FNH_V 414-101	FNH_V	414	101	Sustainability in the Food Industry	W1	Regenerative sustainability and the sustainability nexus; health and environmental impacts of the food industry; environmental performance indicators and management systems; approaches to enhance sustainability in the food industry. Prerequisite: One of FNH 309, FNH 313.	In Person Learning	Mon	1:00 p.m. - 4:00 p.m.
FNH_V 415-001	FNH_V	415	001	Business Concepts in Food, Nutrition, and Health	W1	Introduction to and application of business activities in food, nutrition, and health settings. Credit will only be granted for only one of FNH 415, FOOD 515, or FRE 515. Prerequisite: At least third-year standing in the Faculty of Land and Food Systems.	In Person Learning	Tue Thu	5:00 p.m. - 6:30 p.m.
FNH_V 419-001	FNH_V	419	001	Interfacial Phenomena	W2	Outline of the physics and chemistry of interfaces; discussion of the part played by surface effects in technical processes. Credit will be granted for only one of FNH 419 and FOOD 519. Prerequisite: FNH 300, or equivalent. Equivalency: CHBE 487	In Person Learning	Arranged	Arranged
FNH_V 425-001	FNH_V	425	001	Food Science Laboratory III	W1-2	Integrated course designed to illustrate principles of research and product development in the food industry. [0-3-1] Prerequisite: All of FNH 325, FNH 326.	In Person Learning	Fri	1:00 p.m. - 4:00 p.m.
FNH_V 440-001	FNH_V	440	001	Food Service Systems Management	W1	Management responsibilities in quantity food production with emphasis on menu planning, purchasing and service. Includes planning and equipping food services. Restricted to students in the Dietetics major. Note: Course registrants are required to possess a Foodsafe II certificate. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: FNH 340.	In Person Learning	Mon	1:00 p.m. - 3:00 p.m.
FNH_V 440-E01	FNH_V	440	E01	Food Service Systems Management	W1	Management responsibilities in quantity food production with emphasis on menu planning, purchasing and service. Includes planning and equipping food services. Restricted to students in the Dietetics major. Note: Course registrants are required to possess a Foodsafe II certificate. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: FNH 340.	In Person Learning	Mon	3:00 p.m. - 4:00 p.m.
FNH_V 451-002	FNH_V	451	002	Nutrient Metabolism and Implications for Health	W2	Integration of nutrient and energy metabolism on a whole-body and individual tissue basis and the implication for health. Emphasis will be on regulation of nutrient metabolism. [3-0-0] Prerequisite: All of FNH 350, BIOC 302, and either (a) one of BIOL 153, BIOL 155, CAPS 301 or (b) all of FNH 160 and 161.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
FNH_V 455-001	FNH_V	455	001	Applied International Nutrition	W2	Applying nutrition concepts and principles in addressing problems of malnutrition and food insecurity in international settings. Basics of developing culturally acceptable, sustainable nutrition intervention programs. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: FNH 355.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
FNH_V 470-001	FNH_V	470	001	Nutrition Care II	W1	Etiology, pathophysiology and nutrition therapy for selected diseases and conditions. Topics include nutrition support, gastrointestinal conditions, surgery, allergies and intolerances. Restricted to students in year 4 of the dietetics major. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of FNH 371, FNH 375.	In Person Learning	Mon Wed	9:00 a.m. - 10:30 a.m.
FNH_V 472-001	FNH_V	472	001	Maternal and Fetal Nutrition	W1	Metabolic adaptations, nutrient metabolism, and special issues during pregnancy that may influence the maternal-fetal nutritional supply. [3-0-0] Corequisite: FNH 350. Third-year standing.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
FNH_V 473-001	FNH_V	473	001	Applied Public Health Nutrition	W2	Theory and methods in public health nutrition and health promotion program planning to assess, plan, implement, and evaluate nutrition-related programs for communities and populations. Considers factors affecting behavior and the social determinants of health. [3-0-0] Prerequisite: FNH 250 and fourth-year standing.	In Person Learning	Fri	12:30 p.m. - 2:00 p.m.
FNH_V 474-002	FNH_V	474	002	Sport Nutrition	W2	Nutritional needs of athletes, including energy, carbohydrate and protein; hydration; pre- and post-event nutrition, weight management and body composition issues; ergogenic aids; sports-specific guidelines; and special athlete populations. Prerequisite: All of FNH 350, FNH 351.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
FNH_V 475-002	FNH_V	475	002	Nutrition Care III	W2	Etiology, pathophysiology and nutrition therapy for selected diseases and conditions. Topics include neurological disorders, dysphagia, critical care, oncology, hepatobiliary conditions, HIV and renal disease. Restricted to students in year 4 of the dietetics major. FRST_V 436-001	FRST_V	436	001	Growth and Yield	W2	Techniques of growth and yield projection and discussion of modelling approaches. Exploration of stand dynamics, quantitative implications of management treatments and environmental limitations to tree and stand growth. [2-2-0] Prerequisite: FRST339	In Person Learning	Wed Fri	1:00 p.m. - 2:30 p.m.
FRST_V 439-101	FRST_V	439	101	International Forestry	W1	The socio-economic, biological and technological aspects of forestry within the international frame, in both the developed and developing world. Regional studies and the role of national and international agencies. [2-2-0]	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
FRST_V 443-201	FRST_V	443	201	Remote Sensing for Ecosystem Management	W2	Basic biological concepts related to interpretation of remote sensing data for land management, including the use of films and filters, and interpretation of air photographs, and other imagery. [2-2-0]	In Person Learning	Thu	8:00 a.m. - 10:00 a.m.
FRST_V 443-LA1	FRST_V	443	LA1	Remote Sensing for Ecosystem Management	W2	Basic biological concepts related to interpretation of remote sensing data for land management, including the use of films and filters, and interpretation of air photographs, and other imagery. [2-2-0]	In Person Learning	Tue	8:00 a.m. - 10:00 a.m.
FRST_V 443-LA2	FRST_V	443	LA2	Remote Sensing for Ecosystem Management	W2	Basic biological concepts related to interpretation of remote sensing data for land management, including the use of films and filters, and interpretation of air photographs, and other imagery. [2-2-0]	In Person Learning	Wed	8:00 a.m. - 10:00 a.m.
FRST_V 443-LA3	FRST_V	443	LA3	Remote Sensing for Ecosystem Management	W2	Basic biological concepts related to interpretation of remote sensing data for land management, including the use of films and filters, and interpretation of air photographs, and other imagery. [2-2-0]	In Person Learning	Wed	6:00 p.m. - 8:00 p.m.

FRST_V 443-LA4	FRST_V	443	LA4	Remote Sensing for Ecosystem Management	W2	Basic biological concepts related to interpretation of remote sensing data for land management, including the use of films and filters, and interpretation of air photographs, and other imagery. [2-2-0]	In Person Learning	Fri	8:00 a.m. - 10:00 a.m.	
FRST_V 444-101	FRST_V	444	101	Agroforestry	W1	Ecological, economic and social benefits of incorporating trees into agricultural landscapes. Lectures and groupwork designing agroforestry systems in temperate and tropical contexts. [3-2-0] Prerequisite: One of FRST 201, NRES 201, APBI 260. Equivalency: APBI444	In Person Learning	Wed	12:00 p.m. - 1:00 p.m.	
FRST_V 444-610	FRST_V	444	610	Agroforestry	W1	Ecological, economic and social benefits of incorporating trees into agricultural landscapes. Lectures and groupwork designing agroforestry systems in temperate and tropical contexts. [3-2-0] Prerequisite: One of FRST 201, NRES 201, APBI 260. FRST_V 452-201	FRST_V	452	201	Coastal Field School	W2	Site diagnosis and preparation of management options in coastal forests. Extrasessional course; fees will be assessed to meet expenses. Prerequisite: Third or fourth year-standing in the B.S.F. program.	In Person Learning	Arranged	Arranged	
FRST_V 490-101	FRST_V	490	101	Visual Resource Management and Planning for Aesthetics	W2	Methodologies for visual analysis, perceptions, planning & management of urban, natural and working landscapes, and implications for sustainable land-use management & community engagement. Credit will be granted for only one of FRST 490 or FRST 551. [2-2] Prerequisite: Third-year standing. Equivalency: LARC542	In Person Learning	Wed	3:00 p.m. - 6:00 p.m.	
FRST_V 490-201	FRST_V	490	201	Visual Resource Management and Planning for Aesthetics	W2	Methodologies for visual analysis, perceptions, planning & management of urban, natural and working landscapes, and implications for sustainable land-use management & community engagement. Credit will be granted for only one of FRST 490 or FRST 551. [2-2] Prerequisite: Third-year standing. Equivalency: LARC542	In Person Learning	Arranged	Arranged	
FRST_V 492-201	FRST_V	492	201	Environmental Perception	W2	How individuals perceive their environment. Emphasis will be given visual perception in the context of natural resource issues and the effects of those perceptions on individuals including issues of human wellbeing. [3-0-0] Prerequisite: Third-year standing	In Person Learning	Fri	11:00 a.m. - 2:00 p.m.	
FRST_V 495-201	FRST_V	495	201	Biological Diversity and Conservation	W2	Principles, problems, and practices of managing natural habitats for biological diversity; current issues in biological diversity important to researchers, policymakers, and the general public. This course is not eligible for Credit/D/Fail grading. [2-2-0] Prerequisite: One of FRST 201, NRES 201 and FRST 395.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.	
FRST_V 497-101	FRST_V	497	101	Communications and Professionalism	W1	Preparing professional reports and presentations; professionalism and professional ethics. [2-0-2] Prerequisite: Fourth-year standing.	In Person Learning	Wed Fri	9:00 a.m. - 11:00 a.m.	
FRST_V 498-001	FRST_V	498	001	B.Sc. Thesis in Forestry	W1-2	An independent study or research project of a subject of special interest to the student under the direction of a staff member. Available only to students in the BSFS Honours specialization.	In Person Learning	Mon	3:00 p.m. - 4:00 p.m.	
FRST_V 498-101	FRST_V	498	101	B.Sc. Thesis in Forestry	W1	An independent study or research project of a subject of special interest to the student under the direction of a staff member. Available only to students in the BSFS Honours specialization.	In Person Learning	Arranged	Arranged	
FRST_V 498-610	FRST_V	498	610	B.Sc. Thesis in Forestry	W1-2	An independent study or research project of a subject of special interest to the student under the direction of a staff member. Available only to students in the BSFS Honours specialization.	In Person Learning	Arranged	Arranged	

FRST_V 499-101	FRST_V	499		101	B.S.F. Thesis	W1-2	An independent study or research project on an approved topic, developed under the guidance of a Faculty member. Available only to students in their graduating year.	In Person Learning	Arranged	Arranged
FRST_V 500-101	FRST_V	500		101	Teaching and Learning in Forestry	W1	An evidence-based examination of teaching and learning in forestry, focusing on instructional design, classroom practices and field instruction. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	1:30 p.m. - 2:30 p.m.
FRST_V 503-101	FRST_V	503		101	Plant Molecular Biology Laboratory	W1	Techniques of purification, cloning, sequencing, restriction-hybridization analysis of plant nucleic acids, in-vitro labeling of plant nucleic acids and proteins, and electrophoresis and immunodetection of plant proteins. Offered by the Biotechnology Teaching Laboratory in cooperation with the Department of Forest and Conservation Sciences. Admission to the course is limited and requires recommendation from the department head. This course is not eligible for Credit/D/Fail grading. Equivalency: PLNT540, BOTA544	In Person Learning	Thu	10:00 a.m. - 4:00 p.m.
FRST_V 505-C_101	FRST_V	505	C	C_101	Directed Studies in Forest Science	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
FRST_V 506-201	FRST_V	506		201	Advanced Forest Pathology	W2	Hereditary, physiological, anatomical, environmental, and microbiological factors influencing forest tree diseases. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
FRST_V 507-A_101	FRST_V	507	A	A_101	Topics in Forest Science	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	1:00 p.m. - 4:00 p.m.
FRST_V 507-B_101	FRST_V	507	B	B_101	Topics in Forest Science	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	11:00 a.m. - 2:00 p.m.
FRST_V 507-C_102	FRST_V	507	C	C_102	Topics in Forest Science	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.
FRST_V 507-C_102	FRST_V	507	C	C_102	Topics in Forest Science	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
FRST_V 508-201	FRST_V	508		201	Advanced Forest Insect Ecology	W2	Role of climate and climate change in the population dynamics, outbreak potentials and resultant impacts to forest ecosystems associated with herbivorous forest insects. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	4:00 p.m. - 5:30 p.m.
FRST_V 515-201	FRST_V	515		201	Climate Change Communications and Engagement	W2	Psychological, social, and systemic dimensions of climate change communication; approaches for engaging diverse groups for low-carbon futures; overcoming climate inaction.	In Person Learning	Tue	10:00 a.m. - 1:00 p.m.
FRST_V 519-101	FRST_V	519		101	Forests and Society	W1	Emphasis on tropical and sub-tropical countries, where the majority of forest-dependent people live. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
FRST_V 521-C_101	FRST_V	521	C	C_101	Topics in Forests and Society	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
FRST_V 521-C_104	FRST_V	521	C	C_104	Topics in Forests and Society	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Mon	2:30 p.m. - 5:30 p.m.
FRST_V 521-C_105	FRST_V	521	C	C_105	Topics in Forests and Society	W1	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Tue	10:00 a.m. - 11:00 a.m.
FRST_V 522-101	FRST_V	522		101	Social, Community, and Indigenous Forestry	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	9:00 a.m. - 12:00 p.m.
FRST_V 523-901	FRST_V	523		901	Forest and Environmental Policy	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
FRST_V 523-T01	FRST_V	523		T01	Forest and Environmental Policy	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
FRST_V 524-901	FRST_V	524		901	Environmental Perception	W2	Perceptual processes mediating behaviour in humans, with special attention given to the emotional processing of visual stimuli. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	11:00 a.m. - 2:00 p.m.
FRST_V 530-201	FRST_V	530		201	Advanced Modelling Methods for Natural Resources Applications	W2	Linear, nonlinear, and generalized linear models, including mixed effects versions of each. Examples include applications to forests and other natural environments. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 4:00 p.m.
FRST_V 531-201	FRST_V	531		201	Multivariate Statistical Methods	W2	Multivariate analysis of variance, cluster, principal components, factor, canonical and discriminant analysis. Theory and conceptual background are presented but emphasis is on selection of appropriate analysis and interpretation of results. Examples from forestry and related fields are analysed by computer programs at UBC. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
FRST_V 532-C_001	FRST_V	532	C	C_001	Directed Studies in Forest Management	W1-2	This course is not eligible for Credit/D/Fail grading. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged

