, SOx, NOx, VOCs, and CO2. Credit will be granted for only one of CHBE 475, CHBE 485, or CHBE 585. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHBE_V 585-T1A	CHBE_V	585		T1A	Air Pollution Prevention and Air Quality Engineering	W1	Fate of air-born chemicals and the associated impacts of air pollutants on health, visibility, smog formation, ozone depletion and global warming; air quality and emission standards; atmospheric dispersion of air pollutants; prevention and control technologies for particulates, SOx, NOx, VOCs, and CO2. Credit will be granted for only one of CHBE 475, CHBE 485, or CHBE 585. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CHBE_V 587-201	CHBE_V	587		201	Interfacial Phenomena	W2	Outline of the physics and chemistry of interfaces; discussion of the part played by surface effects in technical processes. Credit will be granted for only one of CHBE 357, CHBE 487, CHBE 587, FNH 419 or FOOD 519.	In Person Learning	Arranged	Arranged
CHBE_V 588-201	CHBE_V	588		201	Carbon Capture, Conversion and Sequestration Technologies	W2	Credit will be granted for only one of CHBE 488 or CHBE 588. This course is not eligible for Credit/D/Fail grading. [3-0-1]	In Person Learning	Mon	3:00 p.m. - 4:30 p.m.
CHBE_V 588-T2A	CHBE_V	588		T2A	Carbon Capture, Conversion and Sequestration Technologies	W2	Credit will be granted for only one of CHBE 488 or CHBE 588. This course is not eligible for Credit/D/Fail grading. [3-0-1]	In Person Learning	Tue	4:30 p.m. - 6:00 p.m.
CHBE_V 596-001	CHBE_V	596		001	Engineering Report	W1-2	For M.Eng. students. Carry out a literature review, conduct a research or design project and prepare an engineering report under the supervision of a faculty member. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 596-101	CHBE_V	596		101	Engineering Report	W1	For M.Eng. students. Carry out a literature review, conduct a research or design project and prepare an engineering report under the supervision of a faculty member. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

CHBE_V 596-201	CHBE_V	596	201	Engineering Report	W2	For M.Eng. students. Carry out a literature review, conduct a research or design project and prepare an engineering report under the supervision of a faculty member. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 597-001	CHBE_V	597	001	M.A.Sc. Thesis Proposal Development	W1-2	Techniques for preparation of a critical literature review and focussed research proposal for M.A.Sc. candidates. Students perform oral and written critiques of published research in their area of study, define research questions and hypotheses, and develop a focussed research proposal. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
CHBE_V 598-001	CHBE_V	598	001	Master's Seminar	W1-2	Current topics in chemical and biological engineering research. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CHBE_V 598-101	CHBE_V	598	101	Master's Seminar	W1	Current topics in chemical and biological engineering research. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 598-201	CHBE_V	598	201	Master's Seminar	W2	Current topics in chemical and biological engineering research. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 599-001	CHBE_V	599	001	Thesis	W1-2	For M.A.Sc. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 599-101	CHBE_V	599	101	Thesis	W1	For M.A.Sc. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 599-201	CHBE_V	599	201	Thesis	W2	For M.A.Sc. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 697-001	CHBE_V	697	001	Ph.D. Thesis Proposal Development	W1-2	Techniques for preparation of a critical literature review and focussed research proposal for Ph.D. candidates. Students perform oral and written critiques of published research in their area of study, define research questions and hypotheses, and develop a focussed research proposal. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
CHBE_V 698-001	CHBE_V	698	001	Doctoral Seminar	W1-2	Current topics in chemical and biological engineering research. Pass/fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CHBE_V 698-101	CHBE_V	698	101	Doctoral Seminar	W1	Current topics in chemical and biological engineering research. Pass/fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 698-201	CHBE_V	698	201	Doctoral Seminar	W2	Current topics in chemical and biological engineering research. Pass/fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHBE_V 699-001	CHBE_V	699	001	Doctoral Dissertation	W1-2		In Person Learning	Arranged	Arranged
CHBE_V 699-101	CHBE_V	699	101	Doctoral Dissertation	W1		In Person Learning	Arranged	Arranged
CHBE_V 699-201	CHBE_V	699	201	Doctoral Dissertation	W2		In Person Learning	Arranged	Arranged
CHEM_V 100-223	CHEM_V	100	223	Foundations of Chemistry	W2	Atomic and molecular properties, chemical reactions, bonding, nomenclature, kinetics, equilibrium processes, acids and bases, oxidation and reduction. Intended for students who do not receive a satisfactory score on the UBC Chemistry Basic Skills Test, and need to establish a foundation of chemistry skills before proceeding to other first year chemistry courses. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: Not open to students with credit for Chemistry 12. Permission of the department head.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CHEM_V 111-112	CHEM_V	111	112	Structure, Bonding, and Equilibrium in Chemistry	W1	Fundamentals of bonding theories, structural chemistry and equilibrium with applications relevant to modern society. [3-3-1] Prerequisite: Not open to students with credit for CHEM 12. A satisfactory score on the UBC Chemistry Basic Skills Test.	In Person Learning	Thu	12:30 p.m. - 1:30 p.m.
CHEM_V 111-L02	CHEM_V	111	L02	Structure, Bonding, and Equilibrium in Chemistry	W1	Fundamentals of bonding theories, structural chemistry and equilibrium with applications relevant to modern society. [3-3-1] Prerequisite: Not open to students with credit for CHEM 12. A satisfactory score on the UBC Chemistry Basic Skills Test.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.
CHEM_V 111-L06	CHEM_V	111	L06	Structure, Bonding, and Equilibrium in Chemistry	W1	Fundamentals of bonding theories, structural chemistry and equilibrium with applications relevant to modern society. [3-3-1] Prerequisite: Not open to students with credit for CHEM 12. A satisfactory score on the UBC Chemistry Basic Skills Test.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
CHEM_V 111-L07	CHEM_V	111	L07	Structure, Bonding, and Equilibrium in Chemistry	W1	Fundamentals of bonding theories, structural chemistry and equilibrium with applications relevant to modern society. [3-3-1] Prerequisite: Not open to students with credit for CHEM 12. A satisfactory score on the UBC Chemistry Basic Skills Test.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
CHEM_V 111-XMT	CHEM_V	111	XMT	Structure, Bonding, and Equilibrium in Chemistry	W1	Fundamentals of bonding theories, structural chemistry and equilibrium with applications relevant to modern society. [3-3-1] Prerequisite: Not open to students with credit for CHEM 12. A satisfactory score on the UBC Chemistry Basic Skills Test.	In Person Learning	Arranged	Arranged
CHEM_V 115-L01	CHEM_V	115	L01	Introductory Chemical Laboratory I	W1	An introduction to the principles and techniques of the chemistry laboratory, [0-3-0] Prerequisite: One of CHEM 110, CHEM 120.	In Person Learning	Arranged	Arranged

CHEM_V 135-L06	CHEM_V	135	L06	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L07	CHEM_V	135	L07	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L08	CHEM_V	135	L08	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L09	CHEM_V	135	L09	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L22	CHEM_V	135	L22	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L23	CHEM_V	135	L23	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L25	CHEM_V	135	L25	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L26	CHEM_V	135	L26	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L27	CHEM_V	135	L27	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L28	CHEM_V	135	L28	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 135-L29	CHEM_V	135	L29	Introductory Chemical Laboratory II	W2	An introduction to the principles and techniques of the chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 111, CHEM 115, CHEM 121, CHEM 141.	In Person Learning	Arranged	Arranged
CHEM_V 141-101	CHEM_V	141	101	Chemical Bonding, Molecular Structure and Properties for Lab Sciences	W1	Bonding theories, their predictions, experimental tests, and consequences regarding chemical structure and observable properties. Applications relevant to modern society are emphasized. For students interested in lab-focused sciences such as Chemistry, Physics, Biochemistry, Microbiology and related disciplines. Restricted to students in the Faculty of Science. [3-3-0] Prerequisite: One of CHEM 12, CHEM 100. Equivalency: CHEM121	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHEM_V 141-L16	CHEM_V	141	L16	Chemical Bonding, Molecular Structure and Properties for Lab Sciences	W1	Bonding theories, their predictions, experimental tests, and consequences regarding chemical structure and observable properties. Applications relevant to modern society are emphasized. For students interested in lab-focused sciences such as Chemistry, Physics, Biochemistry, Microbiology and related disciplines. Restricted to students in the Faculty of Science. [3-3-0] Prerequisite: One of CHEM 12, CHEM 100. Equivalency: CHEM121	In Person Learning	Arranged	Arranged
CHEM_V 141-L17	CHEM_V	141	L17	Chemical Bonding, Molecular Structure and Properties for Lab Sciences	W1	Bonding theories, their predictions, experimental tests, and consequences regarding chemical structure and observable properties. Applications relevant to modern society are emphasized. For students interested in lab-focused sciences such as Chemistry, Physics, Biochemistry, Microbiology and related disciplines. Restricted to students in the Faculty of Science. [3-3-0] Prerequisite: One of CHEM 12, CHEM 100. Equivalency: CHEM121	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
CHEM_V 141-L18	CHEM_V	141	L18	Chemical Bonding, Molecular Structure and Properties for Lab Sciences	W1	Bonding theories, their predictions, experimental tests, and consequences regarding chemical structure and observable properties. Applications relevant to modern society are emphasized. For students interested in lab-focused sciences such as Chemistry, Physics, Biochemistry, Microbiology and related disciplines. Restricted to students in the Faculty of Science. [3-3-0] Prerequisite: One of CHEM 12, CHEM 100. Equivalency: CHEM121	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.
CHEM_V 141-L19	CHEM_V	141	L19	Chemical Bonding, Molecular Structure and Properties for Lab Sciences	W1	Bonding theories, their predictions, experimental tests, and consequences regarding chemical structure and observable properties. Applications relevant to modern society are emphasized. For students interested in lab-focused sciences such as Chemistry, Physics, Biochemistry, Microbiology and related disciplines. Restricted to students in the Faculty of Science. [3-3-0] Prerequisite: One of CHEM 12, CHEM 100. Equivalency: CHEM121	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
CHEM_V 154-111	CHEM_V	154	111	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 154-133	CHEM_V	154	133	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHEM_V 154-177	CHEM_V	154	177	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHEM_V 154-9AR	CHEM_V	154	9AR	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Arranged	Arranged

CHEM_V 154-L01	CHEM_V	154	L01	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
CHEM_V 154-L04	CHEM_V	154	L04	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
CHEM_V 154-L1A	CHEM_V	154	L1A	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
CHEM_V 154-L1B	CHEM_V	154	L1B	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
CHEM_V 154-L1C	CHEM_V	154	L1C	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
CHEM_V 154-L4A	CHEM_V	154	L4A	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
CHEM_V 154-L4B	CHEM_V	154	L4B	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
CHEM_V 154-L4C	CHEM_V	154	L4C	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
CHEM_V 154-LAR	CHEM_V	154	LAR	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Arranged	Arranged
CHEM_V 154-XMT	CHEM_V	154	XMT	Chemistry for Engineering	W1	Chemical bonding, properties of matter. Chemical thermodynamics with applications to phase equilibria, aqueous equilibria and electrochemistry. Processes at surfaces. [3-3*-0] Prerequisite: CHEM 12.	In Person Learning	Arranged	Arranged
CHEM_V 203-101	CHEM_V	203	101	Introduction to Organic Chemistry	W1	Structure, bonding and physical properties of aliphatic and aromatic compounds; mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-heteroatom bond formation; functional group interconversion and oxidation/reduction reactions. Only open to students in Chemistry or Biochemistry specializations. Credit will be granted for only one of CHEM 203 or CHEM 223, CHEM 225 or CHEM 233, 235. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CHEM_V 203-L06	CHEM_V	203	L06	Introduction to Organic Chemistry	W1	Structure, bonding and physical properties of aliphatic and aromatic compounds; mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-heteroatom bond formation; functional group interconversion and oxidation/reduction reactions. Only open to students in Chemistry or Biochemistry specializations. Credit will be granted for only one of CHEM 203 or CHEM 223, CHEM 225 or CHEM 233, 235. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
CHEM_V 203-L07	CHEM_V	203	L07	Introduction to Organic Chemistry	W1	Structure, bonding and physical properties of aliphatic and aromatic compounds; mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-heteroatom bond formation; functional group interconversion and oxidation/reduction reactions. Only open to students in Chemistry or Biochemistry specializations. Credit will be granted for only one of CHEM 203 or CHEM 223, CHEM 225 or CHEM 233, 235. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
CHEM_V 203-L08	CHEM_V	203	L08	Introduction to Organic Chemistry	W1	Structure, bonding and physical properties of aliphatic and aromatic compounds; mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-heteroatom bond formation; functional group interconversion and oxidation/reduction reactions. Only open to students in Chemistry or Biochemistry specializations. Credit will be granted for only one of CHEM 203 or CHEM 223, CHEM 225 or CHEM 233, 235. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.
CHEM_V 203-L09	CHEM_V	203	L09	Introduction to Organic Chemistry	W1	Structure, bonding and physical properties of aliphatic and aromatic compounds; mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-heteroatom bond formation; functional group interconversion and oxidation/reduction reactions. Only open to students in Chemistry or Biochemistry specializations. Credit will be granted for only one of CHEM 203 or CHEM 223, CHEM 225 or CHEM 233, 235. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
CHEM_V 203-XMT	CHEM_V	203	XMT	Introduction to Organic Chemistry	W1	Structure, bonding and physical properties of aliphatic and aromatic compounds; mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-heteroatom bond formation; functional group interconversion and oxidation/reduction reactions. Only open to students in Chemistry or Biochemistry specializations. Credit will be granted for only one of CHEM 203 or CHEM 223, CHEM 225 or CHEM 233, 235. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 205-203	CHEM_V	205	203	Physical Chemistry	W2	Chemical kinetics and thermodynamics and spectroscopy useful in biological, medical, agricultural, earth, and related sciences. [3-0-0] Prerequisite: Either (a) SCIE 001 or (b) one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of CHEM 130, CHEM 123, CHEM 154.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CHEM_V 205-210	CHEM_V	205	210	Physical Chemistry	W2	Chemical kinetics and thermodynamics and spectroscopy useful in biological, medical, agricultural, earth, and related sciences. [3-0-0] Prerequisite: Either (a) SCIE 001 or (b) one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of CHEM 130, CHEM 123, CHEM 154.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.

CHEM_V 211-LC5	CHEM_V	211	LC5	Introduction to Chemical Analysis	W1	Quantitative chemical analysis; chemical and physical principles of spectrophotometry, potentiometry, and chromatography. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 211-LD2	CHEM_V	211	LD2	Introduction to Chemical Analysis	W1	Quantitative chemical analysis; chemical and physical principles of spectrophotometry, potentiometry, and chromatography. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 211-LD3	CHEM_V	211	LD3	Introduction to Chemical Analysis	W1	Quantitative chemical analysis; chemical and physical principles of spectrophotometry, potentiometry, and chromatography. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 211-LD4	CHEM_V	211	LD4	Introduction to Chemical Analysis	W1	Quantitative chemical analysis; chemical and physical principles of spectrophotometry, potentiometry, and chromatography. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 211-LD5	CHEM_V	211	LD5	Introduction to Chemical Analysis	W1	Quantitative chemical analysis; chemical and physical principles of spectrophotometry, potentiometry, and chromatography. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 211-XMT	CHEM_V	211	XMT	Introduction to Chemical Analysis	W1	Quantitative chemical analysis; chemical and physical principles of spectrophotometry, potentiometry, and chromatography. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 211-YMT	CHEM_V	211	YMT	Introduction to Chemical Analysis	W2	Quantitative chemical analysis; chemical and physical principles of spectrophotometry, potentiometry, and chromatography. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: Either (a) CHEM 123 or (b) all of CHEM 130, CHEM 135 or (c) SCIE 001.	In Person Learning	Arranged	Arranged
CHEM_V 213-201	CHEM_V	213	201	Organic Chemistry	W2	Spectroscopy of organic compounds. Mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-carbon bond formation; functional group interconversion. Preference will be given to students in Chemistry or Biochemistry specializations. [3-0-0] Prerequisite: Either (a) one of CHEM 203, CHEM 223 or (b) a score of 76% or higher in CHEM 233.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CHEM_V 215-L01	CHEM_V	215	L01	Introductory Analytical Chemical Laboratory	W1	An introduction to the principles and techniques in the analytical chemistry laboratory. [0-3-0] Prerequisite: CHEM 210 and one of CHEM 123, CHEM 135.	In Person Learning	Arranged	Arranged
CHEM_V 215-L02	CHEM_V	215	L02	Introductory Analytical Chemical Laboratory	W2	An introduction to the principles and techniques in the analytical chemistry laboratory. [0-3-0] Prerequisite: CHEM 210 and one of CHEM 123, CHEM 135.	In Person Learning	Arranged	Arranged
CHEM_V 218-212	CHEM_V	218	212	Fundamentals of Reactivity in Inorganic Chemistry	W2	Chemical reactivity of inorganic systems: oxidation/reduction chemistry; multiply-bonded systems; main group chemistry. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: CHEM 208.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHEM_V 218-T07	CHEM_V	218	T07	Fundamentals of Reactivity in Inorganic Chemistry	W2	Chemical reactivity of inorganic systems: oxidation/reduction chemistry; multiply-bonded systems; main group chemistry. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: CHEM 208.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
CHEM_V 223-101	CHEM_V	223	101	Introduction to Organic Chemistry (Lecture)	W1	Structure, bonding and physical properties of aliphatic and aromatic compounds; mechanistic analysis of chemical reactivity of common functional groups with a focus on carbon-heteroatom bond formation; functional group interconversion and oxidation/reduction reactions. Only open to students in Chemistry or Biochemistry specializations. Students should consult the Credit Exclusion List for credit exclusions relating to second-year organic chemistry courses. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, SCIE 001.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CHEM_V 225-L06	CHEM_V	225	L06	Introductory Synthetic Chemical Laboratory	W1	An introduction to the principles and techniques in the synthetic organic and inorganic chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 123, CHEM 135.	In Person Learning	Arranged	Arranged
CHEM_V 225-L07	CHEM_V	225	L07	Introductory Synthetic Chemical Laboratory	W1	An introduction to the principles and techniques in the synthetic organic and inorganic chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 123, CHEM 135.	In Person Learning	Arranged	Arranged
CHEM_V 225-L08	CHEM_V	225	L08	Introductory Synthetic Chemical Laboratory	W1	An introduction to the principles and techniques in the synthetic organic and inorganic chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 123, CHEM 135.	In Person Learning	Arranged	Arranged
CHEM_V 225-L09	CHEM_V	225	L09	Introductory Synthetic Chemical Laboratory	W1	An introduction to the principles and techniques in the synthetic organic and inorganic chemistry laboratory. [0-3-0] Prerequisite: One of CHEM 123, CHEM 135.	In Person Learning	Arranged	Arranged
CHEM_V 233-103	CHEM_V	233	103	Organic Chemistry for the Biological Sciences	W1	Reactions and properties of carbonyl compounds, carbohydrates, amino acids, nucleic acids. Credit will be granted for only one of CHEM 233 or CHEM 203 or CHEM 223. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, SCIE 001.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CHEM_V 233-110	CHEM_V	233	110	Organic Chemistry for the Biological Sciences	W1	Reactions and properties of carbonyl compounds, carbohydrates, amino acids, nucleic acids. Credit will be granted for only one of CHEM 233 or CHEM 203 or CHEM 223. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, SCIE 001.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 233-122	CHEM_V	233	122	Organic Chemistry for the Biological Sciences	W1	Reactions and properties of carbonyl compounds, carbohydrates, amino acids, nucleic acids. Credit will be granted for only one of CHEM 233 or CHEM 203 or CHEM 223. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, SCIE 001.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CHEM_V 233-133	CHEM_V	233	133	Organic Chemistry for the Biological Sciences	W1	Reactions and properties of carbonyl compounds, carbohydrates, amino acids, nucleic acids. Credit will be granted for only one of CHEM 233 or CHEM 203 or CHEM 223. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, SCIE 001.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHEM_V 233-199	CHEM_V	233	199	Organic Chemistry for the Biological Sciences	W1	Reactions and properties of carbonyl compounds, carbohydrates, amino acids, nucleic acids. Credit will be granted for only one of CHEM 233 or CHEM 203 or CHEM 223. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, SCIE 001.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.

CHEM_V 250-111	CHEM_V	250	111	Inorganic Chemistry for Engineers	W1	Chemistry of selected groups of inorganic compounds, considered in relation to industrial processes. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, CHEM 154, SCIE 001.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 260-109	CHEM_V	260	109	Organic Chemistry for Engineers	W1	A description of the properties and reactions of organic compounds. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, CHEM 154, SCIE 001.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHEM_V 300-109	CHEM_V	300	109	Communicating Chemistry	W1	Effective argumentation and communication skills in chemistry. Only open to students in a Chemistry specialization. This course is not eligible for Credit/D/Fail grading. [1-0-3] Prerequisite: Third year standing	In Person Learning	Tue	12:30 p.m. - 2:00 p.m.
CHEM_V 300-110	CHEM_V	300	110	Communicating Chemistry	W1	Effective argumentation and communication skills in chemistry. Only open to students in a Chemistry specialization. This course is not eligible for Credit/D/Fail grading. [1-0-3] Prerequisite: Third year standing	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 300-209	CHEM_V	300	209	Communicating Chemistry	W2	Effective argumentation and communication skills in chemistry. Only open to students in a Chemistry specialization. This course is not eligible for Credit/D/Fail grading. [1-0-3] Prerequisite: Third year standing	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHEM_V 300-211	CHEM_V	300	211	Communicating Chemistry	W2	Effective argumentation and communication skills in chemistry. Only open to students in a Chemistry specialization. This course is not eligible for Credit/D/Fail grading. [1-0-3] Prerequisite: Third year standing	In Person Learning	Thu	12:30 p.m. - 2:00 p.m.
CHEM_V 300-GP1	CHEM_V	300	GP1	Communicating Chemistry	W1	Effective argumentation and communication skills in chemistry. Only open to students in a Chemistry specialization. This course is not eligible for Credit/D/Fail grading. [1-0-3] Prerequisite: Third year standing	In Person Learning	Arranged	Arranged
CHEM_V 300-GP2	CHEM_V	300	GP2	Communicating Chemistry	W2	Effective argumentation and communication skills in chemistry. Only open to students in a Chemistry specialization. This course is not eligible for Credit/D/Fail grading. [1-0-3] Prerequisite: Third year standing	In Person Learning	Arranged	Arranged
CHEM_V 301-109	CHEM_V	301	109	Aqueous Environmental Chemistry	W1	Properties and composition of natural waters, including gas and solid equilibria, pH and acidification, redox chemistry, complexation, corrosion, ion exchange, colloids and microbial transformations. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, CHBE 220. and Third year standing.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 302-209	CHEM_V	302	209	Atmospheric Environmental Chemistry	W2	Introduction to structure, composition and chemical processes occurring in Earth's atmosphere, including interactions with solar radiation, stratospheric ozone layer, photochemical smog and acid rain. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, CHBE 220. and Third year standing.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHEM_V 304-111	CHEM_V	304	111	Fundamentals of Thermodynamics and Statistical Mechanics	W1	Principles of chemical thermodynamics; introduction to statistical mechanics; phase equilibria; electrochemistry. [3-0-1] Prerequisite: One of CHEM 123, CHEM 130 and one of MATH 200, MATH 217, MATH 226, MATH 253, MATH 263.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CHEM_V 304-T07	CHEM_V	304	T07	Fundamentals of Thermodynamics and Statistical Mechanics	W1	Principles of chemical thermodynamics; introduction to statistical mechanics; phase equilibria; electrochemistry. [3-0-1] Prerequisite: One of CHEM 123, CHEM 130 and one of MATH 200, MATH 217, MATH 226, MATH 253, MATH 263.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
CHEM_V 304-XMT	CHEM_V	304	XMT	Fundamentals of Thermodynamics and Statistical Mechanics	W1	Principles of chemical thermodynamics; introduction to statistical mechanics; phase equilibria; electrochemistry. [3-0-1] Prerequisite: One of CHEM 123, CHEM 130 and one of MATH 200, MATH 217, MATH 226, MATH 253, MATH 263.	In Person Learning	Arranged	Arranged
CHEM_V 305-211	CHEM_V	305	211	Biophysical Chemistry	W2	Diffusion and transport phenomena; interaction of radiation and matter. Methods for determining molecular weight, size, and shape of molecules in solution. [3-0-0] Prerequisite: One of MATH 200, MATH 217, MATH 226, MATH 253 and either (a) a score of 76% or higher in CHEM 205 or (b) CHEM 304 or (c) PHYS 203.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CHEM_V 311-299	CHEM_V	311	299	Instrumental Analytical Chemistry	W2	Theory, design, and application of instrumental methods of chemical analysis including spectroscopy, mass spectrometry, electroanalysis, and chemical separations. [3-0-1] Prerequisite: One of CHEM 210, CHEM 211.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 311-T02	CHEM_V	311	T02	Instrumental Analytical Chemistry	W2	Theory, design, and application of instrumental methods of chemical analysis including spectroscopy, mass spectrometry, electroanalysis, and chemical separations. [3-0-1] Prerequisite: One of CHEM 210, CHEM 211.	In Person Learning	Tue	11:00 a.m. - 12:00 p.m.
CHEM_V 311-XMT	CHEM_V	311	XMT	Instrumental Analytical Chemistry	W2	Theory, design, and application of instrumental methods of chemical analysis including spectroscopy, mass spectrometry, electroanalysis, and chemical separations. [3-0-1] Prerequisite: One of CHEM 210, CHEM 211.	In Person Learning	Arranged	Arranged
CHEM_V 312-199	CHEM_V	312	199	Introduction to Quantum Mechanics and Spectroscopy	W1	Principles of quantum mechanics; atomic wavefunctions; angular momentum; spin; atomic term symbols. [3-0-1] Prerequisite: One of CHEM 113, CHEM 123, SCIE 001 and one of MATH 200, MATH 217, MATH 226, MATH 253, MATH 263.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 313-208	CHEM_V	313	208	Advanced Organic Chemistry for the Life Sciences	W2	Chemistry of organic substances having particular relevance to the life sciences. [3-0-0] Prerequisite: CHEM 213.	In Person Learning	Mon Wed Fri	8:00 a.m. - 9:00 a.m.
CHEM_V 315-L1B	CHEM_V	315	L1B	Chemistry Integrated Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Mon	2:00 p.m. - 6:00 p.m.
CHEM_V 315-L1C	CHEM_V	315	L1C	Chemistry Integrated Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Mon	2:00 p.m. - 6:00 p.m.
CHEM_V 315-L3B	CHEM_V	315	L3B	Chemistry Integrated Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Tue	2:00 p.m. - 6:00 p.m.
CHEM_V 315-L3C	CHEM_V	315	L3C	Chemistry Integrated Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Tue	2:00 p.m. - 6:00 p.m.

CHEM_V 315-L5B	CHEM_V	315	L5B	Chemistry Integrated Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 315-L5C	CHEM_V	315	L5C	Chemistry Integrated Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LB1	CHEM_V	315	LB1	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Mon	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LB3	CHEM_V	315	LB3	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Tue	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LB5	CHEM_V	315	LB5	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LC1	CHEM_V	315	LC1	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Mon	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LC3	CHEM_V	315	LC3	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Tue	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LC5	CHEM_V	315	LC5	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LM5	CHEM_V	315	LM5	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 315-LM7	CHEM_V	315	LM7	Chemistry Integrated Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 213, CHEM 245.	In Person Learning	Thu	2:00 p.m. - 6:00 p.m.
CHEM_V 318-109	CHEM_V	318	109	Principles of Catalysis	W1	Fundamental aspects of chemical catalysis: kinetic models; catalytic processes in biochemistry and industry; emerging topics in catalysis. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of CHEM 218, CHEM 250.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHEM_V 319-162	CHEM_V	319	162	Practical Skills for Chemical Research	W1	The nature of scientific research; practical skills for chemical research; communicating science. Restricted to Honours students with third year standing and, with permission of the department Head, to Major students with satisfactory third year standing. This course is not eligible for Credit/D/Fail grading. [1-0-0.5]	In Person Learning	Tue	11:00 a.m. - 12:30 p.m.
CHEM_V 325-113	CHEM_V	325	113	Integrated Chemistry Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. Open only to students in Chemistry specializations. [0-8-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 208, CHEM 213, CHEM 245.	In Person Learning	Mon Tue	2:00 p.m. - 6:00 p.m.
CHEM_V 325-115	CHEM_V	325	115	Integrated Chemistry Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. Open only to students in Chemistry specializations. [0-8-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 208, CHEM 213, CHEM 245.	In Person Learning	Mon Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 325-135	CHEM_V	325	135	Integrated Chemistry Laboratory I	W1	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. Open only to students in Chemistry specializations. [0-8-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 208, CHEM 213, CHEM 245.	In Person Learning	Tue Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 325-213	CHEM_V	325	213	Integrated Chemistry Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. Open only to students in Chemistry specializations. [0-8-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 208, CHEM 213, CHEM 245.	In Person Learning	Mon Tue	2:00 p.m. - 6:00 p.m.
CHEM_V 325-215	CHEM_V	325	215	Integrated Chemistry Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. Open only to students in Chemistry specializations. [0-8-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 208, CHEM 213, CHEM 245.	In Person Learning	Mon Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 325-235	CHEM_V	325	235	Integrated Chemistry Laboratory I	W2	Principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. Open only to students in Chemistry specializations. [0-8-0] Prerequisite: One of CHEM 211, CHEM 215 and all of CHEM 208, CHEM 213, CHEM 245.	In Person Learning	Tue Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 327-212	CHEM_V	327	212	Introduction to Materials Chemistry	W2	Basic principles of materials chemistry: classification; nomenclature; synthetic methods; characterization. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of CHEM 208, CHEM 250 and one of CHEM 203, CHEM 223, CHEM 233, CHEM 260.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHEM_V 329-286	CHEM_V	329	286	Research Ethics and Data Analysis Skills	W2	Research ethics; data analysis skills for chemical research. Restricted to Honours students with third year standing and, with permission of the department Head, to Major students with satisfactory third year standing. This course is not eligible for Credit/D/Fail grading. [1-0-0.5]	In Person Learning	Thu	8:00 a.m. - 9:30 a.m.
CHEM_V 330-110	CHEM_V	330	110	Advanced Organic Chemistry	W1	Application of carbonyl group chemistry, cyclization reactions, conformational analysis and rearrangement reactions in organic synthesis. [3-0-0] Prerequisite: CHEM 213.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 335-L1B	CHEM_V	335	L1B	Chemistry Integrated Laboratory II	W1	Further development of principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: CHEM 315.	In Person Learning	Mon	2:00 p.m. - 6:00 p.m.
CHEM_V 335-L1C	CHEM_V	335	L1C	Chemistry Integrated Laboratory II	W1	Further development of principles and techniques of modern chemistry applied by integrating experiments chosen from organic, inorganic, physical, and analytical chemistry. [0-4-0] Prerequisite: CHEM 315.	In Person Learning	Mon	2:00 p.m. - 6:00 p.m.

CHEM_V 398-610	CHEM_V	398	610	Co-operative Work Placement I	W1	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the winter term of the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHEM_V 398-620	CHEM_V	398	620	Co-operative Work Placement I	W2	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the winter term of the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CHEM_V 399-610	CHEM_V	399	610	Co-operative Work Placement II	W1	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the summer following the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CHEM398]	In Person Learning	Arranged	Arranged
CHEM_V 399-620	CHEM_V	399	620	Co-operative Work Placement II	W2	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the summer following the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CHEM398]	In Person Learning	Arranged	Arranged
CHEM_V 401-299	CHEM_V	401	299	Principles of Spectroscopy	W2	Rotational, vibrational, electronic and magnetic resonance spectroscopy and associated techniques; group theory. [3-0-0] Prerequisite: One of MATH 152, MATH 221, MATH 223 and one of CHEM 312, PHYS 304.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 402-209	CHEM_V	402	209	Diffraction Methods	W2	Crystal structures; point and space groups; X-ray diffraction, neutron diffraction, electron diffraction of gases and surfaces. Credit will be granted for only one of CHEM 402 or CHEM 514. [3-0-0] Prerequisite: CHEM 208.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 403-201	CHEM_V	403	201	Surface Chemistry and Surface Analysis	W2	Surfaces and phenomena occurring at surfaces and interfaces: adsorption, thermodynamic treatments, technological applications. Methods for characterization and modification of surfaces. Dynamic electrochemistry and its application to understanding fuel cells. [3-0-0] Prerequisite: CHEM 304 and one of MATH 200, MATH 217, MATH 226, MATH 253, MATH 263.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CHEM_V 404-101	CHEM_V	404	101	Computational Chemistry	W1	Application of numerical techniques to study chemical systems; molecular simulation. Prior computer programming experience is not required. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: Either (a) SCIE 001 or (b) one of CHEM 123, CHEM 130, CHEM 154 and one of PHYS 106, PHYS 107, PHYS 108, PHYS 117, PHYS 118, PHYS 170 and one of MATH 101, MATH 103, MATH 105, MATH 121, and Third-year standing.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CHEM_V 404-T01	CHEM_V	404	T01	Computational Chemistry	W1	Application of numerical techniques to study chemical systems; molecular simulation. Prior computer programming experience is not required. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: Either (a) SCIE 001 or (b) one of CHEM 123, CHEM 130, CHEM 154 and one of PHYS 106, PHYS 107, PHYS 108, PHYS 117, PHYS 118, PHYS 170 and one of MATH 101, MATH 103, MATH 105, MATH 121, and Third-year standing.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CHEM_V 405-110	CHEM_V	405	110	Biophysical Chemistry	W1	Interactions of macromolecules in solution: ligand, antibody and ion binding to macromolecules; thermodynamics of polymer solutions; excluded volume effects; phase separation; partition in two phase polymer solutions. [3-0-0] Prerequisite: One of CHEM 304, CHEM 305, PHYS 203.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 406-101	CHEM_V	406	101	Polymer Chemistry	W1	Structure and availability of monomers; Propagation mechanisms; synthesis of polymers with predetermined properties; measurement and interpretation of physical properties of polymers. [3-0-0] Prerequisite: One of CHEM 213, CHEM 260 and one of CHEM 205, CHEM 304, CHEM 220.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CHEM_V 407-233	CHEM_V	407	233	Statistical Mechanics in Chemistry	W2	Introductory concepts of statistical mechanics and statistical thermodynamics. Applications to chemistry with emphasis on understanding chemical reactivity. Credit will be granted for only one of CHEM 503/CHEM 407 or PHYS 455. [3-0-0] Prerequisite: One of CHEM 304, PHYS 203.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHEM_V 409-199	CHEM_V	409	199	Astrochemistry	W2	Application of physical chemistry concepts and principles to the study of molecules in interstellar media and celestial bodies. Credit will be granted for only one of CHEM 409 or CHEM 509. [3-0-0] Prerequisite: One of CHEM 312, PHYS 304. Students with CHEM 205 with a minimum grade of 76% may be admitted with permission of the instructor.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 410-211	CHEM_V	410	211	Properties of Materials	W2	Electromagnetic, optical, thermal and mechanical properties, and chemical reactivity of solids; electrons in periodic systems: bands, zones; excitations: excitons, phonons, plasmons, polaritons; crystalline order and disorder; ionic conductivity. Credit will be granted for only one of CHEM 410 or CHEM 502. [3-0-0] Prerequisite: One of CHEM 304, PHYS 203 and one of CHEM 312, PHYS 304.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CHEM_V 411-202	CHEM_V	411	202	Synthesis and Chemistry of Natural Products	W2	Methods and tactics for the synthesis of biologically active natural products and analogs, particularly alkaloids, polyketides, steroids and terpenes. Credit will be granted for only one of CHEM 411 or CHEM 566. [3-0-0] Prerequisite: CHEM 460.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CHEM_V 412-266	CHEM_V	412	266	Electronic Structure of Atoms and Molecules	W2	Introduction to variational methods; many-electron systems; semi-empirical methods; perturbation theory; computational methods. [3-0-0] Prerequisite: One of CHEM 312, PHYS 304 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 413-199	CHEM_V	413	199	Bioorganic Chemistry	W1	Enzyme catalysis; mechanistic enzymology; chemistry of cofactors; biosynthetic transformations; natural product biosynthesis; topics in chemical biology. Credit will be granted for only one of CHEM 413, CHEM 569, or BIOC 403. [3-0-0] Prerequisite: CHEM313, CHEM330	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 416-212	CHEM_V	416	212	Physical and Theoretical Organic Chemistry	W2	Energetics and catalysis in organic reactions. Pericyclic reactions. Substituent effects. Linear free energy relationships. Credit will be granted for only one of CHEM 416 or CHEM 563. [3-0-0] Prerequisite: [CHEM313, CHEM330]	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CHEM_V 417-212	CHEM_V	417	212	Nuclear Chemistry and Radiochemistry	W2	Basic treatment of the nucleus, with analogy to concepts in chemistry. Nuclear stabilities and associated radioactive decay processes. Nuclear structure. Applications of radioisotopes in chemistry. The interaction of radiation with matter. [3-0-0] Prerequisite: One of CHEM 123, CHEM 130, and Third year standing. CHEM 312 is recommended.	In Person Learning	Arranged	Arranged
CHEM_V 418-209	CHEM_V	418	209	Organometallic Chemistry	W2	The chemistry of compounds containing organic groups directly bonded to metals and metalloids. Emphasis will be placed on the structure and bonding of the compounds and their use in synthetic chemistry. Credit will be granted for only one of CHEM 418 or CHEM 524. [3-0-0] Prerequisite: CHEM 318.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHEM_V 427-122	CHEM_V	427	122	Applications of Materials Chemistry	W1	Contemporary materials chemistry, including design and synthesis of materials for energy, electronics, and health applications. [3-0-0] Prerequisite: CHEM 327.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.

CHEM_V 434-266	CHEM_V	434		266	Principles of Chemical Separation	W2	Unified theory of separation science; liquid and gas chromatography; capillary electrophoresis; electrochemical and spectroscopic detection; separation methods coupled with mass spectrometry and tandem mass spectrometry; biochemical applications. Credit will be granted for only one of CHEM 434 or CHEM 534. [3-0-0] Prerequisite: CHEM 311.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 445-A_115	CHEM_V	445	A	A_115	Projects in Experimental Chemistry	W1	Principles of experimental design, practice and problem solving in chemistry, including the opportunity to pursue projects in a research setting. [0-8-0] Prerequisite: One of CHEM 345, CHEM 335. Students satisfying the prerequisite requirement using CHEM 335 must have fourth-year standing in a Chemistry Combined Major specialization.	In Person Learning	Mon Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 445-A_135	CHEM_V	445	A	A_135	Projects in Experimental Chemistry	W1	Principles of experimental design, practice and problem solving in chemistry, including the opportunity to pursue projects in a research setting. [0-8-0] Prerequisite: One of CHEM 345, CHEM 335. Students satisfying the prerequisite requirement using CHEM 335 must have fourth-year standing in a Chemistry Combined Major specialization.	In Person Learning	Mon Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 445-A_RLE	CHEM_V	445	A	A_RLE	Projects in Experimental Chemistry	W1	Principles of experimental design, practice and problem solving in chemistry, including the opportunity to pursue projects in a research setting. [0-8-0] Prerequisite: One of CHEM 345, CHEM 335. Students satisfying the prerequisite requirement using CHEM 335 must have fourth-year standing in a Chemistry Combined Major specialization.	In Person Learning	Tue	12:30 p.m. - 1:30 p.m.
CHEM_V 445-B_215	CHEM_V	445	B	B_215	Projects in Experimental Chemistry	W2	Principles of experimental design, practice and problem solving in chemistry, including the opportunity to pursue projects in a research setting. [0-8-0] Prerequisite: One of CHEM 345, CHEM 335. Students satisfying the prerequisite requirement using CHEM 335 must have fourth-year standing in a Chemistry Combined Major specialization.	In Person Learning	Mon Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 445-B_235	CHEM_V	445	B	B_235	Projects in Experimental Chemistry	W2	Principles of experimental design, practice and problem solving in chemistry, including the opportunity to pursue projects in a research setting. [0-8-0] Prerequisite: One of CHEM 345, CHEM 335. Students satisfying the prerequisite requirement using CHEM 335 must have fourth-year standing in a Chemistry Combined Major specialization.	In Person Learning	Mon Wed	2:00 p.m. - 6:00 p.m.
CHEM_V 445-B_RLE	CHEM_V	445	B	B_RLE	Projects in Experimental Chemistry	W2	Principles of experimental design, practice and problem solving in chemistry, including the opportunity to pursue projects in a research setting. [0-8-0] Prerequisite: One of CHEM 345, CHEM 335. Students satisfying the prerequisite requirement using CHEM 335 must have fourth-year standing in a Chemistry Combined Major specialization.	In Person Learning	Arranged	Arranged
CHEM_V 445-C_RLE	CHEM_V	445	C	C_RLE	Projects in Experimental Chemistry	W1-2	Principles of experimental design, practice and problem solving in chemistry, including the opportunity to pursue projects in a research setting. [0-8-0] Prerequisite: One of CHEM 345, CHEM 335. Students satisfying the prerequisite requirement using CHEM 335 must have fourth-year standing in a Chemistry Combined Major specialization.	In Person Learning	Tue	12:30 p.m. - 1:30 p.m.
CHEM_V 448-A_001	CHEM_V	448	A	A_001	Directed Studies in Chemistry	W1	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-A_100	CHEM_V	448	A	A_100	Directed Studies in Chemistry	W1	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-A_101	CHEM_V	448	A	A_101	Directed Studies in Chemistry	W1	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-B_002	CHEM_V	448	B	B_002	Directed Studies in Chemistry	W2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-B_200	CHEM_V	448	B	B_200	Directed Studies in Chemistry	W2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-B_202	CHEM_V	448	B	B_202	Directed Studies in Chemistry	W2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-C_001	CHEM_V	448	C	C_001	Directed Studies in Chemistry	W1-2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-C_003	CHEM_V	448	C	C_003	Directed Studies in Chemistry	W1-2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-C_100	CHEM_V	448	C	C_100	Directed Studies in Chemistry	W1-2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-C_101	CHEM_V	448	C	C_101	Directed Studies in Chemistry	W1-2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 448-C_303	CHEM_V	448	C	C_303	Directed Studies in Chemistry	W1-2	Students will undertake an investigation of a specific topic as agreed upon by the student and the faculty supervisor. Open to third- and fourth-year chemistry students.	In Person Learning	Arranged	Arranged
CHEM_V 449-002	CHEM_V	449		002	Seminar and Thesis	W1-2	Original research work under the direction of a faculty member. Weekly seminar. Required of all Honours students. Open to Majors students with a satisfactory standing and permission of the department head.	In Person Learning	Arranged	Arranged
CHEM_V 449-OR2	CHEM_V	449		OR2	Seminar and Thesis	W1-2	Original research work under the direction of a faculty member. Weekly seminar. Required of all Honours students. Open to Majors students with a satisfactory standing and permission of the department head.	In Person Learning	Arranged	Arranged
CHEM_V 449-202	CHEM_V	449		202	Seminar and Thesis	W2	Original research work under the direction of a faculty member. Weekly seminar. Required of all Honours students. Open to Majors students with a satisfactory standing and permission of the department head.	In Person Learning	Arranged	Arranged

CHEM_V 449-2R2	CHEM_V	449		2R2	Seminar and Thesis	W2	Original research work under the direction of a faculty member. Weekly seminar. Required of all Honours students. Open to Majors students with a satisfactory standing and permission of the department head.	In Person Learning	Arranged	Arranged
CHEM_V 460-166	CHEM_V	460		166	Organic Synthesis: A Mechanistic Approach	W1	Presentation, mechanistic discussion and analysis of modern synthetic methods using principles of physical organic chemistry. Credit will be granted for only one of CHEM 460 or CHEM 560. [3-0-0] Prerequisite: CHEM 330.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 461-233	CHEM_V	461		233	Synthetic Chemical Biology	W2	Synthetic, mechanistic, and biochemical approaches to chemical biology, including the design of drugs, probes, and catalysts. Credit will be granted for only one of CHEM 461 or CHEM 561. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of CHEM 313, CHEM 330.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHEM_V 473-188	CHEM_V	473		188	Structure Determination and Reaction Analysis	W1	Application of mass spectrometry and modern spectroscopic techniques, including multidimensional NMR spectroscopy, to reaction analysis and detailed characterization of complex organic and organometallic molecular structures. [3-0-0] Prerequisite: CHEM 245 and one of CHEM 313, CHEM 318, CHEM 330.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
CHEM_V 498-610	CHEM_V	498		610	Co-operative Work Placement III	W1	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the summer following fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CHEM399]	In Person Learning	Arranged	Arranged
CHEM_V 498-620	CHEM_V	498		620	Co-operative Work Placement III	W2	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the summer following fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CHEM399]	In Person Learning	Arranged	Arranged
CHEM_V 499-610	CHEM_V	499		610	Co-operative Work Placement IV	W1	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the fall term of the fifth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. Prerequisite: [CHEM498]	In Person Learning	Arranged	Arranged
CHEM_V 499-620	CHEM_V	499		620	Co-operative Work Placement IV	W2	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Taken during the fall term of the fifth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Chemistry. Prerequisite: [CHEM498]	In Person Learning	Arranged	Arranged
CHEM_V 501-111	CHEM_V	501		111	Applications of Quantum Mechanics in Chemistry	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	1:00 p.m. - 2:30 p.m.
CHEM_V 502-211	CHEM_V	502		211	Advanced Physical Chemistry of the Solid State	W2	Credit will be granted for only one of CHEM 502 or CHEM 410. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CHEM_V 503-233	CHEM_V	503		233	Equilibrium Statistical Mechanics in Chemistry	W2	Introductory principles of Statistical Mechanics with illustrations of chemical importance. Applications to molecular gases, liquids, solids, independent particle statistics, electric and magnetic moments, radiation, chemical equilibrium and reaction rates. Credit will be granted for only one of CHEM 407/CHEM 503 or PHYS 455. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHEM_V 506-101	CHEM_V	506		101	Polymer Chemistry	W1	Credit will be granted for only one of CHEM 506 or CHEM 406. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CHEM_V 509-199	CHEM_V	509		199	Astrochemistry	W2	Credit will be granted for only one of CHEM 509 or CHEM 409. [3-0-0]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 514-209	CHEM_V	514		209	Crystal Structures	W2	Crystal structures and structural analysis by the methods of X-ray diffraction and neutron diffraction. Credit will be granted for only one of CHEM 402 or CHEM 514. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 516-A_110	CHEM_V	516	A	A_110	Topics in Biophysical Chemistry	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 517-133	CHEM_V	517		133	Electrochemistry	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CHEM_V 519-A_299	CHEM_V	519	A	A_299	Topics in Molecular Spectroscopy	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 524-209	CHEM_V	524		209	Advanced Applications in Organometallic Chemistry	W2	Credit will be granted for only one of CHEM 418 or CHEM 524. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CHEM_V 529-199	CHEM_V	529		199	Structural Methods in Inorganic Chemistry	W1	NMR, ESR, mass spectrometry, photoelectron spectroscopy (Auger, UV, X-Ray), Mossbauer spectroscopy, electrochemistry. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHEM_V 533-166	CHEM_V	533		166	Bioanalytical Chemistry	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 534-266	CHEM_V	534		266	Principles of Chemical Separation	W2	Credit will be granted for only one of CHEM 534 or CHEM 434. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHEM_V 535-A_212	CHEM_V	535	A	A_212	Topics in Analytical Chemistry	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.

CHEM_V 548-001	CHEM_V	548	001	Research Conference	W1-2	Attendance is compulsory for all graduate students in each year of registration for the M.Sc. or Ph.D. in chemistry. No credit value.	In Person Learning	Tue	12:30 p.m. - 2:00 p.m.	
CHEM_V 549-001	CHEM_V	549	001	M.Sc. Thesis	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	12:30 p.m. - 2:00 p.m.	
CHEM_V 549-101	CHEM_V	549	101	M.Sc. Thesis	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CHEM_V 549-201	CHEM_V	549	201	M.Sc. Thesis	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CHEM_V 560-166	CHEM_V	560	166	Organic Chemistry: Building Molecules and Understanding Reactivity	W1	Credit will be granted for only one of CHEM 460 or CHEM 560. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
CHEM_V 561-199	CHEM_V	561	199	Advanced Chemical Biology	W1	Credit will be granted for only one of CHEM 461 and CHEM 561. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.	
CHEM_V 561-233	CHEM_V	561	233	Advanced Chemical Biology	W2	Credit will be granted for only one of CHEM 461 and CHEM 561. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.	
CHEM_V 563-212	CHEM_V	563	212	Advanced Physical Organic Chemistry	W2	Discussion of acidity functions, photochemistry and reactive intermediates in organic chemistry. Applications of molecular orbital theory to organic systems. Credit will be granted for only one of CHEM 563 or CHEM 416. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.	
CHEM_V 566-201	CHEM_V	566	201	Advanced Organic Synthesis	W2	Discussion of modern synthetic methods and applications to the synthesis of complex organic molecules. Credit will be granted for only one of CHEM 566 or CHEM 411. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.	
CHEM_V 569-199	CHEM_V	569	199	Advanced Bioorganic Chemistry	W1	Credit will be granted for only one of CHEM 569, CHEM 413, or BIOC 403. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.	
CHEM_V 573-299	CHEM_V	573	299	Application of Spectroscopy to Organic Structural Determinations	W2	A problem solving course to illustrate the application of NMR, mass spectrometry, ORD, CD, etc. to elucidation of structures of organic and organometallic compounds. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.	
CHEM_V 588-A_101	CHEM_V	588	A	A_101	Topics in Chemistry	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CHEM_V 588-B_201	CHEM_V	588	B	B_201	Topics in Chemistry	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CHEM_V 649-001	CHEM_V	649	001	Doctoral Dissertation	W1-2		In Person Learning	Tue	12:30 p.m. - 2:00 p.m.	
CHEM_V 649-101	CHEM_V	649	101	Doctoral Dissertation	W1		In Person Learning	Arranged	Arranged	
CHEM_V 649-201	CHEM_V	649	201	Doctoral Dissertation	W2		In Person Learning	Arranged	Arranged	
CHIL_V 500-001	CHIL_V	500	001	Research in Children's and Young Adult Literature	W1	Multidisciplinary approaches to principles, practice, and current trends in academic research in children's literature. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.	
CHIL_V 599-001	CHIL_V	599	001	Thesis for Master of Arts in Children's Literature	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CHIL_V 599-002	CHIL_V	599	002	Thesis for Master of Arts in Children's Literature	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CHIL_V 599-003	CHIL_V	599	003	Thesis for Master of Arts in Children's Literature	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CHIL_V 599-004	CHIL_V	599	004	Thesis for Master of Arts in Children's Literature	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CHIN_V 131-011	CHIN_V	131	011	Basic Chinese I: Part 1 (Non-Heritage)	W1	Skills in listening, speaking, reading, and writing in Mandarin Chinese, an active vocabulary of about 250 Chinese words, and basic grammar. Credit will be granted for only one of CHIN 131 or CHIN 101 or CHIN 134. This course is not eligible for Credit/D/Fail grading.	Online Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.	
CHIN_V 131-012	CHIN_V	131	012	Basic Chinese I: Part 1 (Non-Heritage)	W1	Skills in listening, speaking, reading, and writing in Mandarin Chinese, an active vocabulary of about 250 Chinese words, and basic grammar. Credit will be granted for only one of CHIN 131 or CHIN 101 or CHIN 134. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	

CHIN_V 343-D21	CHIN_V	343	D21	Intermediate Chinese I: Part 2 (Heritage)	W2	Continuation of CHIN 341. Credit will be granted for only one of CHIN 343 or CHIN 213 or CHIN 344. Recommended pre-requisites: one of CHIN 211, CHIN 341. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	1:00 p.m. - 2:00 p.m.
CHIN_V 343-D22	CHIN_V	343	D22	Intermediate Chinese I: Part 2 (Heritage)	W2	Continuation of CHIN 341. Credit will be granted for only one of CHIN 343 or CHIN 213 or CHIN 344. Recommended pre-requisites: one of CHIN 211, CHIN 341. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	2:00 p.m. - 3:00 p.m.
CHIN_V 343-D23	CHIN_V	343	D23	Intermediate Chinese I: Part 2 (Heritage)	W2	Continuation of CHIN 341. Credit will be granted for only one of CHIN 343 or CHIN 213 or CHIN 344. Recommended pre-requisites: one of CHIN 211, CHIN 341. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	3:00 p.m. - 4:00 p.m.
CHIN_V 343-D99	CHIN_V	343	D99	Intermediate Chinese I: Part 2 (Heritage)	W2	Continuation of CHIN 341. Credit will be granted for only one of CHIN 343 or CHIN 213 or CHIN 344. Recommended pre-requisites: one of CHIN 211, CHIN 341. This course is not eligible for Credit/D/Fail grading.	Online Learning	Arranged	Arranged
CHIN_V 345-011	CHIN_V	345	011	Intermediate Chinese II: Part I (Heritage)	W1	Integrated skills in modern Chinese. Focus on reading, writing, and better understanding of Chinese culture. Credit will be granted for only one of CHIN 345 or CHIN 215 or CHIN 348. Recommended pre-requisites: one of CHIN 213, CHIN 214, CHIN 343, CHIN 344. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHIN_V 345-D11	CHIN_V	345	D11	Intermediate Chinese II: Part I (Heritage)	W1	Integrated skills in modern Chinese. Focus on reading, writing, and better understanding of Chinese culture. Credit will be granted for only one of CHIN 345 or CHIN 215 or CHIN 348. Recommended pre-requisites: one of CHIN 213, CHIN 214, CHIN 343, CHIN 344. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	2:00 p.m. - 3:00 p.m.
CHIN_V 345-D12	CHIN_V	345	D12	Intermediate Chinese II: Part I (Heritage)	W1	Integrated skills in modern Chinese. Focus on reading, writing, and better understanding of Chinese culture. Credit will be granted for only one of CHIN 345 or CHIN 215 or CHIN 348. Recommended pre-requisites: one of CHIN 213, CHIN 214, CHIN 343, CHIN 344. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	3:00 p.m. - 4:00 p.m.
CHIN_V 345-D98	CHIN_V	345	D98	Intermediate Chinese II: Part I (Heritage)	W1	Integrated skills in modern Chinese. Focus on reading, writing, and better understanding of Chinese culture. Credit will be granted for only one of CHIN 345 or CHIN 215 or CHIN 348. Recommended pre-requisites: one of CHIN 213, CHIN 214, CHIN 343, CHIN 344. This course is not eligible for Credit/D/Fail grading.	Online Learning	Arranged	Arranged
CHIN_V 347-021	CHIN_V	347	021	Intermediate Chinese II: Part 2 (Heritage)	W2	Continuation of CHIN 345. Credit will be granted for only one of CHIN 347 or CHIN 217 or CHIN 348. Recommended pre-requisites: one of CHIN 215, CHIN 345. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHIN_V 347-D21	CHIN_V	347	D21	Intermediate Chinese II: Part 2 (Heritage)	W2	Continuation of CHIN 345. Credit will be granted for only one of CHIN 347 or CHIN 217 or CHIN 348. Recommended pre-requisites: one of CHIN 215, CHIN 345. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	2:00 p.m. - 3:00 p.m.
CHIN_V 347-D22	CHIN_V	347	D22	Intermediate Chinese II: Part 2 (Heritage)	W2	Continuation of CHIN 345. Credit will be granted for only one of CHIN 347 or CHIN 217 or CHIN 348. Recommended pre-requisites: one of CHIN 215, CHIN 345. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	3:00 p.m. - 4:00 p.m.
CHIN_V 347-D99	CHIN_V	347	D99	Intermediate Chinese II: Part 2 (Heritage)	W2	Continuation of CHIN 345. Credit will be granted for only one of CHIN 347 or CHIN 217 or CHIN 348. Recommended pre-requisites: one of CHIN 215, CHIN 345. This course is not eligible for Credit/D/Fail grading.	Online Learning	Arranged	Arranged
CHIN_V 401-011	CHIN_V	401	011	Advanced Chinese Reading and Writing I (Non-Heritage)	W1	Reading and writing skills addressing social, cultural, and economic issues. Can be taken concurrently with CHIN 405. Credit will be granted for only one of CHIN 401 or CHIN 301 or CHIN 404. Recommended pre-requisites: one of CHIN 207, CHIN 208, CHIN 337, CHIN 338. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHIN_V 403-021	CHIN_V	403	021	Advanced Chinese Reading and Writing II (Non-Heritage)	W2	Continuation of CHIN 401. Can be taken concurrently with CHIN 407. Credit will be granted for only one of CHIN 403 or CHIN 303 or CHIN 404. Recommended pre-requisites: one of CHIN 301, CHIN 401. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CHIN_V 405-011	CHIN_V	405	011	Advanced Chinese Speaking and Writing I (Non-Heritage)	W1	More formal styles of oral and written communication. Can be taken concurrently with CHIN 401. Credit will be granted for only one of CHIN 405 or CHIN 305 or CHIN 408. Recommended pre-requisites: one of CHIN 207, CHIN 208, CHIN 337, CHIN 338. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHIN_V 407-021	CHIN_V	407	021	Advanced Chinese Speaking and Writing II (Non-Heritage)	W2	Continuation of CHIN 405. Can be taken concurrently with CHIN 403. Credit will be granted for only one of CHIN 407 or CHIN 307 or CHIN 408. Recommended pre-requisites: one of CHIN 305, CHIN 405. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHIN_V 415-011	CHIN_V	415	011	Media Chinese I (Heritage)	W1	Reading and understanding Chinese as used in newspapers, radio/TV, and the internet news. Credit will be granted for only one of CHIN 415 or CHIN 309. Recommended pre-requisites: one of CHIN 347, CHIN 348.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CHIN_V 435-011	CHIN_V	435	011	Business Chinese I (Heritage)	W1	Reading, writing, and presentation skills in business documentation, focusing on technical Chinese as used in the workplace. Emphasis on specialized vocabulary and development of communicative competence as relevant to advertising, the stock market and E-commerce. Credit will be granted for only one of CHIN 435 or CHIN 321. Recommended pre-requisites: one of CHIN 217, CHIN 218, CHIN 347, CHIN 348. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CHIN_V 437-021	CHIN_V	437	021	Business Chinese II (Heritage)	W2	Reading, writing, and presentation skills in business documentation, focusing on technical Chinese as used in the workplace. Emphasis on specialized vocabulary and development of communicative competence as relevant to legal and financial documents such as contracts, investments, and insurance. Credit will be granted for only one of CHIN 437 or CHIN 323. Recommended pre-requisites: one of CHIN 217, CHIN 218, CHIN 347, CHIN 348. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CHIN_V 441-011	CHIN_V	441	011	Advanced Chinese Reading and Writing I (Heritage)	W1	Transition from language to literature. Can be taken concurrently with CHIN 435 and CHIN 445. Credit will be granted for only one of CHIN 441 or CHIN 311 or CHIN 444. Recommended pre-requisites: one of CHIN 217, CHIN 218, CHIN 347, CHIN 348. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CHIN_V 443-021	CHIN_V	443	021	Advanced Chinese Reading and Writing II (Heritage)	W2	Continuation of CHIN 441. Can be taken concurrently with CHIN 437 and/or CHIN 447. Credit will be granted for only one of CHIN 443 or CHIN 313 or CHIN 444. Recommended pre-requisites: one of CHIN 311, CHIN 441. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.

