Work Learn | Proposal Submission Guide

Proposals submitted for the Work Learn Program serve two purposes:
1. to apply for a subsidy from the program, and
2. as a clear and detailed job posting to communicate the work opportunity to students.

A successful proposal must take into consideration,

- Be student-centered. Write your proposal to appeal to students’ interest. If successful, your proposal will be published on Careers Online to recruit students.
- Provide concrete, illustrative examples. Avoid general statements and include at least two concrete examples when responding to the prompting questions in this document.
- Use clear and concise language. Remember both reviewers and students applying may have limited knowledge of your unit/discipline and any jargon.
- Answer all of the prompting questions below. Be as detailed as you can and address all the questions, including at least two concrete examples.
- Ideal length is 2 pages. A longer proposal does not equal a strong proposal. Please do not exceed three pages (proposals longer than 3 pages will not be read)

Purpose of the Work Learn program

The Work Learn Program supports and subsidizes meaningful work experiences on campus that offer opportunities for all current UBC Vancouver students to develop their professional skills and learn in a work environment. The student learning and experiential outcomes for these work experiences are: mentorship opportunities, professional skill development and application of knowledge, developing a network, ownership and responsibility of work, self-awareness and reflection, as well as contributing to personal learning goals and the University as a whole.

Faculty and Staff Website – review for timeline, terms and conditions, payroll, supervisor resources and more
Student Website – review for detailed breakdown on student eligibility

Proposal submission

1. Select the Position Category for your role. Review the Work Learn job categories All Work Learn positions must fit within the appropriate rates and conditions as outlined in the Position Classification Guide Winter | Summer. Choose the appropriate job category and ensure your job description aligns.

2. Job title. Your job title must start with the program initials and cycle for example, ‘WL W22 STUDENT ROLE UNIT ACRONYMS’ or ‘WL S23 ROLE NAME. Limit the words/characters to 60 maximum as per the limits established on the experiential form on Careers Online.

3. Answer all the guiding questions. Ensure that you answer all the prompting questions for a) Job description, b) Contribution to the university community and, c) Student learning components.

4. Apply on Careers Online. Submit your Work Learn proposal on CareersOnline. Pay close attention when adding submitting your proposal to ensure each section includes the correct information.