GEOG_V 448-201	GEOG_V	448		201	Directed Studies in Geography	W2	Investigation of a topic to be agreed upon by the supervising faculty member and the student. Prerequisite: Open to upper-level students enrolled in the Geography Majors or Honours programs. Permission of the Undergraduate Advisor and supervising faculty member is required.	Online Learning	Arranged	Arranged
GEOG_V 450-201	GEOG_V	450		201	Urban Research	W2	Historical, legal, and quantitative analysis of urban research. Emphasis on spatial, racial, and political dynamics of urban inequality. Credit will be granted for only one of GEOG 450 or URST 450. Prerequisite: Fourth-year standing. Equivalency: URST 450	In Person Learning	Tue	11:00 a.m. - 2:00 p.m.
GEOG_V 451-199	GEOG_V	451		199	Urban Studies Capstone I	W1	Formulation of key elements of urban studies theory, concepts, and methods to a community-engaged urban challenge. Credit will be granted for only one of GEOG 451 or URST 451. Prerequisite: One of GEOG 250, URST 200 and all of PLAN 211, PLAN 231, GEOG 371. Equivalency: URST 451	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.
GEOG_V 453-101	GEOG_V	453		101	Political Geographic Analysis	W1	Political organization of space; territorial and spatial patterns of power and identity; contemporary geopolitical struggles. Prerequisite: At least third-year standing.	In Person Learning	Arranged	Arranged
GEOG_V 456-201	GEOG_V	456		201	Film and the City	W2	The complex interrelations between film and the city; dominant urban theories, film technologies and viewing practices and the intersections between them. Credit will be granted for only one of GEOG 456, FINA 445, or ARTH 445. Equivalency: FINA 445, ARTH 445	In Person Learning	Arranged	Arranged
GEOG_V 461-201	GEOG_V	461		201	Urban Political-Economic Geographies	W2	Principal theories and debates in urban political economy and political-economic geography, with particular emphasis on global transformations.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
GEOG_V 492-201	GEOG_V	492		201	Oceanic Geographies: Movement, Materiality, and Mobility	W2	Moves beyond continental landmasses to consider global oceanic connections, mobility and materiality, and seascape epistemologies or ways of knowing through a cultural, social and historical geographies perspective. Restricted to students with third-year standing or above.	In Person Learning	Fri	11:00 a.m. - 2:00 p.m.
GEOG_V 495-201	GEOG_V	495		201	Geographies of Social Movements in the Americas	W2	The politics of North-South solidarity in theory and practice through community service learning models. Recommended pre-requisites: one of LAST 100, GEOG 395. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	2:00 p.m. - 5:00 p.m.
GEOG_V 497-101	GEOG_V	497		101	The Arctic	W1	Physical and biological characteristics of the circumpolar Arctic, emphasizing terrestrial environments and the impacts on and by humans, including: glacial history; climatology; biogeography/ecology of arctic tundra; human-environment interactions, settlement and exploration; and current environmental, social and economic problems. Prerequisite: At least third-year standing.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
GEOG_V 498-101	GEOG_V	498		101	Geographies of the Middle East	W1	Critical analysis of economic, social, and political development and processes defining the modern Middle East region.	In Person Learning	Arranged	Arranged

KIN_V 211-001	KIN_V	211	001	Human Motor Behaviour I	W1	Processes underlying human movement and learning motor skills and factors influencing acquisition, performance, and movement control. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of KIN 110, KIN 131.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
KIN_V 211-002	KIN_V	211	002	Human Motor Behaviour I	W2	Processes underlying human movement and learning motor skills and factors influencing acquisition, performance, and movement control. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of KIN 110, KIN 131.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
KIN_V 216-001	KIN_V	216	001	Biomechanics I	W1	Application of elementary principles of physics and math to a quantitative analysis of movement. Analysis will also focus on the development of forces within muscles and their effect on initiating and controlling human movement. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: All of KIN 110, KIN 131.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
KIN_V 216-002	KIN_V	216	002	Biomechanics I	W2	Application of elementary principles of physics and math to a quantitative analysis of movement. Analysis will also focus on the development of forces within muscles and their effect on initiating and controlling human movement. This course is not eligible for Credit/D/Fail grading. [3-0] Prerequisite: All of KIN 110, KIN 131.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
KIN_V 232-001	KIN_V	232	001	Nutrition, Physical Activity, and Health	W1	Study of nutrition and its application to physical activity and health. Macro- and micronutrient classification and recommended daily intakes, their digestion, functions in the body and their role in supporting physical activity and health will be discussed. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of KIN 131, KIN 132.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
KIN_V 232-002	KIN_V	232	002	Nutrition, Physical Activity, and Health	W2	Study of nutrition and its application to physical activity and health. Macro- and micronutrient classification and recommended daily intakes, their digestion, functions in the body and their role in supporting physical activity and health will be discussed. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: All of KIN 131, KIN 132.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
KIN_V 235-001	KIN_V	235	001	Exercise Physiology I	W1	Acute and chronic effects of exercise on body systems; basic concepts of cardiovascular, respiratory and muscular responses to physical activity. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: All of KIN 110, KIN 120, KIN 131, KIN 132.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
KIN_V 235-002	KIN_V	235	002	Exercise Physiology I	W2	Acute and chronic effects of exercise on body systems; basic concepts of cardiovascular, respiratory and muscular responses to physical activity. This course is not eligible for Credit/D/Fail grading. [2-0-2] Prerequisite: All of KIN 110, KIN 120, KIN 131, KIN 132.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.

KIN_V 411-001	KIN_V	411		001	Neuroanatomy of Human Movement	W2	Neuroanatomy of human motion in healthy and clinical populations. [3-0] Prerequisite: All of KIN 110, KIN 131, KIN 211, KIN 216.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
KIN_V 413-001	KIN_V	413		001	Sensori-Motor Control of Human Balance	W1	Examining the sensory, motor, and biomechanical factors that contribute to human balance control during quiet standing and postural reactions to internal and external perturbations. Emphasis on understanding the characteristics of healthy balance control and changes associated with age and disease. [3-0] Prerequisite: All of KIN 110, KIN 131, KIN 211, KIN 216, and third-year standing.	Online Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
KIN_V 415-001	KIN_V	415		001	Sensori-motor Neuroplasticity in Movement and Exercise	W1	Concepts in neuroplasticity related to sensori-motor control of movement and exercise. The focus will be on plasticity (both adaptive and maladaptive) that arises because of either training or injury/non-use as it relates to movement control and exercise. [3-0-0] Prerequisite: All of KIN 110, KIN 131, and third-year standing.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
KIN_V 419-001	KIN_V	419		001	Laboratory Investigations in Neuromechanical Kinesiology	W2	Integration and application of laboratory principles and techniques for experimental investigations of topics in neuromechanical kinesiology, including biomechanics, motor behaviour, and neurophysiology. [1-2] Prerequisite: All of KIN 110, KIN 131, KIN 211, KIN 216.	In Person Learning	Tue	9:30 a.m. - 11:00 a.m.
KIN_V 419-L1A	KIN_V	419		L1A	Laboratory Investigations in Neuromechanical Kinesiology	W2	Integration and application of laboratory principles and techniques for experimental investigations of topics in neuromechanical kinesiology, including biomechanics, motor behaviour, and neurophysiology. [1-2] Prerequisite: All of KIN 110, KIN 131, KIN 211, KIN 216.	In Person Learning	Arranged	Arranged
KIN_V 419-L1B	KIN_V	419		L1B	Laboratory Investigations in Neuromechanical Kinesiology	W2	Integration and application of laboratory principles and techniques for experimental investigations of topics in neuromechanical kinesiology, including biomechanics, motor behaviour, and neurophysiology. [1-2] Prerequisite: All of KIN 110, KIN 131, KIN 211, KIN 216.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.
KIN_V 419-L1C	KIN_V	419		L1C	Laboratory Investigations in Neuromechanical Kinesiology	W2	Integration and application of laboratory principles and techniques for experimental investigations of topics in neuromechanical kinesiology, including biomechanics, motor behaviour, and neurophysiology. [1-2] Prerequisite: All of KIN 110, KIN 131, KIN 211, KIN 216.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.
KIN_V 419-L1D	KIN_V	419		L1D	Laboratory Investigations in Neuromechanical Kinesiology	W2	Integration and application of laboratory principles and techniques for experimental investigations of topics in neuromechanical kinesiology, including biomechanics, motor behaviour, and neurophysiology. [1-2] Prerequisite: All of KIN 110, KIN 131, KIN 211, KIN 216.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.
KIN_V 420-001	KIN_V	420		001	Prevention of Sports Injuries	W1	Training and safety strategies for the prevention of injuries to the musculoskeletal system and sense organs. [3-0] Prerequisite: KIN 110.	Online Learning	Mon	5:00 p.m. - 8:00 p.m.
KIN_V 420-002	KIN_V	420		002	Prevention of Sports Injuries	W2	Training and safety strategies for the prevention of injuries to the musculoskeletal system and sense organs. [3-0] Prerequisite: KIN 110.	Online Learning	Tue	5:00 p.m. - 8:00 p.m.

KIN_V 432-001	KIN_V	432	001	Sport Nutrition	W1	Sport nutrition guidelines, physiological mechanisms of fuel use in the body, nutritional strategies to support weight change, hydration, and ergogenic aids the needs of special athlete populations. [3-0] Prerequisite: All of KIN 131, KIN 132, KIN 232.	In Person Learning	Tue Thu	4:00 p.m. - 5:30 p.m.	
KIN_V 434-002	KIN_V	434	002	Exercise, Nutrition, and Metabolism	W2	Exploring the physiological and biochemical changes that occur in skeletal muscle, adipose tissue, and liver following exercise. Interactions between exercise, nutrition, and commonly prescribed medications used for the treatment of diabetes and cardiovascular disease will also be examined. [3-0] Prerequisite: All of KIN 232, KIN 235, and third-year standing.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
KIN_V 435-001	KIN_V	435	001	Pulmonary Physiology of Exercise	W1	Operation of the lungs, chest wall, and ventilatory control mechanisms during dynamic whole-body exercise. [3-0] Prerequisite: All of KIN 110, KIN 120, KIN 131, KIN 132, KIN 235, KIN 335.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
KIN_V 438-001	KIN_V	438	001	Skeletal Muscle Physiology: Molecular Adaptions to Training, Disuse and Aging	W2	Cellular and molecular mechanisms of muscle adaptability to aerobic and resistance training, inactive and aging: signaling cascades controlling hypertrophy and atrophy, satellite cell contribution to muscle repair, and mitochondrial/ribosomal biogenesis. BIOL 112 or similar recommended. [3-0-1] Prerequisite: All of KIN 110, KIN 120, KIN 131, KIN 132, KIN 235, KIN 335.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.	
KIN_V 442-901	KIN_V	442	901	Planning Physical Education, Sport and Exercise Programs	W2	Processes, techniques and considerations in the planning, implementation and evaluation of physical education, sport and exercise programs in both public and private agencies. [3-0]	In Person Learning	Wed	5:00 p.m. - 8:00 p.m.	
KIN_V 444-002	KIN_V	444	002	Exploring Alternative Methods for Teaching Games and Sports	W2	Examination of innovative, developmentally appropriate, conceptual and tactical approaches to team game instruction. [2-2-0] Prerequisite: One of KIN 140.	In Person Learning	Tue	10:30 a.m. - 12:30 p.m.	
KIN_V 444-L2A	KIN_V	444	L2A	Exploring Alternative Methods for Teaching Games and Sports	W2	Examination of innovative, developmentally appropriate, conceptual and tactical approaches to team game instruction. [2-2-0] Prerequisite: One of KIN 140.	In Person Learning	Tue	2:00 p.m. - 4:00 p.m.	
KIN_V 450-001	KIN_V	450	001	Inclusive Approaches to Sport Psychology	W1	Examination of the psychological and behavioural processes of athletes from a social justice perspective. The focus will be on the role of social structures, sociocultural norms, power relations, and social identities in shaping athletes' perceptions and lived experiences in sport. [3-0-0] Prerequisite: All of KIN 150, KIN 160, and third-year standing.	In Person Learning	Mon Wed	3:30 p.m. - 5:00 p.m.	
KIN_V 453-001	KIN_V	453	001	Understanding and Changing Physical Activity Behaviour	W2	Examining the influence of psychological factors across different settings and populations, with a particular focus on interventions aimed at enhancing mental health. Understanding psychology can be used to design effective interventions at the individual and community level. [3-0-0] Prerequisite: KIN 150.	In Person Learning	Mon Fri	3:00 p.m. - 4:30 p.m.	
KIN_V 459-001	KIN_V	459	001	Psychobiology of Physical Activity	W2	Exploration of the role that physical activity and exercise play in modifying the neurobiological, autonomic, endocrine, and inflammatory responses to stress. [3-0] Prerequisite: All of KIN 150, KIN 205, KIN 206.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.	
KIN_V 464-001	KIN_V	464	001	Health Promotion and Physical Activity	W2	Current perspectives on health promotion and health education; design and implementation of health promotion strategies in a variety of arenas, particularly health promotion/education strategies aimed at encouraging physical activity. LING_V 313-LA5	LING_V	313	LA5	Introduction to Linguistic Phonetics and Speech Science	W1	The articulatory and acoustic properties of speech production and perception, including practice in phonetic transcription, instrumental recording, and the analysis of normal speech. Prerequisite: [LING200]	In Person Learning	Wed	4:00 p.m. - 5:00 p.m.
LING_V 313-LA6	LING_V	313	LA6	Introduction to Linguistic Phonetics and Speech Science	W1	The articulatory and acoustic properties of speech production and perception, including practice in phonetic transcription, instrumental recording, and the analysis of normal speech. Prerequisite: [LING200]	In Person Learning	Wed	5:00 p.m. - 6:00 p.m.
LING_V 314-002	LING_V	314	002	Instrumental Phonetics	W2	Physiological and/or acoustic phonetics. Focus on experimental methods and analysis techniques. Topics may include: source-filter theory; spectral and temporal acoustic analysis, inter-articulator timing and motor coordination. Prerequisite: LING 200. Recommended: LING 313	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
LING_V 315-002	LING_V	315	002	Sociolinguistics	W2	The systematic study of language as a social phenomenon. Credit will be granted for only one of LING 445 or 315. Prerequisite: All of LING 200, LING 201.	In Person Learning	Mon Wed	9:30 a.m. - 11:00 a.m.
LING_V 319-002	LING_V	319	002	Historical Linguistics	W2	How and why languages change over time, and how languages can be grouped into families based on historical relationships. Methods of comparative and internal reconstruction of phonological, morphological, syntactic, semantic change. Social factors in language change. Not offered every year. Prerequisite: LING 200 and LING 201.	In Person Learning	Mon Wed	12:00 p.m. - 1:30 p.m.
LING_V 327-001	LING_V	327	001	Introduction to Semantics	W1	The analysis and theory of linguistic meaning with emphasis on formal techniques for semantic analysis and their application to empirical phenomena in language, including pragmatics. Prerequisite: LING 201.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
LING_V 327-T01	LING_V	327	T01	Introduction to Semantics	W1	The analysis and theory of linguistic meaning with emphasis on formal techniques for semantic analysis and their application to empirical phenomena in language, including pragmatics. Prerequisite: LING 201.	In Person Learning	Fri	12:00 p.m. - 1:00 p.m.
LING_V 327-T02	LING_V	327	T02	Introduction to Semantics	W1	The analysis and theory of linguistic meaning with emphasis on formal techniques for semantic analysis and their application to empirical phenomena in language, including pragmatics. Prerequisite: LING 201.	In Person Learning	Fri	1:00 p.m. - 2:00 p.m.