CHIN_V 451-011	CHIN_V	451	011	Introductory Modern Chinese Literature I	W1	A reading-intensive introduction to modern Chinese literature from 1900 to 1949, with a focus on fiction. Credit will be granted for only one of CHIN 451 or CHIN 411. Recommended pre-requisites: one of CHIN 303, CHIN 304, CHIN 403, CHIN 404, CHIN 435, CHIN 441, CHIN 443 and one of CHIN 307, CHIN 308, CHIN 407, CHIN 408, CHIN 437, CHIN 445, CHIN 447. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CHIN_V 453-021	CHIN_V	453	021	Introductory Modern Chinese Literature II	W2	A reading-intensive introduction to modern Chinese literature from 1949 to the present, with a focus on fiction. Credit will be granted for only one of CHIN 453 or CHIN 413. Recommended pre-requisites: one of CHIN 411, CHIN 451. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CHIN_V 461-011	CHIN_V	461	011	Early Classical Chinese Poetry (to Han)	W1	Readings in classical poetry from the pre-Qin to the end of the Han Dynasties, at an advanced level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 461 or CHIN 464. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CHIN_V 463-021	CHIN_V	463	021	Early Classical Chinese Poetry (Han to Tang)	W2	Readings in classical poetry from the Six Dynasties to early Tang, at an advanced level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 463 or CHIN 464. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CHIN_V 465-21	CHIN_V	465	21	Fantasy in Chinese Literature	W2	Themes in Chinese literature from pre-Qin to the present, with a focus on narratives about the supernatural, the marvelous, and the fantastic. Recommended pre-requisites: one of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue Thu	6:30 p.m. - 8:00 p.m.
CHIN_V 466-021	CHIN_V	466	021	Chinese Martial Arts Fiction	W2	Chinese martial arts fiction as a form of cultural expression first created in classical Chinese fiction and then evolved into contemporary popular literature. Recommended pre-requisites: one of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHIN_V 471-011	CHIN_V	471	011	Later Classical Chinese Poetry (Tang)	W1	Readings in classical poetry from the time of Du Fu (712-770) to the end of the Tang Dynasty, at an advanced level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 471 or 474. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHIN_V 471-012	CHIN_V	471	012	Later Classical Chinese Poetry (Tang)	W1	Readings in classical poetry from the time of Du Fu (712-770) to the end of the Tang Dynasty, at an advanced level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 471 or 474. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CHIN_V 471-013	CHIN_V	471	013	Later Classical Chinese Poetry (Tang)	W1	Readings in classical poetry from the time of Du Fu (712-770) to the end of the Tang Dynasty, at an advanced level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 471 or 474. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Wed	5:00 p.m. - 6:00 p.m.
CHIN_V 473-021	CHIN_V	473	021	Later Classical Chinese Poetry (after Tang)	W2	Readings in classical poetry from the Song to the Qing dynasties, at an advanced level. Not to be taken concurrently with any CHIN courses lower than 400-level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 473 or 474. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CHIN_V 473-022	CHIN_V	473	022	Later Classical Chinese Poetry (after Tang)	W2	Readings in classical poetry from the Song to the Qing dynasties, at an advanced level. Not to be taken concurrently with any CHIN courses lower than 400-level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 473 or 474. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CHIN_V 473-023	CHIN_V	473	023	Later Classical Chinese Poetry (after Tang)	W2	Readings in classical poetry from the Song to the Qing dynasties, at an advanced level. Not to be taken concurrently with any CHIN courses lower than 400-level. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 473 or 474. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Wed	5:00 p.m. - 6:00 p.m.
CHIN_V 481-011	CHIN_V	481	011	Modern Chinese Literature I (Heritage)	W1	Selected readings from the May Fourth Era to present. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 481 or CHIN 484. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CHIN_V 481-012	CHIN_V	481	012	Modern Chinese Literature I (Heritage)	W1	Selected readings from the May Fourth Era to present. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 481 or CHIN 484. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Mon Wed	6:30 p.m. - 8:00 p.m.
CHIN_V 483-021	CHIN_V	483	021	Modern Chinese Literature II (Heritage)	W2	Historical continuation of CHIN 481. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 483 or CHIN 484. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CHIN_V 483-022	CHIN_V	483	022	Modern Chinese Literature II (Heritage)	W2	Historical continuation of CHIN 481. Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 483 or CHIN 484. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Mon Wed	6:30 p.m. - 8:00 p.m.

CHIN_V 485-011	CHIN_V	485	011	Contemporary Chinese Fiction in Film	W1	Contemporary Chinese films from the 21st century adapted from literary works. Recommended pre-requisites: One of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHIN_V 485-012	CHIN_V	485	012	Contemporary Chinese Fiction in Film	W1	Contemporary Chinese films from the 21st century adapted from literary works. Recommended pre-requisites: One of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval.	Online Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CHIN_V 485-021	CHIN_V	485	021	Contemporary Chinese Fiction in Film	W2	Contemporary Chinese films from the 21st century adapted from literary works. Recommended pre-requisites: One of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CHIN_V 485-022	CHIN_V	485	022	Contemporary Chinese Fiction in Film	W2	Contemporary Chinese films from the 21st century adapted from literary works. Recommended pre-requisites: One of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval.	Online Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CHIN_V 486-011	CHIN_V	486	011	Staging Drama in Modern China	W1	Development, performance, intercultural interactions, and multi-media adaptations of modern Chinese drama. Recommended pre-requisites: one of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CHIN_V 489-011	CHIN_V	489	011	Reading Modern Sinophone Literature	W1	Sinophone literature produced beyond mainland China after 1949 as a dynamic part of understanding cultural Chineseness in its local, communal and global context. Recommended pre-requisites: one of CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448, or placement approval.	Online Learning	Arranged	Arranged
CHIN_V 491-011	CHIN_V	491	011	Classical Chinese I (Heritage)	W1	The development of early Chinese from the classical period through the Six Dynasties (5th century BCE to 6th century CE). Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 491 or CHIN 431 or CHIN 494. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue	2:00 p.m. - 5:00 p.m.
CHIN_V 493-021	CHIN_V	493	021	Classical Chinese II (Heritage)	W2	Focus in on the Tang and Song dynasties (617 - 1279). Not to be taken concurrently with any of the following CHIN 400-level language courses: CHIN 441/ 443/ 444/ 445/ 447/ 448/ 435/ 437. Credit will be granted for only one of CHIN 493 or CHIN 433 or CHIN 494. Recommended pre-requisites: one of CHIN 313, CHIN 314, CHIN 317, CHIN 318, CHIN 323, CHIN 437, CHIN 443, CHIN 444, CHIN 447, CHIN 448. This course is not eligible for Credit/D/Fail grading.	Online Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CINE_V 100-001	CINE_V	100	001	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Wed	2:00 p.m. - 5:30 p.m.
CINE_V 100-003	CINE_V	100	003	Introduction to Cinema Studies	W2	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Wed	2:00 p.m. - 5:30 p.m.
CINE_V 100-004	CINE_V	100	004	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Mon	2:00 p.m. - 5:30 p.m.
CINE_V 100-D11	CINE_V	100	D11	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CINE_V 100-D12	CINE_V	100	D12	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CINE_V 100-D13	CINE_V	100	D13	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CINE_V 100-D31	CINE_V	100	D31	Introduction to Cinema Studies	W2	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CINE_V 100-D32	CINE_V	100	D32	Introduction to Cinema Studies	W2	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CINE_V 100-D33	CINE_V	100	D33	Introduction to Cinema Studies	W2	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CINE_V 100-D41	CINE_V	100	D41	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Wed	3:00 p.m. - 4:00 p.m.
CINE_V 100-D42	CINE_V	100	D42	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
CINE_V 100-D43	CINE_V	100	D43	Introduction to Cinema Studies	W1	Basic aesthetic, economic, sociological, and technological aspects of film. Credit will be granted for only one of FIST 100 or CINE 100.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
CINE_V 200-002	CINE_V	200	002	Introduction to Canadian Cinema	W1	History and aesthetics of Canadian cinema. Credit will be granted for only one of FIST 200 or CINE 200.	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.
CINE_V 210-001	CINE_V	210	001	Early Cinema	W2	Aesthetics, economics, history, and technological characteristics of international early film. Credit will be granted for only one of FIST 210 or CINE 210.	In Person Learning	Tue	12:00 p.m. - 1:00 p.m.

CINE_V 220-002	CINE_V	220	002	Hollywood Cinema 1930-1960	W2	Analysis of the aesthetics, economics, history and technological characteristics of the Classical Hollywood period. Credit will be granted for only one of FIST 220 or CINE 220.	In Person Learning	Wed	10:00 a.m. - 1:00 p.m.
CINE_V 220-D21	CINE_V	220	D21	Hollywood Cinema 1930-1960	W2	Analysis of the aesthetics, economics, history and technological characteristics of the Classical Hollywood period. Credit will be granted for only one of FIST 220 or CINE 220.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
CINE_V 220-D22	CINE_V	220	D22	Hollywood Cinema 1930-1960	W2	Analysis of the aesthetics, economics, history and technological characteristics of the Classical Hollywood period. Credit will be granted for only one of FIST 220 or CINE 220.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
CINE_V 220-D23	CINE_V	220	D23	Hollywood Cinema 1930-1960	W2	Analysis of the aesthetics, economics, history and technological characteristics of the Classical Hollywood period. Credit will be granted for only one of FIST 220 or CINE 220.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
CINE_V 240-001	CINE_V	240	001	Media Industries	W1	Overview of today's film and media industries, and of the concepts governing their practices. Credit will be granted for only one of FIST 240 or CINE 240.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CINE_V 240-002	CINE_V	240	002	Media Industries	W2	Overview of today's film and media industries, and of the concepts governing their practices. Credit will be granted for only one of FIST 240 or CINE 240.	In Person Learning	Tue Thu	10:00 a.m. - 11:30 a.m.
CINE_V 300-001	CINE_V	300	001	Cult Cinema	W1	Overview of world cult cinema. Credit will be granted for only one of FIST 300 or CINE 300.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
CINE_V 331-002	CINE_V	331	002	Studies in Film Theory	W1	A seminar introducing the many theoretical approaches to film: formalist, historical, Marxist, psychoanalytic, semiotic, and structuralist. Credit will be granted for only one of FIST 331 or CINE 331.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CINE_V 332-001	CINE_V	332	001	Studies in Genre or Period	W2	A seminar examining one or more genres or periods, such as the Western, Film Noir, Science Fiction, Films of the 1980's. Also includes study of national cinemas. Credit will be granted for only one of FIST 332 or CINE 332.	In Person Learning	Fri	10:00 a.m. - 1:00 p.m.
CINE_V 334-001	CINE_V	334	001	Seminar in Documentary	W1	An analysis of the representational strategies and ethics of the form. Credit will be granted for only one of FIST 334 or CINE 334.	In Person Learning	Wed	6:00 p.m. - 8:00 p.m.
CINE_V 336-001	CINE_V	336	001	Seminar in European Cinema	W2	Topics may include a study of a European national cinema. Credit will be granted for only one of FIST 336 or CINE 336.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
CINE_V 338-001	CINE_V	338	001	Asian and Australasian Cinema	W2	Topics may include an analysis of a national cinema, such as that of China, India, or Australia. Credit will be granted for only one of FIST 338 or CINE 338.	In Person Learning	Mon	10:00 a.m. - 12:30 p.m.
CINE_V 340-001	CINE_V	340	001	Media Audiences	W1	Overview of approaches for studying audiences and receptions of film and contemporary media. Credit will be granted for only one of FIST 340 or CINE 340.	In Person Learning	Mon	3:00 p.m. - 4:30 p.m.
CINE_V 430-001	CINE_V	430	001	Studies in Auteurism	W2	A seminar examining the work of one or more directors, such as John Ford, Francois Truffaut, Denys Arcand, Margarethe Von Trotta, or of a screenwriter over many films. Credit will be granted for only one of FIST 430 or CINE 430.	In Person Learning	Arranged	Arranged
CINE_V 432-A_001	CINE_V	432	A	A_001	W2	Seminar in Motion Picture Forms Animation, experimental, and/or multimedia.	In Person Learning	Tue	10:00 a.m. - 12:30 p.m.
CINE_V 434-B_001	CINE_V	434	B	B_001	W2	Studies in Film A seminar devoted to a topic of current interest in film. Topic will change from year to year. May be repeated for credit when topics differ. Credit will be granted for only one of FIST 434 or CINE 434.	In Person Learning	Wed	11:30 a.m. - 1:00 p.m.
CINE_V 436-001	CINE_V	436	001	Seminar in American Cinema Since 1960	W2	Topics may include an analysis of a specific period. Credit will be granted for only one of FIST 436 or CINE 436.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
CINE_V 438-002	CINE_V	438	002	Seminar in Canadian Cinema	W2	Topics may include an analysis of the Canadian Governmental agencies supporting Film Production. Credit will be granted for only one of FIST 438 or CINE 438.	In Person Learning	Arranged	Arranged
CINE_V 445-001	CINE_V	445	001	Majors and Honours Seminar	W1	Credit will be granted for only one of FIST 445 or CINE 445.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
CINE_V 449-001	CINE_V	449	001	Honours Essay	W1-2	A course allowing honours students to work with a faculty member on a major research paper. Credit will be granted for only one of FIST449 or CINE 449.	In Person Learning	Arranged	Arranged
CIVL_V 201-101	CIVL_V	201	101	Introduction to Civil Engineering	W1	The design process; graphical, visualization and computational tools; civil engineering disciplines; decision-making; teamwork; conceptual design project reflecting community, economic, environmental, sustainability and technical considerations. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 120, ENGL 121, WRDS 150. Corequisite: CIVL 203.	Hybrid Learning	Thu	12:30 p.m. - 2:00 p.m.
CIVL_V 203-101	CIVL_V	203	101	Technical Communication in Civil Engineering	W1	Written and oral communication in civil engineering. Business correspondence, business meetings, poster presentations, oral presentations and technical reports. Restricted to students in second year of the Civil Engineering program. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 120, ENGL 121, WRDS 150. Corequisite: CIVL 201. Equivalency: APSC 201	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.

CIVL_V 203-102	CIVL_V	203	102	Technical Communication in Civil Engineering	W1	Written and oral communication in civil engineering. Business correspondence, business meetings, poster presentations, oral presentations and technical reports. Restricted to students in second year of the Civil Engineering program. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 120, ENGL 121, WRDS 150. Corequisite: CIVL 201. Equivalency: APSC 201	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CIVL_V 203-103	CIVL_V	203	103	Technical Communication in Civil Engineering	W1	Written and oral communication in civil engineering. Business correspondence, business meetings, poster presentations, oral presentations and technical reports. Restricted to students in second year of the Civil Engineering program. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 120, ENGL 121, WRDS 150. Corequisite: CIVL 201. Equivalency: APSC 201	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CIVL_V 203-104	CIVL_V	203	104	Technical Communication in Civil Engineering	W1	Written and oral communication in civil engineering. Business correspondence, business meetings, poster presentations, oral presentations and technical reports. Restricted to students in second year of the Civil Engineering program. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 120, ENGL 121, WRDS 150. Corequisite: CIVL 201. Equivalency: APSC 201	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CIVL_V 204-101	CIVL_V	204	101	Fundamentals of Environmental Engineering	W1	Environmental engineering issues and projects; application of scientific and engineering principles to addressing these; soil, water and air pollution, and remediation. [3-0-0] Prerequisite: CHEM 154.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CIVL_V 204-201	CIVL_V	204	201	Fundamentals of Environmental Engineering	W2	Environmental engineering issues and projects; application of scientific and engineering principles to addressing these; soil, water and air pollution, and remediation. [3-0-0] Prerequisite: CHEM 154.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
CIVL_V 210-201	CIVL_V	210	201	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CIVL_V 210-L2A	CIVL_V	210	L2A	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Mon	3:00 p.m. - 5:30 p.m.
CIVL_V 210-L2B	CIVL_V	210	L2B	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Mon	3:00 p.m. - 5:30 p.m.
CIVL_V 210-L2C	CIVL_V	210	L2C	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Tue	3:00 p.m. - 5:30 p.m.
CIVL_V 210-L2D	CIVL_V	210	L2D	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Tue	3:00 p.m. - 5:30 p.m.
CIVL_V 210-L2E	CIVL_V	210	L2E	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Wed	3:00 p.m. - 5:30 p.m.
CIVL_V 210-L2F	CIVL_V	210	L2F	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Wed	3:00 p.m. - 5:30 p.m.
CIVL_V 210-L2G	CIVL_V	210	L2G	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Fri	2:00 p.m. - 4:30 p.m.
CIVL_V 210-L2H	CIVL_V	210	L2H	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Thu	3:00 p.m. - 5:30 p.m.
CIVL_V 210-T2A	CIVL_V	210	T2A	Soil Mechanics I	W2	Soil classification, principle of effective stress, analysis of seepage, filter criteria, introduction to shear strength and slope stability analysis. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: One of CIVL 230, MECH 260, WOOD 276. or third-year standing in ENVE.	In Person Learning	Mon	2:00 p.m. - 3:00 p.m.
CIVL_V 215-101	CIVL_V	215	101	Fluid Mechanics I	W1	Fluid properties, hydrostatics, kinematics, and fluid dynamics: energy and momentum methods with applications. Dimensional analysis, modelling, introduction to flow in pipes and forces on immersed objects. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of PHYS 170, MATH 101.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CIVL_V 215-T1A	CIVL_V	215	T1A	Fluid Mechanics I	W1	Fluid properties, hydrostatics, kinematics, and fluid dynamics: energy and momentum methods with applications. Dimensional analysis, modelling, introduction to flow in pipes and forces on immersed objects. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of PHYS 170, MATH 101.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CIVL_V 215-T1B	CIVL_V	215	T1B	Fluid Mechanics I	W1	Fluid properties, hydrostatics, kinematics, and fluid dynamics: energy and momentum methods with applications. Dimensional analysis, modelling, introduction to flow in pipes and forces on immersed objects. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of PHYS 170, MATH 101.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CIVL_V 215-T1C	CIVL_V	215	T1C	Fluid Mechanics I	W1	Fluid properties, hydrostatics, kinematics, and fluid dynamics: energy and momentum methods with applications. Dimensional analysis, modelling, introduction to flow in pipes and forces on immersed objects. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of PHYS 170, MATH 101.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CIVL_V 230-101	CIVL_V	230	101	Solid Mechanics	W1	Stress and strain, Hooke's law, axially loaded members, torsion, shear forces and bending moments in beams, bending and shear stresses in beams, composite members, introduction to elastic and statically indeterminate problems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of PHYS 170, MATH 101.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CIVL_V 230-T1A	CIVL_V	230	T1A	Solid Mechanics	W1	Stress and strain, Hooke's law, axially loaded members, torsion, shear forces and bending moments in beams, bending and shear stresses in beams, composite members, introduction to elastic and statically indeterminate problems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of PHYS 170, MATH 101.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
CIVL_V 231-201	CIVL_V	231	201	Structural Mechanics	W2	Deflection of beams and structural systems; analysis of determinate structures; combined axial load and bending; beam-columns; buckling (stability); biaxial stresses and strains; construction and testing of model structures. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of MATH 152, CIVL 203, CIVL 230.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.

CIVL_V 231-T2A	CIVL_V	231	T2A	Structural Mechanics	W2	Deflection of beams and structural systems; analysis of determinate structures; combined axial load and bending; beam- columns; buckling (stability); biaxial stresses and strains; construction and testing of model structures. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of MATH 152, CIVL 203, CIVL 230.	In Person Learning	Fri	11:00 a.m. - 1:00 p.m.
CIVL_V 250-101	CIVL_V	250	101	Engineering and Sustainable Development	W1	Implications of a finite biosphere and the complexities inherent in environmental decision-making. [3-0-0]	Online Learning	Arranged	Arranged
CIVL_V 250-201	CIVL_V	250	201	Engineering and Sustainable Development	W2	Implications of a finite biosphere and the complexities inherent in environmental decision-making. [3-0-0]	Online Learning	Arranged	Arranged
CIVL_V 300-201	CIVL_V	300	201	Construction Engineering and Management	W2	Project delivery systems: traditional; construction management; turnkey; project management. Network planning methods. Activity planning, including construction methods selection. Estimating, bidding and bonding. Project control tools and procedures. Human resources, including equity considerations; occupational health and safety and quality control. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Wed Fri	12:30 p.m. - 2:00 p.m.
CIVL_V 301-101	CIVL_V	301	101	Modelling and Decision-Making in Civil Engineering	W1	Introduction to systems engineering; applications of decision-making, modelling, and programming, including probabilistic analyses and optimization, to civil engineering projects; review of numerical methods This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of MATH 152, CIVL 201, STAT 251.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CIVL_V 301-T1A	CIVL_V	301	T1A	Modelling and Decision-Making in Civil Engineering	W1	Introduction to systems engineering; applications of decision-making, modelling, and programming, including probabilistic analyses and optimization, to civil engineering projects; review of numerical methods This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: All of MATH 152, CIVL 201, STAT 251.	In Person Learning	Thu	2:30 p.m. - 3:30 p.m.
CIVL_V 302-201	CIVL_V	302	201	Civil Engineering Impacts	W2	The social and biophysical context of infrastructure and the impact of civil engineering on people, the economy, and the environment. Specific topics vary from year to year. [3-0-0] Prerequisite: CIVL 201.	In Person Learning	Arranged	Arranged
CIVL_V 302-202	CIVL_V	302	202	Civil Engineering Impacts	W2	The social and biophysical context of infrastructure and the impact of civil engineering on people, the economy, and the environment. Specific topics vary from year to year. [3-0-0] Prerequisite: CIVL 201.	In Person Learning	Tue	11:00 a.m. - 12:30 p.m.
CIVL_V 302-203	CIVL_V	302	203	Civil Engineering Impacts	W2	The social and biophysical context of infrastructure and the impact of civil engineering on people, the economy, and the environment. Specific topics vary from year to year. [3-0-0] Prerequisite: CIVL 201.	In Person Learning	Arranged	Arranged
CIVL_V 302-204	CIVL_V	302	204	Civil Engineering Impacts	W2	The social and biophysical context of infrastructure and the impact of civil engineering on people, the economy, and the environment. Specific topics vary from year to year. [3-0-0] Prerequisite: CIVL 201.	In Person Learning	Arranged	Arranged
CIVL_V 303-101	CIVL_V	303	101	Computational Tools in Civil Engineering	W1	Computational and numerical solutions to civil engineering problems; application to a civil engineering design project that reflects community, economic, environmental and technical considerations. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: All of CIVL 201, CIVL 210, CIVL 215, CIVL 231, MATH 256.	In Person Learning	Mon Wed	8:00 a.m. - 9:00 a.m.
CIVL_V 303-T1A	CIVL_V	303	T1A	Computational Tools in Civil Engineering	W1	Computational and numerical solutions to civil engineering problems; application to a civil engineering design project that reflects community, economic, environmental and technical considerations. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: All of CIVL 201, CIVL 210, CIVL 215, CIVL 231, MATH 256.	In Person Learning	Fri	8:00 a.m. - 9:00 a.m.
CIVL_V 305-201	CIVL_V	305	201	Introduction to Environmental Engineering Applications	W2	Environmental legislation; risk assessment; urban water; mass balance; water and wastewater treatment; environmental impact assessment. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL 204. Or third-year standing in IGEN.	In Person Learning	Mon Wed	9:00 a.m. - 10:30 a.m.
CIVL_V 311-101	CIVL_V	311	101	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CIVL_V 311-L1A	CIVL_V	311	L1A	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Mon (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CIVL_V 311-L1B	CIVL_V	311	L1B	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Mon (Alternate weeks)	2:00 p.m. - 4:00 p.m.
CIVL_V 311-L1C	CIVL_V	311	L1C	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Tue (Alternate weeks)	3:00 p.m. - 5:00 p.m.
CIVL_V 311-L1D	CIVL_V	311	L1D	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Tue (Alternate weeks)	3:00 p.m. - 5:00 p.m.
CIVL_V 311-L1E	CIVL_V	311	L1E	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Wed (Alternate weeks)	3:00 p.m. - 5:00 p.m.
CIVL_V 311-L1F	CIVL_V	311	L1F	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Wed (Alternate weeks)	3:00 p.m. - 5:00 p.m.
CIVL_V 311-L1G	CIVL_V	311	L1G	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Fri (Alternate weeks)	3:00 p.m. - 5:00 p.m.
CIVL_V 311-L1H	CIVL_V	311	L1H	Soil Mechanics II	W1	One-dimensional compression and stress-strain response of soils with application to estimation of the settlements and capacities of foundations and of retaining walls. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: [CIVL210]	In Person Learning	Fri (Alternate weeks)	3:00 p.m. - 5:00 p.m.

CIVL_V 320-101	CIVL_V	320	101	Civil Engineering Materials	W1	The structure and properties of common Civil Engineering materials: aggregates, Portland cement, concrete, wood, steel and other construction materials. The emphasis is on the relationship between the structure of materials and their mechanical and durability properties. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: APSC278,APSC279	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CIVL_V 331-201	CIVL_V	331	201	Steel and Timber Design	W2	Introduction to limit states design of steel and timber structures: design objectives, design loads and load combinations, structural safety, material properties, design of tension and compression members, beams, columns, and connections. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CIVL 231.	In Person Learning	Mon Wed Fri	8:00 a.m. - 9:00 a.m.
CIVL_V 331-T2A	CIVL_V	331	T2A	Steel and Timber Design	W2	Introduction to limit states design of steel and timber structures: design objectives, design loads and load combinations, structural safety, material properties, design of tension and compression members, beams, columns, and connections. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CIVL 231.	In Person Learning	Fri	9:00 a.m. - 11:00 a.m.
CIVL_V 332-101	CIVL_V	332	101	Structural Analysis	W1	Introduction to indeterminate structural analysis; approximate analysis of structures; calculation of displacements using virtual work; flexibility (force) method; stiffness method for frames; moment distribution method; influence lines, introduction to structural dynamics. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of CIVL 231, MATH 152.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
CIVL_V 332-T1A	CIVL_V	332	T1A	Structural Analysis	W1	Introduction to indeterminate structural analysis; approximate analysis of structures; calculation of displacements using virtual work; flexibility (force) method; stiffness method for frames; moment distribution method; influence lines, introduction to structural dynamics. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of CIVL 231, MATH 152.	In Person Learning	Thu	12:30 p.m. - 2:30 p.m.
CIVL_V 340-201	CIVL_V	340	201	Transportation Engineering I	W2	The analysis and design of transportation facilities; vehicle motion and vehicle/pavement interaction; geometric design of roadways; traffic flow analysis and level of service; fundamentals of intersection design; traffic safety. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: STAT 251.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CIVL_V 402-101	CIVL_V	402	101	Professionalism and Law in Civil Engineering	W1	The Professional Governance Act; professional ethics, conflicts of interest, confidentiality and accountability; health and safety; sustainable development and environmental stewardship; equity considerations; design and construction contracts, specifications and tendering; labour and employment law; dispute resolution; evidence and expert witnesses; torts and legal liability. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CIVL_V 403-201	CIVL_V	403	201	Engineering Economic Analysis	W2	Time value of money; cash flow analysis; comparing options; depreciation, taxes, and inflation; financial accounting; company structures; public sector projects; decision-making. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CIVL_V 406-101	CIVL_V	406	101	Water Treatment and Waste Management	W1	Processes used in water and wastewater treatment. Conditions which necessitate treatment of water or wastewater, water and wastewater treatment processes and plant design. Municipal services required and associated with solid waste management. Credit will be granted for only one of CHBE 373 or CIVL 406. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL 305. or third-year standing in ENVL program.	In Person Learning	Tue	3:00 p.m. - 4:30 p.m.
CIVL_V 408-201	CIVL_V	408	201	Geo-Environmental Engineering	W2	Environmental contamination, regulatory requirements, site investigation, migration of contaminants, containment systems, site remediation technologies, design considerations related to soil-contaminant interactions, hydrogeology, geochemistry and types of contaminants. Design and performance case histories. [3-0-0] Prerequisite: CIVL 316 and fourth-year standing.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CIVL_V 409-201	CIVL_V	409	201	Municipal Engineering	W2	Design of municipal infrastructure, including streets, water supply networks, and sewers, garbage collection and solid waste management. Focus is on solutions for providing an adequate water supply, collecting and disposing of stormwater and sewage, and managing excess stormwater flow. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of CIVL 315, CIVL 316.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CIVL_V 410-101	CIVL_V	410	101	Foundation Engineering I	W1	An introduction to the process of foundation engineering. Empirical and analytical approaches used in current professional practice. Topics include site investigation, preloading, liquefaction assessment, ground improvement, design of shallow and deep foundations, and retaining structures. The importance of geology and technical communication are emphasized. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL311	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CIVL_V 411-201	CIVL_V	411	201	Foundation Engineering II	W2	Aspects of Geotechnical Engineering. Design considerations illustrated by case histories pertinent to BC. Topics include: site investigation, terrain analyses, in situ testing, groundwater problems, deep foundations, tie back walls and bracing, tailings impoundments, Northern construction, ground ice, dikes and dams engineering. Many case histories presented in part by prominent consulting engineers in BC. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL 410.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CIVL_V 413-201	CIVL_V	413	201	Design of Earth Dams and Containment Structures	W2	Purpose and types of dams; design criteria; construction sequence; compaction; seepage; filter design; factors influencing the design of earth dams; stability and deformation under static and earthquake loading; slope protection; field instrumentation. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: [CIVL311] Fourth-year standing.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
CIVL_V 415-201	CIVL_V	415	201	Water Resource Engineering	W2	An introduction to the planning and design of water resource systems, stream systems, and municipal and hydropower engineering. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of CIVL 315, CIVL 316, STAT 251.	In Person Learning	Arranged	Arranged
CIVL_V 416-101	CIVL_V	416	101	Environmental Hydraulics	W1	Application of hydraulic engineering principles to problems of environmental concern. Pollutant transport and dispersion. Mixing in rivers and lakes. Theory of jets and plumes. Design of outfall diffusers. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of CIVL 316, MATH 256.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CIVL_V 417-101	CIVL_V	417	101	Coastal Engineering	W1	Linear wave theory; wave shoaling, refraction and diffraction; random waves; wave generation; long waves, tides and currents; coastal structures; beaches and coasts; mixing processes; harbour and marinas; coastal modelling. Credit will only be given for one of CIVL 417 or CIVL 540. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL 316 and one of EOSC 213, MATH 256.	In Person Learning	Arranged	Arranged
CIVL_V 417-201	CIVL_V	417	201	Coastal Engineering	W2	Linear wave theory; wave shoaling, refraction and diffraction; random waves; wave generation; long waves, tides and currents; coastal structures; beaches and coasts; mixing processes; harbour and marinas; coastal modelling. Credit will only be given for one of CIVL 417 or CIVL 540. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL 316 and one of EOSC 213, MATH 256.	In Person Learning	Tue	3:00 p.m. - 4:30 p.m.

CIVL_V 418-201	CIVL_V	418	201	Engineering Hydrology	W2	Hydrologic processes - weather, precipitation, infiltration, evaporation, snowmelt and runoff generation. Emphasis on quantitative techniques including: hydrograph analysis, reservoir and channel routing, statistical methods and design floods, hydrologic modelling. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL 316.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CIVL_V 425-201	CIVL_V	425	201	Case Studies of Construction Methods	W2	Identification and evaluation of solutions to construction site operation problems: the relationship between design and construction; factors affecting productivity and safety; measurement of on-site performance. Credit will be granted for only one of CIVL 425 or CIVL 521. [3-0-0] Prerequisite: Fourth-year standing.	In Person Learning	Tue	4:30 p.m. - 7:30 p.m.
CIVL_V 426-101	CIVL_V	426	101	Virtual Design and Construction	W1	Building information modelling (BIM), 4D/5D modelling, design coordination, BIM execution and performance assessment, and integrated project delivery methods. Credit will be granted for only one of CIVL 426 or CIVL 526. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Thu	4:30 p.m. - 6:00 p.m.
CIVL_V 426-201	CIVL_V	426	201	Virtual Design and Construction	W2	Building information modelling (BIM), 4D/5D modelling, design coordination, BIM execution and performance assessment, and integrated project delivery methods. Credit will be granted for only one of CIVL 426 or CIVL 526. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CIVL_V 427-101	CIVL_V	427	101	Applied Machine Learning for Construction and Facility Management	W1	Introduction to classical machine learning algorithms, including linear regression, logistic regression, decision trees, and neural networks, and their applications to Civil Engineering practices, such as construction safety, building energy conservation, and traffic simulation. Other topics at the discretion of the instructor. [3-0-0] Prerequisite: CIVL 300.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CIVL_V 430-101	CIVL_V	430	101	Design of Concrete Structures	W1	Non-linear response of reinforced concrete members subjected to axial load, bending and shear; design of simple one-way members including beams, columns, slabs and footings. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: CIVL 231.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CIVL_V 430-L1A	CIVL_V	430	L1A	Design of Concrete Structures	W1	Non-linear response of reinforced concrete members subjected to axial load, bending and shear; design of simple one-way members including beams, columns, slabs and footings. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: CIVL 231.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
CIVL_V 430-L1B	CIVL_V	430	L1B	Design of Concrete Structures	W1	Non-linear response of reinforced concrete members subjected to axial load, bending and shear; design of simple one-way members including beams, columns, slabs and footings. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: CIVL 231.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CIVL_V 432-101	CIVL_V	432	101	Advanced Structural Steel Design	W1	Design of steel structures to resist vertical and lateral loads. Floor and roof systems including conceptual layout, floor deck, beams, joists, trusses, and columns. Stability issues and limit states design. Connections and construction aspects. Seismic design. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: [CIVL331, CIVL332]	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CIVL_V 433-201	CIVL_V	433	201	Advanced Concrete Design	W2	Design of members subjected to shear and torsion, long columns, two-way slab systems; seismic design of low-rise concrete buildings. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: [CIVL430]	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
CIVL_V 435-101	CIVL_V	435	101	Advanced Structural Analysis	W1	Shear flow, shear deformation, St. Venant torsion, warping torsion, P-delta and geometric stiffness, buckling of columns and frames, cylindrical shells, beams on elastic foundation, shear wall analysis, elasto-plastic analysis. Introduction to the finite element method. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: CIVL 332.	In Person Learning	Wed	3:30 p.m. - 5:00 p.m.
CIVL_V 436-201	CIVL_V	436	201	Matrix Structural Analysis and Dynamics	W2	Further techniques in matrix structural analysis; non-rigid supports, temperature-shrinkage effects, computer implementation; matrix representation of structural dynamics; mode shapes, natural frequencies, continuous systems; lumped mass models, modal analysis, response spectra. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: [CIVL332]	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CIVL_V 439-201	CIVL_V	439	201	Design of Timber Structures	W2	Design of timber structural elements using limit states design principles; joints and fasteners, sawn lumber and engineered wood products, light frame systems and shear walls. Credit will be granted for only one of CIVL 439 or CIVL 516. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of CIVL 331, WOOD 386.	In Person Learning	Fri	12:30 p.m. - 2:00 p.m.
CIVL_V 440-101	CIVL_V	440	101	Transportation Engineering II	W1	Traffic operations and network analysis: macroscopic traffic models and shockwaves analysis; queueing theory and gaps; advanced signalized intersection analysis and design; freeway weaving and interchange analysis; data collection including field exercises. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: [CIVL340]	In Person Learning	Mon Wed	10:30 a.m. - 12:00 p.m.
CIVL_V 441-201	CIVL_V	441	201	Transportation Planning and Analysis	W2	Transportation systems planning and analysis: data needs; surveys and analysis; sampling techniques; trip generation; trip distribution; modal choice; trip assignment; traffic impact studies; system evaluation. Credit will be granted for only one of CIVL 441, CIVL 583 or PLAN 535. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: [CIVL340] Fourth-year standing.	In Person Learning	Tue	3:30 p.m. - 6:30 p.m.
CIVL_V 445-101	CIVL_V	445	101	Civil Engineering Design Project I	W1	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering project. Focus on conceptual and preliminary design. This course is not eligible for Credit/D/Fail grading. [2*-0-4] Prerequisite: CIVL 203. and fourth-year standing.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CIVL_V 445-T1A	CIVL_V	445	T1A	Civil Engineering Design Project I	W1	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering project. Focus on conceptual and preliminary design. This course is not eligible for Credit/D/Fail grading. [2*-0-4] Prerequisite: CIVL 203. and fourth-year standing.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.
CIVL_V 445-T1B	CIVL_V	445	T1B	Civil Engineering Design Project I	W1	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering project. Focus on conceptual and preliminary design. This course is not eligible for Credit/D/Fail grading. [2*-0-4] Prerequisite: CIVL 203. and fourth-year standing.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.
CIVL_V 445-T1C	CIVL_V	445	T1C	Civil Engineering Design Project I	W1	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering project. Focus on conceptual and preliminary design. This course is not eligible for Credit/D/Fail grading. [2*-0-4] Prerequisite: CIVL 203. and fourth-year standing.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.
CIVL_V 445-T1D	CIVL_V	445	T1D	Civil Engineering Design Project I	W1	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering project. Focus on conceptual and preliminary design. This course is not eligible for Credit/D/Fail grading. [2*-0-4] Prerequisite: CIVL 203. and fourth-year standing.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.
CIVL_V 446-201	CIVL_V	446	201	Civil Engineering Design Project II	W2	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering design project. Focus on detailed design. This course is not eligible for Credit/D/Fail grading. [2*-0-2] Prerequisite: CIVL 445.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.

CIVL_V 446-T2A	CIVL_V	446		T2A	Civil Engineering Design Project II	W2	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering design project. Focus on detailed design. This course is not eligible for Credit/D/Fail grading. [2*-0-2] Prerequisite: CIVL 445.	In Person Learning	Tue Thu	9:30 a.m. - 11:30 a.m.
CIVL_V 446-T2B	CIVL_V	446		T2B	Civil Engineering Design Project II	W2	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering design project. Focus on detailed design. This course is not eligible for Credit/D/Fail grading. [2*-0-2] Prerequisite: CIVL 445.	In Person Learning	Tue Thu	9:30 a.m. - 11:30 a.m.
CIVL_V 446-T2C	CIVL_V	446		T2C	Civil Engineering Design Project II	W2	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering design project. Focus on detailed design. This course is not eligible for Credit/D/Fail grading. [2*-0-2] Prerequisite: CIVL 445.	In Person Learning	Tue Thu	9:30 a.m. - 11:30 a.m.
CIVL_V 446-T2D	CIVL_V	446		T2D	Civil Engineering Design Project II	W2	Integration and application of previously acquired knowledge and skills to find design solutions for a multi-disciplinary civil engineering design project. Focus on detailed design. This course is not eligible for Credit/D/Fail grading. [2*-0-2] Prerequisite: CIVL 445.	In Person Learning	Tue Thu	9:30 a.m. - 11:30 a.m.
CIVL_V 478-201	CIVL_V	478		201	Building Science	W2	Building science concepts associated with the design of modern buildings, focusing particularly on the building envelope's role in environmental separation, controlling the movement of heat, air, and water in liquid and vapour states. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: Fourth-year standing.	In Person Learning	Thu	5:00 p.m. - 8:00 p.m.
CIVL_V 492-D_101	CIVL_V	492	D	D_101	Directed Studies in Civil Engineering	W1	Independent studies on a special topic. This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
CIVL_V 498-A_101	CIVL_V	498	A	A_101	Topics in Civil Engineering	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 498-M_101	CIVL_V	498	M	M_101	Topics in Civil Engineering	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CIVL_V 498-N_201	CIVL_V	498	N	N_201	Topics in Civil Engineering	W2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.
CIVL_V 498-R_201	CIVL_V	498	R	R_201	Topics in Civil Engineering	W2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 11:30 a.m.
CIVL_V 498-S_201	CIVL_V	498	S	S_201	Topics in Civil Engineering	W2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	5:00 p.m. - 8:00 p.m.
CIVL_V 504-101	CIVL_V	504		101	Seismic Hazard Analysis and Design Parameters	W1	Causes and characteristics of earthquakes. Properties of ground motion records. Estimation of ground motion intensity and analysis of attenuation relationships. Probabilistic and deterministic seismic hazard analysis for both sites and regions. Selection of earthquake records and construction of design spectra. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
CIVL_V 504-201	CIVL_V	504		201	Seismic Hazard Analysis and Design Parameters	W2	Causes and characteristics of earthquakes. Properties of ground motion records. Estimation of ground motion intensity and analysis of attenuation relationships. Probabilistic and deterministic seismic hazard analysis for both sites and regions. Selection of earthquake records and construction of design spectra. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 505-201	CIVL_V	505		201	Principles of Earthquake Engineering and Seismic Design	W2	Response of structures to earthquakes; concept of ductility; understanding and applications of seismic design codes for buildings; quasi-static, modal, and nonlinear analyses; modelling of structures; design of structures using energy dissipation devices. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	12:30 p.m. - 3:30 p.m.
CIVL_V 507-101	CIVL_V	507		101	Dynamics of Structures I	W1	Fundamental analysis of simple structures subjected to dynamic loadings; vibration problems in structures; linear and nonlinear structural response of simple systems; numerical methods for practical vibration analysis. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
CIVL_V 508-201	CIVL_V	508		201	Dynamics of Structures II	W2	Dynamic response of discrete and continuous systems; structural property matrices and eigenvalue problem; introduction to random vibrations; wave propagation analysis; experimental techniques and computer modelling. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CIVL_V 509-201	CIVL_V	509		201	Nonlinear Structural Analysis	W2	Nonlinear behaviour of structures and the formulation of elements to model such behaviour; solution strategies; nonlinear material and section response; nonlinear dynamic analysis; nonlinear geometry; application of nonlinear analysis in engineering practice. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.
CIVL_V 511-101	CIVL_V	511		101	Seismic Design of Steel Structures	W1	Nonlinear behavior and modeling of steel structures; plastic analysis of steel structures; seismic design of steel buildings. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
CIVL_V 513-201	CIVL_V	513		201	Concrete Structures	W2	Mechanics of structural concrete; comparison of analytical predictions and experimental results; simplified procedure; design using strut-and-tie models; seismic design of concrete buildings This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	12:00 p.m. - 1:30 p.m.
CIVL_V 516-201	CIVL_V	516		201	Behaviour of Timber Structures	W2	Behaviour of timber structural elements using limit states design principles; joints and fasteners, sawn lumber and engineered wood products, light frame systems and shear walls. Credit will be granted for only one of CIVL 439 or CIVL 516. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:30 p.m. - 2:00 p.m.
CIVL_V 517-101	CIVL_V	517		101	Advanced Topics in Timber Structures	W1	Design of timber structural systems using limit states design principles; non-standard connectors, timber-concrete composites, cross-laminated timber and hybrid systems. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CIVL_V 518-101	CIVL_V	518		101	Reliability and Structural Safety	W1	Probability theory and random variables. Performance functions and probability of non-performance: simulations and FORM/SORM methods. Applications. System reliability. Time-dependent reliability and introduction to stochastic processes. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.

CIVL_V 520-101	CIVL_V	520	101	Construction Planning and Control	W1	Planning of civil engineering projects using networking techniques and time space methods. Treatment of resources and cash flow. Activity planning. Concepts of control at the project and activity levels. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
CIVL_V 521-201	CIVL_V	521	201	Construction Methods and Performance	W2	Case studies in construction methods and solutions to construction site operation problems. Construction productivity, performance measurement, safety, quality, and other production issues. Credit will be granted for only one of CIVL 425 or CIVL 521. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue	4:30 p.m. - 7:30 p.m.
CIVL_V 522-201	CIVL_V	522	201	Project and Construction Economics	W2	Application of the principles of engineering economics, economics and systems analysis techniques to the mathematical modelling of civil engineering projects. Topics treated: modelling of capital expenditures, revenues and operating expenditures, project financing, sensitivity analysis, risk analysis and management. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:00 a.m. - 12:00 p.m.
CIVL_V 523-201	CIVL_V	523	201	Project Management for Engineers	W2	Perspectives of project management as it relates to civil engineering. Case studies are used to illustrate key issues. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	5:00 p.m. - 8:00 p.m.
CIVL_V 524-101	CIVL_V	524	101	Legal Aspects of Project and Construction Management	W1	Legal issues of construction contracts, bidding processes, negligence, insurance, bonding, liens, and labour law. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	3:30 p.m. - 6:30 p.m.
CIVL_V 526-201	CIVL_V	526	201	Virtual Design and Construction	W2	Building information modelling (BIM), 4D/5D modelling, design coordination, BIM execution and performance assessment, and integrated project delivery methods. Credit will be granted for only one of CIVL 426 or CIVL 526. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CIVL_V 529-101	CIVL_V	529	101	Condition Assessment and Rehabilitation of Civil Infrastructure	W1	Non-destructive testing; repair and strengthening; high performance plain, polymer-modified, and fibre-reinforced concrete; shotcrete; fibre-reinforced polymer sprays; wraps and laminates; structural health monitoring using sensors; case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	9:30 a.m. - 12:30 p.m.
CIVL_V 537-201	CIVL_V	537	201	Computational Mechanics I	W2	Numerical techniques, weighted residual methods, finite differences, finite elements. Formulations using energy principles, shape functions, conformity, stiffness and mass matrices. Consistent load vectors. Applications to linear problems. Numerical integration and equation solvers. Dynamic problems. Introduction to nonlinear problems. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
CIVL_V 540-101	CIVL_V	540	101	Advanced Coastal Engineering	W1	Wave theories; wave shoaling, refraction, diffraction and reflection; tides and currents; random waves; wave generation; coastal structures; sedimentation; mixing processes; harbours design; coastal modelling. Credit will be granted for only one of CIVL 417 or CIVL 540. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 540-201	CIVL_V	540	201	Advanced Coastal Engineering	W2	Wave theories; wave shoaling, refraction, diffraction and reflection; tides and currents; random waves; wave generation; coastal structures; sedimentation; mixing processes; harbours design; coastal modelling. Credit will be granted for only one of CIVL 417 or CIVL 540. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	3:00 p.m. - 4:30 p.m.
CIVL_V 541-201	CIVL_V	541	201	Environmental Fluid Mechanics	W2	Analysis of density stratified flows with application to water quality problems in inland and coastal waters. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:30 a.m. - 10:00 a.m.
CIVL_V 542-201	CIVL_V	542	201	Physical Limnology	W2	Physical processes that affect the behaviour of lakes, including reservoirs, water filled mine pits, mine tailings ponds and other standing water bodies. Impacts of these processes on water quality, and methods used in the rehabilitation of lakes. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 543-101	CIVL_V	543	101	Turbulent Fluid Dynamics	W1	Physical and mathematical models of turbulent flow suitable for engineering estimates and predictions. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Thu	2:00 p.m. - 3:30 p.m.
CIVL_V 551-101	CIVL_V	551	101	Advanced Hydrology	W1	Modelling hydrologic processes. Flow forecasting models for watersheds. Hydrology in a global perspective. Hydrological measurement techniques. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	11:00 a.m. - 12:30 p.m.
CIVL_V 555-201	CIVL_V	555	201	Optimization and Heuristic Approaches for Civil Engineering Systems	W2	Optimization and simulation and their use in civil engineering design, analysis, and operation. Problem formulation, classical solution techniques, and heuristic approaches, and their applications to the disciplines within civil engineering are addressed. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CIVL_V 558-201	CIVL_V	558	201	Dam Infrastructure in British Columbia	W2	Case history studies of hydroelectric projects and water supply dams. Emphasis on the engineering works of Karl Terzaghi and current environmental aspects of those projects. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 560-101	CIVL_V	560	101	Low-Pressure Membranes for Water Treatment	W1	Parameters governing contaminant removal and system throughput in microfiltration and ultrafiltration for drinking water and wastewater treatment. This course is not eligible for Credit/D/Fail grading. [3-0-0].	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
CIVL_V 561-201	CIVL_V	561	201	Risk and Remediation in Geo-environment	W2	Sampling; investigations; fate and transport of chemicals in soil, water, sediment, biota and air; exposure pathways assessment and toxicological principles for receptors; risk-based approach to site remediation, treatment and control technologies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	1:00 p.m. - 4:00 p.m.
CIVL_V 562-101	CIVL_V	562	101	Environmental Data Collection and Analysis	W1	Development and application of sampling and data analysis programs as they apply to environmental engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 3:30 p.m.
CIVL_V 565-201	CIVL_V	565	201	Physical-Chemical Treatment Processes	W2	Development of the principles of selected physical and chemical treatment unit operations. Applications in both water and wastewater treatment. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CIVL_V 566-201	CIVL_V	566	201	Fate of Contaminants in Aquatic Systems	W2	Fate of contaminants in inland and coastal waters. Pollutants associated with pulp mills, waste treatment plants, mining operations and other sources. Natural processes (physical, chemical, and biological) affecting the ultimate fate and impact of these pollutants. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 11:30 a.m.
CIVL_V 569-101	CIVL_V	569	101	Environmental Biotechnology	W1	Development of the principles of secondary, biological treatment processes, with application to both municipal and industrial wastewater treatment. Discussion of different treatment methodology, incorporating both aerobic and anaerobic microbiological processes. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.

CIVL_V 570-101	CIVL_V	570	101	Advanced Soil Mechanics	W1	Soil composition and geological factors affecting engineering properties, stress and strain at a point, principle of effective stress, stress-strain relations; theories of primary and secondary consolidation, settlement; shear testing equipment, stress-strain and strength behaviour of soil under static and dynamic loading. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CIVL311]	In Person Learning	Mon Wed	1:00 p.m. - 2:00 p.m.
CIVL_V 574-201	CIVL_V	574	201	Experimental Soil Mechanics	W2	Field and laboratory experimental studies of advanced aspects of soil behaviour; compressibility; shear strength; pore water pressure; dynamic tests; advanced instrumentation and measurement techniques; research reports required. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CIVL570]	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
CIVL_V 581-201	CIVL_V	581	201	Soil Dynamics for Design Practice	W2	Seismic loading and its effect on earth structures; dynamic response of single, and multi-degree of freedom systems and continuous systems; behaviour of soil under dynamic loading; pore pressure generation and liquefaction effects; seismicity and seismic design parameters; dynamic analysis of earth structures; seismic design of soil-structure systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: CIVL 570.	In Person Learning	Tue	10:00 a.m. - 11:00 a.m.
CIVL_V 582-101	CIVL_V	582	101	Transportation Engineering Impacts	W1	Methods to measure, predict and evaluate impacts of transportation modes. Discussion of measures to reduce impacts. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Fri	9:30 a.m. - 11:00 a.m.
CIVL_V 583-201	CIVL_V	583	201	Urban Engineering Methods and Models	W2	The application of urban analysis methods and models to the design of municipal and transportation engineering systems. Credit will be granted for only one of CIVL 441, CIVL 583 or PLAN 535. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	3:30 p.m. - 6:30 p.m.
CIVL_V 585-101	CIVL_V	585	101	Pedestrian and Bicycle Transportation Design	W1	Design of transportation facilities for people walking, cycling, or rolling on non- or lightly-motorized vehicles (active travellers). Geometry and traffic controls for sidewalks, bike lanes, shared streets, and off-street paths. Traveller and contextual factors influencing facility use and performance, including safety, comfort, accessibility, and equity. Credit will be given for one of CIVL 585 or PLAN 548L. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Wed Fri	1:30 p.m. - 3:00 p.m.
CIVL_V 586-101	CIVL_V	586	101	Urban Transportation System Analysis	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	12:00 p.m. - 1:30 p.m.
CIVL_V 597-102	CIVL_V	597	102	Seminar	W1	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
CIVL_V 597-103	CIVL_V	597	103	Seminar	W1	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
CIVL_V 597-104	CIVL_V	597	104	Seminar	W1	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
CIVL_V 597-105	CIVL_V	597	105	Seminar	W1	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	3:30 p.m. - 5:00 p.m.
CIVL_V 597-106	CIVL_V	597	106	Seminar	W1	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	3:30 p.m. - 5:00 p.m.
CIVL_V 597-107	CIVL_V	597	107	Seminar	W1	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	3:30 p.m. - 5:00 p.m.
CIVL_V 597-108	CIVL_V	597	108	Seminar	W1	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	5:30 p.m. - 7:00 p.m.
CIVL_V 597-202	CIVL_V	597	202	Seminar	W2	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
CIVL_V 597-203	CIVL_V	597	203	Seminar	W2	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
CIVL_V 597-204	CIVL_V	597	204	Seminar	W2	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
CIVL_V 597-205	CIVL_V	597	205	Seminar	W2	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	3:30 p.m. - 5:00 p.m.
CIVL_V 597-206	CIVL_V	597	206	Seminar	W2	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	3:30 p.m. - 5:00 p.m.
CIVL_V 597-207	CIVL_V	597	207	Seminar	W2	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	3:30 p.m. - 5:00 p.m.
CIVL_V 597-208	CIVL_V	597	208	Seminar	W2	Presentations and discussions of current research topics in various disciplines of Civil Engineering. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	5:30 p.m. - 7:00 p.m.
CIVL_V 598-A_101	CIVL_V	598	A	A_101 Topics in Civil Engineering	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 1:00 p.m.

CIVL_V 598-J_201	CIVL_V	598	J	J_201	Topics in Civil Engineering	W2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CIVL_V 598-M_001	CIVL_V	598	M	M_001	Topics in Civil Engineering	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CIVL_V 598-N_201	CIVL_V	598	N	N_201	Topics in Civil Engineering	W2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.
CIVL_V 598-S_201	CIVL_V	598	S	S_201	Topics in Civil Engineering	W2	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	5:00 p.m. - 8:00 p.m.
CIVL_V 598-W_101	CIVL_V	598	W	W_101	Topics in Civil Engineering	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CIVL_V 598-X_101	CIVL_V	598	X	X_101	Topics in Civil Engineering	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 598-Y_101	CIVL_V	598	Y	Y_101	Topics in Civil Engineering	W1	Seminar or lecture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	11:00 a.m. - 1:00 p.m.
CIVL_V 599-101	CIVL_V	599		101	M.A.Sc. Thesis	W1-2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 599-201	CIVL_V	599		201	M.A.Sc. Thesis	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CIVL_V 699-101	CIVL_V	699		101	Doctoral Dissertation	W1-2		In Person Learning	Arranged	Arranged
CIVL_V 699-201	CIVL_V	699		201	Doctoral Dissertation	W2		In Person Learning	Arranged	Arranged

Focus on training for basic listening and conversational skills in Cantonese. Heritage speakers of Mandarin are NOT eligible. Recommended pre-requisites: one of CHIN 107, CHIN 233, CHIN 108, CHIN 234, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	1:00 p.m. - 2:00 p.m.
CNTO_V 303-021	CNTO_V	303		021	Basic Cantonese II	W2	Elementary level (part II) Cantonese for non-heritage learners. Continuation of CNTO 301. Focus on training for basic listening, conversational, and reading skills. Recommended pre-requisite: CNTO 301 or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	1:00 p.m. - 2:00 p.m.
CNTO_V 311-011	CNTO_V	311		011	Basic Cantonese for Mandarin Speakers	W1	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Fri	2:00 p.m. - 3:00 p.m.
CNTO_V 311-012	CNTO_V	311		012	Basic Cantonese for Mandarin Speakers	W1	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	3:00 p.m. - 4:00 p.m.
CNTO_V 311-013	CNTO_V	311		013	Basic Cantonese for Mandarin Speakers	W1	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	3:00 p.m. - 4:00 p.m.
CNTO_V 311-015	CNTO_V	311		015	Basic Cantonese for Mandarin Speakers	W1	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	9:00 a.m. - 10:00 a.m.
CNTO_V 311-016	CNTO_V	311		016	Basic Cantonese for Mandarin Speakers	W1	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	11:00 a.m. - 12:00 p.m.
CNTO_V 311-017	CNTO_V	311		017	Basic Cantonese for Mandarin Speakers	W1	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue Thu Fri	2:00 p.m. - 3:00 p.m.