LING_V 327-T03	LING_V	327		T03	Introduction to Semantics	W1	The analysis and theory of linguistic meaning with emphasis on formal techniques for semantic analysis and their application to empirical phenomena in language, including pragmatics. Prerequisite: LING 201.	In Person Learning	Fri	2:00 p.m. - 3:00 p.m.
LING_V 333-001	LING_V	333		001	Research Methods for Linguistics	W1	Research methods used in linguistics and speech science. Emphasis on scientific reasoning, critical thinking, experimental design, and the ethics and methods of linguistic data-collection. Prerequisite: All of LING 200, LING 201.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
LING_V 342-001	LING_V	342		001	Computational Models of Language	W1	A re-examination of major areas of linguistics from a computational perspective, including popular formalisms and algorithms associated with morphology, syntax, semantics, and discourse. Prerequisite: LING 242 and one of LING 201, ENGL 331 and one of STAT 200, STAT 203, STAT 251, STAT 302, MATH 302, PSYC 218.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
LING_V 345-002	LING_V	345		002	Pragmatics	W2	Selected topics in pragmatics and information structure, including variations in their cross-linguistic expression and the corresponding influence of sentence form on context. Prerequisite: One of LING 201, ENGL 331, PHIL 220, PHIL 222.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
LING_V 410-001	LING_V	410		001	Advanced Phonology	W1	Current issues in phonological theory. This course is not eligible for Credit/D/Fail grading. Prerequisite: LING 311.	In Person Learning	Mon Wed	11:30 a.m. - 1:00 p.m.
LING_V 420-001	LING_V	420		001	Introduction to Linguistics	W1	General background to linguistic studies; the different approaches to the analysis of languages; synchronic and diachronic linguistics; phonetics, phonology, morphology, syntax, and semantics. Not available for credit toward a Major or Honours program in Linguistics.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
LING_V 420-002	LING_V	420		002	Introduction to Linguistics	W2	General background to linguistic studies; the different approaches to the analysis of languages; synchronic and diachronic linguistics; phonetics, phonology, morphology, syntax, and semantics. MATH_V 322-101	MATH_V	322	101	Introduction to Group Theory	W1	Groups, cosets, homomorphisms, group actions, p-groups, Sylow theorems, composition series, finitely generated Abelian groups. [3-0-0] Prerequisite: Either (a) a score of 68% or higher in one of MATH 223, MATH 310 or (b) one of MATH 152, MATH 221, MATH 223 and a score of 80% or higher in MATH 220.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
MATH_V 323-201	MATH_V	323	201	Introduction to Rings and Modules	W2	Rings, ideals, unique factorization, Euclidean rings, fields, polynomial rings, modules; structure theory of modules over a principal ideal domain. [3-0-0] Prerequisite: MATH 322.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
MATH_V 335-201	MATH_V	335	201	Introduction to Mathematics	W2	Intensive course with required tutorial. Combinatorics, probability, geometry and elementary number theory. Not for credit in the Faculty of Science. Students who obtain credit at UBC for any other mathematics course cannot in the same or later years obtain credit for MATH 335. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-2]	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
MATH_V 335-202	MATH_V	335	202	Introduction to Mathematics	W2	Intensive course with required tutorial. Combinatorics, probability, geometry and elementary number theory. Not for credit in the Faculty of Science. Students who obtain credit at UBC for any other mathematics course cannot in the same or later years obtain credit for MATH 335. MATH_V 340-101	MATH_V	340	101	Introduction to Linear Programming	W1	Linear programming problems, dual problems, the simplex algorithm, solution of primal and dual problems, sensitivity analysis. Additional topics chosen from: Karmarkar's algorithm, non-linear programming, game theory, applications. [3-0-0] Prerequisite: One of MATH 152, MATH 221, MATH 223.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
MATH_V 340-201	MATH_V	340	201	Introduction to Linear Programming	W2	Linear programming problems, dual problems, the simplex algorithm, solution of primal and dual problems, sensitivity analysis. Additional topics chosen from: Karmarkar's algorithm, non-linear programming, game theory, applications. [3-0-0] Prerequisite: One of MATH 152, MATH 221, MATH 223.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
MATH_V 340-202	MATH_V	340	202	Introduction to Linear Programming	W2	Linear programming problems, dual problems, the simplex algorithm, solution of primal and dual problems, sensitivity analysis. Additional topics chosen from: Karmarkar's algorithm, non-linear programming, game theory, applications. [3-0-0] Prerequisite: One of MATH 152, MATH 221, MATH 223.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
MATH_V 341-201	MATH_V	341	201	Introduction to Discrete Mathematics	W2	Introduction to ideas and methods of discrete mathematics and their application. [3-0-0] Prerequisite: One of MATH 220, MATH 223, MATH 226, CPSC 121.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
MATH_V 342-101	MATH_V	342	101	Algebra and Coding Theory	W1	Error-correcting codes via abstract and linear algebra. Emphasis on proofs and computation. Finite fields, Hamming distance and error-correction, upper and lower bounds on the size of a code, linear codes, groups and cosets, encoding and decoding schemes. [3-0-0] Prerequisite: Either (a) one of MATH 152, MATH 221 and one of MATH 220, MATH 226, CPSC 121; or (b) MATH 223.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.
MATH_V 344-101	MATH_V	344	101	Mathematical Game Theory	W1	Introduction to mathematical game theory and its applications. [3-0-0] Prerequisite: Either (a) one of MATH 152, MATH 221 and one of MATH 220, MATH 226, CPSC 121; or (b) MATH 223.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
MATH_V 360-101	MATH_V	360	101	Introduction to Mathematical Modelling	W1	Construction and evaluation of deterministic, stochastic, and data-driven models. Software-assisted simulations and numerical solutions involving ordinary differential equations, stochastic processes, and basic machine learning algorithms. Examples from science, engineering, and economics. [3-0-0] Prerequisite: One of MATH 200, MATH 217, MATH 226, MATH 253, MATH 254 and one of MATH 210, CPSC 203, CPSC 210 and one of MATH 215, MATH 255, MATH 256, MATH 258.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
MATH_V 361-101	MATH_V	361	101	Introduction to Mathematical Biology	W1	Mathematical modelling of basic biological processes in ecology, physiology, neuroscience and genetics. Dynamic behavior of difference equations, differential equations, and partial differential equations, explained with reference to concrete biological examples. [3-0-0] Prerequisite: One of BIOL 301, MATH 215, MATH 255, MATH 256, MATH 258.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.

MATH_V 398-001	MATH_V	398	001	Co-operative Work Placement I	W1	Approved and supervised technical work experience involving mathematics in industry for a minimum of 3.5 months. Technical report required. Restricted to students admitted to the Mathematics Co-operative Education Program. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
MATH_V 398-002	MATH_V	398	002	Co-operative Work Placement I	W2	Approved and supervised technical work experience involving mathematics in industry for a minimum of 3.5 months. MATH_V 400-101	MATH_V	400	101	Applied Partial Differential Equations	W1	Separation of variables, first order equations, Sturm-Liouville theory, integral transform methods. [3-0-0] Prerequisite: One of MATH 300, MATH 305 and one of MATH 256, MATH 257, MATH 316, MATH 358, MECH 358, PHYS 312.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.
MATH_V 400-201	MATH_V	400	201	Applied Partial Differential Equations	W2	Separation of variables, first order equations, Sturm-Liouville theory, integral transform methods. [3-0-0] Prerequisite: One of MATH 300, MATH 305 and one of MATH 256, MATH 257, MATH 316, MATH 358, MECH 358, PHYS 312.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
MATH_V 401-201	MATH_V	401	201	Green's Functions and Variational Methods	W2	Green's functions for partial differential equations. Calculus of variations. Eigenfunction expansions, Rayleigh-Ritz and finite element methods. See Faculty of Science credit exclusion list: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0] Prerequisite: Either (a) a score of 80% or higher in one of MATH 256, MATH 257, MATH 316, MATH 358, MECH 358, PHYS 312 or (b) MATH 400.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
MATH_V 404-101	MATH_V	404	101	Harmonic Analysis I	W1	Harmonic analysis on Euclidean spaces, with applications to number theory, partial differential equations and geometric measure theory. [3-0-0] Prerequisite: MATH 300 and a score of 68% or higher in MATH 321. Corequisite: MATH 420.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
MATH_V 405-101	MATH_V	405	101	Numerical Methods for Differential Equations	W1	Interpolation, numerical integration, numerical solution of ordinary and partial differential equations. Practical computational methods emphasized and basic theory developed through simple models. See Faculty of Science credit exclusion list: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> [3-0-0] Prerequisite: One of MATH 256, MATH 257, MATH 316, MATH 358, MECH 358, PHYS 312.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
MATH_V 406-201	MATH_V	406	201	Variational and Approximate Methods in Applied Mathematics	W2	Variational and Green's function methods for ordinary and partial differential equations, introduction to finite difference, finite element and boundary element methods. In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
MATH_V 412-201	MATH_V	412	201	Advanced Linear Algebra	W2	Topics include decompositions of linear operators, multilinear algebra, bilinear forms, metric spaces. [3-0-0] Prerequisite: A score of 68% or higher in MATH 322 and either (a) a score of 68% or higher in MATH 320 or (b) a score of 80% or higher in MATH 319.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
MATH_V 418-101	MATH_V	418	101	Probability	W1	Probability spaces, random variables, distributions, expectation, conditional probabilities, convergence of random variables, generating and characteristic functions, weak and strong laws of large numbers, central limit theorem. [3-0-0] Prerequisite: MATH 321. Prerequisite grade requirement: 68% in MATH321.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
MATH_V 419-201	MATH_V	419	201	Stochastic Processes	W2	Random walks, Markov chains, branching processes, Poisson processes, continuous time Markov chains, martingales, Brownian motion. [3-0-0] Prerequisite: [MATH418]	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
MATH_V 420-101	MATH_V	420	101	Real Analysis I	W1	Sigma-algebras, Lebesgue measure, Borel measures, measurable functions, integration, convergence theorems, Lp spaces, Holder and Minkowski inequalities, Lebesgue and/or Radon-Nikodym differentiation. [3-0-0] Prerequisite: MATH 321. Prerequisite grade requirement: 68% in MATH321.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
MATH_V 421-201	MATH_V	421	201	Real Analysis II	W2	Banach spaces, linear operators, bounded and compact operators, strong, weak, and weak* topology. Hahn-Banach, open mapping, and closed graph theorems. Hilbert spaces, symmetric and self-adjoint operators, spectral theory for bounded operators. [3-0-0] Prerequisite: [MATH420]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
MATH_V 422-101	MATH_V	422	101	Fields and Galois Theory	W1	Field extensions, the Galois correspondence, finite fields, insolubility in radicals, ruler and compass constructions, additional topics chosen by instructor. [3-0-0] Prerequisite: MATH 323.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
MATH_V 423-201	MATH_V	423	201	Commutative Algebra	W2	Commutative algebra; homological algebra or representation theory of finite groups. [3-0-0] Prerequisite: MATH 323 and a score of 68% or higher in one of MATH 412, MATH 422.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.
MATH_V 424-201	MATH_V	424	201	Classical Differential Geometry	W2	The differential geometry of curves and surfaces in three-dimensional Euclidean space. Mean curvature and Gaussian curvature. Geodesics. Gauss's Theorema Egregium. [3-0-0] Prerequisite: Either (a) a score of 68% or higher in MATH 223 or (b) a score of 80% or higher in one of MATH 152, MATH 221; and either (a) a score of 68% or higher in MATH 227 or (b) a score of 80% or higher in one of MATH 217, MATH 254, MATH 264, MATH 317.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
MATH_V 425-101	MATH_V	425	101	Introduction to Modern Differential Geometry	W1	Smooth manifolds, smooth maps, immersions and submersions, vector fields, vector bundles, tangent and cotangent bundles, tensors and differential forms, orientation of manifolds, integration of forms, and selected topics. [3-0-0] Prerequisite: One of MATH 221, MATH 223 and one of MATH 217, MATH 227, MATH 254, MATH 264, MATH 317 and one of MATH 319, MATH 320.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.
MATH_V 425-201	MATH_V	425	201	Introduction to Modern Differential Geometry	W2	Smooth manifolds, smooth maps, immersions and submersions, vector fields, vector bundles, tangent and cotangent bundles, tensors and differential forms, orientation of manifolds, integration of forms, and selected topics. [3-0-0] Prerequisite: One of MATH 221, MATH 223 and one of MATH 217, MATH 227, MATH 254, MATH 264, MATH 317 and one of MATH 319, MATH 320.	In Person Learning	Arranged	Arranged

MATH_V 426-101	MATH_V	426	101	Introduction to Topology	W1	General topology, combinatorial topology, fundamental group and covering spaces, topics chosen by the instructor. [3-0-0] Prerequisite: All of MATH 321, MATH 322. Prerequisite grade requirement: 68% in MATH322,MATH321.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.	
MATH_V 427-201	MATH_V	427	201	Topics in Topology	W2	Homology theory, homotopy theory, manifolds, and other topics chosen by the instructor. [3-0-0] Prerequisite: [MATH426]	In Person Learning	Wed Fri	8:30 a.m. - 10:00 a.m.	
MATH_V 428-201	MATH_V	428	201	Mathematical Classical Mechanics I	W2	Newton's equation, conservation laws, the Euler-Lagrange equation; Hamilton's principle of least action, Hamilton's equations, Lagrangian mechanics on manifolds. [3-0-0] Prerequisite: One of MATH 215, MATH 255, MATH 256, MATH 258 and one of PHYS 216, PHYS 306, ENPH 270. Corequisite: MATH 320 (waived for students with a score of 80% or higher in MATH 319).	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
MATH_V 437-101	MATH_V	437	101	Number Theory	W1	Divisibility, congruences, Diophantine equations, arithmetic functions, quadratic reciprocity, advanced topics. Please consult the Faculty of Science Credit Exclusion List: <a href="https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists">https://vancouver.calendar.ubc.ca/faculties-colleges-and-schools/faculty-science/bachelor-science/credit-exclusion-lists</a> . [3-0-0] Corequisite: One of MATH 320 (waived for students with a score of 80% or higher in MATH 319), MATH 322.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
MATH_V 440-101	MATH_V	440	101	Complex Analysis	W1	The residue theorem, the argument principle, conformal mapping, the maximum modulus principle, harmonic functions, representation of functions by integrals, series, and products. Other topics at the discretion of the instructor. [3-0-0] Prerequisite: MATH 300 and either (a) a score of 68% or higher in MATH 320 or (b) a score of 80% or higher in MATH 319 and permission of the Department Head in Mathematics.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.	
MATH_V 441-201	MATH_V	441	201	Mathematical Modelling: Discrete Optimization Problems	W2	Formulation of real-world optimization problems using techniques such as linear programming, network flows, integer programming, dynamic programming. Solution by appropriate software. [3-0-0] Prerequisite: [MATH340]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
MATH_V 442-201	MATH_V	442	201	Graphs and Networks	W2	Graph theory, emphasizing trees, tree growing algorithms, and proof techniques. Other topics chosen from shortest paths, maximum flows, minimum cost flows, matchings, and graph colouring. [3-0-0] Prerequisite: 3rd year standing and one of MATH 220, MATH 223, MATH 226 or CPSC 221.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.	
MATH_V 443-201	MATH_V	443	201	Graph Theory	W2	Introductory course in mostly non-algebraic topics including: planarity and Kuratowski's theorem, graph colouring, graph minors, random graphs, cycles in graphs, Ramsey theory, extremal graph theory. Proofs emphasized. Intended for Honours students. [3-0-0] Prerequisite: A score of 68% or higher in one of MATH 220, MATH 223, MATH 226, CPSC 121. And 6 credits of MATH numbered 300 or above.	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.	
MATH_V 444-202	MATH_V	444	202	Mathematical Research and Writing	W2	Current research topics in pure and applied mathematics are explored at the undergraduate level. Technical communication and research skills are developed. [3-0-0] Prerequisite: One of MATH 220, MATH 226, and 6 credits of MATH courses numbered 300 or higher.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
MATH_V 446-101	MATH_V	446	101	Topics in the History of Mathematics I	W1	Historical development of concepts and techniques in areas chosen from Geometry, Number Theory, Algebra, Calculus, Probability, Analysis. The focus is on historically significant writings of important contributors and on famous problems of Mathematics. [3-0-0] Prerequisite: 21 credits of MATH.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.	
MATH_V 448-A_101	MATH_V	448	A	A_101	Directed Studies in Mathematics	W1	Introduction to the methods of mathematical research through an exploration of a mathematical topic under the supervision of a faculty member. Written report required. [3-0-0] Prerequisite: Third- or fourth-year standing and permission of the Department Head.	In Person Learning	Arranged	Arranged
MATH_V 449-D_101	MATH_V	449	D	D_101	Honours Reading	W1	Independent reading by Honours students in Mathematics under the direction of a faculty member. Written report required. Prerequisite: Permission of the Department Head The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Arranged	Arranged
MATH_V 450-101	MATH_V	450	101	Asymptotic and Perturbation Methods	W1	Asymptotic expansions. Asymptotic evaluation of integrals; WKB methods. Regular and singular expansions. Boundary layer theory; matched asymptotic expansions. Multiple scale techniques. [3-0-0] Prerequisite: MATH 400.	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.	
MATH_V 461-201	MATH_V	461	201	Projects in Mathematical Modelling	W2	Computational methods for mathematical modelling. Numerical methods for partial differential equations, stochastic processes, and data-driven models. Includes student-directed projects on current research and applications. [3-0-0] Prerequisite: Either (a) MATH 360 or (b) one of MATH 210, CPSC 203, CPSC 210 and one of MATH 345, MATH 361.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.	
MATH_V 462-201	MATH_V	462	201	Projects in Mathematical Biology	W2	Development and analysis of mathematical models for complex systems in ecology, evolution, cell biology, neurophysiology, and other biological and medical disciplines. [3-0-0] Prerequisite: One of MATH 361, MATH 345.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
MATH_V 498-610	MATH_V	498	610	Co-operative Work Placement III	W1	Approved and supervised technical work experience involving mathematics in industry for a minimum of 3 1/2 months. Technical report required. Restricted to students admitted to the Mathematics Co-operative Education Program. This course is not eligible for Credit/D/Fail grading. Prerequisite: [MATH399]	In Person Learning	Arranged	Arranged	
MATH_V 498-611	MATH_V	498	611	Co-operative Work Placement III	W2	Approved and supervised technical work experience involving mathematics in industry for a minimum of 3 1/2 months. Case-based approach fostering the development of evidence-based clinical reasoning and clinical skills. Organized on the basis of clinical presentations. Pass/fail. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 12:00 p.m.
MEDD_V 412-001	MEDD_V	412	001	Foundations of Medical Practice II	W2		Increasingly complex clinical presentations through integration of foundational and clinical sciences and clinical practice themes. Developmental, case-based approach fostering the development of evidence-based clinical reasoning and clinical skills. Pass/fail. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 12:00 p.m.
MEDD_V 419-001	MEDD_V	419	001	Foundations of Scholarship and Flexible Enhanced Learning I	W1-2		Various medically-related learning experiences and scholarly activities. Emphasizes social accountability, introduces scholarly methods, and fosters innovation, creativity, and critical thought to prepare graduates for roles as scholars, lifelong learners, and leaders. Pass/fail. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon	1:00 p.m. - 5:00 p.m.
MEDD_V 421-001	MEDD_V	421	001	Foundations of Medical Practice III	W1		Increasingly complex clinical presentations integrating foundational sciences and clinical practice themes. Developmental, case-based approach fostering the development of evidence-based clinical reasoning and clinical skills. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 12:00 p.m.
MEDD_V 422-001	MEDD_V	422	001	Transition into Clinical Education	W2		Prepares students to transition from classroom-based to clinical learning environments. Increasingly complex clinical presentations integrating foundational sciences and clinical practice themes. Prepares students for clinical practice in Year 3 Clerkship. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon Tue Wed Thu Fri	8:00 a.m. - 12:00 p.m.
MEDD_V 429-001	MEDD_V	429	001	Flexible Enhanced Learning II	W1-2		Opportunity to build on scholarly activities initiated in MEDD 419, or start new ones. Emphasizes social accountability and fosters innovation, creativity, and critical thought to prepare graduates for roles as scholars, lifelong learners, and leaders. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon	1:00 p.m. - 5:00 p.m.
MEDD_V 431-001	MEDD_V	431	001	Clerkship	W1-2		Core experiences across the breadth of medicine through clinical and academic learning opportunities in ambulatory, hospital-based, and rural/remote settings. Topics include development of the neural tube, face, heart, endoderm, blastocyst, embryonic stem cells, gastrulation, genomic imprinting, placental complications, chromosomal abnormalities and prenatal diagnosis. Discussions based on published research articles. [3-0-1] Prerequisite: One of BIOL 233, BIOL 234 and one of BIOL 331, BIOL 335. A standing of 'B' or higher recommended.	In Person Learning	Tue Thu	3:30 p.m. - 5:00 p.m.
MEDG_V 420-001	MEDG_V	420	001	Human Genomics and Medical Genetics	W1		Sequence and structure of the human genome. Human genetic evolution. Identifications of genes affecting normal and pathological variation. Molecular mechanisms of genetic diseases and disorders. Medical applications of human genetics. [3-0-0] Prerequisite: One of BIOL 335, BIOL 338. A standing of 'B' or higher is recommended, however, higher grades take priority in the registration process.	In Person Learning	Mon Wed	9:00 a.m. - 10:30 a.m.
MEDG_V 421-001	MEDG_V	421	001	Genetics and Cell Biology of Cancer	W2		Molecular mechanisms of oncogenes and tumor suppressors in cancer biology, methods of and insights from studying cancer genomes, and current topics in cancer research. [3-0-0] Prerequisite: BIOL 335 and one of BIOC 302, BIOC 303.	In Person Learning	Tue Thu	9:30 a.m. - 11:30 a.m.

MIDW_V 320-001	MIDW_V	320	001	Midwifery Clinical Care - Variations of Normal	W1	Clinical education experiences with the preventative and therapeutic midwifery care of pregnancy, birth, and the puerperium. Emphasis on the recognition and management of variations of normal and findings outside normal. A 10-week practicum in locations around the province. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Fri	9:00 a.m. - 4:00 p.m.	
MIDW_V 322-002	MIDW_V	322	002	Midwifery Primary Care Clinical	W2	Clinical course focusing on consolidation of skills and knowledge of all aspects of midwifery care. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Fri	9:00 a.m. - 4:00 p.m.	
MIDW_V 325-002	MIDW_V	325	002	Professional Issues in Midwifery	W2	Professional issues in midwifery including responsibilities and conduct, self-care, peer review, interprofessional relations and communication, legal and business concepts, and continuous quality assurance and improvement in practice. A series of lectures and workshops delivered in an intensive format over two weeks. This course is delivered through synchronous and asynchronous online coursework while learners are in distributed clinical placements.	In Person Learning	Thu	10:00 a.m. - 12:00 p.m.	
MIDW_V 326-001	MIDW_V	326	001	Dialogue and Decisions: Advancing Person-Centred Care	W1	Build knowledge and competencies to navigate complex human interactions around decisions in health care. Flexible, online course for health professional learners. Learning activities include small group, cross-profession discussions, best practice video exemplars, case-based and self-reflection exercises, and a simulation. Pass/fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.

MIDW_V 360-001	MIDW_V	360	001	Global Maternal Infant Health	W2	Theoretical course in preparation for global clinical placement. Pass/Fail. This course is not eligible for Credit/D/Fail grading. [3-0-0] Prerequisite: MIDW 240.	In Person Learning	Arranged	Arranged	
MIDW_V 405-001	MIDW_V	405	001	Theory for Advanced Midwifery Care	W1	Theoretical principles for midwifery care of pregnancy, labour, birth, newborns, and the puerperium. Emphasis on assessment and management skills for abnormal situations. Includes a five-day intensive session in Vancouver, a series of online tutorials, and lab practice. [1-2-3]	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.	
MIDW_V 420-001	MIDW_V	420	001	Midwifery Clinical Care - Abnormal and Unexpected Conditions	W1	Clinical education for midwifery care of pregnancy, birth, and the puerperium with an emphasis on abnormal situations in pregnancy, labour and birth, and in newborns. Clinical practicum around the province. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Fri	9:00 a.m. - 6:00 p.m.	
MIDW_V 435-001	MIDW_V	435	001	Comprehensive Midwifery Theory and Practice	W2	In-depth review of the theoretical principles and evidence basis for comprehensive midwifery care through tutorials and case reviews.	In Person Learning	Thu	9:00 a.m. - 1:00 p.m.	
MIDW_V 440-001	MIDW_V	440	001	Clinical Clerkship	W2	Students assume a primary care role in clinical placements in midwifery practices across the provinces. Demonstration of independent decision making and application of the full range of their academic knowledge to professional practice. A practicum under the supervision of a registered midwife. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Tue Wed Fri	9:00 a.m. - 6:00 p.m.