CNTO_V 311-018	CNTO_V	311	018	Basic Cantonese for Mandarin Speakers	W1	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue Thu Fri	1:00 p.m. - 2:00 p.m.
CNTO_V 311-021	CNTO_V	311	021	Basic Cantonese for Mandarin Speakers	W2	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Fri	2:00 p.m. - 3:00 p.m.
CNTO_V 311-022	CNTO_V	311	022	Basic Cantonese for Mandarin Speakers	W2	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	3:00 p.m. - 4:00 p.m.
CNTO_V 311-023	CNTO_V	311	023	Basic Cantonese for Mandarin Speakers	W2	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Fri	3:00 p.m. - 4:00 p.m.
CNTO_V 311-024	CNTO_V	311	024	Basic Cantonese for Mandarin Speakers	W2	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	10:00 a.m. - 11:00 a.m.
CNTO_V 311-025	CNTO_V	311	025	Basic Cantonese for Mandarin Speakers	W2	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	12:00 p.m. - 1:00 p.m.
CNTO_V 311-026	CNTO_V	311	026	Basic Cantonese for Mandarin Speakers	W2	Basic oral and presentation skills in Cantonese. This is an accelerated course that covers content and topics similar to CNTO 301 and CNTO 303, but is structured specifically for heritage speakers of Mandarin. Recommended pre-requisites: one of CHIN 243, CHIN 244, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue Thu Fri	2:00 p.m. - 3:00 p.m.
CNTO_V 401-011	CNTO_V	401	011	Intermediate Cantonese I	W1	Intermediate lower level (part I) Cantonese for non-heritage learners. Recommended pre-requisites: One of CNTO 303, CNTO 311, or placement approval. This course is not eligible for Credit/D/Fail grading.	Online Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CNTO_V 401-021	CNTO_V	401	021	Intermediate Cantonese I	W2	Intermediate lower level (part I) Cantonese for non-heritage learners. Recommended pre-requisites: One of CNTO 303, CNTO 311, or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	12:00 p.m. - 1:00 p.m.
CNTO_V 403-011	CNTO_V	403	011	Intermediate Cantonese II	W1	Intermediate lower level (part II) Cantonese for non-heritage learners. Continuation of CNTO 401. Recommended pre-requisite: CNTO 401 or placement approval. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu Fri	12:00 p.m. - 1:00 p.m.
CNTO_V 451-021	CNTO_V	451	021	Advanced Cantonese through Popular Culture	W2	Popular culture in Hong Kong from media such as television, cinema, popular music, literature, social media, etc., through advanced authentic Cantonese listening and reading materials. Open to non-heritage and heritage speakers of Mandarin and/or Cantonese. Recommended pre-requisite: CNTO 401. Prior to registration, a minimum of 9 credits of 300-level ASIA coursework is strongly recommended. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue Thu	3:00 p.m. - 4:00 p.m.
COEC_V 293-002	COEC_V	293	002	Financial Accounting	W2	Construction and interpretation of financial reports prepared primarily for external use. Credit will be granted for only one of COEC 293 or COMM 293. This course is not eligible for Credit/D/Fail grading. Equivalency: COMM293	In Person Learning	Mon Wed	6:00 p.m. - 7:30 p.m.
COEC_V 294-001	COEC_V	294	001	Managerial Accounting	W2	Introduction to the development and use of accounting information for management planning and control and the development of cost information for financial reports. Credit will be granted for only one of COEC 294 or COMM 294. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COEC 293, COMM 293. Equivalency: COMM 294	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COEC_V 365-001	COEC_V	365	001	Market Research	W1	The process of marketing research including problem/opportunity formulation, research objectives, data sources, research instrument design, sampling, data collection and processing and methods of data analysis. Credit will be granted for only one of COEC 365 or COMM 365. This course is not eligible for Credit/D/Fail grading. Prerequisite: Either (a) all of ECON 315, ECON 316 or (b) ECON 308. Equivalency: COMM365	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COEC_V 370-001	COEC_V	370	001	Corporate Finance	W1	Corporate enterprise decisions including capital budgeting; capital structure choice; and financial policies, tools, and valuation. Credit will be granted for only one of COEC 370 or COMM 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: Either (a) all of ECON 315, ECON 316 or (b) ECON 308. Equivalency: COMM370	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
COEC_V 371-001	COEC_V	371	001	Investment Theory	W1	Basic concepts of finance, including security valuation, security markets, and financial decisions concerning risk and return. Credit will be granted for only one of COEC 371 or COMM 371. This course is not eligible for Credit/D/Fail grading. Prerequisite: Either (a) ECON 308 or (b) all of ECON 315, ECON 316. Equivalency: COMM371	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COEC_V 371-002	COEC_V	371	002	Investment Theory	W1	Basic concepts of finance, including security valuation, security markets, and financial decisions concerning risk and return. Credit will be granted for only one of COEC 371 or COMM 371. This course is not eligible for Credit/D/Fail grading. Prerequisite: Either (a) ECON 308 or (b) all of ECON 315, ECON 316. Equivalency: COMM371	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COEC_V 387-001	COEC_V	387	001	Entrepreneurial Finance	W1	Financial issues encountered by those active on the investing side of entrepreneurship, such as working for banks, venture capital firms, or corporate venture organizations, or anyone interacting with entrepreneurs and private equity investors. Credit will be granted for only one of COEC 387, COMM 387, or COMR 387. Equivalency: COMM387, COMR387	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COEC_V 437-001	COEC_V	437	001	Database Technology	W2	Theory and technology of database management from an applications perspective; database design; database administration. Credit will be granted for only one of COEC 437, COMM 437, or CPSC 304. This course is not eligible for Credit/D/Fail grading. Equivalency: COMM 437	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COEC_V 475-001	COEC_V	475	001	The Economics & Policy of the Environment, Energy, and Natural Resources	W1	Economic analysis of environmental problems, energy systems, and natural resources. Policy options to help resolve these issues. Credit will be granted for only one of COEC 475, COMM 487, COMM 597, or ECON 371. Prerequisite: ECON 315 and one of ECON 316, ECON 308. Concepts and processes for the strategic management of single- and multi-business-unit private sector enterprises, analyzed using the case method. Integrates methodologies from economic and organizational theory to form the foundations for strategic analyses. Credit will be granted for only one of COEC 491 or COMM 491. This course is not eligible for Credit/D/Fail grading. Equivalency: COMM491	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COEC_V 491-001	COEC_V	491	001	Strategic Management	W1	Economic analysis of environmental problems, energy systems, and natural resources. Policy options to help resolve these issues. Credit will be granted for only one of COEC 475, COMM 487, COMM 597, or ECON 371. Prerequisite: ECON 315 and one of ECON 316, ECON 308. Concepts and processes for the strategic management of single- and multi-business-unit private sector enterprises, analyzed using the case method. Integrates methodologies from economic and organizational theory to form the foundations for strategic analyses. Credit will be granted for only one of COEC 491 or COMM 491. This course is not eligible for Credit/D/Fail grading. Equivalency: COMM491	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.

COEC_V 497-002	COEC_V	497	002	New Enterprise Development	W2	The particular problems and experiences encountered in starting, developing, and managing new enterprises. The course includes lectures, guest speakers, and case studies. Credit will be granted for only one of COEC 497, COMM 497, or COMR 497. This course is not eligible for Credit/D/Fail grading. Equivalency: COMM497, COMR497	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
COEC_V 498-001	COEC_V	498	001	International Business Management	W2	Development of general environmental framework for international business studies by drawing on international and development economics, research into government-business relations and studies in comparative socio-cultural systems and political systems. Credit will be granted for only one of COEC 498 or COMM 498. This course is not eligible for Credit/D/Fail grading. Equivalency: COMM498	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COGS_V 200-101	COGS_V	200	101	Introduction to Cognitive Systems	W1	Interdisciplinary examination of human mental processes and how these are mediated by the brain. Will draw on cognitive psychology, linguistics, cognitive neuroscience, philosophy, artificial intelligence. [3-0-0] Prerequisite: second-year standing in the Faculty of Arts or Science.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COGS_V 200-201	COGS_V	200	201	Introduction to Cognitive Systems	W2	Interdisciplinary examination of human mental processes and how these are mediated by the brain. Will draw on cognitive psychology, linguistics, cognitive neuroscience, philosophy, artificial intelligence. [3-0-0] Prerequisite: second-year standing in the Faculty of Arts or Science.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COGS_V 300-101	COGS_V	300	101	Understanding and Designing Cognitive Systems	W1	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COGS_V 300-201	COGS_V	300	201	Understanding and Designing Cognitive Systems	W2	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COGS_V 300-L01	COGS_V	300	L01	Understanding and Designing Cognitive Systems	W1	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Mon	3:00 p.m. - 5:00 p.m.
COGS_V 300-L02	COGS_V	300	L02	Understanding and Designing Cognitive Systems	W1	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
COGS_V 300-L03	COGS_V	300	L03	Understanding and Designing Cognitive Systems	W1	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
COGS_V 300-L05	COGS_V	300	L05	Understanding and Designing Cognitive Systems	W2	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Mon	3:00 p.m. - 5:00 p.m.
COGS_V 300-L06	COGS_V	300	L06	Understanding and Designing Cognitive Systems	W2	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
COGS_V 300-L07	COGS_V	300	L07	Understanding and Designing Cognitive Systems	W2	Theory and methods for integrating diverse disciplinary content in cognitive systems. [3-2-0] Prerequisite: COGS 200. And 3 credits of CPSC.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
COGS_V 303-101	COGS_V	303	101	Research Methods in Cognitive Systems	W1	Examination and comparison of the research methodologies of different disciplines relevant to cognitive systems. [3-0-0] Prerequisite: COGS 200.	In Person Learning	Fri	1:00 p.m. - 4:00 p.m.
COGS_V 303-102	COGS_V	303	102	Research Methods in Cognitive Systems	W1	Examination and comparison of the research methodologies of different disciplines relevant to cognitive systems. [3-0-0] Prerequisite: COGS 200.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
COGS_V 303-201	COGS_V	303	201	Research Methods in Cognitive Systems	W2	Examination and comparison of the research methodologies of different disciplines relevant to cognitive systems. [3-0-0] Prerequisite: COGS 200.	In Person Learning	Thu	1:00 p.m. - 4:00 p.m.
COGS_V 303-202	COGS_V	303	202	Research Methods in Cognitive Systems	W2	Examination and comparison of the research methodologies of different disciplines relevant to cognitive systems. [3-0-0] Prerequisite: COGS 200.	In Person Learning	Arranged	Arranged
COGS_V 401-101	COGS_V	401	101	Seminar in Cognitive Systems	W1	Interdisciplinary seminar integrating theory, methods, and current research topics. [1-0-4] Prerequisite: COGS 300.	In Person Learning	Arranged	Arranged
COGS_V 401-102	COGS_V	401	102	Seminar in Cognitive Systems	W1	Interdisciplinary seminar integrating theory, methods, and current research topics. [1-0-4] Prerequisite: COGS 300.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COGS_V 401-201	COGS_V	401	201	Seminar in Cognitive Systems	W2	Interdisciplinary seminar integrating theory, methods, and current research topics. [1-0-4] Prerequisite: COGS 300.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COGS_V 401-202	COGS_V	401	202	Seminar in Cognitive Systems	W2	Interdisciplinary seminar integrating theory, methods, and current research topics. [1-0-4] Prerequisite: COGS 300.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
COGS_V 402-001	COGS_V	402	001	Research in Cognitive Systems	W1	Supervised research project in a Cognitive Systems-related laboratory. [0-9-0] Prerequisite: COGS 300. COGS 401 is recommended.	In Person Learning	Arranged	Arranged
COGS_V 402-002	COGS_V	402	002	Research in Cognitive Systems	W2	Supervised research project in a Cognitive Systems-related laboratory. [0-9-0] Prerequisite: COGS 300. COGS 401 is recommended.	In Person Learning	Arranged	Arranged

COGS_V 402-101	COGS_V	402	101	Research in Cognitive Systems	W1	Supervised research project in a Cognitive Systems-related laboratory. [0-9-0] Prerequisite: COGS 300. COGS 401 is recommended.	In Person Learning	Arranged	Arranged
COGS_V 402-201	COGS_V	402	201	Research in Cognitive Systems	W2	Supervised research project in a Cognitive Systems-related laboratory. [0-9-0] Prerequisite: COGS 300. COGS 401 is recommended.	In Person Learning	Arranged	Arranged
COHR_V 303-101	COHR_V	303	101	Strategic Staffing	W1	Processes of workforce recruitment, selection, retention, and renewal. Includes human resources planning, development of an effective staffing strategy and employer brand, job analysis and descriptions, cost-benefit analysis of various recruiting methods, analysis and evaluation of selection methods. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: COMM 203.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COHR_V 304-201	COHR_V	304	201	Training, Development, and Performance Management	W2	Employee training, development and performance management in a variety of employment settings. Application of various training methods to performance enhancement, performance appraisal, feedback, and empirical evaluation of training investments. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: COMM 203.	In Person Learning	Arranged	Arranged
COHR_V 305-201	COHR_V	305	201	Strategic Compensation	W2	Employee compensation, including pay systems, benefits systems, and rewards and recognition programs. Examination of the motivational underpinnings of compensation administration and the application of compensation principles to the achievement of employer strategic objectives. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: COMM 203.	In Person Learning	Arranged	Arranged
COHR_V 308-101	COHR_V	308	101	Labour Relations	W1	Integrated coverage of union-management relations including labour law, collective bargaining, and collective agreement administration. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: COMM 203.	In Person Learning	Arranged	Arranged
COHR_V 308-201	COHR_V	308	201	Labour Relations	W2	Integrated coverage of union-management relations including labour law, collective bargaining, and collective agreement administration. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: COMM 203.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COHR_V 405-201	COHR_V	405	201	Managing the Family Business	W2	Managing and working in a family business presents unique challenges: family issues can conflict with business issues. This course examines governance structures and tools to manage the interface between the family and the business. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: COMM 203.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COHR_V 406-201	COHR_V	406	201	International Human Resource Management	W2	Application of human resource management practices to multinational enterprises. Comparative analysis of national human resource management systems. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: COMM 203.	In Person Learning	Arranged	Arranged
COHR_V 433-201	COHR_V	433	201	Employment Law	W2	Introduction to legislation and application of legal principles that govern the employment relationship. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: All of COMM 203, COMM 393.	In Person Learning	Fri	12:30 p.m. - 3:30 p.m.
COLX_V 521-001	COLX_V	521	001	Corpus Linguistics	W1	Describe, compare, and apply the main theories used in corpus linguistics, using qualitative and quantitative corpora, to perform diachronic and synchronic analyses. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
COLX_V 521-L01	COLX_V	521	L01	Corpus Linguistics	W1	Describe, compare, and apply the main theories used in corpus linguistics, using qualitative and quantitative corpora, to perform diachronic and synchronic analyses. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
COLX_V 523-001	COLX_V	523	001	Advanced Corpus Linguistics	W2	Advanced computational techniques in multilingual corpora. Language change and linguistic variation; best practices for data collection, annotation and analysis. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, COLX 521.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COLX_V 523-L01	COLX_V	523	L01	Advanced Corpus Linguistics	W2	Advanced computational techniques in multilingual corpora. Language change and linguistic variation; best practices for data collection, annotation and analysis. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, COLX 521.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
COLX_V 523-L02	COLX_V	523	L02	Advanced Corpus Linguistics	W2	Advanced computational techniques in multilingual corpora. Language change and linguistic variation; best practices for data collection, annotation and analysis. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, COLX 521.	In Person Learning	Mon	4:00 p.m. - 6:00 p.m.
COLX_V 525-001	COLX_V	525	001	Computational Morphology	W2	Identify and differentiate morphological processes occurring in natural language for implementation in computational linguistics applications. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COLX_V 525-L01	COLX_V	525	L01	Computational Morphology	W2	Identify and differentiate morphological processes occurring in natural language for implementation in computational linguistics applications. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
COLX_V 525-L02	COLX_V	525	L02	Computational Morphology	W2	Identify and differentiate morphological processes occurring in natural language for implementation in computational linguistics applications. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
COLX_V 531-001	COLX_V	531	001	Machine Translation	W2	Machine translation (MT), including an ability to implement lexical translation models, discriminative training models, and syntactic models in MT. Includes noisy channel translation, phrase-based machine translation, and how to evaluate models. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COLX_V 531-L01	COLX_V	531	L01	Machine Translation	W2	Machine translation (MT), including an ability to implement lexical translation models, discriminative training models, and syntactic models in MT. Includes noisy channel translation, phrase-based machine translation, and how to evaluate models. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
COLX_V 531-L02	COLX_V	531	L02	Machine Translation	W2	Machine translation (MT), including an ability to implement lexical translation models, discriminative training models, and syntactic models in MT. Includes noisy channel translation, phrase-based machine translation, and how to evaluate models. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Thu	4:00 p.m. - 6:00 p.m.

COLX_V 535-001	COLX_V	535	001	Parsing for Computational Linguistics	W2	Methods of natural language parsing: finite state approaches, class-based language models, part-of-speech tagging, NP chunking, shallow parsing, and context free syntactic parsing. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 551, COLX 521.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COLX_V 535-L01	COLX_V	535	L01	Parsing for Computational Linguistics	W2	Methods of natural language parsing: finite state approaches, class-based language models, part-of-speech tagging, NP chunking, shallow parsing, and context free syntactic parsing. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 551, COLX 521.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
COLX_V 535-L02	COLX_V	535	L02	Parsing for Computational Linguistics	W2	Methods of natural language parsing: finite state approaches, class-based language models, part-of-speech tagging, NP chunking, shallow parsing, and context free syntactic parsing. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 551, COLX 521.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
COLX_V 561-001	COLX_V	561	001	Computational Semantics	W2	Language processing to analyze lexical semantics. WordNet, FrameNet, and the semantic web, applied to word-sense disambiguation, entailment, question-answering, and knowledge base populations. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 535.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COLX_V 561-L01	COLX_V	561	L01	Computational Semantics	W2	Language processing to analyze lexical semantics. WordNet, FrameNet, and the semantic web, applied to word-sense disambiguation, entailment, question-answering, and knowledge base populations. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 535.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
COLX_V 561-L02	COLX_V	561	L02	Computational Semantics	W2	Language processing to analyze lexical semantics. WordNet, FrameNet, and the semantic web, applied to word-sense disambiguation, entailment, question-answering, and knowledge base populations. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 535.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
COLX_V 563-001	COLX_V	563	001	Advanced Computational Semantics	W2	Statistical and neural approaches to natural-language meaning in computational semantics. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 561.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COLX_V 563-L01	COLX_V	563	L01	Advanced Computational Semantics	W2	Statistical and neural approaches to natural-language meaning in computational semantics. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 561.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
COLX_V 563-L02	COLX_V	563	L02	Advanced Computational Semantics	W2	Statistical and neural approaches to natural-language meaning in computational semantics. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 561.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
COLX_V 565-001	COLX_V	565	001	Sentiment Analysis	W2	Data crawling, annotation, evaluation, and modelling lexical information. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 563.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COLX_V 565-L01	COLX_V	565	L01	Sentiment Analysis	W2	Data crawling, annotation, evaluation, and modelling lexical information. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 563.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
COLX_V 565-L02	COLX_V	565	L02	Sentiment Analysis	W2	Data crawling, annotation, evaluation, and modelling lexical information. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 563.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
COLX_V 581-001	COLX_V	581	001	Natural Language Processing for Low-Resource Languages	W2	Computational tools in relation to low-resource and other under-documented and very-low-resource language. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 535.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COLX_V 581-L01	COLX_V	581	L01	Natural Language Processing for Low-Resource Languages	W2	Computational tools in relation to low-resource and other under-documented and very-low-resource language. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 535.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
COLX_V 581-L02	COLX_V	581	L02	Natural Language Processing for Low-Resource Languages	W2	Computational tools in relation to low-resource and other under-documented and very-low-resource language. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading. Prerequisite: COLX 535.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
COLX_V 585-001	COLX_V	585	001	Trends in Computational Linguistics	W2	Techniques for identifying, analyzing, and synthesizing primary sources for the most current research in computational linguistics. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COLX_V 585-L01	COLX_V	585	L01	Trends in Computational Linguistics	W2	Techniques for identifying, analyzing, and synthesizing primary sources for the most current research in computational linguistics. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
COLX_V 585-L02	COLX_V	585	L02	Trends in Computational Linguistics	W2	Techniques for identifying, analyzing, and synthesizing primary sources for the most current research in computational linguistics. Restricted to students in the M.D.S. program with Computational Linguistics option. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	4:00 p.m. - 6:00 p.m.
COMM_V 101-201	COMM_V	101	201	Business Fundamentals	W2	The different disciplines of business and their combination in management planning and decision-making. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
COMM_V 101-202	COMM_V	101	202	Business Fundamentals	W2	The different disciplines of business and their combination in management planning and decision-making. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 101-203	COMM_V	101	203	Business Fundamentals	W2	The different disciplines of business and their combination in management planning and decision-making. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.

COMM_V 105-D28	COMM_V	105	D28	Values, Ethics, and Community	W1	An introduction to the roles and responsibilities of business at individual, organizational, and societal levels. Students will examine their personal values and lay the foundation for ongoing, active exploration of career paths through which they can achieve their goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 3:00 p.m.
COMM_V 105-D29	COMM_V	105	D29	Values, Ethics, and Community	W2	An introduction to the roles and responsibilities of business at individual, organizational, and societal levels. Students will examine their personal values and lay the foundation for ongoing, active exploration of career paths through which they can achieve their goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	8:00 a.m. - 9:00 a.m.
COMM_V 105-D30	COMM_V	105	D30	Values, Ethics, and Community	W2	An introduction to the roles and responsibilities of business at individual, organizational, and societal levels. Students will examine their personal values and lay the foundation for ongoing, active exploration of career paths through which they can achieve their goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
COMM_V 105-D31	COMM_V	105	D31	Values, Ethics, and Community	W2	An introduction to the roles and responsibilities of business at individual, organizational, and societal levels. Students will examine their personal values and lay the foundation for ongoing, active exploration of career paths through which they can achieve their goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
COMM_V 105-D32	COMM_V	105	D32	Values, Ethics, and Community	W2	An introduction to the roles and responsibilities of business at individual, organizational, and societal levels. Students will examine their personal values and lay the foundation for ongoing, active exploration of career paths through which they can achieve their goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
COMM_V 105-D33	COMM_V	105	D33	Values, Ethics, and Community	W2	An introduction to the roles and responsibilities of business at individual, organizational, and societal levels. Students will examine their personal values and lay the foundation for ongoing, active exploration of career paths through which they can achieve their goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
COMM_V 105-D34	COMM_V	105	D34	Values, Ethics, and Community	W2	An introduction to the roles and responsibilities of business at individual, organizational, and societal levels. Students will examine their personal values and lay the foundation for ongoing, active exploration of career paths through which they can achieve their goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
COMM_V 110-001	COMM_V	110	001	Dual Degree Year 1 at University of Hong Kong	W1-2	This student is registered in the Dual Degree Bachelor of Commerce program with the University of British Columbia (UBC) and the University of Hong Kong (HKU). For complete details please see the University of Hong Kong academic record.	In Person Learning	Arranged	Arranged
COMM_V 120-DD1	COMM_V	120	DD1	Business Immersion	W1	A broad introduction to the field of business and how the different disciplines within business interact and combine in business decision-making. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	1:00 p.m. - 2:30 p.m.
COMM_V 120-DD2	COMM_V	120	DD2	Business Immersion	W1	A broad introduction to the field of business and how the different disciplines within business interact and combine in business decision-making. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:30 p.m. - 4:00 p.m.
COMM_V 120-DD3	COMM_V	120	DD3	Business Immersion	W2	A broad introduction to the field of business and how the different disciplines within business interact and combine in business decision-making. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 120-DD4	COMM_V	120	DD4	Business Immersion	W2	A broad introduction to the field of business and how the different disciplines within business interact and combine in business decision-making. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 190-101	COMM_V	190	101	Introduction to Quantitative Decision Making	W1	Introduction to decision models in business, including basic optimization, linear programming, probability, decision analysis, random variables, simulation, and solving decision problems using spreadsheet tools. Credit will be granted for only one of COMM 190, COMM 290, ECON 325, ECON 327, PSYC 366, STAT 241, or STAT 251. This course is not eligible for Credit/D/Fail grading. Corequisite: One of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184. Equivalency: COMM290	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
COMM_V 190-102	COMM_V	190	102	Introduction to Quantitative Decision Making	W1	Introduction to decision models in business, including basic optimization, linear programming, probability, decision analysis, random variables, simulation, and solving decision problems using spreadsheet tools. Credit will be granted for only one of COMM 190, COMM 290, ECON 325, ECON 327, PSYC 366, STAT 241, or STAT 251. This course is not eligible for Credit/D/Fail grading. Corequisite: One of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184. Equivalency: COMM290	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 190-103	COMM_V	190	103	Introduction to Quantitative Decision Making	W1	Introduction to decision models in business, including basic optimization, linear programming, probability, decision analysis, random variables, simulation, and solving decision problems using spreadsheet tools. Credit will be granted for only one of COMM 190, COMM 290, ECON 325, ECON 327, PSYC 366, STAT 241, or STAT 251. This course is not eligible for Credit/D/Fail grading. Corequisite: One of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184. Equivalency: COMM290	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 190-104	COMM_V	190	104	Introduction to Quantitative Decision Making	W1	Introduction to decision models in business, including basic optimization, linear programming, probability, decision analysis, random variables, simulation, and solving decision problems using spreadsheet tools. Credit will be granted for only one of COMM 190, COMM 290, ECON 325, ECON 327, PSYC 366, STAT 241, or STAT 251. This course is not eligible for Credit/D/Fail grading. Corequisite: One of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184. Equivalency: COMM290	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 190-101	COMM_V	190	L01	Introduction to Quantitative Decision Making	W1	Introduction to decision models in business, including basic optimization, linear programming, probability, decision analysis, random variables, simulation, and solving decision problems using spreadsheet tools. Credit will be granted for only one of COMM 190, COMM 290, ECON 325, ECON 327, PSYC 366, STAT 241, or STAT 251. This course is not eligible for Credit/D/Fail grading. Corequisite: One of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184. Equivalency: COMM290	In Person Learning	Thu	9:00 a.m. - 10:00 a.m.
COMM_V 190-102	COMM_V	190	L02	Introduction to Quantitative Decision Making	W1	Introduction to decision models in business, including basic optimization, linear programming, probability, decision analysis, random variables, simulation, and solving decision problems using spreadsheet tools. Credit will be granted for only one of COMM 190, COMM 290, ECON 325, ECON 327, PSYC 366, STAT 241, or STAT 251. This course is not eligible for Credit/D/Fail grading. Corequisite: One of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184. Equivalency: COMM290	In Person Learning	Thu	9:00 a.m. - 10:00 a.m.
COMM_V 190-103	COMM_V	190	L03	Introduction to Quantitative Decision Making	W1	Introduction to decision models in business, including basic optimization, linear programming, probability, decision analysis, random variables, simulation, and solving decision problems using spreadsheet tools. Credit will be granted for only one of COMM 190, COMM 290, ECON 325, ECON 327, PSYC 366, STAT 241, or STAT 251. This course is not eligible for Credit/D/Fail grading. Corequisite: One of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184. Equivalency: COMM290	In Person Learning	Thu	10:00 a.m. - 11:00 a.m.

COMM_V 203-207	COMM_V	203	207	Managing the Employment Relationship	W2	The role of employment relations in enterprise performance. Managing employees under statutory law, collective bargaining, and progressive human resource management. Key issues in forming, developing, and maintaining a work force. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 192, COMM 292 and either (a) all of ECON 101, ECON 102 or (b) ECON 100.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 204-101	COMM_V	204	101	Logistics and Operations Management	W1	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 204-102	COMM_V	204	102	Logistics and Operations Management	W1	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 204-103	COMM_V	204	103	Logistics and Operations Management	W1	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 204-104	COMM_V	204	104	Logistics and Operations Management	W1	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
COMM_V 204-105	COMM_V	204	105	Logistics and Operations Management	W1	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 204-106	COMM_V	204	106	Logistics and Operations Management	W1	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 204-201	COMM_V	204	201	Logistics and Operations Management	W2	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 204-202	COMM_V	204	202	Logistics and Operations Management	W2	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 204-203	COMM_V	204	203	Logistics and Operations Management	W2	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 204-204	COMM_V	204	204	Logistics and Operations Management	W2	The design and management of systems to make products, provide services and deliver them to the end user. Credit will be granted for only one of COMM 204, COMM 398, or COMR 398. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
COMM_V 204-205	COMM_V	204	205	Logistics and Operations Management	W2	The design and management of systems to make products, provide services and deliver them to the end user. Application of relevant frameworks from the social sciences to particular organizational situations. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	8:00 a.m. - 9:30 a.m.
COMM_V 321-DD2	COMM_V	321	DD2	Organizational Behaviour	W2	Effects of individual and group behaviour on organizational processes and outcomes. Application of relevant frameworks from the social sciences to particular organizational situations. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	8:00 a.m. - 9:30 a.m.
COMM_V 321-DD3	COMM_V	321	DD3	Organizational Behaviour	W2	Effects of individual and group behaviour on organizational processes and outcomes. Application of relevant frameworks from the social sciences to particular organizational situations. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
COMM_V 323-101	COMM_V	323	101	Leading Diversity, Equity and Inclusion in Organizations	W1	Topics in diversity related to identity, group categorization, stereotyping, explicit and implicit bias, microaggressions, and discrimination. Mitigation of institutional inequality and discrimination through inclusive leadership and critical analysis of organizational practices and policies. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 203.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 324-201	COMM_V	324	201	People Analytics	W2	Application of descriptive and inferential statistics to decisions in core Human Resources (HR) areas, including recruitment, selection, compensation, training, and performance management using organizations. HR data and human capital metrics. Machine learning and AI in strategic HR decision making. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 203, COMM 191, COMM 205.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 335-101	COMM_V	335	101	Information Systems Technology and Development	W1	Introduction to information technology related to business use. Design, implementation and application of Information Systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 205, CPSC 210.	In Person Learning	Thu	3:30 p.m. - 6:30 p.m.
COMM_V 335-102	COMM_V	335	102	Information Systems Technology and Development	W1	Introduction to information technology related to business use. Design, implementation and application of Information Systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 205, CPSC 210.	In Person Learning	Fri	12:30 p.m. - 3:30 p.m.
COMM_V 335-201	COMM_V	335	201	Information Systems Technology and Development	W2	Introduction to information technology related to business use. Design, implementation and application of Information Systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 205, CPSC 210.	In Person Learning	Fri	12:30 p.m. - 3:30 p.m.
COMM_V 336-201	COMM_V	336	201	Introduction to Digital Business	W2	Business fundamentals in the digital economy; leveraging digitization and automation; data and analytics; platforms; crowdsourcing; understanding the impact of digital technologies on firms, markets, economies as well as individuals and society. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
COMM_V 336-202	COMM_V	336	202	Introduction to Digital Business	W2	Business fundamentals in the digital economy; leveraging digitization and automation; data and analytics; platforms; crowdsourcing; understanding the impact of digital technologies on firms, markets, economies as well as individuals and society. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Arranged	Arranged
COMM_V 337-101	COMM_V	337	101	Business Programming and Analytics	W1	Introduction to object-oriented computer programming; computational thinking; program design; scripting; documentation techniques; file handling; database access; and web crawling techniques. Students will apply data structures and programming constructs to the development of business analytics and other related applications. Credit will be granted for only one of COMM 337 and CPSC 103. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.

COMM_V 337-102	COMM_V	337	102	Business Programming and Analytics	W1	Introduction to object-oriented computer programming; computational thinking; program design; scripting; documentation techniques; file handling; database access; and web crawling techniques. Students will apply data structures and programming constructs to the development of business analytics and other related applications. Credit will be granted for only one of COMM 337 and CPSC 103. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Arranged	Arranged
COMM_V 337-201	COMM_V	337	201	Business Programming and Analytics	W2	Introduction to object-oriented computer programming; computational thinking; program design; scripting; documentation techniques; file handling; database access; and web crawling techniques. Students will apply data structures and programming constructs to the development of business analytics and other related applications. Credit will be granted for only one of COMM 337 and CPSC 103. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 337-202	COMM_V	337	202	Business Programming and Analytics	W2	Introduction to object-oriented computer programming; computational thinking; program design; scripting; documentation techniques; file handling; database access; and web crawling techniques. Students will apply data structures and programming constructs to the development of business analytics and other related applications. Credit will be granted for only one of COMM 337 and CPSC 103. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 337-203	COMM_V	337	203	Business Programming and Analytics	W2	Introduction to object-oriented computer programming; computational thinking; program design; scripting; documentation techniques; file handling; database access; and web crawling techniques. Students will apply data structures and programming constructs to the development of business analytics and other related applications. Credit will be granted for only one of COMM 337 and CPSC 103. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 338-101	COMM_V	338	101	Management of Cybersecurity	W1	Fundamentals of cybersecurity from managerial perspectives; Cyber risk management and governance; Security architecture and design; Capabilities to protect enterprise assets and respond to cyber incidents. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205 or CPSC 213 or CPEN 212.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
COMM_V 353-101	COMM_V	353	101	Financial Accounting: Intermediate I	W1	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294. Corequisite: Either (a) all of COMM 297, COMM 397 or (b) COMM 298.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 353-102	COMM_V	353	102	Financial Accounting: Intermediate I	W1	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294. Corequisite: Either (a) all of COMM 297, COMM 397 or (b) COMM 298.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 353-201	COMM_V	353	201	Financial Accounting: Intermediate I	W2	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294. Corequisite: Either (a) all of COMM 297, COMM 397 or (b) COMM 298.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 353-202	COMM_V	353	202	Financial Accounting: Intermediate I	W2	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294. Corequisite: Either (a) all of COMM 297, COMM 397 or (b) COMM 298.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 353-203	COMM_V	353	203	Financial Accounting: Intermediate I	W2	An examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294. Corequisite: Either (a) all of COMM 297, COMM 397 or (b) COMM 298.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 354-101	COMM_V	354	101	Cost Accounting	W1	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. The utilization of statistical analysis and linear models is included. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 354-102	COMM_V	354	102	Cost Accounting	W1	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. The utilization of statistical analysis and linear models is included. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 354-103	COMM_V	354	103	Cost Accounting	W1	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. The utilization of statistical analysis and linear models is included. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 354-201	COMM_V	354	201	Cost Accounting	W2	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. The utilization of statistical analysis and linear models is included. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 354-202	COMM_V	354	202	Cost Accounting	W2	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. The utilization of statistical analysis and linear models is included. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 354-203	COMM_V	354	203	Cost Accounting	W2	The provision and analysis of cost accounting information that will assist management in making operating decisions and in evaluating operational performance. The utilization of statistical analysis and linear models is included. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of COMM 293, COMM 294 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291.	In Person Learning	Arranged	Arranged
COMM_V 355-101	COMM_V	355	101	Income Taxation	W1	A study of income tax from the standpoint of the individual and of business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM293, COMM457	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 355-102	COMM_V	355	102	Income Taxation	W1	A study of income tax from the standpoint of the individual and of business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM293, COMM457	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 355-201	COMM_V	355	201	Income Taxation	W2	A study of income tax from the standpoint of the individual and of business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM293, COMM457	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.

COMM_V 355-202	COMM_V	355	202	Income Taxation	W2	A study of income tax from the standpoint of the individual and of business enterprise. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM293, COMM457	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 362-101	COMM_V	362	101	Consumer Behaviour	W1	The use of consumer research and theory in marketing and policy decisions. Psychological, sociological and economic theory and research relevant to consumer behaviour are considered. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 362-102	COMM_V	362	102	Consumer Behaviour	W1	The use of consumer research and theory in marketing and policy decisions. Psychological, sociological and economic theory and research relevant to consumer behaviour are considered. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 362-103	COMM_V	362	103	Consumer Behaviour	W1	The use of consumer research and theory in marketing and policy decisions. Psychological, sociological and economic theory and research relevant to consumer behaviour are considered. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 362-201	COMM_V	362	201	Consumer Behaviour	W2	The use of consumer research and theory in marketing and policy decisions. Psychological, sociological and economic theory and research relevant to consumer behaviour are considered. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 362-202	COMM_V	362	202	Consumer Behaviour	W2	The use of consumer research and theory in marketing and policy decisions. Psychological, sociological and economic theory and research relevant to consumer behaviour are considered. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 362-203	COMM_V	362	203	Consumer Behaviour	W2	The use of consumer research and theory in marketing and policy decisions. Psychological, sociological and economic theory and research relevant to consumer behaviour are considered. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 363-101	COMM_V	363	101	Marketing Analysis	W1	Analytical methods applicable to marketing management decision making; attention to strategic considerations linking analysis of consumer data, corporate data, environmental factors, and competitive response. The course makes extensive use of micro computers. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 363-102	COMM_V	363	102	Marketing Analysis	W1	Analytical methods applicable to marketing management decision making; attention to strategic considerations linking analysis of consumer data, corporate data, environmental factors, and competitive response. The course makes extensive use of micro computers. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 363-103	COMM_V	363	103	Marketing Analysis	W1	Analytical methods applicable to marketing management decision making; attention to strategic considerations linking analysis of consumer data, corporate data, environmental factors, and competitive response. The course makes extensive use of micro computers. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 363-201	COMM_V	363	201	Marketing Analysis	W2	Analytical methods applicable to marketing management decision making; attention to strategic considerations linking analysis of consumer data, corporate data, environmental factors, and competitive response. The course makes extensive use of micro computers. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
COMM_V 363-202	COMM_V	363	202	Marketing Analysis	W2	Analytical methods applicable to marketing management decision making; attention to strategic considerations linking analysis of consumer data, corporate data, environmental factors, and competitive response. The course makes extensive use of micro computers. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 363-203	COMM_V	363	203	Marketing Analysis	W2	Analytical methods applicable to marketing management decision making; attention to strategic considerations linking analysis of consumer data, corporate data, environmental factors, and competitive response. The course makes extensive use of micro computers. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 365-101	COMM_V	365	101	Market Research	W1	The process of marketing research including topics such as problem/opportunity formulation, research objectives, data sources, research instrument design, sampling, data collection and processing and methods of data analysis. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291 and one of COMM 295, ECON 201, ECON 301. Corequisite: COMM 205.	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
COMM_V 365-102	COMM_V	365	102	Market Research	W1	The process of marketing research including topics such as problem/opportunity formulation, research objectives, data sources, research instrument design, sampling, data collection and processing and methods of data analysis. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291 and one of COMM 295, ECON 201, ECON 301. Corequisite: COMM 205.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 365-103	COMM_V	365	103	Market Research	W1	The process of marketing research including topics such as problem/opportunity formulation, research objectives, data sources, research instrument design, sampling, data collection and processing and methods of data analysis. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291 and one of COMM 295, ECON 201, ECON 301. Corequisite: COMM 205.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 365-201	COMM_V	365	201	Market Research	W2	The process of marketing research including topics such as problem/opportunity formulation, research objectives, data sources, research instrument design, sampling, data collection and processing and methods of data analysis. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291 and one of COMM 295, ECON 201, ECON 301. Corequisite: COMM 205.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 365-202	COMM_V	365	202	Market Research	W2	The process of marketing research including topics such as problem/opportunity formulation, research objectives, data sources, research instrument design, sampling, data collection and processing and methods of data analysis. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291 and one of COMM 295, ECON 201, ECON 301. Corequisite: COMM 205.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.

COMM_V 365-203	COMM_V	365	203	Market Research	W2	The process of marketing research including topics such as problem/opportunity formulation, research objectives, data sources, research instrument design, sampling, data collection and processing and methods of data analysis. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 296 and one of COMM 190, COMM 290 and one of COMM 191, COMM 291 and one of COMM 295, ECON 201, ECON 301. Corequisite: COMM 205.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
COMM_V 370-101	COMM_V	370	101	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
COMM_V 370-102	COMM_V	370	102	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 370-103	COMM_V	370	103	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 370-104	COMM_V	370	104	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 370-105	COMM_V	370	105	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 370-106	COMM_V	370	106	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 370-107	COMM_V	370	107	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
COMM_V 370-108	COMM_V	370	108	Corporate Finance	W1	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Equivalency: COEC370	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 370-201	COMM_V	370	201	Corporate Finance	W2	Examination of corporate enterprise decisions including capital budgeting; capital structure choice, and financial policies, tools, and valuation. Credit will be granted for only one of COMM 370 or COEC 370. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 298. Credit will be granted for only one COMM 396, COMM 390, COMM 220, or ENGL 301. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 196. Equivalency: COMM 390	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 396-106	COMM_V	396	106	Business Communications II	W1	An activity-focused course providing the opportunity to study and practice forms of written communication needed in business. Credit will be granted for only one COMM 396, COMM 390, COMM 220, or ENGL 301. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 196. Equivalency: COMM 390	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 396-107	COMM_V	396	107	Business Communications II	W1	An activity-focused course providing the opportunity to study and practice forms of written communication needed in business. Credit will be granted for only one COMM 396, COMM 390, COMM 220, or ENGL 301. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 196. Equivalency: COMM 390	Hybrid Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 396-108	COMM_V	396	108	Business Communications II	W1	An activity-focused course providing the opportunity to study and practice forms of written communication needed in business. Credit will be granted for only one COMM 396, COMM 390, COMM 220, or ENGL 301. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 196. Equivalency: COMM 390	Hybrid Learning	Tue Thu	2:00 p.m. - 3:30 p.m.

COMM_V 405-102	COMM_V	405	102	Real Estate Finance	W1	The role of mortgage markets, mathematical analysis of return and valuation issue and methods of dealing with lender and borrower risk exposure. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 297, COMM 298.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 407-201	COMM_V	407	201	Real Estate Economics	W2	The economics of real estate markets. Topics include real estate cycles and bubbles, search models and vacancy, the relationship between real estate and the economy, housing demand, and models of housing supply. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 295, ECON 201, ECON 301.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 407-202	COMM_V	407	202	Real Estate Economics	W2	The economics of real estate markets. Topics include real estate cycles and bubbles, search models and vacancy, the relationship between real estate and the economy, housing demand, and models of housing supply. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 295, ECON 201, ECON 301.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 408-201	COMM_V	408	201	Real Estate Development	W2	The development process from theories of development, market analysis, site selection, project design, land use regulation and financial analysis. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 307, COMM 405.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
COMM_V 410-001	COMM_V	410	001	Dual Degree Year 4 at University of Hong Kong	W1-2	This student is registered in the Dual Degree Bachelor of Commerce program with the University of British Columbia (UBC) and the University of Hong Kong (HKU). For complete details please see the University of Hong Kong academic record.	In Person Learning	Arranged	Arranged
COMM_V 412-101	COMM_V	412	101	Negotiation	W1	Negotiation simulations to provide experience and confidence in the negotiation process and to develop effective skills for achieving objectives. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
COMM_V 412-102	COMM_V	412	102	Negotiation	W1	Negotiation simulations to provide experience and confidence in the negotiation process and to develop effective skills for achieving objectives. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
COMM_V 412-201	COMM_V	412	201	Negotiation	W2	Negotiation simulations to provide experience and confidence in the negotiation process and to develop effective skills for achieving objectives. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.
COMM_V 412-202	COMM_V	412	202	Negotiation	W2	Negotiation simulations to provide experience and confidence in the negotiation process and to develop effective skills for achieving objectives. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	1:00 p.m. - 4:00 p.m.
COMM_V 414-101	COMM_V	414	101	Data Visualization and Business Analytics	W1	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 414-102	COMM_V	414	102	Data Visualization and Business Analytics	W1	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 414-201	COMM_V	414	201	Data Visualization and Business Analytics	W2	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 414-202	COMM_V	414	202	Data Visualization and Business Analytics	W2	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 414-203	COMM_V	414	203	Data Visualization and Business Analytics	W2	Descriptive analytics including data analysis and visualization. Predictive analytics including forecasting and various statistical techniques. Predictive analytics including optimization, Monte Carlo simulation, decision trees, and discrete event simulation. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 415-101	COMM_V	415	101	Quantitative Policy Analysis	W1	Quantitative evaluation of public policies using statistical evaluation methods, cost benefit, and effectiveness analyses. Public policies affecting service provision and infrastructure investment in air, rail, marine, public transit, and pipelines evaluated on pricing, operating costs, productivity, safety, security, and the environment. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 295, ECON 201, ECON 301.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 415-201	COMM_V	415	201	Quantitative Policy Analysis	W2	Quantitative evaluation of public policies using statistical evaluation methods, cost benefit, and effectiveness analyses. Public policies affecting service provision and infrastructure investment in air, rail, marine, public transit, and pipelines evaluated on pricing, operating costs, productivity, safety, security, and the environment. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 295, ECON 201, ECON 301.	In Person Learning	Arranged	Arranged
COMM_V 420-DD1	COMM_V	420	DD1	Marketing	W1	Basic considerations affecting the domestic and international marketing of goods and services. Analytical frameworks and techniques that are used to guide marketing strategy decisions. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:30 p.m. - 4:00 p.m.
COMM_V 420-DD2	COMM_V	420	DD2	Marketing	W2	Basic considerations affecting the domestic and international marketing of goods and services. Analytical frameworks and techniques that are used to guide marketing strategy decisions. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
COMM_V 420-DD3	COMM_V	420	DD3	Marketing	W1	Basic considerations affecting the domestic and international marketing of goods and services. Analytical frameworks and techniques that are used to guide marketing strategy decisions. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	4:00 p.m. - 5:30 p.m.
COMM_V 420-DD4	COMM_V	420	DD4	Marketing	W2	Basic considerations affecting the domestic and international marketing of goods and services. Analytical frameworks and techniques that are used to guide marketing strategy decisions. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
COMM_V 421-DD1	COMM_V	421	DD1	Introductory Finance	W2	Introduces the basic principles of financial valuation, including the time-value of money and the risk/return tradeoff. Develops tools for the quantitative analysis of corporate and/or individual financing and saving decisions, and of capital budgeting decisions. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 3:30 p.m.

COMM_V 421-DD2	COMM_V	421	DD2	Introductory Finance	W2	Introduces the basic principles of financial valuation, including the time-value of money and the risk/return tradeoff. Develops tools for the quantitative analysis of corporate and/or individual financing and saving decisions, and of capital budgeting decisions. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	3:30 p.m. - 5:00 p.m.
COMM_V 421-DD3	COMM_V	421	DD3	Introductory Finance	W1	Introduces the basic principles of financial valuation, including the time-value of money and the risk/return tradeoff. Develops tools for the quantitative analysis of corporate and/or individual financing and saving decisions, and of capital budgeting decisions. For Master of Management - Dual Degree Option students only. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	4:00 p.m. - 5:30 p.m.
COMM_V 431-201	COMM_V	431	201	Law of Business Organizations and Corporate Governance	W2	Statutory provisions and case law that regulate the creation and governance of sole proprietorships, partnerships, corporations, joint ventures, and franchises in British Columbia. Fiduciary duties of partners, directors and officers are also examined. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM393]	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
COMM_V 434-201	COMM_V	434	201	Land Law	W2	Legal principles and concepts relating to real estate and land development. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM393]	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 434-202	COMM_V	434	202	Land Law	W2	Legal principles and concepts relating to real estate and land development. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM393]	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 435-201	COMM_V	435	201	CIO Strategies	W2	Common issues faced by Chief Information Officers (CIO): Cost and value of information technology (IT), IT priorities, IT and the Board of Directors, Business-IT alignment, IT governance, IT talent management, standardization vs. innovation, project and vendor management/partnering, and managing security and risks. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Thu	6:00 p.m. - 9:00 p.m.
COMM_V 436-101	COMM_V	436	101	Information Systems Analysis and Design	W1	The process of information systems development; modern techniques and tools for systems analysis and design. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 335, CPSC 310.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 436-102	COMM_V	436	102	Information Systems Analysis and Design	W1	The process of information systems development; modern techniques and tools for systems analysis and design. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 335, CPSC 310.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 436-103	COMM_V	436	103	Information Systems Analysis and Design	W1	The process of information systems development; modern techniques and tools for systems analysis and design. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 335, CPSC 310.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 436-201	COMM_V	436	201	Information Systems Analysis and Design	W2	The process of information systems development; modern techniques and tools for systems analysis and design. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 335, CPSC 310.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 437-101	COMM_V	437	101	Database Technology	W1	Theory and technology of database management from an applications perspective; database design; database administration. Credit will be granted for only one of COMM 437, COEC 437, CPSC 304 or CPSC 368. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 335.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 437-201	COMM_V	437	201	Database Technology	W2	Theory and technology of database management from an applications perspective; database design; database administration. Credit will be granted for only one of COMM 437, COEC 437, CPSC 304 or CPSC 368. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 335.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 437-202	COMM_V	437	202	Database Technology	W2	Theory and technology of database management from an applications perspective; database design; database administration. Credit will be granted for only one of COMM 437, COEC 437, CPSC 304 or CPSC 368. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 335.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
COMM_V 438-101	COMM_V	438	101	Management of Information Systems	W1	Managerial issues in the administration of computerized information systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 438-102	COMM_V	438	102	Management of Information Systems	W1	Managerial issues in the administration of computerized information systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 438-201	COMM_V	438	201	Management of Information Systems	W2	Managerial issues in the administration of computerized information systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 438-202	COMM_V	438	202	Management of Information Systems	W2	Managerial issues in the administration of computerized information systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 438-203	COMM_V	438	203	Management of Information Systems	W2	Managerial issues in the administration of computerized information systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 205.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 439-101	COMM_V	439	101	Business Telecommunications	W1	Basic data communications concepts and technology; local area, wide area, and enterprise networks; the Internet; wireless networking; network development life cycle; network security and management. Credit will be granted for only one of COMM 439 or CPSC 317, and COMM 439 or CPSC 417. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM335]	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
COMM_V 439-201	COMM_V	439	201	Business Telecommunications	W2	Basic data communications concepts and technology; local area, wide area, and enterprise networks; the Internet; wireless networking; network development life cycle; network security and management. Credit will be granted for only one of COMM 439 or CPSC 317, and COMM 439 or CPSC 417. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM335]	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
COMM_V 439-202	COMM_V	439	202	Business Telecommunications	W2	Basic data communications concepts and technology; local area, wide area, and enterprise networks; the Internet; wireless networking; network development life cycle; network security and management. Credit will be granted for only one of COMM 439 or CPSC 317, and COMM 439 or CPSC 417. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM335]	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.

COMM_V 443-101	COMM_V	443	101	Service Operations	W1	This primarily case-based course will cover service operations in general (50%), health care operations (25%), and revenue management (25%). Applications of queuing models will be included in both services in general and healthcare. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 443-102	COMM_V	443	102	Service Operations	W1	This primarily case-based course will cover service operations in general (50%), health care operations (25%), and revenue management (25%). Applications of queuing models will be included in both services in general and healthcare. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 443-103	COMM_V	443	103	Service Operations	W1	This primarily case-based course will cover service operations in general (50%), health care operations (25%), and revenue management (25%). Applications of queuing models will be included in both services in general and healthcare. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Arranged	Arranged
COMM_V 443-201	COMM_V	443	201	Service Operations	W2	This primarily case-based course will cover service operations in general (50%), health care operations (25%), and revenue management (25%). Applications of queuing models will be included in both services in general and healthcare. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Arranged	Arranged
COMM_V 443-202	COMM_V	443	202	Service Operations	W2	This primarily case-based course will cover service operations in general (50%), health care operations (25%), and revenue management (25%). Applications of queuing models will be included in both services in general and healthcare. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Arranged	Arranged
COMM_V 444-101	COMM_V	444	101	Air Transportation	W1	An integrative treatment of air transport management including: demand analysis, sales and marketing, globalization trends, aircraft selection and fleet planning; airport economics and management. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 295, ECON 201, ECON 301.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 444-201	COMM_V	444	201	Air Transportation	W2	An integrative treatment of air transport management including: demand analysis, sales and marketing, globalization trends, aircraft selection and fleet planning; airport economics and management. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 295, ECON 201, ECON 301.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 445-201	COMM_V	445	201	Maritime and International Transportation	W2	The characteristics of shipping services and the role of shipping services in the design and management of international logistics systems. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMM_V 447-101	COMM_V	447	101	Applied Project Management	W1	Project management methodology based on the practices defined by the Project Management Institute, including planning, execution, monitoring, control, and completion. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 295, ECON 301.	In Person Learning	Fri	9:30 a.m. - 12:30 p.m.
COMM_V 449-201	COMM_V	449	201	Supply-Chain Management	W2	Integrated management of production and logistics systems; management of inter-organizational relationships in the supply chain, including vendor selection, bidding and negotiation processes, partnering and performance measurement. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMM_V 449-202	COMM_V	449	202	Supply-Chain Management	W2	Integrated management of production and logistics systems; management of inter-organizational relationships in the supply chain, including vendor selection, bidding and negotiation processes, partnering and performance measurement. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 449-203	COMM_V	449	203	Supply-Chain Management	W2	Integrated management of production and logistics systems; management of inter-organizational relationships in the supply chain, including vendor selection, bidding and negotiation processes, partnering and performance measurement. This course is not eligible for Credit/D/Fail grading. Prerequisite: COMM 204.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 450-101	COMM_V	450	101	Financial Accounting - Intermediate II	W1	Intermediate II. Continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353]	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 450-102	COMM_V	450	102	Financial Accounting - Intermediate II	W1	Intermediate II. Continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353]	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 450-103	COMM_V	450	103	Financial Accounting - Intermediate II	W1	Intermediate II. Continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353]	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 450-201	COMM_V	450	201	Financial Accounting - Intermediate II	W2	Intermediate II. Continuation of the examination of accounting as a means of measurement and as an information system for external reporting purposes. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353]	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
COMM_V 452-101	COMM_V	452	101	Taxes and Decision Making	W1	Analysis of business and financial decisions in the presence of taxes. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
COMM_V 452-201	COMM_V	452	201	Taxes and Decision Making	W2	Analysis of business and financial decisions in the presence of taxes. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 453-101	COMM_V	453	101	Financial Accounting-Advanced	W1	An examination of advanced financial accounting. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353, COMM450]	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 453-201	COMM_V	453	201	Financial Accounting-Advanced	W2	An examination of advanced financial accounting. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353, COMM450]	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMM_V 453-202	COMM_V	453	202	Financial Accounting-Advanced	W2	An examination of advanced financial accounting. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353, COMM450]	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
COMM_V 453-203	COMM_V	453	203	Financial Accounting-Advanced	W2	An examination of advanced financial accounting. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM353, COMM450]	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
COMM_V 454-101	COMM_V	454	101	Accounting for Management Control and Incentives	W1	Design of accounting systems for facilitating and influencing management decisions, with emphasis on performance evaluation in organizations. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM294]	In Person Learning	Arranged	Arranged

COMM_V 454-201	COMM_V	454	201	Accounting for Management Control and Incentives	W2	Design of accounting systems for facilitating and influencing management decisions, with emphasis on performance evaluation in organizations. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM294]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMM_V 454-202	COMM_V	454	202	Accounting for Management Control and Incentives	W2	Design of accounting systems for facilitating and influencing management decisions, with emphasis on performance evaluation in organizations. This course is not eligible for Credit/D/Fail grading. Prerequisite: [COMM294]	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMM_V 455-101	COMM_V	455	101	Principles of Auditing	W1	Principles of internal control, audit evidence, sampling and testing; audit reports; standards; responsibilities of the external auditor. Credit will be granted for only one of COMR 482 or COMM 482. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 280, COMR 280. Equivalency: COMM 482	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
COMR_V 482-202	COMR_V	482	202	New Product Development	W2	How new products are developed and the factors that influence success and failure throughout the various stages of development. Credit will be granted for only one of COMR 482 or COMM 482. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 280, COMR 280. Equivalency: COMM 482	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMR_V 485-101	COMR_V	485	101	Social Entrepreneurship	W1	An applied course that examines the innovative, growing, and rapidly evolving field of social entrepreneurship, which tackles social and environmental challenges through business perspectives and methods. Credit will be granted for only one of COMR 485 or COMM 485. This course is not eligible for Credit/D/Fail grading. Equivalency: COMM 485	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
COMR_V 493-101	COMR_V	493	101	Strategic Management in Business	W1	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change (For non-Commerce students only in fourth year). Not for students with credit for, or exemption from, COMM 491 or COMM 493. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 293, COMM 457, COMR 457 and either (a) all of ECON 101, ECON 102 or (b) all of ECON 310, ECON 311 or (c) ECON 100 or (d) all of ECON 101, ECON 311 or (e) all of ECON 102, ECON 310. Corequisite: One of COMM 329, COMR 329 and one of COMM 465, COMR 465 and one of COMM 473, COMR 473. Equivalency: COMM493	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
COMR_V 493-102	COMR_V	493	102	Strategic Management in Business	W1	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change (For non-Commerce students only in fourth year). Not for students with credit for, or exemption from, COMM 491 or COMM 493. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 293, COMM 457, COMR 457 and either (a) all of ECON 101, ECON 102 or (b) all of ECON 310, ECON 311 or (c) ECON 100 or (d) all of ECON 101, ECON 311 or (e) all of ECON 102, ECON 310. Corequisite: One of COMM 329, COMR 329 and one of COMM 465, COMR 465 and one of COMM 473, COMR 473. Equivalency: COMM493	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMR_V 493-201	COMR_V	493	201	Strategic Management in Business	W2	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change (For non-Commerce students only in fourth year). Not for students with credit for, or exemption from, COMM 491 or COMM 493. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 293, COMM 457, COMR 457 and either (a) all of ECON 101, ECON 102 or (b) all of ECON 310, ECON 311 or (c) ECON 100 or (d) all of ECON 101, ECON 311 or (e) all of ECON 102, ECON 310. Corequisite: One of COMM 329, COMR 329 and one of COMM 465, COMR 465 and one of COMM 473, COMR 473. Equivalency: COMM493	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
COMR_V 493-202	COMR_V	493	202	Strategic Management in Business	W2	A conceptual and practical introduction to the major areas of business strategy with an integrative perspective on managing a business. Includes the analysis of a business and its environment, the development and evaluation of strategic alternatives, and implementation of change (For non-Commerce students only in fourth year). Not for students with credit for, or exemption from, COMM 491 or COMM 493. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 293, COMM 457, COMR 457 and either (a) all of ECON 101, ECON 102 or (b) all of ECON 310, ECON 311 or (c) ECON 100 or (d) all of ECON 101, ECON 311 or (e) all of ECON 102, ECON 310. Corequisite: One of COMM 329, COMR 329 and one of COMM 465, COMR 465 and one of COMM 473, COMR 473. Equivalency: COMM493	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
COMR_V 497-101	COMR_V	497	101	New Enterprise Development	W1	The particular problems and experiences encountered in starting, developing, and managing new enterprises. The course includes lectures, guest speakers, and case studies. Credit will be granted for only one of COMR 497, COMM 466, COMM 497, COEC 497, APSC 486, or APSC 496E. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 280, COMR 280. Corequisite: One of COMM 382, COMR 382 and one of COMM 387, COMR 387. Equivalency: COEC497, COMM497	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
COMR_V 497-201	COMR_V	497	201	New Enterprise Development	W2	The particular problems and experiences encountered in starting, developing, and managing new enterprises. The course includes lectures, guest speakers, and case studies. Credit will be granted for only one of COMR 497, COMM 466, COMM 497, COEC 497, APSC 486, or APSC 496E. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of COMM 280, COMR 280. Corequisite: One of COMM 382, COMR 382 and one of COMM 387, COMR 387. Equivalency: COEC497, COMM497	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.

CONS_V 101-101	CONS_V	101	101	Introduction to Conservation	W1	Seminars on current natural resources conservation and forest sciences topics. [3-0-0]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CONS_V 127-101	CONS_V	127	101	Observing the Earth from Space	W1	Exploration of innovative Earth observation and other geospatial technologies and how they allow us to better understand the changing Earth. [3-0-0]	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CONS_V 127-201	CONS_V	127	201	Observing the Earth from Space	W2	Exploration of innovative Earth observation and other geospatial technologies and how they allow us to better understand the changing Earth. [3-0-0]	In Person Learning	Mon Tue	5:00 p.m. - 6:30 p.m.
CONS_V 200-001	CONS_V	200	001	Foundations of Conservation	W1	Conceptual foundations of conservation; means of conserving nature and natural resources. [3-0-0]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CONS_V 200-002	CONS_V	200	002	Foundations of Conservation	W2	Conceptual foundations of conservation; means of conserving nature and natural resources. [3-0-0]	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CONS_V 210-101	CONS_V	210	101	Visualizing Climate Change	W1	Introduction to climate change through the lens of local landscapes and future scenarios, using visual media to communicate the underlying science & psychology, and engage communities in local climate change solutions.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CONS_V 302-101	CONS_V	302	101	Issues in Genomics and the Environment	W1	Introductory genomics in the context of genetics and epigenetics; current and topical issues, including genetic determinism, environmental DNA, revival of extinct species, and applications of genomics to improve our life and environment including adaptation to climate change. [3-0-0] Prerequisite: One of BIOL 11, BIOL 12.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CONS_V 310-201	CONS_V	310	201	Ecology in a Changing Climate	W2	Impact of climate change on ecological systems. Builds framework for understanding past and future changes following fundamental organizing units of ecology - individuals, populations, species, communities, and ecosystems. Prerequisite: One of BIOL 121, GEOS 207.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CONS_V 314-201	CONS_V	314	201	Elements of Biodiversity	W2	The units of biodiversity, from genes to ecosystems, how they are structured in space, and their importance to human well-being and ecosystem health. [3-0-0] Prerequisite: One of APBI 260, BIOL 230, FRST 201, NRES 201, GEOS 207. Equivalency: BIOL 314	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CONS_V 314-T01	CONS_V	314	T01	Elements of Biodiversity	W2	The units of biodiversity, from genes to ecosystems, how they are structured in space, and their importance to human well-being and ecosystem health. [3-0-0] Prerequisite: One of APBI 260, BIOL 230, FRST 201, NRES 201, GEOS 207. Equivalency: BIOL 314	In Person Learning	Arranged	Arranged
CONS_V 314-T02	CONS_V	314	T02	Elements of Biodiversity	W2	The units of biodiversity, from genes to ecosystems, how they are structured in space, and their importance to human well-being and ecosystem health. [3-0-0] Prerequisite: One of APBI 260, BIOL 230, FRST 201, NRES 201, GEOS 207. Equivalency: BIOL 314	In Person Learning	Arranged	Arranged
CONS_V 330-201	CONS_V	330	201	Conservation Science and Sustainability	W2	Fundamental concepts in conservation science. Different philosophies, perspectives, and disciplines used in setting priorities for managing biodiversity at all scales. [3-2-0] Prerequisite: One of BIOL 121, GEOS 102, GEOS 103. Second-year standing required.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CONS_V 330-L01	CONS_V	330	L01	Conservation Science and Sustainability	W2	Fundamental concepts in conservation science. Different philosophies, perspectives, and disciplines used in setting priorities for managing biodiversity at all scales. [3-2-0] Prerequisite: One of BIOL 121, GEOS 102, GEOS 103. Second-year standing required.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
CONS_V 330-L02	CONS_V	330	L02	Conservation Science and Sustainability	W2	Fundamental concepts in conservation science. Different philosophies, perspectives, and disciplines used in setting priorities for managing biodiversity at all scales. [3-2-0] Prerequisite: One of BIOL 121, GEOS 102, GEOS 103. Second-year standing required.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
CONS_V 330-L03	CONS_V	330	L03	Conservation Science and Sustainability	W2	Fundamental concepts in conservation science. Different philosophies, perspectives, and disciplines used in setting priorities for managing biodiversity at all scales. [3-2-0] Prerequisite: One of BIOL 121, GEOS 102, GEOS 103. Second-year standing required.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
CONS_V 330-L04	CONS_V	330	L04	Conservation Science and Sustainability	W2	Fundamental concepts in conservation science. Different philosophies, perspectives, and disciplines used in setting priorities for managing biodiversity at all scales. [3-2-0] Prerequisite: One of BIOL 121, GEOS 102, GEOS 103. Second-year standing required.	In Person Learning	Fri	12:00 p.m. - 2:00 p.m.
CONS_V 370-201	CONS_V	370	201	Indigenous Forestry	W2	Principles, issues and ethics germane to working with or for Indigenous Nations or communities, including Indigenous rights and title, relational values and natural resources governance. [3-0-0] Current concepts, methods, and applications of belowground ecology with emphasis on biotic interactions in soil; to understand the roles that aboveground and belowground communities play in regulating the structure and function of terrestrial ecosystems and their responses to global change. [3-0-0] Credit will be granted for only one of CONS 412, APBI 412, or FRST 512. Prerequisite: Fourth year standing in the Faculty of Forestry or a Bachelor of Science Program awarded by any Faculty. Equivalency: APBI 412	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CONS_V 412-201	CONS_V	412	201	Belowground Ecosystems	W2	Energy as a global policy problem; current energy challenges; energy systems and energy analysis; the politics and policy of energy alternatives. [3-0-0] Prerequisite: Third- or fourth-year standing; 100-level MATH course.	In Person Learning	Arranged	Arranged
CONS_V 425-201	CONS_V	425	201	Sustainable Energy: Policy and Governance	W2	An introduction to policy and decision making for conserving biodiversity in an uncertain world using a combination of ecological data and decision science. [3-1-0] Prerequisite: [CONS200]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CONS_V 440-101	CONS_V	440	101	Conservation Decision-Making and Policy	W1	An introduction to policy and decision making for conserving biodiversity in an uncertain world using a combination of ecological data and decision science. [3-1-0] Prerequisite: [CONS200]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CONS_V 440-L01	CONS_V	440	L01	Conservation Decision-Making and Policy	W1	An introduction to policy and decision making for conserving biodiversity in an uncertain world using a combination of ecological data and decision science. [3-1-0] Prerequisite: [CONS200] In special cases and with the approval of the instructor concerned, a student may carry out directed studies of specific problems in natural resources conservation.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
CONS_V 449-C_101	CONS_V	449	C	C_101	W1	The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged

CONS_V 449-C_151	CONS_V	449	C	C_151	Directed Studies in Natural Resources Conservation	W1	In special cases and with the approval of the instructor concerned, a student may carry out directed studies of specific problems in natural resources conservation. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CONS_V 449-C_201	CONS_V	449	C	C_201	Directed Studies in Natural Resources Conservation	W2	In special cases and with the approval of the instructor concerned, a student may carry out directed studies of specific problems in natural resources conservation. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CONS_V 449-C_202	CONS_V	449	C	C_202	Directed Studies in Natural Resources Conservation	W2	In special cases and with the approval of the instructor concerned, a student may carry out directed studies of specific problems in natural resources conservation. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CONS_V 449-F_001	CONS_V	449	F	F_001	Directed Studies in Natural Resources Conservation	W1-2	In special cases and with the approval of the instructor concerned, a student may carry out directed studies of specific problems in natural resources conservation. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CONS_V 449-F_101	CONS_V	449	F	F_101	Directed Studies in Natural Resources Conservation	W1	In special cases and with the approval of the instructor concerned, a student may carry out directed studies of specific problems in natural resources conservation. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CONS_V 449-F_201	CONS_V	449	F	F_201	Directed Studies in Natural Resources Conservation	W2	In special cases and with the approval of the instructor concerned, a student may carry out directed studies of specific problems in natural resources conservation. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CONS_V 451-101	CONS_V	451		101	Integrated Field School	W1	Field methods, research and analysis, community-oriented projects, and the interactions between biological and social aspects of conservation research. Students may not take any other courses in conjunction with CONS 451. Restricted to B.Sc. in Natural Resources Conservation students in the fourth year of the Science and Management Major or B.Sc. in Natural Resources students in the fourth year of the Science and Management Specialization of the Conservation Major. This course is not eligible for Credit/D/Fail grading. [10-10-10] Prerequisite: All of CONS 330, CONS 340, CONS 440, CONS 481, FRST 385, FRST 386, FRST 395. Examination of global resources and sustainability via scenario evaluation, modelling, and prescription. Students must have already completed their International/Cultural Experience. This course is not eligible for Credit/D/Fail grading. [3-0-9] Prerequisite: CONS 330 and one of NRES 231, FRST 231, BIOL 300 and one of NRES 241, CONS 340, NRES 340, GEOS 270. and fourth-year standing in the Global Perspectives Specialization of the Conservation Major. Corequisite: One of NRES 341, FRST 443, NRES 443.	In Person Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 6:00 p.m.
CONS_V 452-201	CONS_V	452		201	Global Perspectives Capstone	W2		In Person Learning	Mon Tue Wed Thu	11:00 a.m. - 2:00 p.m.
CONS_V 481-101	CONS_V	481		101	Conservation Planning in Practice	W1	Theory, tools and practical skills needed to conduct conservation planning at the community level. Addresses issues of developing and implementing plans in the context of sustainability goals, political realities and diverse public opinion. [2-2-0]	In Person Learning	Mon Wed	1:00 p.m. - 2:00 p.m.
CONS_V 481-L01	CONS_V	481		L01	Conservation Planning in Practice	W1	Theory, tools and practical skills needed to conduct conservation planning at the community level. Addresses issues of developing and implementing plans in the context of sustainability goals, political realities and diverse public opinion. [2-2-0]	In Person Learning	Mon	5:00 p.m. - 7:00 p.m.
CONS_V 481-L02	CONS_V	481		L02	Conservation Planning in Practice	W1	Theory, tools and practical skills needed to conduct conservation planning at the community level. Addresses issues of developing and implementing plans in the context of sustainability goals, political realities and diverse public opinion. [2-2-0]	In Person Learning	Tue	12:30 p.m. - 2:30 p.m.
CONS_V 481-L03	CONS_V	481		L03	Conservation Planning in Practice	W1	Theory, tools and practical skills needed to conduct conservation planning at the community level. Addresses issues of developing and implementing plans in the context of sustainability goals, political realities and diverse public opinion. [2-2-0]	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CONS_V 486-201	CONS_V	486		201	Fish Conservation and Management	W2	Principles of fish biology, population and community ecology necessary to understand conservation and management; overview of current issues, tactics and institutions involved with fisheries conservation and management. [2-3-0] Prerequisite: FRST 386.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
CONS_V 486-L01	CONS_V	486		L01	Fish Conservation and Management	W2	Principles of fish biology, population and community ecology necessary to understand conservation and management; overview of current issues, tactics and institutions involved with fisheries conservation and management. [2-3-0] Prerequisite: FRST 386.	In Person Learning	Fri	1:00 p.m. - 4:00 p.m.
CONS_V 491-101	CONS_V	491		101	Recreation and Tourism Planning	W1	Principles and methods for planning urban and rural recreation and related tourism resources including analyzing recreation resources, applying policies and standards, developing park/recreation area management plans, and understanding benefits to human and community wellbeing and biodiversity. [3-0-0] Prerequisite: Third-year standing.	In Person Learning	Mon Wed	10:30 a.m. - 12:00 p.m.
CONS_V 495-201	CONS_V	495		201	Human Wildlife Conflict	W2	Evaluation of the impacts of human wildlife conflicts on wildlife populations; application of innovative methods to reduce human wildlife conflicts. [2-0-1] Prerequisite: Third-year standing or higher. BIOL 230 or FRST 395 and APBI 315 or APBI 416 recommended. Equivalency: APBI495	In Person Learning	Arranged	Arranged
CONS_V 496-101	CONS_V	496		101	Primate Conservation in the Anthropocene	W1	Modern-day threats facing primates and the wide range of conservation strategies being implemented globally to protect them. Prerequisite: Third year standing.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CONS_V 498-001	CONS_V	498		001	Thesis or Special Project	W1-2	An independent study or research project of a subject of special interest to the student under the supervision of a staff member.	In Person Learning	Arranged	Arranged
CONS_V 498-101	CONS_V	498		101	Thesis or Special Project	W1	An independent study or research project of a subject of special interest to the student under the supervision of a staff member.	In Person Learning	Arranged	Arranged
CONS_V 498-201	CONS_V	498		201	Thesis or Special Project	W2	An independent study or research project of a subject of special interest to the student under the supervision of a staff member.	In Person Learning	Arranged	Arranged
CONS_V 498-610	CONS_V	498		610	Thesis or Special Project	W1-2	An independent study or research project of a subject of special interest to the student under the supervision of a staff member.	In Person Learning	Arranged	Arranged

CONS_V 503-A_101	CONS_V	503	A	A_101	Topics in Conservation	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 4:00 p.m.
CONS_V 503-C_103	CONS_V	503	C	C_103	Topics in Conservation	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	11:30 a.m. - 2:30 p.m.
CONS_V 504-C_001	CONS_V	504	C	C_001	Directed Studies in Conservation	W1-2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
CONS_V 504-C_101	CONS_V	504	C	C_101	Directed Studies in Conservation	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
CONS_V 504-C_102	CONS_V	504	C	C_102	Directed Studies in Conservation	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CONS_V 504-C_201	CONS_V	504	C	C_201	Directed Studies in Conservation	W2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
CONS_V 505-201	CONS_V	505		201	Ecological Restoration	W2	Global overview of ecological restoration, examining perspectives and practices in diverse ecosystems worldwide. Causes of degradation, motivations for restoration (including cultural underpinnings), restoration objectives (biodiversity, ecosystem function, ecosystem services), restoration practices (and their evolution over time), challenges and lessons learnt. Credit will be granted for only one of CONS 505 or UFOR 403. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CONS_V 506-201	CONS_V	506		201	Forest Conservation in Asia: Challenges and Opportunities	W2	Key forest conservation issues in Asia, regional strategies, programs, and practices for restoration of critical landscapes, rehabilitation of terrestrial ecosystems and conservation of flagship species. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CONS_V 506-202	CONS_V	506		202	Forest Conservation in Asia: Challenges and Opportunities	W2	Key forest conservation issues in Asia, regional strategies, programs, and practices for restoration of critical landscapes, rehabilitation of terrestrial ecosystems and conservation of flagship species. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CONS_V 528-101	CONS_V	528		101	Social Science Research Methods and Design for Natural Resource Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CONS_V 528-201	CONS_V	528		201	Social Science Research Methods and Design for Natural Resource Management	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	1:30 p.m. - 4:30 p.m.
CPEN_V 211-101	CPEN_V	211		101	Computing Systems I	W1	Boolean algebra; combinational and sequential circuits; organization and operation of microcomputers, memory addressing modes, representation of information, instruction sets, machine and assembly language programming, systems programs, I/O structures, I/O interfacing and I/O programming, introduction to digital system design using microcomputers. Credit will be granted for only one of CPEN 211, CPEN 312, EECE 256, EECE 259 or EECE 355. This course is not eligible for Credit/D/Fail grading. [4-2-2*] Prerequisite: APSC 160.	In Person Learning	Tue Thu	3:30 p.m. - 5:30 p.m.
CPEN_V 211-L1A	CPEN_V	211		L1A	Computing Systems I	W1	Boolean algebra; combinational and sequential circuits; organization and operation of microcomputers, memory addressing modes, representation of information, instruction sets, machine and assembly language programming, systems programs, I/O structures, I/O interfacing and I/O programming, introduction to digital system design using microcomputers. Credit will be granted for only one of CPEN 211, CPEN 312, EECE 256, EECE 259 or EECE 355. This course is not eligible for Credit/D/Fail grading. [4-2-2*] Prerequisite: APSC 160.	In Person Learning	Thu	1:00 p.m. - 3:00 p.m.
CPEN_V 211-L1B	CPEN_V	211		L1B	Computing Systems I	W1	Boolean algebra; combinational and sequential circuits; organization and operation of microcomputers, memory addressing modes, representation of information, instruction sets, machine and assembly language programming, systems programs, I/O structures, I/O interfacing and I/O programming, introduction to digital system design using microcomputers. Credit will be granted for only one of CPEN 211, CPEN 312, EECE 256, EECE 259 or EECE 355. This course is not eligible for Credit/D/Fail grading. [4-2-2*] Prerequisite: APSC 160.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
CPEN_V 211-L1C	CPEN_V	211		L1C	Computing Systems I	W1	Boolean algebra; combinational and sequential circuits; organization and operation of microcomputers, memory addressing modes, representation of information, instruction sets, machine and assembly language programming, systems programs, I/O structures, I/O interfacing and I/O programming, introduction to digital system design using microcomputers. Credit will be granted for only one of CPEN 211, CPEN 312, EECE 256, EECE 259 or EECE 355. This course is not eligible for Credit/D/Fail grading. [4-2-2*] Prerequisite: APSC 160.	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
CPEN_V 211-L1D	CPEN_V	211		L1D	Computing Systems I	W1	Boolean algebra; combinational and sequential circuits; organization and operation of microcomputers, memory addressing modes, representation of information, instruction sets, machine and assembly language programming, systems programs, I/O structures, I/O interfacing and I/O programming, introduction to digital system design using microcomputers. Credit will be granted for only one of CPEN 211, CPEN 312, EECE 256, EECE 259 or EECE 355. This course is not eligible for Credit/D/Fail grading. [4-2-2*] Prerequisite: APSC 160.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
CPEN_V 211-L1E	CPEN_V	211		L1E	Computing Systems I	W1	Boolean algebra; combinational and sequential circuits; organization and operation of microcomputers, memory addressing modes, representation of information, instruction sets, machine and assembly language programming, systems programs, I/O structures, I/O interfacing and I/O programming, introduction to digital system design using microcomputers. Credit will be granted for only one of CPEN 211, CPEN 312, EECE 256, EECE 259 or EECE 355. This course is not eligible for Credit/D/Fail grading. [4-2-2*] Prerequisite: APSC 160.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.

CPEN_V 211-T1A	CPEN_V	211		T1A	Computing Systems I	W1	Boolean algebra; combinational and sequential circuits; organization and operation of microcomputers, memory addressing modes, representation of information, instruction sets, machine and assembly language programming, systems programs, I/O structures, I/O interfacing and I/O programming, introduction to digital system design using microcomputers. Credit will be granted for only one of CPEN 211, CPEN 312, EECE 256, EECE 259 or EECE 355. This course is not eligible for Credit/D/Fail grading. [4-2-2*] Prerequisite: APSC 160.	In Person Learning	Fri (Alternate weeks)	4:00 p.m. - 6:00 p.m.
CPEN_V 212-201	CPEN_V	212		201	Computing Systems II	W2	Abstractions at the hardware-software interface and their low-level implementation. Procedure invocation, dynamic dispatch, and related exploits; library linkage, virtual memory, heap management, garbage collection, and caches; interrupts, signals, and processes; threads, locks, and cache coherence; files, devices, and network topology. [3-2-0] Prerequisite: CPEN 211 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPEN_V 212-L2A	CPEN_V	212		L2A	Computing Systems II	W2	Abstractions at the hardware-software interface and their low-level implementation. Procedure invocation, dynamic dispatch, and related exploits; library linkage, virtual memory, heap management, garbage collection, and caches; interrupts, signals, and processes; threads, locks, and cache coherence; files, devices, and network topology. [3-2-0] Prerequisite: CPEN 211 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
CPEN_V 212-L2B	CPEN_V	212		L2B	Computing Systems II	W2	Abstractions at the hardware-software interface and their low-level implementation. Procedure invocation, dynamic dispatch, and related exploits; library linkage, virtual memory, heap management, garbage collection, and caches; interrupts, signals, and processes; threads, locks, and cache coherence; files, devices, and network topology. [3-2-0] Prerequisite: CPEN 211 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
CPEN_V 212-L2C	CPEN_V	212		L2C	Computing Systems II	W2	Abstractions at the hardware-software interface and their low-level implementation. Procedure invocation, dynamic dispatch, and related exploits; library linkage, virtual memory, heap management, garbage collection, and caches; interrupts, signals, and processes; threads, locks, and cache coherence; files, devices, and network topology. [3-2-0] Prerequisite: CPEN 211 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Wed	11:00 a.m. - 1:00 p.m.
CPEN_V 221-A_101	CPEN_V	221	A	A_101	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CPEN_V 221-A_L1A	CPEN_V	221	A	A_L1A	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Wed	8:00 a.m. - 10:00 a.m.
CPEN_V 221-A_L1B	CPEN_V	221	A	A_L1B	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Wed	8:00 a.m. - 10:00 a.m.
CPEN_V 221-A_L1C	CPEN_V	221	A	A_L1C	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Thu	1:30 p.m. - 3:30 p.m.
CPEN_V 221-A_T1A	CPEN_V	221	A	A_T1A	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
CPEN_V 221-A_T1B	CPEN_V	221	A	A_T1B	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Wed	5:00 p.m. - 6:30 p.m.
CPEN_V 221-B_101	CPEN_V	221	B	B_101	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Arranged	Arranged
CPEN_V 221-B_L1A	CPEN_V	221	B	B_L1A	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
CPEN_V 221-B_L1B	CPEN_V	221	B	B_L1B	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
CPEN_V 221-B_L1C	CPEN_V	221	B	B_L1C	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
CPEN_V 221-B_T1A	CPEN_V	221	B	B_T1A	Software Construction I	W1	Design, implementation, reasoning about software systems: abstraction and specification of software, testing, verification, abstract data types, object-oriented design, type hierarchies, concurrent software design. This course is not eligible for Credit/D/Fail grading. [3-2-2*] Prerequisite: APSC 160.	In Person Learning	Arranged	Arranged
CPEN_V 223-101	CPEN_V	223		101	Software Design for Engineers I	W1	Introduction to robust software design: static typing, procedural specifications, unit testing, black-box & white-box tests, user-defined data types (representations, invariants, abstraction functions), data abstractions, communicating design (e.g., UML). This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Mon Fri	3:00 p.m. - 4:30 p.m.
CPEN_V 223-L1A	CPEN_V	223		L1A	Software Design for Engineers I	W1	Introduction to robust software design: static typing, procedural specifications, unit testing, black-box & white-box tests, user-defined data types (representations, invariants, abstraction functions), data abstractions, communicating design (e.g., UML). This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Tue	3:00 p.m. - 5:00 p.m.
CPEN_V 223-L1B	CPEN_V	223		L1B	Software Design for Engineers I	W1	Introduction to robust software design: static typing, procedural specifications, unit testing, black-box & white-box tests, user-defined data types (representations, invariants, abstraction functions), data abstractions, communicating design (e.g., UML). This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
CPEN_V 223-L1C	CPEN_V	223		L1C	Software Design for Engineers I	W1	Introduction to robust software design: static typing, procedural specifications, unit testing, black-box & white-box tests, user-defined data types (representations, invariants, abstraction functions), data abstractions, communicating design (e.g., UML). This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Tue	10:30 a.m. - 12:30 p.m.

CPEN_V 281-101	CPEN_V	281	101	Technical Communication	W1	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPEN_V 281-102	CPEN_V	281	102	Technical Communication	W1	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CPEN_V 281-103	CPEN_V	281	103	Technical Communication	W1	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPEN_V 291-201	CPEN_V	291	201	Computer Engineering Design Studio I	W2	Design projects involving hardware (electronic devices and circuits, microcomputers) and software. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: CPEN 211. Corequisite: ELEC 201.	In Person Learning	Arranged	Arranged
CPEN_V 291-L2A	CPEN_V	291	L2A	Computer Engineering Design Studio I	W2	Design projects involving hardware (electronic devices and circuits, microcomputers) and software. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: CPEN 211. Corequisite: ELEC 201.	In Person Learning	Arranged	Arranged
CPEN_V 291-L2B	CPEN_V	291	L2B	Computer Engineering Design Studio I	W2	Design projects involving hardware (electronic devices and circuits, microcomputers) and software. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: CPEN 211. Corequisite: ELEC 201.	In Person Learning	Arranged	Arranged
CPEN_V 311-101	CPEN_V	311	101	Digital Systems Design	W1	Advanced combinational and sequential electronic system design. Hardware specification, modelling, and simulation using hardware description languages (HDLs) and CAD tools. Design with programmable logic including FPGA's. Applications include complex state machines, microcontrollers, arithmetic circuits, and interface units. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: One of CPEN 211, CPEN 312.	In Person Learning	Arranged	Arranged
CPEN_V 311-102	CPEN_V	311	102	Digital Systems Design	W1	Advanced combinational and sequential electronic system design. Hardware specification, modelling, and simulation using hardware description languages (HDLs) and CAD tools. Design with programmable logic including FPGA's. Applications include complex state machines, microcontrollers, arithmetic circuits, and interface units. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: One of CPEN 211, CPEN 312.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
CPEN_V 311-L1A	CPEN_V	311	L1A	Digital Systems Design	W1	Advanced combinational and sequential electronic system design. Hardware specification, modelling, and simulation using hardware description languages (HDLs) and CAD tools. Design with programmable logic including FPGA's. Applications include complex state machines, microcontrollers, arithmetic circuits, and interface units. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: One of CPEN 211, CPEN 312.	In Person Learning	Mon	12:00 p.m. - 3:00 p.m.
CPEN_V 311-L1B	CPEN_V	311	L1B	Digital Systems Design	W1	Advanced combinational and sequential electronic system design. Hardware specification, modelling, and simulation using hardware description languages (HDLs) and CAD tools. Design with programmable logic including FPGA's. Applications include complex state machines, microcontrollers, arithmetic circuits, and interface units. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: One of CPEN 211, CPEN 312.	In Person Learning	Tue	8:00 a.m. - 11:00 a.m.
CPEN_V 311-L1C	CPEN_V	311	L1C	Digital Systems Design	W1	Advanced combinational and sequential electronic system design. Hardware specification, modelling, and simulation using hardware description languages (HDLs) and CAD tools. Design with programmable logic including FPGA's. Applications include complex state machines, microcontrollers, arithmetic circuits, and interface units. This course is not eligible for Credit/D/Fail grading. [3-3-0] Prerequisite: One of CPEN 211, CPEN 312.	In Person Learning	Thu	8:00 a.m. - 11:00 a.m.
CPEN_V 312-201	CPEN_V	312	201	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Wed Fri	8:30 a.m. - 10:00 a.m.
CPEN_V 312-L2A	CPEN_V	312	L2A	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Mon (Alternate weeks)	5:00 p.m. - 7:00 p.m.
CPEN_V 312-L2B	CPEN_V	312	L2B	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Mon (Alternate weeks)	1:00 p.m. - 3:00 p.m.
CPEN_V 312-L2C	CPEN_V	312	L2C	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Wed (Alternate weeks)	5:00 p.m. - 7:00 p.m.

CPEN_V 312-L2D	CPEN_V	312	L2D	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Tue (Alternate weeks)	8:30 a.m. - 10:30 a.m.
CPEN_V 312-L2E	CPEN_V	312	L2E	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Arranged	Arranged
CPEN_V 312-L2F	CPEN_V	312	L2F	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Tue (Alternate weeks)	3:00 p.m. - 5:00 p.m.
CPEN_V 312-L2J	CPEN_V	312	L2J	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Arranged	Arranged
CPEN_V 312-L2K	CPEN_V	312	L2K	Digital Systems and Microcomputers	W2	Data representation in digital computers; boolean algebra; the design and optimization and implementation of combinatorial and sequential circuits; modern digital circuit technologies; memory and programmable logic devices; organization and operation of microcomputers; data/address bus organization; input-output interfacing. Credit will be granted for only one of CPEN 312, CPEN 211. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 204, ELEC 203, MECH 221.	In Person Learning	Mon (Alternate weeks)	3:00 p.m. - 5:00 p.m.
CPEN_V 320-101	CPEN_V	320	101	Software Construction II	W1	Contemporary concepts and techniques for developing interactive software applications: client-server architectures; session-oriented systems; security and scalability; models of application deployment. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of CPEN 221, CPSC 221.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CPEN_V 320-L1A	CPEN_V	320	L1A	Software Construction II	W1	Contemporary concepts and techniques for developing interactive software applications: client-server architectures; session-oriented systems; security and scalability; models of application deployment. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of CPEN 221, CPSC 221.	In Person Learning	Mon	12:00 p.m. - 2:00 p.m.
CPEN_V 320-L1B	CPEN_V	320	L1B	Software Construction II	W1	Contemporary concepts and techniques for developing interactive software applications: client-server architectures; session-oriented systems; security and scalability; models of application deployment. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of CPEN 221, CPSC 221.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
CPEN_V 321-101	CPEN_V	321	101	Software Engineering	W1	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Arranged	Arranged
CPEN_V 321-201	CPEN_V	321	201	Software Engineering	W2	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CPEN_V 321-L1A	CPEN_V	321	L1A	Software Engineering	W1	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Arranged	Arranged
CPEN_V 321-L1B	CPEN_V	321	L1B	Software Engineering	W1	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Arranged	Arranged
CPEN_V 321-L1C	CPEN_V	321	L1C	Software Engineering	W1	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Arranged	Arranged
CPEN_V 321-L2A	CPEN_V	321	L2A	Software Engineering	W2	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
CPEN_V 321-L2B	CPEN_V	321	L2B	Software Engineering	W2	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
CPEN_V 321-L2C	CPEN_V	321	L2C	Software Engineering	W2	Engineering practices for the development of non-trivial software-intensive systems including requirements specification, software architecture, implementation, verification, and maintenance. Iterative development. Recognized standards, guidelines, and models. Credit will only be granted for only one of CPSC 310, CPEN 321. This course is not eligible for Credit/D/Fail grading. [3-2-0] Corequisite: CPEN 322.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
CPEN_V 322-201	CPEN_V	322	201	Software Construction II	W2	Contemporary concepts and techniques for developing interactive software applications: client-server architectures; session-oriented systems; security and scalability; models of application deployment. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of CPEN 221, CPSC 221.	In Person Learning	Arranged	Arranged

CPEN_V 322-L2A	CPEN_V	322	L2A	Software Construction II	W2	Contemporary concepts and techniques for developing interactive software applications: client-server architectures; session-oriented systems; security and scalability; models of application deployment. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of CPEN 221, CPSC 221.	In Person Learning	Arranged	Arranged	
CPEN_V 322-L2B	CPEN_V	322	L2B	Software Construction II	W2	Contemporary concepts and techniques for developing interactive software applications: client-server architectures; session-oriented systems; security and scalability; models of application deployment. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of CPEN 221, CPSC 221.	In Person Learning	Arranged	Arranged	
CPEN_V 322-L2C	CPEN_V	322	L2C	Software Construction II	W2	Contemporary concepts and techniques for developing interactive software applications: client-server architectures; session-oriented systems; security and scalability; models of application deployment. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: All of CPEN 221, CPSC 221.	In Person Learning	Arranged	Arranged	
CPEN_V 331-101	CPEN_V	331	101	Operating Systems	W1	Operating systems, their design and their implementation. Process concurrency, synchronization, communication and scheduling. Device drivers, memory management, virtual memory, file systems, networking and security. [3-3-0] Prerequisite: CPEN 212 and CPEN 221.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
CPEN_V 331-L1A	CPEN_V	331	L1A	Operating Systems	W1	Operating systems, their design and their implementation. Process concurrency, synchronization, communication and scheduling. Device drivers, memory management, virtual memory, file systems, networking and security. [3-3-0] Prerequisite: CPEN 212 and CPEN 221.	In Person Learning	Fri	2:30 p.m. - 5:30 p.m.	
CPEN_V 331-L1B	CPEN_V	331	L1B	Operating Systems	W1	Operating systems, their design and their implementation. Process concurrency, synchronization, communication and scheduling. Device drivers, memory management, virtual memory, file systems, networking and security. [3-3-0] Prerequisite: CPEN 212 and CPEN 221.	In Person Learning	Wed	5:00 p.m. - 8:00 p.m.	
CPEN_V 331-L1C	CPEN_V	331	L1C	Operating Systems	W1	Operating systems, their design and their implementation. Process concurrency, synchronization, communication and scheduling. Device drivers, memory management, virtual memory, file systems, networking and security. [3-3-0] Prerequisite: CPEN 212 and CPEN 221.	In Person Learning	Wed	5:00 p.m. - 8:00 p.m.	
CPEN_V 331-L1D	CPEN_V	331	L1D	Operating Systems	W1	Operating systems, their design and their implementation. Process concurrency, synchronization, communication and scheduling. Device drivers, memory management, virtual memory, file systems, networking and security. [3-3-0] Prerequisite: CPEN 212 and CPEN 221.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.	
CPEN_V 333-A_101	CPEN_V	333	A	A_101	Software Design for Engineers II	W1	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CPEN_V 333-A_201	CPEN_V	333	A	A_201	Software Design for Engineers II	W2	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CPEN_V 333-A_L1A	CPEN_V	333	A	A_L1A	Software Design for Engineers II	W1	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Thu	11:00 a.m. - 1:00 p.m.
CPEN_V 333-A_L1B	CPEN_V	333	A	A_L1B	Software Design for Engineers II	W1	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Fri	11:00 a.m. - 1:00 p.m.
CPEN_V 333-A_L2A	CPEN_V	333	A	A_L2A	Software Design for Engineers II	W2	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Thu	11:00 a.m. - 1:00 p.m.
CPEN_V 333-A_L2B	CPEN_V	333	A	A_L2B	Software Design for Engineers II	W2	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
CPEN_V 333-B_101	CPEN_V	333	B	B_101	Software Design for Engineers II	W1	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CPEN_V 333-B_201	CPEN_V	333	B	B_201	Software Design for Engineers II	W2	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CPEN_V 333-B_L1A	CPEN_V	333	B	B_L1A	Software Design for Engineers II	W1	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Arranged	Arranged
CPEN_V 333-B_L1B	CPEN_V	333	B	B_L1B	Software Design for Engineers II	W1	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Arranged	Arranged
CPEN_V 333-B_L2A	CPEN_V	333	B	B_L2A	Software Design for Engineers II	W2	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Thu	11:00 a.m. - 1:00 p.m.
CPEN_V 333-B_L2B	CPEN_V	333	B	B_L2B	Software Design for Engineers II	W2	Use of operating systems abstractions; real-time systems; principles of concurrent and multi-threaded programming; information structures; introduction to object oriented analysis; design, and modelling using UML; software testing. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPSC 259, CPEN 223.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
CPEN_V 355-101	CPEN_V	355	101	Machine Learning with Engineering Applications	W1	Foundations and concepts of data science and machine learning with applications to engineering problems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 152, MATH 221 and one of MATH 318, MATH 302, STAT 302, STAT 321, ELEC 321 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.	
CPEN_V 355-201	CPEN_V	355	201	Machine Learning with Engineering Applications	W2	Foundations and concepts of data science and machine learning with applications to engineering problems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 152, MATH 221 and one of MATH 318, MATH 302, STAT 302, STAT 321, ELEC 321 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.	
CPEN_V 355-T1A	CPEN_V	355	T1A	Machine Learning with Engineering Applications	W1	Foundations and concepts of data science and machine learning with applications to engineering problems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 152, MATH 221 and one of MATH 318, MATH 302, STAT 302, STAT 321, ELEC 321 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Mon	2:00 p.m. - 3:00 p.m.	

CPEN_V 355-T2A	CPEN_V	355		T2A	Machine Learning with Engineering Applications	W2	Foundations and concepts of data science and machine learning with applications to engineering problems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 152, MATH 221 and one of MATH 318, MATH 302, STAT 302, STAT 321, ELEC 321 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Mon	2:00 p.m. - 3:00 p.m.
CPEN_V 391-101	CPEN_V	391		101	Computer Engineering Design Studio II	W1	Design and implementation of a hardware platform and software design and implementation at the operating system and application layers. Project management skills. Effective presentations. Going-forward, credit will be given for only one of CPEN291, CPEN391. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of CPEN 212, CPSC 221, ELEC 201.	In Person Learning	Fri	9:00 a.m. - 11:00 a.m.
CPEN_V 391-201	CPEN_V	391		201	Computer Engineering Design Studio II	W2	Design and implementation of a hardware platform and software design and implementation at the operating system and application layers. Project management skills. Effective presentations. Going-forward, credit will be given for only one of CPEN291, CPEN391. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of CPEN 212, CPSC 221, ELEC 201.	In Person Learning	Mon	10:00 a.m. - 12:00 p.m.
CPEN_V 391-L1A	CPEN_V	391		L1A	Computer Engineering Design Studio II	W1	Design and implementation of a hardware platform and software design and implementation at the operating system and application layers. Project management skills. Effective presentations. Going-forward, credit will be given for only one of CPEN291, CPEN391. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of CPEN 212, CPSC 221, ELEC 201.	In Person Learning	Tue Thu	4:00 p.m. - 7:00 p.m.
CPEN_V 391-L2A	CPEN_V	391		L2A	Computer Engineering Design Studio II	W2	Design and implementation of a hardware platform and software design and implementation at the operating system and application layers. Project management skills. Effective presentations. Going-forward, credit will be given for only one of CPEN291, CPEN391. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of CPEN 212, CPSC 221, ELEC 201.	In Person Learning	Tue Thu	11:00 a.m. - 2:00 p.m.
CPEN_V 391-L2B	CPEN_V	391		L2B	Computer Engineering Design Studio II	W2	Design and implementation of a hardware platform and software design and implementation at the operating system and application layers. Project management skills. Effective presentations. Going-forward, credit will be given for only one of CPEN291, CPEN391. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of CPEN 212, CPSC 221, ELEC 201.	In Person Learning	Tue Thu	2:00 p.m. - 5:00 p.m.
CPEN_V 400-Q_207	CPEN_V	400	Q	Q_207	Topics in Computer Engineering	W2	Lectures or projects on subjects of current interest.	In Person Learning	Mon Wed	3:00 p.m. - 4:30 p.m.
CPEN_V 400-Q_L2A	CPEN_V	400	Q	Q_L2A	Topics in Computer Engineering	W2	Lectures or projects on subjects of current interest.	In Person Learning	Arranged	Arranged
CPEN_V 400-Q_L2B	CPEN_V	400	Q	Q_L2B	Topics in Computer Engineering	W2	Lectures or projects on subjects of current interest.	In Person Learning	Tue	11:00 a.m. - 12:00 p.m.
CPEN_V 411-101	CPEN_V	411		101	Computer Architecture	W1	Modern processors, GPUs, and memory hierarchies; quantitative principles and instruction set design; pipelining, superscalar issue, out-of-order execution, branch prediction and speculation; memory hierarchies, caches, virtual addressing, prefetching, coherence, and consistency; multicores, VLIW, on-chip networks, and other advanced architectures. Credit will be granted for only one of CPSC 313, CPEN 411. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of CPEN 212, CPEN 311, CPEN 312.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CPEN_V 411-T1A	CPEN_V	411		T1A	Computer Architecture	W1	Modern processors, GPUs, and memory hierarchies; quantitative principles and instruction set design; pipelining, superscalar issue, out-of-order execution, branch prediction and speculation; memory hierarchies, caches, virtual addressing, prefetching, coherence, and consistency; multicores, VLIW, on-chip networks, and other advanced architectures. Credit will be granted for only one of CPSC 313, CPEN 411. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of CPEN 212, CPEN 311, CPEN 312.	In Person Learning	Wed	8:00 a.m. - 10:00 a.m.
CPEN_V 412-101	CPEN_V	412		101	Microcomputer Systems Design	W1	Microprocessor and system buses; advanced I/O methods; priority interrupts; event/exception handling; serial I/O; computer networking; memory system design; interaction of hardware and software, microprocessor comparison, testability issues, safety critical systems. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: CPEN 311 and one of CPEN 211, CPEN 312.	In Person Learning	Wed Fri	12:00 p.m. - 1:30 p.m.
CPEN_V 412-102	CPEN_V	412		102	Microcomputer Systems Design	W1	Microprocessor and system buses; advanced I/O methods; priority interrupts; event/exception handling; serial I/O; computer networking; memory system design; interaction of hardware and software, microprocessor comparison, testability issues, safety critical systems. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: CPEN 311 and one of CPEN 211, CPEN 312.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CPEN_V 412-201	CPEN_V	412		201	Microcomputer Systems Design	W2	Microprocessor and system buses; advanced I/O methods; priority interrupts; event/exception handling; serial I/O; computer networking; memory system design; interaction of hardware and software, microprocessor comparison, testability issues, safety critical systems. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: CPEN 311 and one of CPEN 211, CPEN 312.	In Person Learning	Wed	11:00 a.m. - 12:30 p.m.
CPEN_V 412-L1A	CPEN_V	412		L1A	Microcomputer Systems Design	W1	Microprocessor and system buses; advanced I/O methods; priority interrupts; event/exception handling; serial I/O; computer networking; memory system design; interaction of hardware and software, microprocessor comparison, testability issues, safety critical systems. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: CPEN 311 and one of CPEN 211, CPEN 312.	In Person Learning	Mon	9:00 a.m. - 11:00 a.m.
CPEN_V 412-L2A	CPEN_V	412		L2A	Microcomputer Systems Design	W2	Microprocessor and system buses; advanced I/O methods; priority interrupts; event/exception handling; serial I/O; computer networking; memory system design; interaction of hardware and software, microprocessor comparison, testability issues, safety critical systems. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: CPEN 311 and one of CPEN 211, CPEN 312.	In Person Learning	Fri	12:00 p.m. - 2:00 p.m.
CPEN_V 416-201	CPEN_V	416		201	Gate-Model Quantum Computing	W2	A software-based introduction to gate-model quantum computing algorithms. Basic elements of quantum computation; analysis and software implementation of Grover's algorithm, Shor's algorithm, quantum compilation, variational algorithms, Hamiltonian simulation, noise characterization. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of CPEN 221, CPEN 223, CPSC 259, CPSC 221, PHYS 210, and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Arranged	Arranged
CPEN_V 421-201	CPEN_V	421		201	Software Project Management	W2	Advanced project planning, cost estimation and scheduling. Project management tools. Factors influencing productivity and success. Productivity metrics. Analysis of options and risk. Tools. Case studies. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of CPEN 321, CPSC 310.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.

CPEN_V 421-T2A	CPEN_V	421	T2A	Software Project Management	W2	Advanced project planning, cost estimation and scheduling. Project management tools. Factors influencing productivity and success. Productivity metrics. Analysis of options and risk. Tools. Case studies. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of CPEN 321, CPSC 310.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
CPEN_V 422-101	CPEN_V	422	101	Software Testing and Analysis	W1	Different levels of testing including unit, integration, system, performance and regression levels. Requirements flowdown. Problem tracking. Coverage criteria. Static methods. Tools support. Specialized techniques. Assessment of correctness, reliability, safety. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 221, CPEN 321, CPSC 210, CPSC 310.	In Person Learning	Mon Wed	10:30 a.m. - 12:00 p.m.
CPEN_V 422-L1A	CPEN_V	422	L1A	Software Testing and Analysis	W1	Different levels of testing including unit, integration, system, performance and regression levels. Requirements flowdown. Problem tracking. Coverage criteria. Static methods. Tools support. Specialized techniques. Assessment of correctness, reliability, safety. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 221, CPEN 321, CPSC 210, CPSC 310.	In Person Learning	Thu	10:00 a.m. - 12:00 p.m.
CPEN_V 431-201	CPEN_V	431	201	Design of Distributed Software Applications	W2	Communications, processes, naming, synchronization, consistency and replication, fault tolerance, middleware, and security technologies for distributed applications. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 331, CPSC 313 and one of CPEN 221, CPSC 210.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
CPEN_V 431-L2A	CPEN_V	431	L2A	Design of Distributed Software Applications	W2	Communications, processes, naming, synchronization, consistency and replication, fault tolerance, middleware, and security technologies for distributed applications. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 331, CPSC 313 and one of CPEN 221, CPSC 210.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
CPEN_V 431-L2B	CPEN_V	431	L2B	Design of Distributed Software Applications	W2	Communications, processes, naming, synchronization, consistency and replication, fault tolerance, middleware, and security technologies for distributed applications. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 331, CPSC 313 and one of CPEN 221, CPSC 210.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
CPEN_V 432-101	CPEN_V	432	101	Real-time System Design	W1	Multi-tasking; interrupt-driven systems; task scheduling; schedulability analysis; inter-process communication and synchronization; resource management; performance measurement; hardware/software integration; hardware/software tradeoffs; system reliability. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of CPEN 333, CPEN 331, CPSC 313.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CPEN_V 441-101	CPEN_V	441	101	Human Computer Interfaces in Engineering Design	W1	Practical issues for interfaces for modern software. Task analysis, user modelling, usability engineering, representations, metaphors, prototyping tools. Applications: interactive multimedia systems, engineering, scientific visualization, engineering design. This course is not eligible for Credit/D/Fail grading. [3-1-2*] Prerequisite: CPSC 221 and one of CPEN 221, CPSC 210, CPEN 333.	In Person Learning	Arranged	Arranged
CPEN_V 441-201	CPEN_V	441	201	Human Computer Interfaces in Engineering Design	W2	Practical issues for interfaces for modern software. Task analysis, user modelling, usability engineering, representations, metaphors, prototyping tools. Applications: interactive multimedia systems, engineering, scientific visualization, engineering design. This course is not eligible for Credit/D/Fail grading. [3-1-2*] Prerequisite: CPSC 221 and one of CPEN 221, CPSC 210, CPEN 333.	In Person Learning	Thu	5:30 p.m. - 8:30 p.m.
CPEN_V 441-L1A	CPEN_V	441	L1A	Human Computer Interfaces in Engineering Design	W1	Practical issues for interfaces for modern software. Task analysis, user modelling, usability engineering, representations, metaphors, prototyping tools. Applications: interactive multimedia systems, engineering, scientific visualization, engineering design. This course is not eligible for Credit/D/Fail grading. [3-1-2*] Prerequisite: CPSC 221 and one of CPEN 221, CPSC 210, CPEN 333.	In Person Learning	Arranged	Arranged
CPEN_V 441-L2A	CPEN_V	441	L2A	Human Computer Interfaces in Engineering Design	W2	Practical issues for interfaces for modern software. Task analysis, user modelling, usability engineering, representations, metaphors, prototyping tools. Applications: interactive multimedia systems, engineering, scientific visualization, engineering design. This course is not eligible for Credit/D/Fail grading. [3-1-2*] Prerequisite: CPSC 221 and one of CPEN 221, CPSC 210, CPEN 333.	In Person Learning	Tue	8:00 p.m. - 9:00 p.m.
CPEN_V 441-T1A	CPEN_V	441	T1A	Human Computer Interfaces in Engineering Design	W1	Practical issues for interfaces for modern software. Task analysis, user modelling, usability engineering, representations, metaphors, prototyping tools. Applications: interactive multimedia systems, engineering, scientific visualization, engineering design. This course is not eligible for Credit/D/Fail grading. [3-1-2*] Prerequisite: CPSC 221 and one of CPEN 221, CPSC 210, CPEN 333.	In Person Learning	Arranged	Arranged
CPEN_V 441-T2A	CPEN_V	441	T2A	Human Computer Interfaces in Engineering Design	W2	Practical issues for interfaces for modern software. Task analysis, user modelling, usability engineering, representations, metaphors, prototyping tools. Applications: interactive multimedia systems, engineering, scientific visualization, engineering design. This course is not eligible for Credit/D/Fail grading. [3-1-2*] Prerequisite: CPSC 221 and one of CPEN 221, CPSC 210, CPEN 333.	In Person Learning	Thu	8:30 p.m. - 9:30 p.m.
CPEN_V 442-101	CPEN_V	442	101	Introduction to Cybersecurity	W1	Security risks, threats, and vulnerabilities from technical perspectives; cryptography; software and web security; access control, assurance, accountability; usable privacy and security; engineering of secure systems; cryptocurrencies. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 333, CPEN 331, CPSC 313.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CPEN_V 442-201	CPEN_V	442	201	Introduction to Cybersecurity	W2	Security risks, threats, and vulnerabilities from technical perspectives; cryptography; software and web security; access control, assurance, accountability; usable privacy and security; engineering of secure systems; cryptocurrencies. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 333, CPEN 331, CPSC 313.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
CPEN_V 442-L1A	CPEN_V	442	L1A	Introduction to Cybersecurity	W1	Security risks, threats, and vulnerabilities from technical perspectives; cryptography; software and web security; access control, assurance, accountability; usable privacy and security; engineering of secure systems; cryptocurrencies. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 333, CPEN 331, CPSC 313.	In Person Learning	Arranged	Arranged
CPEN_V 442-L1B	CPEN_V	442	L1B	Introduction to Cybersecurity	W1	Security risks, threats, and vulnerabilities from technical perspectives; cryptography; software and web security; access control, assurance, accountability; usable privacy and security; engineering of secure systems; cryptocurrencies. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 333, CPEN 331, CPSC 313.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
CPEN_V 442-L2A	CPEN_V	442	L2A	Introduction to Cybersecurity	W2	Security risks, threats, and vulnerabilities from technical perspectives; cryptography; software and web security; access control, assurance, accountability; usable privacy and security; engineering of secure systems; cryptocurrencies. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 333, CPEN 331, CPSC 313.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CPEN_V 442-L2B	CPEN_V	442	L2B	Introduction to Cybersecurity	W2	Security risks, threats, and vulnerabilities from technical perspectives; cryptography; software and web security; access control, assurance, accountability; usable privacy and security; engineering of secure systems; cryptocurrencies. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: One of CPEN 333, CPEN 331, CPSC 313.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
CPEN_V 455-201	CPEN_V	455	201	Deep Learning	W2	Fundamentals of deep learning, including architectures (e.g., MLPs, CNNs, RNNs, Transformers, and GNNs) and learning algorithms under different paradigms (supervised / unsupervised / reinforcement learning). Emphasis on design principles and motivating applications. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 152, MATH 221 and one of MATH 318, MATH 302, STAT 302, STAT 321, ELEC 321 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.

CPEN_V 455-T2A	CPEN_V	455		T2A	Deep Learning	W2	Fundamentals of deep learning, including architectures (e.g., MLPs, CNNs, RNNs, Transformers, and GNNs) and learning algorithms under different paradigms (supervised / unsupervised / reinforcement learning). Emphasis on design principles and motivating applications. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 152, MATH 221 and one of MATH 318, MATH 302, STAT 302, STAT 321, ELEC 321 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
CPEN_V 455-T2W	CPEN_V	455		T2W	Deep Learning	W2	Fundamentals of deep learning, including architectures (e.g., MLPs, CNNs, RNNs, Transformers, and GNNs) and learning algorithms under different paradigms (supervised / unsupervised / reinforcement learning). Emphasis on design principles and motivating applications. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 152, MATH 221 and one of MATH 318, MATH 302, STAT 302, STAT 321, ELEC 321 and one of CPEN 221, CPEN 223, CPSC 259.	In Person Learning	Arranged	Arranged
CPEN_V 481-101	CPEN_V	481		101	Economic Analysis of Engineering Projects	W1	Time-money relationships; economic analysis of alternatives including the effects of interest rates, inflation, depreciation, taxation and uncertainty; cost estimation and budgeting; financial analysis of engineering operations. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
CPEN_V 481-201	CPEN_V	481		201	Economic Analysis of Engineering Projects	W2	Time-money relationships; economic analysis of alternatives including the effects of interest rates, inflation, depreciation, taxation and uncertainty; cost estimation and budgeting; financial analysis of engineering operations. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
CPEN_V 491-F_001	CPEN_V	491	F	F_001	Computer Engineering Capstone Design Project	W1-2	Design, analysis, and implementation of solutions in response to a real-world computer engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: All of CPEN 331, CPSC 320 and one of CPEN 311, CPEN 322; and one of CPEN 291, CPEN 391.	In Person Learning	Arranged	Arranged
CPEN_V 491-F_002	CPEN_V	491	F	F_002	Computer Engineering Capstone Design Project	W1-2	Design, analysis, and implementation of solutions in response to a real-world computer engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: All of CPEN 331, CPSC 320 and one of CPEN 311, CPEN 322; and one of CPEN 291, CPEN 391.	In Person Learning	Arranged	Arranged
CPEN_V 491-F_L1A	CPEN_V	491	F	F_L1A	Computer Engineering Capstone Design Project	W1-2	Design, analysis, and implementation of solutions in response to a real-world computer engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: All of CPEN 331, CPSC 320 and one of CPEN 311, CPEN 322; and one of CPEN 291, CPEN 391.	In Person Learning	Fri	8:00 a.m. - 10:00 a.m.
CPEN_V 491-W_201	CPEN_V	491	W	W_201	Computer Engineering Capstone Design Project	W2	Design, analysis, and implementation of solutions in response to a real-world computer engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: All of CPEN 331, CPSC 320 and one of CPEN 311, CPEN 322; and one of CPEN 291, CPEN 391.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CPEN_V 491-W_202	CPEN_V	491	W	W_202	Computer Engineering Capstone Design Project	W2	Design, analysis, and implementation of solutions in response to a real-world computer engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: All of CPEN 331, CPSC 320 and one of CPEN 311, CPEN 322; and one of CPEN 291, CPEN 391.	In Person Learning	Arranged	Arranged
CPEN_V 491-W_L2A	CPEN_V	491	W	W_L2A	Computer Engineering Capstone Design Project	W2	Design, analysis, and implementation of solutions in response to a real-world computer engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. CPEN_V 502-101	CPEN_V	502		101	Architecture for Learning Systems	W1	Credit will only be given for one of CPEN 502 or EECE 592. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	6:00 p.m. - 9:00 p.m.
CPEN_V 511-201	CPEN_V	511		201	Advanced Computer Architecture	W2	Credit will only be given for one of CPEN 511 or EECE 527. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CPEN_V 512-101	CPEN_V	512		101	Parallel and Reconfigurable Computing	W1	Credit will only be given for one of CPEN 512 or EECE 528. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	1:00 p.m. - 2:30 p.m.
CPEN_V 514-109	CPEN_V	514		109	Quantum Information and Computation	W1	This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Arranged	Arranged
CPEN_V 514-201	CPEN_V	514		201	Quantum Information and Computation	W2	This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
CPEN_V 522-201	CPEN_V	522		201	Software Verification and Testing	W2	Credit will only be given for one of CPEN 522 or EECE 514. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CPEN_V 534-201	CPEN_V	534		201	Trade-offs in Designing Computer Systems	W2	This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CPEN_V 541-201	CPEN_V	541		201	Human Interface Technologies	W1	Credit will only be given for one of CPEN 541 or EECE 518. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	5:00 p.m. - 8:00 p.m.
CPEN_V 542-101	CPEN_V	542		101	Cybersecurity	W1	Credit will only be given for one of CPEN 542 or EECE 512. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPEN_V 542-201	CPEN_V	542		201	Cybersecurity	W2	Credit will only be given for one of CPEN 542 or EECE 512. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CPSC_V 100-101	CPSC_V	100		101	Computational Thinking	W1	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CPSC_V 100-201	CPSC_V	100		201	Computational Thinking	W2	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 100-L1A	CPSC_V	100		L1A	Computational Thinking	W1	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
CPSC_V 100-L1B	CPSC_V	100		L1B	Computational Thinking	W1	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
CPSC_V 100-L1C	CPSC_V	100		L1C	Computational Thinking	W1	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Tue	5:30 p.m. - 6:30 p.m.
CPSC_V 100-L1D	CPSC_V	100		L1D	Computational Thinking	W1	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Wed	10:00 a.m. - 11:00 a.m.
CPSC_V 100-L1E	CPSC_V	100		L1E	Computational Thinking	W1	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
CPSC_V 100-L1F	CPSC_V	100		L1F	Computational Thinking	W1	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Thu	2:00 p.m. - 3:00 p.m.
CPSC_V 100-L2A	CPSC_V	100		L2A	Computational Thinking	W2	Meaning and impact of computational thinking. Solving problems using computational thinking, testing, debugging. How computers work. No prior computing experience required. Not for students with existing credit for or exemption from CPSC 107, CPSC 110 or APSC 160. [3-1-0]	In Person Learning	Wed	9:00 a.m. - 10:00 a.m.

CPSC_V 103-T2T	CPSC_V	103	T2T	Introduction to Systematic Program Design	W2	Computation as a tool for systematic problem solving in non-computer-science disciplines. Introductory programming skills. Not for credit for students who have credit for, or exemption from, or are concurrently taking CPSC 110 or APSC 160. No programming experience expected. [3-0-1]	In Person Learning	Thu	6:00 p.m. - 7:00 p.m.
CPSC_V 103-T2U	CPSC_V	103	T2U	Introduction to Systematic Program Design	W2	Computation as a tool for systematic problem solving in non-computer-science disciplines. Introductory programming skills. Not for credit for students who have credit for, or exemption from, or are concurrently taking CPSC 110 or APSC 160. No programming experience expected. [3-0-1]	In Person Learning	Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 103-T2V	CPSC_V	103	T2V	Introduction to Systematic Program Design	W2	Computation as a tool for systematic problem solving in non-computer-science disciplines. Introductory programming skills. Not for credit for students who have credit for, or exemption from, or are concurrently taking CPSC 110 or APSC 160. No programming experience expected. [3-0-1]	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
CPSC_V 103-V01	CPSC_V	103	V01	Introduction to Systematic Program Design	W2	Computation as a tool for systematic problem solving in non-computer-science disciplines. Introductory programming skills. Not for credit for students who have credit for, or exemption from, or are concurrently taking CPSC 110 or APSC 160. No programming experience expected. [3-0-1]	In Person Learning	Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 103-VT1	CPSC_V	103	VT1	Introduction to Systematic Program Design	W2	Computation as a tool for systematic problem solving in non-computer-science disciplines. Introductory programming skills. Not for credit for students who have credit for, or exemption from, or are concurrently taking CPSC 110 or APSC 160. No programming experience expected. [3-0-1]	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
CPSC_V 103-VT2	CPSC_V	103	VT2	Introduction to Systematic Program Design	W2	Computation as a tool for systematic problem solving in non-computer-science disciplines. Introductory programming skills. Not for credit for students who have credit for, or exemption from, or are concurrently taking CPSC 110 or APSC 160. No programming experience expected. [3-0-1]	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
CPSC_V 103-VT3	CPSC_V	103	VT3	Introduction to Systematic Program Design	W2	Computation as a tool for systematic problem solving in non-computer-science disciplines. Introductory programming skills. Not for credit for students who have credit for, or exemption from, or are concurrently taking CPSC 110 or APSC 160. No programming experience expected. [3-0-1]	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
CPSC_V 107-207	CPSC_V	107	207	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPSC_V 107-L2A	CPSC_V	107	L2A	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Mon	9:00 a.m. - 11:00 a.m.
CPSC_V 107-L2B	CPSC_V	107	L2B	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
CPSC_V 107-L2C	CPSC_V	107	L2C	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
CPSC_V 107-L2D	CPSC_V	107	L2D	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Mon	3:00 p.m. - 5:00 p.m.
CPSC_V 107-L2E	CPSC_V	107	L2E	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
CPSC_V 107-L2F	CPSC_V	107	L2F	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Tue	5:00 p.m. - 7:00 p.m.
CPSC_V 107-L2G	CPSC_V	107	L2G	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Tue	3:00 p.m. - 5:00 p.m.
CPSC_V 107-L2H	CPSC_V	107	L2H	Systematic Program Design	W2	Fundamental computation and program structures. Continuing systematic program design from CPSC 103. [3-2-0] Prerequisite: CPSC 103.	In Person Learning	Mon	5:00 p.m. - 7:00 p.m.
CPSC_V 110-101	CPSC_V	110	101	Computation, Programs, and Programming	W1	Fundamental program and computation structures. Introductory programming skills. Computation as a tool for information processing, simulation and modelling, and interacting with the world. [3-3-0]	Hybrid Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CPSC_V 110-102	CPSC_V	110	102	Computation, Programs, and Programming	W1	Fundamental program and computation structures. Introductory programming skills. Computation as a tool for information processing, simulation and modelling, and interacting with the world. [3-3-0]	Hybrid Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CPSC_V 110-103	CPSC_V	110	103	Computation, Programs, and Programming	W1	Fundamental program and computation structures. Introductory programming skills. Computation as a tool for information processing, simulation and modelling, and interacting with the world. [3-3-0]	Hybrid Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 110-201	CPSC_V	110	201	Computation, Programs, and Programming	W2	Fundamental program and computation structures. Introductory programming skills. Computation as a tool for information processing, simulation and modelling, and interacting with the world. [3-3-0]	Hybrid Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CPSC_V 110-202	CPSC_V	110	202	Computation, Programs, and Programming	W2	Fundamental program and computation structures. Introductory programming skills. Computation as a tool for information processing, simulation and modelling, and interacting with the world. [3-3-0]	Hybrid Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 110-203	CPSC_V	110	203	Computation, Programs, and Programming	W2	Fundamental program and computation structures. Introductory programming skills. Computation as a tool for information processing, simulation and modelling, and interacting with the world. [3-3-0]	Hybrid Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CPSC_V 110-9CH	CPSC_V	110	9CH	Computation, Programs, and Programming	W1	Fundamental program and computation structures. Introductory programming skills. Computation as a tool for information processing, simulation and modelling, and interacting with the world. [3-3-0]	In Person Learning	Arranged	Arranged

CPSC_V 121-T2P	CPSC_V	121	T2P	Models of Computation	W2	Physical and mathematical structures of computation. Boolean algebra and combinations logic circuits; proof techniques; functions and sequential circuits; sets and relations; finite state machines; sequential instruction execution. [3-2-1] Prerequisite: Principles of Mathematics 12 or Pre-calculus 12. Corequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon	9:00 a.m. - 10:00 a.m.
CPSC_V 203-201	CPSC_V	203	201	Programming, Problem Solving, and Algorithms	W2	Analysis of increasingly complex algorithmic problems, using a modern programming language and a variety of approaches. Problem decomposition and abstraction guide explorations of topics from applied algorithms, for example Voronoi Diagrams, Markov Chains, Bin Packing, and Graph Search. Not for students with credit for, or currently enrolled in, CPSC 210 or CPEN 221. [3-0-1] Prerequisite: One of CPSC 103, CPSC 110, APSC 160, EOSC 211, MATH 210, PHYS 210, COMM 337.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CPSC_V 210-101	CPSC_V	210	101	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CPSC_V 210-102	CPSC_V	210	102	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CPSC_V 210-103	CPSC_V	210	103	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon Wed Fri	4:00 p.m. - 5:00 p.m.
CPSC_V 210-201	CPSC_V	210	201	Software Construction	W2	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CPSC_V 210-202	CPSC_V	210	202	Software Construction	W2	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CPSC_V 210-203	CPSC_V	210	203	Software Construction	W2	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 210-L1A	CPSC_V	210	L1A	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Thu	11:00 a.m. - 1:00 p.m.
CPSC_V 210-L1B	CPSC_V	210	L1B	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
CPSC_V 210-L1C	CPSC_V	210	L1C	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
CPSC_V 210-L1D	CPSC_V	210	L1D	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
CPSC_V 210-L1E	CPSC_V	210	L1E	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Wed	9:00 a.m. - 11:00 a.m.
CPSC_V 210-L1F	CPSC_V	210	L1F	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Wed	11:00 a.m. - 1:00 p.m.
CPSC_V 210-L1G	CPSC_V	210	L1G	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Fri	9:00 a.m. - 11:00 a.m.
CPSC_V 210-L1H	CPSC_V	210	L1H	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CPSC_V 210-L1J	CPSC_V	210	L1J	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Tue	3:00 p.m. - 5:00 p.m.
CPSC_V 210-L1K	CPSC_V	210	L1K	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
CPSC_V 210-L1L	CPSC_V	210	L1L	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
CPSC_V 210-L1M	CPSC_V	210	L1M	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Thu	1:00 p.m. - 3:00 p.m.
CPSC_V 210-L1N	CPSC_V	210	L1N	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
CPSC_V 210-L1P	CPSC_V	210	L1P	Software Construction	W1	Design, development, and analysis of robust software components. Topics such as software design, computational models, data structures, debugging, and testing. [3-2-0] Prerequisite: One of CPSC 107, CPSC 110.	In Person Learning	Thu	3:00 p.m. - 5:00 p.m.