MINE_V 505-201	MINE_V	505		201	Advanced Topics in Rock Engineering	W2	Rock mass properties and numerical modelling applied to rock engineering design with particular emphasis on applications in rock slopes and tunneling. Permission of the instructor is required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
MINE_V 506-201	MINE_V	506		201	Mining Methods	W2	A more advanced study of some aspects of mining methods. Permission of the instructor is required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:30 a.m. - 11:00 a.m.
MINE_V 507-201	MINE_V	507		201	Block Caving Systems	W2	Mass mining (caving) methods, their design and operation, the value proposition and the key value drivers. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	8:00 a.m. - 11:00 a.m.
MINE_V 508-201	MINE_V	508		201	Integrated Mining and Processing Systems	W2	Methods and systems for integrated mining and processing, conceptual model development, simulation, economic and technical evaluation. Permission of the instructor is required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	10:30 a.m. - 1:30 p.m.
MINE_V 509-101	MINE_V	509		101	Mine Ventilation	W1	Mine air conditioning, ventilation network analysis, radioactivity in mining, case studies in mine ventilation and control of dust, fumes and diesel exhausts. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:30 p.m. - 2:00 p.m.
MINE_V 509-L1A	MINE_V	509		L1A	Mine Ventilation	W1	Mine air conditioning, ventilation network analysis, radioactivity in mining, case studies in mine ventilation and control of dust, fumes and diesel exhausts. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	3:00 p.m. - 5:00 p.m.
MINE_V 515-201	MINE_V	515		201	Future of Mining	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 3:30 p.m.
MINE_V 520-101	MINE_V	520		101	Advanced Coal Preparation	W1	Thermal and metallurgical coals. Desulphurization Theory of coal beneficiation. Dense media separation. Coal surface properties and their effect on fine coal processing by flotation and oil agglomeration; coal/water/slurries. Plant performance testing and instrumentation. Permission of the instructor is required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	10:00 a.m. - 12:00 p.m.

MTRL_V 358-101	MTRL_V	358	101	Hydrometallurgy I	W1	Aqueous extraction of metals from ores and concentrates. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Mon Wed	10:00 a.m. - 11:00 a.m.
MTRL_V 358-T1A	MTRL_V	358	T1A	Hydrometallurgy I	W1	Aqueous extraction of metals from ores and concentrates. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Fri	10:00 a.m. - 11:00 a.m.
MTRL_V 359-L1A	MTRL_V	359	L1A	Hydrometallurgy I Laboratory	W1	Laboratory exercises on aqueous extraction of metals from ores and concentrates. This course is not eligible for Credit/D/Fail grading. [0-3*-0] Corequisite: MTRL 358.	In Person Learning	Wed	12:00 p.m. - 3:00 p.m.
MTRL_V 359-L1B	MTRL_V	359	L1B	Hydrometallurgy I Laboratory	W1	Laboratory exercises on aqueous extraction of metals from ores and concentrates. This course is not eligible for Credit/D/Fail grading. [0-3*-0] Corequisite: MTRL 358.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
MTRL_V 359-L1C	MTRL_V	359	L1C	Hydrometallurgy I Laboratory	W1	Laboratory exercises on aqueous extraction of metals from ores and concentrates. This course is not eligible for Credit/D/Fail grading. [0-3*-0] Corequisite: MTRL 358.	In Person Learning	Thu	3:00 p.m. - 6:00 p.m.
MTRL_V 361-101	MTRL_V	361	101	Modelling of Materials Processes	W1	Mathematical and physical modelling of processes employed in the production of materials. The application of models to analyze, design and improve materials production. This course is not eligible for Credit/D/Fail grading. [3-0-2]	In Person Learning	Mon Wed Fri	11:00 a.m. - 12:00 p.m.
MTRL_V 361-T1A	MTRL_V	361	T1A	Modelling of Materials Processes	W1	Mathematical and physical modelling of processes employed in the production of materials. The application of models to analyze, design and improve materials production. This course is not eligible for Credit/D/Fail grading. [3-0-2]	In Person Learning	Thu	9:00 a.m. - 11:00 a.m.
MTRL_V 363-101	MTRL_V	363	101	Transport Phenomena III - Mass Transport	W1	Mass transfer fundamentals, gas interdiffusivity, Sievert's law, Fick's laws, solid-state diffusion, steady and non-steady state diffusion, mass transfer in quiescence fluids. The application examples are related to metallurgical processes, green technologies, and the semiconductor industry. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Tue Thu	11:00 a.m. - 12:00 p.m.
MTRL_V 363-T1A	MTRL_V	363	T1A	Transport Phenomena III - Mass Transport	W1	Mass transfer fundamentals, gas interdiffusivity, Sievert's law, Fick's laws, solid-state diffusion, steady and non-steady state diffusion, mass transfer in quiescence fluids. The application examples are related to metallurgical processes, green technologies, and the semiconductor industry. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Mon	12:00 p.m. - 2:00 p.m.
MTRL_V 365-201	MTRL_V	365	201	Mechanical Behaviour of Materials	W2	Polycrystalline and single crystal deformation; dislocation theory; strengthening mechanisms; fracture mechanics; fatigue; high temperature deformation mechanisms. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
MTRL_V 378-201	MTRL_V	378	201	Phase Transformations	W2	Solidification and solid state transformations; nucleation and growth processes; segregation and structure in castings; phase changes in steel; transformation diagrams; diffusion equations. [3-0-2*]	In Person Learning	Arranged	Arranged
MTRL_V 378-T2A	MTRL_V	378	T2A	Phase Transformations	W2	Solidification and solid state transformations; nucleation and growth processes; segregation and structure in castings; phase changes in steel; transformation diagrams; diffusion equations. [3-0-2*]	In Person Learning	Arranged	Arranged
MTRL_V 381-201	MTRL_V	381	201	Structure and Properties Laboratory	W2	Structure and properties of ferrous and non-ferrous metals; heat treatment; hardenability; metallography; age hardening. This course is not eligible for Credit/D/Fail grading. [0-3*-0] Corequisite: All of MTRL 365, MTRL 378.	In Person Learning	Thu (Alternate weeks)	2:00 p.m. - 5:00 p.m.
MTRL_V 381-202	MTRL_V	381	202	Structure and Properties Laboratory	W2	Structure and properties of ferrous and non-ferrous metals; heat treatment; hardenability; metallography; age hardening. This course is not eligible for Credit/D/Fail grading. [0-3*-0] Corequisite: All of MTRL 365, MTRL 378.	In Person Learning	Thu (Alternate weeks)	2:00 p.m. - 5:00 p.m.
MTRL_V 381-203	MTRL_V	381	203	Structure and Properties Laboratory	W2	Structure and properties of ferrous and non-ferrous metals; heat treatment; hardenability; metallography; age hardening. This course is not eligible for Credit/D/Fail grading. [0-3*-0] Corequisite: All of MTRL 365, MTRL 378.	In Person Learning	Thu (Alternate weeks)	9:00 a.m. - 12:00 p.m.
MTRL_V 381-204	MTRL_V	381	204	Structure and Properties Laboratory	W2	Structure and properties of ferrous and non-ferrous metals; heat treatment; hardenability; metallography; age hardening. This course is not eligible for Credit/D/Fail grading. [0-3*-0] Corequisite: All of MTRL 365, MTRL 378.	In Person Learning	Thu (Alternate weeks)	9:00 a.m. - 12:00 p.m.
MTRL_V 382-201	MTRL_V	382	201	Ceramics	W2	Fundamentals of engineering ceramics focusing on raw materials, forming, sintering and properties, characterization, and design with ceramics. This course is not eligible for Credit/D/Fail grading. [3-3*-0]	In Person Learning	Arranged	Arranged
MTRL_V 382-L2A	MTRL_V	382	L2A	Ceramics	W1-2	Fundamentals of engineering ceramics focusing on raw materials, forming, sintering and properties, characterization, and design with ceramics. This course is not eligible for Credit/D/Fail grading. [3-3*-0]	In Person Learning	Arranged	Arranged
MTRL_V 394-201	MTRL_V	394	201	Polymers	W2	The structure and properties of polymeric materials and reinforced polymers with emphasis on their engineering properties and applications. This course is not eligible for Credit/D/Fail grading. [3-0-2]	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.
MTRL_V 394-T2A	MTRL_V	394	T2A	Polymers	W2	The structure and properties of polymeric materials and reinforced polymers with emphasis on their engineering properties and applications. This course is not eligible for Credit/D/Fail grading. [3-0-2]	In Person Learning	Thu	12:00 p.m. - 2:00 p.m.
MTRL_V 424-201	MTRL_V	424	201	Aerospace Materials and Manufacturing	W2	Advanced materials and manufacturing in the framework of aerospace requirements and regulations, with a focus on processing of materials, including advanced metals and polymer composites, to produce aerospace structures and engine components. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	1:00 p.m. - 2:30 p.m.
MTRL_V 451-101	MTRL_V	451	101	Microstructural Analysis Laboratory	W1	Basic principles and techniques of microstructural analysis with particular reference to engineered materials including x-ray, SEM microprobe TEM and high energy electron analysis. This course is not eligible for Credit/D/Fail grading. [1-3*-2]	In Person Learning	Mon	1:00 p.m. - 2:00 p.m.
MTRL_V 451-L1A	MTRL_V	451	L1A	Microstructural Analysis Laboratory	W1	Basic principles and techniques of microstructural analysis with particular reference to engineered materials including x-ray, SEM microprobe TEM and high energy electron analysis. This course is not eligible for Credit/D/Fail grading. [1-3*-2]	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.

MTRL_V 451-L1B	MTRL_V	451	L1B	Microstructural Analysis Laboratory	W1	Basic principles and techniques of microstructural analysis with particular reference to engineered materials including x-ray, SEM microprobe TEM and high energy electron analysis. This course is not eligible for Credit/D/Fail grading. [1-3*2]	In Person Learning	Fri	10:00 a.m. - 1:00 p.m.
MTRL_V 455-101	MTRL_V	455	101	Economic Aspects of Materials Engineering	W1	Time value of money, cash flows, capital and operating cost estimation, financial decision making and relevant case studies. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Wed Fri	1:00 p.m. - 2:00 p.m.
MTRL_V 455-T1A	MTRL_V	455	T1A	Economic Aspects of Materials Engineering	W1	Time value of money, cash flows, capital and operating cost estimation, financial decision making and relevant case studies. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Fri	8:00 a.m. - 10:00 a.m.
MTRL_V 456-201	MTRL_V	456	201	Environmental Degradation of Materials	W2	Fundamental aspects of environmental degradation of metals (corrosion), ceramics, adn polymers, with an emphasis on aqueous environments. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Mon Wed	11:00 a.m. - 12:00 p.m.
MTRL_V 456-T2A	MTRL_V	456	T2A	Environmental Degradation of Materials	W2	Fundamental aspects of environmental degradation of metals (corrosion), ceramics, adn polymers, with an emphasis on aqueous environments. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Thu	9:00 a.m. - 11:00 a.m.
MTRL_V 458-201	MTRL_V	458	201	Hydrometallurgy II	W2	Leaching, purification, precipitation, regeneration; thermodynamics and kinetics of separation steps; electrochemical applications. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	1:00 p.m. - 2:30 p.m.
MTRL_V 460-101	MTRL_V	460	101	Monitoring and Optimization of Materials Processing	W1	Measurement systems for materials processing and evaluation, methods of data collection and analysis in materials engineering, materials processing monitoring and control, design of experiments for materials processing and optimization. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Tue	11:00 a.m. - 1:00 p.m.
MTRL_V 460-T1A	MTRL_V	460	T1A	Monitoring and Optimization of Materials Processing	W1	Measurement systems for materials processing and evaluation, methods of data collection and analysis in materials engineering, materials processing monitoring and control, design of experiments for materials processing and optimization. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Thu	1:00 p.m. - 3:00 p.m.
MTRL_V 466-101	MTRL_V	466	101	Engineering Project I	W1	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.
MTRL_V 466-201	MTRL_V	466	201	Engineering Project I	W2	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Wed	8:00 a.m. - 9:00 a.m.
MTRL_V 466-L1A	MTRL_V	466	L1A	Engineering Project I	W1	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Arranged	Arranged
MTRL_V 466-L1B	MTRL_V	466	L1B	Engineering Project I	W1	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Fri	5:00 p.m. - 7:00 p.m.
MTRL_V 466-L2B	MTRL_V	466	L2B	Engineering Project I	W2	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Fri	5:00 p.m. - 7:00 p.m.
MTRL_V 466-T1A	MTRL_V	466	T1A	Engineering Project I	W1	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Wed	5:00 p.m. - 8:00 p.m.
MTRL_V 466-T2A	MTRL_V	466	T2A	Engineering Project I	W2	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Tue	4:30 p.m. - 7:30 p.m.
MTRL_V 467-101	MTRL_V	467	101	Engineering Project II	W1	Design projects to illustrate the full spectrum of design encountered in Metals and Materials Engineering including the design of components, structures and processes used to manufacture materials. This course is not eligible for Credit/D/Fail grading. [1-0-5]	In Person Learning	Thu	11:00 a.m. - 12:00 p.m.