CPSC_V 259-L1B	CPSC_V	259	L1B	Data Structures and Algorithms for Electrical Engineers	W1	Advanced procedural programming. Fundamental algorithms for sorting and searching. Data structures including lists, trees, and hash tables. Introduction to scripting languages and file input/output. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
CPSC_V 259-L1C	CPSC_V	259	L1C	Data Structures and Algorithms for Electrical Engineers	W1	Advanced procedural programming. Fundamental algorithms for sorting and searching. Data structures including lists, trees, and hash tables. Introduction to scripting languages and file input/output. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
CPSC_V 259-L1D	CPSC_V	259	L1D	Data Structures and Algorithms for Electrical Engineers	W1	Advanced procedural programming. Fundamental algorithms for sorting and searching. Data structures including lists, trees, and hash tables. Introduction to scripting languages and file input/output. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Thu	1:00 p.m. - 3:00 p.m.
CPSC_V 259-L1E	CPSC_V	259	L1E	Data Structures and Algorithms for Electrical Engineers	W1	Advanced procedural programming. Fundamental algorithms for sorting and searching. Data structures including lists, trees, and hash tables. Introduction to scripting languages and file input/output. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Mon	3:00 p.m. - 5:00 p.m.
CPSC_V 259-L1F	CPSC_V	259	L1F	Data Structures and Algorithms for Electrical Engineers	W1	Advanced procedural programming. Fundamental algorithms for sorting and searching. Data structures including lists, trees, and hash tables. Introduction to scripting languages and file input/output. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Fri	9:00 a.m. - 11:00 a.m.
CPSC_V 259-L1G	CPSC_V	259	L1G	Data Structures and Algorithms for Electrical Engineers	W1	Advanced procedural programming. Fundamental algorithms for sorting and searching. Data structures including lists, trees, and hash tables. Introduction to scripting languages and file input/output. [3-2-0] Prerequisite: APSC 160.	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
CPSC_V 298-611	CPSC_V	298	611	Co-operative Work Placement I	W2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during Winter Session of second year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 298-612	CPSC_V	298	612	Co-operative Work Placement I	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during Winter Session of second year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 298-CP2	CPSC_V	298	CP2	Co-operative Work Placement I	W1-2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during Winter Session of second year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 299-611	CPSC_V	299	611	Co-operative Work Placement II	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the second year. Technical report required. Restricted to students admitted to the Co-operative Education. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CPSC298]	In Person Learning	Arranged	Arranged
CPSC_V 299-612	CPSC_V	299	612	Co-operative Work Placement II	W2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the second year. Technical report required. Restricted to students admitted to the Co-operative Education. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CPSC298]	In Person Learning	Arranged	Arranged
CPSC_V 299-CP1	CPSC_V	299	CP1	Co-operative Work Placement II	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the second year. Technical report required. Restricted to students admitted to the Co-operative Education. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CPSC298]	In Person Learning	Arranged	Arranged
CPSC_V 299-CP2	CPSC_V	299	CP2	Co-operative Work Placement II	W1-2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the second year. Technical report required. Restricted to students admitted to the Co-operative Education. This course is not eligible for Credit/D/Fail grading. Prerequisite: [CPSC298]	In Person Learning	Arranged	Arranged
CPSC_V 302-101	CPSC_V	302	101	Numerical Computation for Algebraic Problems	W1	Numerical techniques for basic mathematical processes involving no discretization, and their analysis. Solution of linear systems, including analysis of round-off errors; norms and condition number; introduction to iterative techniques in linear algebra, including eigenvalue problems; solution to nonlinear equations. [3-0-0] Prerequisite: One of CPSC 103, CPSC 110, CPEN 221, EOCS 211, PHYS 210 and one of MATH 101, MATH 103, MATH 105, MATH 121, SCIE 001 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPSC_V 303-201	CPSC_V	303	201	Numerical Approximation and Discretization	W2	Numerical techniques for basic mathematical processes involving discretization, and their analysis. Interpolation and approximation, including splines and least squares data fitting; numerical differentiation and integration; introduction to numerical initial value ordinary differential equations. [3-0-0] Prerequisite: One of CPSC 103, CPSC 110, CPEN 221, EOCS 211, PHYS 210 and one of MATH 101, MATH 103, MATH 105, MATH 121, SCIE 001 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CPSC_V 304-101	CPSC_V	304	101	Introduction to Relational Databases	W1	Overview of database systems, ER models, logical database design and normalization, formal relational query languages, SQL and other commercial languages, data warehouses, special topics. [3-0-1] Prerequisite: CPSC 221.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CPSC_V 304-103	CPSC_V	304	103	Introduction to Relational Databases	W1	Overview of database systems, ER models, logical database design and normalization, formal relational query languages, SQL and other commercial languages, data warehouses, special topics. [3-0-1] Prerequisite: CPSC 221.	In Person Learning	Wed Fri	3:30 p.m. - 5:00 p.m.
CPSC_V 304-201	CPSC_V	304	201	Introduction to Relational Databases	W2	Overview of database systems, ER models, logical database design and normalization, formal relational query languages, SQL and other commercial languages, data warehouses, special topics. [3-0-1] Prerequisite: CPSC 221.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CPSC_V 304-202	CPSC_V	304	202	Introduction to Relational Databases	W2	Overview of database systems, ER models, logical database design and normalization, formal relational query languages, SQL and other commercial languages, data warehouses, special topics. [3-0-1] Prerequisite: CPSC 221.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CPSC_V 304-203	CPSC_V	304	203	Introduction to Relational Databases	W2	Overview of database systems, ER models, logical database design and normalization, formal relational query languages, SQL and other commercial languages, data warehouses, special topics. [3-0-1] Prerequisite: CPSC 221.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
CPSC_V 304-T1A	CPSC_V	304	T1A	Introduction to Relational Databases	W1	Overview of database systems, ER models, logical database design and normalization, formal relational query languages, SQL and other commercial languages, data warehouses, special topics. [3-0-1] Prerequisite: CPSC 221.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.

CPSC_V 310-L1R	CPSC_V	310	L1R	Introduction to Software Engineering	W1	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	9:00 a.m. - 11:00 a.m.
CPSC_V 310-L1S	CPSC_V	310	L1S	Introduction to Software Engineering	W1	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
CPSC_V 310-L2A	CPSC_V	310	L2A	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
CPSC_V 310-L2B	CPSC_V	310	L2B	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	3:00 p.m. - 5:00 p.m.
CPSC_V 310-L2C	CPSC_V	310	L2C	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.
CPSC_V 310-L2D	CPSC_V	310	L2D	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CPSC_V 310-L2E	CPSC_V	310	L2E	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
CPSC_V 310-L2F	CPSC_V	310	L2F	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	5:00 p.m. - 7:00 p.m.
CPSC_V 310-L2G	CPSC_V	310	L2G	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Mon	9:00 a.m. - 11:00 a.m.
CPSC_V 310-L2H	CPSC_V	310	L2H	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Mon	11:00 a.m. - 1:00 p.m.
CPSC_V 310-L2J	CPSC_V	310	L2J	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
CPSC_V 310-L2K	CPSC_V	310	L2K	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
CPSC_V 310-L2M	CPSC_V	310	L2M	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
CPSC_V 310-L2N	CPSC_V	310	L2N	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	11:00 a.m. - 1:00 p.m.
CPSC_V 310-L2P	CPSC_V	310	L2P	Introduction to Software Engineering	W2	Specification, design, validation, evolution and construction of modern software systems, within the context of socially and professionally relevant domains such as ethics, intellectual property, and information security. [3-2-0] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CPSC_V 311-101	CPSC_V	311	101	Definition of Programming Languages	W1	Comparative study of advanced programming language features. Statement types, data types, variable binding, parameter passing mechanisms. Methods for syntactic and semantic description of programming languages. [3-0-1] Prerequisite: CPSC 210.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CPSC_V 311-T1A	CPSC_V	311	T1A	Definition of Programming Languages	W1	Comparative study of advanced programming language features. Statement types, data types, variable binding, parameter passing mechanisms. Methods for syntactic and semantic description of programming languages. [3-0-1] Prerequisite: CPSC 210.	In Person Learning	Mon	2:00 p.m. - 3:00 p.m.
CPSC_V 311-T1B	CPSC_V	311	T1B	Definition of Programming Languages	W1	Comparative study of advanced programming language features. Statement types, data types, variable binding, parameter passing mechanisms. Methods for syntactic and semantic description of programming languages. [3-0-1] Prerequisite: CPSC 210.	In Person Learning	Mon	6:00 p.m. - 7:00 p.m.
CPSC_V 311-T1C	CPSC_V	311	T1C	Definition of Programming Languages	W1	Comparative study of advanced programming language features. Statement types, data types, variable binding, parameter passing mechanisms. Methods for syntactic and semantic description of programming languages. [3-0-1] Prerequisite: CPSC 210.	In Person Learning	Tue	3:00 p.m. - 4:00 p.m.
CPSC_V 311-T1D	CPSC_V	311	T1D	Definition of Programming Languages	W1	Comparative study of advanced programming language features. Statement types, data types, variable binding, parameter passing mechanisms. Methods for syntactic and semantic description of programming languages. [3-0-1] Prerequisite: CPSC 210.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
CPSC_V 311-T1E	CPSC_V	311	T1E	Definition of Programming Languages	W1	Comparative study of advanced programming language features. Statement types, data types, variable binding, parameter passing mechanisms. Methods for syntactic and semantic description of programming languages. [3-0-1] Prerequisite: CPSC 210.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
CPSC_V 312-101	CPSC_V	312	101	Functional and Logic Programming	W1	Principles of symbolic computing, using languages based upon first-order logic and the lambda calculus. Algorithms for implementing such languages. Applications to artificial intelligence and knowledge representation. [3-0-0] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 312-201	CPSC_V	312	201	Functional and Logic Programming	W2	Principles of symbolic computing, using languages based upon first-order logic and the lambda calculus. Algorithms for implementing such languages. Applications to artificial intelligence and knowledge representation. [3-0-0] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged

CPSC_V 313-T2I	CPSC_V	313	T2I	Computer Hardware and Operating Systems	W1	Instruction sets, pipelining, code optimization, caching, virtual memory management, dynamically linked libraries, exception processing, execution time of programs. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Arranged	Arranged
CPSC_V 313-T2K	CPSC_V	313	T2K	Computer Hardware and Operating Systems	W2	Instruction sets, pipelining, code optimization, caching, virtual memory management, dynamically linked libraries, exception processing, execution time of programs. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
CPSC_V 313-T2L	CPSC_V	313	T2L	Computer Hardware and Operating Systems	W2	Instruction sets, pipelining, code optimization, caching, virtual memory management, dynamically linked libraries, exception processing, execution time of programs. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Tue	10:00 a.m. - 11:00 a.m.
CPSC_V 314-101	CPSC_V	314	101	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CPSC_V 314-201	CPSC_V	314	201	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CPSC_V 314-L1A	CPSC_V	314	L1A	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	9:00 a.m. - 10:00 a.m.
CPSC_V 314-L1B	CPSC_V	314	L1B	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	2:00 p.m. - 3:00 p.m.
CPSC_V 314-L1C	CPSC_V	314	L1C	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
CPSC_V 314-L1D	CPSC_V	314	L1D	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
CPSC_V 314-L1E	CPSC_V	314	L1E	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
CPSC_V 314-L1F	CPSC_V	314	L1F	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Thu	2:00 p.m. - 3:00 p.m.
CPSC_V 314-L1G	CPSC_V	314	L1G	Computer Graphics	W1	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Tue	2:00 p.m. - 3:00 p.m.
CPSC_V 314-L2A	CPSC_V	314	L2A	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Thu	2:30 p.m. - 3:30 p.m.
CPSC_V 314-L2B	CPSC_V	314	L2B	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	3:00 p.m. - 4:00 p.m.
CPSC_V 314-L2C	CPSC_V	314	L2C	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
CPSC_V 314-L2D	CPSC_V	314	L2D	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Thu	3:30 p.m. - 4:30 p.m.
CPSC_V 314-L2E	CPSC_V	314	L2E	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
CPSC_V 314-L2F	CPSC_V	314	L2F	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.
CPSC_V 314-L2G	CPSC_V	314	L2G	Computer Graphics	W2	Human vision and colour; geometric transformations; algorithms for 2-D and 3-D graphics; hardware and system architectures; shading and lighting; animation. [3-1-0] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Tue	11:00 a.m. - 12:00 p.m.
CPSC_V 317-101	CPSC_V	317	101	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CPSC_V 317-102	CPSC_V	317	102	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 317-201	CPSC_V	317	201	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 317-202	CPSC_V	317	202	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.

CPSC_V 317-T1A	CPSC_V	317	T1A	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
CPSC_V 317-T1B	CPSC_V	317	T1B	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
CPSC_V 317-T1C	CPSC_V	317	T1C	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
CPSC_V 317-T1D	CPSC_V	317	T1D	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CPSC_V 317-T1E	CPSC_V	317	T1E	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	1:30 p.m. - 2:30 p.m.
CPSC_V 317-T1F	CPSC_V	317	T1F	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	3:30 p.m. - 4:30 p.m.
CPSC_V 317-T1G	CPSC_V	317	T1G	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
CPSC_V 317-T1H	CPSC_V	317	T1H	Introduction to Computer Networking	W1	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	12:00 p.m. - 1:00 p.m.
CPSC_V 317-T2A	CPSC_V	317	T2A	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	4:00 p.m. - 5:00 p.m.
CPSC_V 317-T2B	CPSC_V	317	T2B	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
CPSC_V 317-T2C	CPSC_V	317	T2C	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
CPSC_V 317-T2D	CPSC_V	317	T2D	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	2:00 p.m. - 3:00 p.m.
CPSC_V 317-T2E	CPSC_V	317	T2E	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
CPSC_V 317-T2F	CPSC_V	317	T2F	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
CPSC_V 317-T2G	CPSC_V	317	T2G	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
CPSC_V 317-T2H	CPSC_V	317	T2H	Introduction to Computer Networking	W2	Computer networking, basic communication protocols, network infrastructure and routing. Common application-level protocols and principles associated with developing distributed applications. [3-0-1] Prerequisite: All of CPSC 213, CPSC 221.	In Person Learning	Wed	6:00 p.m. - 7:00 p.m.
CPSC_V 319-201	CPSC_V	319	201	Software Engineering Project	W2	The design, implementation, and test of a large software system, using a team approach. [3-0-2] Prerequisite: CPSC 310.	In Person Learning	Mon Wed	5:30 p.m. - 7:00 p.m.
CPSC_V 320-101	CPSC_V	320	101	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 320-102	CPSC_V	320	102	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
CPSC_V 320-201	CPSC_V	320	201	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
CPSC_V 320-202	CPSC_V	320	202	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon Wed Fri	4:00 p.m. - 5:00 p.m.

CPSC_V 320-203	CPSC_V	320	203	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPSC_V 320-T1A	CPSC_V	320	T1A	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Tue	5:00 p.m. - 6:00 p.m.
CPSC_V 320-T1B	CPSC_V	320	T1B	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon	12:00 p.m. - 1:00 p.m.
CPSC_V 320-T1C	CPSC_V	320	T1C	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Tue	3:30 p.m. - 4:30 p.m.
CPSC_V 320-T1E	CPSC_V	320	T1E	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
CPSC_V 320-T1F	CPSC_V	320	T1F	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
CPSC_V 320-T1G	CPSC_V	320	T1G	Intermediate Algorithm Design and Analysis	W1	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
CPSC_V 320-T2A	CPSC_V	320	T2A	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Mon	5:00 p.m. - 6:00 p.m.
CPSC_V 320-T2B	CPSC_V	320	T2B	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
CPSC_V 320-T2C	CPSC_V	320	T2C	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Tue	9:00 a.m. - 10:00 a.m.
CPSC_V 320-T2D	CPSC_V	320	T2D	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
CPSC_V 320-T2E	CPSC_V	320	T2E	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Tue	11:00 a.m. - 12:00 p.m.
CPSC_V 320-T2F	CPSC_V	320	T2F	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Thu	10:00 a.m. - 11:00 a.m.
CPSC_V 320-T2P	CPSC_V	320	T2P	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Tue	5:00 p.m. - 6:00 p.m.
CPSC_V 320-T2Q	CPSC_V	320	T2Q	Intermediate Algorithm Design and Analysis	W2	Systematic study of basic concepts and techniques in the design and analysis of algorithms, illustrated from various problem areas. Topics include: models of computation; choice of data structures; graph-theoretic, algebraic, and text processing algorithms. [3-0-1] Prerequisite: CPSC 221. and at least 3 credits from COMM 291, BIOL 300, MATH or STAT at 200 level or above.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
CPSC_V 322-101	CPSC_V	322	101	Introduction to Artificial Intelligence	W1	Problem-solving and planning; state/action models and graph searching. Natural language understanding Computational vision. Applications of artificial intelligence. [3-0-0] Prerequisite: CPSC 221.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 322-102	CPSC_V	322	102	Introduction to Artificial Intelligence	W1	Problem-solving and planning; state/action models and graph searching. Natural language understanding Computational vision. Applications of artificial intelligence. [3-0-0] Prerequisite: CPSC 221.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CPSC_V 322-201	CPSC_V	322	201	Introduction to Artificial Intelligence	W2	Problem-solving and planning; state/action models and graph searching. Natural language understanding Computational vision. Applications of artificial intelligence. [3-0-0] Prerequisite: CPSC 221.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CPSC_V 330-101	CPSC_V	330	101	Applied Machine Learning	W1	Application of machine learning tools, with an emphasis on solving practical problems. Data cleaning, feature extraction, supervised and unsupervised machine learning, reproducible workflows, and communicating results. [3-0-1] Prerequisite: Either (a) one of CPSC 203, CPSC 210, CPEN 221 or (b) MATH 210 and one of CPSC 107, CPSC 110.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.

CPSC_V 344-T1A	CPSC_V	344	T1A	Introduction to Human Computer Interaction Methods	W1	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Thu	10:00 a.m. - 12:00 p.m.
CPSC_V 344-T1B	CPSC_V	344	T1B	Introduction to Human Computer Interaction Methods	W1	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Thu	4:00 p.m. - 6:00 p.m.
CPSC_V 344-T1C	CPSC_V	344	T1C	Introduction to Human Computer Interaction Methods	W1	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Thu	6:00 p.m. - 8:00 p.m.
CPSC_V 344-T1D	CPSC_V	344	T1D	Introduction to Human Computer Interaction Methods	W1	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Fri	1:00 p.m. - 3:00 p.m.
CPSC_V 344-T1E	CPSC_V	344	T1E	Introduction to Human Computer Interaction Methods	W1	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Fri	11:00 a.m. - 1:00 p.m.
CPSC_V 344-T1F	CPSC_V	344	T1F	Introduction to Human Computer Interaction Methods	W1	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
CPSC_V 344-T1G	CPSC_V	344	T1G	Introduction to Human Computer Interaction Methods	W1	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Fri	5:00 p.m. - 7:00 p.m.
CPSC_V 344-T2A	CPSC_V	344	T2A	Introduction to Human Computer Interaction Methods	W2	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Thu	10:00 a.m. - 12:00 p.m.
CPSC_V 344-T2B	CPSC_V	344	T2B	Introduction to Human Computer Interaction Methods	W2	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Fri	12:00 p.m. - 2:00 p.m.
CPSC_V 344-T2C	CPSC_V	344	T2C	Introduction to Human Computer Interaction Methods	W2	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Thu	6:00 p.m. - 8:00 p.m.
CPSC_V 344-T2D	CPSC_V	344	T2D	Introduction to Human Computer Interaction Methods	W2	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Thu	12:00 p.m. - 2:00 p.m.
CPSC_V 344-T2E	CPSC_V	344	T2E	Introduction to Human Computer Interaction Methods	W2	Basic tools and techniques, teaching a systematic approach to interface design, task analysis, analytic and empirical evaluation methods. [2-2-2] Prerequisite: One of CPSC 210, CPEN 221.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
CPSC_V 349-001	CPSC_V	349	001	Honours Research Seminar	W1	Students will attend a series of research seminars presented by faculty members, produce a thesis proposal, and choose their honours thesis supervisor. Available to Honours students. Majors students with satisfactory standing may also be permitted to enrol. [1-0-0]	In Person Learning	Thu	3:30 p.m. - 5:00 p.m.
CPSC_V 368-101	CPSC_V	368	101	Databases in Data Science	W1	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
CPSC_V 368-201	CPSC_V	368	201	Databases in Data Science	W2	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 368-T1A	CPSC_V	368	T1A	Databases in Data Science	W1	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
CPSC_V 368-T1B	CPSC_V	368	T1B	Databases in Data Science	W1	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
CPSC_V 368-T1C	CPSC_V	368	T1C	Databases in Data Science	W1	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
CPSC_V 368-T1D	CPSC_V	368	T1D	Databases in Data Science	W1	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
CPSC_V 368-T1E	CPSC_V	368	T1E	Databases in Data Science	W1	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
CPSC_V 368-T2A	CPSC_V	368	T2A	Databases in Data Science	W2	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
CPSC_V 368-T2B	CPSC_V	368	T2B	Databases in Data Science	W2	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
CPSC_V 368-T2C	CPSC_V	368	T2C	Databases in Data Science	W2	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.

CPSC_V 368-T2D	CPSC_V	368	T2D	Databases in Data Science	W2	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
CPSC_V 368-T2E	CPSC_V	368	T2E	Databases in Data Science	W2	Overview of relational and non-relational database systems, role and usage of a database when querying data, data modelling, query languages, and query optimization. [3-0-1] Prerequisite: One of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
CPSC_V 398-601	CPSC_V	398	601	Co-operative Work Placement III	W2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 398-611	CPSC_V	398	611	Co-operative Work Placement III	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 398-CP1	CPSC_V	398	CP1	Co-operative Work Placement III	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 398-CP2	CPSC_V	398	CP2	Co-operative Work Placement III	W1-2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 399-610	CPSC_V	399	610	Co-operative Work Placement IV	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the fall term of the fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 399-611	CPSC_V	399	611	Co-operative Work Placement IV	W2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the fall term of the fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 399-CP1	CPSC_V	399	CP1	Co-operative Work Placement IV	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the fall term of the fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 399-CP2	CPSC_V	399	CP2	Co-operative Work Placement IV	W1-2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the fall term of the fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 402-101	CPSC_V	402	101	Numerical Linear Algebra	W1	Investigation of the practical techniques of computational linear algebra. Orthogonal transformations and their application to the solution of linear equations, the eigenproblem, and linear least squares. Complete solution of the symmetric eigenproblem, including bisection and the QR method. Refinements of these techniques for sparse matrices. [3-0-0] Prerequisite: One of CPSC 302, CPSC 303, MATH 307.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPSC_V 404-101	CPSC_V	404	101	Advanced Relational Databases	W1	Physical database design, indexing, external mergesort, relational query processing and optimization, transaction processing, concurrency control, crash recovery, special topics. [3-0-0] Prerequisite: CPSC 304 and one of CPSC 213, CPSC 261, CPEN 212.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CPSC_V 404-201	CPSC_V	404	201	Advanced Relational Databases	W2	Physical database design, indexing, external mergesort, relational query processing and optimization, transaction processing, concurrency control, crash recovery, special topics. [3-0-0] Prerequisite: CPSC 304 and one of CPSC 213, CPSC 261, CPEN 212.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CPSC_V 404-202	CPSC_V	404	202	Advanced Relational Databases	W2	Physical database design, indexing, external mergesort, relational query processing and optimization, transaction processing, concurrency control, crash recovery, special topics. [3-0-0] Prerequisite: CPSC 304 and one of CPSC 213, CPSC 261, CPEN 212.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 406-201	CPSC_V	406	201	Computational Optimization	W2	Formulation and analysis of algorithms for continuous and discrete optimization problems; linear, nonlinear, network, dynamic, and integer optimization; large-scale problems; software packages and their implementation; duality theory and sensitivity. [3-0] Prerequisite: One of CPSC 302, CPSC 303, MATH 307.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CPSC_V 410-201	CPSC_V	410	201	Advanced Software Engineering	W2	Specification, design, construction and validation of multi-version software systems. [3-0-0] Prerequisite: Either (a) CPSC 310 or (b) all of CPEN 321, CPEN 331.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
CPSC_V 411-201	CPSC_V	411	201	Introduction to Compiler Construction	W2	A practical introduction to lexical analysis, syntactic analysis, type-checking, code generation and optimization. This will be used to design and implement a compiler for a small language. [3-0-0] Prerequisite: All of CPSC 213, CPSC 221, CPSC 311.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 416-101	CPSC_V	416	101	Distributed Systems	W1	Concepts and design of distributed systems. Communication architecture and models for interprocess communication. Process migration, naming, distributed file systems, fault tolerance, and concurrency control. [3-0-0] Prerequisite: One of CPSC 313, CPEN 331 and one of CPSC 317, ELEC 331.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CPSC_V 416-201	CPSC_V	416	201	Distributed Systems	W2	Concepts and design of distributed systems. Communication architecture and models for interprocess communication. Process migration, naming, distributed file systems, fault tolerance, and concurrency control. [3-0-0] Prerequisite: One of CPSC 313, CPEN 331 and one of CPSC 317, ELEC 331.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
CPSC_V 416-202	CPSC_V	416	202	Distributed Systems	W2	Concepts and design of distributed systems. Communication architecture and models for interprocess communication. Process migration, naming, distributed file systems, fault tolerance, and concurrency control. [3-0-0] Prerequisite: One of CPSC 313, CPEN 331 and one of CPSC 317, ELEC 331.	In Person Learning	Tue Thu	11:30 a.m. - 1:00 p.m.

CPSC_V 417-101	CPSC_V	417	101	Computer Networking	W2	Network protocols and architecture including internetworking, the Internet, layered communication protocols, routing, flow and congestion control, network performance, wired and wireless data communication. [3-0] Prerequisite: All of CPSC 313, CPSC 317 and one of STAT 200, STAT 201, STAT 241, STAT 251.	In Person Learning	Arranged	Arranged
CPSC_V 417-201	CPSC_V	417	201	Computer Networking	W2	Network protocols and architecture including internetworking, the Internet, layered communication protocols, routing, flow and congestion control, network performance, wired and wireless data communication. [3-0] Prerequisite: All of CPSC 313, CPSC 317 and one of STAT 200, STAT 201, STAT 241, STAT 251.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
CPSC_V 418-101	CPSC_V	418	101	Parallel Computation	W1	Algorithms, architectures, and programming paradigms for parallel computation. Shared memory, message passing, and data parallel architectures and programming models. Parallel algorithms including reduce, scan, and sorting networks. Reasoning about the correctness of parallel programs. Performance analysis and measurement for parallel programs. [3-0-0] Prerequisite: CPSC 320 and one of CPSC 261, CPSC 313, CPEN 212, CPEN 411.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPSC_V 418-201	CPSC_V	418	201	Parallel Computation	W2	Algorithms, architectures, and programming paradigms for parallel computation. Shared memory, message passing, and data parallel architectures and programming models. Parallel algorithms including reduce, scan, and sorting networks. Reasoning about the correctness of parallel programs. Performance analysis and measurement for parallel programs. [3-0-0] Prerequisite: CPSC 320 and one of CPSC 261, CPSC 313, CPEN 212, CPEN 411.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 420-201	CPSC_V	420	201	Advanced Algorithms Design and Analysis	W2	The study of advanced topics in the design and analysis of algorithms and associated data structures. Topics include algorithms for graph-theoretic; algebraic and geometric problems; algorithms on nonsequential models; complexity issues; approximation algorithms. [3-0-0] Prerequisite: [CPSC320]	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
CPSC_V 421-101	CPSC_V	421	101	Introduction to Theory of Computing	W1	Characterizations of computability (using machines, languages and functions). Universality, equivalence and Church's thesis. Unsolvable problems. Restricted models of computation. Finite automata, grammars and formal languages. [3-0-0] Prerequisite: One of CPSC 320 or MATH 220 or MATH 226.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
CPSC_V 422-101	CPSC_V	422	101	Intelligent Systems	W1	Principles and techniques underlying the design, implementation and evaluation of intelligent computational systems. Applications of artificial intelligence to natural language understanding, image understanding and computer-based expert and advisor systems. Advanced symbolic programming methodology. [3-0-0] Prerequisite: CPSC 322.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CPSC_V 422-201	CPSC_V	422	201	Intelligent Systems	W2	Principles and techniques underlying the design, implementation and evaluation of intelligent computational systems. Applications of artificial intelligence to natural language understanding, image understanding and computer-based expert and advisor systems. Advanced symbolic programming methodology. [3-0-0] Prerequisite: CPSC 322.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CPSC_V 424-201	CPSC_V	424	201	Geometric Modelling	W2	Digital representation of curves and surfaces, including splines, subdivision surfaces and meshes. Principles, algorithms and mathematical foundations for geometry representation in computer graphics, computer vision, fabrication, CAD/CAM, and medical imaging. Algorithms for acquisition, creation, representation, and processing of 3D shapes. [3-0-1] Prerequisite: One of MATH 152, MATH 221, MATH 223 and one of MATH 200, MATH 217, MATH 226, MATH 253.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
CPSC_V 424-T2A	CPSC_V	424	T2A	Geometric Modelling	W2	Digital representation of curves and surfaces, including splines, subdivision surfaces and meshes. Principles, algorithms and mathematical foundations for geometry representation in computer graphics, computer vision, fabrication, CAD/CAM, and medical imaging. Algorithms for acquisition, creation, representation, and processing of 3D shapes. [3-0-1] Prerequisite: One of MATH 152, MATH 221, MATH 223 and one of MATH 200, MATH 217, MATH 226, MATH 253.	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
CPSC_V 424-T2B	CPSC_V	424	T2B	Geometric Modelling	W2	Digital representation of curves and surfaces, including splines, subdivision surfaces and meshes. Principles, algorithms and mathematical foundations for geometry representation in computer graphics, computer vision, fabrication, CAD/CAM, and medical imaging. Algorithms for acquisition, creation, representation, and processing of 3D shapes. [3-0-1] Prerequisite: One of MATH 152, MATH 221, MATH 223 and one of MATH 200, MATH 217, MATH 226, MATH 253.	In Person Learning	Mon	2:00 p.m. - 3:00 p.m.
CPSC_V 424-T2C	CPSC_V	424	T2C	Geometric Modelling	W2	Digital representation of curves and surfaces, including splines, subdivision surfaces and meshes. Principles, algorithms and mathematical foundations for geometry representation in computer graphics, computer vision, fabrication, CAD/CAM, and medical imaging. Algorithms for acquisition, creation, representation, and processing of 3D shapes. [3-0-1] Prerequisite: One of MATH 152, MATH 221, MATH 223 and one of MATH 200, MATH 217, MATH 226, MATH 253.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
CPSC_V 425-101	CPSC_V	425	101	Computer Vision	W1	Introduction to the processing and interpretation of images. Image sensing, sampling, and filtering. Algorithms for colour analysis, texture description, stereo imaging, motion interpretation, 3D shape recovery, and recognition. [3-0-0] Prerequisite: All of CPSC 221, MATH 200, MATH 221.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CPSC_V 425-102	CPSC_V	425	102	Computer Vision	W1	Introduction to the processing and interpretation of images. Image sensing, sampling, and filtering. Algorithms for colour analysis, texture description, stereo imaging, motion interpretation, 3D shape recovery, and recognition. [3-0-0] Prerequisite: All of CPSC 221, MATH 200, MATH 221.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CPSC_V 425-201	CPSC_V	425	201	Computer Vision	W2	Introduction to the processing and interpretation of images. Image sensing, sampling, and filtering. Algorithms for colour analysis, texture description, stereo imaging, motion interpretation, 3D shape recovery, and recognition. [3-0-0] Prerequisite: All of CPSC 221, MATH 200, MATH 221.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CPSC_V 425-202	CPSC_V	425	202	Computer Vision	W2	Introduction to the processing and interpretation of images. Image sensing, sampling, and filtering. Algorithms for colour analysis, texture description, stereo imaging, motion interpretation, 3D shape recovery, and recognition. [3-0-0] Prerequisite: All of CPSC 221, MATH 200, MATH 221.	In Person Learning	Tue	5:00 p.m. - 8:00 p.m.
CPSC_V 426-201	CPSC_V	426	201	Computer Animation	W2	Motion in computer graphics for characters and their environments. Keyframing, inverse kinematics, particle systems, rigid body dynamics, contact and collision, controller-based active motion, motion capture. [3-0-0] Prerequisite: CPSC 314.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
CPSC_V 427-101	CPSC_V	427	101	Video Game Programming	W1	Video game programming techniques and technologies, including rendering, animation, interaction, game AI, real-time software development for games; start-to-finish simple video-game design and implementation. [3-0-1] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	3:00 p.m. - 4:00 p.m.
CPSC_V 427-201	CPSC_V	427	201	Video Game Programming	W2	Video game programming techniques and technologies, including rendering, animation, interaction, game AI, real-time software development for games; start-to-finish simple video-game design and implementation. [3-0-1] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Mon	3:00 p.m. - 5:00 p.m.
CPSC_V 427-T1A	CPSC_V	427	T1A	Video Game Programming	W1	Video game programming techniques and technologies, including rendering, animation, interaction, game AI, real-time software development for games; start-to-finish simple video-game design and implementation. [3-0-1] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.

CPSC_V 427-T1B	CPSC_V	427		T1B	Video Game Programming	W1	Video game programming techniques and technologies, including rendering, animation, interaction, game AI, real-time software development for games; start-to-finish simple video-game design and implementation. [3-0-1] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
CPSC_V 427-T2A	CPSC_V	427		T2A	Video Game Programming	W2	Video game programming techniques and technologies, including rendering, animation, interaction, game AI, real-time software development for games; start-to-finish simple video-game design and implementation. [3-0-1] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
CPSC_V 427-T2B	CPSC_V	427		T2B	Video Game Programming	W2	Video game programming techniques and technologies, including rendering, animation, interaction, game AI, real-time software development for games; start-to-finish simple video-game design and implementation. [3-0-1] Prerequisite: CPSC 221 and one of MATH 200, MATH 217, MATH 226, MATH 253 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
CPSC_V 430-101	CPSC_V	430		101	Computers and Society	W1	Impact of computer technology on society; historical perspectives; social and economic consequences of large-scale information processing systems and automatic control; legal and ethical problems in computer applications. Computers and the individual: machine versus human capabilities, fact and fancy; problematic interface between man and machine. [3-0-0] Prerequisite: 3 credits of Computer Science and at least third-year standing.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CPSC_V 430-102	CPSC_V	430		102	Computers and Society	W1	Impact of computer technology on society; historical perspectives; social and economic consequences of large-scale information processing systems and automatic control; legal and ethical problems in computer applications. Computers and the individual: machine versus human capabilities, fact and fancy; problematic interface between man and machine. [3-0-0] Prerequisite: 3 credits of Computer Science and at least third-year standing.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
CPSC_V 430-201	CPSC_V	430		201	Computers and Society	W2	Impact of computer technology on society; historical perspectives; social and economic consequences of large-scale information processing systems and automatic control; legal and ethical problems in computer applications. Computers and the individual: machine versus human capabilities, fact and fancy; problematic interface between man and machine. [3-0-0] Prerequisite: 3 credits of Computer Science and at least third-year standing.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
CPSC_V 436-A_101	CPSC_V	436	A	A_101	Topics in Computer Science	W1	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Tue Thu	9:00 a.m. - 11:00 a.m.
CPSC_V 436-C_101	CPSC_V	436	C	C_101	Topics in Computer Science	W1	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
CPSC_V 436-C_201	CPSC_V	436	C	C_201	Topics in Computer Science	W2	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
CPSC_V 436-N_101	CPSC_V	436	N	N_101	Topics in Computer Science	W1	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
CPSC_V 436-Q_101	CPSC_V	436	Q	Q_101	Topics in Computer Science	W1	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
CPSC_V 436-R_101	CPSC_V	436	R	R_101	Topics in Computer Science	W1	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Arranged	Arranged
CPSC_V 436-R_201	CPSC_V	436	R	R_201	Topics in Computer Science	W2	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
CPSC_V 436-S_201	CPSC_V	436	S	S_201	Topics in Computer Science	W2	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Wed Fri	10:30 a.m. - 12:00 p.m.
CPSC_V 436-V_201	CPSC_V	436	V	V_201	Topics in Computer Science	W2	Selected topics in a specific area within Computer Science. May be taken more than once for credit with permission of the department. Prerequisite: Third-year standing in a Computer Science or Computer Engineering specialization, and permission of the department.	In Person Learning	Arranged	Arranged
CPSC_V 440-201	CPSC_V	440		201	Advanced Machine Learning	W2	Advanced machine learning techniques focusing on probabilistic models. Deep learning and differentiable programming, exponential families and Bayesian inference, probabilistic graphical models and other generative models, Monte Carlo and variational inference methods. [3-0-1] Prerequisite: All of CPSC 320, CPSC 340.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
CPSC_V 440-T2A	CPSC_V	440		T2A	Advanced Machine Learning	W2	Advanced machine learning techniques focusing on probabilistic models. Deep learning and differentiable programming, exponential families and Bayesian inference, probabilistic graphical models and other generative models, Monte Carlo and variational inference methods. [3-0-1] Prerequisite: All of CPSC 320, CPSC 340.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
CPSC_V 440-T2B	CPSC_V	440		T2B	Advanced Machine Learning	W2	Advanced machine learning techniques focusing on probabilistic models. Deep learning and differentiable programming, exponential families and Bayesian inference, probabilistic graphical models and other generative models, Monte Carlo and variational inference methods. [3-0-1] Prerequisite: All of CPSC 320, CPSC 340.	In Person Learning	Tue	3:30 p.m. - 4:30 p.m.
CPSC_V 440-T2C	CPSC_V	440		T2C	Advanced Machine Learning	W2	Advanced machine learning techniques focusing on probabilistic models. Deep learning and differentiable programming, exponential families and Bayesian inference, probabilistic graphical models and other generative models, Monte Carlo and variational inference methods. [3-0-1] Prerequisite: All of CPSC 320, CPSC 340.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.
CPSC_V 440-T2Z	CPSC_V	440		T2Z	Advanced Machine Learning	W2	Advanced machine learning techniques focusing on probabilistic models. Deep learning and differentiable programming, exponential families and Bayesian inference, probabilistic graphical models and other generative models, Monte Carlo and variational inference methods. [3-0-1] Prerequisite: All of CPSC 320, CPSC 340.	In Person Learning	Arranged	Arranged
CPSC_V 444-201	CPSC_V	444		201	Advanced Methods for Human Computer Interaction	W2	Design and evaluation methodologies and theories; formal models of the user including visual, motor, and information processing; advanced evaluation methods including laboratory experiments and field studies; HCI research frontiers. [2-2-2] Prerequisite: CPSC 344 and one of STAT 200, STAT 201, STAT 203, STAT 241, STAT 251, BIOL 300, COMM 291, ECON 325, ECON 327, FRST 231, GEOG 374, KIN 206, KIN 371, POLI 380, PSYC 218, PSYC 278, PSYC 366, SOCI 328.	In Person Learning	Tue	3:30 p.m. - 5:30 p.m.

CPSC_V 444-L2A	CPSC_V	444	L2A	Advanced Methods for Human Computer Interaction	W2	Design and evaluation methodologies and theories; formal models of the user including visual, motor, and information processing; advanced evaluation methods including laboratory experiments and field studies; HCI research frontiers. [2-2-2] Prerequisite: CPSC 344 and one of STAT 200, STAT 201, STAT 203, STAT 241, STAT 251, BIOL 300, COMM 291, ECON 325, ECON 327, FRST 231, GEOG 374, KIN 206, KIN 371, POLI 380, PSYC 218, PSYC 278, PSYC 366, SOCI 328.	In Person Learning	Fri	4:00 p.m. - 6:00 p.m.	
CPSC_V 444-L2B	CPSC_V	444	L2B	Advanced Methods for Human Computer Interaction	W2	Design and evaluation methodologies and theories; formal models of the user including visual, motor, and information processing; advanced evaluation methods including laboratory experiments and field studies; HCI research frontiers. [2-2-2] Prerequisite: CPSC 344 and one of STAT 200, STAT 201, STAT 203, STAT 241, STAT 251, BIOL 300, COMM 291, ECON 325, ECON 327, FRST 231, GEOG 374, KIN 206, KIN 371, POLI 380, PSYC 218, PSYC 278, PSYC 366, SOCI 328.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.	
CPSC_V 444-L2C	CPSC_V	444	L2C	Advanced Methods for Human Computer Interaction	W2	Design and evaluation methodologies and theories; formal models of the user including visual, motor, and information processing; advanced evaluation methods including laboratory experiments and field studies; HCI research frontiers. [2-2-2] Prerequisite: CPSC 344 and one of STAT 200, STAT 201, STAT 203, STAT 241, STAT 251, BIOL 300, COMM 291, ECON 325, ECON 327, FRST 231, GEOG 374, KIN 206, KIN 371, POLI 380, PSYC 218, PSYC 278, PSYC 366, SOCI 328.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.	
CPSC_V 447-101	CPSC_V	447	101	Introduction to Visualization	W1	Design and implementation of static and interactive visualizations. Selection of appropriate visualization methods for given combinations of data type and intended analysis task. Assessment of visual representations according to design and perceptual principles. [3-0-0] Prerequisite: One of CPSC 310, CPEN 321.	In Person Learning	Arranged	Arranged	
CPSC_V 447-201	CPSC_V	447	201	Introduction to Visualization	W2	Design and implementation of static and interactive visualizations. Selection of appropriate visualization methods for given combinations of data type and intended analysis task. Assessment of visual representations according to design and perceptual principles. [3-0-0] Prerequisite: One of CPSC 310, CPEN 321.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.	
CPSC_V 448-A_001	CPSC_V	448	A	A_001	Directed Studies in Computer Science	W1-2	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 448-A_101	CPSC_V	448	A	A_101	Directed Studies in Computer Science	W1	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 448-A_201	CPSC_V	448	A	A_201	Directed Studies in Computer Science	W2	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 448-B_101	CPSC_V	448	B	B_101	Directed Studies in Computer Science	W1-2	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 448-B_102	CPSC_V	448	B	B_102	Directed Studies in Computer Science	W1	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 448-B_202	CPSC_V	448	B	B_202	Directed Studies in Computer Science	W2	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 448-C_001	CPSC_V	448	C	C_001	Directed Studies in Computer Science	W1-2	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 448-C_003	CPSC_V	448	C	C_003	Directed Studies in Computer Science	W1	Open ordinarily to students in Computer Science with at least a 72% average and permission of the department. The course may consist of supervised reading, participation in a seminar, and one or more programming projects. The credit value for this course will be determined in consultation with the student prior to the registration.	In Person Learning	Arranged	Arranged
CPSC_V 449-001	CPSC_V	449	001	Honours Thesis	W1-2	Under supervision of a faculty member, students investigate a research topic and prepare a thesis. Prerequisite: [CPSC349]	In Person Learning	Arranged	Arranged	
CPSC_V 490-A_201	CPSC_V	490	A	A_201	Student Directed Seminars	W2	Self-directed, collaborative studies, in a group-learning environment, initiated and coordinated by senior undergraduate students with the supervision of a faculty advisor. Course structure, enrolment and delivery methods will comply with the Handbook for Student Directed Seminars. [3-0-0]	In Person Learning	Arranged	Arranged
CPSC_V 491-201	CPSC_V	491	201	Interactive Digital Media Practicum	W2	Design and implementation of interactive digital media systems using modern processes and tools. Projects provided by external clients or vetted entrepreneurial pitches are developed by interdisciplinary teams composed of one CPSC 491 student and multiple Master of Digital Media students. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of CPSC 221, CPSC 310, CPSC 344, and Third-year standing.	In Person Learning	Arranged	Arranged	
CPSC_V 499-611	CPSC_V	499	611	Co-operative Work Placement V	W1-2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CPSC_V 499-612	CPSC_V	499	612	Co-operative Work Placement V	W1	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	

CPSC_V 499-641	CPSC_V	499	641	Co-operative Work Placement V	W2	Approved and supervised technical work experience in the computing industry for a minimum of 3.5 months. Normally taken during the summer following the fourth year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Computer Science. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CPSC_V 501-101	CPSC_V	501	101	Theory of Automata, Formal Languages and Computability	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
CPSC_V 507-101	CPSC_V	507	101	Software Engineering	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	10:00 a.m. - 11:30 a.m.	
CPSC_V 508-201	CPSC_V	508	201	Operating Systems	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.	
CPSC_V 513-101	CPSC_V	513	101	Introduction to Formal Verification and Analysis	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.	
CPSC_V 515-101	CPSC_V	515	101	Computational Robotics	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CPSC_V 517-101	CPSC_V	517	101	Sparse Matrix Computation	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.	
CPSC_V 522-2W1	CPSC_V	522	2W1	Artificial Intelligence II	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
CPSC_V 530-L_101	CPSC_V	530	L	L_101	Topics in Information Processing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
CPSC_V 531-F_201	CPSC_V	531	F	F_201	Topics in Theory of Computation	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
CPSC_V 532-C_201	CPSC_V	532	C	C_201	Topics in Artificial Intelligence	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

In Person Learning	Wed	9:00 a.m. - 11:00 a.m.
DES_V 200-L04	DES_V	200	L04	Design Thinking	W1	Design thinking through the analysis of architecture, landscape architecture and urban design and through hands-on design projects. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 231 or DES 200. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.
DES_V 200-L05	DES_V	200	L05	Design Thinking	W1	Design thinking through the analysis of architecture, landscape architecture and urban design and through hands-on design projects. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 231 or DES 200. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 1:00 p.m.
DES_V 200-L06	DES_V	200	L06	Design Thinking	W1	Design thinking through the analysis of architecture, landscape architecture and urban design and through hands-on design projects. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 231 or DES 200. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
DES_V 200-L07	DES_V	200	L07	Design Thinking	W1	Design thinking through the analysis of architecture, landscape architecture and urban design and through hands-on design projects. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 231 or DES 200. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DES_V 200-L08	DES_V	200	L08	Design Thinking	W1	Design thinking through the analysis of architecture, landscape architecture and urban design and through hands-on design projects. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 231 or DES 200. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	11:00 a.m. - 1:00 p.m.
DES_V 201-001	DES_V	201	001	Design Studio I - Context and Site	W1	Design within the context of various analytical lenses including ecological, climatic, social, political, cultural and historical influences. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of DES 110, VISA 180.	In Person Learning	Mon Wed	1:30 p.m. - 5:00 p.m.
DES_V 202-001	DES_V	202	001	Design Studio II - Form	W2	Essential processes and methods for thinking in three-dimensional spatial terms. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 201.	In Person Learning	Mon	1:30 p.m. - 5:00 p.m.
DES_V 202-L01	DES_V	202	L01	Design Studio II - Form	W2	Essential processes and methods for thinking in three-dimensional spatial terms. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 201.	In Person Learning	Wed	1:30 p.m. - 5:00 p.m.
DES_V 202-L02	DES_V	202	L02	Design Studio II - Form	W2	Essential processes and methods for thinking in three-dimensional spatial terms. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 201.	In Person Learning	Wed	1:30 p.m. - 5:00 p.m.
DES_V 202-L03	DES_V	202	L03	Design Studio II - Form	W2	Essential processes and methods for thinking in three-dimensional spatial terms. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 201.	In Person Learning	Wed	1:30 p.m. - 5:00 p.m.
DES_V 202-L04	DES_V	202	L04	Design Studio II - Form	W2	Essential processes and methods for thinking in three-dimensional spatial terms. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 201.	In Person Learning	Wed	1:30 p.m. - 5:00 p.m.
DES_V 211-002	DES_V	211	002	Design Media I	W1	Techniques in architectural drawing, two-dimensional representation, three-dimensional representation and general visual literacy. Credit will be granted for only one of ENDS 320, ARCH 515 or DES 211. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of DES 110, VISA 180.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
DES_V 212-201	DES_V	212	201	Design Media II	W2	Advanced techniques in architectural representation and discourse in digital representation and digital making. Credit will be granted for only one of ARCH 437, ARCH 517 or DES 212. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 211.	In Person Learning	Wed Fri	9:30 a.m. - 11:00 a.m.
DES_V 220-001	DES_V	220	001	Architecture and Urbanism in Context: Vancouver and its Region	W1	The unfolding architecture and urbanism of Metro Vancouver. Using Vancouver as a laboratory to examine the historical transformation of the built environment, and how this has affected particular activities, land uses, and social groups within the region. Open enrolment course. Credit will be granted for only one of ENDS 220 or DES 220.	Hybrid Learning	Thu	5:00 p.m. - 6:30 p.m.

DES_V 220-L01	DES_V	220	L01	Architecture and Urbanism in Context: Vancouver and its Region	W1	The unfolding architecture and urbanism of Metro Vancouver. Using Vancouver as a laboratory to examine the historical transformation of the built environment, and how this has affected particular activities, land uses, and social groups within the region. Open enrolment course. Credit will be granted for only one of ENDS 220 or DES 220.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
DES_V 220-L02	DES_V	220	L02	Architecture and Urbanism in Context: Vancouver and its Region	W1	The unfolding architecture and urbanism of Metro Vancouver. Using Vancouver as a laboratory to examine the historical transformation of the built environment, and how this has affected particular activities, land uses, and social groups within the region. Open enrolment course. Credit will be granted for only one of ENDS 220 or DES 220.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.
DES_V 220-L04	DES_V	220	L04	Architecture and Urbanism in Context: Vancouver and its Region	W1	The unfolding architecture and urbanism of Metro Vancouver. Using Vancouver as a laboratory to examine the historical transformation of the built environment, and how this has affected particular activities, land uses, and social groups within the region. Open enrolment course. Credit will be granted for only one of ENDS 220 or DES 220.	In Person Learning	Thu	9:00 a.m. - 11:00 a.m.
DES_V 220-L05	DES_V	220	L05	Architecture and Urbanism in Context: Vancouver and its Region	W1	The unfolding architecture and urbanism of Metro Vancouver. Using Vancouver as a laboratory to examine the historical transformation of the built environment, and how this has affected particular activities, land uses, and social groups within the region. Open enrolment course. Credit will be granted for only one of ENDS 220 or DES 220.	In Person Learning	Thu	11:00 a.m. - 1:00 p.m.
DES_V 220-L06	DES_V	220	L06	Architecture and Urbanism in Context: Vancouver and its Region	W1	The unfolding architecture and urbanism of Metro Vancouver. Using Vancouver as a laboratory to examine the historical transformation of the built environment, and how this has affected particular activities, land uses, and social groups within the region. Open enrolment course. Credit will be granted for only one of ENDS 220 or DES 220.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
DES_V 230-001	DES_V	230	001	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	5:00 p.m. - 6:30 p.m.
DES_V 230-T01	DES_V	230	T01	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
DES_V 230-T02	DES_V	230	T02	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
DES_V 230-T04	DES_V	230	T04	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.
DES_V 230-T05	DES_V	230	T05	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 1:00 p.m.
DES_V 230-T06	DES_V	230	T06	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
DES_V 230-T07	DES_V	230	T07	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
DES_V 230-T09	DES_V	230	T09	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
DES_V 230-T12	DES_V	230	T12	Sustainability by Design	W2	Interactions between human and natural urban systems using local and international examples of successful sustainable community designs. This course is open to all UBC students, regardless of prior experience. Credit will be granted for only one of ENDS 221 or DES 230. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	11:00 a.m. - 1:00 p.m.
DES_V 231-001	DES_V	231	001	Site Analysis and Planning	W1	Analysis and planning of relatively complex sites, emphasizing storm water management design. Credit will be given for only one of DES 231, LARC 440, or LARC 540. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DES_V 232-201	DES_V	232	201	Material Culture	W2	An investigation of building materials and associated design objectives, environmental conditions, historical context, regulatory controls, and economic constraints. Credit will be granted for only one of DES 232 or ARCH 411. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 12:30 p.m.
DES_V 301-001	DES_V	301	001	Design Studio III - Building Scale Synthesis	W1	Design at the architectural scale through the medium of program and site. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 202.	In Person Learning	Mon	1:30 p.m. - 5:00 p.m.
DES_V 302-001	DES_V	302	001	Design Studio IV - Vancouver	W2	Vancouver as a laboratory for design at the architectural and urban scale with a focused view into how design is implicated in the social, political, and environmental transformation of the city. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 301.	In Person Learning	Mon	9:30 a.m. - 12:30 p.m.
DES_V 320-001	DES_V	320	001	History of the Design of the Built Environment	W1	A broad historical introduction to architectural and landscape architectural design within the context of politics, economics and culture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:30 a.m. - 11:00 a.m.
DES_V 320-T01	DES_V	320	T01	History of the Design of the Built Environment	W1	A broad historical introduction to architectural and landscape architectural design within the context of politics, economics and culture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 12:30 p.m.
DES_V 320-T02	DES_V	320	T02	History of the Design of the Built Environment	W1	A broad historical introduction to architectural and landscape architectural design within the context of politics, economics and culture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 12:30 p.m.
DES_V 320-T03	DES_V	320	T03	History of the Design of the Built Environment	W1	A broad historical introduction to architectural and landscape architectural design within the context of politics, economics and culture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
DES_V 320-T04	DES_V	320	T04	History of the Design of the Built Environment	W1	A broad historical introduction to architectural and landscape architectural design within the context of politics, economics and culture. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.

DES_V 321-A_101	DES_V	321	A	A_101	Topics in Architectural History I (Pre-1900)	W1	History of architecture in the pre-1900 time period. Technological, political, social, and economic changes that have influenced architecture and related fields. Credit will be granted for only one of DES 321, ARCH 404 or ARCH 504. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Arranged	Arranged
DES_V 321-B_201	DES_V	321	B	B_201	Topics in Architectural History I (Pre-1900)	W2	History of architecture in the pre-1900 time period. Technological, political, social, and economic changes that have influenced architecture and related fields. Credit will be granted for only one of DES 321, ARCH 404 or ARCH 504. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Arranged	Arranged
DES_V 321-D_101	DES_V	321	D	D_101	Topics in Architectural History I (Pre-1900)	W1	History of architecture in the pre-1900 time period. Technological, political, social, and economic changes that have influenced architecture and related fields. Credit will be granted for only one of DES 321, ARCH 404 or ARCH 504. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Tue	11:00 a.m. - 12:30 p.m.
DES_V 321-D_D01	DES_V	321	D	D_D01	Topics in Architectural History I (Pre-1900)	W1	History of architecture in the pre-1900 time period. Technological, political, social, and economic changes that have influenced architecture and related fields. Credit will be granted for only one of DES 321, ARCH 404 or ARCH 504. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Thu	11:00 a.m. - 12:30 p.m.
DES_V 321-F_201	DES_V	321	F	F_201	Topics in Architectural History I (Pre-1900)	W2	History of architecture in the pre-1900 time period. Technological, political, social, and economic changes that have influenced architecture and related fields. Credit will be granted for only one of DES 321, ARCH 404 or ARCH 504. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Tue	9:30 a.m. - 11:00 a.m.
DES_V 321-F_D01	DES_V	321	F	F_D01	Topics in Architectural History I (Pre-1900)	W2	History of architecture in the pre-1900 time period. Technological, political, social, and economic changes that have influenced architecture and related fields. Credit will be granted for only one of DES 321, ARCH 404 or ARCH 504. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
DES_V 322-A_101	DES_V	322	A	A_101	Topics in Architectural History II (1900-Present)	W1	History of architecture in the post-1900 time period. Technological, political, social, and economic changes which have influenced architecture and related fields. Credit will be granted for only one of DES 322, ARCH 405 or ARCH 505. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Arranged	Arranged
DES_V 322-B_201	DES_V	322	B	B_201	Topics in Architectural History II (1900-Present)	W2	History of architecture in the post-1900 time period. Technological, political, social, and economic changes which have influenced architecture and related fields. Credit will be granted for only one of DES 322, ARCH 405 or ARCH 505. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Arranged	Arranged
DES_V 322-D_101	DES_V	322	D	D_101	Topics in Architectural History II (1900-Present)	W1	History of architecture in the post-1900 time period. Technological, political, social, and economic changes which have influenced architecture and related fields. Credit will be granted for only one of DES 322, ARCH 405 or ARCH 505. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Tue	11:00 a.m. - 12:30 p.m.
DES_V 322-E_201	DES_V	322	E	E_201	Topics in Architectural History II (1900-Present)	W2	History of architecture in the post-1900 time period. Technological, political, social, and economic changes which have influenced architecture and related fields. Credit will be granted for only one of DES 322, ARCH 405 or ARCH 505. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Tue	9:30 a.m. - 11:00 a.m.
DES_V 322-F_201	DES_V	322	F	F_201	Topics in Architectural History II (1900-Present)	W2	History of architecture in the post-1900 time period. Technological, political, social, and economic changes which have influenced architecture and related fields. Credit will be granted for only one of DES 322, ARCH 405 or ARCH 505. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Arranged	Arranged
DES_V 323-001	DES_V	323		001	Histories in Landscape Architecture	W2	Landscapes from medieval times to the present studied synchronically across design elements as well as chronologically with the development of several key historical concepts. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 320.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DES_V 330-002	DES_V	330		002	Structural Systems and Supports	W1	Basic structural systems in the built world including wood, steel, concrete, composite systems and essential structural logics of soil retention systems and drainage. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DES 231, DES 232.	In Person Learning	Wed	3:00 p.m. - 6:00 p.m.
DES_V 341-101	DES_V	341		101	Co-operative Education Work Term I	W1	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 107.	In Person Learning	Arranged	Arranged
DES_V 341-201	DES_V	341		201	Co-operative Education Work Term I	W2	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: APSC 107.	In Person Learning	Arranged	Arranged
DES_V 401-101	DES_V	401		101	Design Studio V - Urban Systems Scale Synthesis	W1	Relationships between communities and environment, urban infrastructure and ecological systems. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 302.	In Person Learning	Mon	1:30 p.m. - 5:00 p.m.
DES_V 402-201	DES_V	402		201	Design Studio VI - Away	W2	A design project engaged with an international context and site. Emphasis placed on mapping, interpretation of the international context as well as methods of construction, notions of program, and policies, regulations and codes that relate to the site. This course is not eligible for Credit/D/Fail grading. Prerequisite: A score of 60% or higher in DES 401.	In Person Learning	Mon	1:30 p.m. - 5:00 p.m.
DES_V 403-001	DES_V	403		001	Senior Design Project	W2	Final design project in the Honours Option with an independently conceived methodology allowing a student the opportunity to pursue his/her own set of interests and concerns. This course is not eligible for Credit/D/Fail grading. Prerequisite: A sessional average of 80% or better in each of years 2 and 3 and a grade of 80% or better in each of DES 201, 202, 301, 302 and DES 401.	In Person Learning	Mon	1:30 p.m. - 5:00 p.m.
DES_V 421-001	DES_V	421		001	Design Theory	W1	Introduction to a broad range of theories in architecture and design as they relate to the built environment. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DES_V 422-101	DES_V	422		101	Urbanism by Design	W1	A history of the planning, landscape architecture and urban design of cities, and of how ideas have influenced the design of the city. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of DES 321, DES 322, DES 323.	In Person Learning	Wed	10:30 a.m. - 12:00 p.m.
DES_V 422-T01	DES_V	422		T01	Urbanism by Design	W1	A history of the planning, landscape architecture and urban design of cities, and of how ideas have influenced the design of the city. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of DES 321, DES 322, DES 323.	In Person Learning	Thu	10:00 a.m. - 11:00 a.m.
DES_V 422-T02	DES_V	422		T02	Urbanism by Design	W1	A history of the planning, landscape architecture and urban design of cities, and of how ideas have influenced the design of the city. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of DES 321, DES 322, DES 323.	In Person Learning	Thu	10:00 a.m. - 11:00 a.m.

DES_V 422-T03	DES_V	422		T03	Urbanism by Design	W1	A history of the planning, landscape architecture and urban design of cities, and of how ideas have influenced the design of the city. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of DES 321, DES 322, DES 323.	In Person Learning	Thu	11:30 a.m. - 12:30 p.m.
DES_V 422-T04	DES_V	422		T04	Urbanism by Design	W1	A history of the planning, landscape architecture and urban design of cities, and of how ideas have influenced the design of the city. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of DES 321, DES 322, DES 323.	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.
DES_V 430-002	DES_V	430		002	Environment, Urban Form, and Infrastructure	W1	Relationships between, and integration of, the natural environment and the physical form, spatial structure, and infrastructure of livability of cities. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
DES_V 442-101	DES_V	442		101	Co-operative Education Work Term II	W1	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 341.	In Person Learning	Arranged	Arranged
DES_V 442-201	DES_V	442		201	Co-operative Education Work Term II	W2	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 341.	In Person Learning	Arranged	Arranged
DES_V 443-101	DES_V	443		101	Co-operative Education Work Term III	W1	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 442.	In Person Learning	Arranged	Arranged
DES_V 443-201	DES_V	443		201	Co-operative Education Work Term III	W2	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 442.	In Person Learning	Arranged	Arranged
DES_V 444-101	DES_V	444		101	Co-operative Education Work Term IV	W1	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 443.	In Person Learning	Arranged	Arranged
DES_V 444-201	DES_V	444		201	Co-operative Education Work Term IV	W2	Supervised, technical work- integrated learning experience in a public or private organization for a minimum of three months. Formal co-op assignments required. Restricted to undergraduate students meeting the requirements of the Bachelor of Design and the Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: DES 443.	In Person Learning	Arranged	Arranged
DES_V 445-001	DES_V	445		001	Entrepreneurship and Ethics in Design	W2	Core business skills, building on students' design capabilities to pursue ethical and sustainable design-based business goals. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DES_V 450-D_201	DES_V	450	D	D_201	Special Topics	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
DHYG_V 106-001	DHYG_V	106		001	Basics of Oral Microbiology	W2	Basic principles in the study of microorganisms and their relation to human health for dental hygiene students.	In Person Learning	Mon	3:30 p.m. - 4:30 p.m.
DHYG_V 108-108	DHYG_V	108		108	Oral Health Sciences I	W2	An introduction to normal, healthy facial, oral, and dental structures; oral health records, and charting terminology and symbols.	In Person Learning	Arranged	Arranged
DHYG_V 110-001	DHYG_V	110		001	Dental Hygiene Theory and Practice I	W1-2	An introduction to the Dental Hygiene profession, practice roles, the process of care model, ethical practice, and dental public health.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
DHYG_V 206-001	DHYG_V	206		001	Head & Neck Anatomy	W1	Prerequisite: All of BIOL 153, DHYG 108.	In Person Learning	Mon	8:30 a.m. - 11:00 a.m.
DHYG_V 208-001	DHYG_V	208		001	Oral Health Sciences II	W1-2	An introduction to disease-related concepts during the study of dental materials, general pathology, plaque biofilm, nutrition, radiology, periodontology, and oral pathology. This course is not eligible for Credit/D/Fail grading. Prerequisite: DHYG 108.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
DHYG_V 210-001	DHYG_V	210		001	Dental Hygiene Theory and Practice II	W1-2	The study of dental hygiene theory and practice in clinical and community-based settings. This course is not eligible for Credit/D/Fail grading. Prerequisite: DHYG 110.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.
DHYG_V 310-001	DHYG_V	310		001	Dental Hygiene Theory & Practice III	W1-2	The study of dental hygiene theory and practice with emphasis on diverse clients with oral health care needs. This course is not eligible for Credit/D/Fail grading. Prerequisite: DHYG 210.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.
DHYG_V 310-DNU_001	DHYG_V	310		DNU_001	Dental Hygiene Theory & Practice III	W2	The study of dental hygiene theory and practice with emphasis on diverse clients with oral health care needs. This course is not eligible for Credit/D/Fail grading. Prerequisite: DHYG 210.	In Person Learning	Arranged	Arranged
DHYG_V 325-325	DHYG_V	325		325	Applied Pharmacology	W1	Applied pharmacology concepts and principles for the dental health professional.	In Person Learning	Fri	9:30 a.m. - 12:30 p.m.
DHYG_V 400-A_99A	DHYG_V	400	A	A_99A	Policy Analysis and Change	W1-2	Critical reviews of oral health care delivery, oral disease processes and dental hygiene. [3-0-0]	Online Learning	Arranged	Arranged

DHYG_V 400-B-001	DHYG_V	400	B	B_001	Policy Analysis and Change	W1	Critical reviews of oral health care delivery, oral disease processes and dental hygiene. [3-0-0]	Online Learning	Arranged	Arranged
DHYG_V 401-001	DHYG_V	401		001	Oral Epidemiology	W1-2	Basic epidemiological and statistical concepts and tests relevant to evidence-based oral health practices.	Online Learning	Arranged	Arranged
DHYG_V 401-99A	DHYG_V	401		99A	Oral Epidemiology	W1-2	Basic epidemiological and statistical concepts and tests relevant to evidence-based oral health practices.	Online Learning	Arranged	Arranged
DHYG_V 402-99A	DHYG_V	402		99A	Dental Hygiene Practice I	W1-2	Dental hygiene concepts, processes, and skills for individuals and communities. [3-0-0; 3-0-0]	Online Learning	Arranged	Arranged
DHYG_V 405-001	DHYG_V	405		001	Oral Microbiology and Immunology	W1	Microbiology and immunological concepts relevant for dental hygiene practice.	In Person Learning	Thu	9:00 a.m. - 1:00 p.m.
DHYG_V 405-99A	DHYG_V	405		99A	Oral Microbiology and Immunology	W1	Microbiology and immunological concepts relevant for dental hygiene practice.	Online Learning	Arranged	Arranged
DHYG_V 406-001	DHYG_V	406		001	Guided Study in Dental Hygiene	W1-2	Conduct an in-depth investigation of a health promotion issue. Prerequisite: All of DHYG 400, DHYG 401, DHYG 461. And Faculty approval.	In Person Learning	Arranged	Arranged
DHYG_V 410-001	DHYG_V	410		001	Dental Hygiene Theory & Practice IV	W1-2	Critical analysis of dental hygiene theory and practice related to diverse clients with complex oral health care needs. This course is not eligible for Credit/D/Fail grading. Prerequisite: DHYG 310.	In Person Learning	Tue	10:00 a.m. - 12:00 p.m.
DHYG_V 412-001	DHYG_V	412		001	Oral Health Care Trends & Topics	W1-2	Critical analysis of health care trends and oral health care delivery with emphasis on underserved diverse populations. Prerequisite: Pre or Corequisite: DHYG 462	Online Learning	Arranged	Arranged
DHYG_V 412-99A	DHYG_V	412		99A	Oral Health Care Trends & Topics	W1-2	Critical analysis of health care trends and oral health care delivery with emphasis on underserved diverse populations. Prerequisite: Pre or Corequisite: DHYG 462	Online Learning	Arranged	Arranged
DHYG_V 433-99C	DHYG_V	433		99C	Assessment and Treatment Planning for Advanced Periodontal Diseases	W2	Available in online distance education format only.	Online Learning	Arranged	Arranged
DHYG_V 435-001	DHYG_V	435		001	Oral Medicine and Pathology	W2	Pathobiology of oral diseases. Available in online distance education format only.	Online Learning	Arranged	Arranged
DHYG_V 435-99A	DHYG_V	435		99A	Oral Medicine and Pathology	W1	Pathobiology of oral diseases. Available in online distance education format only.	Online Learning	Arranged	Arranged
DHYG_V 461-001	DHYG_V	461		001	Critical Appraisal and Professional Writing in Quantitative Research	W2	Corequisite: DHYG 401.	Online Learning	Arranged	Arranged
DHYG_V 461-99C	DHYG_V	461		99C	Critical Appraisal and Professional Writing in Quantitative Research	W2	Corequisite: DHYG 401.	Online Learning	Arranged	Arranged
DHYG_V 462-001	DHYG_V	462		001	Critical Appraisal and Professional Writing in Qualitative Research	W1	Prerequisite: DHYG 461. Corequisite: DHYG 401.	Online Learning	Arranged	Arranged
DHYG_V 462-99A	DHYG_V	462		99A	Critical Appraisal and Professional Writing in Qualitative Research	W2	Prerequisite: DHYG 461. Corequisite: DHYG 401.	Online Learning	Arranged	Arranged
DHYG_V 480-99C	DHYG_V	480		99C	Social Entrepreneurship in Oral Health Care	W2	Contemporary topics in social entrepreneurship and intrapreneurship in the context of oral health services and the delivery of care. Transformative leadership and innovation within the dynamic landscape of the Canadian healthcare system.	Online Learning	Arranged	Arranged
DMED_V 500-101	DMED_V	500		101	Foundations of Digital Entertainment	W1	Business, technological, social, and ethical issues of digital entertainment introduced and framed through historical exploration and critical analysis of economics, technical innovations, social demands, and ethical constraints involved. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
DSCI_V 100-002	DSCI_V	100		002	Introduction to Data Science	W2	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
DSCI_V 100-003	DSCI_V	100		003	Introduction to Data Science	W1	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
DSCI_V 100-004	DSCI_V	100		004	Introduction to Data Science	W1	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
DSCI_V 100-005	DSCI_V	100		005	Introduction to Data Science	W2	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.

DSCI_V 100-006	DSCI_V	100	006	Introduction to Data Science	W2	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
DSCI_V 100-007	DSCI_V	100	007	Introduction to Data Science	W2	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Mon Fri	3:00 p.m. - 4:30 p.m.
DSCI_V 100-008	DSCI_V	100	008	Introduction to Data Science	W1	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
DSCI_V 100-009	DSCI_V	100	009	Introduction to Data Science	W1	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Mon Wed	4:00 p.m. - 5:30 p.m.
DSCI_V 100-010	DSCI_V	100	010	Introduction to Data Science	W2	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Mon Fri	4:00 p.m. - 5:30 p.m.
DSCI_V 100-100	DSCI_V	100	100	Introduction to Data Science	W2	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Tue Thu	4:30 p.m. - 6:00 p.m.
DSCI_V 100-101	DSCI_V	100	101	Introduction to Data Science	W1	Use of data science tools to summarize, visualize, and analyze data. Sensible workflows and clear interpretations are emphasized. [3-0-1] Prerequisite: MATH 12	In Person Learning	Mon Wed	8:30 a.m. - 10:00 a.m.
DSCI_V 310-101	DSCI_V	310	101	Reproducible and Trustworthy Workflows for Data Science	W2	Data science methods to automate the running and testing of code and analytic reports, manage data analysis software dependencies, package and deploy software for data analysis, and collaborate with others using version control. [3-0-1] Prerequisite: DSCI 100 and either (a) one of CPSC 203, CPSC 210, CPEN 221 or (b) one of MATH 210, ECON 323 and one of CPSC 107, CPSC 110.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
DSCI_V 310-T1A	DSCI_V	310	T1A	Reproducible and Trustworthy Workflows for Data Science	W2	Data science methods to automate the running and testing of code and analytic reports, manage data analysis software dependencies, package and deploy software for data analysis, and collaborate with others using version control. [3-0-1] Prerequisite: DSCI 100 and either (a) one of CPSC 203, CPSC 210, CPEN 221 or (b) one of MATH 210, ECON 323 and one of CPSC 107, CPSC 110.	In Person Learning	Fri	9:00 a.m. - 10:00 a.m.
DSCI_V 320-101	DSCI_V	320	101	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
DSCI_V 320-201	DSCI_V	320	201	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
DSCI_V 320-L1A	DSCI_V	320	L1A	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
DSCI_V 320-L1B	DSCI_V	320	L1B	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
DSCI_V 320-L1C	DSCI_V	320	L1C	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Arranged	Arranged
DSCI_V 320-L2A	DSCI_V	320	L2A	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Tue	9:30 a.m. - 11:00 a.m.
DSCI_V 320-L2B	DSCI_V	320	L2B	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Tue	11:00 a.m. - 12:30 p.m.
DSCI_V 320-L2C	DSCI_V	320	L2C	Visualization for Data Science	W2	Analysis, design, and implementation of static and interactive visual representations; visualization literacy; data communication; exploratory Data Analysis; application of theoretical principles to visualization development. [3-1.5-0] Prerequisite: STAT 201 and one of CPSC 203, CPSC 210, CPEN 221.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 430-101	DSCI_V	430	101	Fairness, Accountability, Transparency and Ethics (FATE) in Data Science	W1	Ethical application of data science and machine learning algorithms. Application of ethical theories in real-world case studies. Data ownership, collection, and validity. Algorithm auditing, fairness and transparency. Reducing unfairness in algorithms. Deployment of predictive models and dissemination of results. [3-0-0] Prerequisite: One of CPSC 330, CPSC 340, STAT 301, STAT 406.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
DSCI_V 511-001	DSCI_V	511	001	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 511-002	DSCI_V	511	002	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 511-003	DSCI_V	511	003	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
DSCI_V 511-L01	DSCI_V	511	L01	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.

DSCI_V 511-L02	DSCI_V	511	L02	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 511-L03	DSCI_V	511	L03	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 511-L04	DSCI_V	511	L04	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 511-L05	DSCI_V	511	L05	Programming for Data Science	W1	Pseudo-code. Program design and structure. Flow control. Iteration. Lists (arrays). Functions. File I/O. Classes, objects, methods, and libraries. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
DSCI_V 512-001	DSCI_V	512	001	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 512-002	DSCI_V	512	002	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 512-003	DSCI_V	512	003	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon Wed	8:00 a.m. - 9:30 a.m.
DSCI_V 512-L01	DSCI_V	512	L01	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 512-L02	DSCI_V	512	L02	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 512-L03	DSCI_V	512	L03	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 512-L04	DSCI_V	512	L04	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 512-L05	DSCI_V	512	L05	Algorithms and Data Structures	W1	Basic algorithms. Recursion. Data structures including linked lists, queues, stacks, trees, graphs, and hash tables. Searching and sorting. Introduction to complexity including Big-O notation, efficiency, and scalability. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
DSCI_V 513-001	DSCI_V	513	001	Databases and Data Retrieval	W1	Relational schemas. SQL queries. Database programming using embedded SQL. XML and XQuery. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 513-002	DSCI_V	513	002	Databases and Data Retrieval	W1	Relational schemas. SQL queries. Database programming using embedded SQL. XML and XQuery. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 513-L01	DSCI_V	513	L01	Databases and Data Retrieval	W1	Relational schemas. SQL queries. Database programming using embedded SQL. XML and XQuery. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 513-L02	DSCI_V	513	L02	Databases and Data Retrieval	W1	Relational schemas. SQL queries. Database programming using embedded SQL. XML and XQuery. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 513-L03	DSCI_V	513	L03	Databases and Data Retrieval	W1	Relational schemas. SQL queries. Database programming using embedded SQL. XML and XQuery. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 513-L04	DSCI_V	513	L04	Databases and Data Retrieval	W1	Relational schemas. SQL queries. Database programming using embedded SQL. XML and XQuery. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 521-001	DSCI_V	521	001	Computing Platforms for Data Science	W1	Introduction to software, shells, tools, and file systems for use in the Data Science program. Installation, configuration, and use of statistical and programming software including Integrated Development Environments (IDEs). Problem resolution skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 521-002	DSCI_V	521	002	Computing Platforms for Data Science	W1	Introduction to software, shells, tools, and file systems for use in the Data Science program. Installation, configuration, and use of statistical and programming software including Integrated Development Environments (IDEs). Problem resolution skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 521-L01	DSCI_V	521	L01	Computing Platforms for Data Science	W1	Introduction to software, shells, tools, and file systems for use in the Data Science program. Installation, configuration, and use of statistical and programming software including Integrated Development Environments (IDEs). Problem resolution skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 521-L02	DSCI_V	521	L02	Computing Platforms for Data Science	W1	Introduction to software, shells, tools, and file systems for use in the Data Science program. Installation, configuration, and use of statistical and programming software including Integrated Development Environments (IDEs). Problem resolution skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 521-L03	DSCI_V	521	L03	Computing Platforms for Data Science	W1	Introduction to software, shells, tools, and file systems for use in the Data Science program. Installation, configuration, and use of statistical and programming software including Integrated Development Environments (IDEs). Problem resolution skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.

DSCI_V 521-L04	DSCI_V	521	L04	Computing Platforms for Data Science	W1	Introduction to software, shells, tools, and file systems for use in the Data Science program. Installation, configuration, and use of statistical and programming software including Integrated Development Environments (IDEs). Problem resolution skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 522-001	DSCI_V	522	001	Data Science Workflows	W1	Interactive and non-interactive data analysis. Scripting. Dynamic reporting. Reproducibility. Project and file management. Version control. Automated workflows. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 522-002	DSCI_V	522	002	Data Science Workflows	W1	Interactive and non-interactive data analysis. Scripting. Dynamic reporting. Reproducibility. Project and file management. Version control. Automated workflows. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 522-L01	DSCI_V	522	L01	Data Science Workflows	W1	Interactive and non-interactive data analysis. Scripting. Dynamic reporting. Reproducibility. Project and file management. Version control. Automated workflows. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 522-L02	DSCI_V	522	L02	Data Science Workflows	W1	Interactive and non-interactive data analysis. Scripting. Dynamic reporting. Reproducibility. Project and file management. Version control. Automated workflows. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 522-L03	DSCI_V	522	L03	Data Science Workflows	W1	Interactive and non-interactive data analysis. Scripting. Dynamic reporting. Reproducibility. Project and file management. Version control. Automated workflows. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 522-L04	DSCI_V	522	L04	Data Science Workflows	W1	Interactive and non-interactive data analysis. Scripting. Dynamic reporting. Reproducibility. Project and file management. Version control. Automated workflows. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 523-001	DSCI_V	523	001	Programming for Data Manipulation	W1	Program design and data manipulation using industry-standard software tools designed for statistical work. Organizing, filtering, sorting, grouping, reformatting, converting, and cleaning data to prepare it for further analysis. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. Corequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 523-002	DSCI_V	523	002	Programming for Data Manipulation	W1	Program design and data manipulation using industry-standard software tools designed for statistical work. Organizing, filtering, sorting, grouping, reformatting, converting, and cleaning data to prepare it for further analysis. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. Corequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 523-L01	DSCI_V	523	L01	Programming for Data Manipulation	W1	Program design and data manipulation using industry-standard software tools designed for statistical work. Organizing, filtering, sorting, grouping, reformatting, converting, and cleaning data to prepare it for further analysis. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. Corequisite: All of DSCI 511, DSCI 521.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 523-L02	DSCI_V	523	L02	Programming for Data Manipulation	W1	Program design and data manipulation using industry-standard software tools designed for statistical work. Organizing, filtering, sorting, grouping, reformatting, converting, and cleaning data to prepare it for further analysis. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. Corequisite: All of DSCI 511, DSCI 521.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 523-L03	DSCI_V	523	L03	Programming for Data Manipulation	W1	Program design and data manipulation using industry-standard software tools designed for statistical work. Organizing, filtering, sorting, grouping, reformatting, converting, and cleaning data to prepare it for further analysis. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. Corequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 523-L04	DSCI_V	523	L04	Programming for Data Manipulation	W1	Program design and data manipulation using industry-standard software tools designed for statistical work. Organizing, filtering, sorting, grouping, reformatting, converting, and cleaning data to prepare it for further analysis. This course is not eligible for Credit/D/Fail grading. This course is not eligible for Credit/D/Fail grading. Corequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 524-001	DSCI_V	524	001	Collaborative Software Development	W2	Software life cycle. Unit testing. Continuous integration. Submission to a relevant repository for distribution. Packaging for installation and use by others. Software licenses. Classes and abstraction. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 522.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 524-002	DSCI_V	524	002	Collaborative Software Development	W2	Software life cycle. Unit testing. Continuous integration. Submission to a relevant repository for distribution. Packaging for installation and use by others. Software licenses. Classes and abstraction. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 522.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 524-L01	DSCI_V	524	L01	Collaborative Software Development	W2	Software life cycle. Unit testing. Continuous integration. Submission to a relevant repository for distribution. Packaging for installation and use by others. Software licenses. Classes and abstraction. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 522.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 524-L02	DSCI_V	524	L02	Collaborative Software Development	W2	Software life cycle. Unit testing. Continuous integration. Submission to a relevant repository for distribution. Packaging for installation and use by others. Software licenses. Classes and abstraction. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 522.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 524-L03	DSCI_V	524	L03	Collaborative Software Development	W2	Software life cycle. Unit testing. Continuous integration. Submission to a relevant repository for distribution. Packaging for installation and use by others. Software licenses. Classes and abstraction. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 522.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 524-L04	DSCI_V	524	L04	Collaborative Software Development	W2	Software life cycle. Unit testing. Continuous integration. Submission to a relevant repository for distribution. Packaging for installation and use by others. Software licenses. Classes and abstraction. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 522.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 525-001	DSCI_V	525	001	Web and Cloud Computing	W2	Networks and the Internet, scraping data, APIs, cloud computing, Web services for scalable computing, Web hosting, Web publication platforms, introduction to parallel computing. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 522, DSCI 523.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 525-002	DSCI_V	525	002	Web and Cloud Computing	W2	Networks and the Internet, scraping data, APIs, cloud computing, Web services for scalable computing, Web hosting, Web publication platforms, introduction to parallel computing. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 522, DSCI 523.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.

DSCI_V 525-L01	DSCI_V	525	L01	Web and Cloud Computing	W2	Networks and the Internet, scraping data, APIs, cloud computing, Web services for scalable computing, Web hosting, Web publication platforms, introduction to parallel computing. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 522, DSCI 523.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 525-L02	DSCI_V	525	L02	Web and Cloud Computing	W2	Networks and the Internet, scraping data, APIs, cloud computing, Web services for scalable computing, Web hosting, Web publication platforms, introduction to parallel computing. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 522, DSCI 523.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 525-L03	DSCI_V	525	L03	Web and Cloud Computing	W2	Networks and the Internet, scraping data, APIs, cloud computing, Web services for scalable computing, Web hosting, Web publication platforms, introduction to parallel computing. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 522, DSCI 523.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 525-L04	DSCI_V	525	L04	Web and Cloud Computing	W2	Networks and the Internet, scraping data, APIs, cloud computing, Web services for scalable computing, Web hosting, Web publication platforms, introduction to parallel computing. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 522, DSCI 523.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 531-001	DSCI_V	531	001	Data Visualization I	W1	Descriptive plots using statistical and programming software. Basics, mechanics, and principles of data visualization. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 531-002	DSCI_V	531	002	Data Visualization I	W1	Descriptive plots using statistical and programming software. Basics, mechanics, and principles of data visualization. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 531-L01	DSCI_V	531	L01	Data Visualization I	W1	Descriptive plots using statistical and programming software. Basics, mechanics, and principles of data visualization. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 531-L02	DSCI_V	531	L02	Data Visualization I	W1	Descriptive plots using statistical and programming software. Basics, mechanics, and principles of data visualization. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 531-L03	DSCI_V	531	L03	Data Visualization I	W1	Descriptive plots using statistical and programming software. Basics, mechanics, and principles of data visualization. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 531-L04	DSCI_V	531	L04	Data Visualization I	W1	Descriptive plots using statistical and programming software. Basics, mechanics, and principles of data visualization. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 532-001	DSCI_V	532	001	Data Visualization II	W2	Interactive visualization, design choices, dynamic change over time, multiple views, data reduction, dealing with complexity. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 531.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 532-002	DSCI_V	532	002	Data Visualization II	W2	Interactive visualization, design choices, dynamic change over time, multiple views, data reduction, dealing with complexity. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 531.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 532-L01	DSCI_V	532	L01	Data Visualization II	W2	Interactive visualization, design choices, dynamic change over time, multiple views, data reduction, dealing with complexity. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 531.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 532-L02	DSCI_V	532	L02	Data Visualization II	W2	Interactive visualization, design choices, dynamic change over time, multiple views, data reduction, dealing with complexity. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 531.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 532-L03	DSCI_V	532	L03	Data Visualization II	W2	Interactive visualization, design choices, dynamic change over time, multiple views, data reduction, dealing with complexity. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 531.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 532-L04	DSCI_V	532	L04	Data Visualization II	W2	Interactive visualization, design choices, dynamic change over time, multiple views, data reduction, dealing with complexity. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 531.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 541-001	DSCI_V	541	001	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 541-002	DSCI_V	541	002	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 541-003	DSCI_V	541	003	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 541-L01	DSCI_V	541	L01	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 541-L02	DSCI_V	541	L02	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 541-L03	DSCI_V	541	L03	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 541-L04	DSCI_V	541	L04	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.

DSCI_V 541-L05	DSCI_V	541	L05	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 541-L06	DSCI_V	541	L06	Privacy, Ethics, and Security	W2	Privacy and data. Ethics boards, legal issues, licensing. Physical and logical data security, social engineering. Encryption, data anonymization, privacy-preserving techniques. Case studies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	4:00 p.m. - 6:00 p.m.
DSCI_V 542-001	DSCI_V	542	001	Communication and Argumentation	W2	Claims, reasons, and evidence. Strengths and weaknesses of models. Effective oral and written presentation of scientific results, including interpretation of data and recognition of assumptions, bias, validity, and reliability. Citations, references, and peer-review. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 542-002	DSCI_V	542	002	Communication and Argumentation	W2	Claims, reasons, and evidence. Strengths and weaknesses of models. Effective oral and written presentation of scientific results, including interpretation of data and recognition of assumptions, bias, validity, and reliability. Citations, references, and peer-review. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 542-L01	DSCI_V	542	L01	Communication and Argumentation	W2	Claims, reasons, and evidence. Strengths and weaknesses of models. Effective oral and written presentation of scientific results, including interpretation of data and recognition of assumptions, bias, validity, and reliability. Citations, references, and peer-review. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 542-L02	DSCI_V	542	L02	Communication and Argumentation	W2	Claims, reasons, and evidence. Strengths and weaknesses of models. Effective oral and written presentation of scientific results, including interpretation of data and recognition of assumptions, bias, validity, and reliability. Citations, references, and peer-review. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 542-L03	DSCI_V	542	L03	Communication and Argumentation	W2	Claims, reasons, and evidence. Strengths and weaknesses of models. Effective oral and written presentation of scientific results, including interpretation of data and recognition of assumptions, bias, validity, and reliability. Citations, references, and peer-review. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 542-L04	DSCI_V	542	L04	Communication and Argumentation	W2	Claims, reasons, and evidence. Strengths and weaknesses of models. Effective oral and written presentation of scientific results, including interpretation of data and recognition of assumptions, bias, validity, and reliability. Citations, references, and peer-review. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 551-001	DSCI_V	551	001	Descriptive Statistics and Probability for Data Science	W1	Descriptive statistics including measures of location and spread. Random variables, distributions, and parameters. Categorical variables. Uncertainty. Missing data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 551-002	DSCI_V	551	002	Descriptive Statistics and Probability for Data Science	W1	Descriptive statistics including measures of location and spread. Random variables, distributions, and parameters. Categorical variables. Uncertainty. Missing data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 551-L01	DSCI_V	551	L01	Descriptive Statistics and Probability for Data Science	W1	Descriptive statistics including measures of location and spread. Random variables, distributions, and parameters. Categorical variables. Uncertainty. Missing data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 551-L02	DSCI_V	551	L02	Descriptive Statistics and Probability for Data Science	W1	Descriptive statistics including measures of location and spread. Random variables, distributions, and parameters. Categorical variables. Uncertainty. Missing data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 551-L03	DSCI_V	551	L03	Descriptive Statistics and Probability for Data Science	W1	Descriptive statistics including measures of location and spread. Random variables, distributions, and parameters. Categorical variables. Uncertainty. Missing data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 551-L04	DSCI_V	551	L04	Descriptive Statistics and Probability for Data Science	W1	Descriptive statistics including measures of location and spread. Random variables, distributions, and parameters. Categorical variables. Uncertainty. Missing data. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 552-001	DSCI_V	552	001	Statistical Inference and Computation I	W1	Random variables, parameters, observed data, statistics (distinctions and connections). Estimation: point and interval. Two-group comparisons, frequentist version. Simulation-based approaches. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 551.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 552-002	DSCI_V	552	002	Statistical Inference and Computation I	W1	Random variables, parameters, observed data, statistics (distinctions and connections). Estimation: point and interval. Two-group comparisons, frequentist version. Simulation-based approaches. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 551.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 552-L01	DSCI_V	552	L01	Statistical Inference and Computation I	W1	Random variables, parameters, observed data, statistics (distinctions and connections). Estimation: point and interval. Two-group comparisons, frequentist version. Simulation-based approaches. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 551.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 552-L02	DSCI_V	552	L02	Statistical Inference and Computation I	W1	Random variables, parameters, observed data, statistics (distinctions and connections). Estimation: point and interval. Two-group comparisons, frequentist version. Simulation-based approaches. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 551.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 552-L03	DSCI_V	552	L03	Statistical Inference and Computation I	W1	Random variables, parameters, observed data, statistics (distinctions and connections). Estimation: point and interval. Two-group comparisons, frequentist version. Simulation-based approaches. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 551.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 552-L04	DSCI_V	552	L04	Statistical Inference and Computation I	W1	Random variables, parameters, observed data, statistics (distinctions and connections). Estimation: point and interval. Two-group comparisons, frequentist version. Simulation-based approaches. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 551.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 553-001	DSCI_V	553	001	Statistical Inference and Computation II	W2	Multiple hypothesis testing, false discovery rate. Two-group comparisons, Bayesian paradigm. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 553-002	DSCI_V	553	002	Statistical Inference and Computation II	W2	Multiple hypothesis testing, false discovery rate. Two-group comparisons, Bayesian paradigm. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 553-L01	DSCI_V	553	L01	Statistical Inference and Computation II	W2	Multiple hypothesis testing, false discovery rate. Two-group comparisons, Bayesian paradigm. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.

DSCI_V 553-L02	DSCI_V	553	L02	Statistical Inference and Computation II	W2	Multiple hypothesis testing, false discovery rate. Two-group comparisons, Bayesian paradigm. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 553-L03	DSCI_V	553	L03	Statistical Inference and Computation II	W2	Multiple hypothesis testing, false discovery rate. Two-group comparisons, Bayesian paradigm. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 553-L04	DSCI_V	553	L04	Statistical Inference and Computation II	W2	Multiple hypothesis testing, false discovery rate. Two-group comparisons, Bayesian paradigm. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 554-001	DSCI_V	554	001	Experimentation and Causal Inference	W2	Randomization. A/B testing. Blocked designs. Orthogonality. Batch effects, confounding. Causality. Contemporary examples. Simulations. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 553, DSCI 561.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 554-002	DSCI_V	554	002	Experimentation and Causal Inference	W2	Randomization. A/B testing. Blocked designs. Orthogonality. Batch effects, confounding. Causality. Contemporary examples. Simulations. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 553, DSCI 561.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 554-L01	DSCI_V	554	L01	Experimentation and Causal Inference	W2	Randomization. A/B testing. Blocked designs. Orthogonality. Batch effects, confounding. Causality. Contemporary examples. Simulations. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 553, DSCI 561.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 554-L02	DSCI_V	554	L02	Experimentation and Causal Inference	W2	Randomization. A/B testing. Blocked designs. Orthogonality. Batch effects, confounding. Causality. Contemporary examples. Simulations. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 553, DSCI 561.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 554-L03	DSCI_V	554	L03	Experimentation and Causal Inference	W2	Randomization. A/B testing. Blocked designs. Orthogonality. Batch effects, confounding. Causality. Contemporary examples. Simulations. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 553, DSCI 561.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 554-L04	DSCI_V	554	L04	Experimentation and Causal Inference	W2	Randomization. A/B testing. Blocked designs. Orthogonality. Batch effects, confounding. Causality. Contemporary examples. Simulations. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 553, DSCI 561.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 561-001	DSCI_V	561	001	Regression I	W1	Linear models: continuous response; one or more categorical covariates and/or one or more continuous covariates. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 561-002	DSCI_V	561	002	Regression I	W1	Linear models: continuous response; one or more categorical covariates and/or one or more continuous covariates. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 561-L01	DSCI_V	561	L01	Regression I	W1	Linear models: continuous response; one or more categorical covariates and/or one or more continuous covariates. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 561-L02	DSCI_V	561	L02	Regression I	W1	Linear models: continuous response; one or more categorical covariates and/or one or more continuous covariates. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 561-L03	DSCI_V	561	L03	Regression I	W1	Linear models: continuous response; one or more categorical covariates and/or one or more continuous covariates. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 561-L04	DSCI_V	561	L04	Regression I	W1	Linear models: continuous response; one or more categorical covariates and/or one or more continuous covariates. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 552.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 562-001	DSCI_V	562	001	Regression II	W2	Non-parametric regression and smoothing. Data-driven parameter selection. Robust regression. Mixed effects. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 561.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 562-002	DSCI_V	562	002	Regression II	W2	Non-parametric regression and smoothing. Data-driven parameter selection. Robust regression. Mixed effects. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 561.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
DSCI_V 562-L01	DSCI_V	562	L01	Regression II	W2	Non-parametric regression and smoothing. Data-driven parameter selection. Robust regression. Mixed effects. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 561.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 562-L02	DSCI_V	562	L02	Regression II	W2	Non-parametric regression and smoothing. Data-driven parameter selection. Robust regression. Mixed effects. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 561.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 562-L03	DSCI_V	562	L03	Regression II	W2	Non-parametric regression and smoothing. Data-driven parameter selection. Robust regression. Mixed effects. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 561.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 562-L04	DSCI_V	562	L04	Regression II	W2	Non-parametric regression and smoothing. Data-driven parameter selection. Robust regression. Mixed effects. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 561.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 563-001	DSCI_V	563	001	Unsupervised Learning	W2	Unsupervised learning. K-means/medoids. Model-based clustering. Expectation-maximization algorithm. Hierarchical clustering. Dimension reduction. Matrix decomposition. Heatmaps, contour plots, dendrograms. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 563-002	DSCI_V	563	002	Unsupervised Learning	W2	Unsupervised learning. K-means/medoids. Model-based clustering. Expectation-maximization algorithm. Hierarchical clustering. Dimension reduction. Matrix decomposition. Heatmaps, contour plots, dendrograms. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of DSCI 511, DSCI 521.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.

DSCI_V 573-001	DSCI_V	573	001	Feature and Model Selection	W1	Performance of a classification model. Generalization error, overfitting of training data. Shrinkage, feature selection, Akaike Information Criterion, Bayesian Information Criterion. k-fold cross validation. Bootstrapping. Receiver Operating Characteristic curve. Elastic nets, regularization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 573-002	DSCI_V	573	002	Feature and Model Selection	W1	Performance of a classification model. Generalization error, overfitting of training data. Shrinkage, feature selection, Akaike Information Criterion, Bayesian Information Criterion. k-fold cross validation. Bootstrapping. Receiver Operating Characteristic curve. Elastic nets, regularization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 573-L01	DSCI_V	573	L01	Feature and Model Selection	W1	Performance of a classification model. Generalization error, overfitting of training data. Shrinkage, feature selection, Akaike Information Criterion, Bayesian Information Criterion. k-fold cross validation. Bootstrapping. Receiver Operating Characteristic curve. Elastic nets, regularization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 573-L02	DSCI_V	573	L02	Feature and Model Selection	W1	Performance of a classification model. Generalization error, overfitting of training data. Shrinkage, feature selection, Akaike Information Criterion, Bayesian Information Criterion. k-fold cross validation. Bootstrapping. Receiver Operating Characteristic curve. Elastic nets, regularization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 573-L03	DSCI_V	573	L03	Feature and Model Selection	W1	Performance of a classification model. Generalization error, overfitting of training data. Shrinkage, feature selection, Akaike Information Criterion, Bayesian Information Criterion. k-fold cross validation. Bootstrapping. Receiver Operating Characteristic curve. Elastic nets, regularization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 573-L04	DSCI_V	573	L04	Feature and Model Selection	W1	Performance of a classification model. Generalization error, overfitting of training data. Shrinkage, feature selection, Akaike Information Criterion, Bayesian Information Criterion. k-fold cross validation. Bootstrapping. Receiver Operating Characteristic curve. Elastic nets, regularization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 571.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 574-001	DSCI_V	574	001	Spatial and Temporal Models	W2	Time series. State space and change point detection. Hidden Markov Models. Gaussian processes. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
DSCI_V 574-002	DSCI_V	574	002	Spatial and Temporal Models	W2	Time series. State space and change point detection. Hidden Markov Models. Gaussian processes. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
DSCI_V 574-L01	DSCI_V	574	L01	Spatial and Temporal Models	W2	Time series. State space and change point detection. Hidden Markov Models. Gaussian processes. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
DSCI_V 574-L02	DSCI_V	574	L02	Spatial and Temporal Models	W2	Time series. State space and change point detection. Hidden Markov Models. Gaussian processes. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.
DSCI_V 574-L03	DSCI_V	574	L03	Spatial and Temporal Models	W2	Time series. State space and change point detection. Hidden Markov Models. Gaussian processes. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
DSCI_V 574-L04	DSCI_V	574	L04	Spatial and Temporal Models	W2	Time series. State space and change point detection. Hidden Markov Models. Gaussian processes. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
DSCI_V 575-001	DSCI_V	575	001	Advanced Machine Learning	W2	Neural networks trained with backpropagation. Deep learning. Overfitting and underfitting. Active data acquisition. Hyperparameter optimization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
DSCI_V 575-002	DSCI_V	575	002	Advanced Machine Learning	W2	Neural networks trained with backpropagation. Deep learning. Overfitting and underfitting. Active data acquisition. Hyperparameter optimization. This course is not eligible for Credit/D/Fail grading. Prerequisite: DSCI 572.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.

ECON_V 101-001	ECON_V	101		001	Principles of Microeconomics	W1	Introduction to consumer behaviour, producer theory, competitive market equilibrium, welfare economics, monopoly, oligopoly, and foundations of strategic interactions. Credit will be granted for only one of ECON101 or ECON 310. Equivalency: ECON 310	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
ECON_V 101-002	ECON_V	101		002	Principles of Microeconomics	W1	Introduction to consumer behaviour, producer theory, competitive market equilibrium, welfare economics, monopoly, oligopoly, and foundations of strategic interactions. Credit will be granted for only one of ECON101 or ECON 310. Equivalency: ECON 310	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
ECON_V 101-003	ECON_V	101		003	Principles of Microeconomics	W1	Introduction to consumer behaviour, producer theory, competitive market equilibrium, welfare economics, monopoly, oligopoly, and foundations of strategic interactions. Credit will be granted for only one of ECON101 or ECON 310. Equivalency: ECON 310	In Person Learning	Mon Wed Fri	4:00 p.m. - 5:00 p.m.
ECON_V 101-004	ECON_V	101		004	Principles of Microeconomics	W2	Introduction to consumer behaviour, producer theory, competitive market equilibrium, welfare economics, monopoly, oligopoly, and foundations of strategic interactions. Credit will be granted for only one of ECON101 or ECON 310. Equivalency: ECON 310	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
ECON_V 101-011	ECON_V	101		011	Principles of Microeconomics	W1	Introduction to consumer behaviour, producer theory, competitive market equilibrium, welfare economics, monopoly, oligopoly, and foundations of strategic interactions. Credit will be granted for only one of ECON101 or ECON 310. Equivalency: ECON 310	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 101-013	ECON_V	101		013	Principles of Microeconomics	W1	Introduction to consumer behaviour, producer theory, competitive market equilibrium, welfare economics, monopoly, oligopoly, and foundations of strategic interactions. Credit will be granted for only one of ECON101 or ECON 310. Equivalency: ECON 310	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 101-L15	ECON_V	101		L15	Principles of Microeconomics	W1	Introduction to consumer behaviour, producer theory, competitive market equilibrium, welfare economics, monopoly, oligopoly, and foundations of strategic interactions. Credit will be granted for only one of ECON101 or ECON 310. Equivalency: ECON 310	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.

ECON_V 226-001	ECON_V	226	001	Making Sense of Economic Data	W2	Techniques of introductory empirical economics with an emphasis on foundational econometric methods and answering economic questions using real-world data. Students will be expected to undertake applied work using a statistical programming tool. May not be taken for credit by students with fourth-year standing in ECON, or students already having credit for ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251. Credit will be granted for only one of ECON 226, ECON 227, STAT 203. Prerequisite: Either (a) one of ECON 101, ECON 310, ECON 102 or (b) ECON 311.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 226-L01	ECON_V	226	L01	Making Sense of Economic Data	W2	Techniques of introductory empirical economics with an emphasis on foundational econometric methods and answering economic questions using real-world data. Students will be expected to undertake applied work using a statistical programming tool. May not be taken for credit by students with fourth-year standing in ECON, or students already having credit for ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251. Credit will be granted for only one of ECON 226, ECON 227, STAT 203. Prerequisite: Either (a) one of ECON 101, ECON 310, ECON 102 or (b) ECON 311.	In Person Learning	Mon	4:00 p.m. - 5:00 p.m.
ECON_V 226-L02	ECON_V	226	L02	Making Sense of Economic Data	W2	Techniques of introductory empirical economics with an emphasis on foundational econometric methods and answering economic questions using real-world data. Students will be expected to undertake applied work using a statistical programming tool. May not be taken for credit by students with fourth-year standing in ECON, or students already having credit for ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251. Credit will be granted for only one of ECON 226, ECON 227, STAT 203. Prerequisite: Either (a) one of ECON 101, ECON 310, ECON 102 or (b) ECON 311.	In Person Learning	Mon	4:00 p.m. - 5:00 p.m.
ECON_V 226-L03	ECON_V	226	L03	Making Sense of Economic Data	W2	Techniques of introductory empirical economics with an emphasis on foundational econometric methods and answering economic questions using real-world data. Students will be expected to undertake applied work using a statistical programming tool. May not be taken for credit by students with fourth-year standing in ECON, or students already having credit for ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251. Credit will be granted for only one of ECON 226, ECON 227, STAT 203. Prerequisite: Either (a) one of ECON 101, ECON 310, ECON 102 or (b) ECON 311.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
ECON_V 226-L04	ECON_V	226	L04	Making Sense of Economic Data	W2	Techniques of introductory empirical economics with an emphasis on foundational econometric methods and answering economic questions using real-world data. Students will be expected to undertake applied work using a statistical programming tool. May not be taken for credit by students with fourth-year standing in ECON, or students already having credit for ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251. Credit will be granted for only one of ECON 226, ECON 227, STAT 203. Prerequisite: Either (a) one of ECON 101, ECON 310, ECON 102 or (b) ECON 311.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
ECON_V 227-001	ECON_V	227	001	Data in Economics	W1	Application-driven introduction to the analysis of economic data. Descriptive analysis, causality, experimental and observational data, hypothesis testing. Restricted to BIE students. Credit will be granted for only one of ECON 226 and ECON 227. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 227-L01	ECON_V	227	L01	Data in Economics	W1	Application-driven introduction to the analysis of economic data. Descriptive analysis, causality, experimental and observational data, hypothesis testing. Restricted to BIE students. Credit will be granted for only one of ECON 226 and ECON 227. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	5:00 p.m. - 6:00 p.m.
ECON_V 227-L02	ECON_V	227	L02	Data in Economics	W1	Application-driven introduction to the analysis of economic data. Descriptive analysis, causality, experimental and observational data, hypothesis testing. Restricted to BIE students. Credit will be granted for only one of ECON 226 and ECON 227. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
ECON_V 255-001	ECON_V	255	001	Understanding Globalization	W2	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing in Bachelor of International Economics or any of the following Economics programs offered by VSE: Majors, Minors, Combined Majors, Honours. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 255-002	ECON_V	255	002	Understanding Globalization	W2	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing in Bachelor of International Economics or any of the following Economics programs offered by VSE: Majors, Minors, Combined Majors, Honours. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ECON_V 255-L01	ECON_V	255	L01	Understanding Globalization	W2	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing in Bachelor of International Economics or any of the following Economics programs offered by VSE: Majors, Minors, Combined Majors, Honours. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
ECON_V 255-L02	ECON_V	255	L02	Understanding Globalization	W2	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing in Bachelor of International Economics or any of the following Economics programs offered by VSE: Majors, Minors, Combined Majors, Honours. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
ECON_V 255-L03	ECON_V	255	L03	Understanding Globalization	W2	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing in Bachelor of International Economics or any of the following Economics programs offered by VSE: Majors, Minors, Combined Majors, Honours. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Wed	6:00 p.m. - 7:00 p.m.
ECON_V 255-L04	ECON_V	255	L04	Understanding Globalization	W2	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing in Bachelor of International Economics or any of the following Economics programs offered by VSE: Majors, Minors, Combined Majors, Honours. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Wed	6:00 p.m. - 7:00 p.m.
ECON_V 255-L05	ECON_V	255	L05	Understanding Globalization	W2	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing in Bachelor of International Economics or any of the following Economics programs offered by VSE: Majors, Minors, Combined Majors, Honours. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.

ECON_V 305-001	ECON_V	305	001	Honours Intermediate Macroeconomic Analysis I	W1	Income and employment theory, monetary theory, the open economy, economic fluctuations and growth. Credit will be granted for only one of ECON 302, ECON 305, or ECON 309. Prerequisite: A score of 68% or higher in one of ECON 101, ECON 310 and a score of 68% or higher in one of ECON 102, ECON 311 and a score of 68% or higher in one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and a score of 68% or higher in one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 305-L01	ECON_V	305	L01	Honours Intermediate Macroeconomic Analysis I	W1	Income and employment theory, monetary theory, the open economy, economic fluctuations and growth. Credit will be granted for only one of ECON 302, ECON 305, or ECON 309. Prerequisite: A score of 68% or higher in one of ECON 101, ECON 310 and a score of 68% or higher in one of ECON 102, ECON 311 and a score of 68% or higher in one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and a score of 68% or higher in one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
ECON_V 306-001	ECON_V	306	001	Honours Intermediate Microeconomics II	W2	Microeconomic Theory with computational applications. Topics may include risk and uncertainty, information economics, game theory, bargaining, auctions. Knowledge of python and Julia is useful but not required. Credit will be granted for only one of ECON 303 or ECON 306. Prerequisite: A score of 68% or higher in ECON 304. Permission of the School is also acceptable.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 306-L01	ECON_V	306	L01	Honours Intermediate Microeconomics II	W2	Microeconomic Theory with computational applications. Topics may include risk and uncertainty, information economics, game theory, bargaining, auctions. Knowledge of python and Julia is useful but not required. Credit will be granted for only one of ECON 303 or ECON 306. Prerequisite: A score of 68% or higher in ECON 304. Permission of the School is also acceptable.	In Person Learning	Fri	5:00 p.m. - 6:00 p.m.
ECON_V 307-001	ECON_V	307	001	Honours Intermediate Macroeconomics II	W2	Theories of economic growth and the business cycle. Intended primarily for prospective honours and other qualified students. Prerequisite: A score of 68% or higher in ECON 305. Or permission of the School.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 307-L01	ECON_V	307	L01	Honours Intermediate Macroeconomics II	W2	Theories of economic growth and the business cycle. Intended primarily for prospective honours and other qualified students. Prerequisite: A score of 68% or higher in ECON 305. Or permission of the School.	In Person Learning	Arranged	Arranged
ECON_V 309-001	ECON_V	309	001	Intermediate Open Economy Macroeconomics	W2	The aggregate economy with emphasis on macroeconomic policy and international economic growth, money and inflation, unemployment, business cycles, and macroeconomic stabilization policy under fixed and flexible exchange rates. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 302, ECON 305 or ECON 309. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 309-L01	ECON_V	309	L01	Intermediate Open Economy Macroeconomics	W2	The aggregate economy with emphasis on macroeconomic policy and international economic growth, money and inflation, unemployment, business cycles, and macroeconomic stabilization policy under fixed and flexible exchange rates. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 302, ECON 305 or ECON 309. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
ECON_V 309-L02	ECON_V	309	L02	Intermediate Open Economy Macroeconomics	W2	The aggregate economy with emphasis on macroeconomic policy and international economic growth, money and inflation, unemployment, business cycles, and macroeconomic stabilization policy under fixed and flexible exchange rates. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 302, ECON 305 or ECON 309. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
ECON_V 310-001	ECON_V	310	001	Principles of Microeconomics	W2	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101. Prerequisite: Third-year, fourth-year, or graduate standing.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ECON_V 310-L01	ECON_V	310	L01	Principles of Microeconomics	W2	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101. Prerequisite: Third-year, fourth-year, or graduate standing.	In Person Learning	Mon	4:00 p.m. - 5:00 p.m.
ECON_V 310-L02	ECON_V	310	L02	Principles of Microeconomics	W2	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101. Prerequisite: Third-year, fourth-year, or graduate standing.	In Person Learning	Mon	4:00 p.m. - 5:00 p.m.
ECON_V 310-L03	ECON_V	310	L03	Principles of Microeconomics	W2	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101. Prerequisite: Third-year, fourth-year, or graduate standing.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
ECON_V 310-L04	ECON_V	310	L04	Principles of Microeconomics	W2	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101. Prerequisite: Third-year, fourth-year, or graduate standing.	In Person Learning	Thu	4:00 p.m. - 5:00 p.m.
ECON_V 310-L05	ECON_V	310	L05	Principles of Microeconomics	W2	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101. Prerequisite: Third-year, fourth-year, or graduate standing.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
ECON_V 310-L06	ECON_V	310	L06	Principles of Microeconomics	W2	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101. Prerequisite: Third-year, fourth-year, or graduate standing.	In Person Learning	Fri	4:00 p.m. - 5:00 p.m.
ECON_V 311-001	ECON_V	311	001	Principles of Macroeconomics	W2	The scope of this course is approximately the same as that of ECON 102. The course is intended for upper-level students only. Credit will be granted for only one of ECON 311 or ECON 102. Prerequisite: Third-year, fourth-year or graduate standing.	In Person Learning	Arranged	Arranged
ECON_V 311-L01	ECON_V	311	L01	Principles of Macroeconomics	W2	The scope of this course is approximately the same as that of ECON 102. The course is intended for upper-level students only. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 301, ECON 304, ECON 315.	In Person Learning	Mon	4:00 p.m. - 5:00 p.m.
ECON_V 316-L02	ECON_V	316	L02	Intermediate Microeconomics II	W2	Advanced topics in intermediate microeconomics: risk and uncertainty, some concepts in game theory, adverse selection, moral hazard, bargaining, auctions. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 316 or ECON 303. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 301, ECON 304, ECON 315.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
ECON_V 317-001	ECON_V	317	001	Poverty and Inequality	W2	Economic inequality in Canada and other countries; measurement and causes. Inequality in the distribution of wealth; redistribution of income and wealth; notions of distributive justice. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 317-002	ECON_V	317	002	Poverty and Inequality	W1	Economic inequality in Canada and other countries; measurement and causes. Inequality in the distribution of wealth; redistribution of income and wealth; notions of distributive justice. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 317-L01	ECON_V	317	L01	Poverty and Inequality	W2	Economic inequality in Canada and other countries; measurement and causes. Inequality in the distribution of wealth; redistribution of income and wealth; notions of distributive justice. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Arranged	Arranged
ECON_V 317-L02	ECON_V	317	L02	Poverty and Inequality	W1	Economic inequality in Canada and other countries; measurement and causes. Inequality in the distribution of wealth; redistribution of income and wealth; notions of distributive justice. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Arranged	Arranged
ECON_V 318-001	ECON_V	318	001	History and Philosophy of Economics from Aristotle to Adam Smith	W1	The development of economic thought from Aristotle to Adam Smith, focusing on the conceptual foundations of economics, particularly the problems of value, distribution, and economic growth. Credit will be granted for only one of ECON 318 or PHIL 362 Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311. Equivalency: PHIL 362	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ECON_V 319-001	ECON_V	319	001	History and Philosophy of Economics from Ricardo to Keynes	W2	The development of economic thought from David Ricardo up to the present including such figures as Malthus, Mill, Jevons, and Keynes, focusing on the conceptual foundations of economics, particularly the problems of value, distribution and growth. Credit will be granted for only one of ECON 319 or PHIL 363. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311. Equivalency: PHIL 363	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ECON_V 323-001	ECON_V	323	001	Quantitative Economic Modelling with Data Science Applications	W1	Computational tools used in modern economics. Including application of data science in economics; visualization and manipulation of economic data; solving and simulating dynamic economic models. Credit will be granted for only one of ECON 323, CPSC 110, or CPSC 107. One course in second-year linear algebra such as MATH 221 or MATH 223 is strongly recommended, but not required. Prerequisite: One of ECON 101, ECON 310 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.

ECON_V 323-002	ECON_V	323	002	Quantitative Economic Modelling with Data Science Applications	W2	Computational tools used in modern economics. Including application of data science in economics; visualization and manipulation of economic data; solving and simulating dynamic economic models. Credit will be granted for only one of ECON 323, CPSC 110, or CPSC 107. One course in second-year linear algebra such as MATH 221 or MATH 223 is strongly recommended, but not required. Prerequisite: One of ECON 101, ECON 310 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 323-003	ECON_V	323	003	Quantitative Economic Modelling with Data Science Applications	W2	Computational tools used in modern economics. Including application of data science in economics; visualization and manipulation of economic data; solving and simulating dynamic economic models. Credit will be granted for only one of ECON 323, CPSC 110, or CPSC 107. One course in second-year linear algebra such as MATH 221 or MATH 223 is strongly recommended, but not required. Prerequisite: One of ECON 101, ECON 310 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ECON_V 325-001	ECON_V	325	001	Introduction to Econometrics I	W1	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 325-002	ECON_V	325	002	Introduction to Econometrics I	W2	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Arranged	Arranged
ECON_V 325-003	ECON_V	325	003	Introduction to Econometrics I	W2	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ECON_V 325-L01	ECON_V	325	L01	Introduction to Econometrics I	W1	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Tue	5:00 p.m. - 6:00 p.m.
ECON_V 325-L02	ECON_V	325	L02	Introduction to Econometrics I	W1	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Thu	6:00 p.m. - 7:00 p.m.
ECON_V 325-L03	ECON_V	325	L03	Introduction to Econometrics I	W2	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Arranged	Arranged
ECON_V 325-L04	ECON_V	325	L04	Introduction to Econometrics I	W2	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Arranged	Arranged
ECON_V 325-L05	ECON_V	325	L05	Introduction to Econometrics I	W2	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
ECON_V 325-L06	ECON_V	325	L06	Introduction to Econometrics I	W2	Essentials of probability and statistics for applied work in economics. Topics include fundamentals of probability and statistical inference including estimation and hypothesis testing, and simple linear regression models. Credit will only be granted for one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184 and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
ECON_V 326-001	ECON_V	326	001	Introduction to Econometrics II	W1	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ECON_V 326-002	ECON_V	326	002	Introduction to Econometrics II	W1	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.