MTRL_V 469-201	MTRL_V	469	201	Casting Technology	W2	Various casting technologies related to the automotive and aerospace sectors will be covered, including upstream liquid metal processing. [2-0-2]	In Person Learning	Arranged	Arranged
MTRL_V 469-T2A	MTRL_V	469	T2A	Casting Technology	W2	Various casting technologies related to the automotive and aerospace sectors will be covered, including upstream liquid metal processing. [2-0-2]	In Person Learning	Arranged	Arranged
MTRL_V 472-101	MTRL_V	472	101	Welding and Joining of Materials	W1	Case studies addressing temperature modelling in welding and joining, material selection for welds and joints, calculation of properties for welds and joints, mechanical analysis of joints, and design of welding and joining procedures. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Tue	4:00 p.m. - 6:00 p.m.
MTRL_V 472-L1A	MTRL_V	472	L1A	Welding and Joining of Materials	W1	Case studies addressing temperature modelling in welding and joining, material selection for welds and joints, calculation of properties for welds and joints, mechanical analysis of joints, and design of welding and joining procedures. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Thu	4:00 p.m. - 6:00 p.m.
MTRL_V 475-201	MTRL_V	475	201	Microstructure Engineering	W2	Follows the production of metallurgical products, focusing on process design models used to describe solidification, recrystallization, and precipitation. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Mon Wed	10:00 a.m. - 11:00 a.m.
MTRL_V 475-T2A	MTRL_V	475	T2A	Microstructure Engineering	W2	Follows the production of metallurgical products, focusing on process design models used to describe solidification, recrystallization, and precipitation. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
MTRL_V 478-201	MTRL_V	478	201	Electronic Materials	W2	Semiconductor materials, MOSFET structure, operation and applications in digital circuits, fabrication techniques, basic mask and fabrication flow design and semiconductor fabrication process theories at an entry level. [3-0-0]	In Person Learning	Thu	11:00 a.m. - 12:30 p.m.
MTRL_V 484-201	MTRL_V	484	201	Materials for Aerostructures and Engines	W2	Engineering theory of aerospace structural material mix: metal alloys, ceramics, and polymer composites. Material requirements for weight-, damage tolerant-, cost efficient-design. Overview of material characterization, including fracture and fatigue. Statistical variability, material allowables, structural certification. [3-0-0]	In Person Learning	Mon Wed	3:00 p.m. - 4:30 p.m.
MTRL_V 485-101	MTRL_V	485	101	Failure of Materials	W1	Failure by excess deformation, fracture, fatigue, and environmental effects. Failure theories and case studies of engineering failures. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Mon Wed	9:00 a.m. - 10:00 a.m.
MTRL_V 485-T1A	MTRL_V	485	T1A	Failure of Materials	W1	Failure by excess deformation, fracture, fatigue, and environmental effects. Failure theories and case studies of engineering failures. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Tue	1:00 p.m. - 3:00 p.m.
MTRL_V 486-101	MTRL_V	486	101	Nondestructive Evaluation	W1	Principles of test methods; inspection techniques and equipment; quantitative flaw evaluation; reliability analysis. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Wed	3:00 p.m. - 5:00 p.m.
MTRL_V 486-T1A	MTRL_V	486	T1A	Nondestructive Evaluation	W1	Principles of test methods; inspection techniques and equipment; quantitative flaw evaluation; reliability analysis. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Fri	3:00 p.m. - 5:00 p.m.
MTRL_V 494-101	MTRL_V	494	101	Composite Materials	W1	Understanding the properties and the mechanical behaviour of composite materials with emphasis on analysis, design, and manufacturing. This course is not eligible for Credit/D/Fail grading. [3-0-0]	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
MTRL_V 495-201	MTRL_V	495	201	Biomaterials	W2	Engineered materials in medical applications with an emphasis on material properties, functionality, design, and material response in the biological environment. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Wed Fri	1:00 p.m. - 2:00 p.m.
MTRL_V 495-T2A	MTRL_V	495	T2A	Biomaterials	W2	Engineered materials in medical applications with an emphasis on material properties, functionality, design, and material response in the biological environment. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Mon	2:00 p.m. - 4:00 p.m.
MTRL_V 496-201	MTRL_V	496	201	Materials Sustainability	W2	Concepts of life cycle analysis, circular economy and critical materials. Project-based introduction to key concepts, calculations, and design. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Wed Fri	9:00 a.m. - 10:00 a.m.
MTRL_V 496-T2A	MTRL_V	496	T2A	Materials Sustainability	W2	Concepts of life cycle analysis, circular economy and critical materials. Project-based introduction to key concepts, calculations, and design. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Fri	11:00 a.m. - 1:00 p.m.
MTRL_V 497-B_101	MTRL_V	497	B	B_101	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.
MTRL_V 515-201	MTRL_V	515	201	Advanced Simulation and Modelling Tools for Materials Manufacturing	W2	Mathematical modelling of manufacturing processes; Computer Aided Engineering tools; application examples will be drawn from a range of manufacturing operations. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:00 a.m. - 12:00 p.m.
MTRL_V 559-201	MTRL_V	559	201	Advanced Hydrometallurgy	W2	Advanced thermochemical modelling of hydrometallurgical unit operations to include extraction, separation, and recovery of base metals. Application to flow-sheet analysis. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	1:00 p.m. - 2:30 p.m.
MTRL_V 564-201	MTRL_V	564	201	Hydrometallurgical Reactor Design and Analysis	W2	Batch leaching kinetics, leaching mechanisms; statistical methods for design of multiparticle continuous leaching reactors; coupled heat and mass balances, mixing phenomena, redox and precipitation reactions, complex mineralogical feeds; heap and dump leaching. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	1:00 p.m. - 2:30 p.m.
MTRL_V 570-101	MTRL_V	570	101	Deformation of Crystalline Materials	W1	Nature and properties of lattice imperfections; dislocation theory and its use to describe work hardening, creep, structure of grain boundaries and other phenomena. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	1:00 p.m. - 4:00 p.m.
MTRL_V 578-201	MTRL_V	578	201	Microstructural Evolution of Deformed Materials	W2	Physical mechanisms of microstructure evolution; structure, energy and mobilities of grain boundaries, grain boundary segregation, precipitation, recovery, recrystallization, grain growth; microstructure engineering of steels. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon Wed	10:00 a.m. - 11:00 a.m.

MTRL_V 578-T2A	MTRL_V	578		T2A	Microstructural Evolution of Deformed Materials	W2	Physical mechanisms of microstructure evolution; structure, energy and mobilities of grain boundaries, grain boundary segregation, precipitation, recovery, recrystallization, grain growth; microstructure engineering of steels. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:00 a.m. - 11:00 a.m.
MTRL_V 579-201	MTRL_V	579		201	Physics of Microfabrication: Front End Processing	W2	Practical aspects, physical models, and simulations of Si-based nanofabrication processes such as oxidation, diffusion, ion implantation, chemical vapor deposition, etching, stress techniques. Semiconductor device physics basics will also be discussed. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	2:00 p.m. - 4:00 p.m.
MTRL_V 592-E_201	MTRL_V	592	E	E_201	Advanced Topics in Materials Engineering	W2	May be arranged on approval of the department head. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	1:00 p.m. - 2:00 p.m.
MTRL_V 592-E_202	MTRL_V	592	E	E_202	Advanced Topics in Materials Engineering	W1	May be arranged on approval of the department head. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

Professional reasoning is demonstrated through resolution of case-based client occupational issues. Critical appraisal of theory fosters nuanced understandings of occupation and health. This course is not eligible for Credit/D/Fail grading. [1-2-2]	In Person Learning	Arranged	Arranged
OSOT_V 513-001	OSOT_V	513	001	Health, Illness & Occupation	W1-2	Concepts and models of occupation, health, and illness are introduced and appraised. Narratives from persons with lived experience and interactive assignments are used for acquiring biopsychosocial information on health conditions that impact occupational performance across lifespan and diverse life experiences. This course is not eligible for Credit/D/Fail grading. [1-0-1.5]	In Person Learning	Arranged	Arranged
OSOT_V 515-001	OSOT_V	515	001	Occupation in Practice I: Foundation of Occupational Therapy Assessment and Intervention	W1	Labs, simulations and tutorials provide opportunities to practice evidenced based foundational skills, techniques and approaches in preparation for occupational therapy practice in the local and regional context. This course is not eligible for Credit/D/Fail grading. [0-3-3]	In Person Learning	Arranged	Arranged
OSOT_V 519-001	OSOT_V	519	001	Professional Development of the Occupational Therapist I	W1-2	Concepts of professionalism, reflexivity, cultural humility and collaboration are introduced to develop the skills of a self-directed, culturally safe, lifelong learner, who consciously uses theory, evidence and critical thinking skills to maintain, evaluate and improve their practice of occupational therapy. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
OSOT_V 525-001	OSOT_V	525	001	Occupation in Practice II: Advancing Theory, Assessment & Intervention	W2	Building on OSOT 511 and OSOT 515, complex skills and approaches to enable client occupational engagement are applied through workshops and labs. Biomechanical, psychosocial, neuro-rehabilitative and developmental frames of reference will inform professional reasoning as students work through the occupational therapy practice process. This course is not eligible for Credit/D/Fail grading. [2-3-3]	In Person Learning	Arranged	Arranged
OSOT_V 527-001	OSOT_V	527	001	Becoming an Evidence-Informed Occupational Therapy Practitioner	W2	Assumptions and principles of qualitative and quantitative research designs; elements of basic research designs for investigating and evaluating occupational performance and diverse issues relevant to occupational science and occupational therapy are introduced, emphasizing critical appraisal of occupational therapy research literature. This course is not eligible for Credit/D/Fail grading. [2-0-2]	In Person Learning	Arranged	Arranged
OSOT_V 528-001	OSOT_V	528	001	Occupational Therapy Practice: Fieldwork I	W2	Preparation for practice concepts to facilitate integration of knowledge and skills introduced in term 1 of the MOT program. Demonstration of emerging Occupational Therapy competencies for a total of 5 weeks of supervised fieldwork experience in affiliated agencies is required. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
OSOT_V 545-001	OSOT_V	545	001	Occupation in Practice III: Occupational Therapy Assessment and Intervention	W1-2	A 3-term course, builds upon year 1 to further develop professional reasoning skills, synthesize theory and practice approaches in occupational therapy, and provide opportunities to acquire assessment and intervention skills according to the competencies required to enter occupational therapy practice. This course is not eligible for Credit/D/Fail grading. [0-2-2]	In Person Learning	Arranged	Arranged
OSOT_V 547-001	OSOT_V	547	001	Developing Evidence for Occupational Therapy Practice	W1-2	Enhances knowledge of research (or program evaluation) process and provides hands-on experience to create, inform, and disseminate evidence relevant to occupational science or occupational therapy. This course is not eligible for Credit/D/Fail grading. [2-0-8]	In Person Learning	Arranged	Arranged
OSOT_V 549-001	OSOT_V	549	001	Professional Development of the Occupational Therapist II	W1-2	Professional identity, professionalism, and cultural humility are further explored. Knowledge is applied to develop self-directed, culturally safe, lifelong learners. Conscious use of theory, evidence and critical thinking will be utilized to maintain, evaluate and improve occupational therapy practice. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

OSOT_V 551-001	OSOT_V	551	001	Societal and Environmental Influences on Occupation and Occupational Therapy Practice	W2	Current legislative, socio-political, economic, cultural, and service delivery issues influencing occupational therapy practice are addressed. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of CHEM 211, CHEM 233, CHEM 235, PHAR 204.	In Person Learning	Thu	1:00 p.m. - 5:00 p.m.	
PHAR_V 308-001	PHAR_V	308	001	Systematic Pharmacology	W1	General principles of pharmacodynamics and pharmacokinetics: drug action on nervous, cardiovascular, GI and endocrine systems; beneficial and detrimental effects of drug action. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 202.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
PHAR_V 370-001	PHAR_V	370	001	Pharmaceutical Cases I	W1	Application and problem solving in the pharmaceutical sciences. Integration of knowledge and skills from multiple courses to problem solve authentic cases and problems of increasing complexity. Development of self-directed learning skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	9:00 a.m. - 11:00 a.m.	
PHAR_V 370-L01	PHAR_V	370	L01	Pharmaceutical Cases I	W1	Application and problem solving in the pharmaceutical sciences. Integration of knowledge and skills from multiple courses to problem solve authentic cases and problems of increasing complexity. Development of self-directed learning skills. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	12:00 p.m. - 2:00 p.m.	
PHAR_V 380-001	PHAR_V	380	001	Pharmaceutical Topics and Communication Seminar III	W2	Preliminary skills and concepts for planning, delivering and critiquing a scientific presentation using selected topics in the pharmaceutical sciences. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 280.	In Person Learning	Wed	11:00 a.m. - 12:00 p.m.	
PHAR_V 421-001	PHAR_V	421	001	Precision Medicine	W1	Skills and concepts in pharmacogenomics as applied to medical practice and dosing. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 203.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.	
PHAR_V 421-L01	PHAR_V	421	L01	Precision Medicine	W1	Skills and concepts in pharmacogenomics as applied to medical practice and dosing. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 203.	In Person Learning	Wed	2:00 p.m. - 4:00 p.m.	
PHAR_V 422-001	PHAR_V	422	001	Pharmacoeconomics	W1	Evidence evaluation skills and understanding the role of, and the methods and principles used in, health economics and economic evaluation in healthcare, with a focus on health technology assessment studies. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 305.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
PHAR_V 423-001	PHAR_V	423	001	Statistical Methods for Pharmaceutical Outcomes Research	W1	Basic principles of biostatistics and epidemiology. Application of epidemiologic and statistical knowledge in the area of health outcomes. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 305.	Hybrid Learning	Tue	2:00 p.m. - 5:00 p.m.	
PHAR_V 424-001	PHAR_V	424	001	Financing and Therapeutics in the Canadian Health Care System	W2	Foundation in Canadian health care delivery systems and policies, with a focus on pharmaceutical policy and on comparison with other types of health care systems. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	12:30 p.m. - 2:00 p.m.	
PHAR_V 425-001	PHAR_V	425	001	Biologics	W2	Biologics as a therapeutic; how biologics are developed as drugs; synthesis and unique properties of biologics as drugs. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.	
PHAR_V 426-001	PHAR_V	426	001	Advanced Anesthetics and Analgesics	W1	Advanced concepts in anesthetic and analgesic drugs, their uses and abuses. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 308.	In Person Learning	Mon Wed	11:00 a.m. - 12:30 p.m.	
PHAR_V 427-001	PHAR_V	427	001	Drug Structures in Medicinal Chemistry	W2	Therapeutically important privileged scaffolds and functional groups, and selectivity achieved through different chemical modifications. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of CHEM 233, PHAR 202.	In Person Learning	Mon Wed Fri	9:00 a.m. - 10:00 a.m.	
PHAR_V 427-D01	PHAR_V	427	D01	Drug Structures in Medicinal Chemistry	W2	Therapeutically important privileged scaffolds and functional groups, and selectivity achieved through different chemical modifications. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of CHEM 233, PHAR 202.	In Person Learning	Fri	12:00 p.m. - 2:00 p.m.	
PHAR_V 428-001	PHAR_V	428	001	Clinical Chemistry	W1	Principles, practices and procedures of medical laboratory clinical chemistry. This course is not eligible for Credit/D/Fail grading. Prerequisite: CHEM 211.	In Person Learning	Arranged	Arranged	
PHAR_V 429-001	PHAR_V	429	001	Adverse Drug Reactions	W2	Molecular and physiological basis of common adverse drug reactions (ADRs). ADRs in the context of current understanding of drug metabolism and pharmacogenetics. New approaches to prediction, detection and treatment. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue Thu	11:00 a.m. - 12:30 p.m.	
PHAR_V 431-001	PHAR_V	431	001	Functional Foods	W2	Functional food concepts related to efficacy and safety; examples of bioactive component-disease relationships; natural health products; approval of functional food and health claims; the importance of clinical studies in support of efficacy for health claims; market determinants of functional foods. Credit will be granted for only one of PHAR 431 or FNH 402. This course is not eligible for Credit/D/Fail grading. Prerequisite: Fourth-year standing or permission of the instructor. Equivalency: FNH402	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
PHAR_V 432-001	PHAR_V	432	001	Toxicology	W2	Biochemical, cellular, and molecular processes that govern toxicity elicited by drugs and environmental toxins at the molecular, cellular, tissue, and organ system levels. Adverse drug reactions and precision medicine approaches to mitigate drug toxicity. Prerequisite: PHAR 308.	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.	
PHAR_V 433-001	PHAR_V	433	001	Advanced Pharmacokinetics	W1	Polyexponential pharmacokinetics, pharmacokinetic/pharmacodynamic modeling, pharmacokinetic predictions, physiologically-based pharmacokinetic modeling and population-based pharmacokinetic modeling. Credit will be granted for only one of PHAR 433 or PHAR 502. This course is not eligible for Credit/D/Fail grading. Prerequisite: PHAR 302.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.