ECON_V 326-003	ECON_V	326	003	Introduction to Econometrics II	W2	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ECON_V 326-L01	ECON_V	326	L01	Introduction to Econometrics II	W1	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Tue	6:00 p.m. - 7:00 p.m.
ECON_V 326-L02	ECON_V	326	L02	Introduction to Econometrics II	W1	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
ECON_V 326-L03	ECON_V	326	L03	Introduction to Econometrics II	W1	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Tue	5:00 p.m. - 6:00 p.m.
ECON_V 326-L04	ECON_V	326	L04	Introduction to Econometrics II	W1	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Thu	6:00 p.m. - 7:00 p.m.
ECON_V 326-L05	ECON_V	326	L05	Introduction to Econometrics II	W2	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
ECON_V 326-L06	ECON_V	326	L06	Introduction to Econometrics II	W2	Methods of empirical economic research. Topics include multiple linear regression models, with a focus on regression diagnostics, prediction, statistical inference, and interpretations. Students will be required to learn to apply empirical methods using a statistical programming tool. Credit will only be granted for one of ECON 326, ECON 328, STAT 306. Prerequisite: All of ECON 101, 102; One of ECON 325, ECON 327, COMM 191, STAT 200, STAT 241, STAT 251, LFS 252.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
ECON_V 327-001	ECON_V	327	001	Introduction to Empirical Methods	W1	Basic tools for the statistical analysis of economic data. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311; and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184; and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 327-L01	ECON_V	327	L01	Introduction to Empirical Methods	W1	Basic tools for the statistical analysis of economic data. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311; and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184; and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Mon	5:00 p.m. - 6:00 p.m.
ECON_V 327-L02	ECON_V	327	L02	Introduction to Empirical Methods	W1	Basic tools for the statistical analysis of economic data. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 325, ECON 327, COMM 191, STAT 200, STAT 203, STAT 241, STAT 251. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311; and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184; and one of MATH 101, MATH 103, MATH 105, MATH 121.	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
ECON_V 328-001	ECON_V	328	001	Methods of Empirical Research	W2	Empirical tools used in applied research, with emphasis on the linear regression model. Registration restricted to students in the Bachelor of International Economics program. Credit will be granted for only one of ECON 326, ECON 328, STAT 306, or LFS 252. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 325, ECON 327.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 328-L01	ECON_V	328	L01	Methods of Empirical Research	W2	Empirical tools used in applied research, with emphasis on the linear regression model. Registration restricted to students in the Bachelor of International Economics program. Credit will be granted for only one of ECON 326, ECON 328, STAT 306, or LFS 252. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 325, ECON 327.	In Person Learning	Tue	5:00 p.m. - 6:00 p.m.
ECON_V 328-L02	ECON_V	328	L02	Methods of Empirical Research	W2	Empirical tools used in applied research, with emphasis on the linear regression model. Registration restricted to students in the Bachelor of International Economics program. Credit will be granted for only one of ECON 326, ECON 328, STAT 306, or LFS 252. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 325, ECON 327.	In Person Learning	Thu	4:00 p.m. - 5:00 p.m.
ECON_V 333-001	ECON_V	333	001	Economic History of Europe from the Paleolithic to the Industrial Revolution	W1	The conditions and causes of long run growth from nomadism to agriculture to industrialized states, including institutions, geography, culture, colonialism, and slave trades. Determinants of the Neolithic, consumer and industrial revolutions, demographic transition and first era of globalization. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 333-002	ECON_V	333	002	Economic History of Europe from the Paleolithic to the Industrial Revolution	W1	The conditions and causes of long run growth from nomadism to agriculture to industrialized states, including institutions, geography, culture, colonialism, and slave trades. Determinants of the Neolithic, consumer and industrial revolutions, demographic transition and first era of globalization. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	Hybrid Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 335-001	ECON_V	335	001	Fertility, Families and Human Migration	W1	Traditional fertility and mortality patterns, demographic transition, catastrophes, well-being and nutrition, international and internal migration, epidemics and growth spurts. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.

ECON_V 345-001	ECON_V	345	001	Money and Banking	W1	Financial markets and financial institutions in theory and practice; structure and development of the Canadian financial system; development and theory of the regulation of the financial system; process of monetary control; theory and history of central banking and monetary policy. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
ECON_V 345-002	ECON_V	345	002	Money and Banking	W2	Financial markets and financial institutions in theory and practice; structure and development of the Canadian financial system; development and theory of the regulation of the financial system; process of monetary control; theory and history of central banking and monetary policy. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 345-003	ECON_V	345	003	Money and Banking	W2	Financial markets and financial institutions in theory and practice; structure and development of the Canadian financial system; development and theory of the regulation of the financial system; process of monetary control; theory and history of central banking and monetary policy. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ECON_V 351-001	ECON_V	351	001	Sex and Gender in the Economy	W1	Application of economic analysis to marriage, fertility and health, gender inequality in labour markets and unpaid caregiving; the application of sex and gender-based policy analysis to topics related to employment, and technological and social change in current and historical perspectives. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 355-001	ECON_V	355	001	Introduction to International Trade	W1	The determinants of trade patterns, trade policy, tariff and non-tariff barriers to trade, political economy of protectionism, bilateral and multilateral trade disputes, trade liberalization, trade and development. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 355-002	ECON_V	355	002	Introduction to International Trade	W2	The determinants of trade patterns, trade policy, tariff and non-tariff barriers to trade, political economy of protectionism, bilateral and multilateral trade disputes, trade liberalization, trade and development. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 355-003	ECON_V	355	003	Introduction to International Trade	W2	The determinants of trade patterns, trade policy, tariff and non-tariff barriers to trade, political economy of protectionism, bilateral and multilateral trade disputes, trade liberalization, trade and development. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.
ECON_V 355-004	ECON_V	355	004	Introduction to International Trade	W1	The determinants of trade patterns, trade policy, tariff and non-tariff barriers to trade, political economy of protectionism, bilateral and multilateral trade disputes, trade liberalization, trade and development. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ECON_V 356-001	ECON_V	356	001	Introduction to International Finance	W1	Exchange rate policy regimes; international financial organizations; the interaction between monetary policy and exchange rate regimes; financial crises. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ECON_V 356-002	ECON_V	356	002	Introduction to International Finance	W2	Exchange rate policy regimes; international financial organizations; the interaction between monetary policy and exchange rate regimes; financial crises. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ECON_V 356-003	ECON_V	356	003	Introduction to International Finance	W2	Exchange rate policy regimes; international financial organizations; the interaction between monetary policy and exchange rate regimes; financial crises. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ECON_V 370-001	ECON_V	370	001	Benefit-Cost Analysis and the Economics of Project Evaluation	W2	Techniques and problems in benefit-cost analysis of public projects. Examination of alternative approaches to public decision-making such as cost-effectiveness analysis and multiple-objective frameworks. Case studies of projects in the areas of natural resources, the environment, human resources, public services, and transportation. Prerequisite: One of ECON 101, ECON 310.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ECON_V 370-002	ECON_V	370	002	Benefit-Cost Analysis and the Economics of Project Evaluation	W1	Techniques and problems in benefit-cost analysis of public projects. Examination of alternative approaches to public decision-making such as cost-effectiveness analysis and multiple-objective frameworks. Case studies of projects in the areas of natural resources, the environment, human resources, public services, and transportation. Prerequisite: One of ECON 101, ECON 310.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ECON_V 371-001	ECON_V	371	001	Economics of the Environment	W1	Economic analysis applied to various environmental issues, including sustainable development, quality of life, and environmental impacts of specific industrial and consumption activities. The design and implementation of government policies. Global environmental effects of human economic activity. Credit will be granted for only one of COEC 475, COMM 487, or ECON 371. Prerequisite: One of ECON 101, ECON 310.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ECON_V 371-002	ECON_V	371	002	Economics of the Environment	W1	Economic analysis applied to various environmental issues, including sustainable development, quality of life, and environmental impacts of specific industrial and consumption activities. The design and implementation of government policies. Global environmental effects of human economic activity. Credit will be granted for only one of COEC 475, COMM 487, or ECON 371. Prerequisite: One of ECON 101, ECON 310.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 371-003	ECON_V	371	003	Economics of the Environment	W2	Economic analysis applied to various environmental issues, including sustainable development, quality of life, and environmental impacts of specific industrial and consumption activities. The design and implementation of government policies. Global environmental effects of human economic activity. Credit will be granted for only one of COEC 475, COMM 487, or ECON 371. Prerequisite: One of ECON 101, ECON 310.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ECON_V 374-001	ECON_V	374	001	Land Economics	W1	Economic analysis applied to problems of land use. Rent theory. Land valuation. Land conservation. Techniques for assessing economic efficiency of land use. Effects of institutions and public policies on land use. Credit will be granted for only one of ECON 374 or FRE 374. Prerequisite: One of ECON 101, ECON 310. Equivalency: FRE 374	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 390-001	ECON_V	390	001	Introduction to Economic Research	W1	Selected topics in economic research. Application of research methods to economic data. Credit will be granted for only one of ECON 390, ECON 490, ECON 494, ECON 495, or ECON 499. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
ECON_V 390-002	ECON_V	390	002	Introduction to Economic Research	W2	Selected topics in economic research. Application of research methods to economic data. Credit will be granted for only one of ECON 390, ECON 490, ECON 494, ECON 495, or ECON 499. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of MATH 100, MATH 102, MATH 104, MATH 110, MATH 120, MATH 180, MATH 184.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
ECON_V 398-001	ECON_V	398	001	Introduction to Causal Methods	W2	Theory and practice of the analytical application of economics. Causality, empirical analysis, and the application of theoretical models through engagement in applied work. Prerequisite: Either (a) one of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of STAT 200, STAT 241, STAT 251, COMM 291, FRST 231; or (b) one of ECON 226, ECON 325, ECON 326, ECON 327.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.

ECON_V 398-L01	ECON_V	398	L01	Introduction to Causal Methods	W2	Theory and practice of the analytical application of economics. Causality, empirical analysis, and the application of theoretical models through engagement in applied work. Prerequisite: Either (a) one of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of STAT 200, STAT 241, STAT 251, COMM 291, FRST 231; or (b) one of ECON 226, ECON 325, ECON 326, ECON 327.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
ECON_V 398-L02	ECON_V	398	L02	Introduction to Causal Methods	W2	Theory and practice of the analytical application of economics. Causality, empirical analysis, and the application of theoretical models through engagement in applied work. Prerequisite: Either (a) one of ECON 101, ECON 310 and one of ECON 102, ECON 311 and one of STAT 200, STAT 241, STAT 251, COMM 291, FRST 231; or (b) one of ECON 226, ECON 325, ECON 326, ECON 327.	In Person Learning	Fri	5:00 p.m. - 6:00 p.m.
ECON_V 408-001	ECON_V	408	001	Computational Methods in Macroeconomics	W2	Computational tools and algorithms used in macroeconomics and financial economics including applications to unemployment, inequality, asset pricing, and economic growth. Prerequisite: One of ECON 301, ECON 304, ECON 315 and one of ECON 323, CPSC 103, CPSC 107, CPSC 110, CPSC 301, MATH 210, COMM 337, PHYS 210, EOCS 211, APSC 160 and one of MATH 152, MATH 221, MATH 223.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ECON_V 421-001	ECON_V	421	001	Introduction to Game Theory and Applications	W1	Principles of rational behaviour in strategic situations and various notions of equilibrium useful in predicting outcomes. Applications from economics, business, politics, law and biology. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ECON_V 421-L01	ECON_V	421	L01	Introduction to Game Theory and Applications	W1	Principles of rational behaviour in strategic situations and various notions of equilibrium useful in predicting outcomes. Applications from economics, business, politics, law and biology. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
ECON_V 425-001	ECON_V	425	001	Advanced Econometrics	W1	The study and analysis of advanced econometric models. Topics may include statistical inference on various models with nonlinearity and endogeneity, such as models with instrumental variables, discrete-choice models, panel regression models, models of causal inference, and machine learning methods. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 425-002	ECON_V	425	002	Advanced Econometrics	W2	The study and analysis of advanced econometric models. Topics may include statistical inference on various models with nonlinearity and endogeneity, such as models with instrumental variables, discrete-choice models, panel regression models, models of causal inference, and machine learning methods. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 425-L01	ECON_V	425	L01	Advanced Econometrics	W1	The study and analysis of advanced econometric models. Topics may include statistical inference on various models with nonlinearity and endogeneity, such as models with instrumental variables, discrete-choice models, panel regression models, models of causal inference, and machine learning methods. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252.	In Person Learning	Mon	4:00 p.m. - 5:00 p.m.
ECON_V 425-L02	ECON_V	425	L02	Advanced Econometrics	W2	The study and analysis of advanced econometric models. Topics may include statistical inference on various models with nonlinearity and endogeneity, such as models with instrumental variables, discrete-choice models, panel regression models, models of causal inference, and machine learning methods. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252.	In Person Learning	Tue	4:00 p.m. - 5:00 p.m.
ECON_V 441-001	ECON_V	441	001	The Process of Economic Development	W2	Industrialization of an agrarian economy; how the West grew rich; history of Japanese development; technical progress and growth; evolution of the patterns of income distribution; role of international trade in development; environment and development. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 441-002	ECON_V	441	002	The Process of Economic Development	W1	Industrialization of an agrarian economy; how the West grew rich; history of Japanese development; technical progress and growth; evolution of the patterns of income distribution; role of international trade in development; environment and development. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ECON_V 442-001	ECON_V	442	001	Issues in Economic Development	W2	Divergence in the world economy, poverty, consequences of initial inequality, institutions, the impact of history, recent developmental experience--some case studies, labour and credit markets, the trickle down process. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 442-003	ECON_V	442	003	Issues in Economic Development	W2	Divergence in the world economy, poverty, consequences of initial inequality, institutions, the impact of history, recent developmental experience--some case studies, labour and credit markets, the trickle down process. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ECON_V 450-001	ECON_V	450	001	Economics of Taxation	W1	Economic analysis of taxation. Equity, efficiency, and incidence of government revenue sources such as personal and corporate income taxes, sales taxes, property taxes, payroll taxes, and environmental taxes. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ECON_V 455-002	ECON_V	455	002	International Trade	W2	International trade theory and policy in general equilibrium; relative costs, factor proportions, imperfect competition and the pattern of trade; efficiency and distribution. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ECON_V 455-003	ECON_V	455	003	International Trade	W1	International trade theory and policy in general equilibrium; relative costs, factor proportions, imperfect competition and the pattern of trade; efficiency and distribution. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 455-L02	ECON_V	455	L02	International Trade	W2	International trade theory and policy in general equilibrium; relative costs, factor proportions, imperfect competition and the pattern of trade; efficiency and distribution. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Thu	4:00 p.m. - 5:00 p.m.
ECON_V 455-L03	ECON_V	455	L03	International Trade	W1	International trade theory and policy in general equilibrium; relative costs, factor proportions, imperfect competition and the pattern of trade; efficiency and distribution. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Arranged	Arranged
ECON_V 456-001	ECON_V	456	001	International Macroeconomics and Finance	W2	Balance of payments; market for foreign exchange; mechanism for adjusting the balance of payments; internal vs. external stability; current problems and issues. Credit will be granted for only one of ECON 456, COEC 377, or COMM 377. Prerequisite: One of ECON 302, ECON 305, ECON 309.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ECON_V 456-002	ECON_V	456	002	International Macroeconomics and Finance	W2	Balance of payments; market for foreign exchange; mechanism for adjusting the balance of payments; internal vs. external stability; current problems and issues. Credit will be granted for only one of ECON 456, COEC 377, or COMM 377. Prerequisite: One of ECON 302, ECON 305, ECON 309.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 457-001	ECON_V	457	001	Seminar in International Economic Relations	W1	Selected topics focusing upon various issues arising in international economic relations. Open only to fourth-year students in the Major program in International Relations. Prerequisite: One of ECON 101, ECON 310 and one of ECON 102, ECON 311.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.

ECON_V 460-001	ECON_V	460	001	Economics of Labour Markets	W2	The theory of labour supply and demand for individuals, households, and firms. Policy implications for Canadian taxation and benefit programs. Employee selection, hiring and promotion. Credit may not be obtained for both ECON 360 and 460. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.	
ECON_V 465-001	ECON_V	465	001	Market Structure	W2	Market structure and social welfare, theory of price discrimination, equilibrium in oligopolistic markets, entry and exit decisions, product differentiation and spatial models, theories of hierarchical organization, agency problem in the modern corporation, vertical integration and control, market structure and technical progress. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.	
ECON_V 465-DNU_001	ECON_V	465	DNU_001	Market Structure	W2	Market structure and social welfare, theory of price discrimination, equilibrium in oligopolistic markets, entry and exit decisions, product differentiation and spatial models, theories of hierarchical organization, agency problem in the modern corporation, vertical integration and control, market structure and technical progress. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Arranged	Arranged	
ECON_V 465-DNU_L01	ECON_V	465	DNU_L01	Market Structure	W2	Market structure and social welfare, theory of price discrimination, equilibrium in oligopolistic markets, entry and exit decisions, product differentiation and spatial models, theories of hierarchical organization, agency problem in the modern corporation, vertical integration and control, market structure and technical progress. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Arranged	Arranged	
ECON_V 465-L01	ECON_V	465	L01	Market Structure	W2	Market structure and social welfare, theory of price discrimination, equilibrium in oligopolistic markets, entry and exit decisions, product differentiation and spatial models, theories of hierarchical organization, agency problem in the modern corporation, vertical integration and control, market structure and technical progress. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Fri	5:00 p.m. - 6:00 p.m.	
ECON_V 467-001	ECON_V	467	001	Economics of Crime and Policing	W1	The application of methods and theory to topics related to the criminal justice system with a specific focus on the role of policy in reducing crime rates, punitiveness and systemic inequality. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 326, ECON 328, STAT 306, LFS 252.	In Person Learning	Arranged	Arranged	
ECON_V 467-L01	ECON_V	467	L01	Economics of Crime and Policing	W1	The application of methods and theory to topics related to the criminal justice system with a specific focus on the role of policy in reducing crime rates, punitiveness and systemic inequality. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 326, ECON 328, STAT 306, LFS 252.	In Person Learning	Arranged	Arranged	
ECON_V 472-001	ECON_V	472	001	Economics of Renewable Resources	W1	Application of economic analysis to the management of renewable resources. Special attention is given to criteria for the optimal use of depleting resources such as forests and water. Other topics include public policy with regard to environmental quality, conservation, and outdoor recreation. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.	
ECON_V 485-001	ECON_V	485	001	Political Economy	W1	State and politics in economics. How states emerge, how dictators stay in power. Why groups engage in costly conflict, how countries turn into democracies and what its benefits are. Prerequisite: One of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309 and one of ECON 326, ECON 328, STAT 306, LFS 252.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.	
ECON_V 490-001	ECON_V	490	001	Seminar in Applied Economics	W1	Selected problems and issues in the theory and practice of Economics. Each section will focus on a different field. Restricted to Economics Majors, and Combined Majors in Economics their final academic session. Credit will only be granted for one of ECON 390, ECON 490, ECON 494, ECON 495, ECON 499. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252 and one of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309. For additional possible prerequisites see individual course descriptions on the School's website.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.	
ECON_V 490-002	ECON_V	490	002	Seminar in Applied Economics	W1	Selected problems and issues in the theory and practice of Economics. Each section will focus on a different field. Restricted to Economics Majors, and Combined Majors in Economics their final academic session. Credit will only be granted for one of ECON 390, ECON 490, ECON 494, ECON 495, ECON 499. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252 and one of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309. For additional possible prerequisites see individual course descriptions on the School's website.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
ECON_V 490-003	ECON_V	490	003	Seminar in Applied Economics	W1	Selected problems and issues in the theory and practice of Economics. Each section will focus on a different field. Restricted to Economics Majors, and Combined Majors in Economics their final academic session. Credit will only be granted for one of ECON 390, ECON 490, ECON 494, ECON 495, ECON 499. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252 and one of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309. For additional possible prerequisites see individual course descriptions on the School's website.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.	
ECON_V 490-004	ECON_V	490	004	Seminar in Applied Economics	W2	Selected problems and issues in the theory and practice of Economics. Each section will focus on a different field. Restricted to Economics Majors, and Combined Majors in Economics their final academic session. Credit will only be granted for one of ECON 390, ECON 490, ECON 494, ECON 495, ECON 499. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252 and one of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309. For additional possible prerequisites see individual course descriptions on the School's website.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
ECON_V 490-005	ECON_V	490	005	Seminar in Applied Economics	W2	Selected problems and issues in the theory and practice of Economics. Each section will focus on a different field. Restricted to Economics Majors, and Combined Majors in Economics their final academic session. Credit will only be granted for one of ECON 390, ECON 490, ECON 494, ECON 495, ECON 499. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252 and one of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309. For additional possible prerequisites see individual course descriptions on the School's website.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.	
ECON_V 490-006	ECON_V	490	006	Seminar in Applied Economics	W2	Selected problems and issues in the theory and practice of Economics. Each section will focus on a different field. Restricted to Economics Majors, and Combined Majors in Economics their final academic session. Credit will only be granted for one of ECON 390, ECON 490, ECON 494, ECON 495, ECON 499. Prerequisite: One of ECON 326, ECON 328, STAT 306, LFS 252 and one of ECON 301, ECON 304, ECON 315, COMM 295 and one of ECON 302, ECON 305, ECON 309. For additional possible prerequisites see individual course descriptions on the School's website.	In Person Learning	Mon Wed Fri	3:30 p.m. - 4:30 p.m.	
ECON_V 492-F_001	ECON_V	492	F	F_001	Directed Reading	W1		In Person Learning	Fri	6:30 p.m. - 9:30 p.m.

ECON_V 493-001	ECON_V	493	001	Advanced Empirical Methods for International Economics	W1	Econometric methodologies necessary to conduct applied research, including time series analysis and panel data methods; review of empirical work in international economics. Registration restricted to students in the Bachelor of International Economics Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: ECON 328.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 494-001	ECON_V	494	001	Seminar in Applied International Economics	W2	Focus on a particular aspect of applied international economics. Independent empirical research project required. Credit will only be granted for one of ECON 390, 490, 494, 495, 499. Registration restricted to students in the Bachelor of International Economics Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: ECON 493.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 494-002	ECON_V	494	002	Seminar in Applied International Economics	W2	Focus on a particular aspect of applied international economics. Independent empirical research project required. Credit will only be granted for one of ECON 390, 490, 494, 495, 499. Registration restricted to students in the Bachelor of International Economics Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: ECON 493.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 494-003	ECON_V	494	003	Seminar in Applied International Economics	W2	Focus on a particular aspect of applied international economics. Independent empirical research project required. Credit will only be granted for one of ECON 390, 490, 494, 495, 499. Registration restricted to students in the Bachelor of International Economics Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: ECON 493.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 494-004	ECON_V	494	004	Seminar in Applied International Economics	W2	Focus on a particular aspect of applied international economics. Independent empirical research project required. Credit will only be granted for one of ECON 390, 490, 494, 495, 499. Registration restricted to students in the Bachelor of International Economics Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: ECON 493.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 495-001	ECON_V	495	001	Honours Seminar	W1	Reports and group discussions of selected topics for fourth-year Honours students. Credit will only be granted for one of ECON 390, 490, 494, 495, 499.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 499-001	ECON_V	499	001	Honours Essay	W2	Essay on some theoretical, applied, or institutional problem. Open only to fourth-year Honours students. Credit will only be granted for one of ECON 390, 490, 494, 495, 499.	In Person Learning	Wed	3:30 p.m. - 5:00 p.m.
ECON_V 500-001	ECON_V	500	001	Microeconomics	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 500-L1A	ECON_V	500	L1A	Microeconomics	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	8:30 a.m. - 10:00 a.m.
ECON_V 502-001	ECON_V	502	001	Macroeconomics	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ECON_V 502-L1A	ECON_V	502	L1A	Macroeconomics	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	10:00 a.m. - 11:30 a.m.
ECON_V 514-001	ECON_V	514	001	Computational Microeconomics	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 516-001	ECON_V	516	001	Special Topics in Macroeconomics	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 523-001	ECON_V	523	001	Behavioural Economics	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 526-001	ECON_V	526	001	Quantitative Economics with Data Science Applications	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 526-L1A	ECON_V	526	L1A	Quantitative Economics with Data Science Applications	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	2:00 p.m. - 3:30 p.m.
ECON_V 527-001	ECON_V	527	001	Econometric Methods of Economic Research	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 527-L1A	ECON_V	527	L1A	Econometric Methods of Economic Research	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	2:00 p.m. - 3:30 p.m.
ECON_V 531-001	ECON_V	531	001	Economic History I	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ECON_V 541-001	ECON_V	541	001	Economic Development I	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ECON_V 542-001	ECON_V	542	001	Economic Development II	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 543-001	ECON_V	543	001	Political Economy I	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.

ECON_V 544-001	ECON_V	544	001	Political Economy II	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 546-001	ECON_V	546	001	Monetary Theory and Policy I	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ECON_V 550-001	ECON_V	550	001	Public Economics I	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ECON_V 551-001	ECON_V	551	001	Public Economics II	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ECON_V 553-001	ECON_V	553	001	Wealth and Income Inequality	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 555-001	ECON_V	555	001	International Trade	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ECON_V 556-001	ECON_V	556	001	International Finance	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 560-001	ECON_V	560	001	Economics of Labour I	W1	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 561-001	ECON_V	561	001	Economics of Labour II	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Fri	9:30 a.m. - 12:30 p.m.
ECON_V 562-001	ECON_V	562	001	Research Design and Policy Evaluation in Economics	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ECON_V 567-001	ECON_V	567	001	Organization Theory and Non-market Allocation	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ECON_V 573-001	ECON_V	573	001	Environmental Economics I	W2	Restricted to M.A. ECON, Ph.D. ECON. External students may request permission to take this course from the ECON graduate program office. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of ECON 500, ECON 502, ECON 526, ECON 527.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.

The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Tue	4:30 p.m. - 7:30 p.m.
EDUC_V 504-081	EDUC_V	504	081	Seminar in Qualitative Data Analysis	W2	This course is not eligible for Credit/D/Fail grading. Prerequisite: Previous course in qualitative research.	Hybrid Learning	Wed	1:00 p.m. - 4:00 p.m.	
EECE_V 501-101	EECE_V	501	101	Mathematical Methods for Electrical and Computer Engineering	W1	This course is not eligible for Credit/D/Fail grading. [3-0-0] Theoretical and practical issues in designing multimedia systems. Interactive multimedia, digital video broadcasting and streaming, media asset management, video indexing and retrieval, content protection, and design of multimedia middleware. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	10:00 a.m. - 1:00 p.m.	
EECE_V 541-101	EECE_V	541	101	Multimedia Systems	W1	Theoretical and practical issues in designing multimedia systems. Interactive multimedia, digital video broadcasting and streaming, media asset management, video indexing and retrieval, content protection, and design of multimedia middleware. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	11:00 a.m. - 2:00 p.m.	
EECE_V 541-201	EECE_V	541	201	Multimedia Systems	W2	Numerical aspects of time-domain simulation are reviewed. Dynamic modelling and analysis of power systems components including transformers, induction and synchronous machines, inverters, electric drives and associated controls. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	11:00 a.m. - 2:00 p.m.	
EECE_V 549-101	EECE_V	549	101	Dynamic Modelling of Electric Machines and Controls	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.	
EECE_V 550-201	EECE_V	550	201	Topics in Power Electronic Design	W2	Computer-oriented analysis of electric power systems with regard to multiphase line constants, steady-state analysis of single and parallel circuits, lightning and switching surges; large-scale solution of power-flow problems; optimal real and reactive power flow. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
EECE_V 553-201	EECE_V	553	201	Advanced Power Systems Analysis	W2	Credit will be granted for only one of EECE 555 or ELEC 352. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
EECE_V 555-101	EECE_V	555	101	Renewable and Efficient Electric Power Systems	W1	Solution of lumped and distributed networks. Time-domain solutions, discretization and integration rules. Frequency-domain solutions, FFT and windowing techniques. Systems of linear equations, reduction and sparsity techniques. Nonlinear elements. Computer-aided simulation. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	5:30 p.m. - 8:30 p.m.	
EECE_V 560-201	EECE_V	560	201	Network Analysis and Simulation	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.	
EECE_V 562-101	EECE_V	562	101	Statistical Signal Processing	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
EECE_V 564-201	EECE_V	564	201	Signal Detection, Estimation, and Learning	W2	This course is not eligible for Credit/D/Fail grading. [3-0-0] Analysis and design of communications networks; network architectures; Internet protocols; routing; scheduling algorithms; medium access control; congestion control; admission control; optimization techniques; network management. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.	
EECE_V 565-101	EECE_V	565	101	Communication Networks	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.	
EECE_V 566-101	EECE_V	566	101	Information and Coding Theory	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.	
EECE_V 566-201	EECE_V	566	201	Information and Coding Theory	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.	
EECE_V 567-201	EECE_V	567	201	Power System Dynamics and Stability	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	

EECE_V 568-101	EECE_V	568	101	From Exploring to Building Machine Learning Models	W1	This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.	
EECE_V 570-101	EECE_V	570	101	Fundamentals of Visual Computing	W1	Computational and mathematical methods for data driven processing and model-based analysis of digital images and other visual data: perception, capture; representation, modelling; enhancement, restoration; registration, fusion; feature extraction, segmentation; recognition; practical applications. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
EECE_V 570-201	EECE_V	570	201	Fundamentals of Visual Computing	W2	Computational and mathematical methods for data driven processing and model-based analysis of digital images and other visual data: perception, capture; representation, modelling; enhancement, restoration; registration, fusion; feature extraction, segmentation; recognition; practical applications. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.	
EECE_V 571-A_101	EECE_V	571	A	A_101	Electrical Engineering Seminar and Special Problems	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
EECE_V 571-B_107	EECE_V	571	B	B_107	Electrical Engineering Seminar and Special Problems	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 3:00 p.m.

ELEC_V 201-101	ELEC_V	201	101	Circuit Analysis I	W1	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Tue Thu	10:00 a.m. - 12:00 p.m.
ELEC_V 201-201	ELEC_V	201	201	Circuit Analysis I	W2	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Tue Thu	3:30 p.m. - 5:30 p.m.
ELEC_V 201-L1A	ELEC_V	201	L1A	Circuit Analysis I	W1	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Tue (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 201-L1B	ELEC_V	201	L1B	Circuit Analysis I	W1	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Wed (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 201-L1C	ELEC_V	201	L1C	Circuit Analysis I	W1	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Thu (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 201-L1D	ELEC_V	201	L1D	Circuit Analysis I	W1	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Fri (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 201-L2A	ELEC_V	201	L2A	Circuit Analysis I	W2	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Thu (Alternate weeks)	11:00 a.m. - 1:00 p.m.
ELEC_V 201-L2B	ELEC_V	201	L2B	Circuit Analysis I	W2	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Tue (Alternate weeks)	11:00 a.m. - 1:00 p.m.
ELEC_V 201-T1A	ELEC_V	201	T1A	Circuit Analysis I	W1	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Fri (Alternate weeks)	4:00 p.m. - 6:00 p.m.
ELEC_V 201-T2A	ELEC_V	201	T2A	Circuit Analysis I	W2	The fundamentals of analysis of lumped linear time-invariant circuits; network theorems; operational amplifiers; first order circuits; DC analysis of diodes, BJT, and FET circuits. This course is not eligible for Credit/D/Fail grading. [4-2*-2*] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256, MATH 265.	In Person Learning	Wed (Alternate weeks)	5:00 p.m. - 7:00 p.m.

ELEC_V 202-101	ELEC_V	202	101	Circuit Analysis II	W1	Phasor analysis and AC three phase systems power; transfer functions; Bode plots; filters and resonance; Laplace transforms; transformers and mutual inductance; two-port networks. First and second order circuits. This course is not eligible for Credit/D/Fail grading. [4-0-1] Prerequisite: MATH 101, one of PHYS 118, PHYS 158, one of MATH 255, MATH 256, and one of ELEC 201, ELEC 203.	In Person Learning	Mon Wed	3:00 p.m. - 5:00 p.m.
ELEC_V 202-201	ELEC_V	202	201	Circuit Analysis II	W2	Phasor analysis and AC three phase systems power; transfer functions; Bode plots; filters and resonance; Laplace transforms; transformers and mutual inductance; two-port networks. First and second order circuits. This course is not eligible for Credit/D/Fail grading. [4-0-1] Prerequisite: MATH 101, one of PHYS 118, PHYS 158, one of MATH 255, MATH 256, and one of ELEC 201, ELEC 203.	In Person Learning	Mon Wed	3:00 p.m. - 5:00 p.m.
ELEC_V 202-T1A	ELEC_V	202	T1A	Circuit Analysis II	W1	Phasor analysis and AC three phase systems power; transfer functions; Bode plots; filters and resonance; Laplace transforms; transformers and mutual inductance; two-port networks. First and second order circuits. This course is not eligible for Credit/D/Fail grading. [4-0-1] Prerequisite: MATH 101, one of PHYS 118, PHYS 158, one of MATH 255, MATH 256, and one of ELEC 201, ELEC 203.	In Person Learning	Fri (Alternate weeks)	2:00 p.m. - 4:00 p.m.
ELEC_V 202-T2A	ELEC_V	202	T2A	Circuit Analysis II	W2	Phasor analysis and AC three phase systems power; transfer functions; Bode plots; filters and resonance; Laplace transforms; transformers and mutual inductance; two-port networks. First and second order circuits. This course is not eligible for Credit/D/Fail grading. [4-0-1] Prerequisite: MATH 101, one of PHYS 118, PHYS 158, one of MATH 255, MATH 256, and one of ELEC 201, ELEC 203.	In Person Learning	Mon (Alternate weeks)	5:00 p.m. - 7:00 p.m.
ELEC_V 203-101	ELEC_V	203	101	Basic Circuit Analysis	W1	Ideal passive elements and sources; Kirchhoff's Laws; DC circuits; natural and complete response of first order circuits; operational amplifiers; impedance; phasors; complex power. Not open to students in Electrical and Computer Engineering. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256.	In Person Learning	Mon Wed	4:30 p.m. - 6:00 p.m.
ELEC_V 203-L1A	ELEC_V	203	L1A	Basic Circuit Analysis	W1	Ideal passive elements and sources; Kirchhoff's Laws; DC circuits; natural and complete response of first order circuits; operational amplifiers; impedance; phasors; complex power. Not open to students in Electrical and Computer Engineering. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256.	In Person Learning	Wed (Alternate weeks)	9:00 a.m. - 11:00 a.m.
ELEC_V 203-L1B	ELEC_V	203	L1B	Basic Circuit Analysis	W1	Ideal passive elements and sources; Kirchhoff's Laws; DC circuits; natural and complete response of first order circuits; operational amplifiers; impedance; phasors; complex power. Not open to students in Electrical and Computer Engineering. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256.	In Person Learning	Thu (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 203-L1C	ELEC_V	203	L1C	Basic Circuit Analysis	W1	Ideal passive elements and sources; Kirchhoff's Laws; DC circuits; natural and complete response of first order circuits; operational amplifiers; impedance; phasors; complex power. Not open to students in Electrical and Computer Engineering. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256.	In Person Learning	Tue (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 203-L1D	ELEC_V	203	L1D	Basic Circuit Analysis	W1	Ideal passive elements and sources; Kirchhoff's Laws; DC circuits; natural and complete response of first order circuits; operational amplifiers; impedance; phasors; complex power. Not open to students in Electrical and Computer Engineering. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256.	In Person Learning	Fri (Alternate weeks)	8:00 a.m. - 10:00 a.m.
ELEC_V 203-L1E	ELEC_V	203	L1E	Basic Circuit Analysis	W1	Ideal passive elements and sources; Kirchhoff's Laws; DC circuits; natural and complete response of first order circuits; operational amplifiers; impedance; phasors; complex power. Not open to students in Electrical and Computer Engineering. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256.	In Person Learning	Mon (Alternate weeks)	11:00 a.m. - 1:00 p.m.
ELEC_V 203-T1A	ELEC_V	203	T1A	Basic Circuit Analysis	W1	Ideal passive elements and sources; Kirchhoff's Laws; DC circuits; natural and complete response of first order circuits; operational amplifiers; impedance; phasors; complex power. Not open to students in Electrical and Computer Engineering. This course is not eligible for Credit/D/Fail grading. [3-2*-1] Prerequisite: MATH 101 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 255, MATH 256.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
ELEC_V 204-101	ELEC_V	204	101	Linear Circuits	W1	Basic concepts and analysis techniques in the context of electric and electronic circuits including Bode plots and the Laplace transform. Treatment of RLC circuits, phasors, op-amps. Introduction to nonlinear circuit elements, diodes, BJT, FET circuits. This course is not eligible for Credit/D/Fail grading. [4-0-1] Prerequisite: MATH 152 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 256, MATH 255.	In Person Learning	Tue Thu	3:30 p.m. - 5:30 p.m.
ELEC_V 204-T1A	ELEC_V	204	T1A	Linear Circuits	W1	Basic concepts and analysis techniques in the context of electric and electronic circuits including Bode plots and the Laplace transform. Treatment of RLC circuits, phasors, op-amps. Introduction to nonlinear circuit elements, diodes, BJT, FET circuits. This course is not eligible for Credit/D/Fail grading. [4-0-1] Prerequisite: MATH 152 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: One of MATH 256, MATH 255.	In Person Learning	Tue	1:00 p.m. - 2:00 p.m.
ELEC_V 205-L1A	ELEC_V	205	L1A	Electronics Laboratory	W1	Experiments involving electronic devices and circuits. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: ELEC 204.	In Person Learning	Wed (Alternate weeks)	5:00 p.m. - 7:00 p.m.
ELEC_V 205-L1B	ELEC_V	205	L1B	Electronics Laboratory	W1	Experiments involving electronic devices and circuits. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: ELEC 204.	In Person Learning	Arranged	Arranged
ELEC_V 205-L1C	ELEC_V	205	L1C	Electronics Laboratory	W1	Experiments involving electronic devices and circuits. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: ELEC 204.	In Person Learning	Fri (Alternate weeks)	5:00 p.m. - 7:00 p.m.
ELEC_V 205-L1D	ELEC_V	205	L1D	Electronics Laboratory	W1	Experiments involving electronic devices and circuits. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: ELEC 204.	In Person Learning	Arranged	Arranged
ELEC_V 205-L1F	ELEC_V	205	L1F	Electronics Laboratory	W1	Experiments involving electronic devices and circuits. This course is not eligible for Credit/D/Fail grading. [0-2*-0] Corequisite: ELEC 204.	In Person Learning	Thu (Alternate weeks)	5:30 p.m. - 7:30 p.m.
ELEC_V 211-201	ELEC_V	211	201	Engineering Electromagnetics	W2	Electrostatics, electric currents, dielectrics, capacitance, electrostatic potential, magnetostatics. This course is not eligible for Credit/D/Fail grading. [2-0-1] Prerequisite: One of MATH 263, MATH 253 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: MATH 264.	In Person Learning	Thu	12:00 p.m. - 12:30 p.m.

ELEC_V 211-202	ELEC_V	211	202	Engineering Electromagnetics	W2	Electrostatics, electric currents, dielectrics, capacitance, electrostatic potential, magnetostatics. This course is not eligible for Credit/D/Fail grading. [2-0-1] Prerequisite: One of MATH 263, MATH 253 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: MATH 264.	In Person Learning	Thu	3:00 p.m. - 3:30 p.m.	
ELEC_V 211-T2A	ELEC_V	211	T2A	Engineering Electromagnetics	W2	Electrostatics, electric currents, dielectrics, capacitance, electrostatic potential, magnetostatics. This course is not eligible for Credit/D/Fail grading. [2-0-1] Prerequisite: One of MATH 263, MATH 253 and one of PHYS 108, PHYS 118, PHYS 158. Corequisite: MATH 264.	In Person Learning	Wed (Alternate weeks)	5:00 p.m. - 7:00 p.m.	
ELEC_V 221-101	ELEC_V	221	101	Signals and Systems	W1	Complex numbers, LTI systems, convolution sum, discrete-time Fourier series and transforms, z-transform, sampling, introduction to filtering and modulation, feedback systems, stability. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 256, MATH 255.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.	
ELEC_V 221-201	ELEC_V	221	201	Signals and Systems	W2	Complex numbers, LTI systems, convolution sum, discrete-time Fourier series and transforms, z-transform, sampling, introduction to filtering and modulation, feedback systems, stability. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 256, MATH 255.	In Person Learning	Tue Thu	5:30 p.m. - 7:00 p.m.	
ELEC_V 221-T1A	ELEC_V	221	T1A	Signals and Systems	W1	Complex numbers, LTI systems, convolution sum, discrete-time Fourier series and transforms, z-transform, sampling, introduction to filtering and modulation, feedback systems, stability. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 256, MATH 255.	In Person Learning	Mon	5:30 p.m. - 7:30 p.m.	
ELEC_V 221-T2A	ELEC_V	221	T2A	Signals and Systems	W2	Complex numbers, LTI systems, convolution sum, discrete-time Fourier series and transforms, z-transform, sampling, introduction to filtering and modulation, feedback systems, stability. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of MATH 256, MATH 255.	In Person Learning	Fri	12:00 p.m. - 2:00 p.m.	
ELEC_V 271-201	ELEC_V	271	201	Selected Topics in Biomedical Engineering	W2	Effective communication in a multi-disciplinary environment, introduction to emerging areas of biomedical engineering and biotechnology, ethics, and responsibility. Restricted to students admitted to the Biomedical Engineering program in Electrical Engineering. This course is not eligible for Credit/D/Fail grading. [1-0-0] Corequisite: ELEC 202.	In Person Learning	Tue	10:00 a.m. - 11:00 a.m.	
ELEC_V 281-201	ELEC_V	281	201	Technical Communication	W2	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
ELEC_V 281-202	ELEC_V	281	202	Technical Communication	W2	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
ELEC_V 281-203	ELEC_V	281	203	Technical Communication	W2	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
ELEC_V 281-204	ELEC_V	281	204	Technical Communication	W2	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
ELEC_V 281-205	ELEC_V	281	205	Technical Communication	W2	Written and oral communication in engineering. Technical description, report preparation, business correspondence, and oral presentation of technical material. Restricted to students in second year of Electrical and Computer Engineering programs. Credit will be granted for only one of ELEC 281, CPEN 281, BMEG 201 or APSC 201. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of APSC 176, ENGL 110, ENGL 111, ENGL 112, ENGL 120, ENGL 121, WRDS 150.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.	
ELEC_V 291-201	ELEC_V	291	201	Electrical Engineering Design Studio I	W2	Design projects involving electronic devices and circuits, electromagnetics, signals and systems, and microcomputers. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of ELEC 201, CPEN 211.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.	
ELEC_V 291-L2A	ELEC_V	291	L2A	Electrical Engineering Design Studio I	W2	Design projects involving electronic devices and circuits, electromagnetics, signals and systems, and microcomputers. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of ELEC 201, CPEN 211.	In Person Learning	Tue Thu	1:00 p.m. - 4:00 p.m.	
ELEC_V 291-L2B	ELEC_V	291	L2B	Electrical Engineering Design Studio I	W2	Design projects involving electronic devices and circuits, electromagnetics, signals and systems, and microcomputers. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: All of ELEC 201, CPEN 211.	In Person Learning	Tue Thu	8:00 a.m. - 11:00 a.m.	
ELEC_V 292-201	ELEC_V	292	201	Biomedical Engineering Design Studio	W2	Design projects involving electronic devices and circuits, electromagnetics, signals and systems, microcomputers with applications in biomedical engineering. Final group project requiring oral presentation of student-prepared slides. This course is not eligible for Credit/D/Fail grading. [2-6-0] Corequisite: All of ELEC 201, CPEN 211, ELEC 221.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.	
ELEC_V 292-L2A	ELEC_V	292	L2A	Biomedical Engineering Design Studio	W2	Design projects involving electronic devices and circuits, electromagnetics, signals and systems, microcomputers with applications in biomedical engineering. Final group project requiring oral presentation of student-prepared slides. This course is not eligible for Credit/D/Fail grading. [2-6-0] Corequisite: All of ELEC 201, CPEN 211, ELEC 221.	In Person Learning	Tue Thu	1:00 p.m. - 4:00 p.m.	
ELEC_V 300-R_001	ELEC_V	300	R	R_001	Special Topics in Electrical Engineering	W1-2	Lectures or projects on subjects of current interest. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 2:00 p.m.
ELEC_V 301-101	ELEC_V	301	101	Electronic Circuits	W1	Analysis and design of electronic circuits; biasing of and small-signal models for transistors; frequency response of amplifiers; feedback and stability aspects of amplifier design; OP-AMPS; active filters; oscillators; IC specification and selection. Credit will only be given for one of EECE 356, ELEC 301, and EECE 374. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: Either (a) one of ELEC 201, ELEC 203 and ELEC 202; or (b) ELEC 204.	In Person Learning	Mon	3:30 p.m. - 4:30 p.m.	

ELEC_V 301-201	ELEC_V	301	201	Electronic Circuits	W2	Analysis and design of electronic circuits; biasing of and small-signal models for transistors; frequency response of amplifiers; feedback and stability aspects of amplifier design; OP-AMPs; active filters; oscillators; IC specification and selection. Credit will only be given for one of EECE 356, ELEC 301, and EECE 374. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: Either (a) one of ELEC 201, ELEC 203 and ELEC 202; or (b) ELEC 204.	In Person Learning	Mon Wed	9:00 a.m. - 11:00 a.m.
ELEC_V 302-201	ELEC_V	302	201	Electronic Circuits for Electromechanical Design	W2	Semiconductor fundamentals; modelling of electronic devices including diodes and transistors; design of power supplies, waveform generators and logic circuits; signals in time and frequency domains; operational amplifiers; active filters; oscillators; device specification and selection. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 203, ELEC 204, MECH 221.	In Person Learning	Mon Fri	11:00 a.m. - 12:30 p.m.
ELEC_V 302-L2A	ELEC_V	302	L2A	Electronic Circuits for Electromechanical Design	W2	Semiconductor fundamentals; modelling of electronic devices including diodes and transistors; design of power supplies, waveform generators and logic circuits; signals in time and frequency domains; operational amplifiers; active filters; oscillators; device specification and selection. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 203, ELEC 204, MECH 221.	In Person Learning	Mon (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 302-L2B	ELEC_V	302	L2B	Electronic Circuits for Electromechanical Design	W2	Semiconductor fundamentals; modelling of electronic devices including diodes and transistors; design of power supplies, waveform generators and logic circuits; signals in time and frequency domains; operational amplifiers; active filters; oscillators; device specification and selection. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 203, ELEC 204, MECH 221.	In Person Learning	Tue (Alternate weeks)	1:00 p.m. - 3:00 p.m.
ELEC_V 302-L2C	ELEC_V	302	L2C	Electronic Circuits for Electromechanical Design	W2	Semiconductor fundamentals; modelling of electronic devices including diodes and transistors; design of power supplies, waveform generators and logic circuits; signals in time and frequency domains; operational amplifiers; active filters; oscillators; device specification and selection. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 203, ELEC 204, MECH 221.	In Person Learning	Mon (Alternate weeks)	3:00 p.m. - 5:00 p.m.
ELEC_V 302-L2D	ELEC_V	302	L2D	Electronic Circuits for Electromechanical Design	W2	Semiconductor fundamentals; modelling of electronic devices including diodes and transistors; design of power supplies, waveform generators and logic circuits; signals in time and frequency domains; operational amplifiers; active filters; oscillators; device specification and selection. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 203, ELEC 204, MECH 221.	In Person Learning	Thu (Alternate weeks)	11:00 a.m. - 1:00 p.m.
ELEC_V 302-L2E	ELEC_V	302	L2E	Electronic Circuits for Electromechanical Design	W2	Semiconductor fundamentals; modelling of electronic devices including diodes and transistors; design of power supplies, waveform generators and logic circuits; signals in time and frequency domains; operational amplifiers; active filters; oscillators; device specification and selection. This course is not eligible for Credit/D/Fail grading. [3-2*-0] Prerequisite: One of ELEC 201, ELEC 203, ELEC 204, MECH 221.	In Person Learning	Fri (Alternate weeks)	2:00 p.m. - 4:00 p.m.
ELEC_V 311-101	ELEC_V	311	101	Electromagnetic Fields and Waves	W1	Waves and propagation: Maxwell's equations; applications including transmission lines; impedance matching and Smith charts; reflection and refraction; waveguides and antennas. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: ELEC 211 and either (a) all of MATH 101, MATH 263, MATH 265, MATH 267 or (b) all of MATH 101, MATH 253, MATH 264, MATH 265, MATH 267 or (c) all of MATH 101, MATH 253, MATH 256, MATH 264.	In Person Learning	Wed Fri	11:00 a.m. - 1:00 p.m.
ELEC_V 311-201	ELEC_V	311	201	Electromagnetic Fields and Waves	W2	Waves and propagation: Maxwell's equations; applications including transmission lines; impedance matching and Smith charts; reflection and refraction; waveguides and antennas. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: ELEC 211 and either (a) all of MATH 101, MATH 263, MATH 265, MATH 267 or (b) all of MATH 101, MATH 253, MATH 264, MATH 265, MATH 267 or (c) all of MATH 101, MATH 253, MATH 256, MATH 264.	In Person Learning	Tue Thu	11:00 a.m. - 1:00 p.m.
ELEC_V 315-101	ELEC_V	315	101	Electronic Materials and Devices	W1	Fundamental aspects of electronic materials such as: semiconductors, metals, dielectrics, piezoelectrics, magnetic materials, and their applications in devices such as diodes, transistors, and transducers. Recommended third-year standing in B.A.Sc. This course is not eligible for Credit/D/Fail grading. [4-0-0]	In Person Learning	Wed Fri	9:00 a.m. - 11:00 a.m.
ELEC_V 315-201	ELEC_V	315	201	Electronic Materials and Devices	W2	Fundamental aspects of electronic materials such as: semiconductors, metals, dielectrics, piezoelectrics, magnetic materials, and their applications in devices such as diodes, transistors, and transducers. Recommended third-year standing in B.A.Sc. This course is not eligible for Credit/D/Fail grading. [4-0-0]	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
ELEC_V 331-101	ELEC_V	331	101	Computer Communications	W1	Analysis, design and implementation of computer networks and their protocols. Application layer protocols, transmission control protocol (TCP), Internet protocol (IP), routing algorithms, reliable data transfer, multiple access, Ethernet. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of ELEC 221, CPEN 212, CPSC 261, CPEN 331.	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ELEC_V 331-201	ELEC_V	331	201	Computer Communications	W2	Analysis, design and implementation of computer networks and their protocols. Application layer protocols, transmission control protocol (TCP), Internet protocol (IP), routing algorithms, reliable data transfer, multiple access, Ethernet. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of ELEC 221, CPEN 212, CPSC 261, CPEN 331.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ELEC_V 331-T1A	ELEC_V	331	T1A	Computer Communications	W1	Analysis, design and implementation of computer networks and their protocols. Application layer protocols, transmission control protocol (TCP), Internet protocol (IP), routing algorithms, reliable data transfer, multiple access, Ethernet. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of ELEC 221, CPEN 212, CPSC 261, CPEN 331.	In Person Learning	Arranged	Arranged
ELEC_V 331-T1B	ELEC_V	331	T1B	Computer Communications	W1	Analysis, design and implementation of computer networks and their protocols. Application layer protocols, transmission control protocol (TCP), Internet protocol (IP), routing algorithms, reliable data transfer, multiple access, Ethernet. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of ELEC 221, CPEN 212, CPSC 261, CPEN 331.	In Person Learning	Thu	5:00 p.m. - 6:00 p.m.
ELEC_V 331-T2A	ELEC_V	331	T2A	Computer Communications	W2	Analysis, design and implementation of computer networks and their protocols. Application layer protocols, transmission control protocol (TCP), Internet protocol (IP), routing algorithms, reliable data transfer, multiple access, Ethernet. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: One of ELEC 221, CPEN 212, CPSC 261, CPEN 331.	In Person Learning	Fri	5:00 p.m. - 7:00 p.m.
ELEC_V 341-101	ELEC_V	341	101	Systems and Control	W1	Continuous time system analysis by Laplace transforms; system modelling by transfer function and state space methods; feedback, stability and sensitivity; control design; frequency domain analysis. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: One of ELEC 202, ELEC 204.	In Person Learning	Wed Fri	3:00 p.m. - 5:00 p.m.
ELEC_V 341-201	ELEC_V	341	201	Systems and Control	W2	Continuous time system analysis by Laplace transforms; system modelling by transfer function and state space methods; feedback, stability and sensitivity; control design; frequency domain analysis. This course is not eligible for Credit/D/Fail grading. [4-0-0] Prerequisite: One of ELEC 202, ELEC 204.	In Person Learning	Mon Wed	10:00 a.m. - 12:00 p.m.

ELEC_V 352-201	ELEC_V	352	201	Electric Energy Systems	W2	Overview of three-phase energy systems. High-voltage transmission, low-voltage distribution. Performance of renewable electricity generation. Grid integration of renewable energy systems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of ELEC 202, ELEC 342.	In Person Learning	Tue Thu	4:00 p.m. - 5:30 p.m.
ELEC_V 352-T2A	ELEC_V	352	T2A	Electric Energy Systems	W2	Overview of three-phase energy systems. High-voltage transmission, low-voltage distribution. Performance of renewable electricity generation. Grid integration of renewable energy systems. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: All of ELEC 202, ELEC 342.	In Person Learning	Tue	5:30 p.m. - 7:30 p.m.
ELEC_V 371-201	ELEC_V	371	201	Biomedical Engineering Instrumentation	W2	Theory and experiments involving instruments for general, orthopedic, cardiac and minimally invasive surgery as well as sensors for respiratory, cardiac, bioelectric, biochemical and nervous system measurement. Restricted to students admitted to the Biomedical Engineering option in Electrical Engineering and the Biomedical Engineering program. This course is cross-listed with BMEG 321. Credit will only be given for one of ELEC 371 or BMEG 321. This course is not eligible for Credit/D/Fail grading. [3-1-0] Prerequisite: Either (a) all of MATH 265, MATH 267 or (b) MATH 256; and either (a) all of ELEC 202, ELEC 292 or (b) all of BMEG 220, BMEG 257. Equivalency: BMEG 321	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ELEC_V 371-L2A	ELEC_V	371	L2A	Biomedical Engineering Instrumentation	W2	Theory and experiments involving instruments for general, orthopedic, cardiac and minimally invasive surgery as well as sensors for respiratory, cardiac, bioelectric, biochemical and nervous system measurement. Restricted to students admitted to the Biomedical Engineering option in Electrical Engineering and the Biomedical Engineering program. This course is cross-listed with BMEG 321. Credit will only be given for one of ELEC 371 or BMEG 321. This course is not eligible for Credit/D/Fail grading. [3-1-0] Prerequisite: Either (a) all of MATH 265, MATH 267 or (b) MATH 256; and either (a) all of ELEC 202, ELEC 292 or (b) all of BMEG 220, BMEG 257. Equivalency: BMEG 321	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.
ELEC_V 391-201	ELEC_V	391	201	Electrical Engineering Design Studio II	W2	Introduction to project management. Problem definition. Design principles and practices. Implementation techniques including circuit design, software design, solid modelling, PCBs, assembling, and packaging. Testing and evaluation. Effective presentations. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: One of CPEN 291, ELEC 291, ELEC 292 and two of ELEC 301, ELEC 341, ELEC 311, ELEC 342.	In Person Learning	Mon Wed	3:00 p.m. - 5:00 p.m.
ELEC_V 391-L2A	ELEC_V	391	L2A	Electrical Engineering Design Studio II	W2	Introduction to project management. Problem definition. Design principles and practices. Implementation techniques including circuit design, software design, solid modelling, PCBs, assembling, and packaging. Testing and evaluation. Effective presentations. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: One of CPEN 291, ELEC 291, ELEC 292 and two of ELEC 301, ELEC 341, ELEC 311, ELEC 342.	In Person Learning	Tue Thu	8:00 a.m. - 11:00 a.m.
ELEC_V 391-L2B	ELEC_V	391	L2B	Electrical Engineering Design Studio II	W2	Introduction to project management. Problem definition. Design principles and practices. Implementation techniques including circuit design, software design, solid modelling, PCBs, assembling, and packaging. Testing and evaluation. Effective presentations. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: One of CPEN 291, ELEC 291, ELEC 292 and two of ELEC 301, ELEC 341, ELEC 311, ELEC 342.	In Person Learning	Tue Thu	12:30 p.m. - 3:30 p.m.
ELEC_V 391-L2C	ELEC_V	391	L2C	Electrical Engineering Design Studio II	W2	Introduction to project management. Problem definition. Design principles and practices. Implementation techniques including circuit design, software design, solid modelling, PCBs, assembling, and packaging. Testing and evaluation. Effective presentations. This course is not eligible for Credit/D/Fail grading. [2-6-0] Prerequisite: One of CPEN 291, ELEC 291, ELEC 292 and two of ELEC 301, ELEC 341, ELEC 311, ELEC 342.	In Person Learning	Tue Thu	4:30 p.m. - 7:30 p.m.
ELEC_V 400-N_101	ELEC_V	400	N	N_101	W1	Topics in Electrical Engineering	In Person Learning	Arranged	Arranged
ELEC_V 401-101	ELEC_V	401	101	Analog CMOS Integrated Circuit Design	W1	Design and analysis of analog integrated circuits, with emphasis on CMOS design techniques. Gain stages, opamp design, frequency compensation, oscillators, A/D, D/A converters, PLL, DLL. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: One of ELEC 301, ELEC 302.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ELEC_V 401-T1A	ELEC_V	401	T1A	Analog CMOS Integrated Circuit Design	W1	Design and analysis of analog integrated circuits, with emphasis on CMOS design techniques. Gain stages, opamp design, frequency compensation, oscillators, A/D, D/A converters, PLL, DLL. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: One of ELEC 301, ELEC 302.	In Person Learning	Wed	1:00 p.m. - 2:00 p.m.
ELEC_V 402-101	ELEC_V	402	101	Introduction to VLSI Systems	W1	Static CMOS combinational logic circuits. Standard cells design and layout. Memory element (flip-flop and latch) design. Dynamic logic families. Synchronous logic and timing analysis. Power, scaling, and industry trends. Verification. VHDL/Verilog design, layout and synthesis project using CAD tools. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CPEN 311.	In Person Learning	Tue Thu	5:30 p.m. - 7:00 p.m.
ELEC_V 402-T1A	ELEC_V	402	T1A	Introduction to VLSI Systems	W1	Static CMOS combinational logic circuits. Standard cells design and layout. Memory element (flip-flop and latch) design. Dynamic logic families. Synchronous logic and timing analysis. Power, scaling, and industry trends. Verification. VHDL/Verilog design, layout and synthesis project using CAD tools. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: CPEN 311.	In Person Learning	Fri	4:00 p.m. - 6:00 p.m.
ELEC_V 403-201	ELEC_V	403	201	Advanced Digital VLSI Systems	W2	Logical effort. Noise in digital systems. Low power techniques. Power distribution. SRAM and DRAM design. Non-volatile memory technologies. High speed adder, multiplier and divider design. Clock Trees. Synchronization and FIFO. Scaling, and industry trends. High-speed circuit design and layout project. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: ELEC 402.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ELEC_V 404-201	ELEC_V	404	201	RF Integrated Circuits	W2	Introduction to radio-frequency (RF) communication systems; matching networks, transceiver architectures, low noise amplifiers, mixers, oscillators, etc. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: ELEC 221. Corequisite: ELEC 401.	In Person Learning	Mon Wed	6:30 p.m. - 8:00 p.m.
ELEC_V 404-T2A	ELEC_V	404	T2A	RF Integrated Circuits	W2	Introduction to radio-frequency (RF) communication systems; matching networks, transceiver architectures, low noise amplifiers, mixers, oscillators, etc. This course is not eligible for Credit/D/Fail grading. [3-0-1] Prerequisite: ELEC 221. Corequisite: ELEC 401.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
ELEC_V 411-101	ELEC_V	411	101	Antennas and Propagation	W1	Basic antenna concepts; antennas for low, medium and high frequencies; terrestrial and satellite propagation links; environmental effects on electromagnetic radiation. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of ELEC 311, PHYS 301, PHYS 354.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
ELEC_V 412-101	ELEC_V	412	101	Optical Waveguides and Photonics	W1	Planar dielectric waveguides; single mode optical fibers; integrated optics waveguides and devices; resonators; transfer matrix methods; optical communications links. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
ELEC_V 412-201	ELEC_V	412	201	Optical Waveguides and Photonics	W2	Planar dielectric waveguides; single mode optical fibers; integrated optics waveguides and devices; resonators; transfer matrix methods; optical communications links. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Arranged	Arranged

ELEC_V 413-201	ELEC_V	413	201	Semiconductor Lasers	W2	An introduction to lasers and applications. Theory, modelling, fabrication and performance of semiconductor lasers. Optical communications links. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	4:30 p.m. - 6:00 p.m.
ELEC_V 415-201	ELEC_V	415	201	Semiconductor Devices: Physics, Design and Analysis	W2	Physics of operation, and design and analysis of semiconductor devices of topical interest, e.g., solar cells, LEDs, high-speed MOSFETs, high-frequency HBTs, low-noise HEMTs. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of ELEC 315, PHYS 304.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ELEC_V 421-101	ELEC_V	421	101	Digital Signal and Image Processing	W1	DSP fundamentals; image processing; signal representation; digital filtering; statistical estimation; DSP applications. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: ELEC 221.	In Person Learning	Tue Thu	10:00 a.m. - 11:00 a.m.
ELEC_V 421-T1A	ELEC_V	421	T1A	Digital Signal and Image Processing	W1	DSP fundamentals; image processing; signal representation; digital filtering; statistical estimation; DSP applications. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: ELEC 221.	In Person Learning	Thu	9:00 a.m. - 10:00 a.m.
ELEC_V 422-201	ELEC_V	422	201	Biosignals and Systems	W2	Data acquisition, time and frequency domain analysis, analog and discrete filter design, sampling theory, time-dependent processing, linear prediction, random signals, biomedical system modelling, and stability analysis; introduction to nonlinear systems. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of ELEC 371, ELEC 341, ELEC 221 and one of CPSC 260, CPSC 259 and one of STAT 251, MATH 318, MATH 302, STAT 302.	In Person Learning	Mon Wed	12:30 p.m. - 2:00 p.m.
ELEC_V 431-101	ELEC_V	431	101	Communication Systems I	W1	Review of probability theory, signals and noise; digital communication over Gaussian noise channels, optimal receiver design, modulation techniques and error performance calculations; measure of information, source coding, symbol and stream codes; channel coding, capacity, simple linear block codes; practical applications. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: ELEC 221 and one of ELEC 321, MATH 302, MATH 318, STAT 251, STAT 302, STAT 357.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
ELEC_V 431-201	ELEC_V	431	201	Communication Systems I	W2	Review of probability theory, signals and noise; digital communication over Gaussian noise channels, optimal receiver design, modulation techniques and error performance calculations; measure of information, source coding, symbol and stream codes; channel coding, capacity, simple linear block codes; practical applications. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: ELEC 221 and one of ELEC 321, MATH 302, MATH 318, STAT 251, STAT 302, STAT 357.	In Person Learning	Arranged	Arranged
ELEC_V 433-201	ELEC_V	433	201	Error Control Coding for Communications and Computers	W2	Design techniques, including Hamming, BCH, Reed-Solomon, LDPC and convolutional codes, ARQ techniques, and LFSR implementation of encoding-decoding algorithms. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ELEC_V 441-201	ELEC_V	441	201	Control Systems	W2	Relationships between system parameters and system responses for linear control systems. Design specifications for dynamic and steady-state performance and realization by use of feedback control. Robust design of PID controllers and multivariable controllers. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: ELEC 341.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ELEC_V 442-101	ELEC_V	442	101	Introduction to Robotics	W1	Common manipulator configurations, actuator and sensor technology. Efficient representations and computational methods for real-time microprocessor-based implementation of robot control algorithms. Robot control methods, network equivalents, impedance control. Introduction to teleoperation implementation aspects. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: PHYS 170.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
ELEC_V 442-201	ELEC_V	442	201	Introduction to Robotics	W2	Common manipulator configurations, actuator and sensor technology. Efficient representations and computational methods for real-time microprocessor-based implementation of robot control algorithms. Robot control methods, network equivalents, impedance control. Introduction to teleoperation implementation aspects. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: PHYS 170.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
ELEC_V 451-101	ELEC_V	451	101	Power Electronics	W1	Power diodes, thyristors, transistors and FETs; analysis of idealized circuits with generalized loads; AC-DC, DC-DC, DC-AC, AC-AC converters, modulation techniques, gating circuits; practical design and applications. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ELEC 301, ELEC 344, ELEC 342.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
ELEC_V 451-201	ELEC_V	451	201	Power Electronics	W2	Power diodes, thyristors, transistors and FETs; analysis of idealized circuits with generalized loads; AC-DC, DC-DC, DC-AC, AC-AC converters, modulation techniques, gating circuits; practical design and applications. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ELEC 301, ELEC 344, ELEC 342.	In Person Learning	Arranged	Arranged
ELEC_V 451-L1A	ELEC_V	451	L1A	Power Electronics	W1	Power diodes, thyristors, transistors and FETs; analysis of idealized circuits with generalized loads; AC-DC, DC-DC, DC-AC, AC-AC converters, modulation techniques, gating circuits; practical design and applications. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ELEC 301, ELEC 344, ELEC 342.	In Person Learning	Mon	11:00 a.m. - 2:00 p.m.
ELEC_V 451-L1B	ELEC_V	451	L1B	Power Electronics	W1	Power diodes, thyristors, transistors and FETs; analysis of idealized circuits with generalized loads; AC-DC, DC-DC, DC-AC, AC-AC converters, modulation techniques, gating circuits; practical design and applications. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ELEC 301, ELEC 344, ELEC 342.	In Person Learning	Fri	12:00 p.m. - 3:00 p.m.
ELEC_V 451-L2A	ELEC_V	451	L2A	Power Electronics	W2	Power diodes, thyristors, transistors and FETs; analysis of idealized circuits with generalized loads; AC-DC, DC-DC, DC-AC, AC-AC converters, modulation techniques, gating circuits; practical design and applications. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ELEC 301, ELEC 344, ELEC 342.	In Person Learning	Arranged	Arranged
ELEC_V 451-L2B	ELEC_V	451	L2B	Power Electronics	W2	Power diodes, thyristors, transistors and FETs; analysis of idealized circuits with generalized loads; AC-DC, DC-DC, DC-AC, AC-AC converters, modulation techniques, gating circuits; practical design and applications. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of ELEC 301, ELEC 344, ELEC 342.	In Person Learning	Arranged	Arranged
ELEC_V 453-101	ELEC_V	453	101	Power System Analysis	W1	Transmission and distribution; phasors, complex power; balanced/unbalanced three-phase operation; symmetrical components, sequence networks; voltage regulation; short circuit capacity; circuit breakers; transmission lines, series/shunt impedance; short, medium, and long line models. This course is not eligible for Credit/D/Fail grading. Prerequisite: ELEC 342.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ELEC_V 453-T1A	ELEC_V	453	T1A	Power System Analysis	W1	Transmission and distribution; phasors, complex power; balanced/unbalanced three-phase operation; symmetrical components, sequence networks; voltage regulation; short circuit capacity; circuit breakers; transmission lines, series/shunt impedance; short, medium, and long line models. This course is not eligible for Credit/D/Fail grading. Prerequisite: ELEC 342.	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
ELEC_V 454-201	ELEC_V	454	201	Power System Analysis II	W2	Power system monitoring/control; large networks; automatic generation control; optimum power flow calculations; traveling wave transmission lines; EMTF and MATLAB programs for transients, short-circuit, and transient stability analysis. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: ELEC 453.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.

ELEC_V 454-T2A	ELEC_V	454		T2A	Power System Analysis II	W2	Power system monitoring/control; large networks; automatic generation control; optimum power flow calculations; traveling wave transmission lines; EMTF and MATLAB programs for transients, short-circuit, and transient stability analysis. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: ELEC 453.	In Person Learning	Mon	9:00 a.m. - 11:00 a.m.
ELEC_V 455-201	ELEC_V	455		201	Power Systems Protection	W2	Analysis of disturbances, security of power systems, cascading and blackouts; role and impact of protection; transducers and measuring elements; protection of transmission and distribution systems; protection of generators, substation equipment, special protection systems and relays. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of ELEC 453, ELEC 342.	In Person Learning	Wed	3:30 p.m. - 6:30 p.m.
ELEC_V 456-201	ELEC_V	456		201	Decision Support Methods in Power Systems Operation	W2	Principles; acceptable regions of operation; energy management systems; load flow methods; static and dynamic security; contingency analysis; transient and voltage stability; online stability assessment. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Arranged	Arranged
ELEC_V 457-101	ELEC_V	457		101	Optimization of Power System Operation	W1	Application of linear and nonlinear optimization methods in power systems; constrained optimization; optimal power flow; economic dispatch; electricity market; local prices for active and reactive power; security-constrained OPF; state estimation, reliability analysis. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Fri	4:00 p.m. - 7:00 p.m.
ELEC_V 457-T1A	ELEC_V	457		T1A	Optimization of Power System Operation	W1	Application of linear and nonlinear optimization methods in power systems; constrained optimization; optimal power flow; economic dispatch; electricity market; local prices for active and reactive power; security-constrained OPF; state estimation, reliability analysis. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.
ELEC_V 461-101	ELEC_V	461		101	Nanotechnology in Electronics	W1	Topics of special importance to understanding and designing electronic devices in which quantum effects and the discrete nature of matter become important. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: One of CHEM 312, ELEC 315, PHYS 250, PHYS 304. Corequisite: One of APSC 201, MTRL 478.	In Person Learning	Arranged	Arranged
ELEC_V 462-101	ELEC_V	462		101	Sensors and Actuators in Microsystems	W1	The mechanisms, design, fabrication, and testing of microsensors, actuators, and microelectromechanical systems (MEMS). This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
ELEC_V 463-101	ELEC_V	463		101	Micro/Nanofabrication and Instrumentation Laboratory	W1	Microfabrication methods and nanofabrication techniques. Imaging and characterization of micro and nanostructures. Recommended Prerequisite: ELEC 315. This course is not eligible for Credit/D/Fail grading. [2-3-0]	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
ELEC_V 463-L1A	ELEC_V	463		L1A	Micro/Nanofabrication and Instrumentation Laboratory	W1	Microfabrication methods and nanofabrication techniques. Imaging and characterization of micro and nanostructures. Recommended Prerequisite: ELEC 315. This course is not eligible for Credit/D/Fail grading. [2-3-0]	In Person Learning	Arranged	Arranged
ELEC_V 463-L1B	ELEC_V	463		L1B	Micro/Nanofabrication and Instrumentation Laboratory	W1	Microfabrication methods and nanofabrication techniques. Imaging and characterization of micro and nanostructures. Recommended Prerequisite: ELEC 315. This course is not eligible for Credit/D/Fail grading. [2-3-0]	In Person Learning	Arranged	Arranged
ELEC_V 463-L1C	ELEC_V	463		L1C	Micro/Nanofabrication and Instrumentation Laboratory	W1	Microfabrication methods and nanofabrication techniques. Imaging and characterization of micro and nanostructures. Recommended Prerequisite: ELEC 315. This course is not eligible for Credit/D/Fail grading. [2-3-0]	In Person Learning	Arranged	Arranged
ELEC_V 463-L1D	ELEC_V	463		L1D	Micro/Nanofabrication and Instrumentation Laboratory	W1	Microfabrication methods and nanofabrication techniques. Imaging and characterization of micro and nanostructures. Recommended Prerequisite: ELEC 315. This course is not eligible for Credit/D/Fail grading. [2-3-0]	In Person Learning	Arranged	Arranged
ELEC_V 465-101	ELEC_V	465		101	Microsystems Design	W1	Structured modelling and design practices; multiphysics at microscales; physical limitations in MEMS; interface with electronics; behavioural modelling languages for mixed analog-digital system design. Credit will only be given for one of ELEC 465, or EECE 581. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Arranged	Arranged
ELEC_V 465-201	ELEC_V	465		201	Microsystems Design	W2	Structured modelling and design practices; multiphysics at microscales; physical limitations in MEMS; interface with electronics; behavioural modelling languages for mixed analog-digital system design. Credit will only be given for one of ELEC 465, or EECE 581. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
ELEC_V 471-102	ELEC_V	471		102	Medical Imaging	W1	Physical principles of ultrasound, magnetic resonance, computed tomography, X-ray projection imaging and molecular imaging in medical imaging for diagnostics, therapeutics, and interventions. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of ELEC 371, ELEC 341, ELEC 311, ELEC 221. Equivalency: BMEG420	In Person Learning	Tue Thu	9:00 a.m. - 10:30 a.m.
ELEC_V 473-101	ELEC_V	473		101	Biological Micro-Electro-Mechanical Systems	W1	Principles of sensors, actuators, microfluidics, biotechnology and nanotechnology, with applications in probing, detection, assaying and drug delivery. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	11:30 a.m. - 1:00 p.m.
ELEC_V 481-101	ELEC_V	481		101	Economic Analysis of Engineering Projects	W1	Time-money relationships; economic analysis of alternatives including the effects of interest rates, inflation, depreciation, taxation and uncertainty; cost estimation and budgeting; financial analysis of engineering operations. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ELEC_V 481-201	ELEC_V	481		201	Economic Analysis of Engineering Projects	W2	Time-money relationships; economic analysis of alternatives including the effects of interest rates, inflation, depreciation, taxation and uncertainty; cost estimation and budgeting; financial analysis of engineering operations. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ELEC_V 491-C_001	ELEC_V	491	C	C_001	Electrical Engineering Capstone Design Project	W1-2	Design, analysis, and implementation of solutions in response to a real-world electrical engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: ELEC 391.	In Person Learning	Arranged	Arranged
ELEC_V 491-C_201	ELEC_V	491	C	C_201	Electrical Engineering Capstone Design Project	W2	Design, analysis, and implementation of solutions in response to a real-world electrical engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: ELEC 391.	In Person Learning	Arranged	Arranged
ELEC_V 491-C_A10	ELEC_V	491	C	C_A10	Electrical Engineering Capstone Design Project	W1-2	Design, analysis, and implementation of solutions in response to a real-world electrical engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: ELEC 391.	In Person Learning	Arranged	Arranged
ELEC_V 491-C_CG0	ELEC_V	491	C	C_CG0	Electrical Engineering Capstone Design Project	W1-2	Design, analysis, and implementation of solutions in response to a real-world electrical engineering problem, provided by industry, research laboratories, or other suitable entities. Includes coverage of topics such as project management. This course is not eligible for Credit/D/Fail grading. [2-6-0] or [2-6-0; 2-6-0] Prerequisite: ELEC 391.	In Person Learning	Arranged	Arranged

ELEC_V 499-A_001	ELEC_V	499	A	A_001	Undergraduate Thesis	W1-2	Project in electrical engineering or computer engineering involving design, experimental and/or computer simulation work as selected from topics supplied by faculty members. An individual project thesis is to be prepared according to specifications available from the departmental office. This course is not eligible for Credit/D/Fail grading. [0-6-0] or [0-12-0] The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ELEC_V 499-A_101	ELEC_V	499	A	A_101	Undergraduate Thesis	W1	Project in electrical engineering or computer engineering involving design, experimental and/or computer simulation work as selected from topics supplied by faculty members. An individual project thesis is to be prepared according to specifications available from the departmental office. This course is not eligible for Credit/D/Fail grading. [0-6-0] or [0-12-0] The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ELEC_V 499-A_201	ELEC_V	499	A	A_201	Undergraduate Thesis	W2	Project in electrical engineering or computer engineering involving design, experimental and/or computer simulation work as selected from topics supplied by faculty members. An individual project thesis is to be prepared according to specifications available from the departmental office. This course is not eligible for Credit/D/Fail grading. [0-6-0] or [0-12-0] The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ELEC_V 499-B_001	ELEC_V	499	B	B_001	Undergraduate Thesis	W1-2	Project in electrical engineering or computer engineering involving design, experimental and/or computer simulation work as selected from topics supplied by faculty members. An individual project thesis is to be prepared according to specifications available from the departmental office. This course is not eligible for Credit/D/Fail grading. [0-6-0] or [0-12-0] The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ELEC_V 499-B_102	ELEC_V	499	B	B_102	Undergraduate Thesis	W1	Project in electrical engineering or computer engineering involving design, experimental and/or computer simulation work as selected from topics supplied by faculty members. An individual project thesis is to be prepared according to specifications available from the departmental office. This course is not eligible for Credit/D/Fail grading. [0-6-0] or [0-12-0] The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ELEC_V 499-B_202	ELEC_V	499	B	B_202	Undergraduate Thesis	W2	Project in electrical engineering or computer engineering involving design, experimental and/or computer simulation work as selected from topics supplied by faculty members. An individual project thesis is to be prepared according to specifications available from the departmental office. This course is not eligible for Credit/D/Fail grading. [0-6-0] or [0-12-0] The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
ELEC_V 501-201	ELEC_V	501		201	Analog Integrated Circuit Design	W2	Credit will only be given for one of ELEC 501 or EECE 588. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ELEC_V 502-201	ELEC_V	502		201	Advanced Topics in Very-Large-Scale Integration (VLSI) Design	W2	Credit will only be given for one of ELEC 502 or EECE 579. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ELEC_V 505-101	ELEC_V	505		101	Integrated Circuits for Phase-Locked Loops	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ELEC_V 506-101	ELEC_V	506		101	CMOS Design for Photonics	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ELEC_V 507-101	ELEC_V	507		101	Mixed-Signal and RF Integrated Circuits and Systems Test	W1	Credit will only be given for one of ELEC 507 or EECE 595. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu Fri	3:30 p.m. - 5:00 p.m.
ELEC_V 523-101	ELEC_V	523		101	Medical Imaging	W1	Credit will only be given for one of ELEC 523 or EECE 544. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ELEC_V 524-101	ELEC_V	524		101	Advanced Biophotonics	W1	Credit will only be given for one of ELEC 524 or EECE 535. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ELEC_V 542-201	ELEC_V	542		201	Computational Quantum Methods for the Nanoscale	W2	Credit will only be given for one of ELEC 542 or EECE 531. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ELEC_V 543-201	ELEC_V	543		201	Green Nanoelectronic Devices	W2	Credit will only be given for one of ELEC 543 or EECE 534. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	3:00 p.m. - 6:00 p.m.
ELEC_V 544-101	ELEC_V	544		101	Advanced Microsystems Design	W1	Credit will only be given for one of ELEC 544 or EECE 509. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
ELEC_V 544-201	ELEC_V	544		201	Advanced Microsystems Design	W2	Credit will only be given for one of ELEC 544 or EECE 509. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
ELEC_V 546-101	ELEC_V	546		101	Micro and Nano Fabrication Technologies	W1	Credit will only be given for one of ELEC 546 or EECE 573. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

ENGL_V 111-L10	ENGL_V	111	L10	Approaches to Language and Communication	W1	Study of selected communication genres from a language-based perspective: examples may include non-fiction, science writing, business discourse, journalism, language of the internet, podcasts, and other media. Essays are required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
ENGL_V 111-L20	ENGL_V	111	L20	Approaches to Language and Communication	W2	Study of selected communication genres from a language-based perspective: examples may include non-fiction, science writing, business discourse, journalism, language of the internet, podcasts, and other media. Essays are required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
ENGL_V 111-L21	ENGL_V	111	L21	Approaches to Language and Communication	W2	Study of selected communication genres from a language-based perspective: examples may include non-fiction, science writing, business discourse, journalism, language of the internet, podcasts, and other media. Essays are required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
ENGL_V 111-L22	ENGL_V	111	L22	Approaches to Language and Communication	W2	Study of selected communication genres from a language-based perspective: examples may include non-fiction, science writing, business discourse, journalism, language of the internet, podcasts, and other media. Essays are required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
ENGL_V 111-L23	ENGL_V	111	L23	Approaches to Language and Communication	W2	Study of selected communication genres from a language-based perspective: examples may include non-fiction, science writing, business discourse, journalism, language of the internet, podcasts, and other media. Essays are required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
ENGL_V 140-001	ENGL_V	140	001	Challenging Language Myths	W1	Critical consideration of a broad range of commonly held beliefs about language and its relation to the brain and cognition, learning, society, change and evolution. Note: This is an elective course that does not fulfill writing requirements in any faculty or the literature requirement in the Faculty of Arts. Credit will be granted for only one of ENGL 140 or LING 140. This course is not eligible for Credit/D/Fail grading. Equivalency: LING140	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ENGL_V 200-001	ENGL_V	200	001	Principles of Literary Studies	W1	A collaboratively-taught exploration and application of key scholarly, theoretical and critical approaches informing the study of literatures in English. For ENGL courses at the 200- or 300-level, prior completion of at least one 100-level ENGL course is recommended. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	10:00 a.m. - 11:00 a.m.

ENPH_V 480-L2A	ENPH_V	480	L2A	Engineering Physics Project IV	W2	An optional course for those students wishing to continue their project work beyond the development in ENPH 479. This course is not eligible for Credit/D/Fail grading. [0-6-0] Prerequisite: ENPH 479.	In Person Learning	Arranged	Arranged
ENPH_V 481-101	ENPH_V	481	101	Entrepreneurial Projects I	W1	A project course for students pursuing entrepreneurial training within Engineering Physics, and wishing to further develop projects resulting from ENPH 459. This course is not eligible for Credit/D/Fail grading. [0-5-1] Prerequisite: ENPH 459.	In Person Learning	Arranged	Arranged
ENPH_V 481-201	ENPH_V	481	201	Entrepreneurial Projects I	W2	A project course for students pursuing entrepreneurial training within Engineering Physics, and wishing to further develop projects resulting from ENPH 459. This course is not eligible for Credit/D/Fail grading. [0-5-1] Prerequisite: ENPH 459.	In Person Learning	Arranged	Arranged
ENPH_V 481-L1A	ENPH_V	481	L1A	Entrepreneurial Projects I	W1	A project course for students pursuing entrepreneurial training within Engineering Physics, and wishing to further develop projects resulting from ENPH 459. This course is not eligible for Credit/D/Fail grading. [0-5-1] Prerequisite: ENPH 459.	In Person Learning	Arranged	Arranged
ENPH_V 481-L2A	ENPH_V	481	L2A	Entrepreneurial Projects I	W2	A project course for students pursuing entrepreneurial training within Engineering Physics, and wishing to further develop projects resulting from ENPH 459. This course is not eligible for Credit/D/Fail grading. [0-5-1] Prerequisite: ENPH 459.	In Person Learning	Arranged	Arranged
ENST_V 211-199	ENST_V	211	199	The State of the Earth	W1	The demographic, economic, ecological, and technological factors that underlie current environmental challenges, considering their effects to date and their possible impact in the future. Credit will only be granted for one of GEOG 211 or ENST 211. Recommended: Second-year standing. Equivalency: GEOG 211	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ENST_V 211-201	ENST_V	211	201	The State of the Earth	W2	The demographic, economic, ecological, and technological factors that underlie current environmental challenges, considering their effects to date and their possible impact in the future. Credit will only be granted for one of GEOG 211 or ENST 211. Recommended: Second-year standing. Equivalency: GEOG 211	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ENST_V 310-101	ENST_V	310	101	Environment and Sustainability	W1	Concepts of environment, resources and sustainability; the roles of physical and human geography in understanding the interaction of humans and the environment; introduction to management of environment-resource systems. Credit will be granted for only one of ENST 310 or GEOG 310. Equivalency: GEOG310	Online Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
ENST_V 310-201	ENST_V	310	201	Environment and Sustainability	W2	Concepts of environment, resources and sustainability; the roles of physical and human geography in understanding the interaction of humans and the environment; introduction to management of environment-resource systems. Credit will be granted for only one of ENST 310 or GEOG 310. Equivalency: GEOG310	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
ENST_V 311-101	ENST_V	311	101	Urban Environments	W1	The impact of urban development on the natural environment and vice versa. Study of the ecology and metabolism of cities and green urban design, using global and local case studies. Credit will be granted for only one of ENST 311 or GEOG 311. Equivalency: GEOG 311	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.

ENST_V 311-201	ENST_V	311	201	Urban Environments	W2	The impact of urban development on the natural environment and vice versa. Study of the ecology and metabolism of cities and green urban design, using global and local case studies. Credit will be granted for only one of ENST 311 or GEOG 311. Equivalency: GEOG 311	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ENST_V 312-101	ENST_V	312	101	Climate Change: Science and Society	W1	Climates over the geological, historical and instrument periods. Theories of climatic change. Monitoring and modelling the climate system. Impacts of change on environmental and socio-economic systems. Credit will be granted for only one of ENST 312 or GEOG 312. Recommended pre-requisites: one of GEOS 102, GEOB 102, GEOS 200, GEOB 200, GEOS 204, GEOB 204, ATSC 201, EOCS 112 and 3rd year standing. Equivalency: GEOG 312	In Person Learning	Mon Wed	2:00 p.m. - 3:30 p.m.
ENST_V 319-101	ENST_V	319	101	Environmental Impact Assessment	W1	The principles, implementation, and role of environmental impact assessment in environmental management, in Canada and internationally. Credit will be granted for only one of ENST 319 or GEOG 319. Equivalency: GEOG 319	Hybrid Learning	Wed	3:30 p.m. - 5:00 p.m.
ENST_V 351-201	ENST_V	351	201	Urban Environmental Politics	W2	Effects of urbanization and global environmental change on the geographies of cities across the world. Specific focus on urban environmental justice and inequality. Credit will be granted for only one of ENST 351 or GEOG 351. Equivalency: GEOG 351	In Person Learning	Wed Fri	11:00 a.m. - 12:30 p.m.
ENVE_V 200-101	ENVE_V	200	101	Environmental Engineering Design and Decision Making	W1	Environmental Engineering design and decision-making, analysis tools and techniques, data illustration and other communication techniques, professional development including ethics and equity. Subject themes include water, air and soil. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: Second-year standing in ENVL	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ENVE_V 200-T1A	ENVE_V	200	T1A	Environmental Engineering Design and Decision Making	W1	Environmental Engineering design and decision-making, analysis tools and techniques, data illustration and other communication techniques, professional development including ethics and equity. Subject themes include water, air and soil. This course is not eligible for Credit/D/Fail grading. [3-0-2] Prerequisite: Second-year standing in ENVL	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
ENVE_V 201-201	ENVE_V	201	201	Technical Communications for Environmental Engineering	W2	All aspects of technical communication, including report preparation, business correspondence, and oral presentation, applied to environmental engineering specific cases and projects. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: WRDS 150. or equivalent (ENGL 100, 110, 111 or 112) Corequisite: ENVE 203.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
ENVE_V 202-201	ENVE_V	202	201	Environmental Engineering Science	W2	Analysis of integrated environmental systems, quantification of fundamental chemical and biological processes, systems design, evaluation of environmental impact, future trends. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: Four of CHEM 154, CIVL 204, CHBE 241.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
ENVE_V 202-L2A	ENVE_V	202	L2A	Environmental Engineering Science	W2	Analysis of integrated environmental systems, quantification of fundamental chemical and biological processes, systems design, evaluation of environmental impact, future trends. This course is not eligible for Credit/D/Fail grading. [3-2-0] Prerequisite: Four of CHEM 154, CIVL 204, CHBE 241.	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
ENVE_V 203-201	ENVE_V	203	201	Environmental Engineering and Sustainability	W2	Sustainability vocabulary and systems theory relevant to environmental engineering practice, foundational sustainability topics including those relating to urban ecology, industrial ecology/circular economy, and humanitarian engineering, stakeholder analysis, communication, and adaptive change leadership skills [3-0-2] Prerequisite: ENVE 200. or third-year standing in ENVE.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
ENVE_V 203-T2A	ENVE_V	203	T2A	Environmental Engineering and Sustainability	W2	Sustainability vocabulary and systems theory relevant to environmental engineering practice, foundational sustainability topics including those relating to urban ecology, industrial ecology/circular economy, and humanitarian engineering, stakeholder analysis, communication, and adaptive change leadership skills [3-0-2] Prerequisite: ENVE 200. or third-year standing in ENVE.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
ENVE_V 203-T2B	ENVE_V	203	T2B	Environmental Engineering and Sustainability	W2	Sustainability vocabulary and systems theory relevant to environmental engineering practice, foundational sustainability topics including those relating to urban ecology, industrial ecology/circular economy, and humanitarian engineering, stakeholder analysis, communication, and adaptive change leadership skills [3-0-2] Prerequisite: ENVE 200. or third-year standing in ENVE.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
ENVE_V 301-201	ENVE_V	301	201	Environmental Engineering Intermediate Design Project	W2	Real-time, fully-integrated, conceptual and detailed design experiences that address an ill-structured, socially and technically complex environmental engineering problem for communities with consideration to the cultural history and needs of the communities. This course is not eligible for Credit/D/Fail grading. [2-0-3] Prerequisite: Third-year standing in ENVL or third-year standing in ENVE. Corequisite: ENVE 203.	In Person Learning	Thu	8:30 a.m. - 9:30 a.m.
ENVE_V 301-T2A	ENVE_V	301	T2A	Environmental Engineering Intermediate Design Project	W2	Real-time, fully-integrated, conceptual and detailed design experiences that address an ill-structured, socially and technically complex environmental engineering problem for communities with consideration to the cultural history and needs of the communities. This course is not eligible for Credit/D/Fail grading. [2-0-3] Prerequisite: Third-year standing in ENVL or third-year standing in ENVE. Corequisite: ENVE 203.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
ENVE_V 401-001	ENVE_V	401	001	Environmental Engineering Capstone Project	W1-2	Application of chemical, biological, and environmental science; engineering concepts; sustainable development and health and safety considerations; engineering economics; and life cycle analysis. Conceptual and detailed design for a multi-scale and complex environment health and protection problem. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: ENVE 301. and Fourth-year standing in ENVL.	In Person Learning	Fri	11:00 a.m. - 12:00 p.m.
ENVE_V 401-DNU_001	ENVE_V	401	DNU_001	Environmental Engineering Capstone Project	W2	Application of chemical, biological, and environmental science; engineering concepts; sustainable development and health and safety considerations; engineering economics; and life cycle analysis. Conceptual and detailed design for a multi-scale and complex environment health and protection problem. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: ENVE 301. and Fourth-year standing in ENVL.	In Person Learning	Arranged	Arranged
ENVE_V 401-TOA	ENVE_V	401	TOA	Environmental Engineering Capstone Project	W1-2	Application of chemical, biological, and environmental science; engineering concepts; sustainable development and health and safety considerations; engineering economics; and life cycle analysis. Conceptual and detailed design for a multi-scale and complex environment health and protection problem. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: ENVE 301. and Fourth-year standing in ENVL.	In Person Learning	Wed Fri	3:00 p.m. - 5:00 p.m.
ENVE_V 401-TOB	ENVE_V	401	TOB	Environmental Engineering Capstone Project	W1-2	Application of chemical, biological, and environmental science; engineering concepts; sustainable development and health and safety considerations; engineering economics; and life cycle analysis. Conceptual and detailed design for a multi-scale and complex environment health and protection problem. This course is not eligible for Credit/D/Fail grading. [2-0-4; 2-0-4] Prerequisite: ENVE 301. and Fourth-year standing in ENVL.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
ENVR_V 200-101	ENVR_V	200	101	Introduction to Environmental Science	W1	Seminars and field trips introducing the major global, regional, and local environmental issues facing human societies. [3-0-0] Prerequisite: Open to all students with second-year, or higher, standing.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
ENVR_V 200-201	ENVR_V	200	201	Introduction to Environmental Science	W2	Seminars and field trips introducing the major global, regional, and local environmental issues facing human societies. [3-0-0] Prerequisite: Open to all students with second-year, or higher, standing.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.

ENVR_V 200-T01	ENVR_V	200	T01	Introduction to Environmental Science	W1	Seminars and field trips introducing the major global, regional, and local environmental issues facing human societies. [3-0-0] Prerequisite: Open to all students with second-year, or higher, standing.	In Person Learning	Arranged	Arranged
ENVR_V 200-T02	ENVR_V	200	T02	Introduction to Environmental Science	W2	Seminars and field trips introducing the major global, regional, and local environmental issues facing human societies. [3-0-0] Prerequisite: Open to all students with second-year, or higher, standing.	In Person Learning	Arranged	Arranged
ENVR_V 201-101	ENVR_V	201	101	Climate Action Lab 1	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0]	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ENVR_V 201-102	ENVR_V	201	102	Climate Action Lab 1	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0]	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ENVR_V 201-L1A	ENVR_V	201	L1A	Climate Action Lab 1	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0]	In Person Learning	Arranged	Arranged
ENVR_V 300-201	ENVR_V	300	201	Introduction to Research in Environmental Science	W2	Environmental research. Students investigate research methodologies and reporting in a range of scientific disciplines and fields. [3-0-0] Prerequisite: Open to all students with third-year, or higher, standing in the Faculty of Science.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
ENVR_V 300-L1A	ENVR_V	300	L1A	Introduction to Research in Environmental Science	W1	Environmental research. Students investigate research methodologies and reporting in a range of scientific disciplines and fields. [3-0-0] Prerequisite: Open to all students with third-year, or higher, standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 300-L2A	ENVR_V	300	L2A	Introduction to Research in Environmental Science	W2	Environmental research. Students investigate research methodologies and reporting in a range of scientific disciplines and fields. [3-0-0] Prerequisite: Open to all students with third-year, or higher, standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 301-101	ENVR_V	301	101	Climate Action Lab 2	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: ENVR 201.	In Person Learning	Arranged	Arranged
ENVR_V 301-102	ENVR_V	301	102	Climate Action Lab 2	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: ENVR 201.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ENVR_V 301-L1A	ENVR_V	301	L1A	Climate Action Lab 2	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: ENVR 201.	In Person Learning	Arranged	Arranged
ENVR_V 302-101	ENVR_V	302	101	Climate Action Lab 1 and 2	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-3-0] Prerequisite: 3rd year standing and approval from the Climate Studies and Action Certificate Program Administrator.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ENVR_V 302-102	ENVR_V	302	102	Climate Action Lab 1 and 2	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-3-0] Prerequisite: 3rd year standing and approval from the Climate Studies and Action Certificate Program Administrator.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ENVR_V 302-L1A	ENVR_V	302	L1A	Climate Action Lab 1 and 2	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-3-0] Prerequisite: 3rd year standing and approval from the Climate Studies and Action Certificate Program Administrator.	In Person Learning	Arranged	Arranged
ENVR_V 400-001	ENVR_V	400	001	Community Project in Environmental Science	W1-2	Instructor-guided collaboration between student teams and community partners on community-based environmental science projects. Teams articulate project questions and goals, devise methods, conduct research and communicate results. Credit will be given for only one of ENVR 400 or ENVR 449. [3-0-0; 3-0-0] Prerequisite: ENVR 300.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
ENVR_V 400-101	ENVR_V	400	L01	Community Project in Environmental Science	W1-2	Instructor-guided collaboration between student teams and community partners on community-based environmental science projects. Teams articulate project questions and goals, devise methods, conduct research and communicate results. Credit will be given for only one of ENVR 400 or ENVR 449. [3-0-0; 3-0-0] Prerequisite: ENVR 300.	In Person Learning	Arranged	Arranged
ENVR_V 401-101	ENVR_V	401	101	Climate Action Lab 3	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: One of ENVR 301, ENVR 302.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ENVR_V 401-102	ENVR_V	401	102	Climate Action Lab 3	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: One of ENVR 301, ENVR 302.	In Person Learning	Arranged	Arranged
ENVR_V 401-103	ENVR_V	401	103	Climate Action Lab 3	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: One of ENVR 301, ENVR 302.	In Person Learning	Mon Wed	5:00 p.m. - 6:30 p.m.
ENVR_V 401-L1A	ENVR_V	401	L1A	Climate Action Lab 3	W1	Community-engaged climate action projects; skill building for climate action. Pass/Fail This course is not eligible for Credit/D/Fail grading. [0-2-0] Prerequisite: One of ENVR 301, ENVR 302.	In Person Learning	Arranged	Arranged
ENVR_V 402-201	ENVR_V	402	201	Climate Studies and Action Capstone	W2	Instructor-guided collaboration between student teams and community partners on climate action projects. [3-0-0] Prerequisite: ENVR 401.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
ENVR_V 410-101	ENVR_V	410	101	Energy, Environment, and Society	W1	The role of energy in human societies throughout history and the environmental and social implications of energy use. Coverage of both the science and policy of energy use. Energy supply and demand, energy transitions, analytical tools, impacts, and alternatives. [3-0-0] Prerequisite: Fourth-year standing in B.Sc., B.A.Sc. or related programs.	In Person Learning	Arranged	Arranged

ENVR_V 410-201	ENVR_V	410		201	Energy, Environment, and Society	W2	The role of energy in human societies throughout history and the environmental and social implications of energy use. Coverage of both the science and policy of energy use. Energy supply and demand, energy transitions, analytical tools, impacts, and alternatives. [3-0-0] Prerequisite: Fourth-year standing in B.Sc., B.A.Sc. or related programs.	In Person Learning	Arranged	Arranged
ENVR_V 420-201	ENVR_V	420		201	Ecohydrology of Watersheds and Water Systems	W2	Analysis of water resources from a water-in-ecosystem perspective. Application to natural, managed, and urban systems, considering ecological interactions with hydrological processes. Exploration of biogeochemical processes related to water quality, and human impacts on water resources. [3-0-0] Prerequisite: Third or fourth-year standing in Science, Applied Science, Land and Food Systems, or Forestry.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
ENVR_V 430-101	ENVR_V	430		101	Ecological Dimensions of Sustainability	W1	Current issues. Application to agricultural, energy, and resource systems in terrestrial and aquatic contexts. Analysis of complex problems; incorporation of science into novel interdisciplinary solutions. [3-0-0] Prerequisite: Class standing 3, and either (1) one of ENVR 300, BIOL 230, FRST 201 or (2) other demonstrated ecology background.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.
ENVR_V 430-201	ENVR_V	430		201	Ecological Dimensions of Sustainability	W2	Current issues. Application to agricultural, energy, and resource systems in terrestrial and aquatic contexts. Analysis of complex problems; incorporation of science into novel interdisciplinary solutions. [3-0-0] Prerequisite: Class standing 3, and either (1) one of ENVR 300, BIOL 230, FRST 201 or (2) other demonstrated ecology background.	In Person Learning	Arranged	Arranged
ENVR_V 440-201	ENVR_V	440		201	Analytical Methods in Sustainability Science	W2	Sustainability analysis through a series of case studies. Example approaches include cost-benefit analysis, trade-offs analysis, and life-cycle analysis. Active learning in a computer lab using real-world data. [2-2-0] Prerequisite: One of ENVR 200, ASIC 220, SCIE 220, GEOG 211. Third-year standing.	In Person Learning	Wed Fri	2:00 p.m. - 4:00 p.m.
ENVR_V 448-A_101	ENVR_V	448	A	A_101	Directed Studies in Environmental Science	W1	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 448-A_102	ENVR_V	448	A	A_102	Directed Studies in Environmental Science	W1	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 448-A_201	ENVR_V	448	A	A_201	Directed Studies in Environmental Science	W2	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 448-A_202	ENVR_V	448	A	A_202	Directed Studies in Environmental Science	W2	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 448-B_001	ENVR_V	448	B	B_001	Directed Studies in Environmental Science	W1-2	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 448-B_201	ENVR_V	448	B	B_201	Directed Studies in Environmental Science	W2	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 448-B_202	ENVR_V	448	B	B_202	Directed Studies in Environmental Science	W2	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
ENVR_V 448-C_001	ENVR_V	448	C	C_001	Directed Studies in Environmental Science	W1	Investigation of a topic to be agreed upon by a member of the faculty and the student. Permission of an ENSC advisor and of the supervising faculty member is required prior to registration. Prerequisite: Third year standing in the Faculty of Science.	In Person Learning	Arranged	Arranged
ENVR_V 449-001	ENVR_V	449		001	Environmental Science HonoursThesis	W1-2	[3-0-0] Prerequisite: [ENVR300] and fourth-year standing in the B.Sc. Environmental Sciences honours program.	In Person Learning	Arranged	Arranged
EOSC_V 110-101	EOSC_V	110		101	The Solid Earth: A Dynamic Planet	W1	Earth's origin, composition, structure, and natural resources. Plate tectonics as the driving force for volcanism, mountain building, and earthquakes. Imaging Earth's interior. Environmental geoscience and sustainability. (Consult the Credit Exclusion list for the Faculty of Science section of the Calendar.) [3-0-0]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
EOSC_V 110-201	EOSC_V	110		201	The Solid Earth: A Dynamic Planet	W2	Earth's origin, composition, structure, and natural resources. Plate tectonics as the driving force for volcanism, mountain building, and earthquakes. Imaging Earth's interior. Environmental geoscience and sustainability. (Consult the Credit Exclusion list for the Faculty of Science section of the Calendar.) [3-0-0]	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
EOSC_V 110-V01	EOSC_V	110		V01	The Solid Earth: A Dynamic Planet	W2	Earth's origin, composition, structure, and natural resources. Plate tectonics as the driving force for volcanism, mountain building, and earthquakes. Imaging Earth's interior. Environmental geoscience and sustainability. (Consult the Credit Exclusion list for the Faculty of Science section of the Calendar.) [3-0-0]	In Person Learning	Arranged	Arranged
EOSC_V 111-L1A	EOSC_V	111		L1A	Laboratory Exploration of Planet Earth	W1	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOSC 110, EOSC 112, EOSC 114, EOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Tue	11:00 a.m. - 2:00 p.m.
EOSC_V 111-L1B	EOSC_V	111		L1B	Laboratory Exploration of Planet Earth	W1	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOSC 110, EOSC 112, EOSC 114, EOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
EOSC_V 111-L1C	EOSC_V	111		L1C	Laboratory Exploration of Planet Earth	W1	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOSC 110, EOSC 112, EOSC 114, EOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
EOSC_V 111-L1D	EOSC_V	111		L1D	Laboratory Exploration of Planet Earth	W1	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOSC 110, EOSC 112, EOSC 114, EOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Thu	11:00 a.m. - 2:00 p.m.
EOSC_V 111-L1E	EOSC_V	111		L1E	Laboratory Exploration of Planet Earth	W1	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOSC 110, EOSC 112, EOSC 114, EOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Thu	8:00 a.m. - 11:00 a.m.

EOSC_V 111-L2A	EOSC_V	111	L2A	Laboratory Exploration of Planet Earth	W2	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOOSC 110, EOOSC 112, EOOSC 114, EOOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Thu	11:00 a.m. - 2:00 p.m.
EOSC_V 111-L2B	EOSC_V	111	L2B	Laboratory Exploration of Planet Earth	W2	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOOSC 110, EOOSC 112, EOOSC 114, EOOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Tue	8:00 a.m. - 11:00 a.m.
EOSC_V 111-L2C	EOSC_V	111	L2C	Laboratory Exploration of Planet Earth	W2	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOOSC 110, EOOSC 112, EOOSC 114, EOOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Tue	11:00 a.m. - 2:00 p.m.
EOSC_V 111-L2D	EOSC_V	111	L2D	Laboratory Exploration of Planet Earth	W2	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOOSC 110, EOOSC 112, EOOSC 114, EOOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
EOSC_V 111-L2E	EOSC_V	111	L2E	Laboratory Exploration of Planet Earth	W2	An examination of the processes that shape and change the planet earth. This laboratory course is an appropriate complement to EOOSC 110, EOOSC 112, EOOSC 114, EOOSC 116 but can also be taken independently. [0-3-0]	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
EOSC_V 112-101	EOSC_V	112	101	The Climate System	W1	Introduction to Earth's climate system: radiation balance, greenhouse effect, atmosphere and ocean circulation, plate tectonics, biosphere interactions, and the carbon cycle. Applications to understand the causes of climate change, from long-term climate evolution to modern human-induced climate change. (Consult the Credit Exclusion list, within the Faculty of Science section in the Calendar.) [3-0-0]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
EOSC_V 112-201	EOSC_V	112	201	The Climate System	W2	Introduction to Earth's climate system: radiation balance, greenhouse effect, atmosphere and ocean circulation, plate tectonics, biosphere interactions, and the carbon cycle. Applications to understand the causes of climate change, from long-term climate evolution to modern human-induced climate change. (Consult the Credit Exclusion list, within the Faculty of Science section in the Calendar.) [3-0-0]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
EOSC_V 114-101	EOSC_V	114	101	The Catastrophic Earth: Natural Disasters	W1	Introduction to causes and physical characteristics of disasters such as volcanic eruptions, earthquakes, tsunamis, hurricanes, storm surge, thunderstorms, tornadoes, landslides, wind waves, meteor impacts, mass extinctions. [3-0-0]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
EOSC_V 114-102	EOSC_V	114	102	The Catastrophic Earth: Natural Disasters	W1	Introduction to causes and physical characteristics of disasters such as volcanic eruptions, earthquakes, tsunamis, hurricanes, storm surge, thunderstorms, tornadoes, landslides, wind waves, meteor impacts, mass extinctions. [3-0-0]	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
EOSC_V 114-201	EOSC_V	114	201	The Catastrophic Earth: Natural Disasters	W2	Introduction to causes and physical characteristics of disasters such as volcanic eruptions, earthquakes, tsunamis, hurricanes, storm surge, thunderstorms, tornadoes, landslides, wind waves, meteor impacts, mass extinctions. [3-0-0]	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
EOSC_V 114-202	EOSC_V	114	202	The Catastrophic Earth: Natural Disasters	W2	Introduction to causes and physical characteristics of disasters such as volcanic eruptions, earthquakes, tsunamis, hurricanes, storm surge, thunderstorms, tornadoes, landslides, wind waves, meteor impacts, mass extinctions. [3-0-0]	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
EOSC_V 114-99A	EOSC_V	114	99A	The Catastrophic Earth: Natural Disasters	W1	Introduction to causes and physical characteristics of disasters such as volcanic eruptions, earthquakes, tsunamis, hurricanes, storm surge, thunderstorms, tornadoes, landslides, wind waves, meteor impacts, mass extinctions. EOSC_V 116-201	EOSC_V	116	201	Mesozoic Earth: Time of the Dinosaurs.	W2	Earth's tectonics, climate, and oceans during the time of the dinosaurs. Reading the fossil record of Earth from its earliest origins up to and including the Mesozoic, 250 - 65 million years ago. [3-0-0]	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
EOSC_V 116-99A	EOSC_V	116	99A	Mesozoic Earth: Time of the Dinosaurs.	W1	Earth's tectonics, climate, and oceans during the time of the dinosaurs. Reading the fossil record of Earth from its earliest origins up to and including the Mesozoic, 250 - 65 million years ago. [3-0-0]	Hybrid Learning	Arranged	Arranged
EOSC_V 116-99C	EOSC_V	116	99C	Mesozoic Earth: Time of the Dinosaurs.	W2	Earth's tectonics, climate, and oceans during the time of the dinosaurs. Reading the fossil record of Earth from its earliest origins up to and including the Mesozoic, 250 - 65 million years ago. [3-0-0]	Hybrid Learning	Arranged	Arranged
EOSC_V 118-99A	EOSC_V	118	99A	Earth's Treasures: Gold and Gems	W1	Origin, properties, valuation, prospecting and geology of gold, platinum, silver, diamonds, rubies, emeralds, and other precious metals and gems. [3-0-0]	Hybrid Learning	Arranged	Arranged
EOSC_V 118-99B	EOSC_V	118	99B	Earth's Treasures: Gold and Gems	W1	Origin, properties, valuation, prospecting and geology of gold, platinum, silver, diamonds, rubies, emeralds, and other precious metals and gems. [3-0-0]	In Person Learning	Arranged	Arranged
EOSC_V 118-99C	EOSC_V	118	99C	Earth's Treasures: Gold and Gems	W2	Origin, properties, valuation, prospecting and geology of gold, platinum, silver, diamonds, rubies, emeralds, and other precious metals and gems. [3-0-0]	Hybrid Learning	Arranged	Arranged
EOSC_V 118-99D	EOSC_V	118	99D	Earth's Treasures: Gold and Gems	W2	Origin, properties, valuation, prospecting and geology of gold, platinum, silver, diamonds, rubies, emeralds, and other precious metals and gems. [3-0-0]	In Person Learning	Arranged	Arranged

EOSC_V 210-101	EOSC_V	210	101	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
EOSC_V 210-L1A	EOSC_V	210	L1A	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Wed	5:00 p.m. - 7:00 p.m.
EOSC_V 210-L1B	EOSC_V	210	L1B	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Fri	4:00 p.m. - 6:00 p.m.
EOSC_V 210-L1C	EOSC_V	210	L1C	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
EOSC_V 210-L1D	EOSC_V	210	L1D	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Fri	8:00 a.m. - 10:00 a.m.
EOSC_V 210-L1E	EOSC_V	210	L1E	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
EOSC_V 210-L1F	EOSC_V	210	L1F	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Thu	4:00 p.m. - 6:00 p.m.
EOSC_V 210-L1G	EOSC_V	210	L1G	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Thu	1:00 p.m. - 3:00 p.m.
EOSC_V 210-L1H	EOSC_V	210	L1H	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
EOSC_V 210-L1I	EOSC_V	210	L1I	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.
EOSC_V 210-L1J	EOSC_V	210	L1J	Earth Science for Engineers	W1	Focus on the interaction between society and the geologic environment. Locating, assessing and developing natural resources; understanding and preparing for natural hazards, design of structures and waste disposal sites. [3-2-0] Corequisite: One of CIVL 215, MINE 200.	In Person Learning	Wed	9:00 a.m. - 11:00 a.m.
EOSC_V 211-101	EOSC_V	211	101	Computer Methods in Earth, Ocean and Atmospheric Sciences	W1	Mathematical computer-based problem solving in the physical, chemical, and biological sciences. Problems drawn from studies of the earth, the oceans and the atmosphere. Credit will be granted for only one of APSC 160 or EOSC 211. [2-0-2] Prerequisite: One of MATH 101, MATH 103, MATH 105, MATH 121, SCIE 001.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
EOSC_V 211-L1A	EOSC_V	211	L1A	Computer Methods in Earth, Ocean and Atmospheric Sciences	W1	Mathematical computer-based problem solving in the physical, chemical, and biological sciences. Problems drawn from studies of the earth, the oceans and the atmosphere. Credit will be granted for only one of APSC 160 or EOSC 211. [2-0-2] Prerequisite: One of MATH 101, MATH 103, MATH 105, MATH 121, SCIE 001.	In Person Learning	Wed	4:00 p.m. - 6:00 p.m.
EOSC_V 211-L1B	EOSC_V	211	L1B	Computer Methods in Earth, Ocean and Atmospheric Sciences	W1	Mathematical computer-based problem solving in the physical, chemical, and biological sciences. Problems drawn from studies of the earth, the oceans and the atmosphere. Credit will be granted for only one of APSC 160 or EOSC 211. [2-0-2] Prerequisite: One of MATH 101, MATH 103, MATH 105, MATH 121, SCIE 001.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
EOSC_V 212-101	EOSC_V	212	101	Topics in the Earth and Planetary Sciences.	W1	Cutting edge problems in earth, ocean, atmospheric and planetary sciences. Topics will be introduced through discussions of the current literature. [3-0-0] Prerequisite: Second-year standing in science or engineering.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
EOSC_V 213-201	EOSC_V	213	201	Computational Methods in Geological Engineering	W2	Combining basic physical principles with their mathematical description and generating computational models that describe them. Introduction to basic building blocks in modelling, simulation and parameter estimation. [3-1-0] Prerequisite: One of MATH 200, MATH 253 and one of MATH 152, MATH 221, MATH 223 and one of APSC 160, CPSC 103, CPSC 110, EOSC 211.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
EOSC_V 220-101	EOSC_V	220	101	Introductory Mineralogy	W1	Introduction to crystallography, physical and chemical properties of minerals. Recognition and identification of common minerals. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [2-3-0] Prerequisite: One of CHEM 110, CHEM 111, CHEM 120, CHEM 121, CHEM 141, SCIE 001.	In Person Learning	Tue Thu	1:00 p.m. - 2:00 p.m.
EOSC_V 220-L1A	EOSC_V	220	L1A	Introductory Mineralogy	W1	Introduction to crystallography, physical and chemical properties of minerals. Recognition and identification of common minerals. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [2-3-0] Prerequisite: One of CHEM 110, CHEM 111, CHEM 120, CHEM 121, CHEM 141, SCIE 001.	In Person Learning	Thu	9:30 a.m. - 12:30 p.m.
EOSC_V 220-L1B	EOSC_V	220	L1B	Introductory Mineralogy	W1	Introduction to crystallography, physical and chemical properties of minerals. Recognition and identification of common minerals. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [2-3-0] Prerequisite: One of CHEM 110, CHEM 111, CHEM 120, CHEM 121, CHEM 141, SCIE 001.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.
EOSC_V 220-L1C	EOSC_V	220	L1C	Introductory Mineralogy	W1	Introduction to crystallography, physical and chemical properties of minerals. Recognition and identification of common minerals. EOSC_V 223-201	EOSC_V	223	201	Field Techniques	W2	Introduction to the techniques of geological mapping and the interpretation of field data. Includes three one-day field trips on weekends plus a seven-day field school after Spring examinations. A fee is to be paid by January 31. [2-2-0] Corequisite: EOSC 221.	In Person Learning	Mon Wed	12:00 p.m. - 1:00 p.m.
EOSC_V 223-L2A	EOSC_V	223	L2A	Field Techniques	W2	Introduction to the techniques of geological mapping and the interpretation of field data. Includes three one-day field trips on weekends plus a seven-day field school after Spring examinations. A fee is to be paid by January 31. [2-2-0] Corequisite: EOSC 221.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
EOSC_V 223-L2B	EOSC_V	223	L2B	Field Techniques	W2	Introduction to the techniques of geological mapping and the interpretation of field data. Includes three one-day field trips on weekends plus a seven-day field school after Spring examinations. A fee is to be paid by January 31. [2-2-0] Corequisite: EOSC 221.	In Person Learning	Tue	3:00 p.m. - 6:00 p.m.
EOSC_V 223-L2C	EOSC_V	223	L2C	Field Techniques	W2	Introduction to the techniques of geological mapping and the interpretation of field data. Includes three one-day field trips on weekends plus a seven-day field school after Spring examinations. A fee is to be paid by January 31. [2-2-0] Corequisite: EOSC 221.	In Person Learning	Fri	1:00 p.m. - 4:00 p.m.
EOSC_V 223-L2D	EOSC_V	223	L2D	Field Techniques	W2	Introduction to the techniques of geological mapping and the interpretation of field data. Includes three one-day field trips on weekends plus a seven-day field school after Spring examinations. A fee is to be paid by January 31. [2-2-0] Corequisite: EOSC 221.	In Person Learning	Thu	3:00 p.m. - 6:00 p.m.
EOSC_V 223-L2E	EOSC_V	223	L2E	Field Techniques	W2	Introduction to the techniques of geological mapping and the interpretation of field data. Includes three one-day field trips on weekends plus a seven-day field school after Spring examinations. A fee is to be paid by January 31. [2-2-0] Corequisite: EOSC 221.	In Person Learning	Fri	3:00 p.m. - 6:00 p.m.
EOSC_V 240-201	EOSC_V	240	201	Site Investigation	W2	Theory and practice of site investigation for geological engineers, including background studies, field work, remote sensing, development of ground models, importance of geological variability and uncertainty. Impacts on design, project risk and decision making. [2-2-0] Prerequisite: EOSC 210. Corequisite: CIVL 210.	In Person Learning	Wed	1:00 p.m. - 3:00 p.m.
EOSC_V 240-L2A	EOSC_V	240	L2A	Site Investigation	W2	Theory and practice of site investigation for geological engineers, including background studies, field work, remote sensing, development of ground models, importance of geological variability and uncertainty. Impacts on design, project risk and decision making. [2-2-0] Prerequisite: EOSC 210. Corequisite: CIVL 210.	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.

EOSC_V 250-201	EOSC_V	250	201	Fields and Fluxes	W2	Application of classical theory of scalar and vector fields to geophysical sciences. Conductive, convective and radiative energy flux, gravitation, electrostatics, and magnetostatics. Gauss' and Stokes' theorems. [3-0-0] Prerequisite: One of PHYS 101, PHYS 106, PHYS 107, PHYS 117, PHYS 131, PHYS 157. Corequisite: [MATH200] One of PHYS 108, 118, 158 is recommended.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
EOSC_V 270-201	EOSC_V	270	201	Marine Ecosystems	W2	Introduction to diversity of marine habitats and ecosystems; hydrothermal vent, intertidal, coral reef, estuarine, deep sea, and polar ecosystems; impacts of ecosystem change; evolution of ocean plankton; invasive species; climate change; pollution. [3-0-0] Prerequisite: One of SCIE 001, CHEM 110, CHEM 111, CHEM 120, CHEM 121, CHEM 141, CHEM 154.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
EOSC_V 310-201	EOSC_V	310	201	The Earth and the Solar System	W2	The Earth as a planet: its composition, internal dynamics, and surface evolution. Rotation, magnetic field, plate tectonics, earthquakes, volcanoes. The ocean, atmosphere, and biosphere as components of a varying geo-environment. Not for credit for students in specializations administered by the Department of Earth, Ocean, and Atmospheric Sciences. (https://www.eoas.ubc.ca/undergrad/degrees). No background in science or mathematics is required. Please consult the Faculty of Science Credit Exclusion List: https://vancouver.calendar.ubc.ca/facultiescolleges-and-schools/faculty-science/bachelorscience/credit-exclusion-lists [3-0-0] Prerequisite: Class standing 2.	In Person Learning	Arranged	Arranged