PHYS_V 341-201	PHYS_V	341	201	Physics of Music	W2	An introduction to the physical principles important to the production, transmission and perception of musical sounds. The treatment will be non-mathematical; with emphasis on demonstrations. Topics may include the description of sound waves, resonances, scales, physics of hearing, examination of specific musical instruments, etc. Not for credit in the Faculties of Science and Applied Science. [3-0-0]	In Person Learning	Mon Wed Fri	2:00 p.m. - 3:00 p.m.
PHYS_V 348-101	PHYS_V	348	101	Frontiers in Physics and Astronomy	W1	Current research topics in physics and astronomy are investigated and explored. Technical communication and research skills are studied and developed via oral presentations and written scientific reports on these current research topics. [3-0-0] Prerequisite: Third-year standing in a physics honours program or fourth-year standing in a physics or astronomy major program.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
PHYS_V 349-001	PHYS_V	349	001	Directed Research Project in Physics	W1-2	A research project, undertaken under the direction of a faculty member, culminating in a written report. This course requires approval of the course instructor and program advisor in the Department of Physics and Astronomy. [1*-6-0]	In Person Learning	Arranged	Arranged
PHYS_V 350-201	PHYS_V	350	201	Applications of Classical Mechanics	W2	Review of principles. Particle mechanics: Euler's equations, tops and gyroscopes, motion of the Earth, Lagrangian and Hamiltonian methods. Variational principles in optics and mechanics, Liouville's theorem and statistical mechanics. The relationship between classical and quantum mechanics. [3-0-0]	In Person Learning	Mon Wed Fri	3:00 p.m. - 4:00 p.m.
PHYS_V 350-T2A	PHYS_V	350	T2A	Applications of Classical Mechanics	W2	Review of principles. Particle mechanics: Euler's equations, tops and gyroscopes, motion of the Earth, Lagrangian and Hamiltonian methods. Variational principles in optics and mechanics, Liouville's theorem and statistical mechanics. The relationship between classical and quantum mechanics. [3-0-0]	In Person Learning	Mon	9:00 a.m. - 10:00 a.m.
PHYS_V 399-610	PHYS_V	399	610	Co-operative Work Placement III	W1	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. Normally taken during the summer following the third year. Technical report required. Restricted to students admitted to the Co-operative Education Program in Physics. This course is not eligible for Credit/D/Fail grading. Prerequisite: [PHYS299]	In Person Learning	Arranged	Arranged
PHYS_V 399-612	PHYS_V	399	612	Co-operative Work Placement III	W2	Approved and supervised technical work experience in an industrial research setting for a minimum of 3.5 months. This course is not eligible for Credit/D/Fail grading. Prerequisite: [PHYS299]	In Person Learning	Arranged	Arranged
PHYS_V 400-101	PHYS_V	400	101	Introduction to Elementary Particles	W1	Standard model, classification of elementary particles and forces of nature, symmetries, conservation laws, quark model, quantum electrodynamics, quantum chromodynamics, and the theory of weak interactions. [3-0-0] Prerequisite: One of PHYS 304, PHYS 450.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.
PHYS_V 401-201	PHYS_V	401	201	Electromagnetic Theory	W2	Applications of Maxwell's theory. Wave propagation in dielectrics, conductors and plasmas, wave guides, radiation, antennae, and special relativity. [3-0-0] Prerequisite: One of PHYS 301, PHYS 354.	In Person Learning	Mon Wed Fri	1:00 p.m. - 2:00 p.m.
PHYS_V 402-201	PHYS_V	402	201	Applications of Quantum Mechanics	W2	Spin and angular momentum addition, perturbation methods, and applications in the fields of Atomic, Molecular, Nuclear, and Solid State Physics. [3-0-0] Prerequisite: One of PHYS 304, PHYS 450.	In Person Learning	Tue Thu	9:30 a.m. - 11:00 a.m.

PHYS_V 403-201	PHYS_V	403	201	Statistical Mechanics	W2	Principles and applications of statistical mechanics. Ideal gases, degenerate Fermi gases, Bose-Einstein condensation, black body radiation, fluctuations and phase transitions. [3-0-0] Prerequisite: One of PHYS 203, ENPH 257, PHYS 257, CHEM 201, CHEM 304 and one of PHYS 304, PHYS 450, CHEM 312. One of MATH 302, MATH 318, STAT 241, STAT 251, STAT 302 is recommended.	In Person Learning	Mon Wed Fri	10:00 a.m. - 11:00 a.m.	
PHYS_V 404-101	PHYS_V	404	101	Introduction to Medical Physics	W1	Radiotherapy, X-ray imaging, nuclear medicine, magnetic resonance imaging and biomedical optics. [3-0-0] Prerequisite: Third year standing in Science or Applied Science is required. MATH 200 (or MATH 217 or MATH 226) is recommended.	In Person Learning	Tue Thu	8:00 a.m. - 9:30 a.m.	
PHYS_V 405-101	PHYS_V	405	101	Radiation Biophysics	W1	Physical and chemical interactions of ionizing radiations and their biological effects at the cellular, tissue and whole-animal levels. [3-0-0] Prerequisite: One of PHYS 102, PHYS 108, PHYS 118, PHYS 153, PHYS 158, SCIE 001. and third year standing in Science or Applied Science.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.	
PHYS_V 407-101	PHYS_V	407	101	Introduction to General Relativity	W1	Physical consequences of Einstein's equations, including the principle of equivalence, curved space-time, geodesics, the Schwarzschild solution, deflection of light, black holes, and gravitational radiation. [3-0-0] Prerequisite: One of MATH 217, MATH 227, MATH 317 and one of MATH 215, MATH 255. PHYS 301 and one of PHYS 206, PHYS 306 are recommended.	In Person Learning	Mon Wed Fri	12:00 p.m. - 1:00 p.m.	
PHYS_V 408-201	PHYS_V	408	201	Optics	W2	Principles and applications of optical physics. Interference, diffraction, coherence, polarization, Fresnel relations, optical coatings, waves in dielectric media, Gaussian beams, waveguides, optical cavities, lasers, fibre optics, and Fourier optics. [3-3-0] Prerequisite: One of PHYS 301, PHYS 354 and one of MATH 215, MATH 255.	In Person Learning	Wed Fri	8:30 a.m. - 10:00 a.m.	
PHYS_V 408-L2A	PHYS_V	408	L2A	Optics	W2	Principles and applications of optical physics. Interference, diffraction, coherence, polarization, Fresnel relations, optical coatings, waves in dielectric media, Gaussian beams, waveguides, optical cavities, lasers, fibre optics, and Fourier optics. [3-3-0] Prerequisite: One of PHYS 301, PHYS 354 and one of MATH 215, MATH 255.	In Person Learning	Tue	11:00 a.m. - 2:00 p.m.	
PHYS_V 408-L2B	PHYS_V	408	L2B	Optics	W2	Principles and applications of optical physics. Interference, diffraction, coherence, polarization, Fresnel relations, optical coatings, waves in dielectric media, Gaussian beams, waveguides, optical cavities, lasers, fibre optics, and Fourier optics. [3-3-0] Prerequisite: One of PHYS 301, PHYS 354 and one of MATH 215, MATH 255.	In Person Learning	Wed	11:00 a.m. - 2:00 p.m.	
PHYS_V 408-L2C	PHYS_V	408	L2C	Optics	W2	Principles and applications of optical physics. Interference, diffraction, coherence, polarization, Fresnel relations, optical coatings, waves in dielectric media, Gaussian beams, waveguides, optical cavities, lasers, fibre optics, and Fourier optics. [3-3-0] Prerequisite: One of PHYS 301, PHYS 354 and one of MATH 215, MATH 255.	In Person Learning	Fri	2:00 p.m. - 5:00 p.m.	
PHYS_V 408-L2D	PHYS_V	408	L2D	Optics	W2	Principles and applications of optical physics. Interference, diffraction, coherence, polarization, Fresnel relations, optical coatings, waves in dielectric media, Gaussian beams, waveguides, optical cavities, lasers, fibre optics, and Fourier optics. [3-3-0] Prerequisite: One of PHYS 301, PHYS 354 and one of MATH 215, MATH 255.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.	
PHYS_V 409-A_101	PHYS_V	409	A	A_101	Experimental Physics	W1	A laboratory course with a wide choice of experiments for fourth year Honours and Major students. Topics include solid state, nuclear, classical, quantum, electromagnetic and low temperature physics. For six credits, two weekly laboratory periods and completion of a project in second term are required. [0-3-0] Prerequisite: One of PHYS 309, PHYS 319. The credit value for this course will be determined in consultation with the student prior to the registration	In Person Learning	Mon Wed Fri	2:00 p.m. - 5:00 p.m.
PHYS_V 409-B_201	PHYS_V	409	B	B_201	Experimental Physics	W2	A laboratory course with a wide choice of experiments for fourth year Honours and Major students. Topics include solid state, nuclear, classical, quantum, electromagnetic and low temperature physics. For six credits, two weekly laboratory periods and completion of a project in second term are required. [0-3-0] Prerequisite: One of PHYS 309, PHYS 319. Prerequisite: Either (a) all of SPPH 400, SPPH 502 or (b) all of SPPH 521, SPPH 502 or (c) all of SPPH 567, SPPH 502.	Hybrid Learning	Thu (Alternate weeks)	9:30 a.m. - 12:30 p.m.
SPPH_V 500-WB4	SPPH_V	500		WB4	Analytical Methods in Epidemiological Research	W2	Basic epidemiological designs as a framework for commonly used biostatistical techniques such as the Mantel-Haenszel, chi-squared, linear and logistic regression, and survival analysis. Computer packages will be available for computation of assignments. This course is not eligible for Credit/D/Fail grading. Prerequisite: Either (a) all of SPPH 400, SPPH 502 or (b) all of SPPH 521, SPPH 502 or (c) all of SPPH 567, SPPH 502.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
SPPH_V 501-002	SPPH_V	501		002	Analysis of Longitudinal Data from Epidemiological Studies	W2	To explore and compare methods of analyzing continuous and categorical longitudinal data. The issues of missing data and errors in measurement/misclassification will be covered in depth. This course is not eligible for Credit/D/Fail grading. Prerequisite: Either (a) all of SPPH 400, SPPH 500, SPPH 502 or (b) all of SPPH 521, SPPH 500, SPPH 502 or (c) all of SPPH 500, SPPH 502, SPPH 567.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.
SPPH_V 502-001	SPPH_V	502		001	Epidemiological Methods 1	W1	Sources and uses of epidemiologic data for health services planning and administration including methods of data collection and study design. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 502-WB1	SPPH_V	502		WB1	Epidemiological Methods 1	W1	Sources and uses of epidemiologic data for health services planning and administration including methods of data collection and study design. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Fri	1:30 p.m. - 5:00 p.m.
SPPH_V 502-WB3	SPPH_V	502		WB3	Epidemiological Methods 1	W1	Sources and uses of epidemiologic data for health services planning and administration including methods of data collection and study design. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Tue (Alternate weeks)	2:30 p.m. - 5:30 p.m.
SPPH_V 503-WB2	SPPH_V	503		WB2	Epidemiological Methods 2	W2	Critical thinking in epidemiology; principles and methods of study design; context for epidemiological investigations of human health. Prerequisite: SPPH 502 and one of SPPH 400 or SPPH 521.	In Person Learning	Tue Thu	2:00 p.m. - 3:30 p.m.
SPPH_V 504-WB2	SPPH_V	504		WB2	Application of Epidemiological Methods	W2	This second level course will teach research trainees to apply methods taught in prior courses towards the development of a fundable research protocol and the analysis and interpretation of real epidemiologic data. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and all of SPPH 500, SPPH 502, SPPH 503.	Hybrid Learning	Mon	2:00 p.m. - 5:00 p.m.
SPPH_V 506-WB2	SPPH_V	506		WB2	Quantitative Research Methods	W2	Major quantitative research designs, measurement reliability and validity, common data sources used, internal and external validity, research proposals, and peer review. Credit will be granted for only one of SPPH 506 or SPPH 548. This course is not eligible for Credit/D/Fail grading.	Multi-access Learning	Thu	10:30 a.m. - 1:30 p.m.

SPPH_V 507-004	SPPH_V	507	004	M.Sc. Research Seminar	W1	SPPH 507 in conjunction with SPPH 607 is a required course for students in the M.Sc. program. Students present and discuss their research and other topics of interest. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 507-WB1	SPPH_V	507	WB1	M.Sc. Research Seminar	W1	SPPH 507 in conjunction with SPPH 607 is a required course for students in the M.Sc. program. Students present and discuss their research and other topics of interest. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Fri (Alternate weeks)	9:00 a.m. - 11:30 a.m.
SPPH_V 508-001	SPPH_V	508	001	M.P.H. Practicum	W1	Applied epidemiology and biostatistics in a field setting. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 508-002	SPPH_V	508	002	M.P.H. Practicum	W2	Applied epidemiology and biostatistics in a field setting. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 508-003	SPPH_V	508	003	M.P.H. Practicum	W1-2	Applied epidemiology and biostatistics in a field setting. Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 510-002	SPPH_V	510	002	Survey Methods in Health Measurement	W2	Concepts and techniques of measurement in epidemiological research. Topics covered include validity, reliability and misclassification, scale design and the construction of questionnaires and indices for both health outcomes and exposures. Prerequisite: One of SPPH 400, SPPH 521.	In Person Learning	Arranged	Arranged
SPPH_V 511-002	SPPH_V	511	002	Cancer Control and Epidemiology	W2	Collection and analysis of epidemiological data on cancer; genetic, occupational, and other risk factors; analytic techniques; cancer control, prevention, screening, early detection, and policy issues. This course is not eligible for Credit/D/Fail grading. Prerequisite: SPPH 502. or equivalent.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
SPPH_V 512-002	SPPH_V	512	002	The Design and Analysis of Clinical Trials	W2	Ethical considerations, intention-to-treat versus efficacy trials, principles of sampling and exclusion, methods of allocation and techniques of randomization, parallel versus cross over design, monitoring treatment outcomes, adverse effects, stopping rules, analytic techniques and data interpretation, and logistical issues in the management of clinical trials. This course is not eligible for Credit/D/Fail grading. Prerequisite: One of SPPH 502, SPPH 513.	In Person Learning	Tue	9:30 a.m. - 12:30 p.m.
SPPH_V 513-002	SPPH_V	513	002	Clinical Epidemiology	W2	Principles and methods of epidemiology are applied to clinical problems. Evaluation and design of laboratory and clinical tests and of therapeutic interventions. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Mon	9:00 a.m. - 12:00 p.m.
SPPH_V 514-002	SPPH_V	514	002	Decision Analysis in Health Care	W2	Methods and application of decision analysis to improve health from the perspective of the policy maker, health professional, and patient. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
SPPH_V 515-002	SPPH_V	515	002	Surveillance and Monitoring in Public Health	W2	Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.
SPPH_V 516-001	SPPH_V	516	001	Methods for Systematic Reviews in Health Research	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:00 a.m. - 12:00 p.m.
SPPH_V 519-WB2	SPPH_V	519	WB2	Qualitative Methods in Health Research Design	W2	Purposes, context, procedures, and relationships within qualitative health research and methodologies. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Thu (Alternate weeks)	2:00 p.m. - 5:00 p.m.
SPPH_V 520-002	SPPH_V	520	002	Control of Communicable Disease	W2	Epidemiology of viral, bacterial and parasitic infections with emphasis on the control of these infections in human populations. Immunization programs will be stressed. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Mon	9:00 a.m. - 12:00 p.m.
SPPH_V 521-WB1	SPPH_V	521	WB1	Statistics for Health Research	W1	Planned collection, numeric and graphic summarization, elementary statistical analysis of data. Examples from health sciences illustrate standard techniques for parametric and nonparametric hypothesis testing; regression and correlation; contingency tables. Also randomization, "blindfolding" and other specifically biomedical topics in statistics. Credit will be granted for only one of SPPH 400 or SPPH 521.	Hybrid Learning	Fri (Alternate weeks)	9:30 a.m. - 12:30 p.m.
SPPH_V 521-WB3	SPPH_V	521	WB3	Statistics for Health Research	W1	Planned collection, numeric and graphic summarization, elementary statistical analysis of data. Examples from health sciences illustrate standard techniques for parametric and nonparametric hypothesis testing; regression and correlation; contingency tables. Also randomization, "blindfolding" and other specifically biomedical topics in statistics. Credit will be granted for only one of SPPH 400 or SPPH 521.	In Person Learning	Tue/Thu	12:30 p.m. - 2:00 p.m.
SPPH_V 522-WB2	SPPH_V	522	WB2	Topics in Environmental Health	W2	Role of air, water, food and solid waste as sources of human health risks; global environmental health issues; sustainability. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon	9:00 a.m. - 12:00 p.m.
SPPH_V 523-002	SPPH_V	523	002	Global Health and Human Security	W2	Global threats to human health stemming from conflict, poverty, and environmental degradation. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	2:00 p.m. - 5:00 p.m.
SPPH_V 526-002	SPPH_V	526	002	Leadership in Public Health	W2	Organizational structure; engaging others in an organization; inter-organizational networking; building coalitions; identification of opportunities to bring change to organizations through knowledge development, management, synthesis, and implementation. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 526-003	SPPH_V	526	003	Leadership in Public Health	W1	Organizational structure; engaging others in an organization; inter-organizational networking; building coalitions; identification of opportunities to bring change to organizations through knowledge development, management, synthesis, and implementation. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 526-004	SPPH_V	526	004	Leadership in Public Health	W2	Organizational structure; engaging others in an organization; inter-organizational networking; building coalitions; identification of opportunities to bring change to organizations through knowledge development, management, synthesis, and implementation. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
SPPH_V 527-WB1	SPPH_V	527	WB1	Social Determinants of Health	W1	Foundational thinking giving rise to the concept of population health. Overview of the current state of research. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Wed (Alternate weeks)	9:00 a.m. - 12:00 p.m.

SPPH_V 527-WB2	SPPH_V	527	WB2	Social Determinants of Health	W2	Foundational thinking giving rise to the concept of population health. Overview of the current state of research. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Wed (Alternate weeks)	9:30 a.m. - 12:30 p.m.

SPPH_V 532-002	SPPH_V	532	002	Environmental Health Risk Assessment and Communication	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 533-002	SPPH_V	533	002	Toxicology and Public Health	W2	Mechanism of action of commonly encountered occupational toxic agents; relevance of laboratory and epidemiological evidence. This course is not eligible for Credit/D/Fail grading. Prerequisite: Permission of instructor.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.
SPPH_V 535-001	SPPH_V	535	001	Principles of Occupational and Environmental Hygiene	W1	Scientific basis for the recognition, evaluation, and control of chemical, physical, and biological, exposures; standard setting; exposure monitoring methods. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	10:30 a.m. - 12:00 p.m.
SPPH_V 536-WB2	SPPH_V	536	WB2	Aboriginal People and Public Health: Ethics, Policy, and Practice	W2	Experience of colonization; Indian Act; the histories and intergenerational impact of the residential school, child-welfare systems; communicable disease prevention; the challenge of ethical public health practice; and traditional healing. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	4:00 p.m. - 7:00 p.m.
SPPH_V 537-001	SPPH_V	537	001	Perinatal Epidemiology	W1	Indicators of maternal/newborn well-being across population subgroups, changing trends in obstetrical intervention, perinatal morbidity, and the analysis of perinatal data. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502. Corequisite: SPPH 500 Equivalency: OBST 507	In Person Learning	Wed	1:30 p.m. - 4:30 p.m.
SPPH_V 538-002	SPPH_V	538	002	Application of Ethical Theories in the Practice of Public Health	W2	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:00 a.m. - 12:00 p.m.
SPPH_V 540-002	SPPH_V	540	002	Program Planning and Evaluation	W2	Examines the concept of evaluation in health services and how various methodological approaches can be used in evaluative studies. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.
SPPH_V 541-001	SPPH_V	541	001	Economic Evaluation	W1	Economic evaluation of health service interventions and programs, with emphasis on methods and components of program costing. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Arranged	Arranged
SPPH_V 541-002	SPPH_V	541	002	Economic Evaluation	W2	Economic evaluation of health service interventions and programs, with emphasis on methods and components of program costing. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
SPPH_V 542-WB1	SPPH_V	542	WB1	Canadian Health Policy	W1	Analysis of the evolution and structure of the Canadian health care system. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Mon	9:00 a.m. - 10:30 a.m.
SPPH_V 545-001	SPPH_V	545	001	Community Health Promotion	W1	Practice and community-based (participatory) research related to health promotion, including its historical and philosophical roots. Application of social and behavioural theories to participatory research and the planning, implementation, and evaluation of community health promotion initiatives. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 546-001	SPPH_V	546	001	Introduction to Health Economics	W1	Broad understanding of the health system and health system change from an economics perspective, with a focus on delivery, organization, and financing of healthcare. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.
SPPH_V 547-BL2	SPPH_V	547	BL2	Health Care Priority Setting	W2	Resource allocation, economics and ethics based approaches for decision making, uptake of evidence to inform resource use in health care. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged
SPPH_V 548-WB1	SPPH_V	548	WB1	Knowledge to Action in Population Health	W1	This course is not eligible for Credit/D/Fail grading.	In Person Learning	Mon	1:00 p.m. - 4:00 p.m.
SPPH_V 550-WB1	SPPH_V	550	WB1	Public Health Approaches to Substance Use and Addictions	W1	Critical examination of strategies regarding addictive behaviours, substance use and related problems, in the context of a multi-disciplinary approach. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:00 a.m. - 12:00 p.m.
SPPH_V 551-002	SPPH_V	551	002	Pharmacoepidemiology	W2	Principles and applications of pharmacoepidemiology. Practical skills in designing, conducting, and appraising studies of medications in large populations. Credit will be granted for only one of SPPH 551 or PHAR 561. Prerequisite: Previous coursework in statistics or biostatistics.	In Person Learning	Wed	1:00 p.m. - 4:00 p.m.
SPPH_V 552-WB1	SPPH_V	552	WB1	Science and Risk Communication for Public Health	W1	Theory and practice of risk communication in public health, basic principles underlying effective science communication with peers, the media, and the public. This course is not eligible for Credit/D/Fail grading.	Hybrid Learning	Wed	1:00 p.m. - 4:00 p.m.
SPPH_V 552-WB2	SPPH_V	552	WB2	Science and Risk Communication for Public Health	W2	Theory and practice of risk communication in public health, basic principles underlying effective science communication with peers, the media, and the public. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged

SPPH_V 553-001	SPPH_V	553	001	Foundations of Public Health Computing	W1	Data gathering, cleaning, analysis, and visualization to produce key results using statistical software. This course is not eligible for Credit/D/Fail grading. Prerequisite: Either (a) SPPH 400 or (b) SPPH 521; and SPPH 502.	In Person Learning	Thu	2:00 p.m. - 5:00 p.m.	
SPPH_V 562-002	SPPH_V	562	002	Chemical and Biological Hazard Measurement	W2	Industrial hygiene and environmental exposure monitoring, methods, and instrumentation, and theory. Laboratories demonstrate workplace sampling and analysis techniques. This course is not eligible for Credit/D/Fail grading. [2-3] Prerequisite: SPPH 535.	In Person Learning	Thu	2:00 p.m. - 4:00 p.m.	
SPPH_V 563-001	SPPH_V	563	001	Technical Aspects of Occupational Hygiene Hazard Controls	W1	Industrial ventilation, heating and air conditioning systems, respiratory protection, chemical protective clothing. This course is not eligible for Credit/D/Fail grading. Prerequisite: SPPH 535.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.	
SPPH_V 564-002	SPPH_V	564	002	Advanced Topics in Occupational and Environmental Health	W2	Recommended: SPPH 567 or an equivalent statistics or quantitative course is recommended. This course is not eligible for Credit/D/Fail grading. Prerequisite: All of SPPH 502, SPPH 535. Corequisite: SPPH 522.	In Person Learning	Tue	2:00 p.m. - 5:00 p.m.	
SPPH_V 565-001	SPPH_V	565	001	Ergonomics	W1	Human factors in workplace design, anthropometry, work physiology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
SPPH_V 565-002	SPPH_V	565	002	Ergonomics	W2	Human factors in workplace design, anthropometry, work physiology. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Wed	9:00 a.m. - 12:00 p.m.	
SPPH_V 566-001	SPPH_V	566	001	Occupational Hygiene Practice	W1	Application of occupational hygiene principles using field investigations, critical appraisal of results, and communication with labour and management. This course is not eligible for Credit/D/Fail grading. [2-3] Prerequisite: SPPH 562. Corequisite: SPPH 563.	In Person Learning	Mon	1:30 p.m. - 3:00 p.m.	
SPPH_V 567-002	SPPH_V	567	002	Quantitative Methods for the Assessment and Analysis of Exposure Data	W2	Determinants of exposure, sampling strategies. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	9:00 a.m. - 12:00 p.m.	
SPPH_V 568-001	SPPH_V	568	001	Occupational Safety Programs and Systems	W1	Safety management; systems analysis; accident investigation; collection of accident data; fault trees; total loss control. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Tue	9:00 a.m. - 12:00 p.m.	
SPPH_V 568-002	SPPH_V	568	002	Occupational Safety Programs and Systems	W2	Safety management; systems analysis; accident investigation; collection of accident data; fault trees; total loss control. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Arranged	Arranged	
SPPH_V 569-001	SPPH_V	569	001	Industrial and Environmental Acoustics and Vibration	W1	Fundamentals of acoustics and vibrations, physiologic effects, measurement, instrumentation, interpretation of data, industrial standards, and control. For students in Occupational and Environmental Hygiene; other graduate students may enrol with permission of the instructor. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Thu	9:00 a.m. - 12:00 p.m.	
SPPH_V 570-003	SPPH_V	570	003	Current Issues in Public Health Practice	W1-2	Pass/Fail. This course is not eligible for Credit/D/Fail grading.	In Person Learning	Fri	12:00 p.m. - 5:00 p.m.
